

Maintaining a Solid Position

2015 Annual Report

BCA

Always by your side

Theme Continuity

2011

Nurturing Relationships, Supporting Growth

BCA's success in sustaining strong growth is the result of the dedication and hard work of all the Bank's employees and is underpinned by Indonesia's robust economic development. Leveraging off the core transaction banking business, BCA continues to expand lending and develop complementary business initiatives while continuously working to improve service quality. These efforts provide the framework for BCA to nurture relationships with existing clients and forge lasting relationships with new customers. With a reliable and secure banking platform and a wide array of financial service products, BCA is at the forefront in supporting the financial needs and contributing to the growth of our customers.

2012

Always by Your Side

Over the course of our 55 year history, BCA has provided quality financial solutions to our customers. Looking to the future, BCA will continue to nurture meaningful long-term relationships with our customers, our employees and all stakeholders, "Always by Your Side". As BCA evolves along with our loyal customers, our customers' sustainable growth becomes our sustainable growth.

2013

Steadfast in an Uncertain Global Environment

2013 was a challenging year for the Indonesian economy. In an environment of global economic uncertainty and slowing domestic economic growth, BCA leveraged off its solid financial position to support the financial needs of its customers and maintain its position as a leading transaction bank in Indonesia.

Customer satisfaction is at the heart of BCA's business strategy. The Bank understands the importance of standing by its customers especially during volatile economic periods. Lending prudence and understanding the needs of its customers were key to remaining steadfast in an uncertain global environment.

2014

Delivering Value During a Transition Period

2014 was a year of both political and economic transition for Indonesia marked by high volatility in the foreign exchange and capital markets and continuing pressure on commodity prices.

The solid foundation laid by the previous government provides a sound basis for facing the macro economic issues now impacting the Indonesian economy. The new administration is taking steps to address these issues, including the reallocation of a large part of the fuel subsidy budget to other strategic areas, that should pave the way for future sustainable economic development.

New challenges for the Indonesian banking industry surfaced in 2014 as the result of a slowing economy and tightening liquidity which both limited the capacity for loan growth and led to higher sector NPL's. BCA successfully maintained its solid performance and delivered value to its stakeholders throughout this transition year by boosting liquidity and maintaining prudential lending guidelines.

2015

Maintaining a Solid Position

Navigating Challenges, Capturing Opportunities

The Indonesian economy continued to be negatively impacted by a weak global economy and a variety of domestic macro-economic challenges. The relative slowdown in the domestic economy was reflected in the Indonesian banking industry with deterioration in loan quality and slower loan and third party funds growth.

BCA successfully maintained its solid position in 2015 by consistently implementing prudent policies focused on maintaining loan quality, a strong capital position, and a healthy liquidity position.

BCA's solid financial position allows the Bank to support its customers through all economic conditions while providing a strong base to capture business opportunities for future growth.

Maintaining a Solid Position

2015 Annual Report

Maintaining a Solid Position

Navigating Challenges, Capturing Opportunities

The Indonesian economy continued to be negatively impacted by a weak global economy and a variety of domestic macro-economic challenges. The relative slowdown in the domestic economy was reflected in the Indonesian banking industry with deterioration in loan quality and slower loan and third party funds growth.

BCA successfully maintained its solid position in 2015 by consistently implementing prudent policies focused on maintaining loan quality, a strong capital position, and a healthy liquidity position.

Solid Financial Position

In 2015, BCA continued to post positive financial performance by promoting a prudent approach to business and taking proactive steps to manage and minimize risk exposure.

BCA's solid financial position allows the Bank to support its customers through all economic conditions while providing a strong base to capture business opportunities for future growth.

Quality Lending

By applying the principle of prudence, BCA was able to maintain NPL ratio at a low level of 0.7%.

Liquidity

The Bank's sound liquidity position was supported by stable and low-cost CASA funds as the main source of liquidity.

Capital Adequacy

The majority of BCA's capital base consists of Tier I capital, reflecting the Bank's solid capital structure.

Milestones

1955

Bank Central Asia (BCA) founded as "NV Perseroan Dagang Dan Industrie Semarang Knitting Factory."

1957

BCA commenced operations on 21st February 1957 with Head Office located in Jakarta.

1970's

BCA strengthens its delivery channels and obtained a license to open as a Foreign Exchange Bank in 1977.

1980's

BCA aggressively expanded its branch network in line with the deregulation of the Indonesian banking sector.

BCA developed its information technology capacity, by establishing an online system for its branch office network, and launches new products and services including the Tahapan BCA savings accounts product.

1990's

BCA develops the Automated Teller Machine (ATM) network as an alternative delivery channel.

In 1991, BCA installed 50 ATM units in various locations in Jakarta.

BCA intensively develops the ATM network and features.

BCA works with well-known institutions, such as PT Telkom and Citibank, allowing BCA's customers to pay their Telkom phone bill or Citibank credit card bill through BCA ATMs.

Corporate actions highlights in 2000-2005

2002

FarIndo Investment (Mauritius) Limited acquired 51% of BCA's shares through a strategic private placement.

2004

IBRA divested a further 1.4% of its BCA shares to domestic investors through a private placement.

2005

The Government of Indonesia through PT Perusahaan Pengelola Aset (PPA), divested the remaining 5.02% of its BCA shares and no longer has share ownership in BCA.

Note: There has been dilution effect to existing shareholders as new shares were issued in accordance with the Management Stock Option Plan, in which stock options were executable in the period from November 2001 to November 2006

Business development after 2000

BCA strengthens and develops its products and services, especially in electronic banking, by launching Debit BCA, Tunai BCA, KlikBCA internet banking, m-BCA mobile banking, EDCBIZZ, etc.

BCA establishes a Disaster Recovery Center in Singapore.

BCA develops expertise in lending, including expansion into vehicle financing through its subsidiary, BCA Finance.

2007

BCA became a pioneer in introducing fixed-rate mortgage products. BCA launches its stored-value card, Flazz Card, and introduced Weekend Banking to maintain its transaction banking leadership.

2008-2009

BCA proactively manages its lending and liquidity position in the face of unprecedented global turbulence while continuing to strengthen the core transaction banking franchise.

BCA completes the setting up of a mirroring IT system to strengthen business continuity and reduce operational risk.

BCA introduces Solitaire, a new banking service for high net-worth individual customers.

1997-1998

BCA experiences a bank rush during the Indonesian economic crisis.

In 1998 BCA became a Bank Taken Over (BTO) and was placed under the recapitalization and restructuring program operated by the Indonesian Bank Restructuring Agency (IBRA), a Government Institution.

1999

BCA was fully recapitalized with the Government of Indonesia, through IBRA, assuming ownership of 92.8% of BCA shares in exchange for liquidity support from Bank Indonesia and a swap of related-party loans for Government Bonds.

Corporate actions highlights in 2000-2005

2000

IBRA divested 22.5% of its BCA shares through an Initial Public Offering, reducing its ownership of BCA to 70.3%.

2001

In a Secondary Public Offering, 10% of BCA's total shares were made available to the market. IBRA's ownership of BCA decreased to 60.3%.

2010-2013

BCA enters new lines of business including Sharia banking, motorcycle financing, general insurance and the capital markets business. In 2013, BCA increased its effective ownership from 25% to 100% in its general insurance arm PT Asuransi Umum BCA (formerly PT Central Sejahtera Insurance and also known as BCA Insurance).

BCA strengthens its transaction banking through further development of innovative products and services, notably with mobile banking applications in the latest Smartphones, with payment settlement services through e-Commerce, and through a new concept of Electronic Banking Center which equips ATM Centers with additional technology-backed features.

Enhancing the reliability of its banking services, BCA completes a new Disaster Recovery Center (DRC) facility in Surabaya which functions as a disaster recovery backup data center, integrated with the current two mirroring data centers. The new DRC replaced the previous DRC in Singapore.

2014

The Electronic Banking Center concept refined and rebranded under the name MyBCA, equipped with HaloBCA video conference and various video banking services.

In January 2014, BCA finalized share purchase of PT Central Santosa Finance (CS Finance), a subsidiary engaged in two-wheeler financing, increasing the Bank's effective ownership of CS Finance from 25% to 70%.

BCA obtained permission to provide life insurance services through PT Asuransi Jiwa BCA (BCA Life), which operates as a subsidiary of BCA Sekuritas.

BCA continues to lend prudently to support the funding needs of existing customers during a year of economic and political uncertainty.

2015

BCA continues to develop transaction banking services with improvements to BCA's cash management services through the KlikBCA Integrated Business Solution internet banking platform.

BCA expands the Cash Recycling Machine ATM network in order to enhance long-term operational efficiency.

BCA launches 'Sakuku', an app based electronic wallet and financial transaction platform.

BCA strengthens the capital of the three subsidiaries, BCA Syariah, BCA Insurance and BCA Life, to support future development of the subsidiaries and in line with regulatory requirements.

Letter to Shareholders

32 Board of Commissioners' Supervisory Report

41 Report of the Board of Directors

Board of Commissioners' Supervisory Report

BCA successfully balanced short and long-term targets to achieve the Bank's strategic goals and in line with BCA's vision and mission

Dear respected Shareholders,

During 2015 the Board of Commissioners continued to actively perform its role of overseeing the Bank's management by the Board of Directors. We are pleased to report that the Bank achieved positive results during the year, despite the challenges faced by the domestic economy and the Indonesian banking sector. In an uncertain economic situation, BCA focused on quality loan growth and maintaining a solid liquidity position supported by a strong capital base.

Due to the unstable business environment, BCA assumed a more prudent posture in managing the Bank throughout 2015 and remained on track to achieve long-term strategic objectives. Open communication between the Board of Commissioners and the Board of Directors allowed for a single direction to be upheld in the resolution of the various issues faced by the Bank as well as for pursuing business opportunities.

BCA continuously improves upon operational efficiency and enhances the Bank's long-term capabilities in all lines of business and those of the subsidiaries. We are confident that these efforts will improve the quality of the services delivered to customers and have a positive effect on BCA's overall performance.

ECONOMIC REVIEW 2015

Indonesia has experienced a slowing economic cycle in recent years. Economic conditions and uncertainty in the global financial market provided a challenge for the national economy in the aftermath of the commodity boom and abundant foreign capital flows. The global economy

experienced lower than expected growth even with the various economic stimuli deployed in many developed countries. It is expected that the global economy will take several years to achieve the growth rates seen in the past.

The US economy was seen to improve as reflected in increased household spending and business investment as well as a recovery in the property sector. As a vote of confidence in the nation's economic future, the US Central Bank (The Fed) raised the Fed Funds Rate in December 2015 for the first time since the financial crisis. Nevertheless, with the downturn in export activities and the unstable pattern of consumption and unemployment rates in the US, the turnaround is still somewhat limited. Several delays in announcing the long-anticipated Fed Funds Rate hike amid concerns over the US economy and financial market generated uncertainty for market players. In 2015 the world's second largest economy, China, showed a downward trend as a result of weakening exports and concerns over the high level of debt against GDP. Concurrently, the economy in the Euro zone remains fragile despite signs of improvement driven by increasing domestic demand.

Overall, the world economy was marked by uncertainty and extreme volatility in 2015 with commodity prices under severe pressure and negatively impacting Indonesian commodity exports. These external factors were exacerbated by a relatively stagnant performance in the realization of foreign direct investment, Government spending and domestic consumption. As a result, economic growth in Indonesia was recorded at 4.8%, one of the lowest rates of the last 6 years.

He is sitting in a brown armchair, looking slightly to the right of the camera with a gentle smile. The background is a large window with a view of a city skyline, which is softly blurred.

Djohan Emir Setijoso
President Commissioner

Since the fourth quarter of 2011, Indonesia's current account position has shifted from surplus to deficit. Bank Indonesia and the Indonesian Government continue to make efforts to dampen the magnitude of the current account deficit and managed to improve the deficit to 2.1% of GDP in 2015, compared to the previous year's 3.1% of GDP. This improvement was a result of Indonesia's trade surplus, as the decline in imports was greater than the decline in exports. However, the risk of an increasing current account deficit must be monitored should domestic economic growth accelerate, given the large dependence on imports for domestic consumption and imported capital goods and raw materials for various domestic manufacturing activities. The increase and the stability of investment flows will play an important role for the national economy in balancing the current account deficit.

The condition of the current account deficit and the high foreign currency demand for the payment of foreign debt has put pressure on the Rupiah against the US Dollar exchange rate. Furthermore, the uncertainty of the direction of the Fed Funds Rate has significantly added to the volatility of the domestic currency. The decision to increase the Fed Funds Rate in December 2015 provided the market with some indication of expected future Federal Reserve interest rate policy. The Chinese government's policy to devalue the Yuan also affected the exchange rates of Asian currencies, including the Rupiah. The Rupiah exchange rate reached its lowest point at Rp 14,693 / USD in September 2015. The value of the Rupiah depreciated 10.2% to Rp 13,788 / USD at the end of 2015 compared to Rp 12,388 / USD at the end of 2014.

Bank Indonesia and the Indonesian Government continued to take proactive steps to maintain the Rupiah at a rate that they believed to be consistent with economic fundamentals. Bank Indonesia held the BI Rate at 7.5% since February 2015 to the end of 2015 to maintain the stability of the Rupiah while simultaneously directing the current account deficit to a more healthy level.

The Government has also launched work programs and fiscal policy packages to encourage faster economic growth in the coming years. Notably, the Government implemented an energy subsidy reform; formulated programs to expedite

infrastructure projects; stimulated economic growth in areas outside Java through the establishment of Special Economic Zones; and improved the investment climate by accelerating the processes of obtaining tax allowances, tax holidays, investment permits and by setting-up a one-stop investment service desk.

Although faced with many challenges, we are optimistic for the long-term prospects of the Indonesian economy. We appreciate the Government and regulators' efforts to guide the Indonesian economy in the right direction. We see that the Indonesian public is generally optimistic on the long-term prospects of the Indonesian economy; there has, for example, been no panic buying of foreign currencies or moving funds offshore as happened in 1997-1998. Indonesia's economic growth is amongst the highest of the G-20 countries. Considering the largely productive population, the stability of the country's democracy and the abundance of natural resources, we believe that Indonesia has great long-term economic potential.

REVIEW OF THE INDONESIAN BANKING SECTOR

The Indonesian banking sector faced a slowdown in loan and third party funds growth during 2015 in line with the weakness in the overall Indonesian economy. Nationwide lending and third party funds grew 10.5% and 7.3% respectively, lower than the average 22.0% and 16.4% growth rates experienced from 2007-2012. Overall, the sluggish loan growth in the banking sector was evident across all lending segments with depressed business and consumer lending.

The slowing economic growth also had an impact on the Indonesian banking sector's Non-Performing Loans (NPL), resulting in an NPL ratio of 2.5% at year end 2015 compared to 2.2% in 2014, as well as an increase in bank restructured loans. Although higher than in the last couple of years, loan quality remained manageable with systemwide NPLs maintained below the regulator benchmark of 5%. Reforms introduced over the last several years and the implementation of a risk management culture in the national banking industry has been much more effective than the situation faced during the 1997/1998 crisis. We are certain that the industry is capable of overcoming the challenges faced by the national economy.

The industry experienced pressure in 2015 with regard to profitability, resulting from a slowdown in loan and third party funds growth, as well as rising costs of credit provisioning and operating expenses. Nevertheless, we see that the national banking industry is in a fairly solid condition, underpinned by a strong capital ratio and healthy liquidity. The national banking industry maintained a Capital Adequacy Ratio (CAR) of 21.4% and an adequate Loan to Deposit Ratio (LDR) of 92.1%. Furthermore, Bank Indonesia eased the regulation of Minimum Reserves Requirement to allow for more flexible liquidity reserves. At end of 2015 Bank Indonesia lowered Minimum Reserves Requirement from 8.0% to 7.5%.

ASSESSMENT OF THE PERFORMANCE OF THE BOARD OF DIRECTORS

Based on the supervision conducted throughout 2015, the Board of Commissioners reports that the Board of Directors performed its various functions well and that the steps taken by the Board of Directors were consistent with the expectations of the Board of Commissioners. The Board of Directors and the Board of Commissioners communicated actively regarding all actions taken to overcome various challenges faced by the Bank and to capture business opportunities that arose over the course of the year.

The Board of Directors has proactively prioritized quality loan growth, while maintaining a solid liquidity position and capital base. Long-term and short-term investments and initiatives continue to be applied to strengthen BCA's business capabilities and competitive advantages. BCA continued to develop transaction banking and loan products and services to meet market trends and the evolving needs of the customers. By balancing the focus on short-term and long-term targets, the Bank was able to achieve strategic goals in line with its vision and mission.

BCA was able to maintain excellence in transaction banking through ongoing investments in infrastructure, including expansion of the branch network and enhancement of electronic banking channels. As one of the leading commercial banks in Indonesia, BCA works to strategically expand its integrated multi-channel networks to capture business growth opportunities in promising regions throughout Indonesia. This strategy is intended to optimize customer convenience and provide a service that exceeds the high expectations of the Bank's large customer base.

BCA has recorded a fairly rapid growth in the volume of electronic banking transactions over the last few years. This growth continued into 2015. The role of electronic banking is becoming increasingly important and, in turn, strengthens the role of branch offices in providing integrated banking solutions. The Bank sees the shift in banking preferences amongst customers from branch-based banking models towards electronic banking as a positive movement. Aside from enhancing transaction convenience and customer satisfaction, the developments of electronic banking channels, particularly internet and mobile banking, have also improved the Bank's operational efficiency and resulted in a much lower cost per transaction compared to the cost of transactions conducted through the branch offices. BCA is confident that electronic banking will continue to grow and become a major focus of the Bank in the future.

The Board of Commissioners recognizes BCA's strong leading position in maintaining a solid balance sheet and profitability in 2015. Backed by the Bank's solid financial position, the Board of Commissioners supports the strategic steps taken by the Board of Directors in carrying out investments throughout 2015 and into the future with a view to increasing the franchise value of BCA transaction banking and developing long-term efficiency. Through its convenient, secure and reliable transaction channels, the Bank offers its customers well-established deposit services that ensure customer confidence and in turn secure a stable source of funding for the Bank. BCA's major advantage lies in its funding structure, which largely comprises low-cost and stable transactional accounts (Current Accounts and Savings Accounts - CASA). CASA funds remained the largest portion of the Bank's third party funds, ultimately providing the Bank with a competitive advantage in lending, particularly in determining lending rates.

The Bank's solid liquidity position enables BCA to disburse quality loans. The Bank prioritized lending to customers with good track records in order for the Bank to further establish its role as a reliable business partner. BCA made efforts to maintain lending activities in all segments in line with real demand in the market. In the second half of 2015, the Bank saw loan demand from the corporate sector increase rather significantly, in line with increasing business activities particularly prior to year end. Higher demand for corporate loans also resulted from the conversion of foreign currency

facilities from other banks into Rupiah credit facilities with BCA as corporate clients took steps to minimize the risk of fluctuating exchange rates. Requirements to comply with the Government's policy that all transactions in Indonesia shall be made in Rupiah further increased demand for Rupiah credit facilities.

In consumer loans, the Bank sought to capture opportunities in home and automobile financing through mortgages and vehicle loan facilities with competitive interest rates. This was done within prudent lending guidelines to assure that the quality of the consumer loan portfolio remained high.

Lending opportunities were taken with consideration to risk appetite and portfolio diversification across various industrial sectors and loan segments. BCA's total loan portfolio increased by 11.9% in 2015, driven by growth in the corporate loan portfolio of 17.2%, commercial & SME loans of 8.8%, and consumer loans of 8.9%. Overall, the Bank's asset quality has been maintained, with the NPL ratio recorded at 0.7%, far below the limit of 5% set by Bank Indonesia provisions and below the 2.5% average of the Indonesian banking industry. Nevertheless, in the short term, the Board remains cautious regarding the potential increase in delinquent loans at the Bank until the Indonesian economy is back on track.

In recent years the Bank has invested in and developed the business of its subsidiaries. In addition to the established 4-wheeler financing subsidiary BCA Finance, BCA currently has subsidiaries engaged in 2-wheeler financing; general insurance; life insurance; Sharia banking; remittance; and the securities businesses. Businesses through these subsidiaries are intended to complement the Bank's core business lines, as well as provide comprehensive financial solutions for customers, which in turn will further expand the banking business of BCA. We also expect that synergy between BCA and the subsidiaries will allow for increased fee-based income. The Board of Commissioners recognizes that the steady improvements in the scope and performance of the subsidiaries are in line with the Bank's strategic plan.

We are pleased to report that in 2015, several work programs as well as short-term and long-term initiatives implemented by the Board of Directors enabled the Bank to maintain loan quality and solid business performance and to record a

growth in Net Profit of 9.3% to Rp 18.0 trillion. The Capital Adequacy Ratio (CAR) stood at 18.7% while the Loan to Funding Ratio (LFR) was recorded at 81.1% at year-end 2015, both well within a healthy target range. Additionally, the Bank posted a Return on Assets (ROA) of 3.8% and Return on Equity (ROE) of 21.9%, with a manageable NPL ratio of 0.7%.

SUSTAINABLE DEVELOPMENT OF CORPORATE GOVERNANCE

The Board of Commissioners constantly oversees the implementation of Good Corporate Governance (GCG) at all levels within the organization by evaluating the results of GCG self-assessment and encouraging the improvement of GCG practices with reference to the applicable regulations as well as international best practices. The principles of transparency, accountability, responsibility, independence and fairness guide the Bank's business management. BCA believes that sound GCG is an important asset in fostering a solid and exceptional organizational culture to achieve sustainable business growth and deliver added value for its customers.

In 2015, in line with the regulations of the Indonesia Financial Services Authority, the Bank established the Integrated Corporate Governance Committee to assist the Board of Commissioners in evaluating the implementation of Corporate Governance through, among others, assessment of the adequacy of internal controls and integrated implementation of the Bank and the subsidiaries' compliance function.

The Integrated Corporate Governance Committee provides recommendations to the Board of Commissioners regarding improvements to the integrated corporate governance guidelines. BCA continued to enhance the duties and responsibilities of the relevant work units in the implementation of integrated corporate governance, auditing and risk management, as an essential part of ensuring alignment and synergy between BCA and its subsidiaries. This alignment is increasingly important as the subsidiaries businesses grow in size. The implementation of effective risk management and internal control plays an important role in the mitigation of the possible negative impacts arising from the different risks the subsidiaries face.

BCA regularly performs self-assessment of GCG implementation in accordance with Bank Indonesia Regulations. Self-assessment is intended to maintain and improve the quality of GCG implementation at BCA. We are pleased to report that the self-assessment results for the implementation of GCG at the Bank and the integrated corporate governance in 2015 delivered a composite rating of "Very Good". The Bank's commitment to GCG has received recognition in the form of awards from Indonesian Institute for Corporate Directorship (IICG) and SWA magazine as Indonesia's Most Trusted Company and an award from Finance Asia as one of the Best Corporate Governance companies in Indonesia. The Board of Commissioners is confident that BCA has a solid and effective corporate governance structure to provide support to the business development of BCA and the subsidiaries.

CHANGES TO THE COMPOSITION OF THE BOARD OF COMMISSIONERS

The Board of Commissioners consists of five members, three of whom are Independent Commissioners. With varied knowledge, experience and backgrounds, the Commissioners together make up a complete, solid and effective team in performing the role of supervising the Board of Directors in managing the Bank. In performing its duties, in 2015 the Board of Commissioners held 47 meetings throughout the year and 13 in conjunction with the Board of Directors.

In 2015 there were no changes to the composition of the membership of the Board of Commissioners.

PERFORMANCE REVIEW OF COMMITTEES UNDER THE BOARD OF COMMISSIONERS

In performing its duties and responsibilities, the Board of Commissioners was supported by the Audit Committee, Risk Oversight Committee, Remuneration and Nomination Committee, as well as the Integrated Corporate Governance Committee. These committees uphold the highest quality and standard of competencies.

The Audit Committee assists the Board of Commissioners in the effective implementation of the tasks and functions of supervision on matters related to financial reporting, internal control systems, internal and external audit, good corporate governance, as well as compliance with prevailing laws and

regulations. Throughout 2015, the Audit Committee held 20 meetings, 8 with the Audit Division, and reviewed 179 internal audit reports; the Risk Oversight Committee held 10 meetings to ensure that the risk management framework provided adequate protection against all risks faced by BCA; and the Remuneration and Nomination Committee held 4 meetings. The Remuneration and Nomination Committee was instrumental in evaluating the remuneration policy of the Board of Commissioners, Board of Directors, senior officers, and employees of the Bank as a whole. In 2015, the Integrated Corporate Governance Committee held 2 meetings in order to ensure sound implementation of good corporate governance at the Bank and its subsidiaries. The Board of Commissioners appreciates the support and efforts made by these four committees, allowing for effective supervision across all Bank businesses and subsidiaries.

CORPORATE SOCIAL RESPONSIBILITY

We recognize that the success of the Bank cannot be separated from the support of, and harmonious relationship with, the community. To that end, the Bank actively contributes to society through Corporate Social Responsibility (CSR) activities. BCA CSR programs are directed at education, health, sports, cultural and environmental preservation. To ensure the effective implementation of CSR programs, the Bank actively cooperates with leading institutions including the WWF, UNICEF, universities and the Indonesian Red Cross.

One of the programs actively run by the Bank in recent years is the preservation of *Wayang* (Indonesian puppets) as a cultural heritage. BCA cooperates with cultural preservation organizations to organize various activities under the theme, "BCA for Indonesian Wayang / *BCA untuk Wayang Indonesia*". A weekly program about Wayang has been sponsored by BCA and shown on a national television channel for the last three years.

Continuing from the previous year, the Bank was again the main sponsor for the Indonesian Open 2015, an international badminton tournament in the Superseries Premier category, as an ongoing effort to promote badminton as one of the staples of Indonesian sports culture.

The Bank will continue implementing CSR programs in the coming years as part of BCA's commitment to developing with the community.

BUSINESS PROSPECTS AS VIEWED BY THE BOARD OF COMMISSIONERS

We foresee that the challenges faced by the Indonesian economy will continue into 2016 as the global economy has yet to demonstrate signs of a solid recovery. Nevertheless, we remain optimistic that Indonesia has a strong foundation to face these global challenges. Programs and policies from the Government and regulators to overcome structural obstacles have so far aided the development of a more competitive national economy.

The Board of Commissioners approves of the steps taken by the Board of Directors to approach 2016 with cautious optimism and appreciates the efforts of the Board of Directors to further invest in banking infrastructure, particularly in electronic delivery channels and digital banking, the quality of human resources and development of the business platforms of the subsidiaries. The Bank will continue to work to improve good corporate governance, risk management and other internal procedures in 2016. The Board of Commissioners will consistently support the Bank's role of intermediation while always prioritizing the principles of caution and prudence in banking.

Overall, the Board of Commissioners is confident that the work plan prepared by the Board of Directors has considered many business opportunities and risks faced by the Bank.

We believe that the future prospects of the business and strategic plan being implemented by the Bank will guide BCA to be even stronger and more competitive in the years to come.

APPRECIATION TO ALL STAKEHOLDERS

On behalf of the Board of Commissioners, I wish to thank all shareholders, customers, business partners, staff and other stakeholders of BCA. The successes achieved by the Bank in 2015 could not have been realized without their ongoing support. The Board of Commissioners appreciates the hard work of and the effective management of the Bank by the Board of Directors, which maintained stability and strong financial performance throughout 2015. The Board of Commissioners also thanks the subsidiaries for their important role in the Bank's success and their contribution to the overall development of BCA.

We are grateful to the regulators, the Indonesian Financial Services Authority and Bank Indonesia, for their direction and the support they have given to BCA and the Indonesian banking industry.

We are confident that with the continued commitment of all stakeholders, BCA will continue to improve its performance and continue to provide value and benefits to the Bank's customers, shareholders and the people of Indonesia.

Jakarta, March 2016

On behalf of the Board of Commissioners,

Djohan Emir Setijoso
President Commissioner

Jahja Setiaatmadja
President Director

Report of the Board of Directors

BCA recorded positive business performance achieved by proactively managing the loan portfolio, maintaining loan quality, supporting the financing needs of quality customers, enhancing transaction banking capabilities, and continuing to develop the Bank's subsidiaries' businesses

Dear Stakeholders and valued Customers,

2015 was a year full of challenges for the Indonesian economy and banking industry. Nonetheless we are pleased to report that BCA successfully maintained a solid position in the market and captured a number of business opportunities throughout the year.

BCA's positive development was achieved by remaining focused on delivering consistency to customers, continuing to strengthen the Bank's transaction banking franchise and proactively maintaining loan quality.

The Bank promoted a prudent approach to business in the midst of uncertainty in the business environment, and took precautionary steps to manage and minimize risk exposure. By the end of the year, we recorded positive loan growth in all segments with a low Non-Performing Loans (NPL) ratio, and maintained a strong liquidity and capital position.

REVIEW OF THE INDONESIAN ECONOMY

A slowdown in the pace of Indonesia's economic activity continued into 2015, affected by the weakening global economy and various domestic macro challenges. In 2015, Indonesia recorded economic growth of 4.8%, marking the third consecutive year below 6% with continuing deceleration from 2014.

The weakening of economies in several countries with high nominal Gross Domestic Products (GDP) placed pressure on

Indonesia's export activities. The slow economic recovery of the US and the Euro region remains sub-optimal with the continued slow growth leading to uncertainty in the global economy despite the implementation of various economic stimulus programs. Furthermore, China's economy, which generally drives the economies of Asia, faced a structural economic slowdown with economic growth falling significantly from double digits in the previous decade to below 7% in 2015.

The slowdown of China, as one of the world's largest consumers of natural resource commodities, has had a negative impact on global commodity prices. The prices of Indonesia's export commodities, including palm oil, coal, crude oil, natural gas, nickel and copper, are at or are near their lowest levels in recent years. In addition, the instability of global capital flows has had considerable impact on Indonesia's macro-economic condition, particularly on the volatility of the Rupiah exchange rate and the interest rate environment in Indonesia.

From 2008 to 2012, global capital flows benefited developing countries, including Indonesia, in line with the stimuli implemented by the US Central Bank (The Fed) in an effort to spur the recovery in the American economy. These global capital flows supported Indonesia's economy and played an important role in countering the negative impacts of unstable commodity prices throughout that period. In 2013, however,

the movement of global capital flows to emerging markets began to fluctuate and reverse in line with the market's anticipation of The Fed's plans to normalize interest rates. In December 2015, The Fed began to raise short-term interest rates with an increase of 25 bps after a prolonged period of record-low interest rates. Pressure further increased when the Chinese monetary authority unexpectedly devalued the Yuan, resulting in increasing volatility in the Indonesian and global financial markets.

During 2015, the instability of global capital flows to Indonesia put pressure on the Rupiah exchange rate and led to stagnation in direct investment in Indonesia. These flows were exacerbated by structural issues first evident in 2012 that led to a shifting of a current account surplus into a substantial deficit as a result of the weakening exports of leading commodities and the high dependence of the national economy on imports and use of foreign services. The current account deficit added to the pressure on the Rupiah, which depreciated by 10.2% in 2015 and a total of 29.0% since the end of 2012.

In the Government sector, the realization of state expenditure in 2015 was lower than expected. After the national election in the second half of 2014, Joko Widodo's working cabinet needed some time to complete budget planning, implement a consolidation with the House of Representatives and spur realization of the state budget. Overall, political issues combined with overall macro-economic factors generated a less than conducive economic environment leading to weakening purchasing power and domestic spending and ultimately restricted the growth of Indonesia's GDP.

In response to the economic situation, the Indonesian Government took strategic steps to support the Indonesian economy and develop a solid foundation for long-term economic growth. Various work programs and a series of economic policy packages and new regulations were implemented in an attempt to stimulate the Indonesian economy. These economic packages focused on revising the fuel subsidy program, strategic infrastructure

development programs, the one-stop investment service, the one map policy to govern land and forest areas, special economic zones, and various stimulus programs for the Small & Medium Enterprise (SME) segment. In alignment with Government changes in policy, the Indonesian Financial Services Authority reviewed banks' work and budget plan and conducted proactive discussions with the banking sector with a view towards maintaining the balance between business growth and risk. Bank Indonesia carefully monitored the macro economic situation throughout the year and maintained the benchmark interest rate to better withstand uncertainty in global capital flows and to guide the current account deficit to a lower level while supporting liquidity by lowering the bank minimum reserve requirement. These prudent steps were taken by the Government and the financial regulators to help prevent economic and financial crisis while building a steady economic structure.

Overall, BCA sees that the Indonesian economy underwent challenging structural adjustments in 2014-2015. The Government policies are set to address the challenges. We remain optimistic for Indonesian long-term economic prospects. Human resources, with a large working-age population, abundant natural resources, a growing middle class, a stable political system and the various work programs and other efforts of the Government make Indonesia an attractive investment destination.

BCA PERFORMANCE IN 2015: FOCUS ON QUALITY

Slowing growth in loans and third party funds along with tightening competition and increasing non-performing loans had a notable influence on the Indonesian banking industry in 2015. In the midst of various challenges to the industry, BCA maintained its position as one of the leading banks in Indonesia, recording a positive performance and continuing to provide added value for shareholders. These results were achieved through the implementation of various work programs with the aim of maintaining loan quality, supporting the financing needs of quality customers, enhancing BCA's capabilities in transaction banking, and continuing to develop the subsidiaries' businesses.

Prudence in Lending

Although still within a manageable range, the overall loan quality within the banking sector deteriorated in 2015, especially in the sectors of mining commodities and their related sectors. In anticipation of deteriorating loan quality, and based on revised restructuring guidelines issued by the Indonesian Financial Services Authority, the Indonesian banking sector proactively restructured loans and boosted loan provisions for NPLs.

BCA applied a prudent approach to lending with the implementation of a sound credit risk management policy intended to maintain loan quality and minimize an increase in non-performing loans. Lending activities were particularly focused to meet real loan demand from quality customers with good track records across all of the Bank's loan segments.

The corporate segment continued to play an important role in driving the growth of the Bank's loan portfolio in 2015. The first semester saw sizeable loan repayments from several corporate customers in line with declining business activities. However, in the second half of the year, loan demand in the corporate sector grew substantially as business activities began to pick up with signs of higher domestic consumption towards the end of year. Additionally, in consideration of the higher foreign exchange risk, customers attempted to minimize exposure to foreign currency liabilities by converting foreign currency loans from other banks to BCA Rupiah loans. A Government regulation mandating that transactions within Indonesia be made in Rupiah contributed to the increase in Rupiah working capital needs.

In the consumer loan segment, in 2015, the Bank offered mortgage and vehicle financing with attractive interest rates to stimulate consumer loan growth while maintaining a tight risk management policy. These measured steps were taken based upon confidence in consumer loan quality due to the low and stable NPL ratio in this segment. Commercial & SME loans grew moderately in 2015, negatively impacted by conditions in the Indonesian economy. Prevention of deterioration in loan quality was a major focus of both the

business and risk sides of the Bank in the commercial loan segment.

BCA conducts intensive monitoring of the overall loan portfolio and takes proactive measures against any indications of declining loan quality. The early warning system is periodically strengthened to identify signs of weakening loan quality, enabling the Bank to take immediate preventive action if necessary. Early loan restructuring is applied as a preventive measure against those loans determined to have potential problems but which have prospect of quality improvement.

BCA's loan portfolio stood at Rp 387.6 trillion in 2015, a 11.9% growth mainly supported by lending in the corporate segment in the second half of 2015. Overall, at year end 2015, BCA maintained loan quality with the Bank's NPL ratio standing at 0.7%, below the industry average of 2.5%. In general, we recognize that non-performing loans are a lagging indicator and will likely increase in the near term, with the potential to put pressure on the Bank's performance, though the magnitude of any increase is expected to remain within a manageable range and within the Bank's risk appetite.

Developments in the Transaction Banking Franchise

Transaction banking is at the center of BCA's business activities. We continue to enhance the network and guard the Bank's reputation as one of the leading transaction banks in Indonesia. Convenience, safety and reliability of the Bank's transaction banking systems are essential in ensuring customer confidence.

BCA continues to enhance its multi-channel network capabilities through the rapid development of electronic banking platforms. In recent years, the Bank has encouraged increased use of internet banking and mobile banking solutions as a more convenient and easy-to-use channel compared to the branch or ATM networks. These efforts have seen positive results, with higher rates of increase in transaction volumes of internet banking and mobile banking than for branch offices and ATMs. The rapid technological

development of the internet and telecommunications, coupled with society's seamless adaptation to these advances, has been a catalyst to the Bank's success in this area. Mobile banking has delivered increasingly solid performance in recent years following the integration of 'KlikBCA', the Bank's internet banking platform, and 'm-BCA', the mobile banking service, through the smartphone app branding, 'BCA Mobile'. These developments are in line with the Bank's efforts to improve operational efficiency as the cost structure of internet and mobile banking are considerably lower than those of the branch offices or ATMs.

Nonetheless, the branch and ATM networks continue to play an important role within the Bank with transaction value through these channels remaining significant. BCA continues to improve service quality and expand its range in these two 'traditional' delivery channels. Currently, BCA operates 1,182 branches and 17,081 ATMs nation-wide, an increase of 25.5% and 99.1% respectively over the last 5 years.

Looking ahead, we expect that the multi-channel service approach supported by a traditional branch network and enhanced by digital banking channels will represent a major trend in banking. BCA understands that capability and capacity in the Bank's information technology infrastructure remains an essential foundation to the transition to the next phase of electronic banking at BCA. The Bank took active steps to capitalize on developing trends in digital banking and of dynamic technological developments during the year. In 2015, the Bank launched several new initiatives in electronic banking services, including 'Sakuku', a server-based electronic money product, as well as 'Laku' and 'Duit', branchless banking services to attract customers outside of the existing customer base. Various measured investments were made in the banking network designed to achieve balance between the long-term benefits and the costs incurred.

BCA's sustained excellence in transaction banking has provided the Bank with a sustainable source of core funding through transaction-based Current Accounts and Savings

Accounts (CASA). Despite slowing economic growth, the Bank increased the overall CASA balance by 7.1% to Rp 360.3 trillion. CASA remains a major contributor to the Bank's funding base at 76.1% of total third party funds. We are pleased to report that BCA's transaction banking services remained robust, as reflected in the stable and sustainable CASA funds growth throughout 2015.

Development of Subsidiary Businesses

BCA's excellence in transaction banking services has procured a broad customer base for the Bank, which ultimately provides a solid foundation for the development of the Bank's core business as well as opportunities for the Bank to develop new financial products and services through its subsidiaries. Aside from BCA Finance, a 4-wheeler financing subsidiary, and BCA Finance Ltd., a remittance subsidiary, which have operated for over 15 years, the Bank has invested in several relatively new subsidiaries in order to offer a wider variety of financial services. These subsidiaries include general insurance, life insurance, securities, Sharia banking and 2-wheeler financing.

Overall, the development of BCA's subsidiaries made a positive contribution to the Bank's business performance. BCA Finance has grown into one of the largest 4-wheeler financing companies in Indonesia, and has contributed substantially to the Bank's profitability. The subsidiary BCA Syariah has also performed well and in 2015 entered into the BUKU II category of Sharia banking, having a capital of more than Rp 1 trillion. CS Finance, engaged in 2-wheeler financing, also showed positive business performance and continued to develop support systems and risk management capacity. BCA Sekuritas continuously strengthened its securities business foundation through the underwriting and brokerage businesses. The Bank's general insurance subsidiary, BCA Insurance, progressed nicely by increasing premium income and developing synergy with BCA's mortgage and vehicle financing products. BCA Life, which began operations in the fourth quarter of 2014, focused on setting up a solid base for operations and strengthening the business support systems for developing life insurance products.

BCA believes that there is considerable business potential for the subsidiaries to grow in their respective lines of business. In the coming years, the Bank will continue to support business growth and improve synergy between each of the subsidiaries and the main businesses of the Bank while taking into account the risks that may arise across the various markets where BCA is active.

CHALLENGES IN 2015 AND TARGETS VS REALIZATION

As mentioned above, the Indonesian economy and the banking industry faced a number of challenges in 2015. The profitability of the Indonesian banking industry came under pressure as a result of slowing growth in earning assets and third party funds as well as the declining loan quality. Nevertheless, we are pleased to report that the Bank recorded growth in Net Income of 9.3% to Rp 18.0 trillion in 2015 and generated a higher Return on Assets and Return on Equity than expected.

BCA's financial achievements are in line with the Bank's success in maintaining loan quality and its core business performance in 2015. BCA transaction banking provided sustainable funding from transaction accounts and secured a solid liquidity position thereby allowing the Bank to lower the maximum time deposit interest rates gradually throughout 2015 resulting in a decline in cost of funds.

Supported by loan growth and lower cost of funds, BCA's Net Interest Income increased 12.0% to Rp 35.9 trillion in 2015. The Bank also grew Operating Income other than Interest, both from transaction banking fee-based income and treasury activities in second half of 2015. To sustain profitability, further efforts were taken to maximize operational efficiency

and reduce the rate of growth in operating costs. However, BCA remain committed to investing in banking networks and information technology which represents a significant part of overall operating expenses. The weakening Rupiah exchange rate also contributed to the increased costs of the procurement of electronic networks and software, which are associated with the movements of US Dollar. Overall, the Bank posted a cost efficiency ratio at 46.5% in 2015, compared with 44.2% in 2014.

Closing the year, the Bank's loan portfolio was recorded at Rp 387.6 trillion, an increase of 11.9% for the year and within the growth target range of 10%–12%. Third party funds grew to Rp 473.7 trillion, an increase of 5.8% in 2015, below the growth target range of 8%–11%. In line with easing liquidity in the Indonesian banking sector and BCA's efforts to balance profitability, the Bank did not compete aggressively in time deposits taking, resulting in a lower level of total third party funds compared to the initial budget. Overall, the financial position of the Bank was well preserved. BCA recorded a low level of NPLs at 0.7%. The Loan to Funding Ratio (LFR) was maintained at a healthy 81.1%, slightly above the lower range recommended by the regulator. The Capital Adequacy Ratio (CAR) reached 18.7%, above the minimum regulation set by Bank Indonesia, and in position to comply with the potential revision of the regulatory benchmark based on the development of BASEL calculation methods.

IMPROVING THE IMPLEMENTATION OF CORPORATE GOVERNANCE

BCA recognizes the importance of Good Corporate Governance in supporting business performance and providing added value for all stakeholders. The Board of Directors, the Board of Commissioners and BCA's workforce are committed to building an organization that is transparent, accountable, responsible, fair and independent.

BCA implements Good Corporate Governance with reference to prevailing laws and regulations. The practice of Good Corporate Governance continues to be refined in accordance with best practices, including the Indonesian Corporate Governance Road Map issued by the Indonesian Financial Services Authority and the ASEAN Corporate Governance Scorecard.

As an effort to continuously improve the Bank's corporate governance structure, and with reference to the Indonesian Financial Services Authority regulations, BCA as a financial conglomerate implemented an integrated corporate governance structure in 2015. The implementation includes

the formation of the Integrated Corporate Governance Committee, formulation of the Integrated Corporate Governance Manual, and adjustments to the duties and responsibilities of the Compliance Unit, the Risk Management Unit and the Internal Audit Division to account for integrated risks.

We are proud to report that the efforts of the Bank in implementing corporate governance have created a solid foundation for the continued growth of the organization. In addition, the public and professionals in the field have also shown appreciation and recognition of these efforts. This is reflected in the various awards received by BCA, amongst which are 'Top 10 Public Listed Companies' and 'The Best Responsibility of The Board' in the 7th IICD Corporate Governance Awards.

CHANGES TO THE BOARD OF DIRECTORS

The Board of Directors consists of 10 members who have individual job descriptions, duties and responsibilities. Effective communication and coordination is maintained between members of the Board of Directors in the

discussions of individual responsibilities and the overall business strategy. In carrying out its duties, in 2015 the Board of Directors held 40 meetings as decision-making mechanism and for the exchange of opinions among the members of the Board.

The Board of Directors performed their duties in implementing work programs in line with the vision and mission of the Bank and by adhering to the core values of the company. With reference to prudent corporate governance, the executive committees under the Board of Directors contributed pro-actively to the Bank management in accordance with their respective duties and responsibilities.

The composition of BCA's Board of Directors reflects the diversity of its members, be it in terms of education, work experience or expertise, with each member having the necessary competence to support the improvement of the company's performance.

We report that in 2015 there were no changes in the composition of the Board of Directors. Profiles of the Board members can be found in the Corporate Data section on pages 560-563 of this Annual Report.

PERFORMANCE ASSESSMENT OF COMMITTEES UNDER THE BOARD OF DIRECTORS

As of December 31, 2015, there were 7 Executive Committees assisting the Board of Directors including the Asset & Liability Committee (ALCO); Credit Policy Committee; Credit Committee; Risk Management Committee; Integrated Risk Management Committee; Information Technology Steering Committee; and the Personnel Case Advisory Committee.

We report that in 2015 these committees have performed well, giving valuable and objective guidance to the Board of Directors, which ultimately assists in the effective and systematic implementation of the duties of the Board of Directors.

The Asset & Liability Committee (ALCO) implemented the assets and liabilities strategy with a view to maintaining

the Bank's liquidity position while providing optimal levels of profitability for the Bank at a manageable level of risk. The Risk Management Committee has ensured that the risk management framework is capable of providing adequate protection against the risks faced by BCA.

The Credit Policy Committee has recommended several lending policies, including determining loan approval authority for corporate and commercial loans. The Credit Committee assisted the Board of Directors in evaluating credit applications in line with prevailing credit policies. The Information Technology Steering Committee has reviewed and made recommendations regarding the strategic plan for information technology in keeping with the Bank's business plan. The Personnel Case Advisory Committee has provided recommendations to the Board of Directors regarding settlement of employee breaches of policy cases while adhering to the principles of established fact, equality and fairness. The newly formed Integrated Risk Management Committee has been established to formulate the foundations of integrated risk management, including the completion of an integrated risk profile.

These committees carried out their duties and responsibilities in accordance with the authorities listed in the guidelines of each committee.

CORPORATE SOCIAL RESPONSIBILITY

As a responsible corporation, BCA ensures that the products and services offered by the Bank are beneficial to the wider community. We are proud of the Bank's efforts in facilitating the various banking service needs for the people of Indonesia.

As an integral part of the business operation, the Bank actively engages in Corporate Social Responsibility (CSR) activities. The Bank seeks to make a real contribution to Indonesian society through a variety of initiatives in the fields of education, health, as well as cultural and environmental preservation. In carrying out these initiatives, BCA collaborates with leading institutions, including WWF, UNICEF, the Indonesian Red Cross and several well-known universities in Indonesia.

In the field of education, BCA has developed various programs as a part of the Bank's active role in supporting the development of the education of Indonesia's youth, as the guardians of the nation's future progress. BCA believes that human capital is crucial for the successful development of the country and that a qualified and competent population has the potential to successfully manage Indonesia's natural resources and economy. As such, the Bank organized various educational programs in the fields of accounting and information technology, as well as the 'Magang Bakti BCA' program, through which BCA facilitates the development of human resources in banking by providing in-class and on-the-job training opportunities for qualified high school graduates from all over Indonesia.

BCA participated actively in facilitating public health services, including the development of affordable health services for the less fortunate. The Bank provides medical assistance programs by working with several agencies who have competence and credibility in their respective fields. In 2015, BCA organized cataract operations initiatives in various regions, donated apparatus for cataract surgery, and coordinated blood drives. Expanding the coverage of quality health services at affordable costs, BCA initiated partnership with Klinik Bakti Medika in Mangga Dua, North Jakarta, after previously working with Klinik Duri Utara in West Jakarta.

As a member of Indonesian society, BCA continuously plays an active role in efforts to preserve and support the development of the national culture. The Bank is active in the promotion of the Indonesian puppetry tradition, or Wayang, through the "BCA for Indonesian Wayang" program. Since 2012, a number of routine programs have been conducted, including 'World of Wayang' (WOW), an educational program on television; 'Wayang for Students', which focuses on educating middle school students; 'Wayang Goes to Campus' at the University of Indonesia; and 'Wayang Masuk Ma' at Grand Indonesia shopping mall in Jakarta.

Other BCA CSR programs focused on environmental sustainability with BCA continuing to participate in greening programs by planting mangrove trees in a number of areas across Indonesia. In 2015, BCA in cooperation with WWF Indonesia organized a mass plantation of 18,000 mangrove trees in nine regions across Indonesia, including Aceh, Lampung, Jakarta, Bali and West Kalimantan. In addition, the 'Green Building' concept is applied to the Bank's head office as one demonstration of the Bank's commitment to the preservation of the environment. The Bank has received external recognition for this initiative in the form of a GreenShip EB Platinum certification from the Green Building Council of Indonesia.

Through various CSR programs in important fields in Indonesia, BCA, as an active member of society, aims to continue to grow its real contribution to the community.

PROSPECTS AND STRATEGY REVIEW FOR 2016

We expect that the Indonesian economy will continue to face various challenges and grow moderately in 2016. The uncertainty and stagnation of the economies of developed countries is expected to continue into 2016. China's economy, as the main engine driving the overall Asian economy, is still seeking a new balance. This indicates that the estimated probability of recovery in the prices of Indonesia's main commodity exports will remain low in 2016. Infrastructure development in Indonesia takes time to become fully functional but will provide benefits in the medium-long term. The effectiveness of government spending realization and the implementation of government policy packages will be catalyst to support the Indonesian economy in the coming year amid global economic uncertainty.

We recognize that economic conditions will have an impact on the performance of the banking sector, including BCA. Thus, entering 2016, we will continue to prioritize prudent policies and measures. We remain aware that the potential

increase in non-performing loans in the overall Indonesian banking sector could have a chain effect on BCA's loan quality, though the non-performing loans is expected to remain within the Bank's risk appetite.

We see that the interest income of the banking sector will perform modestly in line with the slowdown in the growth of loans and third party funds in the Indonesian banking sector, both of which are expected to grow moderately compared to previous years. To maintain performance, we will continue to implement cost efficiency programs and to explore alternative sources of operating income other than interest.

We believe that investments made to strengthen transaction banking capabilities and to improve lending infrastructure should not be interrupted, considering the long-term prospects of the Indonesian banking industry and anticipating the increased competition in the era of the ASEAN Economic Community and rapid digital evolution. The development of human resources and organizational alignment of all work

units and among the subsidiaries are essential to further reinforce BCA's position as a leading bank in Indonesia.

APPRECIATION TO ALL STAKEHOLDERS

We on the Board of Directors, and I believe all staff at BCA, recognize the importance of customers' trust in leading to the Bank's solid performance achievements in these uncertain times. It is preserving the trust and confidence of our valued customers that motivates BCA to remain committed to providing the best quality services and products possible for the benefit of our customers and all our stakeholders.

On behalf of the Board of Directors, I would like to express our gratitude to the Board of Commissioners for their consistent guidance and careful supervision, allowing the Bank to forge ahead with certainty and face challenges confidently.

Finally, I would like to thank all stakeholders, including the Indonesia Financial Services Authority and Bank Indonesia, for all the support and trust we have received and which has enabled us to look ahead with optimism.

Jakarta, March 2016

On behalf of the Board of Directors,

Jahja Setiaatmadja
President Director

“Branch Banking plays a strategic role in strengthening relationships between the Bank and its customers through the provision of transaction banking services and credit facilities to BCA’s commercial and SME customers”

Business Review

Branch Banking

BCA manages an extensive brick and mortar branch network that is interconnected online and is supported by a nationwide Automated Teller Machine (ATM) and Electronic Data Capture (EDC) electronic banking network. Strategic network expansion is undertaken to optimize customer convenience and capture business opportunities in promising areas throughout the country. Electronic delivery channels including internet banking and mobile banking have increased in importance to facilitate customer transactions in line with the rapid adaptation of the newest telecommunication and information technologies in Indonesia.

Utilizing its widespread branch network, strategically located in the main trading centers across Indonesia, BCA is well positioned to provide working capital and investment loan facilities to meet the financing needs of its customers in the commercial and Small & Medium Enterprises (SME) segment.

Through the provision of transaction banking services and credit facilities to commercial and SME customers, Branch Banking plays a strategic role in strengthening relationships between the Bank and its customers.

Transaction Banking

As one of the leading transaction banks in Indonesia, BCA manages more than 14 million customer accounts and processes an average of 11 million transactions per day. The vast transaction network is designed to meet the various financial needs of individual customers and companies through a wide range of high quality products and services.

BCA transaction banking is supported by a multi-channel network consisting of both branches and electronic delivery channels. Strategically BCA continues to expand its branch network in well-identified population and business centers across Indonesia. In order to provide flexibility to customers in their daily transactions, BCA continues to develop its

extensive electronic banking network of ATM, including Cash Recycling Machine (CRM); EDC machines for both credit and debit card sales; Flazz pre-paid card readers; and internet banking and mobile banking services. BCA aims to assure convenient, secure and reliable banking services for the customers through disciplined investment in banking infrastructure and electronic networks. This strategy is in line with the rapid development of communication and information technology as well as the middle-class adaptation of technology-based banking services in Indonesia.

Along with the development of new business areas, BCA continues to add new cash offices and ATMs in order to ensure convenient access to services for the Bank's customers with frequent cash transactions. In 2015 the Bank opened 71 new branch offices, including 54 cash offices, and added 387 ATMs. As of December 31, 2015, the Bank has a total of 1,182 branch offices consisting of 132 main branches, 853 sub-branches and 197 cash offices; 17,081 ATMs and hundreds of thousands of EDCs nationwide. In addition, the Bank continues to expand its service coverage by developing enhanced mobile banking transaction capabilities and by working with a network of modern retail stores to serve various customer transactions, such as cash withdrawals, known as Tunai BCA (BCA Cash).

BCA seeks to create value-added services to fulfil the needs of multiple customer segments. In addition to the regular branch banking services, BCA also provides priority banking services, BCA Prioritas, for individuals in the affluent segment and BCA Solitaire for high net-worth individuals. Weekend Banking service is available at shopping malls in several of Indonesia's major cities to serve customers who wish to make use of the Bank's services on the weekends. To accommodate the needs of small and medium-sized business customers, BCA operates BCABIZZ, an additional service offered in selected business centers. BCA headquarters coordinates with branch and regional offices to identify and serve customers in the corporate segment by providing tailored products and services to this highly diverse market.

BCA has seen customer preference shifting towards electronic banking channels in recent years. This shift has

resulted in shorter queues at the Bank's branches and has led to lower operational costs for handling transactions. The number of transactions through internet banking, mobile banking and ATMs have increased significantly from year to year. In 2015, internet banking showed the highest value of transactions among the electronic network with total transaction value reaching Rp 5,935 trillion, an increase of 10.9% from Rp 5,350 trillion in 2014. The number of customers accessing KlikBCA Individu and KlikBCA Bisnis services reached 4.8 million customers in 2015. The value of transactions through m-BCA reached Rp 556 trillion in 2015, up 14.4% over the previous year. The ATM network continues to be the most popular electronic delivery channel with the highest number of transactions, amounting to 1,782 million transactions in 2015, up from 1,678 million transactions in 2014, mostly related to cash withdrawals and account enquiries.

Business Review

Branch Banking

BCA seeks to capitalize on developments in information technology to strengthen its transaction banking business. In 2015, BCA launched 'Sakuku' (My Pocket), a server-based e-money service accessed through a smartphone application. 'Sakuku', which is targeted at the younger generation, can be used for online shopping payments, transfer and mobile phone credit purchases. BCA continues to develop 'Sakuku' and will add enhanced features to the application in 2016. In addition to 'Sakuku', and to better reach out to the lower middle class in Indonesia, BCA is developing branchless banking services through 'Laku' (a savings product with no administration fee) and 'Duitt' (an e-money service which uses a customer's mobile phone number as proof of ownership), with these services accessible via independent agents or through SMS.

Ongoing education for customers is necessary to raise awareness in the effective use of electronic banking services. BCA's call center is an essential part of the education and communication process to support the anytime and anywhere aspects of internet and mobile banking transactions. The BCA call center is designed to support customers should they require personal assistance in completing their transactions or have questions or complaints on BCA's services.

Continued development of BCA's branch services and electronic networks have secured the Bank's position as a leading transaction bank in Indonesia. Amid weakening

business activity, BCA maintained positive growth in Current Accounts and Savings Accounts (CASA) funds without increasing CASA account pricing. Total CASA funds grew by 7.1% to Rp 360.3 trillion at year end 2015 and represented 76.1% of the Bank's overall third party funds. Savings accounts composed 67.9% of total CASA funding and posted a positive growth of 6.8%, reaching Rp 244.6 trillion at year end 2015 while current accounts increased by 7.7% to Rp 115.7 trillion during the same period.

The Tahapan BCA savings product remains the Bank's customers' top choice and is an icon of BCA transaction banking. Tahapan BCA has developed over time in accordance with customer needs and segmentation, for example, Tahapan Gold is designed for business customers and Tahapan Xpresi is intended for the younger market. In line with the massive potential of Indonesia's productive population, Tahapan Xpresi aims to familiarize the young generation with transaction banking services and offers features tailored to this segment, such as a variety of ATM card designs. In 2015, BCA continued to develop and tailor special features for Tahapan Xpresi customers that cater specifically to the needs and lifestyle of young people.

In keeping with modern lifestyles, and to deepen customer relationships, BCA is proactive in digital marketing through social media as an effective alternative communication and educational network. Currently, BCA has several social media accounts that continue to receive positive response from customers.

Cash Management

Through cash management services, BCA facilitates transactions for companies from various industry sectors that make Business-to-Business (B2B) and Business-to-Consumer (B2C) transactions. Cash management services play a major role in facilitating the management of funds in business transactions, which in turn supports the raising of CASA funds.

BCA continues to develop cash management services to improve customer relationships and strengthen the Bank's core business in transaction banking. BCA's cash management services provide payment settlement solutions for effective cash management, supported by the latest technology, an extensive network, diverse products and excellent service. In 2015, the number of users of virtual accounts, one of the features of cash management, increased significantly to 1,700 companies in 2015 from 1,300 companies in 2014.

One focus of BCA cash management is to provide business communities with solutions for customers within their respective business chains and to help them connect with one another. Among others, the Bank manages the following communities: Capital Markets Community, Futures Market Community, Oil and Gas Community, Cement Community, Telecommunications Community and Modern Market Community. Various events are organized by BCA with a view to enhancing relationship banking with members of these communities, such as benchmarking trips, workshops, dissemination of the latest business solutions, capital market expos and business gatherings to increase the knowledge and experience of, and strengthen the relationships between, community members.

In the Oil and Gas Community, many public gas stations in Indonesia are BCA merchants that make payments to their principals through the BCA system. The Bank has developed an online tax payment service through KlikBCA Bisnis to better facilitate and track tax payment convenience for customers. In the Modern Market Community, BCA has developed a centralized service for franchisee account openings, resulting in the Bank managing more than 6,500

franchisee accounts in 2015. In line with the infrastructure improvement plan proposed by the Government, BCA cash management continues to develop specialized cash transaction services for the Transportation Community as one of Indonesia's promising growth businesses. In line with the increasing frequency of air travel, the Bank cooperated with a number of airlines to provide access to information and payment services for ticket agents through the use of 'KlikBCA Bisnis' internet banking. In the general public service area, BCA works with the government-controlled Social Security Agency (*BPJS Ketenagakerjaan*) to facilitate the payment of BPJS health insurance premiums from BCA corporate customers for their employees.

In 2015, the Bank continued to be one of five payment banks in the capital market by renewing the cooperation agreement between the Indonesian Central Securities Depository (KSEI) and BCA for the period 2015-2019. In the Capital Markets Community, the Bank has established a partnership for the opening of Investor Accounts with 84 securities companies, with a market share of Customer Funds Accounts reaching almost 50%, and a total of more than 180 thousand accounts currently being managed. In addition, BCA also enhanced investor convenience in their transactions and in the monitoring of investment funds through the introduction of the AKSes KSEI menu on the KlikBCA Individu platform.

BCA continues to be trusted as a Margin Funds Savings Bank and extended its cooperation with the Indonesian Derivatives Clearing House (KBI) for the period 2015-2018. In addition, BCA also participates in developing services to facilitate the settlement of online gold investment transactions initiated by KBI.

In 2015, the Bank completed development of the internet banking application, 'KlikBCA Bisnis Integrated Solution' which offers comprehensive corporate cash management products and services. With this new solution, BCA has a more advanced Host to Host system to facilitate customer transactions, particularly for customers with significant transaction intensity.

Business Review

Branch Banking

SME & Commercial

In 2015, the Commercial and SME loan portfolio grew 8.8% to Rp 144.0 trillion. In line with declining business activity over the last two years, commercial and SME lending posted a slower growth than in previous years. The slowdown in economic growth in 2015, characterized by a decrease in purchasing power, has correlated with slower growth in business revenue including for commercial and SME companies.

BCA continues to maintain its prudent lending policy with loans prioritized for borrowers who have solid financials and already have a good relationship with the Bank. The loan portfolio is closely monitored for each branch, region and industry sector. The increase in non-performing loans in the commercial segment, especially in the sea and river transportation industry, was foreseen, and the necessary steps were taken to mitigate the negative impact of deterioration in this sector. At the end of 2015, the Non-Performing Loans (NPL) ratio of the commercial and SME segment as a whole was at a relatively manageable level of 1.1%.

In the commercial banking segment, the Bank prioritizes services for mid-sized entities engaged in the trade, manufacturing and services industries by positioning itself as a trusted business partner that can offer end-to-end financial solutions for their businesses. BCA defines commercial loans as ranging from Rp 10 billion to Rp 350 billion with most of the Bank's commercial loan customers being regional business players in Indonesia. In 2015, the commercial loan portfolio grew 10.0% to Rp 91.2 trillion and contributed 63.4% to the Bank's total commercial and SME loan portfolio.

BCA utilizes Commercial Business Centers at the regional level to manage the customer base and the commercial loan portfolio. As of year end 2015, there were 14 Commercial Business Centers located in major trading centers across Indonesia, including Jakarta, Semarang, Bandung and Surabaya as well as in cities outside Java, such as Medan, Palembang, Makassar and Denpasar. The Commercial Business Centers allow BCA to provide better quality service and ease of access through account officers, who

are experienced in offering banking solutions that cater to the needs of commercial customers.

In the SME segment, the majority of BCA's SME customer base consist of family business owners, shopkeepers, restaurant owners, and small-scale factory owners. Defined as business loans with a value of up to Rp 10 billion, SME lending is done at the branch level and is supported by an online and centralized loan application scoring and risk management system. This approach allows for centralized control of risk while maximizing the potential of the Bank's network of branches that are strategically located in the trading centers of Indonesian cities. In addition, the Bank cooperates with several partner institutions, such as rural banks and cooperatives, to provide direct lending through channeling programs and indirect lending, in support of business development in the SME segment outside of the reach of the Bank's branch network. BCA also works closely with its subsidiary, BCA Syariah, in the development of products and services for micro, small and medium enterprise customers. BCA Syariah is strategically positioned to complement SME financing services. By the end of 2015, BCA's SME loans increased by 6.8% to Rp 52.8 trillion and contributed 36.6% to the total commercial and SME portfolio.

On an ongoing basis, Commercial and SME Banking works closely with BCA Corporate Banking to develop value chain business initiatives in various industries, such as the communities of capital markets, futures markets, oil and gas, cement, telecommunication, modern market, airline services and general public services. Recruitment of new account officers continued in 2015 to meet the increasing need for skilled human resources at BCA. The Bank also continued to train employees in order to enhance the quality of service and the ability of account officers in establishing effective relationships with customers; a skill that is much needed in an increasingly competitive environment.

Looking Forward

BCA understands the importance of CASA in sustaining a solid long-term funding structure. The Bank continues to enhance its payment settlement services to drive CASA growth through the development of a variety of payment settlement features, products and services.

BCA will continue to develop the Bank's branch network and expand electronic channel coverage supported by continuous improvements in the capacity and capabilities of BCA's information technology infrastructure. Internet banking and mobile banking will continue to be developed and improved in order to enhance operational efficiency in the future. Several new electronic banking initiatives that were launched in 2015 include 'Sakuku' (My Pocket) server-based e-money smartphone application, 'Laku' no-fee savings product, and 'Duit' electronic money. In developing various business initiatives in the field of payment settlement services, BCA maintains its focus on ease, security, and convenience in customer transactions.

In the commercial and SME segment, the Bank will focus its lending to customers with strong business prospects and proven durability in uncertain economic conditions. BCA continues to improve lending facilities and infrastructure by strengthening the role of Commercial Business Centers in the regional offices and increasing the number of quality account officers and relationship officers through recruitment and training programs. The Bank also aims to improve the synergy of corporate – commercial and SME financing through value chain financing, both for distributor financing and supplier financing, and focuses on leading companies in growing industry sectors.

Leveraging off its extensive network and solid position in the field of transaction banking, BCA stands ready to meet the lending needs of commercial and SME customers, particularly when the Indonesian economy returns to faster growth.

Corporate Banking

Corporate Loan Portfolio
(in billion Rupiah)

Corporate Loan by Facilities
(in billion Rupiah)

● Rupiah ● Foreign Currencies

● Investment ● Working Capital

“ BCA has developed and maintains strong relationships with corporate customers with the corporate segment representing the largest portion of BCA’s overall loan portfolio ”

BCA Corporate Banking experienced a slowdown in loan demand and in the utilization of allocated credit lines during the first half of 2015 as a significant number of corporate customers saw lower growth in revenues. In the second half of 2015, demand for corporate loans began to show signs of growth based on a slight uptick in the economy and the realization of more aggressive Government expenditure as well as an increase in domestic consumption towards the end of the year. By the end of 2015, BCA's corporate loan portfolio stood at Rp 141.3 trillion, a growth of 17.2%. The growth in the corporate loan portfolio played an important role in leading the growth of the Bank's loan portfolio as a whole.

BCA maintained a prudent approach toward corporate lending by focusing on strengthening relationships with the Bank's quality customers with proven track records. Internal policies designed to maintain a diversified loan portfolio allowed the Bank to minimize risk exposure to the performance of any one given industry in 2015. These prudent lending policies enabled the Corporate Banking Group to maintain a high quality loan portfolio with a relatively low NPL in a difficult lending environment.

Healthy and Sustainable Growth

BCA has built and maintained a strong relationship with the corporate segment which has led to sustainable long-term growth of corporate lending as the major component in BCA's overall loan portfolio. Utilizing its strong liquidity position and solid capital base, the Bank is committed to supporting the needs of corporate customers through economic cycles while observing prudent lending principles. BCA prioritizes lending to qualified customers who have established good relationships with the Bank and are leading institutions in their respective industrial sectors.

Over a period of more than 10 years, BCA has built solid long-term relationships with corporate clients. As the business of corporate customers continues to expand, demands for loans and various corporate banking services also grow. This mutually beneficial relationship provides opportunities for the cross-selling of financial products and services,

such as treasury, trade finance and cash management, in addition to corporate lending. BCA's corporate customer base continued to expand, supported by several commercial loan customers migrating from commercial borrower status to corporate borrowing customers. By growing together and investing in long-term relationships, BCA is better able to understand the businesses and to more accurately measure the potential risk facing a business. The growing together strategy also allows for a sustainable and healthy growth in the corporate loan portfolio.

With the support of reliable and qualified Relationship Managers, BCA effectively provides the best quality of service to its corporate customers. The Bank classifies Relationship Managers into teams according to their expertise and assigns them to specific industrial sectors or groups of debtors. The Relationship Managers proactively establish communications with the Bank's customers and work to thoroughly understand customers and the factors that can impact each customer's business. This approach allows BCA to anticipate the specific needs of its customers and be able to act quickly if any difficulties, business or financial, are encountered by these customers. BCA continues to enhance its officers' credit risk management skill and industrial knowledge in its effort to achieve solid corporate banking performance.

Business Review

Corporate Banking

BCA has become one of the major corporate lending banks in Indonesia. In 2015, the corporate segment played an important role in driving the growth of the Bank's overall loan portfolio. Corporate loans grew 17.2% and stood at Rp 141.3 trillion at the end of 2015 with the majority of the growth coming during the second half of the year. A slight recovery in the economy owing to Government policy packages and increased Government expenditures as well as higher consumption towards the end of the year fueled corporate loan demand in the second half of 2015. The upturn was also encouraged by the need to convert foreign currency loans into Rupiah amid the weakening trend of the Rupiah and the greater need for Rupiah to comply with new Government regulation requiring all domestic transactions be made in Rupiah.

As of December 2015, working capital loans contributed 46.9% to the total corporate loan portfolio with investment loans making up 53.1% of the total. Working capital loans amounted to Rp 66.3 trillion as of 31 December 2015, growing 16.7%, while investment loans increased by 17.7% to Rp 75.0 trillion. Growth in investment loans usually indicates that demand for the Bank's other corporate banking products, both for lending and for financial transaction services, will increase in the future. The Bank will continue to leverage its lending position to further strengthen the Bank's liabilities side business.

Maintaining Loan Quality

BCA continues to maintain loan quality by closely monitoring the corporate loan portfolio through each step of the lending process, and ultimately repayment. Overall, the implementation of prudent risk management for each industry sector allows BCA to maintain the quality of its diversified corporate loan portfolio. BCA's corporate loan portfolio is well diversified with the largest exposures to the Plantation and Agriculture, Chemicals and Plastics, and Telecommunications industries. With the exception of the Plantation and Agriculture, each of those industries accounted for less than 10% of the total corporate portfolio. As of late 2015, the 10 largest corporate loans by industry sector contributed 61.3% to BCA's total corporate loan portfolio. The well-diversified portfolio avoids the risk of loan concentration.

BCA routinely undertakes a comprehensive industry analysis and monitors the overall loan portfolio carefully. As such, the Bank was able to develop the corporate loan portfolio while mitigating the risks faced by the banking industry due to weakness in certain industrial sectors. BCA proactively analyzes industry trends and takes steps to adjust the loan portfolio to minimize exposure to at-risk industries.

Top 10 Corporate Loan Portfolio by Industry Sectors

Industry Sector	2015	2014
Plantation and Agriculture	10.5%	11.2%
Chemicals and Plastics	7.8%	7.3%
Telecommunications	7.5%	5.5%
Power Generation	5.8%	6.3%
Transportation and Logistics	5.6%	5.9%
Tourism	5.5%	4.5%
Building Material and Other Construction Related	5.1%	4.3%
Consumer Financing	4.9%	5.7%
Food and Beverage	4.5%	4.6%
Property and Construction	4.1%	4.5%
Total	61.3%	59.8%

In recent years, the commodity sector has come under pressure due to lower global commodity prices in line with the economic slowdown in Europe and China. BCA has limited direct exposure to the coal mining sector, mostly due to the nature of the industry and the industry's demand for US Dollar lending. As a Rupiah bank, BCA limits overall US Dollar exposure and, as such, has minimized exposure to the mining sector.

Although BCA does not have direct exposure to the mining industry, the Bank has to be aware of the indirect impacts of the weakening coal and other commodity prices on business. For example, the shipping industry has experienced financial difficulties stemming from the declining volume of mining product transportation. BCA has proactively restructured loans and reduced exposure to this industry over the last couple of years. BCA's exposure to the sea and river transportation sector is manageable, amounting to Rp 2.2 trillion or 1.6% of the Bank's total corporate loan portfolio.

In recent years, BCA has had a moratorium on lending to the hotel industry in consideration of the rapid growth of new hotel developments in Indonesia and stiff competition in

the industry. Lending in this industry is limited to borrowers who are experienced in the field and have an established primary business with stable income as an alternative source of loan repayment, if necessary.

Loan disbursement in foreign currency is done by applying prudential standards designed to reduce the potential risk of fluctuations in the Rupiah exchange rate against the US Dollar. BCA has long implemented a policy of lending in US Dollar only to corporate customers whose revenues are mainly denominated in US Dollar. Furthermore, BCA implements a tight limit on overall US Dollar lending as the majority of Bank funding is in Rupiah. At the end of 2015 the corporate loan portfolio in foreign currencies was 11.7% of the total, with the majority being in Rupiah at 88.3%.

Through caution and prudence, the Bank has been able to maintain a relatively low Non-Performing Loans (NPL) ratio in corporate lending of 0.3% at the end of 2015, basically unchanged from the end of 2014. In an effort to pre-empt potential NPL, BCA was proactive in initiating discussions on loan restructuring by carefully monitoring the corporate loan portfolio.

Business Review

Corporate Banking

Syndicated Loans

The unfavorable economic condition in 2015 limited BCA's participation in syndicated lending, resulting in fewer loan disbursements when compared to 2014. However, the Bank acknowledges the importance in securing a position as one of the major players in syndicated loans in Indonesia for the longer term. Aside from providing interest income, BCA's active role in syndicated lending has opened the door to increased fee-based income, through cross-selling opportunities and relationship building.

BCA completed syndicated loans worth a total of Rp 25.9 trillion in 2015, down 42.8%, when compared to Rp 45.2 trillion in 2014. In 2015, the Bank's total participation in syndicated loans amounted to Rp 4.2 trillion, compared to Rp 7.7 trillion in the previous year. In syndications, BCA may act as a sole arranger or together as a facility agent, collateral agent, or escrow account agent, either to debtors or non-debtors.

Infrastructure financing is one source of demand for syndicated financing and is in line with the Government's plan to accelerate infrastructure development. Infrastructure syndicated loans in 2015 were distributed for the construction of railway infrastructure and facilities for a 36.3 km railroad line stretching from the center of Jakarta to the Soekarno-Hatta airport; and for business financing in the development of a telecommunications company and its subsidiaries. In addition, the Bank oversaw the full disbursement of a syndicated loan for the Cikopo–Palimanan (Cipali) toll road, construction of which was completed in 2015. The majority of the funding for this project was sourced from a syndication of 21 banks led by BCA.

In the private sector, BCA participated in syndicated financing to a leading poultry feed producer in Indonesia as well as to borrowers engaged in the consumer industry.

Owing to the active role played by the Bank in syndicated lending, according to data compiled by Bloomberg, BCA was recorded as one of the top ranked syndicated loan book runners in Indonesia in 2015. BCA was awarded 'Best

Project Finance Deal of the Year in Southeast Asia' from Alpha Southeast Asia magazine for the Jakarta–Soekarno Hatta Airport Railway Development syndicated loan project of Rp 2.1 trillion (USD 152 million), together with 3 other top banks as joint arrangers.

Community-Based Services

BCA actively lends along business value chains with focus on business community networks that connect corporate customers with commercial and SME customers. This community-based service provides lending facilities alongside cash management and other transaction services.

The Bank's cash management platform continues to be refined to improve BCA's ability to capture various value chain financing opportunities. In 2015, BCA developed an internet banking application, 'KlikBCA Bisnis Integrated Solution', which contains new modules to further complement corporate cash management services with a more holistic approach for corporate customers. Through cash management services, BCA offers ease for corporations and their suppliers in controlling daily payment settlements for a more efficient cash management process.

BCA continues to deepen cash management market penetration for corporate and commercial customers, as well as business communities by working to increase the customer base and loan portfolio within those communities.

With the weakening growth of interest income due to slowing loan growth, fee-based income plays a more critical role in sustaining the Bank's profitability. Cash management services are one source of fee-based income that the Bank expects to see grow in the future and that BCA believes will support the Bank's Current Accounts and Savings Accounts (CASA) position.

In 2015, BCA pursued opportunities in the transportation industry as one promising field for potential business. With the increasingly high demand for travel by air, the Bank understands the importance of providing ease of transactions for ticket agents offering flight bookings

and has developed specialized products to service this industry. In the oil and gas segment, the Bank continues to provide cash management services to the public gas station business chain. Most gas stations in Jakarta are now BCA merchants and make payments to principals through the Bank's system. Other communities that the Bank manages include the capital markets community, futures markets community, cement community, telecommunications community, fertilizers community and modern market community.

In order to enhance relationships with customers, the Bank organizes various business events, such as benchmarking trips, workshops, dissemination of information on the latest business solutions, capital market expos, and business gatherings, aimed at improving knowledge and experience, and strengthening the relationships between members within the community.

Looking Forward

BCA is optimistic about maintaining the quality of the loan portfolio, including in the corporate segment. We expect corporate loans will continue to be the main driver of the Bank's loan growth in 2016.

BCA aims to continue supporting quality corporate customers by always providing the best banking services. The Bank and its customers will continue to have common interests in growing together through this challenging period. As the Indonesian economy improves, BCA and its customers will benefit from the business scale developed.

Corporate banking will focus on improving the cooperation and synergy among the business units and BCA's subsidiaries in order to best meet the increasingly complex customer needs. Cooperation with foreign banks in the Asian region will continue to be expanded in order to capture the opportunities of rising inter-country transaction activities by providing trade finance, foreign currency and cash management services. Furthermore, through the referral of foreign banks, such as from Thailand, Japan, South Korea, Malaysia and the Philippines, BCA plans to explore opportunities for new loan demand from business groups of foreign investors who plan to invest directly in Indonesia.

Going forward, the Bank will remain committed to focusing on the needs of its corporate customers through the provision of quality financing and transaction banking services.

Individual Banking

Total Consumer Loans
(in billion Rupiah)

Consumer Loan Portfolio
(in billion Rupiah)

“ BCA reintroduced a number of attractive consumer products and programs in 2015 while maintaining a prudent approach to lending ”

Over the last two years the Individual Banking Group posted slower growth in line with the weakening performance of the property sector and drop in car sales in Indonesia. BCA continued to promote consumer lending by reintroducing a number of attractive consumer lending products and programs in 2015 while maintaining high lending standards.

BCA remains optimistic regarding the long-term business prospects for the Individual Banking Group. The increasing number of professionals and the emerging middle class will contribute to the growing need for consumer banking products, such as mortgages, vehicle loans, credit cards, insurance products & wealth management products and services, in the future.

BCA focuses on understanding the behavior and the needs of customers as the basis for product and service developments as well as for marketing and promotional activities. The Bank utilizes and continually improves IT infrastructure and systems, human resources, data analysis capabilities, and synergy between business units, all in order to better serve the Bank's customers.

Priority Banking And Wealth Management

In 1996, the Bank developed BCA Prioritas service and specialized branches to serve customers in the affluent segment. This customer segment has grown rapidly since that time and has had a tremendous impact on the acceptance of the Bank's individual banking products. In 2009, the Bank launched BCA Solitaire banking services for the high net-worth individuals.

To create value-added services that meet the needs of its customers, BCA Prioritas and BCA Solitaire offer ease and comfort in customers' transaction activities. BCA has added 8 Prioritas lounges, bringing the network to a total of 160 branches in 2015, all staffed with qualified relationship officers for first-class service. In 2015, the Bank opened its newest Solitaire lounge at Menara Satu Kelapa Gading in North Jakarta to complement the existing service provided at Menara BCA Grand Indonesia in Central Jakarta. The exclusive Solitaire service is supported by highly-trained staff who assist and provide personalized service to customers in managing their personal finances.

BCA offers comprehensive services and financial solutions for Solitaire and Prioritas customers, including premium transaction banking services, mortgages, car financing, safe deposit box services, bancassurance, wealth management solution, and premium credit cards. In partnership with reliable business partners, BCA Prioritas and BCA Solitaire also provides exclusive facilities and programs for clients in health care, education, travel and lifestyle.

BCA continues to develop new wealth management products and services to meet the evolving financial needs of Prioritas and Solitaire customers. These facilities enable the Bank to generate fee-based income while fulfilling customers' needs for insurance and various investment products including unit-linked insurance, mutual funds, Indonesian Retail Bonds, Sukuk Retail and Retail Savings Bonds.

Mortgages

The mortgage market in Indonesia remains untapped as evidenced by the low penetration rate of mortgages to Gross Domestic Product (GDP) and the relatively small number of BCA mortgage borrowers when compared with the Bank's total customer base. The Bank considers mortgages as a strategic product that will foster long-term relationships with customers and provides a platform for cross-selling other financial products to the mortgage borrower.

Since 2007, BCA's mortgage portfolio has grown by an average of 32% per year. The Bank distributes mortgages to quality borrowers and focuses on financing properties located in prime residential areas, allowing BCA to grow the mortgage portfolio while maintaining a low default risk. The high quality of mortgages is reflected in the low NPL ratio of 0.4%. The NPL ratio has been stable over a number of years.

In the last two years, the mortgage portfolio grew slower than in previous years. In 2014, BCA exercised prudence in lending to restrain the mortgage growth rate in anticipation of unforeseen risks amid the uncertain economic conditions. In 2015 lending was negatively impacted by a relatively weak property market in line with the overall slowdown in economic growth in Indonesia.

Business Review

Individual Banking

In a less buoyant market, the Bank continued to offer mortgage products with attractive interest rates in order to maintain BCA's strategic position in the market and sustain positive growth. In February 2015, BCA relaunched 'Fix & Cap' mortgage products with low interest rates (3 years at 8.88% fixed interest plus a maximum 2-year cap at 9.99%). The Bank also reduced interest rates by 50 bps on non 'Fix & Cap' mortgage products at the end of 2014 and maintained these rates throughout 2015. In addition, as one of the Bank's aspiration-based innovation efforts, in August 2015 the Bank extended the tenure of its Fix & Cap products by 1 year, bringing the total tenure to 6 years, compared to the previous tenure of 5 years. Stable core CASA funds allow BCA to offer these competitive products in Indonesia's mortgage market. The Bank continues to maintain its position as one of the leading mortgage providers in Indonesia. The Bank's mortgages increased by 8.7% to Rp 59.4 trillion in 2015 with a market share of 17.4%. Mortgage products represent the largest portion of the Bank's consumer loan portfolio. Bank Indonesia's decision to ease the maximum Loan to Value guidelines stimulated and supported the property and mortgage industries through challenging times in 2015.

In order to improve service levels for Bank customers, BCA introduced mortgage administration centers in several target cities over the past few years and will continue to open more centers as the market evolves. Additionally, to increase efficiency and convenience, the Bank uses an online mortgage application for customers through a web-based system which simplifies the mass processing of individual loans.

Appreciation for the Bank's commitment in mortgage financing is reflected in the various awards received during the year, including Top Brand Award for mortgage products from Frontier Consulting Group and Marketing Magazine.

Vehicle Financing

BCA manages car and motorcycle financing facilities through its subsidiaries, BCA Finance and Central Santosa Finance (CS Finance). Both BCA Finance and CS Finance manage vehicle financing through a joint financing scheme

with the major portion recorded directly on the Bank's balance sheet and the remaining recorded on the balance sheets of the two subsidiaries.

Car Financing

In 2015 BCA and BCA Finance continued to emphasize prudence in lending for car financing in the face of unfavorable economic conditions and decreasing consumer purchasing power. The automotive industry was under intense pressure in 2015, with new car sales totaling 1.0 million units, a decrease of 16.1% compared to the previous year.

Through a challenging 2015, BCA offered car financing products with competitive interest rates while remaining disciplined in maintaining collateral quality and a robust collection and auction process. The Bank implements a policy of high down payments and prioritizes financing for popular car models that have been widely accepted by the Indonesian automotive market. This policy has helped sustain a relatively low NPL ratio with a high recovery rate on foreclosures while supporting positive growth in the car financing portfolio.

BCA Finance relies on its quick and hassle-free lending process to improve its competitiveness and maintain high satisfaction levels that exceed customer expectations. In recent years, BCA Finance has developed a wide range of applications that take advantage of technological developments, such as mobile entry, mobile approval, mobile collection and others, to improve the processing efficiency of customer financing.

A number of exciting offers were made in 2015 to further enhance the Bank's competitiveness in the auto finance market. BCA Finance launched the *Kredit Keren Banget* program, a sweepstakes offering customers a chance to take home three cars if they win the lucky draw. The program received positive responses from customers and supports BCA Finance's financing activities in 2015. In addition, BCA Finance offered an extended tenure of up to 6 years for certain auto purchases. Through a variety of innovative product developments and attractive promotions, BCA Finance has maintained its position as the "top of mind" 4-wheeler financing provider in Indonesia.

These efforts proved effective in supporting growth in BCA's car loan portfolio. The number of new bookings in car sales financed by BCA and BCA Finance in 2015 increased by 11.4% reaching 178,667 units, an achievement when compared to the declining number of nationwide car sales. BCA Finance's share in the auto financing market increased to an estimated 13.2% in 2015, compared with an estimated 11.1% in 2014. The Rupiah value of new car loan bookings for BCA and BCA Finance increased by 16.6% reaching Rp 26.4 trillion in 2015. These sales contributed to the Bank's total car loan portfolio, including BCA Finance, of Rp 32.9 trillion at the end of 2015, up 10.6% compared to Rp 29.8 trillion at the end of 2014. At the end of 2015, the portion of the car loan portfolio recorded on BCA's balance sheet amounted to Rp 27.3 trillion.

BCA and BCA Finance work closely together to further strengthen business synergies. The joint financing scheme affords BCA Finance a funding structure that is strong and stable with low cost of funds. Marketing synergy through the Bank's branch network enables a solid and diversified customer base comprising existing BCA customers along with customer referrals from third party dealers. Synergy is also formed in the use of technology and operational systems, including the use of BCA payment platforms to manage billing for BCA Finance customers and the use of HaloBCA to assist BCA Finance customers.

Motorcycle Financing

CS Finance continuously strengthens its capacity and capability by developing promotion and marketing, network infrastructure, human resources, technology, and risk management.

CS Finance explored low-risk marketing strategies by offering motorcycle financing for BCA's customer base as well as through third party dealers in accordance with the predetermined criteria and standards. CS Finance also initiated exclusive partnership to provide motorcycle financing for one of the app-based courier service providers.

In 2015, CS Finance continued to strengthen network infrastructure and develop human resources. In addition to the BCA network and CS Finance branch network, CS Finance established payment points in collaboration with other partners, such as modern mini markets and post offices, to facilitate loan instalments for 2-wheeled vehicles.

In response to a weaker economy and higher-than-forecast NPLs, CS Finance curbed the growth of motorcycle loans and strengthened its branch collection teams throughout 2015. These efforts in handling non-performing loans began to show results as the NPL growth rate slowed in 2015.

CS Finance recorded new bookings of motorcycle financing, composite BCA & CS Finance of 368 thousand units in 2015, compared with 387 thousand units in 2014. The Rupiah value of these new bookings was Rp 4.6 trillion in 2015, compared to Rp 4.2 trillion in 2014, bringing the Bank's total motorcycle loan portfolio (including CS Finance) to Rp 6.4 trillion at the end of 2015, compared to Rp 6.2 trillion at the end of 2014. Total motorcycle financing was recorded at Rp 4.3 trillion on BCA's book at the end of 2015.

Business Review

Individual Banking

Credit Cards

Through a variety of credit card offers and attractive programs, the Bank secured its position as one of the leading credit card service providers in Indonesia. In 2015, BCA managed 2.7 million credit cards with total transaction value amounting to Rp 50.6 trillion, an increase of 9.7% from last year, and reached a market share of 18%. Outstanding credit card loans reached Rp 9.5 trillion at the end of 2015, an increase of 8.1% over the previous year. The growth in the value of transactions and outstanding credit cards was accompanied by well-maintained loan quality with a 1.4% NPL ratio.

BCA's strong performance in credit cards was achieved amid growing competition and more regulated environment such as restrictions on credit card ownership for specific segment. The Bank continuously promotes the BCA credit card and encourages its use as customers' primary card. Various credit card product and service developments have been enhanced to facilitate customers' lifestyle and consumption habits.

BCA is the only bank in Indonesia to have a 'private label' or 'proprietary card', the 'BCA Card', in addition to offering 'BCA Visa' and 'BCA MasterCard'. The 'BCA Card' is made available nationwide and also at various outlets in Singapore through cooperation with the NETS network. BCA works with various leading international networks for acquiring/acceptance of Visa, MasterCard, American Express (AMEX), JCB and China UnionPay International. Since November 2014, the Bank has been the single acquirer of AMEX cards in Indonesia to strengthen BCA's capability in serving overseas users. AMEX has more than 100 million card users spread across many countries. The collaboration between BCA and AMEX strengthens the market share of BCA Electronic Data Capture / Point-of-Sales (POS) terminals which are widespread throughout Indonesia.

BCA credit card business growth is supported by a strong brand image as well as product and service developments that not only fulfill customers' needs but also reflect the latest lifestyle trends based on customer segmentation. BCA has developed a wide range of credit card products that suit the specific needs of customers. The 'BCA Visa

and MasterCard Black Card' is intended to serve premium lifestyle for individual customers in the mass-affluent segment. The Bank has also developed co-branded credit cards in strategic alliances with various corporate partners. This includes the very popular 'BCA Singapore Airlines' card, a collaboration with Singapore Airlines to serve upper-middle class Bank customers.

To capture the growing opportunities in the Indonesian middle class market, the Bank continued long-term promotional programs with several strategic partners, such as Central Department Store, Starbucks Coffee, Cineplex 21, Haagen Dazs, amongst others. BCA in cooperation with such selected partners offers a variety of promotional programs, such as rebates, use of reward points and 0% installment plans. Promotional activities are also packaged in the form of special events, including the Travel Fair in collaboration with leading airlines such as Garuda Indonesia and Singapore Airlines.

BCA also aims to develop hardware, support systems and information technology infrastructure for added convenience and security in the use of credit cards. In the third quarter of 2015, the Bank implemented the PIN security system to its credit cards as an alternative to the conventional signature system.

In the field of e-commerce, the Bank seeks to build a network of cooperative partners in line with growing e-commerce technology and activities. E-commerce transactions through BCA experienced a significant rise in total value in 2015. The Bank works with various companies such as Visa, MasterCard, JCB, and AMEX, to facilitate e-commerce transactions and organize promotional programs and activities. In 2015, together with Garuda Indonesia, BCA offered customers 0% installment deals with a tenure of 3 and 6 months for every purchase of Garuda air travel tickets through the website using a BCA credit card. BCA also organized an e-Shopping Carnival program with several online merchants, offering discounts and cash backs for all cardholders of any banks. The programs aim to strengthen the Bank's position as an e-Commerce Acquiring Bank and broaden awareness of card payment solutions as one of the services available in the e-commerce industry.

In addition to credit cards and debit cards, BCA also offers the Flazz prepaid card as an alternative card payment solution. BCA continued efforts to expand the use of Flazz cards through cooperation with various partners in serving transactions of small nominal value, such as parking services, highways, fast food and beverage outlets, as well as mini markets. By 2015 there were 8.6 million Flazz cards in circulation.

The development of card payment systems within the mass transportation sector, such as Trans Jakarta, Jabodetabek (Greater Jakarta) Commuter Trains and others, have encouraged the use of the Flazz card. Regulators are actively campaigning for the National Non-Cash Movement, which further contributed to increased use of Flazz cards.

In 2015, the Bank began to cooperate with other banks in the issuance of co-branded Flazz cards. Customers of other banks can now make transactions using Flazz cards at all Flazz merchants and take advantage of the various attractive programs on offer, ultimately allowing the Bank to further expand the Flazz card customer base.

In recognition of the Bank's initiatives in product and service development, BCA credit card was awarded Top Brand Award 2015 from Marketing magazine & Frontier Consulting Group, and also Customer Loyalty Award as Net Promoter Leader 2015 from SWA magazine.

Looking Forward

The Individual Banking business has bright prospects and will be a focus of Bank activity in the future. The growing Indonesian middle class will generate an increased need for banking services, such as mortgages, vehicle loans, credit cards, bancassurance and other individual banking products. Supported by a solid network of branches and electronic banking as well as a wide range of products and services, the Bank is in a favorable position to capture any opportunities that arise.

Going forward, the Bank will continue to market individual banking products and services through improvements to customer analysis capabilities. The Customer Relationship Management system continues to be refined to better understand the behavior and needs of customers as the basis for determining product development strategy as well as marketing and promotional activities.

BCA will continue to strengthen synergies between the units, developing products and services to suit customers' needs, and implement human resources training and development programs designed to improve customer service.

Through the careful implementation of a well-balanced and focused strategy, BCA believes it will continue to provide the highest quality of products and services for individual banking customers.

Business Review

Treasury and International Banking

“ BCA Treasury works to manage the Bank’s liquidity and to fulfill the foreign exchange and capital market needs of the Bank’s customers. BCA International Banking delivers quality remittance and trade finance services to the Bank’s diverse individual and business customer base ”

Treasury Portfolio
(in billion Rupiah)

Composition of Bank Indonesia Instruments
as of 31 December 2015

TREASURY

During a period of high volatility in the financial markets in 2015, BCA Treasury stayed focused on managing the structure of the Bank's assets and liabilities, maintaining the Bank's liquidity position and prudently optimizing returns on liquid funds placement. BCA Treasury also continues to fulfill the needs of Bank customers for foreign exchange and capital market products and services.

Delivering Value amid Uncertainty

2015 was a challenging year for Indonesia's financial markets. The economic slowdown in the country as well as the uncertainty of global capital flows caused rapid and broad fluctuations in local financial markets. Indonesia's financial markets were dramatically impacted by foreign capital funds flows, a reflection of a dynamic recomposition of global financial portfolios.

The Rupiah exchange rate continued a downward trend throughout 2015, depreciating 10.2% from a year earlier, and following the global trend in which nearly all major currencies depreciated markedly against the US Dollar. The end-of-year increase in the US Federal Reserve's benchmark interest rate and the mid-year devaluation of the Yuan were major factors that had a negative impact on the volatility of the Rupiah. In addition, market perception of the health of Indonesia's economy is linked to Indonesia's current account deficit, which has been ongoing since 2012. On a positive note, while there was some pull-back in liquidity for US Dollar loans in domestic markets, Bank Indonesia statistics show US Dollar reserves at a healthy level equivalent to 7 months imports and 1 year of debt repayments. This provided some support for the Rupiah in financial markets. Finally, Indonesia's low inflation rate of 3.4% and moderate growth in Gross Domestic Product (GDP) at 4.8%, though lower than the past few years, were relatively positive points in a year of mixed macro-economic indicators.

In the midst of the volatile foreign exchange market, BCA Treasury remained correctly cautious in managing foreign exchange exposure by conservatively maintaining the foreign currency net open position. As of December 2015, the Bank recorded a net foreign exchange open position of 0.4%, below the maximum limit of 20% imposed by the regulators, signaling BCA's ability to sufficiently mitigate currency-related market risk.

Utilizing the Bank's solid liquidity position and the widening of the US Dollar - Rupiah swap market premium in 2015, BCA took the opportunity to place foreign currency funds with the Central Bank and simultaneously undertake hedging transactions (sell forward US Dollar) to mitigate foreign exchange risk. These opportunities were in line with the significant increase in market demand for Rupiah hedge transactions amid the substantial volatility of the Rupiah in the spot market. BCA obtained higher return from these transactions than other short-term placements, supporting an increase in overall Operating Income other than Interest. BCA recorded an Operating Income other than Interest of Rp 12.0 trillion in 2015, an increase of Rp 2.7 trillion or 28.5%. These measures also supported Bank Indonesia's efforts to strengthen the position of foreign exchange reserves as the main facilitator in the foreign exchange market.

Overall, the placement of short-term funds is managed carefully by maintaining a balance between returns and level of risk, whereby the majority of the Bank's liquidity reserves are placed in Bank Indonesia short-term instruments and Government Bonds. Most of these short-term instruments are in the form of Bank Indonesia Deposit Facilities, Bank Indonesia Term Deposits, and Certificates of Bank Indonesia. At the end of 2015, BCA Treasury managed investments worth Rp 105.7 trillion, down 5.2% from Rp 111.5 trillion in 2014. Treasury investments represent 22.3% of the Bank's total third party funds as of December 31, 2015.

Throughout 2015, BCA slowly reduced the overall cost of third party funds in line with BCA's solid liquidity position and ample liquidity in the Indonesian banking sector. The Bank gradually reduced time deposit interest rates beginning in August 2014 while also slightly reducing the interest rate on savings accounts, resulting in a 2015 year end cost of funds of 2.3% compared to 2.6% in 2014. The competitive cost of funds and the sustained earning asset yields generated a healthy margin for the Bank. BCA's Net Interest Margin stood at 6.7% in 2015, compared to 6.5% in 2014.

Business Review

Treasury and International Banking

Fulfilling Customers' Needs

BCA Treasury provides a wide range of foreign currency products and services along with bonds sales and custodian services to the Bank's diverse customer base. Services are provided to customers in all segments through cooperation with frontliners throughout the Bank's branch network.

In line with the decline of export and import activities in 2015, customers' foreign exchange transactions decreased to 632.0 thousand transactions compared to 673.2 thousand transactions in 2014. However, transaction value increased to USD 37.5 billion in 2015 from USD 36.8 billion in 2014. Amidst a highly volatile market, BCA Treasury continued to enhance marketing activities, including increased cooperation among the various work units in BCA. In addition, in order to improve the convenience and ease of foreign exchange transactions, BCA introduced a real-time exchange rate feature, e-Rate, that offers a more attractive rate for online foreign exchange transactions of specified amounts than over-the-counter rates. BCA continues to develop and improve the e-Rate product resulting in increased acceptance and use of e-Rate in 2015.

In the bonds market, BCA was once again trusted as one of the official selling agents for Government of Indonesia Retail (ORI) and Sukuk Retail (SR) bonds. During 2015, BCA Treasury sold Rp 1.3 trillion worth of SR007 and Rp 3.4 trillion of ORI012 on the primary market for a total of Rp 4.7 trillion in retail bonds sales in the primary market. Sales volume increased compared to 2014 with total sales of retail bonds in the primary market of Rp 4.3 trillion. The SR007 sales drive in 2015 were accompanied by the social event themed "*Bersama Sukuk Negara Ritel, Peduli Pendidikan Anak Bangsa*". Donations from Sukuk Retail Series SR007 selling agents were collected to fund the "*Gemari Buku*" program, a charity that provides books and teacher training for primary school students in remote areas in cooperation with *Dompot Dhuafa* foundation. In recognition of the Bank's achievement as an Indonesian government bonds selling agent, in 2015 the Bank received an award from the Ministry of Finance as one of the Best Selling Agents for SR006, SBR001 and ORI011.

In addition to the bonds and foreign exchange products and services, the Bank also offers custodian services covering Mutual Funds Administration and Securities Custody. BCA Custodian ensures that assets administered are properly maintained and all rights of asset holders are fulfilled, such as the distribution of dividends and bond coupons. Total assets under custody of BCA Custodian as of December 31, 2015 amounted to equivalent Rp 37.0 trillion with more than 20 thousands securities accounts managed. Types of securities that can be administered by BCA Custodian include Time Deposits, Deposits on Call, Negotiable Certificate Deposit (NCD), Medium-Term Note (MTN), Corporate Bonds, Certificates of Bank Indonesia, Sharia Certificates of Bank Indonesia, Stocks and derivatives, Mutual Funds Unit and Asset Backed Securities. As part of the Bank's commitment to meet the needs of its customers, BCA Custodian provides safe-keeping of securities in foreign currencies. By 2015 BCA Custodian also enhanced systems to improve the quality of custodian services provided to customers.

INTERNATIONAL BANKING

Remittances

Weakening growth in the global economy furthered a decline in remittance transactions. In 2015, the Bank's remittance transaction volume stood at USD 75.7 billion, down 7.7% from the previous year's USD 82.0 billion. Nevertheless, the Bank continues to maintain its position as one of the largest remittance service providers in Indonesia.

International Banking Business Volume (in USD billion)

BCA constantly works to improve the quality of its services through innovation and by adding banking features that simplify customers' business transactions. BCA developed its remittance system and expanded its network coverage both domestically and through cooperation with remittance networks abroad. These efforts proved effective in driving the growth of remittance transactions made by migrant workers in 2015, with an increase of 24.4%. This significant rise, however, was offset by the drop in remittance transaction from corporations, ultimately bringing down the total number of remittance transactions by 6.0% compared to the previous year.

Since 2007, BCA has provided a means for workers to transfer funds through its web-based Financial Institution Remittance, or Fire Cash BCA, service. Fire Cash BCA is available in more than 100 countries around the world with focus on the popular destination countries for migrant workers. Through the addition of partners from countries with high numbers of Indonesian migrant workers and strengthened cooperation with domestic partners such as convenience stores, and with a view to better reaching the broader Indonesian society, the Bank expects to see continued long term growth of the remittance business.

Trade Finance

In 2015, BCA trade volume experienced a slight decrease from the previous year. This was a result of slowing economic growth in Indonesia as well as Indonesia's main trading partners, such as China, Japan and Europe. The falling prices of basic commodity exports, particularly coal, palm oil and rubber, further influenced the decrease in trade volume. BCA's total trade volume in 2015 was down 7.0% to USD 8.3 billion.

In addition the Bank also facilitated payments for Domestic Letters of Credit (SKBDN), which mainly come from the steel, coal, forestry, pharmaceutical, and chemical industries, reached to USD 2.1 billion in 2015.

In the midst of moderately unfavorable business conditions, BCA International Banking took the opportunity to improve operations through development efforts for the trade finance products and services and quality enhancement of human resources in order to accommodate the increasingly sophisticated and complex needs of the Bank's customers.

LOOKING FORWARD

Treasury and International Banking will continue to support the corporate, commercial & SME, and wealth management businesses, as well as improve product diversity and service quality. BCA will capture business opportunities from treasury and international trade transaction activities and expects stronger growth in these areas in 2016.

Going forward, BCA Treasury will continue to carry out its main functions of prudently managing the Bank's balance sheet and liquidity, while optimizing the profitability of the Bank's liquid funds management. BCA Treasury continues to observe the developments of the economy, market conditions and changes in Government policies, both to aid in capturing business opportunities and in mitigating market risk.

BCA International Banking will continue to enhance the infrastructure of remittance and trade services. The Bank aims to strengthen remittance services in the individual-retail sector through collaboration with 3rd parties, such as Regional Development Bank, Rural Bank and convenience stores. Welcoming the era of the ASEAN Economic Community, BCA International Banking seeks to establish effective working relationships with certain correspondent banks in ASEAN, building relationships beyond those already established in the general trade finance business.

**Non-Performing Loans
(NPL) ratio**

“ BCA focused on strengthening risk management capabilities and proactive risk management policies to mitigate credit risk, foreign exchange rate risk, liquidity risk, as well as cyber and operational risk ”

BCA stresses the importance of prudence in lending and the central role risk management plays in ensuring the sustainability of the Bank's business and financial performance. BCA realizes that there is an inherent risk in the banking business and in overall banking operations. To mitigate the varied risks faced by the Bank, BCA has implemented a "Comprehensive Risk Management Framework" which consists of strategy, organization, policies and procedures, and risk management infrastructure to ensure that all risks faced by the Bank or its subsidiaries can be identified, measured, monitored, controlled and reported correctly. In addition, to support the implementation of effective risk management, the Bank continues to develop risk management infrastructure with reference to applicable regulations and in adherence to international best practices.

FOCUS ON RISK MANAGEMENT 2015

In the midst of an unfavorable economic situation characterized by slowing economic growth and exchange rate volatility in 2015, BCA focused on strengthening risk management capabilities and responses particularly in regards to credit risk, foreign exchange rate risk, liquidity risk, and operational risk.

Credit Risk

The economic slowdown, marked by a decline in business sales turnover and purchasing power, has hampered bank lending and led to an increase in bank wide credit

risk. The increase in the Non-Performing Loan (NPL) ratio in the overall banking sector to 2.5% at the end of 2015 compared with 2.2% in 2014 is direct evidence of the increased credit risk in the banking system. In addition, the number of restructured loans has shown an upward trend among the national banks as more and more companies seek to reschedule financial payment obligations.

BCA continues to monitor economic developments that could potentially further increase the risk of future loan deterioration. BCA manages the quality of the loan portfolio through the application of prudent credit risk management as well as through the implementation of an early warning system to monitor changes in the debtor's ability to pay, allowing the Bank to take preventive restructuring or loan workout measures as early as possible.

Thanks to solid risk management, the Bank successfully closed 2015 with NPLs maintained at a low level of 0.7%. BCA continues to monitor loan quality through each step of the lending process, starting from customer selection through to loan repayment patterns. Overall, through the implementation of prudent risk management principles for every industry sector, the Bank is able to maintain a diversified and quality loan portfolio while avoiding credit concentration risk. At end of 2015, the 10 largest industrial sectors contribute 56.7% to the Bank's total business lending.

Top 10 Industry Sectors in Corporate, Commercial and SME Segment (based on the Bank's internal classification)*

	2015	2014
Building Material and Other Construction Related	7.1%	6.5%
Plantation and Agriculture	6.7%	6.9%
Automotive and Transportation	6.1%	6.2%
Distributor, Wholesaler and Retailer	6.1%	6.3%
Chemicals and Plastics	6.1%	5.8%
Transportation and Logistics	5.3%	5.8%
Tourism	5.1%	4.7%
Food and Beverages	4.9%	4.9%
Textile and Garment	4.7%	4.8%
Property and Construction	4.6%	4.6%
Total	56.7%	56.5%

* Excluding consumer loans and employee loans

In recent years, BCA has identified sectors that are likely to face pressure in line with the falling global demand for commodities. BCA does not have a credit appetite for mining commodity sectors, including coal, and has limited direct exposure to the overall sector.

In a year of extreme exchange rate volatility, the Bank maintained discipline in managing foreign currency exposure with a cap on overall USD lending and in adherence to Bank policy of issuing USD loans only to customers whose main business income is in USD.

Foreign Exchange Risk

In 2015, BCA was exposed to increased exchange rate risk as the result of the Rupiah's volatility against the USD. To mitigate exchange rate risk, the Bank has strictly monitored foreign currency transactions to make sure these transactions are in accordance with internal Bank policies as well as the Bank Indonesia Regulations concerning the Net Open Position (NOP). Management of foreign currency transactions is centralized under the Treasury Division with transactions made at the branch level monitored, recorded and reported to the central Treasury Division. Each branch is required to square the foreign exchange risk at the end of each working day with limited NOP tolerance in the branch network.

Amid the uncertainty of the foreign currency market, the Bank continued to apply the precautionary principle in managing foreign currency exposure by maintaining a conservative net open position. As of December 2015, the Bank recorded a net open position of 0.4%, far below the maximum limit of 20% imposed by the regulator, sufficiently mitigating foreign currency-related market risk.

Liquidity Risk

In 2015, the Indonesian banking industry, including BCA, exhibited a more robust liquidity situation than in 2014. BCA, however, remained cautious on the Bank's liquidity position due to economic uncertainty and the possibility of a negative impact on liquidity arising from external factors in the global financial markets.

Supported by the Bank's strong transaction banking business, BCA has a solid liquidity position sourced from the low-cost current accounts and savings accounts (CASA). CASA funds contributed 76.1% to the total third party funds of the Bank. In line with the decreasing liquidity risk, since April 2014 BCA has gradually lowered interest rates on Rupiah time deposits. At the end of 2015, the maximum interest rate on Rupiah time deposits stood at 5.75% compared to 7.75% at the end of 2014. The Bank's Loan to Funding Ratio closed the year at a healthy level of 81.1%.

In order to maintain an adequate position of third party funds as a whole, the Bank will continue to proactively review deposit interest rates and may adjust rates in line with internal Bank third party fund targets as a whole.

Operational Risk

Reliable and effective operational risk management is a key element in maintaining the position of BCA as a leading transaction bank in Indonesia. The Bank faces operational risks caused by human error and failures in the supervision of daily operational activities, including those that occur in the back office and branches, as well as fraud and other violations of established bank policy. BCA enhanced the Operational Risk Management Information System (ORMIS) in 2015 by implementing a web-based Key Risk Indicator application to provide early detection of operational risks. The ORMIS includes Risk Control Self-Assessment and Loss Event Databases which are designed to raise risk awareness and provide useful information to minimize operational risk.

To ensure that the Bank can serve banking transactions 24 hours a day without interruption, BCA runs two redundant data centers that are designed to assure business continuity in the event of a system failure at one of the two data center locations. In addition to these two mirroring data centers, the Bank maintains a Disaster

Recovery Center (DRC) in Surabaya. The Surabaya DRC continues to be developed as part of the Bank's Business Continuity Management and is intended to operate as a Crisis and Command Center in the case of disruptions or natural disasters in Jakarta that may result in the Jakarta-based data centers losing operational capacity.

INTEGRATED RISK MANAGEMENT

In accordance with Indonesia Financial Services Authority regulations regarding financial conglomerates, BCA has implemented an integrated risk management protocol designed to mitigate the risks faced by the Bank and its subsidiaries. BCA, as a financial conglomerate, monitors and manages ten types of integrated risks as described by the Financial Services Authority. These risks consist of eight types of risks that have been previously managed within the Bank's risk management process – credit, market, operational, liquidity, legal, strategic, reputation, and compliance risk – with the addition of inter-group transaction risk and insurance risk. The implementation of integrated risk management covers four main pillars and is briefly described in the chart below.

4 Pillars of Integrated Risk Management

<p>1. Supervision of the Board of Commissioners and the Board of Directors of the Main Entity</p>	<ul style="list-style-type: none"> • Ensure the implementation of Integrated Risk Management in accordance with the characteristics and complexity of the financial conglomerate. • Ensure the application of risk management at each of the subsidiaries.
<p>2. Adequacy of policies and procedures, and determination of Integrated Risk Management limits</p>	<ul style="list-style-type: none"> • Formulate policies and procedures, and limit determination of Integrated Risk Management of the Main Entity with consideration to risk appetite and risk tolerance.
<p>3. Adequacy of identification, measurement, monitoring, and control of integrated risks, as well as the Integrated Risk Management information system</p>	<ul style="list-style-type: none"> • Implement an Integrated Risk Management System that generates reports or information concerning: <ul style="list-style-type: none"> – Risk Exposure – Compliance with the implementation of Integrated Risk Management and comparison to the existing policies and procedures – Compliance with regard to limit determination
<p>4. Comprehensive internal control system concerning the implementation of Integrated Risk Management</p>	<ul style="list-style-type: none"> • Implement an Internal Control System to ensure: <ul style="list-style-type: none"> – compliance with internal policy and regulations, including prevailing legislation; – availability of financial and management information that is complete, accurate, appropriate and timely; – effectiveness of risk culture at the organization's overall financial conglomerate.

Further information concerning the implementation of integrated risk management can be found on pages 98–103.

INTERNAL CONTROL

Application of risk management and internal control systems is the responsibility of the management and all employees of the Bank. Risk awareness continues to be embedded at every level of the organization and is an integral part of the Bank's culture.

BCA applies three lines of defense for risk management. Risk management is carried at all levels of the organization and overseen by the Board of Commissioners and the Board of Directors. As the risk owner, all business units and support units serve as the First Line of Defense, managing the risks related to work units. The Risk Management and Compliance Unit serves as a Second Line of Defense that monitors the implementation of corporate risk management policies and guidelines. The Internal Audit Division is the Third Line of Defense in charge of providing independent assurance regarding the implementation of risk management at the Bank.

BCA AND SUBSIDIARIES RISK SELF-ASSESSMENT RESULTS

Based on BCA's self-assessment in 2015, the Bank's risk profile level as well as its integrated risk profile level were "low to moderate". The risk profile level is the result of an inherent risk assessment of "low to moderate" and a "satisfactory" implementation of risk management.

DISCLOSURE OF RISK MANAGEMENT

The disclosure of bank-wide risk management principles and risk exposure, including the Bank's capital position, are reported in accordance with Bank Indonesia Circular Letter No. 14/35/DPNP dated December 10, 2012, regarding the Annual Reports of Commercial Banks and Specific Annual Reporting Required by Bank Indonesia.

I. BCA's Application of Risk Management

Guidelines for the implementation of the Bank's risk management policies are based on Bank Indonesia Regulation No. 5/8/PBI/2003 dated May 19, 2003 on Application of Risk Management for Commercial Banks as amended by Bank Indonesia Regulation No. 11/25/PBI/2009 dated July 1, 2009 and is summarized as follows:

I.A. Active Supervision by the Board of Commissioners and the Board of Directors

1. In carrying out the risk management function, the Board of Commissioners has defined duties and responsibilities, including:
 - Approving policies that require the approval of the Board of Commissioners.
 - Evaluating the implementation of risk management policies and strategies.
 - Evaluating the accountability of the Board of Directors and providing guidance on improvements to the implementation of risk management policies including evaluating the implementation of risk management through reviewing regular reports from the Board of Directors and requesting clarification if there are any deviations on policies.
 - Approving transactions that require the approval of the Board of Commissioners.
2. In carrying out the risk management function, the Board of Directors has defined duties and responsibilities, including:
 - Evaluating and approving policies and methodologies used for the assessment of various types of risk faced by the Bank.
 - Periodically monitoring the development of the Bank's risk profile and the implementation of Management Information Systems (MIS).

- Determining the requirements for human resources and establishing a clear organizational structure in regards to authority levels and clear definitions of duties, responsibilities, and functions and activities subject to risk as well as risk review procedures.
 - Conducting regular risk management training programs for all officials/employees of the Bank in order to improve the quality and skills of human resources in the field of risk management.
 - Enrolling all employees/officials in the Risk Management Certification program in accordance with their respective positions.
3. Active supervision by the Board of Commissioners and the Board of Directors (Management) includes the following mechanisms:
- Supervision by the Board of Commissioners is conducted in accordance with their duties and responsibilities as stipulated in the Articles of Association and relevant regulations.
 - The Audit Committee, the Risk Oversight Committee, the Remuneration and Nomination Committee, and Integrated Corporate Governance assist in the supervisory duties of the Board of Commissioners.
 - a. **Audit Committee**, established to ensure the implementation of internal control systems, financial reporting processes and effective corporate governance.
 - b. **Risk Oversight Committee**, established to ensure that the risk management framework provides adequate protection against the risks faced by the Bank.
- c. **Remuneration and Nomination Committee**, established to provide recommendations to the Board of Commissioners on remuneration policies as well as systems and procedures for selection and/or replacement of members of the Board of Commissioners and the Board of Directors.
- d. **Integrated Corporate Governance Committee**, established to evaluate the implementation of Corporate Governance through, among others, assessment of the adequacy of internal controls and integrated implementation of the compliance function at the Bank and the subsidiaries.
- The Board of Commissioners maintains constructive communication with the Board of Directors.
 - The Board of Commissioners actively provides recommendations to the Board of Directors in determining strategic actions that they believe should be implemented.
 - The Board of Directors actively engages in discussion, provides input and monitors the internal conditions and the development of external factors that directly or indirectly affect the Bank's business strategy.

I.B. Adequacy of Risk Management Policies and Procedures, and Determination of Risk Management Limits

1. The Bank's organizational structure adequately supports the implementation of sound risk management and internal control, consisting of the Internal Audit Division, Risk Management Unit, Compliance Unit and Risk Management Committee.

2. The Bank's risk management policy, as detailed in the Bank Business Plan and the Annual Budget & Work Plan, is in line with the vision, mission, business strategy, capital adequacy, human resources competencies, and risk appetite of the Bank. This policy is reviewed regularly and adjusted to both internal and external developments.
3. Policies and procedures, and determination of risk management limits, have been fully documented in writing and are regularly reviewed.
4. In conducting its business activities, the Bank has developed a Bank Business Plan and Annual Budget & Work Plan that addresses BCA's overall strategy, including business direction, which has been determined with consideration to the possible impact of the strategy on the Bank's capital, particularly in relation to capital projections and the Capital Adequacy Ratio (CAR).

I.C. Adequacy of Risk Identification, Measurement, Monitoring and Mitigation Processes As Well As Risk Management Information System

1. BCA's lending procedures and other operational procedures are clearly set forth in the operating manuals, job descriptions, policy decisions and management circulars.
2. Risk exposure is monitored regularly by the Risk Management Unit by comparing the actual risk against set risk limits.
3. Reports on risk trends, including among others Risk Profile Reports, Credit Portfolio Reports and Business Plan Progress Reports, are submitted to the Board of Directors on a regular basis.

I.D. Comprehensive Internal Control System

1. The Bank's internal control systems policy comprises five components:
 - Management supervision and risk control culture
 - Risk identification and assessment
 - Risk control activities and segregation of duties
 - Accounting, information, and communication systems
 - Monitoring and corrective actions against deviations
2. The internal control systems are linked to each business or operational unit, and are considered the first line of defense for risk management. These units are charged with risk monitoring by their Internal Control Units at the branches, regional offices, and headquarters.

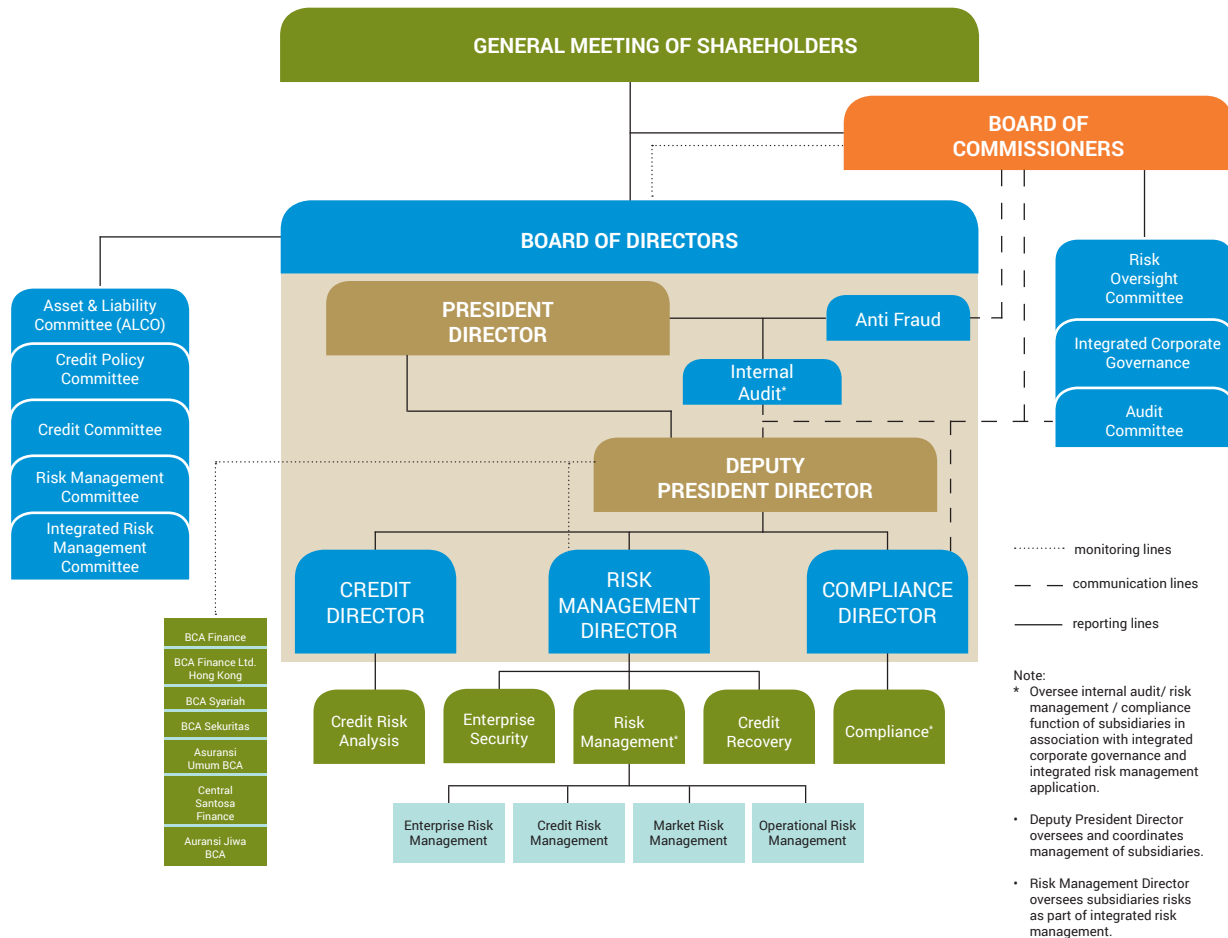

To support the implementation of risk management, the Bank has detailed risk management policies, procedures, and risk limits, and encourages a culture of compliance with regards to the applicable regulations. Internal control is conducted by the Risk Management Unit and Compliance Unit that together form the second line of risk management defense.

The adequacy and effectiveness of the internal control system is periodically reviewed by the Internal Audit Division, which is the third line of risk management defense, to ensure that internal controls have been implemented adequately.

3. All management and employees of the Bank have a role and responsibility in improving the quality and implementation of the Bank's internal control systems.

Risk Management and Internal Control Organization Structure

EFFECTIVENESS OF BANK RISK MANAGEMENT SYSTEMS

In evaluating the effectiveness of the Bank’s risk management system, the Board of Commissioners and the Board of Directors are assisted by committees under the Board of Commissioners and under the Board of Directors. Committees under the Board of Commissioners are the Audit Committee, Risk Oversight Committee, Remuneration and Nomination Committee, and the Integrated Corporate Governance Committee. Committees under the Board of Directors are Asset & Liability Committee (ALCO), the Credit Policy Committee, Credit Committee, Risk Management Committee and Integrated Risk Management Committee.

These committees meet regularly to discuss and provide input and recommendations to the Board of Commissioners and the Board of Directors.

The Bank also evaluates both the policies and methodologies used in the assessments of various types of risk; in the development of different types of risk and possible impact; of the adequacy of policies, procedures and the determination of limits; of the adequacy of the processes of risk identification, measurement, monitoring and control; as well as in the effectiveness of the overall internal control system.

In order to maintain compliance with regulations and in consideration of operating conditions, the Bank conducts regular evaluation and updating of policies, procedures and risk management methodologies. Evaluation of the effectiveness of risk management is also done through regular reports submitted to the Board of Commissioners and the Board of Directors. These reports include, among others, Risk Management Policy Reports; Risk Profile Reports; and Risk Update Reports.

Implementation of Basel Accord

BCA continues to prepare for the Basel III framework on bank capital and liquidity standards by taking part in Bank Indonesia and Indonesia Financial Services Authority Quantitative Impact Studies (QIS) and the preparation for measuring the Liquidity Coverage Ratio (LCR) and Leverage Ratio standards planned for publication in 2015.

Risk Appetite

The Bank defines risk appetite as the level and type of risk that BCA is willing to take in order to achieve its business objectives. The risk appetite set by the Bank is reflected in the Bank's business strategies and objectives.

Stress Test

BCA regularly performs stress testing for a variety of scenarios as well as for various factors and parameters that can impact risk.

Stress test scenarios consider several macroeconomic variables, such as the BI rate, inflation rates, GDP, exchange rates, fuel prices and others. The methodology used to carry out stress tests, in addition to using statistical models based on historical data, includes best judgment scenarios that take into account qualitative risk factors. Stress testing is carried out in order to see the impact of changes in macroeconomic factors on the level of NPL ratios, profitability, liquidity and capital.

The results of stress testing conducted by the Bank for credit, market and liquidity risks have been satisfactory, with the Bank's capital and liquidity being sufficient to anticipate estimated potential losses.

II. BCA capital

Capital Policy

Capital management policy aims to ensure that the Bank has strong capital to support the Bank's current business development strategy and ensure sustainable growth in the future. This policy is also established with consideration to the capital requirements set by regulators.

BCA has a capital plan drawn up by the Board of Directors as part of the Bank Business Plan and is approved by the Board of Commissioners. This plan is expected to ensure adequate capital and a healthy capital structure. The Bank's capital management plan also carefully considers the business development of the subsidiaries and their current and expected capital needs.

BCA continues to strengthen Tier I capital in preparation for the implementation of Basel III. In 2015, BCA capital requirements were met entirely from organic capital growth supported by the Bank's healthy profitability.

Adequacy of Capital and Dividend Policy

BCA has a sufficient level of consolidated capital with consolidated capital of 19.0% and above the minimum requirement according to the risk profile set by Bank Indonesia. This solid capital base will support the Bank's planned business expansion while providing the ability to anticipate risks that may be encountered.

In accordance with Bank Indonesia guidelines, BCA has conducted stress tests on a consolidated basis for credit risk, market risk and liquidity risk. The results show that the Bank's capital position is sufficient to cover potential losses arising from potential risks faced by the Bank and the subsidiaries.

In managing capital, the Bank observes an impartial dividend policy where the determination of the dividend payout ratio is based on the Bank's profitability and the Bank's capital while also considering the interests of shareholders.

In recent years, BCA has gradually adjusted the dividend payout ratio to strengthen capital, particularly in support of lending activities and new business lines, as well as to establish capital in preparation for the implementation of Basel III.

For the latest dividend payment, based on the results of the General Meeting of Shareholders on April 9, 2015, the shareholders approved a cash dividend of Rp 3.6 trillion or Rp 148 per share (paid through an interim dividend of Rp 50 per share on December 23, 2014 and a final dividend of Rp 98 per share paid on May 13, 2015). The dividend distribution is equivalent to a dividend payout ratio of 22.1% and was paid out of net profit from 2014. The Bank distributed a portion of the 2015 net profit in the form of an interim dividend of Rp 55 per share paid on December 9, 2015.

Dividend Payout Ratio

Capital Needs Of Subsidiaries

The capital requirements of the Bank's subsidiaries are relatively insignificant compared to the Bank's capital position. The subsidiaries are projected to grow gradually, allowing the Bank to monitor risk on a periodic basis and to meet any capital requirements the subsidiaries may have.

In 2015, BCA with the other shareholders provided subordinated loans to BCA Sekuritas amounting to Rp 150 billion, with BCA's portion amounting to Rp 112.5 billion. These funds were used by BCA Sekuritas to make a capital injection with PT Asuransi Jiwa BCA ("BCA Life"). These measures were taken to support business development as well as strengthen the solvency level, Risk Based Capital - RBC requirements of BCA Life in accordance with relevant government regulations. These subordinated loans were approved by the Financial Services Authority ("OJK") on March 20, 2015.

BCA together with BCA Finance also made a capital injection to PT Asuransi Umum BCA ("BCA Insurance") in the amount of Rp 150 billion, with BCA contributing Rp 112.5 billion and BCA Finance contributing the remaining Rp 37.5 billion. The additional capital was used for business development, to strengthen capital and to maintain a healthy solvency level. This capital injection received approval from the OJK on June 26, 2015.

In addition, the Bank also made a capital injection of Rp 400 billion into BCA Syariah to strengthen the subsidiary's capital necessary to qualify for the Group of Business Activities, BUKU II classification for banks with capital above Rp 1 trillion, providing a stronger basis for developing products available only to Sharia banks falling under BUKU II category.

The capital injections and subordinated lending made by the Bank during 2015 are expected to support the business development of the subsidiaries, allowing BCA and its subsidiaries to offer comprehensive financial products and services that cater to the needs of customers while contributing to the profitability of the Bank.

BCA Capital Position

In 2015, the Bank-only capital adequacy ratio (CAR) came to 18.7%, an increase of 180 bps compared to the previous year's 16.9%, while the consolidated CAR amounted to 19.0%.

The Bank-only core capital at the end of 2015 reached Rp 83.7 trillion, 95.2% of the Bank's total capital, while the supplementary capital amounted to Rp 4.2 trillion, or 4.8%, of the total.

III. Disclosure of Risk Exposures and Implementation of Risk Management

Following is an overview of the risk exposures faced by BCA in conducting business and the risk management framework designed to mitigate those risks.

III.A. Disclosure Of Credit Risk Exposure And Implementation Of Credit Risk Management

Organization of Credit Risk Management

BCA has established a structured credit risk management process in order to support sound lending principles with strong internal control.

1. **The Board of Commissioners** approves the Bank's credit plans and oversees their realization; approves the Bank's Basic Credit Policy and seeks explanations from the Board of Directors should there be any deviations in loan disbursement from the established policy.
2. **The Board of Directors** is responsible for the preparation of credit plans and the formulation of credit policies; ensures the Bank's compliance with applicable statutory provisions and regulations relevant to the field of credit and credit policy; and reports to the Board of Commissioners on matters such as the realization of the credit plan, irregularities in loan disbursement, loan portfolio quality and credit in the special mention or in the non-performing loan category.
3. **Chief Risk Officer**, a member of the BCA Board of Directors, has signing authority for credit related to certain credit applications, authority for credit recovery and provides advice from a risk management point of view on the feasibility or the suitability of credit applications with the Bank's overall risk appetite.
4. **Work Units** that perform functions related to credit risk management, the Business Unit and Credit Risk Analysis Unit, are responsible for the management of credit risk.

The Bank has dedicated committees that assist the Board of Directors in the lending process as follows:

1. **Credit Policy Committee** has the principal function of assisting the Board of Directors in formulating credit policies, especially with regard to the principle of prudence in lending, monitoring and evaluating the implementation of credit policies, conducting periodic credit policy reviews, monitoring the progress and condition of the credit portfolio as well as providing advice and suggesting solutions for improvements based on the results of the Committee's evaluations.

2. **Credit Committee** has the principal function of providing guidance for credit analysis, providing decisions or recommendations on drafts of credit decisions associated with major debtors, specific industries or on special requests from the Board of Directors as well as coordinating with the Asset and Liability Committee (ALCO) in relation to the funding aspect of credit and corporate lending rate adjustments.
3. **Risk Management Committee** has the main function of developing policies, strategies and guidelines for risk management implementation; determining matters related to irregular business decisions; and enhancing the implementation of risk management based on evaluation of the implementation of an effective risk management process and system.

Risk Management Strategy for Activities with Significant Credit Risk Exposure

BCA formulates risk management strategies in accordance with the Bank's overall business strategy based on the Bank's risk appetite and risk tolerance. Risk management strategies are designed to ensure that the Bank's risk exposure is carefully managed in line with the credit policy, the Bank's internal procedures, laws and regulations, and other applicable provisions.

Structured risk management strategies are based on the following general principles:

- Risk management strategy should be long term oriented for the sustainability of the business by considering economic conditions and cycles,
- Comprehensive risk management strategy must be able to control and manage the risks of the Bank and its subsidiaries, and
- The expected capital adequacy should be achievable with the allocation of adequate resources.

Risk management strategies are prepared with consideration to the following factors:

- Economic and business development and the impact that may occur as a result of the risks faced by the Bank.
- Organization of BCA, including the adequacy of human resources and supporting infrastructure.

- The financial condition of the Bank, including the ability to generate earnings and the ability to manage the risks arising from both external and internal changes.
- Composition and diversification of the Bank's portfolio.

Credit Concentration Risk Management Policy

Portfolio management manages credit risk by determining risk concentration limits for, among others, industrial sector exposure, foreign exchange lending, and certain types of loans as well as both individual and business group exposures. Along with monitoring the development of the ratings database, technology, human resources, the Bank's complexity level, as well as the market and regulations, the Bank's portfolio management actively works to optimize the allocation of the Bank's capital to achieve an acceptable risk level in line with risk appetite and risk tolerance parameters.

Credit Risk Measurement and Control

The Bank measures credit risk using Basel II based guidelines in accordance with Bank Indonesia Circular Letter No.13/6/DPNP regarding Guidelines for Calculation of Risk Weighted Assets by using the Basel II Standardized Approach for measuring credit risk. For internal purposes, the Bank uses an internal ratings scorecard as a tool to assist with the credit decision process.

Credit risk management is executed through the establishment of an independent rating system for effective implementation of credit risk management processes, comprising:

- Evaluation of the credit administration process;
- Assessment of accuracy in the implementation of internal risk ratings and the use of other monitoring tools; and
- Performance effectiveness of work units or officers responsible for monitoring individual credit quality.

BCA exercises early detection to identify possible non-performing or potentially problematic loans and takes proactive steps to manage the loan portfolio in order to minimize the impact of non-performing loans on the overall portfolio.

Loans and Receivables that are Overdue and Impaired

Past due loans and receivables are defined as any loan or receivable that is more than 90 days overdue for payment for either principal and/or interest. Impaired loans and receivables are those financial assets of significant individual value that have objective evidence of impairment that could negatively impact the performance of the financial asset.

Disclosure of the Bank's net receivables - Bank only and consolidated - can be seen in Table 2.1.a and b; Table 2.2.a and b; Table 2.3.a and b.

Approach Used for the Formulation of Allowances for Impairment

In anticipating possible impairment arising from the Bank's financial assets it is necessary to establish Allowances for Impairment Losses. The Allowance for Impairment losses is adjusted on the basis of impairment under the implementation of Statement of Financial Accounting Standards (SFAS) No. 50/55.

Impairment evaluation is performed individually and collectively. The approach to calculating impairment on an individual loan compares the contract value of expected cash flows from a loan to an expected impaired value of a loan based on an estimate of discounted cash flows from the loan using an Effective Interest Rate (EIR) and the amortized cost of the loan at the time an impairment event occurs. Collective impairment is calculated statistically using the following statistical parameters:

- Probability of Default (PD) is the debtor's probability of failure to meet obligations as measured by Migration Analysis and Roll Rates reviews.
- Loss Given Default (LGD) is the level of losses resulting from the debtor's failure to meet obligations. Calculating a reasonable LGD percentage requires an analysis of historical data.

Disclosure of movement allowance for impairment losses - Bank only and consolidated - can be seen in Table 2.4.a and b; Table 2.5.a and b; Table 2.6.a and b.

Standardized Approach to the Application of Credit Risk Measurement

In the calculation of Risk Weighted Assets (RWA) for credit risk, the Bank refers to Bank Indonesia Circular Letter No. 13/6/ DPNP regarding Guidelines for Calculation of Risk Weighted Assets using the Basel II standardized approach for credit risk. RWA is generally calculated based on the ratings issued by rating agencies recognized by Bank Indonesia as stipulated in Bank Indonesia Circular Letter No. 13/31/DPNP regarding Rating Agencies and Ratings recognized by Bank Indonesia.

The use of outside third party ratings in the calculation of RWA credit risk is only for claims on Governments of Other Countries, Public Sector Entities, Multilateral Development Banks and particular International Institutions, Banks, and Corporates.

Disclosure of net receivables based on portfolio type and scale of rating - Bank only and consolidated - is presented in Table 3.1.a and b.

Counterparty credit risk arises from Over the Counter (OTC) derivative transactions and repo/reserve repo transactions, both on the trading book and the banking book.

Disclosure of counterparty credit risk: derivatives and reverse repo transactions can be seen in Table 3.2.a-c.

Credit Risk Mitigation

The preferred type of collateral accepted to mitigate credit risk is solid collateral defined as cash or land and buildings. These types of collateral have relatively high liquidity value and/or can be legally attached so that the Bank is able to liquidate collateral immediately on the debtor's/debtor group's loan becoming delinquent.

Collateral assessment is performed by an independent appraiser except in certain remote areas where no independent appraiser is available in which event the appraisal will be conducted by internal staff who are not involved in the loan processing. To exert control over the physical collateral pledged to BCA

by the debtor, site visits are conducted periodically to review the status of the collateral.

When processing credit, the main guarantors/warrant providers are analyzed as a risk mitigant to the overall credit risk. Creditworthiness and security analysis is determined by applying the Four Eyes Principle, where credit decisions are determined by two independent parties, the business development unit and the credit risk analysis unit.

Credit mitigation techniques are focused on strong collateral coverage. To further mitigate bank-wide potential credit risks, the Bank's loan portfolio is well diversified with regard to loans category and industrial and economic sectors.

Disclosure of net receivables - Bank only and consolidated - by risk weight after calculation of credit risk mitigation impact is presented in Table 4.1.a and b.

Disclosure of net receivables and credit risk mitigation techniques - Bank only and consolidated - is presented in Table 4.2.a and b.

Calculation of RWA for credit risk using the standard method - Bank only - is presented in Table 6.1.1, 6.1.2, 6.1.3 and 6.1.7.

Calculation of RWA for credit risk using the standard method - consolidated - is presented in Table 6.2.1, 6.2.2, 6.2.3, 6.2.6 and 6.2.7.

III.B. Disclosure of Market Risk Exposures and Implementation of Market Risk Management

Organization of Market Risk Management

The Board of Commissioners and the Board of Directors are responsible for ensuring that the implementation of risk management with regards to exchange rates and interest rates is in line with the Bank's strategic direction, scale, business characteristics as well as exchange rate and interest rate risk profiles. This includes ensuring the integration of exchange rate and interest rate risk management with other risks that may affect the Bank's risk position.

The Board of Directors delegates its authority and responsibility to the parties listed below.

Party	Authority and Responsibilities
ALCO	Determines policies and strategies regarding foreign exchange and interest rate risks.
The Risk Management Unit	Supports ALCO in monitoring and measuring foreign exchange and interest rate risks.
Treasury Division	Manages the Bank's overall operations in foreign currency transactions, and interest rates on the trading book: <ul style="list-style-type: none"> - Responsible for maintaining foreign currency Net Open Position (NOP) and interest rate on the trading book and ensuring the Bank's compliance with Bank Indonesia regulations regarding NOP. - Responsible for managing Trading Marketable Securities and Foreign Currency Transactions in line with customer needs and/or income considerations.
Regional Offices and Branches	Responsible for managing foreign currency transactions in the respective regional offices/branches in accordance with predetermined limits. All regional/branch foreign currency transactions shall be covered by the Treasury Division. Limits for each region/branch are determined in accordance with operational needs.

The calculation of market risk to determine the Bank's capital requirements uses standardized methods as defined by Bank Indonesia.

Trading Book and Banking Book Portfolio Management

Management of portfolios exposed to interest rate risk (on the trading book) and to foreign exchange risk is conducted by setting and monitoring the use of Nominal Limits (Net Open Position), Value at Risk Limits, Stress Loss Limits, and Stop Loss Limits.

The valuation method is based on closeout prices or market price quotations from independent sources, including the following:

- Exchange Prices.
- Dealer screen prices.
- The most conservative quotations given by at least two (2) brokers and/or market makers.
- Where market prices are not available from independent sources, the pricing is done by setting a price based on established yield curve building principles.

Market Risk Measurement

For the purposes of monitoring market risk, exchange rate and interest rate risk, Value at Risk measurements are taken on a daily basis based on a full historical valuation method using 250 days data at a 99% confidence level.

For the calculation of minimum Capital Adequacy Ratio (CAR), market risk is calculated based on the Basel II standardized method as adopted by Bank Indonesia.

Disclosure of market risk – Bank only and consolidated – using the standardized method can be seen in Table 7.1.

Disclosure of market risk – Bank only – using the internal method (Value at Risk) can be seen in Table 7.2.a.

Scope of Trading and Banking Portfolios Accounted for by Capital Adequacy Ratio

Following is the scope of the portfolio coverage included in the CAR calculations:

- Exchange rate risk considers the trading book and banking book. Exchange rate risk can arise from foreign currency transactions Today (TOD), Tomorrow (TOM), SPOT, Forward and SWAP.
- Interest rate risk considers the trading book. Interest rate risk can arise from securities transactions, as well as Forward and SWAP transactions.

- Equity risk (for subsidiaries) takes into account the trading book. Equity risk can arise from equity trading transactions that may be performed by subsidiaries.

Anticipation of Market Risk on Foreign Currency Transactions

In order to anticipate market risk in transactions associated with exchange rate and interest rate risks, steps are taken to establish and control market risk limits, such as Value at Risk, Nominal, Stress Loss and Stop Loss Limit, as well as conducting stress tests. For new products, the Bank will conduct assessments to identify and to mitigate market risk.

III.C. Disclosure of Operational Risk Exposure and Implementation of Operational Risk Management

Organization of Operational Risk Management

Bank-wide implementation of Operational Risk Management includes:

1. **The Board of Commissioners and the Board of Directors** ensure adequate risk management implementation according to the characteristics, complexity and risk profile of the Bank as well as a good understanding of the type and level of risk inherent in the business activities of the Bank.
2. **The Risk Management Committee** ensures that the risk management framework provides adequate protection against risks faced by the Bank.
3. **The Risk Management Unit (SKMR)** ensures that the risks faced by the Bank are identified, measured, monitored, controlled and reported correctly through the application of an appropriate risk management framework; SKMR also provides input to the Board of Directors on the development of policies, strategies and the risk management framework.
4. **The Enterprise Security Work Unit** protects and secures information and physical assets of the Bank, develops the Bank's ability to deal with emergency situations that threaten the business as an ongoing concern, and ensures that the application of information technology governance is in line with the Bank's policy.
5. **The Internal Audit Division** assures that business risks are managed properly and evaluates the adequacy and effectiveness of the implementation of risk management and internal control.
6. **The Operation Strategy and Development Division** assists SKMR in implementing operational risk management programs and provides support to all work units in implementing SKMR programs.
7. **The Work Units** (business units and support units) are risk owners responsible for risk management in daily operations through coordination on operational risk events to SKMR.

Measurement and Identification of Operational Risk

Implemented in 2002, BCA applies a Risk Self-Assessment (RSA) methodology to identify and quantify operational risks across all work units in the Bank. The main function of the RSA is to cultivate a strong risk culture and increase risk awareness as an important element of risk management. Developing a stronger risk culture is expected to improve risk control implementation amongst all employees in performing their daily activities and subsequently reduce overall risk.

The RSA methodology is further refined into a Risk and Control Self-Assessment (RCSA) model, which has been implemented in all branches and head office units identified as having significant operational risks. In the RCSA methodology, branches and work units identify and measure operational risks inherent to their respective work or business units. Based on this process, and in coordination with the Risk Management Unit, the work units determine the controls that must be implemented in order to mitigate the identified risks. These risks are monitored and reported on a regular basis.

In addition to RCSA, BCA has implemented a Loss Event Database (LED) and Key Risk Indicator (KRI) system. KRI is a method used to provide an early warning signal in the event there is the possibility of increased operational risk within a specific work unit. KRI has been implemented in all regional offices and branches.

LED is designed to assist in recording and analyzing cases or events that could lead to an operational loss so that corrective action can be taken to avoid similar type events from occurring in the future. The purpose of the LED is to identify the source and minimize the possible risk of operational losses. LED is also a means of operational loss risk data collection used by the Bank to determine the allocation of capital charges and for monitoring of events that could lead to further operational losses. LED has been implemented in all regional offices, branches and at the head office.

The application of RCSA, LED and KRI is supported by the Operational Risk Management Information System (ORMIS). Currently all branches and head office units use ORMIS in their implementation of RCSA, LED and KRI.

Operational Risk Mitigation

To mitigate operational risk, the Bank uses the following tools:

- Policies, procedures and limits to monitor, measure and mitigate operational risks.
- Up-to-date policies and procedures in accordance with organizational development and changes in legislation and regulations.
- Integrated and comprehensive Business Continuity Management Plans to ensure operational continuity in running the business and serving customers.
- Internal control system, which in practice applies the segregation of duties principle, the four eyes principle, and operates on a rotation system to avoid potential self-dealing and concealment of documents or possible fraudulent transactions.

Disclosure of quantitative operational risk - Bank only and consolidated - can be seen in Tables 8.1.a and b.

Risk Management of New Products and Activities

As the largest private bank in Indonesia, BCA focuses on providing up-to-date banking products and activities that cater to customers' evolving needs.

New or enhanced products and banking activities are subject to a review process that takes into account the business strategy for the product as well as a review of the risks inherent in the product and mitigants to manage those risks. This process is designed to assure that new products or activities will not significantly change the risk profile of the Bank. Risk management principles for new products, activities and businesses are implemented based on internal regulations prepared in accordance with guidelines as of regulators. In 2015, the Bank introduced 'Sakuku' (My Pocket), a mobile-based banking and payment application that is expected to play a major role in future product development strategy.

The Bank actively supports the government program to promote the national cashless society movement (*Gerakan Nasional Non Tunai - GNNT*) and continues to work to increase the financial literacy of the Indonesian people. The products developed by BCA in support of the government programs include:

- Laku: A BCA product for OJK-sponsored branchless banking service for financial inclusion or *Laku Pandai* program;
- Duit: A BCA product for the Bank Indonesia-sponsored Digital Financial Services program.

III.D. Disclosure of Liquidity Risk Exposure and Implementation of Liquidity Risk Management

Organization of Liquidity Risk Management

The Board of Commissioners and the Board of Directors are responsible for ensuring that liquidity risk management is conducted in accordance with the strategic objectives, scale, business characteristics and liquidity risk profile of the Bank, which includes the integration of liquidity risk management with other risks that may impact on the Bank's liquidity position.

The Board of Directors delegates its authority and responsibility to the parties below:

Party	Authority and Responsibilities
ALCO	Determines policies and strategies regarding liquidity.
The Risk Management Unit	Supports ALCO in monitoring and calculating liquidity risks.
Treasury Division	Manages overall operational liquidity of the Bank: <ul style="list-style-type: none"> - Responsible for monitoring Statutory Reserves and ensuring the Bank's compliance with Bank Indonesia regulations regarding Statutory Reserves. - Responsible for managing secondary reserves in order to maintain liquidity and seek income.
Regional Offices and Branches	Responsible for managing liquidity risk at the respective regional offices and branches.

Measurement and Control of Liquidity Risk and Early Warning Indicators for Liquidity Problems

Liquidity risk measurement is undertaken on an ongoing basis through the monitoring and reviewing of cash flow projections, maturity profile reports, liquidity ratio testing and stress test scenarios.

Liquidity risk management includes funding strategies that cover source diversification strategies and funding plans that are consistent with the characteristics and business plan of the Bank. Risk is monitored and mitigated through daily liquidity management reviews, policies for investment in high quality liquid assets, implementation of limits related to liquidity risks, as well as through maintaining robust contingency funding plans.

Proactive liquidity risk monitoring is conducted to ensure that, in the event of potential increases in liquidity risk, liquidity concerns can be readily mitigated by making adjustments to policy for liquidity risk management mechanisms to reduce pressure on liquidity.

Below are the activities involved in the process of monitoring liquidity risk:

- Monitoring of liquidity risk considers both internal and external early warning indicators of potential increases in liquidity risk.
- Monitoring of funding and the liquidity position includes:
 - Interest rate strategies, alternative investments for funds owners, changes in customer behavior, changes in exchange rate and interest rate differentials with the Bank's main competitors may affect

changes in the structure of funds, funds volatility and core funds. Funds are thus monitored regularly (daily, monthly and yearly).

- Monitoring of the liquidity position in the form of statutory reserves and cash as well as secondary reserves is done daily, weekly, monthly, and yearly.
- Monitoring of losses due to liquidity risk is evaluated through the costs arising from liquidity maintenance or losses caused by liquidity factors.

The Bank maintains liquidity reserves by preserving high quality liquid assets sufficient to meet its commitments to customers and other parties within the framework of credit provision, repayment of customer deposits, fulfillment of operational liquidity needs, and ensuring that the amount of assets maturing in each period will cover the liabilities due to mature.

Disclosure of Rupiah and foreign exchange maturity profiles for the Bank alone and as a consolidated entity (according to Bank Indonesia regulations regarding the Implementation of Risk Management for Commercial Banks and Periodic Reports of Commercial Banks) are presented in Table 9.1.a and b, Table 9.2.a and b.

III.E. Disclosure of Legal Risk Exposure and Implementation of Legal Risk Management

Legal risk is defined as risk from lawsuits and/or weaknesses in legal documentation or contracts, or an absence of and/or change in regulation that

causes a previously compliant procedure to be no longer in accordance with the updated regulation, and litigation arising from third party claims against the Bank or claims by the Bank against a third party.

Organization of Legal Risk Management

In order to minimize legal risk, the Bank has established a Legal Group at the head office and legal units in regional offices to support the Bank in carrying out banking activities and mitigating legal risk. The Legal Group also has the duty and responsibility of supporting and safeguarding the legal interests of the Bank with respect to the prevailing laws and regulations as it carries out banking activities.

Legal Risk Control

BCA mitigates legal risks through the following:

- Legal Risk Management Policy; having internal regulations to govern the organizational structure and job description for the Legal Group; standardizing legal documents.
- Socializing the impact of new regulations applicable to BCA's banking activities and the various modus operandi of criminal and fraudulent banking activities as well as the legal guidelines for prosecuting such crimes to branch officers and related work units.
- Registering intellectual property rights for the Bank's products and services as well as securing ownership of the Bank's assets, such as rights to land and buildings owned by the Bank, with the appropriate authority.
- Monitoring and taking legal action on violations against the Bank's assets, including infringement of intellectual property rights belonging to BCA.
- Identifying, monitoring, analyzing and quantifying potential losses that may arise in relation to legal cases.

III.F. Disclosure of Strategic Risk Exposure and Implementation of Strategic Risk Management

Strategic risk can arise from inaccuracy in management decisions and/or inappropriate implementation of strategic direction as well

as failure to anticipate changes in the business environment.

Organization of Strategic Risk Management

In an effort to limit the occurrence of strategic risks, the Board of Directors has developed strategic plans and business initiatives as outlined in a 3-year business strategy (Bank Business Plan) blue print and a one-year business plan and budget (Annual Budget & Work Plan). The Bank Business Plan and the Annual Budget & Work Plan require the approval of the Board of Commissioners.

BCA's Corporate Planning Sub-Division is designed to support and monitor the formulation and the implementation of the Bank Business Plan and the Annual Budget & Work Plan by preparing regular reports comparing the business plan and budget with their realization, including conducting reviews of both financial and non-financial business targets. The Bank Business Plan and the Annual Budget & Work Plan are compiled through a series of discussions involving the Board of Commissioners, the Board of Directors and other management.

Policies to Identify and Respond to Changes in the Business Environment

In order to identify and respond to changes in both the external and internal economic environment and business conditions, BCA conducts:

- Regular reviews of the Bank Business Plan and the Annual Budget & Work Plan in accordance with business developments and the state of the Indonesian economy.
- Reviews of business targets with consideration to the current economic situation and the forecast of the coming year while emphasizing the principle of prudence, attention to the capacity and capabilities of BCA and trends in banking competition.

The Bank's strategy is formulated with reference to Bank Indonesia and Indonesia Financial Services Authority regulations and other relevant provisions, as well as the potential impacts of strategic risk on the Bank's capital with regard to the Capital Adequacy Ratio (CAR) based on the risk appetite, risk tolerance and the capabilities of the Bank.

Measurement of the Bank's Business Plan Progress

To measure progress in achieving the business plan, the Bank conducts the following activities:

- Identifying, measuring, and monitoring strategic risk, as well as compiling quarterly strategic risk profile reports.
- Compiling reports on the realization of the Bank Business Plan, which includes financial performance, actual vs. budgeted, realization of corporate/divisional work programs and the realization of branch network development.
- Regularly monitoring changes to the business environment and developments in the Indonesian economy.

III.G. Disclosure of Reputation Risk Exposure and Implementation of Reputation Risk Management

Reputation risk can occur as a result of reduced levels of trust from stakeholders triggered by negative perceptions of the Bank.

Organization of Reputation Risk Management

BCA has a strong commitment to managing reputation risk. To this end, the Bank has established the Halo BCA Contact Center and Customer Care that specifically deals with customer complaints by phone, mail, email, and social media 24 hours a day, every day. In handling customer complaints, Halo BCA Contact Center and Customer Care coordinates with other related units, including the Consumer Card Work Unit, the Consumer Credit Work Unit and the Electronic Banking Services Center, to respond to potential reputational risk events.

Policies and Mechanism of Reputation Risk Control

In order to manage reputation risk, the Bank implements the following:

- Establishment of provisions for customer complaints that clearly define the policies, procedures, work units that monitor and handle customer complaints, including the format of reports made to regulators.
- Monitoring of customer complaints and routinely reports the results to the head of each unit and to the Board of Directors. These reports help the Bank to better handle complaints.

- Development of infrastructure, including the implementation of appropriate software and hardware; development and management of procedures; development of management information system infrastructure to facilitate monitoring and to support the speed and quality of work in responding to and monitoring customer complaints.

Reputation Risk Management at Times of Crisis

To manage reputation risk in times of crisis, the Bank has conducted the following:

1. Implementation of Crisis Management, which includes:
 - a. Crisis Management Policy, a strategy to manage disorder or events that disturb the Bank's services and reputation, as well as those with the potential to cause disruptions.
 - b. Crisis Management Team, responsible for coordinating the process of crisis management.
 - c. Crisis Communication Protocol, to coordinate crisis communications to internal and external parties, including to the mass media. Clear chains of communication and the person in charge of communications have been established for all stages of the crisis.
 - d. Crisis Management Guidelines, including emergency responses, to facilitate customer service and transactions in the event of a crisis or emergency situation.
2. Development of a business continuity plan and a disaster recovery plan, designed to speed up the recovery process in the event of a disaster.
3. Installation of backup systems to prevent high risk business failure.

III.H. DISCLOSURE OF COMPLIANCE RISK EXPOSURE AND IMPLEMENTATION OF COMPLIANCE RISK MANAGEMENT

Compliance risk is the risk arising from the Bank's failure to comply with and/or implement the prevailing laws and regulations.

Organization of Compliance Risk Management

In order to minimize compliance risks, all organizational lines need to be responsible for the management of compliance risk in all activities of the Bank. The Board of Commissioners is responsible for approving risk management policies and providing advice on compliance risk. With the assistance of the Audit Committee and Risk Oversight Committee, the Board of Commissioners supervises the implementation of compliance risk management.

The Compliance Director, assisted by the Compliance Unit, is responsible for ensuring compliance and minimizing compliance risk by formulating compliance risk management policies and procedures as well as monitoring their implementation. The Compliance Unit is independent from other working units. The Compliance Director reports the results to the President Director which are then presented to the Board of Commissioners.

The Compliance Unit is also responsible for the implementation of the Bank's Anti-Money Laundering and Combatting the Financing of Terrorism programs in BCA.

Business units at head office and branches are the front-line in ensuring all business activities are carried out in accordance with the relevant regulations.

Risk Management Strategies Associated with Compliance Risk

BCA has a strong commitment to comply with prevailing laws and regulations and actively takes steps to correct any weaknesses. This is in line with the Bank's compliance risk management strategy, which contains policies to always comply with the applicable regulations, foremost through proactive prevention (ex-ante) in order to minimize any occurrence of violations and through curative action (ex-post) as corrective measures.

Compliance Risk Monitoring and Control

In order to control and minimize compliance risk, the Bank has taken the following steps, including:

- Identify sources of compliance risk.

- Perform gap analysis between new and previous provisions and accordingly make the necessary changes to internal policies and regulations, as well as the implementation of information systems.
- Measure and monitor compliance risk exposure on a regular basis; results are discussed with the Risk Management Unit and then reported to the Director of Compliance, who finalizes decisions and prepares the compliance risk profile report.
- Socialize and consult on provisions of various regulations.
- Examine compliance in the implementation of provisions.
- Develop a compliance matrix diary as a means of monitoring commitment to comply with reporting duties to the regulators.
- Monitor suspicious financial transactions through the implementation of Anti Money Laundering protocols, which are regularly audited.

In order to improve the effectiveness of internal control, coordination is maintained between the Risk Management Unit, Internal Audit Division and the Compliance Unit through regular meetings and intensive communication. Problems associated with internal compliance control, particularly in addressing potential compliance risks, are comprehensively assessed, allowing the formulation of effective measures.

IV. Application of Integrated Risk Management

In accordance with Indonesia Financial Services Authority Regulation No. 17/POJK.03/2014 dated November 18, 2014 and Indonesia Financial Services Authority Circular Letter No. 14/SEOJK.03/2015 on the Implementation of Integrated Risk Management for Financial Conglomerations, BCA has developed an Integrated Risk Management for Financial Conglomerates ("FC BCA") structure and policies for integrated risk management. Application of an Integrated Risk Management structure includes:

1. Active supervision of FC BCA by the Board of Directors and the Board of Commissioners of the Main Entity defined as BCA;

2. Adequacy of policies, procedures, and determination of limits for Integrated Risk Management;
3. Adequacy of identification, measurement, monitoring, and mitigation of integrated risk, as well as Integrated Risk Management information systems;
4. Comprehensive internal control system.

BCA has implemented Integrated Risk Management by:

1. Appointing the Director in charge of risk management at BCA as the Director in charge of Integrated Risk Management for the group with the function to implement Integrated Risk Management within the group.
2. Forming an Integrated Risk Management Committee to ensure that the risk management framework provides adequate integrated protection against all risks faced by the Bank and its subsidiaries.
3. Adjusting the organizational structure of the Risk Management Unit to ensure that the integrated risks faced by the Bank and its subsidiaries can be identified, measured, monitored, controlled and reported correctly through the implementation of an appropriate risk management framework.
4. Identifying the Main Entity and Subsidiaries included in the Financial Conglomerate for integrated risk management purposes.
5. Compiling and submitting Integrated Risk Profile Reports.
6. Finalizing the compilation of Basic Integrated Risk Management Policies for the implementation of Integrated Risk Management.

The Risk Management Unit is responsible for setting guidelines and monitoring the implementation of risk management by the Bank and its subsidiaries within FC BCA. In order to institute an overall integrated risk management culture, the Bank conducts socialization, coordination and communication activities between the various Bank business units and its subsidiaries.

The Integrated Risk Management Committee has the primary function of providing recommendations to the Board of Directors regarding the compilation of integrated risk management policies and the improvement of said policies based on the evaluation results of their implementation. In the early stages of its formulation, the Integrated Risk Management Committee has conducted meetings to establish the basis and ground rules for governing the committee, the Basic Integrated Risk Management Policy and the Integrated Risk Profile Reports.

FC BCA manages ten types of integrated risks as identified by the regulators. These risks include the eight types of risks that were previously managed within the Bank's risk management process with the addition of Inter-group Transaction Risk and Insurance risk.

Inter-group Transaction Risk

FC BCA conducts inter-group transactions in accordance with the principles of fairness and on an arms-length basis in adherence to prevailing regulations. All inter-group transactions are documented appropriately. Inter-group transactions currently do not have a material impact on the overall financial performance of the Group.

Insurance Risk

FC BCA also manages Insurance Risk through the Bank's subsidiaries active in the insurance industry. The Insurance Risk of FC BCA is considered to exhibit "low" inherent risk with "satisfactory" risk management implementation based on current regulatory guidelines.

Based on integrated risk assessment, FC BCA's capital is considered sufficient to cover potential losses that may arise or be faced by FC BCA in conducting the integrated businesses.

The Summary of Risk Management Implementation at Each Subsidiary

PT BCA Finance

Active Supervision by the Board of Commissioners and the Board of Directors

Active supervision is conducted by the Board of Commissioners and the Board of Directors through the establishment of the following:

“BCA focuses on quality service with strong and well-trained human resources while maintaining the Bank’s position as an employer of choice in Indonesia”

BCA's achievements and successful implementation of the Bank's business strategy relies upon reliable and well-trained human resources. The contributions of the Bank's employees at all levels of the organization are the key to delivering quality services to the customers and maintaining the Bank's solid position amid tightening competition.

Through a combination of careful recruitment and comprehensive professional development programs, the Bank aims to enhance the skills and competencies of all staff and to prepare high performing individuals for future leadership roles.

BCA is committed to being an employer of choice. As a token of recognition of the Bank's commitment to providing a conducive and productive work environment, the Bank received Great Workplace Award from Gallup, a global performance-management consulting company, in 2015. Of the thousands of companies worldwide, only 5% or 40 companies received the award, and BCA was the first in Indonesia.

Training and Development

BCA continues to renew and develop Bank training programs for employees to remain in the forefront in a dynamic business environment. Throughout 2015, 60,263 employees attended 1,905 classes, completing a total of 248,368 training days. Training programs are designed to enhance skills and knowledge of staff across all Bank divisions including payment settlement services, credit services, marketing, risk management and internal control. In addition to in-house training, BCA provides opportunities for employees to attend external training programs in accordance with the specific requirements of the employee's area of expertise and in effort to provide a framework for enhancing or developing new skills.

To support the Bank's strategy in enhancing relationship banking, BCA holds ongoing training modules for the development of specialized staff who are instrumental in serving affluent and high net-worth individuals. The program is also designed for the development of customer service with extensive knowledge of the Bank's products and services to better provide information, solutions and financial services appropriate to the needs of customers. These development initiatives will allow the Bank to enhance the quality of customer service through the provision of comprehensive banking solutions.

In order to facilitate intranet training for employees, BCA continues to develop e-learning, a technology-based learning method easily accessible by all employees at all levels of the organization without the constraint of time or location. In 2015, the Bank enhanced its e-learning media by adding new modules relevant to banking trends and in line with ongoing business developments. The number of e-learning participants reached 19,653 in 2015 compared to 18,443 participants in 2014. In addition, the Bank continues to develop Video-Based Training capacity for a more interactive training experience.

To enrich the learning process, in 2014 BCA began introducing gamification into bank-wide training programs. This learning method makes use of educational games for a fun learning experience to ensure that the materials can be easily comprehended by the participants. This method is appropriate and preferred by the younger employees, who are generally millennial generation.

As part of employee self-development, in 2015 the Bank held the BCA Innovation Award program as a platform for employees to be creative in an effort to encourage innovation both in developing banking services and solutions and in improving internal processes. The innovation concepts were first delivered in a Community of Practice group discussion format—a forum for

Business Support

Human Resources

employees to share knowledge and expertise within their respective work units—in order to receive input from colleagues prior to submission of the innovation proposal to an independent jury for assessment. The Innovation Award program has proven quite positive in building employee engagement and enhancing the innovation process while generating ideas that have improved Bank efficiency.

In order to maximize managers' commitment to their teams, improvement of staff quality is one of the key performance indicators for measuring BCA division and group head managers. The key performance indicators are comprised of three aspects, namely individual development plan, coaching and encouraging a learning culture. The primary goal of this program is to maximize employee satisfaction and ultimately increase employee retention.

To support the Bank's growing training needs, a new training center is being developed and will become fully operational in 2016. This training center, the BCA Learning Institute, is designed to meet BCA's overall training needs and equipped with more than 70 modern class rooms, accommodations and group conference rooms. The modern design, the use of the latest technology, and virtual classrooms, are considered essential for BCA to continue improving human resources. The BCA Learning Institute also includes BCA gallery. This gallery is designed to tell the story of the Bank's journey and to introduce BCA's vision, mission and values as a part of the orientation of new Bank employees.

Recruitment and Career Building

Regeneration and succession are important factors in developing and maintaining superior human resources. This process begins with the selection of the best graduates from top universities both at home and from overseas. The BCA career website is an important medium that can be widely accessed by internal and external job seekers. In 2015, BCA recruited 2,535 new permanent employees and accepted 4,060 people to work as tellers and customer service officers through the Magang Bakti BCA apprenticeship program. Before being

placed in various work units, the new employees are first given thorough and intensive training through a variety of educational programs according to their specific needs.

In order to support BCA as a continuously growing organization, the Bank has conducted a management trainee program since 1990. The program, the BCA Development Program (BDP), focuses on the Bank's needs for skilled first-line managers. BDP participants receive both in-class and on-the-job training so that they receive theoretical and practice experience and can readily adapt to their work unit or branch placements upon completion of the program. The program is continuously evaluated and adapted to the dynamic and ever changing needs of the Bank.

In line with the development of the specific needs of the organization, BCA also recruits employees to be placed directly in special programs such as the Account Officer, Relationship Officer, Business Analyst, Frontliner, and Operation Support Staff Program.

In order to maintain the sustainability of employee regeneration, the Bank regularly organizes career development programs, aimed to prepare employees for career advancement and to meet the Bank's staffing needs in strategic positions. BCA uses a system of joint work unit and Human Capital Management Division assessment panels to identify the best quality employees for promotion. Selected employees will be enrolled in special education programs and upon completion, the employee's performance will be evaluated in preparation for continuing self-development programs and targeted promotion. In 2015, 301 employees completed the BCA career development program.

As the organization continues to grow, BCA continues to develop the quality of its employees at the management level. To that end, BCA runs enrichment programs for senior management officers to provide them with extensive knowledge and ability to meet the changing needs of the banking business. These programs give senior management the flexibility to occupy different positions within the organization.

At the branch level, there are two types of enrichment exchange programs. These exchange programs are the loan-related enrichment program for the Heads of Branch Operations who have yet to possess the necessary expertise or experience in lending and the operational enrichment program for the Heads of Branch Business Development who are not yet sufficiently experienced in the operational field. Through these exchange programs, Bank officials will be well prepared to become the head of strategic branches; positions that require comprehensive management and credit skills. In the head office, more specific enrichment programs cater directly to the needs of each unit. For example, treasury products and services enrichment program ensures that Corporate Business Group officials understand the business relationship between corporate banking and the treasury.

BCA implements an attractive rewards program as an appreciation to employees for maintaining and improving their performance. Remunerations and rewards are set based on the achievement of predetermined targets. Since 2012, a portion of employees' annual bonuses have been paid in the form of BCA shares acquired through the Indonesia Stock Exchange. The bonus shares are held for three years before the employee has the right to sell. The bonus shares scheme is designed to enhance the sense of belonging and ultimately it is hoped to maintain employee loyalty throughout the Bank.

Learning Organization

To ensure the availability of human resources who are ready and able to adapt rapidly to changes in the direction and development of the business, the Bank is committed to becoming a leading learning organization. A learning culture is developed through integrated training programs and has become ingrained in the Bank's culture. In recent years, the Bank has consistently developed an informal learning culture by encouraging self-learning through Community of Practice (COP), an expertise and knowledge sharing program. By regularly organizing COP meetings, work units are able to capture, own and disseminate knowledge as a valuable reference for any employees seeking such information.

In addition to being held in each work unit, COP is also made available for the senior leaders of the Bank. In this forum, BCA invites external speakers and experts to share their views on various topics and the latest practices in certain industries. This program is expected to provide insight to the necessary knowledge and skills for BCA senior officers who are involved in decision making that can impact the overall Bank. COP has also become a vehicle for the dissemination of the latest developments in various industries that the leaders of the BCA need to be aware of, such as developments in the banking industry and information on newly launched products and services.

In 2015, and in every year since 2012, BCA has held the Indonesia Knowledge Forum (IKF) as a medium for knowledge and experience sharing intended for the nation's youth. The theme for IKF 2015 was "Moving Our Nation to the Next Level - Utilizing Knowledge for Sustainable Innovation Across Generations". The theme discussed the outlook for Indonesia's economy from different perspectives, followed by a sharing session with the founders of creative industries. In 2015, the IKF was attended by approximately 1,100 participants from various circles of society: businessmen, students, customers and employees of the Bank.

Work-Life Balance

BCA is committed to ensuring job satisfaction among employees believing that efficiency is maximized when there is a well-maintained work-life balance. To that end, the Bank offers a wide range of activities and training that aim not only to enhance skills related to an employee's duties at the Bank, but also to satisfy their personal needs.

BCA provides a variety of training programs related to health, financial management, and child care, as well as training in preparation for retirement.

Various group activities, offered in support of employees' hobbies, are rapidly growing in participants and facilitate the ability of employees to pursue personal interests beyond their work life. These communities include

Business Support

Human Resources

photography, fishing, biking and hiking. BCA also provides a counselling service to support employees in finding solutions to problems in their personal lives.

Looking Forward

BCA will continue to foster their employees' development and building the competencies and capabilities required to face increasingly fierce competition in the banking industry. Employees are the Bank's main resource in staying a national banking leader amid growing competition. BCA believes in career development and training as essential elements to develop and retain a quality workforce.

BCA reviews competency mapping as a part of talent management for employee career development and works to develop individuals to meet leadership needs at various levels of the organization. As a step to improving comfort in the workplace, the Bank introduced the employee value proposition, which is a distinguishing

factor between BCA and other companies. The hallmarks of the employee value proposition are friendly work environment and continuous improvement to support a well-balanced life and career.

BCA continues to innovate and improve the various training programs offered by the Bank. To facilitate the learning process of the younger millennial generation, BCA is developing Mobile Learning BCA (Morning BCA) as an attractive and convenient learning channel. This learning mechanism is based on a cloud system that allows employees to access learning systems from outside the office at their convenience.

BCA will continue to maintain its position as an employer of choice in Indonesia. The BCA recruitment team makes use of attractive socialization programs and strengthens cooperation with universities throughout Indonesia in introducing and promoting a promising career with BCA. It is BCA's goal to attract the best talents in the country.

Network and Operations

“BCA’s multi-channel network consists of traditional branches and a wide array of electronic banking channels that provide flexibility for customers in their transaction activities”

17,081

Number of ATMs

BCA consistently works to provide the highest quality service in order to improve customer satisfaction and loyalty in an increasingly competitive market. Quality is achieved through a harmonious blend between the reliability of the banking network and the competence of human resources, in particular the frontliners who interact directly with customers.

The Bank has developed a multi-channel network strategy consisting of the traditional brick and mortar branch network and increasingly through a wide array of electronic banking channels that provide flexibility for customers in their transaction activities. To ensure convenience and meet the growing demand for transaction banking services by the customers, the Bank has focused on expanding its branch network and electronic delivery channels, including Automated Teller Machine (ATM), Electronic Data Capture (EDC) machines and Flazz card readers, while continuing to develop and enhance its internet and mobile banking services. BCA consistently improves account service features through constant development and upgrades based on customers' needs. Quality service is further enhanced through employee development for comprehensive, efficient and timely banking solutions.

Customer transaction preferences are shifting toward electronic delivery channels. This trend is expected to accelerate and will require the Bank to continue to be innovative in developing and expanding digital banking channels in order to remain one of the leading banks in Indonesia and improve the efficiency and quality of its service.

Integrated Network Infrastructure

The Bank's ongoing success in running its core business as a payment settlement service provider is made possible by a nationwide network of branch offices and a wide nexus of electronic delivery channels. The various delivery channels are multiply connected with a wide array of payment settlement products and services.

In 2015, the Bank opened 71 new branches, consisting of 2 main branches, 15 sub branches and 54 cash offices. In order to further expand the Bank's reach, BCA also added 387 ATMs, including Cash Deposit Machine (CDM) and Cash Recycling Machine (CRM). As of December 2015, the Bank has a total 1,182 branches (132 main branches, 853 sub branches, 197 cash offices), 17,081 ATMs and hundreds of thousands of EDC machines. The extensive and interconnected network allows BCA to improve ease of access for Bank customers in their transaction activities.

Although electronic banking has rapidly grown in popularity, branches still remain prevalent as the Bank's primary transaction and payment channel, offering comfort and the knowledge of friendly, face-to-face customer interactions, in a society with a high volume of cash transactions. In addition to the conventional branch network, BCA offers branch services designed to facilitate the needs of specific customers, such as the Solitaire service for high net-worth individuals; Prioritas to serve affluent customers; BCABIZZ to facilitate the transactions of small-to-medium business customers; and Weekend Banking, which offers banking services on the weekends.

In expanding the branch network, the Bank prioritizes high-potential strategic locations, including shopping malls, business centers and residential areas, as well as traditional market areas in major cities. BCA continues to target, refine and renovate branch offices in order to deliver high quality transaction facilities based on the needs of the specific customer segments in each of the branch locations. BCA seeks to enhance the utilization of technology and automation, for example, through the introduction of teller-assisted cash counting machines operated by customers, at major high-volume branch offices designed to meet the demand for ease and speed of transactions while reducing operating costs. In order to improve service, BCA continuously explores options for developing a more efficient, smaller-sized, branch concept equipped with the latest electronic banking facilities.

Business Support

Network and Operations

To enable a more efficient management of cash handling and reduce the burden of dealing with cash at branch offices, BCA continues to refine and expand its Cash Recycling Machine (CRM) network. The CRM is a type of ATM that allows cash deposits and withdrawals to be completed in a single machine by reusing the deposited cash for subsequent withdrawals. The CRM reduces the need for machine visits to fill the machine with cash as with conventional ATMs. These CRMs are still in the early roll out stage and will continue to be improved with regard to efficiency and quality. While the CRM requires a relatively high initial investment compared to a conventional ATM, BCA will benefit from the CRM service in the longer as it offers increased operational efficiency, fewer machine visits and ultimately lower transaction costs, when compared to a conventional ATM or branch banking.

Continuity of service is the key to customer confidence. To ensure sound operation of the Bank's networks, delivery channels are supported by two data centers, each having the capacity and ability to handle the entire process of the Bank's customers' transactions. Both data

centers are designed to manage data redundancy, which is necessary to maintain business continuity. In addition to the two data centers, the Bank has set up a Disaster Recovery Center (DRC) in Surabaya, specifically designed to keep basic banking operations running in the event of force-majeure and to mitigate Bank operational risk.

Digital Technology, Internet and Social Media

We have seen the development of internet technology and mobile communications accelerate digitization and connectivity, thereby making possible alternative solutions for transactional and payment settlement banking services. Indonesia has witnessed increasing demand for alternative technology-based solutions, driven by the rapid adaptation by Indonesian society, especially the middle class, to the latest technologies.

In response to the increasing use of electronic banking in Indonesia, BCA continues to develop its internet banking and mobile banking platforms to be at the forefront of technology in Indonesia. BCA understands the needs of customers to make payments and other daily banking transactions through their mobile phones,

and is a pioneer in the provision of reliable mobile banking services in Indonesia. BCA introduced 'BCA Mobile', which combines the 'KlikBCA' internet banking service and the 'm-BCA' mobile banking service to allow for mobile-based transaction banking. BCA sees electronic banking as a single integrated network to complement branch services and support BCA's strategy in improving the network cost efficiency.

With growing customer needs for electronic banking services, BCA developed a new digital banking center known as MyBCA. The MyBCA service combines the conventional ATM center with new digital services including access to the HaloBCA call center equipped with video call features. Various innovative facilities are available at MyBCA locations, such as the ability to electronically open Tahapan Expressi savings accounts, and file credit card applications and new KeyBCA token requests, as well as automated Flazz card purchasing machines. To assist customers in using these services, MyBCA locations are staffed by reliable duty officers who are equipped with knowledge of BCA banking products and solutions. Launched in 2014, as of 31 December 2015 MyBCA is available at 7 shopping centers in Jakarta and Surabaya. We continue to receive positive responses from customers as we see increasing transactions through MyBCA.

Taking into consideration the latest lifestyle trends, BCA proactively interacts with customers through social media as an alternative communication and education channel. BCA expanded its digital marketing strategy by utilizing social media and is active through several social media accounts as a means of effective communication and dissemination of information. In late September 2015, BCA soft-launched 'Sakuku' (my pocket), a server-based e-money service based on a smartphone application. 'Sakuku' targets the younger generation and can be used for shopping payments, transfer, cash withdrawals, mobile phone top-ups and other banking transactions.

BCA is also developing branchless banking services 'Laku' and 'Duit' as part of the Smart Act (*Laku Panda*) and Digital Financial Services program encouraged by the Indonesian Financial Services Authority and Bank Indonesia. 'Laku', a savings product with no monthly administration fee, is intended to expand the scope of services to reach out to the lower middle-class market beyond the existing BCA customer base. *Duit Telepon* (Telephone Money or 'Duit') is an electronic money system that uses a customer's cellphone number to identify the account holder and was established to facilitate customer transactions without the need for a bank account. Similar to 'Laku', 'Duit' is also intended to reach out to the lower middle class. These two services are supported by a network of independent agents who are equipped with portable machines to process transactions for deposits, withdrawals, transfers, phone credit purchases and bill payments. Customers' account balances and bank statements can be retrieved through the agent or the customer's mobile phone via Short-Message-Services (SMS). 'Laku' and 'Duit' are in the early stages of development and are now only available in selected areas. Products and services will continue to be enhanced in accordance with the needs and transaction behavior of the customers.

Focus on Customer Service

To ensure the quality of services provided, BCA continuously develops the skills of employees, especially the frontliners who directly interact with customers. Frontliners are equipped with the knowledge and skills necessary to offer the Bank's products and services as well as banking solutions to meet customers' needs.

In line with the expansion of the Bank's customer-centric business model, BCA instills a service culture through its SMART SOLUTION program. The program has been running since 2010 and builds upon the earlier SMART program that was first implemented in 2001, ultimately securing BCA's position as one of the leading transaction banks in Indonesia. SMART, standing for *Sigap* (active),

Business Support

Network and Operations

Menarik (attractive), *Antusias* (enthusiastic), *Ramah* (friendly) and *Teliti* (thorough), focuses more on service excellence, while SMART SOLUTION, with SOLUTION standing for *Simak* (attentiveness); Open-mindedness; *Lengkap* (completeness); *Utamakan kebutuhan nasabah* (prioritization of customer needs); Telling solutions; *Inisiatif* (initiative); and ON-time follow up; focuses on the needs of customers and the delivery of superior financial solutions. More than just providing excellent service, through SMART SOLUTION, BCA can foster closer relationships with customers and enhance long-term customer engagement.

BCA continues to increase the number of frontline officers by recruiting university graduates and enrolling those students in various programs for front-line tellers and customer service officers. In addition, the Bank continued to increase the number of Relationship Officers (ROs), a role introduced in 2012, to improve the effectiveness of customer service in the branch offices. ROs are intended to improve customer service through the provision of comprehensive banking solutions for customers.

Along with the increasing use of the Bank's electronic transaction network, HaloBCA, the Bank's call and solution center, has become an integral driver of BCA's performance. Through this service, BCA provides timely and appropriate solutions for customers having difficulty in using new technologies in their transactions, thereby relieving the branch offices of this burden. HaloBCA agents are also trained in product and service knowledge, reducing a customers' need to visit a branch office.

Accessible 24 hours a day, HaloBCA provides technical assistance as well as detailed product and service information to guide customers in choosing the most suitable products and services for their needs. As proof of service excellence, in 2015 HaloBCA received several awards nationally, regionally, and internationally. The awards received include "The Best Mega Contact Center in the World" and "Top Ranking Performers - Asia Pacific 2015" of the Contact Center World and "The Best Contact Center Indonesia 2015" of Indonesia Contact Center Association (ICCA).

Looking Forward

Quality of service will be the differentiating factor as the level of competition in the Indonesian banking industry continues to grow. In order to maintain and improve service quality, the Bank will continue to innovate in various fields, including developments to the network as well as employees, especially those on the frontline, and improvements of the organizational structure.

To facilitate the growing volume of customer transactions, the Bank will continue its network expansion, with both branch and electronic banking networks, while maintaining a balance between breadth of coverage and cost efficiency. BCA will invest in the development of digital banking and the enhancement of branch banking services, with additions to the branch network to be carried out selectively and focused on smaller branch formats equipped with electronic devices.

In order to enhance customer relationship management, the capability of human resources will be expanded so that frontliners will be well trained and able to provide the right financial solution for the Bank's customers. The recruitment of frontliners to meet the evolving needs of the branches will continue in 2016. We are constantly working to improve the organizational structure and key performance indicators (KPI) of frontliners in order to deepen customer relationships as the foundation for sustainable business growth in the future.

Information Technology

“ BCA continues to develop the capacity and the capability of the Bank’s information technology infrastructure for the ease, speed, convenience and security of financial services ”

Rp

16

Trillion/Day
Internet Banking
Transaction Value

The implementation of a reliable Information Technology (IT) system is the key to providing payment settlement services and financial solutions that meet the varied financial needs of BCA's customers.

BCA continues to strengthen its information technology infrastructure to ensure that the Bank has the capacity and the capability to meet the growth in demand for banking services through both branch and electronic networks. Utilizing the latest developments in information technology, the Bank provides up-to-date solutions for customers with particular focus on enhancing online transactions as the new lifestyle standard amongst the middle class in urban areas. In this digital era, ease, speed, convenience and security in financial services have become an integral part of the banking industry.

To remain a leading transaction bank in Indonesia, BCA continues to develop and implement an innovative digital service strategy. In 2015, BCA invested in a number of information technology developments designed to bring the Bank's digital services to the next level by making use of the latest technology in order to provide the best products and services possible.

Information Technology Infrastructure

Solid information technology infrastructure is a major prerequisite for quality banking services in the digital age. In 2015 the Bank implemented a number of initiatives to strengthen infrastructure in support of customer transactions, including the rejuvenation of various information technology systems such as the core network system, the mainframe, database, and server. BCA also optimized and upgraded hardware and network capacity in anticipation of an increase in transaction volume.

To facilitate customer transactions through a multi-channel network, the Bank operates two mirrored data centers of international standards, each of which can be operated independently to ensure business continuity in the event of a system failure at one of the locations.

The two data centers are designed to manage data redundancy, with each having the capacity to handle the entire process of customer transactions. The data center is also equipped with several backup capacities.

Due to increasingly dense data traffic, both the complexity of the system and the information technology infrastructure can present a major constraint in operations and could potentially affect transaction service performance and lead to increased operational costs and risks. BCA routinely addresses these issues through ongoing IT infrastructure development, using new technologies to optimize operational and cost efficiency, while maintaining service quality for the Bank's customers.

Solutions for Customers

In this era of digital services, information technology plays an integral part in effectively facilitating convenience and efficient solutions for transaction banking customers.

To address the needs of corporate and commercial customers, BCA has developed 'KlikBCA Bisnis Integrated Solution', an innovative banking service that prioritizes payment settlement for business customers and the business community. Business banking customers are able to enjoy a faster payment process through 'KlikBCA Bisnis Integrated Solution', which is equipped with cash management features such as Account Services, Payment Management, Collection & Receivable Management and Supply Chain Management. These features will continue to be developed in line with the growing corporate and large commercial customer segments.

E-commerce business in Indonesia has experienced rapid growth in recent years. Customers benefit from e-commerce as it allows them to shop and obtain product and service information 24 hours a day. BCA sees this high and fast adoption rate of e-commerce as an opportunity to strengthen the transaction banking business, building on the Bank's core strength. As such, BCA continues

Business Support

Information Technology

to develop payment system platforms to better serve companies and users of e-commerce. The strategy to support e-commerce payment transactions as adopted by the Bank's information technology team is being realized through several technical initiatives, including the development of e-Commerce Gateway, Application Programming Interface (API) Gateway and Server-Based e-Money. Development of e-Commerce Gateway and API Gateway were designed to provide convenience for e-commerce providers to access BCA's network.

BCA IT also played a role in developing the innovative 'Sakuku' (My Pocket) platform, a server-based electronic money smartphone application targeted at the younger generation. Available for download on all operating systems of the latest smartphones, 'Sakuku' allows customers to make payments for in-store and online purchases, mobile credit top-up, transfer, cash withdrawals and other banking transactions.

In support of the Government's efforts to promote branchless banking, in 2015 BCA introduced the new 'Laku' and 'Duit' mobile phone banking products. 'Duit' is a server-based e-money product that uses customers' cellphone numbers for identification and as the account, while 'Laku' is an account-based product designed for lower-end mass market basic banking.

Strengthening IT Security Systems

Maintaining customer confidence and enabling transaction security are essential in the banking business. To that end, and in line with the rapid development of technology, BCA focuses on ensuring the Bank is properly protected against fraud in the financial industry by implementing world class security systems to prevent and detect suspicious transactions.

With the increasing use of banking transactions via the internet, the banking business is exposed to the threat of cyber-crime, including the theft and abuse of customer account information. The weakest point in online transactions through the internet is the computer/device used by the customer, which can be easily infiltrated by malware. To that end, the Bank has implemented a system to detect malware on customer-owned devices as a precaution against the threat to internet banking transactions. Furthermore, through various media, the Bank proactively educates customers on the importance of security while increasing awareness of the potential threat posed by cyber-crime. BCA continuously works to improve the security of its internet banking system, including the use of SMS notifications for transactions above a certain amount as well as the need to register new payment recipients.

In 2015, the Bank took several steps to strengthen BCA IT's security systems including the implementation of systems to detect transactions considered fraudulent (Transaction Fraud Control System), increased network security through Smart Firewall/Application-Based Security, and the use of an ID management system for managing all user IDs and access authorizations. In addition, the Bank upgraded several systems and security applications such as the antivirus and Intrusion Preventing System (IPS). IPS is a device used to monitor the network to detect suspicious activity and provides an early prevention measure against security threats.

Business Continuity

BCA has established a comprehensive business continuity plan to ensure that the main Bank operations remain functional even in the event of a force majeure. Under the coordination of the Enterprise Security Work Unit, BCA periodically reviews, evaluates and tests its business continuity systems, policies and procedures. BCA also regularly runs Business Impact Analyses by examining the transactions that are critical to the Bank and assuring that the Bank has multiple backup systems to support these transactions. From this analysis, the Bank can minimize possible down time for those operations in the event of a disaster and mitigate potential losses.

BCA has completed construction of the Secondary Work Place as an alternative work space for each regional office as well as the Secondary Operations Center as an alternative workplace for headquarters working units. These secondary centers are designed to maintain operations in the event of a disturbance at main sites. In 2015, the Bank continued to enhance the capabilities of the Command and Crisis Center in Surabaya as an alternative base of operations for top management and crisis teams in the event of a disruption in Jakarta. The Surabaya disaster recovery center is key to the smooth

operation of the Bank in the event of a catastrophic disruption of the two mirroring data centers in Jakarta.

Looking Forward

The Bank continues to develop the capabilities and capacity of IT systems in line with the business strategy and business developments of the Bank. BCA will continue to make measured investment in the field of information technology and digital banking to enhance the Bank's competitiveness and operational efficiency in an increasingly dynamic digital age. As such, BCA continues to improve IT infrastructure and will work to develop new competencies in cloud computing and big data, as well as data center reliability.

As one of the main factors supporting the Bank's business, information technology will continue to be integral to the development of the Bank's products and services in the coming years. BCA strives to be the leader in bringing the latest technology to Indonesia in order to exceed customer expectations and open new lines of business in this increasingly dynamic era of digital banking.

Financial Review

OVERVIEW OF INDONESIA'S MACRO ECONOMY IN 2015

The global economy experienced lower overall growth than expected in 2015 with most major economies suffering from a sluggish economic recovery. Despite the implementation of various economic stimuli, the economic recovery of the US remains relatively slow while the Euro region continues to exhibit signs of instability.

The global economy was further negatively impacted by a slowdown in the Chinese economy, the world's second largest economy, which saw slowing export activity and weakening investment flows following years of persistently high growth. Chinese economic growth in 2015 was at a level below 7%, significantly lower than the average growth rate of over 10% during the period 2006-2010.

Overall, an unstable and generally unfavorable global economy continues to place pressure on commodity prices, thus negatively impacting Indonesian export performance. The price of Indonesia's main export commodities, notably, natural gas, coal, palm oil, nickel, and copper dropped dramatically in the last few years. These commodity prices are still depressed and expected to remain in a downward cycle over the near to intermediate term.

In the global financial market, the quantitative easing in the United States and the Fed Funds Rate policy from the U.S. Federal Reserve, have triggered significant fluctuations in global capital flows to emerging markets, including Indonesia, in recent years. The rapid capital inflows to emerging markets from 2009-2013 helped support Indonesia's macroeconomics condition which saw growth of over 6% in the period of 2010-2012. With the conclusion of quantitative easing in 2014 and with the end of the Fed's record-low rates period in 2015, emerging markets, including Indonesia, faced the challenge of highly volatile and unstable global capital flows.

The end of the commodity cycle boom and volatile foreign capital flows were exacerbated by relative weakness in the realization of Government spending in 2015. These factors, in turn, negatively impacted domestic consumption, one of the main drivers of Indonesian economic growth. As a result, Indonesia's GDP growth in 2015 was recorded at 4.8%, the lowest in the last six years, although remaining amongst one of the highest growth rates in G-20 countries.

Growth in Indonesia Gross Domestic Product (GDP) (%)

Source: Central Bureau of Statistics

One factor affecting the Indonesian macro economy has been the current account position which shifted from surplus to deficit since the fourth quarter of 2011 due to an overall decline in exports. Pressure on the current account deficit eased somewhat in 2015 with a decline in imports and a much reduced fuel subsidy. During the year, the trade balance saw a surplus of USD 7.5 billion with imports declining 19.9% and exports declining by 14.6% and leading to an improving current account deficit of 2.1% of GDP in 2015 as compared with 3.1% of GDP in 2014. However, the risk of an increasing current account deficit must be monitored should domestic economic growth accelerate, given the large dependence on imports for domestic consumption and for various domestic manufacturing activities which require imported capital goods and raw materials. Stability in investment flows will play an important role in the national economy in helping to balance the current account deficit.

The current account deficit and the high foreign currency demand for the payment of foreign debt has put pressure on the Rupiah exchange rate. In addition, the uncertainty of the direction of the Fed Funds Rate in 2015 significantly added to the volatility of the domestic currency. The weakening of the Rupiah against the US Dollar was concurrent with the weakening of the majority of currencies around the world as a result of the Fed policy. Uncertainty in the market was reduced once the Fed decided to increase the Fed Funds Rate by 25 bps in December 2015. The Rupiah exchange rate reached its lowest point at Rp 14,693 / USD in September 2015, a depreciation of 15.7% from the end of 2014. However, owing to the proactive efforts of the regulators to maintain the Rupiah at a rate consistent with economic fundamentals, the Rupiah exchange rate strengthened and closed the year at Rp 13,788 / USD as of December 31, 2015, 10.2% lower than the Rp 12,388 / USD recorded at the end of 2014.

Rupiah Exchange Rate against USD (in Rupiah)

In order to maintain the stability of the Rupiah while simultaneously directing the current account deficit to a more healthy level, Bank Indonesia held the benchmark BI rate at 7.5% from February 2015. At the end of 2015, Bank Indonesia lowered the Primary Reserves Requirement by 50 bps to 7.5% of total third party funds in order to loosen liquidity as a stimulus for the economy.

Inflationary pressure in Indonesia has diminished significantly in line with weaker domestic consumption, slower business growth and the fall in global commodity prices. The inflation rate in Indonesia closed the year at a level consistent with the inflation rate target set for 2015. The coordination between Bank Indonesia's monetary policy and government adjustments to the import policy of several main commodities aided considerably in controlling the level of inflation. The inflation rate for 2015 stood at 3.4%, compared with 8.4% in the previous year.

The downward movement of inflation and steady interest rates helped macro stability throughout 2015. As a result, the Indonesian public and businesses remain optimistic on the long-term prospects of the national economy.

Inflation and BI Rate (%)

The Government has also launched work programs and fiscal policy packages to encourage near and intermediate term economic growth. The Government implemented energy subsidy reform, formulated programs to expedite infrastructure projects and improved the investment climate by accelerating the processes for obtaining tax allowances, tax holidays, investment permits, and by setting up a one-stop investment service desk.

BCA believes that the realization of Government spending and efforts to attract investment will continue to have positive effects in the near and intermediate term and will generate higher future economic growth. In the short term, the Indonesian economy will face further challenges in an environment of global economic instability, with Indonesian GDP predicted to grow moderately in 2016. In the long term, however, Indonesia possesses promising prospects. A large working-age population, a growing middle class, abundant natural resources and increasing investment in national infrastructure are considered key factors in supporting the Indonesian economy to maintain sustainable growth in the face of a challenging global economy.

OVERVIEW OF INDONESIAN BANKING SECTOR PERFORMANCE IN 2015

The Indonesian banking industry faced a slowdown in loan and third party funds growth during 2015. The industry also experienced pressure on profitability, mainly stemming from the rising costs of provisioning for non-performing and restructured loans, in line with declining nationwide business activity. Overall, banking industry remained in a good condition supported by a strong capital and healthy liquidity position with non-performing loans maintained at a tolerable level throughout 2015.

The Indonesia Financial Services Authority was proactive in directing the growth of the banking industry at a healthy and sustainable level through the implementation of balanced policies in response to the economic challenges faced in 2015. With consideration to both external and internal factors, Bank Indonesia carefully managed monetary policies, maintained conservative interest rates, and monitored liquidity by overseeing market conditions and an end-of-year easing of the Minimum Reserve Requirement.

In 2015 total assets of the Indonesian banking industry were recorded at Rp 6,133 trillion, up 9.2% with Return on Assets (ROA) of 2.3%. The sector's loan portfolio grew 10.5% to Rp 4,058 trillion at the end of 2015. Working capital loans stood at Rp 1,916 trillion, registering a 9.0% growth. Investment loans reached Rp 1,036 trillion, an increase of 14.7%. Consumer loans amounted to Rp 1,106 trillion at the end of 2015, up 9.1% from last year. This moderate growth was consistent with an economic growth rate of 4.8%. Overall, the banking sector's asset and loan growth in 2015 was lower than previous years CAGR of 16.5% and 22.0%, respectively, in 2007-2012.

Non-Performing Loans exhibited an increasing trend, reaching 2.5% at the end of 2015, compared with 2.2% at the end of 2014. The increase in the non-performing loan ratio was led by weakness in business related loans due to declining profitability of the business sector.

On the funding side, third party funds registered a 7.3% growth, reaching a total Rp 4,413 trillion in 2015 from Rp 4,114 trillion in 2014. Current accounts grew 11.0% to Rp 988 trillion from the previous year's Rp 890 trillion, while savings accounts grew 8.7% to Rp 1,396 trillion at the end of 2015 from Rp 1,284 trillion in 2014. Time deposits increased by 4.6% to Rp 2,030 trillion. The growth of third party funds was lower than in previous years with an average growth rate of 16.4% (CAGR 2007-2012). Loan to Deposit Ratio (LDR) of the banking sector stood at 92.1% in 2015.

Indonesian Banking Sector Performance Highlights (in trillion Rupiah)

	2015	2014	Increase / (decrease)

Source: Indonesia Financial Services Authority (OJK)

The sector's Net Interest Income increased 12.4% to Rp 308 trillion in 2015 from Rp 274 trillion in 2014. Other Operating Income grew 7.8% to Rp 110 trillion. Operating Income as a total of Net Interest Income and Other Operating Income registered a 11.2% growth to reach Rp 418 trillion. Operating Expenses in the banking sector, which includes provisioning for Non-Performing Loans, saw a significant increase of 22.8% to Rp 285 trillion from Rp 232 trillion in the previous year. As such, Net Income of the sector in 2015 was down 6.3% to Rp 105 trillion. 2015 marks the first in the last 5 years that the national banking sector experienced a decline in Net Income.

The capital position of the Indonesian banking sector in 2015 was maintained at a solid position with a Capital Adequacy Ratio (CAR) of 21.4%, 180 bps higher than

the previous year's 19.6%. Changes in the recognition of current year's net income in the calculation of CAR has promoted growth in the CAR ratio. Since 2015, 100% of current year's Net Income is acknowledged as component of core capital, where previously only accounted for 50%. Furthermore, the asset revaluations conducted in 2015 and 2016 further reinforced the capital position of large-scale banks.

Going forward, BCA remains optimistic that the Government and regulators will continue to implement prudent monetary and fiscal policies. These efforts are expected to contribute to economic stability while supporting growth and stability within the Indonesian banking sector.

OVERVIEW OF BCA FINANCIAL PERFORMANCE IN 2015

In 2015, BCA continued to post a solid financial performance, driven by quality growth in lending and in funding, while maintaining healthy liquidity and capital positions.

As of 31 December 2015, the Bank's loan portfolio stood at Rp 387.6 trillion, an increase of 11.9%, with growth across all segments and in particular the corporate segment. The implementation of prudent lending principles allowed the Bank to maintain a low NPL ratio of 0.7% with a ratio of reserves to non-performing loans of 322.2%. BCA's capital position was maintained at a healthy level with a Capital Adequacy Ratio (CAR) of 18.7% as of 31 December 2015.

Transaction banking remains the Bank's core business, with transaction accounts, Current Accounts and Savings Accounts (CASA), as a main funding source contributing 76.1% of BCA's total third party funds. Despite an unfavorable economic environment and declining domestic business activity, the Bank grew CASA funds by 7.1% to Rp 360.3 trillion at 31 December 2015. The growth in CASA

funds was achieved with a slight reduction in savings interest rates by 20 bps, reflecting BCA's excellence in payment settlement services.

Time deposit funds increased 1.7% to Rp 113.4 trillion as of 31 December 2015 from Rp 111.5 trillion as of 31 December 2014. This increase was lower than in previous years and was in line with the Bank's gradual downward adjustment of time deposit interest rates throughout 2015. These adjustments, to a rate well below the average market time deposit rates, were designed to limit BCA's cost of funds while maintaining a target amount of time deposits. The Bank's total third party funds stood at Rp 473.7 trillion at year end 2015, a 5.8% increase year on year.

The Loan to Funding Ratio (LFR) increased to 81.1% at year end 2015 from 76.8% at year end 2014. Short-term placements of third party funds, excluding primary reserves, amounted to Rp 67.5 trillion or 14.2% of BCA's total third party funds at the end of December 2015. The short-term placements consist of placements with other banks and placements with Bank Indonesia including Bank Indonesia Deposit Facilities, Bank Indonesia Term Deposits and Certificates of Bank Indonesia.

SUMMARY OF INCOME

Growth in profitability was achieved while maintaining a balance between business growth and risk.

Net Interest Income (in billion Rupiah)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Interest Income	47,082	43,771	3,311	7.6%
Loans	36,721	33,431	3,290	9.8%
Placements with Bank Indonesia and Other Banks	958	960	(2)	-0.2%
Securities (including Securities Purchased Under Agreements to Resell)	5,650	5,887	(237)	-4.0%
Consumer Financing and Investment in Finance Leases	2,870	2,821	49	1.7%
Others (Including Sharia revenue sharing)	883	672	211	31.4%
Interest Expense	11,213	11,744	(531)	-4.5%
Current Accounts	1,064	1,058	6	0.6%
Savings Accounts	2,341	2,539	(198)	-7.8%
Time Deposits	6,244	6,697	(453)	-6.8%
Others (Including Sharia expenses)	1,564	1,450	114	7.9%
Net Interest Income	35,869	32,027	3,842	12.0%

Net Interest Income grew 12.0% to Rp 35.9 trillion supported by growth in the loan portfolio and low cost CASA funding. Operating Income other than Interest increased 28.5% to Rp 12.0 trillion in 2015, supported by an increase in Fee and Commission Income and income from treasury swap transactions. In 2015, BCA recorded Net Income of Rp 18.0 trillion, an increase of 9.3% with a Return on Assets (ROA) of 3.8% and Return on Equity (ROE) of 21.9%.

Interest Income

BCA's Interest Income in 2015 saw a 7.6% increase, reaching Rp 47.1 trillion compared with Rp 43.8 trillion the previous year. This growth came mainly from an increase in Interest Income from the loan portfolio which made the largest contribution to the total growth of the Bank's Interest Income.

Interest Income from Loans. In 2015, Interest Income from the loan portfolio was recorded at Rp 36.7 trillion, a 9.8% growth driven by the increase in outstanding loans over the year. The overall loan portfolio yield was recorded at 10.5% in 2015, up slightly from 10.3% in 2014.

Interest Income from Placements with Bank Indonesia and Other Banks. In 2015, Interest Income from Placements with Bank Indonesia and Other Banks was relatively stable at Rp 958 billion. While there was an increase in the average volume of the Placements, the Bank posted declining yield thus limiting the growth of Interest Income from these investments. The yields on Placements with Bank Indonesia and Other Banks stood at 3.1% in 2015, lower than 4.9% recorded in 2014.

Interest Income from Securities. Total Interest Income from Securities (including Securities Purchased Under Agreements to Resell) fell 4.0% to Rp 5.7 trillion in 2015 due to a reduction in the total amount invested in these instruments. Interest Income from Investment Securities grew by 13.3% to Rp 3.9 trillion, supported by an increase in Interest Income from Certificates of Bank Indonesia in line with the higher average holdings of Certificates of Bank Indonesia. Interest Income from Securities Purchased Under Agreements to Resell declined by 27.9% to Rp 1.8 trillion based on reduced total holdings of these securities.

Interest Income from Securities by Instrument Type (in billion Rupiah)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Investment Securities	3,865	3,412	453	13.3%
Certificates of Bank Indonesia	1,296	667	629	94.3%
Government Bonds	1,930	2,136	(206)	-9.6%
Other Securities	639	609	30	4.9%
Securities Purchased Under Agreements to Resell	1,785	2,475	(690)	-27.9%
Total Interest Income from Securities	5,650	5,887	(237)	-4.0%

Interest Income from Consumer Financing and Investment in Finance Leases. Interest income from this account grew 1.7% to Rp 2.9 trillion in 2015. This income is generated by BCA Finance and Central Santosa Finance, BCA subsidiaries engaged in vehicle financing.

Other Interest Income. Other Interest Income rose 31.4% to Rp 883 billion in 2015 from Rp 672 billion in 2014. There was a 65.5% or Rp 146 billion increase to Rp 369 billion in Sharia revenue sharing in 2015.

Composition of Interest Income

Earning Assets Yield

	2015	2014
Loans	10.5%	10.3%
Placement with Bank Indonesia and Other Banks	3.1%	4.9%
Securities (Including Securities Purchased Under Agreements to Resell)	6.1%	6.3%
Earning Assets	8.6%	8.7%

Interest Expense

Although third party funds grew by 5.8%, BCA's Interest Expenses in 2015 fell 4.5% to Rp 11.2 trillion. This was achieved through proactive steps taken by BCA to reduce interest rates in line with the easing liquidity in the Indonesian banking sector. Beginning August 2014 and continuing through 2015, BCA gradually reduced interest

rates on funding products, particularly time deposits. Taking into consideration the Bank's solid liquidity reserves position, BCA chose not to compete on interest rates but instead lowered time deposit rates to well below the rates set by the Indonesia Deposit Insurance Corporation.

Composition of Interest Expense

Interest Expense on Current Accounts was relatively stable at Rp 1.1 trillion in 2015. Interest Expenses on Savings Accounts decreased 7.8% to Rp 2.3 trillion from the previous year's Rp 2.5 trillion. The decrease was in line with the slight reduction on savings accounts interest rates in the first half of 2015.

Time Deposit Interest Expense fell 6.8% to Rp 6.2 trillion in 2015 in line with the 200 bps decline in the Bank's average time deposit interest rate over the course of the year. Other Interest Expenses increased 7.9% to Rp 1.6 trillion in 2015, driven by an increase in Government guarantee premiums and Sharia expenses.

BCA's cost of funds declined by 30 bps to 2.3% in 2015, compared with 2.6% in 2014.

Net Interest Income and Net Interest Margin

The Bank's Net Interest Income increased 12.0% to Rp 35.9 trillion in 2015 from the previous year's Rp 32.0 trillion. Loan portfolio growth and lower cost of funds drove the increase in Net Interest Income. The Net Interest Margin (NIM) in 2015 was recorded at 6.7%, 20 bps higher than the previous year of 6.5%.

Net Interest Income (in billion Rupiah)

Net Interest Margin - NIM (% , non consolidated)

Operating Income other than Interest

Operating Income other than Interest in 2015 grew 28.5% or Rp 2.7 trillion to Rp 12.0 trillion.

Operating Income other than Interest (in billion Rupiah)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Net Fee and Commission Income	8,356	7,285	1,071	14.7%

Credit cards	2,223	1,658	565	34.1%
Remittances, clearings, and collections	386	405	(19)	-4.7%
Others	547	426	121	28.4%
Total	8,360	7,289	1,071	14.7%
Fee and commission expense	(4)	(4)	0	0.0%
Net Fee and Commission Income	8,356	7,285	1,071	14.7%

* Mostly derived from monthly administration income from savings accounts

In 2015, Fee and Commission Income remained the major driver of the Bank's Operating Income other than Interest, contributing 69.6% of the total, while Trading Income and Other Operating Income each contributed 17.5% and 12.9% of the total Operating Income other than Interest.

Fee and Commission Income. In 2015, overall Fee and Commission Income increased 14.7% to Rp 8.4 trillion, mainly due to deposits from customers and administration fees from loans and credit cards.

The deposits from customers accounts, mostly consisting of monthly administration fees from savings accounts, grew 8.9% to Rp 2.6 trillion in 2015 in line with the increase in the number of customer accounts. In early 2016, BCA adjusted the monthly administration fee on savings accounts due to increasing investment and operating costs incurred in providing transaction services. Income from payment settlements increased 4.2% to Rp 1.4 trillion in 2015.

The increase in credit card transactions and network switching fees resulted in credit card administration fees of Rp 2.2 trillion, up 34.1% in 2015. In addition, there was a reclassification of income from international credit card network which drove growth in credit card income. Administration fee from loans stood at Rp 1.2 trillion, an increase of 12.5% from 2014.

Trading Income. Net Trading Income saw a significant increase of 152.0% to Rp 2.1 trillion owing to an increase in foreign currency swap transactions in the second semester of 2015. In 2015, BCA purchased and placed US Dollars with Bank Indonesia while simultaneously hedging the placement through the swap market via a sell forward of USD. Through these transactions, BCA benefited from the swap premium which generated higher returns than from regular short-term placements.

Other Operating Income. In 2015, the Bank's Other Operating Income increased by 26.0% to Rp 1.5 trillion, mainly supported by income from BCA's subsidiaries. BCA Insurance, BCA Finance and BCA Sekuritas respectively contributed 30.4%, 13.7% and 7.3% to the total Other Operating Income in 2015.

Operating Expenses

BCA's Operating Expenses posted a significant increase during the year in line with the network infrastructure expansion and service quality improvements. Operating Expenses grew by 18.1%, or Rp 3.3 trillion, to Rp 21.7 trillion from Rp 18.4 trillion in 2014. The Cost Efficiency Ratio in 2015 was recorded at 46.5% compared with 44.2% in 2014.

General and Administrative Expenses. In 2015, the Bank's General and Administrative Expenses increased 21.8% to Rp 10.9 trillion. The increase was consistent with the branch network and electronic channels expansion along with the development of the capacity and capability of information technology. In addition, the inflation rate and the weakening Rupiah exchange rate also contributed to the increase in BCA's General and Administrative Expenses in 2015.

Daily banking transaction expenses booked under Office Supplies grew 17.1% to Rp 3.4 trillion while Rental Expenses increased 12.9% to Rp 1.4 trillion in 2015. In line with the addition of fixed assets, particularly mainframe, ATMs and computers, Depreciation & Amortization Expenses posted

a growth of 27.8% to reach Rp 1.6 trillion while Repair & Maintenance Expenses rose 21.6% to Rp 1.2 trillion during the year. Communication Expenses reached Rp 754 billion, an increase of 47.3% in 2015, mainly owing to the change in the recording of expenses from overseas credit card transactions through VISA, Mastercard and AMEX networks. These expenses are now recorded on a gross basis in communication expense, whereas previously recorded on a net basis as a reduction to Fees and Commissions income. BCA recorded a moderate increase of Promotion Expenses of 8.7% to Rp 1.1 trillion in 2015, in line with the Bank's cost efficiency efforts. Furthermore, there was a significant rise in Tax Expenses of 522.0% to Rp 255 billion in 2015, mainly resulting from the recording of asset revaluation tax amounted to Rp 187 billion in December 2015.

Personnel Expenses. In 2015, Personnel Expenses came to Rp 9.7 trillion, a 12.2% increase over 2014. This increase is attributable to salary and benefits adjustments including the provision of bonuses, pension funds and other benefits. BCA adjusted salaries of staff in specific levels in the beginning of 2015 following the fuel subsidy cut in November 2014 after previously making salary adjustment in line with the increase in the national minimum wage. Expanding the overall workforce further contributed to the increased personnel expenses with the addition of more than 1,800 employees at the branch and regional offices, as well as the headquarter.

Allowance for Impairment Losses on Financial Assets

In 2015, BCA allocated net Allowance for Impairment Losses on Financial Assets of Rp 3.5 trillion, an increase of 56.5% from the previous year. The higher Allowance for Impairment Losses on Financial Assets was in line with the Bank's prudent risk management and based on management's assessment of the current economic situation and loan conditions. In 2015, BCA anticipated loan deterioration of several of the Bank's corporate and commercial debtors with declining business performance particularly those engaged in the sea and river transportation businesses and other coal mining industry supporting businesses.

In 2015, BCA wrote-off assets in the amount of Rp 1.1 trillion, an increase from Rp 839 billion from the previous year, mainly as a result of declining loan quality in the credit card segment as well as 2-wheeler financing and commercial segments. With the formation of Allowance for Impairment Losses on Financial Assets and Assets Written-off, as of 31 December 2015, the Bank's Allowance for Impairment Losses reached Rp 10.6 trillion, up 31.4% compared to 31 December 2014.

Allowance for Impairment Losses on Financial Assets refers to the application of SFAS 50 and 55 regulations, in effect since January 1, 2010, assessed individually and collectively on the loan portfolio. Individual assessment is conducted on loans that have individually significant value and where there is objective evidence of impairment. The objective evidence covers breach of contract, including delayed payments by debtors, or a strong indication that the debtor will be unable to meet its obligations.

Individual assessment is performed to determine the estimate of the present value of the cash flows expected to be received should the loan depreciate or show signs of impairment. In estimating these cash flows, management makes judgments about the counterparty's financial condition and the net realizable value of any underlying collateral.

Collective assessment is conducted on loans that have no significant value individually, or on loans that have a significant value individually but no objective evidence of impairment. Based on these criteria, the collective assessment is conducted on: (a) loans for Small & Medium Enterprises (SME) and consumer loans including credit cards, and (b) loans to corporate and commercial segments classified as current and special mention loans.

The collective assessment of impairment allowances cover credit losses inherent in portfolios of receivables with similar economic characteristics when there is objective evidence to

suggest that they contain impaired receivables but can not be identified individually.

In determining the need for making collective allowances, management considers factors such as credit quality, size of the portfolio, credit concentrations, and economic factors.

For the calculation of the collective impairment, BCA applies the following formula: Probability of Default x Loss Given Default x Amortized Cost¹.

Movement of Allowance for Impairment Losses on Financial Assets (in billion Rupiah)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Beginning Balance	8,099	6,548	1,551	23.7%

Ending Balance	10,645	8,099	2,546	31.4%

Income Before Tax

In 2015, Income Before Tax was recorded at Rp 22.7 trillion, up 9.2% from Rp 20.7 trillion in 2014. The increase in Income Before Tax, which is consistent with asset growth, led to the Bank recording a relatively stable Return on Assets (ROA) of 3.8%.

Income Before Tax and ROA

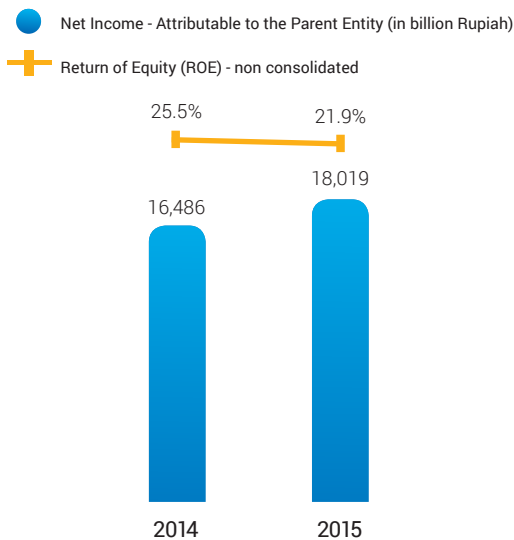

¹ **Probability of Default** is the probability of failure by debtors in meeting their obligations. **Loss Given Default** are levels of losses resulting from failure of debtors to meet their obligations. **Amortized Cost** is the carrying value of financial assets and amortized at cost.

Net Income

BCA Net Income attributable to equity holders of the parent entity in 2015 was Rp 18.0 trillion, an increase of 9.3% from the previous year's Rp 16.5 trillion. Earnings Per Share (EPS) increased to Rp 731 per share in 2015 from Rp 669 per share in 2014. Return on Equity (ROE) stood at 21.9% in 2015, compared with 25.5% in 2014. This decrease was in line with the Bank's strategy to strengthen its capital position in support of ongoing business developments and to maintain the principle of prudence in preparation for the implementation of Basel III in Indonesia. In recent years, BCA has maintained a dividend payout ratio with a balance between capital needs and shareholders interests.

Dividend Payout Ratio

Statements of Comprehensive Income

The Statements of Comprehensive Income is the change in equity during a certain period other than those changes resulting from transactions with owners in their capacity as owners.

At BCA, there are two main accounts that have significant impact on the Statements of Comprehensive Income. The first is the 'Unrealized (Losses) Gains' account as a result of mark-to-market financial assets assessment particularly on Government bonds in the 'Available-for-Sale' account. The second is the 'Remeasurements of Defined Benefit Liability' account as a result of actuarial calculation on obligations to the workforce.

The Total Comprehensive Income Attributable to Equity Holders of the Parent Entity in 2015 grew 8.2% to Rp 17.7 trillion from Rp 16.3 trillion in 2014. In 2015, Other Comprehensive Income saw a decrease and recorded a negative balance of Rp 344 billion, compared to a negative Rp 147 billion in 2014. The decrease was primarily caused by a Unrealized Losses for Available-for-Sale Financial Assets. This account declined by Rp 578 billion from a positive balance of Rp 539 billion in 2014, resulting in a loss of Rp 39 billion, in line with the decline in available-for-sale financial assets outstanding. As of 31 December 2015, the outstanding balance of available-for-sale financial assets was recorded at Rp 39.5 trillion, down 34.8% from Rp 60.6 trillion in 2014. Loss on Remeasurement of Defined Benefits Liability loss improved to Rp 490 billion in 2015 compared to Rp 747 billion in 2014 due to assumption adjustment used in the actuarial calculations.

BALANCE SHEET

In 2015, BCA recorded solid financial performance while maintaining loan quality and healthy liquidity and capital positions.

ASSETS

At the end of 2015, BCA recorded total assets of Rp 594.4 trillion, a 7.5% or Rp 41.2 trillion increase, from Rp 553.2 trillion in 2014. Steady asset growth solidified the Bank's position as the third largest bank by assets in Indonesia.

* In audited Consolidated Financial Statements, Investment Securities (gross) was recorded at Rp 52,006 billion in 2015 and Rp 72,300 billion in 2014, including investment in shares amounting to Rp 177 billion in 2015 and Rp 147 billion in 2014

As of December 31 2015, earning assets increased 9.0% or Rp 43.5 trillion to Rp 527.4 trillion from Rp 483.9 trillion in the previous year. Earning assets represented 88.7% of total assets. Yields on earning assets in 2015 were relatively stable at 8.6%.

The loan portfolio is the largest component of earning assets representing 65.2% of total assets. The Bank's loan portfolio at the end of 2015 stood at Rp 387.6 trillion, an 11.9% increase, or Rp 41.0 trillion higher than the Rp 346.6 trillion posted in 2014.

In addition to lending, earning assets also consist of government bonds and funds placed in liquid and low-risk short term instruments in the form of placements with other banks and placements with Bank Indonesia including Bank Indonesia Deposit Facilities, Bank Indonesia Term Deposits, Certificates of Bank Indonesia and Securities Purchased Under Agreements to Resell.

CASH AND CURRENT ACCOUNTS WITH BANK INDONESIA

The largest component of non-earning assets is Cash and Current Accounts with Bank Indonesia, representing 9.4% of total assets. Cash is maintained at a defined level to meet customer transaction needs while Current Accounts with Bank Indonesia are maintained in accordance with reserve requirement regulations.

Cash and Current Accounts with Bank Indonesia in 2015 were recorded at Rp 55.6 trillion, down 4.8% from the previous year of Rp 58.5 trillion. The Cash balance stood at Rp 17.8 trillion and the Current Account with Bank Indonesia balance reached Rp 37.8 trillion. In 2015, BCA's Primary Reserve Requirement was recorded at 7.5% for Rupiah.

PLACEMENTS WITH BANK INDONESIA AND OTHER BANKS

At the end of 2015, Placements with Bank Indonesia and Other Banks amounted to Rp 56.3 trillion, a significant increase of 368.0% or Rp 44.2 trillion from the previous year's Rp 12.0 trillion. This increase was in line with placements of short-term Rupiah funds in Bank Indonesia Deposit Facilities and placements of US Dollar funds in Bank Indonesia Term Deposits. Bank Indonesia Deposit Facilities were registered

at Rp 30.7 trillion, up Rp 24.6 trillion from Rp 6.1 trillion in 2014, while Bank Indonesia Term Deposits in foreign currencies increased to Rp 18.6 trillion at the end of 2015 compared with Rp 2.2 trillion at the end of 2014.

Utilizing the Bank's solid liquidity position and the widening of the US Dollar swap market premium in 2015, BCA was active in purchasing and placing USD funds with Bank Indonesia. At the same time, BCA undertaking hedging transactions (sell forward US Dollar) to mitigate foreign exchange risk. Through spread swaps, these transactions offered a higher return than the Bank's short-term placements. The Bank saw these opportunities as consistent with the significant increase in demand for hedging transactions against the US Dollar amid the highly volatile Rupiah exchange rate in the spot market.

SECURITIES PURCHASED UNDER AGREEMENT TO RESELL

At the end of 2015, Securities Purchased under Agreement to Resell saw a significant decrease to Rp 0.5 trillion, dropping by 98.0% from Rp 26.3 trillion in 2014. This decline was the result of funding to meet the short-term liquidity needs of BCA and to support the USD swap program as discussed above.

INVESTMENT SECURITIES

Investment Securities stood at Rp 51.8 trillion at the end of 2015, compared with Rp 72.2 trillion in the previous year. The decrease was due to the Bank moving funds from Investment Securities to Placements with Bank Indonesia and Other Banks. Investment Securities mostly consist of Government Bonds, Rp 30.1 trillion, Certificates of Bank Indonesia, Rp 9.7 trillion, and Other Securities, Rp 12.0 trillion. Other Securities are mostly in the form of Corporate Bonds and Mutual Funds.

Investment Securities* (in billion Rupiah)

	2015	2014	Increase/(decrease)		Composition	
			Nominal	Percentage	2015	2014
Certificates of Bank Indonesia	9,736	31,581	(21,845)	-69.2%	18.8%	43.8%
Government Bonds	30,095	28,945	1,150	4.0%	58.1%	40.1%
Other Securities	11,998	11,627	371	3.2%	23.1%	16.1%
Total	51,829	72,153	(20,324)	-28.2%	100.0%	100.0%

* In audited Consolidated Financial Statements, Investment Securities (gross) was recorded at Rp 52,006 billion in 2015 and Rp 72,300 billion in 2014, including investment in shares amounting to Rp 177 billion in 2015 and Rp 147 billion in 2014

Total investments in Certificates of Bank Indonesia decreased 69.2% to Rp 9.7 trillion leading the overall decline in total placements in Investment Securities.

As of 31 December 2015, Government Bonds in Investment Securities amounted to Rp 30.1 trillion, up 4.0% from the previous year's Rp 28.9 trillion. This increase was attributed to the purchase of Government Bonds in 2015 to replace and anticipate the number of Government Bonds due to mature during the year.

The majority of Government Bonds, totaling Rp 20.4 trillion, are held in the Available-for-Sale account and represent 67.5% of the total portfolio. Government Bonds in the Held to Maturity account amounted to Rp 9.7 trillion, 32.3% of

the total, while Government Bonds for Trading stood at Rp 48 billion or 0.2% of the total at the end of 2015. There are Rp 24.7 trillion, or over 80%, of the total Government Bonds maturing within the next three years.

Of the total Government Bonds, Rp 29.0 trillion, or 96.1% of the total portfolio were fixed rate bonds while variable rate Government Bonds were recorded at Rp 1.1 trillion or 3.9% of the total.

Government Bonds are predominantly denominated in Rupiah, amounting to Rp 22.9 trillion or 76.0% of the total portfolio, with the remaining Rp 7.2 trillion, or 24.0% of the Government Bonds denominated in US Dollars.

LOANS

As of 31 December 2015, BCA's loan portfolio reached Rp 387.6 trillion, an 11.9% increase, led by corporate lending but with balanced growth across all other loan segments. At the end of 2015, corporate loans increased 17.2% to Rp 141.3 trillion. Commercial loans increased 10.0% to Rp 91.2 trillion while Small and Medium Enterprises (SME) lending rose 6.8% to Rp 52.8 trillion. The growth of the business loans was driven by improving economic conditions in the second half of 2015. The consumer loans increase of 8.9% to Rp 100.5 trillion in 2015 was driven by the Bank's competitive consumer loan products, primarily mortgage and 4-wheeler loans. Throughout 2015, BCA continued to focus lending on loan quality by prioritizing existing BCA customers with proven track records.

Growth of BCA's Loan Portfolio (in billion Rupiah)

Loan Portfolio Denominated in Rupiah and Foreign Currencies

In line with the largest composition of the Bank's strong Rupiah funding base and to minimize exchange rate risk, the majority of loans, 94.3%, disbursed by BCA are made in Rupiah with the remaining 5.7% denominated in foreign currencies. In 2015, Rupiah-denominated loans increased by 13.1% to Rp 365.6 trillion, while foreign currency loans dropped by 5.9% to Rp 22.0 trillion. On a US Dollar basis, lending in foreign currency fell 15.5% to USD 1.6 billion in 2015 from USD 1.9 billion in 2014.

Loan Composition based on Currency Denomination

Loan Portfolio based on Industrial Sector

BCA's loan portfolio was relatively well-spread across all industrial sectors thereby minimizing concentration risk. The Building Material and Other Construction Related industry represented 7.1% of business lending; with Plantation and

Agriculture at 6.7%; Automotive and Transportation at 6.1%; Distributor, Wholesaler, and Retailer at 6.1%; and Chemicals and Plastics at 6.1% of the total business lending portfolio.

Top 10 Industry Sectors in Corporate, Commercial and SME Segment (based on the Bank's internal classification)*

	2015	2014
Building Material and Other Construction Related	7.1%	6.5%

Loan Receivables Collectability

Loan growth in 2015 was achieved with maintaining healthy loan quality. Amid the weakening Indonesian economy and increasing NPLs in the banking sector, BCA strengthened the Bank's prudent approach to lending by consistently monitoring business conditions and various other factors that can affect loan quality and the debtors' ability to repay

loans. Lending in 2015 was prioritized for customers who have developed good relationships with the Bank and have solid track records and business prospects. For consumer loans, BCA implemented strict Loan to Value and repayment capacity criteria for lending.

BCA's prudent lending guidelines have supported quality loan growth with the Bank's NPL ratio maintained at 0.7% in 2015, relatively lower than the banking sector's 2.5%. The provision for NPLs was recorded at 322.2% in 2015.

As expected, the slowing economy resulted in overall loan deterioration. In line with the condition of the Indonesian banking sector, in 2015 BCA saw signs of stress in the loan portfolio although still within set risk appetite limits.

Special Mention Loans. At the end of 2015, loans in the special mention category (collectability 2) came to Rp 6.3 trillion, growing 35.5% or Rp 1.6 trillion in 2015, mostly due to stress in the sea and river transportation industry which negatively impacted loan quality in the corporate and commercial loan portfolios. BCA continues to monitor the potential for further loan deterioration in this segment due to continued weakness in commodity prices and in particular in the coal mining. The Bank's exposure to this sector is relatively small at Rp 4.7 trillion or 1.2% of the total loan portfolio. In addition, there was a corporate customer engaged in the telecommunication industry that was classified as special mention in the fourth quarter of 2015.

Special mention consumer loans represent the largest portion at 49.1% of the Bank's total special mention loans, with 62.1% of the total being loans that are less than 30 days overdue for payment, and are recurring in nature every month. This, however, did not lead to loan deterioration or the downgrade to the non-performing loans category. Special Mention SME loans were relatively stable at Rp 0.8 trillion.

Total Non-Performing Loans stood at Rp 2.8 trillion, up Rp 734 billion or 35.5%. The increase was mostly due to stress in the sea and river transportation service industry as discussed above.

* Although allowance for impairment losses is not calculated based on collectability, the calculation remains necessary to determine the Capital Adequacy Ratio (CAR) according to Bank Indonesia Regulation

BCA proactively manages the loan portfolio through strict monitoring and regular stress testing of the portfolio. Proactive monitoring allows the Bank to anticipate and reduce the direct and indirect impact of the macro and micro economic condition on the quality of the loan portfolio.

In general, BCA's loan quality was maintained at a healthy level. The Bank will continue to carefully monitor the overall economy and individual debtors and sectors for possible increased delinquency in the future.

Non-Performing Loans (NPL) (non consolidated)

Restructured Loans

In accordance with Bank Indonesia Regulation No. 14/15/PBI/2012 concerning the assessment of asset quality of commercial banks, banks in Indonesia are permitted to restructure loans as a remedial action for debtors having difficulty in fulfilling their responsibility to repay a loan. This policy was revised in 2015 by the Indonesia Financial Services Authority easing guidelines on loan restructuring from requiring three pillars of analysis for restructuring, the industry sector, the company's condition and ability to repay, to just one criterion, ability to repay. The policy also allows banks to maintain restructured loans at a higher rating level than in the past.

In order to reduce the customers' financial pressure and with support from the regulators, BCA proactively restructured various loans that exhibited weakness with focus for restructuring on companies who show promising prospects but are currently experiencing difficulties in the midst of weakening economic growth.

In 2015, loans restructured by BCA amounted to Rp 3.1 trillion, 0.8% of the total loan portfolio. The majority of loan restructuring in 2015 was for loans in the current and special mention categories and was intended to assist debtors with signs of declining ability to repay and weakening business performance. Loans restructured in the corporate and commercial segments were primarily in the sea and river transportation services industry.

Allowance for Impairment Losses on Loans

In 2015, BCA determined allowance for impairment losses of Rp 3.1 trillion, an increase of 85.2% compared with Rp 1.7 trillion in 2014. As such, the total impairment allowance reached Rp 9.0 trillion as of December 31, 2015, up 34.7% from Rp 6.7 trillion in 2014. The impairment allowance provision to the NPL ratio in 2015 stood at a relatively stable level of 322.2%.

Loans Written Off

In 2015, the Bank wrote-off Rp 899 billion worth of loans compared with Rp 656 billion in 2014. The increase was primarily from loans written-off in the 2-wheeler financing of Rp 299 billion, credit card of Rp 295 billion and commercial

segment amounting to Rp 110 billion. The biggest portion of total loans written-off in 2015 was still for motorcycle financing and credit card lending consistent with the general practice in those industries.

Credit Card	295	237	58	24.5%
Total	899	656	243	37.0%

The ratio of loans written off against to outstanding loan portfolio stood at 0.23% at the end of 2015, compared with 0.20% the previous year.

Loan to Funding Ratio (LFR)

In 2015, the regulators applied a revised LFR ratio as a refinement of the LDR ratio used previously. The method for calculating LFR is similar to that for LDR but with the addition of certain Bank issued securities as a source of funding.

In 2015, in line with the higher loan growth compared to third party funds, BCA recorded an LFR of 81.1%, an increase of 430 bps from 76.8% in 2014. The Bank's LFR is in a healthy position and still affords BCA room to generate loan growth in the future.

LFR (non consolidated)

LIABILITIES

The Bank's liabilities grew 5.7% or Rp 27.3 trillion to Rp 504.7 trillion in 2015, compared with Rp 477.4 trillion in 2014, driven mainly by third party funds growth which represents 93.8% of the total liabilities.

Third Party Funds

BCA maintained a solid funding position, with third party funds standing at Rp 473.7 trillion in 2015, an increase of 5.8% or Rp 25.8 trillion from the previous year. This growth was mainly derived from transactional accounts or Current Accounts and Savings Accounts (CASA) accounts, which makes up the largest portion of the Bank's total third party funds at 76.1%. Time deposits funds contributed the remaining 23.9% of the total in 2015.

Third Party Funds

Current Accounts and Savings Accounts (CASA)

BCA continues to strengthen its core business as one of the leading transaction service providers in Indonesia. BCA has developed various programs to improve ease of access for customers through the development of the branch network and the capacity and accessibility of an increasing variety of electronic delivery channels. These multi channel transaction banking services allow BCA to benefit from stable liquidity from low-cost CASA.

Backed by convenient, secure and reliable services, CASA funds saw a considerable growth of 7.1% to Rp 360.3 trillion at the end of 2015. This increase was achieved in the midst of an economic slowdown affecting CASA growth in the overall Indonesian banking sector.

Current accounts increased 7.7% or Rp 8.2 trillion to Rp 115.7 trillion compared with Rp 107.4 trillion in 2014. 83.8% of the total current accounts were denominated in Rupiah with the remaining 16.2% in foreign currencies.

Savings accounts saw a 6.8% or Rp 15.6 trillion growth to Rp 244.6 trillion in 2015 from Rp 229.0 trillion in 2014. 94.1% of the total savings accounts were in Rupiah, while foreign currency savings contributed the remaining 5.9%.

The increase in the volume of current accounts and savings accounts is a reflection of the Bank's proven excellence in transaction banking services. BCA will continue innovating to improve and enhance the quality of its services for customer convenience.

Time Deposits

In 2015, time deposit funds were recorded at Rp 113.4 trillion, an increase of 1.7% from 2014. During the year, the Bank did not compete aggressively to raise time deposit funds as BCA's overall liquidity condition was sufficiently healthy. Over the course of the year BCA gradually reduced time deposit interest rates which led to an overall reduction in the Bank's cost of funds.

Time deposits are divided into 'buckets' based on currency, maturity periods and amounts. In 2015, time deposits denominated in Rupiah contributed 91.1% of total time deposits with the remaining 8.9% denominated in foreign currencies.

Maturity periods for time deposits are 1 month, 3 months, 6 months or 12 months. At the end of 2015, the majority of time deposits had a 1-month maturity with a total outstanding of Rp 96.8 trillion or 85.3% of total time deposits. 3-month time deposits were recorded at Rp 9.8 trillion or 8.6%, while time deposits of 6 months represented Rp 3.1 trillion or 2.7%, and 12-month time deposits were recorded at Rp 3.8 trillion or 3.4% of the overall outstanding at the end of 2015.

Based on the amounts of Rupiah time deposits, the majority at 66.1% were below Rp 2 billion, while the remaining 33.9% were Rupiah time deposits above Rp 2 billion. The maximum amount of time deposits insured by the Indonesia Deposit Insurance Corporation is Rp 2 billion. BCA has a well-diversified funding structure with a minimum level of funding concentration risk.

Composition of Third Party Funds

Debt Service Ability

Supported by a healthy financial position, BCA and its subsidiaries were able to fulfill their financial obligations throughout 2015. BCA as a parent company issued no bonds or other securities. The majority of payments on financial obligations took the form of interest payments on third party funds.

The Bank's total liabilities as of December 31, 2015 stood at Rp 504.8 trillion, an increase of 5.7% or Rp 27.4 trillion from Rp 477.4 trillion at end of 2014. Third party funds contributed 93.8% of BCA's total liabilities. Deposits from Other Banks, Acceptance Payables, Debt Securities Issued and Borrowings were recorded at Rp 13.1 trillion in 2015, dropping 6.7% from the previous year.

Summary of Liabilities (in billion Rupiah)

	2015	2014
Total Assets	594,373	553,156
Liabilities		
Third Party Funds	473,666	447,906
Current Accounts	115,653	107,419
Savings Accounts	244,608	228,993
Time Deposits	113,405	111,494
Deposits from Other Banks	4,156	3,754
Acceptance Payables	4,375	4,698
Debt Securities Issued	2,821	2,504
Borrowings	1,743	3,081
Other Liabilities	17,987	15,487
Total Liabilities	504,748	477,430
Total Equity	89,625	75,726
Consolidated		
Liabilities to Equity Ratio	563.2%	630.5%
Liabilities to Assets Ratio	84.9%	86.3%
Non Consolidated		
Liabilities to Equity Ratio	570.4%	635.8%
Liabilities to Assets Ratio	85.1%	86.4%

Debt service ability improved in 2015, reflected in the improvement of the ratio of Liabilities to Assets and to Equity. By the end of 2015, the ratio of Liabilities to Assets was 84.9%, lower than the previous year's 86.3%. The Liabilities to Equity ratio was 563.2% at the end of 2015, improved from 630.5% at the end of 2014. These lower ratios are a result of the Bank's higher growth in assets and equity compared with the growth in liabilities in 2015.

On a consolidated basis, Debt Securities Issued stood at Rp 2.8 trillion in 2015. These Debt Securities Issued were primarily bonds and medium term notes issued by BCA Finance, a subsidiary of the Bank engaged in 4-wheeler financing. At the end of 2015, outstanding bonds and medium term notes issued by BCA Finance amounted to Rp 2.4 trillion and Rp 0.4 trillion respectively. BCA Finance has a solid financial position as reflected in its Liabilities to Assets ratio of 67.9% and Liabilities to Equity ratio of 211.6%. BCA Finance's bonds were rated idAAA by Pefindo and AAA(idn) by Fitch Ratings Indonesia at the end of 2015. BCA Finance in 2015 offered bonds coupon rate in the range of 7.5 - 10.0% for tenure between 1 - 5 years.

● Total Assets

EQUITY

Total equity in 2015 was recorded at Rp 89.6 trillion, an 18.4% increase from the previous year's position. The increase in equity was consistent with the increase in Net Income for the year. Higher accumulation of retained earnings have promoted the high growth in equity, thereby resulting in a lower Return on Equity (ROE).

Equity (in billion Rupiah)

CASH FLOW

Cash flow reports are prepared using the direct method by classifying cash flows into operating, investing and financing activities. A more detailed cash flow can be seen in the Consolidated Cash Flow Report in the Audited Consolidated Financial Statements on pages 407 - 408.

In 2015, the Bank's cash and cash equivalents position stood at Rp 118.7 trillion, an increase of Rp 44.2 trillion from Rp 74.5 trillion in 2014. Major cash flow items entries are further elaborated below.

Cash Flows (in billion Rupiah)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Cash Flows from Operating Activities	29,459	35,137	(5,678)	-16.2%

Cash Flows from Operating Activities

BCA's cash inflows generated from operations in 2015 amounted to Rp 29.5 trillion compared to the previous year's Rp 35.1 trillion. Overall, the differences in cash flows from operating activities in 2015 compared to 2014 were:

- Cash inflows arising from operating activities were primarily derived from interest and sharia income, fees and commissions; sale of securities purchased under agreements to resell; as well as deposits from customers. In 2015, the Bank received cash inflows from interest and Sharia income, fees and commissions amounting to Rp 54.6 trillion compared to Rp 50.3 trillion the previous year.

In 2015 the sale of securities purchased under agreements to resell generated cash inflow of Rp 25.8 trillion, compared to 2014's Rp 14.8 trillion.

Cash inflows generated from deposits from customers in 2015 amounted to Rp 21.5 trillion compared with Rp 39.1 trillion in 2014.

- Cash outflows from operating activities are primarily derived from lending activities, payments of interest and Sharia expenses, fees and commissions, and other operating expenses. In 2015, the Bank recorded cash outflows from lending activities at Rp 39.7 trillion compared to the previous year's Rp 34.3 trillion. The cash outflow from payment of interest and Sharia expenses, fees and commissions totaled Rp 11.3 trillion in 2015, relatively the same compared with the previous year's Rp 11.7 trillion. Cash outflows from other operating expenses amounted to Rp 19.2 trillion in 2015, an increase from Rp 15.8 trillion in 2014.

Cash Flow from Investing Activities

Cash inflows from investing activities during 2015 amounted to Rp 18.9 trillion, in contrast, in 2014 the Bank recorded cash outflows for investing activities of Rp 25.1 trillion. The increase in cash inflows was mainly derived from proceeds from investment securities that had matured during the year, which amounted to Rp 82.6 trillion in 2015, up from Rp 27.1 trillion in 2014.

The Bank recorded cash outflows for the acquisition of investment securities amounting to Rp 60.3 trillion in 2015 compared with Rp 49.1 trillion in 2014.

Cash Flow from Financing Activities

Cash outflows for financing activities in 2015 amounted to Rp 4.8 trillion compared to the previous year's Rp 2.7 trillion.

The cash outflows were mainly for the payment of cash dividends on the Bank's profit in 2015 of Rp 3.8 trillion compared to the previous year's Rp 3.1 trillion. In addition, in 2015 the Bank recorded cash outflows amounting to Rp 1.3 trillion for the repayment of borrowings from other banks, in contrast, in 2014 the Bank recorded cash inflows for the activity of Rp 0.9 trillion.

Solvability and Collectability

• Capital Adequacy Ratio (CAR)

In 2015, the Bank continued to strengthen its capital position as reflected in the CAR, which stood at 18.7%, up 180 bps from 16.9% in 2014. The CAR takes into consideration credit, market and operational risk as well as changes to regulation, such that all of net income for the year is calculated as component of core capital in Tier I Capital. Previously, only 50% of the net income for the year was calculated as core capital.

In line with the change regulation and increased profitability, the Bank's non consolidated core capital grew by 30.0% to Rp 83.7 trillion, accounting for 95.2% of the total capital of the Bank by the end of 2015. Supplementary capital increased by 21.1% to Rp 4.2 trillion, accounting for 4.8% of the total capital. On a consolidated basis, the Bank's core capital in 2015 reached Rp 87.6 trillion and accounted for 95.3% of the Bank's total capital while supplementary capital stood at Rp 4.3 trillion or 4.7% of the Bank's total capital.

• Non-Performing Loans (NPL)

Owing to disciplined risk management and prudent lending, the Bank was able to maintain its gross NPL ratio at a low level of 0.7% at the end of 2015. This is a better NPL ratio than the average of the banking sector which stood at 2.5%. The Bank's net NPL ratio stood at 0.2% at the end of 2015. Although BCA maintained a low NPL ratio, BCA is anticipating the potential increase in NPL in the midst of an unfavorable economic condition. In 2015, BCA formed significant amount of loan provision, bringing the ratio of reserves to non-performing loans to 322.2% at the end of 2015.

Rentability

• Return on Assets (ROA)

The increase in operating income in 2015 supported a positive profit growth in line with asset growth. As such, the Bank was able to maintain an ROA of 3.8% in 2015, relatively similar to that of the previous year. The average ROA of the Indonesian banking sector decreased by 60 bps from 2.9% to 2.3% in 2015.

• Return on Equity (ROE)

In 2015, ROE stood at 21.9%, lower than in 2014 which amounted to 25.5%. The decline in ROE is in line with the Bank's strategic intention to strengthen its capital position in support of business development and in preparation for the implementation of Basel III in Indonesia. In recent years, the Bank has sought to adjust dividend payout ratio for a sound capital base.

• Net Interest Margin (NIM)

In 2015, BCA's NIM ratio increased to 6.7% from 6.5% in 2014. The growing loan portfolio and decreasing cost of funds resulted in a higher NIM ratio in 2015.

• Operating Expenses to Operating Revenues (BOPO)

In 2015, the BOPO ratio stood at 63.2% compared to 62.4% in the previous year, mainly due to an increase in operating expenses and allowance for impairment losses. The cost efficiency ratio stood at 46.5%, compared to the previous year's 44.2%.

Liquidity

• Secondary Reserves

In 2015, BCA maintained its liquidity position at a healthy level. The Bank's funding sources are mostly comprised of CASA funds, representing 76.1% of the total third party funds in 2015. The Bank regularly monitors liquidity and undertakes regular reviews of the secondary reserves as a liquidity buffer. Secondary reserves stood at Rp 67.5 trillion, or 14.2% of total third party funds at the end of 2015.

The secondary reserves were mostly placed in Bank Indonesia instruments. The placement of funds was in the form of low risk short-term placements. BCA's secondary reserves consist of Placements with Bank Indonesia (Deposit Facilities and Term Deposits) and Other Banks; Securities Purchased Under Agreements to Resell with Bank Indonesia; and Certificates of Bank Indonesia. Bank Indonesia Term Deposits and Deposit

Facilities, as well as Certificates of Bank Indonesia are a large part of the Bank's secondary reserves, amounting to 89.6% of the total. Placement allocation of secondary reserves considers issuer, tenure, yield and market availability.

The secondary reserves are deemed to be adequate to support liquidity for BCA's banking activities under various stress test scenarios.

Secondary Reserves^{*}

	2015		2014		Increase / (decrease)	
	billion Rupiah	Composition	billion Rupiah	Composition	billion Rupiah	Percentage
Securities Purchased under Agreements to Resell**	-	-	19,253	29.9%	(19,253)	N.A
Certificates of Bank Indonesia***	11,214	16.6%	33,141	51.4%	(21,927)	-66.2%

Placement with Other Banks	6,986	10.4%	3,781	5.9%	3,205	84.8%
Total Secondary Reserves	67,473	100.0%	64,414	100.0%	3,059	4.7%

* Internally, BCA defines placements in short-term instruments with low-risk characteristic as the Bank's secondary reserves

** Consists of Securities Purchased Under Agreements to Resell from Bank Indonesia and excluding from other banks which amounted to Rp 0.5 trillion in 2015 and Rp 7.0 trillion in 2014

*** For investment purpose stood at Rp 9.7 trillion in 2015 and Rp 31.6 trillion in 2014. As Financial Assets Held for Trading amounted to Rp 1.5 trillion in 2015 and Rp 1.6 trillion in 2014

• Loan to Funding Ratio (LFR)

In 2015, regulator applied a revised LFR ratio calculation as a refinement of the LDR ratio calculation. The LFR includes eligible Bank issued securities in Rupiah or foreign currencies to obtain funding. BCA as a parent company does not issue securities to acquire funding so that the Bank's LFR is equal to its LDR. As at December 31, 2015 BCA recorded an LFR and LDR of 81.1%, lower than the average banking sector LDR which came to 92.1%. In the future, the Bank will continue to manage the balance between its liquidity position and loan growth.

TARGET ACHIEVEMENTS IN 2015

The Indonesian economy and the banking industry faced a number of challenges in 2015. The profitability of the Indonesian banking industry came under pressure as a result of slowing growth in earning assets and third party funds as well as the declining loan quality. Nevertheless, we are pleased to report that the Bank recorded growth in Net Income of 9.3% to Rp 18.0 trillion in 2015 and generated a higher Return on Assets and Return on Equity than expected.

BCA's financial achievements are in line with the Bank's success in maintaining loan quality and its core business performance in 2015. BCA transaction banking provided sustainable funding from transaction accounts and secured a solid liquidity position thereby allowing the Bank to lower the maximum time deposit interest rates gradually throughout 2015 resulting in a decline in cost of funds.

Supported by loan growth and lower cost of funds, BCA's Net Interest Income increased 12.0% to Rp 35.9 trillion in 2015. The Bank also grew Operating Income other than Interest, both from transaction banking fee-based income and treasury activities in second half of 2015. To sustain profitability, further efforts were taken to maximize operational efficiency and reduce the rate of growth in operating costs. However, BCA remain committed to investing in banking networks and information technology which represents a significant part of overall operating expenses. The weakening Rupiah exchange rate also contributed to the increased costs of the procurement of electronic networks and software, which are associated with the movements of US Dollar. Overall, the Bank posted a cost efficiency ratio at 46.5% in 2015, compared with 44.2% in 2014.

Closing the year, the Bank's loan portfolio was recorded at Rp 387.6 trillion, an increase of 11.9% for the year and within the growth target range of 10%-12%. Third party funds grew to Rp 473.7 trillion, an increase of 5.8% in 2015, below the growth target range of 8%-11%. In line with easing liquidity in the Indonesian banking sector and BCA's efforts to balance profitability, the Bank did not compete aggressively in time deposits taking, resulting in a lower level of total third party funds compared to the initial budget. Overall, the financial position of the Bank was well preserved. BCA recorded a low level of NPLs at 0.7%. The Loan to Funding Ratio (LFR) was maintained at a healthy 81.1%, slightly above the lower range recommended by the regulator. The Capital Adequacy Ratio (CAR) reached 18.7%, above the minimum regulation set by Bank Indonesia, and in position to comply with the potential revision of the regulatory benchmark based on the development of BASEL calculation methods.

CAPITAL STRUCTURE AND MANAGEMENT POLICY ON CAPITAL STRUCTURE

Capital Policy

Capital management policy aims to ensure that the Bank has strong capital to support the Bank's current business development strategy and ensure sustainable growth in the future. This policy is also established with consideration to the capital requirements set by regulators.

BCA has a capital plan drawn up by the Board of Directors as part of the Bank Business Plan and approved by the Board of Commissioners. This plan is expected to ensure adequate capital and a healthy capital structure. The Bank's capital management plan also carefully considers the business development of the subsidiaries and their current and expected capital needs.

BCA continues to strengthen Tier I capital in preparation for the implementation of Basel III. In 2015, BCA capital requirements were met entirely from organic capital growth supported by the Bank's healthy profitability.

Adequacy Of Capital And Dividend Policy

BCA has a sufficient level of capital with consolidated capital of 19.0%, comfortably above the minimum requirement according to the risk profile set by Bank Indonesia. This solid capital base will support the Bank's planned business expansion while providing the ability to anticipate risks that may be encountered.

In accordance with Bank Indonesia guidelines, BCA has conducted stress tests on a consolidated basis for credit risk, market risk and liquidity risk. The results show that the Bank's capital position is sufficient to cover potential losses arising from potential risks faced by the Bank and subsidiaries.

In managing capital, the Bank observes an impartial dividend policy where the determination of the dividend payout ratio is based on the Bank's profitability and the Bank's capital while also considering the interests of shareholders.

In recent years, BCA has gradually adjusted the dividend payout ratio to strengthen capital, particularly in support of lending activities and new business lines, as well as to establish capital in preparation for the implementation of Basel III.

For the latest dividend payment, based on the results of the General Meeting of Shareholders on April 9, 2015, the shareholders approved a cash dividend of Rp 3.6 trillion or Rp 148 per share (paid through an interim dividend of Rp 50 per share on December 23, 2014 and a final dividend of Rp 98 per share paid on May 13, 2015). The dividend distribution is equivalent to a dividend payout ratio of 22.1% and was paid out of net income from 2014. The Bank distributed a portion of the 2015 net income in the form of an interim dividend of Rp 55 per share paid on December 9, 2015.

Dividend Payout Ratio

Capital Requirement of Subsidiaries

The capital requirements of the Bank's subsidiaries are relatively insignificant compared to the Bank's capital position. The subsidiaries are projected to grow gradually, allowing the Bank to monitor risk on a periodic basis and to meet any capital requirements the subsidiaries may have.

In 2015, BCA with the other shareholders provided subordinated loans to BCA Sekuritas amounting to Rp 150 billion, with BCA's portion amounting to Rp 112.5 billion. These funds were used by BCA Sekuritas to make a capital injection with PT Asuransi Jiwa BCA ("BCA Life"). These measures were taken to support business development as well as strengthen the solvency level, Risk Based Capital - RBC requirements of BCA Life in accordance with relevant government regulations. These subordinated loans were approved by the Financial Services Authority ("OJK") on March 20, 2015.

BCA together with BCA Finance also made a capital injection to PT Asuransi Umum BCA ("BCA Insurance") in the amount of Rp 150 billion, with BCA contributing Rp 112.5 billion and BCA Finance contributing the remaining Rp 37.5 billion. The additional capital was used for business development, to strengthen capital and to maintain a healthy solvency level. This capital injection received approval from the OJK on June 26, 2015.

In addition, the Bank also made a capital injection of Rp 400 billion into BCA Syariah to strengthen the subsidiary's capital necessary to qualify for the Group of Business Activities, BUKU II classification for banks with capital above Rp 1 trillion, providing a stronger basis for developing products available only to Sharia banks falling under BUKU II category.

The capital injections and subordinated lending made by the Bank during 2015 are expected to support the business development of the subsidiaries, allowing BCA and its subsidiaries to offer comprehensive financial products and services that cater to the needs of customers while contributing to the profitability of the Bank.

BCA Capital Position

In 2015, the Bank only Capital Adequacy Ratio (CAR) came to 18.7%, an increase of 180 bps compared to the previous year's 16.9%, while the consolidated CAR amounted to 19.0%.

The Bank only core capital at the end of 2015 reached Rp 83.7 trillion, 95.2% of the Bank's total capital, while the supplementary capital amounted to Rp 4.2 trillion, or 4.8%, of the total.

In 2015, BCA made capital injection to three of its subsidiaries:

- In 2015, BCA with the other shareholders provided subordinated loans to BCA Sekuritas amounting to Rp 150 billion, with BCA's portion amounting to Rp 112.5 billion. These funds were used by BCA Sekuritas to make a capital injection with BCA Life. These measures were taken to support business development as well as strengthen the solvency level, Risk Based Capital - RBC requirements of BCA Life in accordance with relevant government regulations. These subordinated loans were approved by the Financial Services Authority ("OJK") on March 20, 2015.
- BCA together with BCA Finance also made a capital injection to BCA Insurance in the amount of Rp 150 billion, with BCA contributing Rp 112.5 billion and BCA Finance contributing the remaining Rp 37.5 billion. The additional capital was used for business development, to strengthen capital and to maintain a healthy solvency level. This capital injection received approval from the OJK on June 26, 2015.

- In addition, the Bank also made a capital injection of Rp 400 billion into BCA Syariah to strengthen the subsidiary's capital necessary to qualify for the Group of Business Activities, BUKU II classification for banks with capital above Rp 1 trillion, providing a stronger basis for developing products available only to Sharia banks falling under BUKU II category.

GROUP-WIDE FUNDING, COMMITMENTS AND OTHER FACILITIES TO SINGULAR OUTSIDE DEBTOR

Combined facilities provided by the Bank and its subsidiaries to a single debtor or debtor group amounted to Rp 139.2 trillion, or 35.9% of the Bank's total outstanding loans as of 31 December 2015. The NPL of this loan portfolio was 1.0% as at year end December 2015. The majority of combined lending facilities were loans from the Bank and its 4-wheeler financing subsidiary, BCA Finance, to the same borrowing party.

IMPACT OF CHANGES IN LAWS AND REGULATIONS

Until the end of 2015, there was a number of new regulations in place that may affect the business activities of the Bank and the subsidiaries. In accordance with Bank Indonesia Regulation No. 15/12/PBI/2013 as of December 12,

2013, banks were obligated to meet the minimum capital requirement in stages from 2014 until the year 2019. In 2015, banks were required to achieve:

- A minimum common equity ratio of 4.5% from Risk Weighted Assets (RWA) both on an individual and consolidated basis;
- A minimum core capital ratio of 6.0% from RWA both on an individual and consolidated basis.

BCA has met all the above requirements, with the Bank recording a core capital ratio of 17.8% (parent company) and 18.1% (consolidated) from risk weighted assets as of December 31, 2015. The Bank's entire core capital is common equity as BCA does not have additional core capital.

With regards to integrated monitoring, in 2014 the Indonesia Financial Services Authority (OJK) issued regulations to strengthen supervision of an integrated business group as stipulated in the OJK Regulation No. 17/POJK.03/2014 and OJK Regulation No. 18/POJK.03/2014 as of November 18, 2014. The regulation concerns Integrated Risk Management and Integrated Governance for Financial Conglomerates, applied in stages from 2014 to 2018.

In 2015, the Bank established the Integrated Governance Committee, which assists the Board of Commissioners in evaluating the implementation of Corporate Governance, among others through the assessment of the adequacy of internal controls and the implementation of the compliance function at the Bank and its subsidiaries with an integrated approach. In addition, BCA established the Integrated Risk Management Committee, which helps the Board of Directors in ensuring that the risk management framework provides adequate protection against risks faced by the Bank and its subsidiaries on an integrated basis.

In response to OJK's efforts to promote branchless banking, in accordance with OJK Regulation No. 19/POJK.03/2014 concerning Branchless Financial Services for Financial Inclusion (Laku Pandai), in 2014 the Bank launched 'Laku', a savings product with no administration costs, and 'Duit', an electronic money service that uses customer's mobile phone number as proof ownership and can be accessed through an independent agent or via Short-Message-Service (SMS).

Bank Indonesia in 2012 issued regulations on banks' participation in the provision of loan or financing for the development of Micro, Small and Medium Enterprises. According to the regulation, Micro, Small and Medium Enterprises Lines of Credit must account for at least 20% of the Bank's total loan or financing by 2018. This minimum limit is to be achieved gradually, with a minimum of 5% in 2015, 10% in 2016, 15% in 2017 and finally 20% in 2018 and beyond. In accordance with the provisions of Bank Indonesia, on December 31, 2015, BCA's Micro, Small and Medium

Enterprises loan portfolio (as defined by Bank Indonesia) amounted to Rp 46.6 trillion, or 12.0% of total Bank's total lending.

More detailed information on these new regulations can be found in the financial report notes No. 45 on pages 533 - 537.

CHANGES IN ACCOUNTING POLICIES

Standards, amendments and accounting interpretations effective on 1 January 2015

The following standards, amendments and accounting interpretations became effective on 1 January 2015 and are relevant to the Bank and Subsidiaries' consolidated financial statements:

- a. Statement on Financial Accounting Standards ("PSAK") No. 1 (2013 Revision), "Presentation of Financial Statements"
- b. PSAK No. 4 (2013 Revision), "Separate Financial Statements"
- c. PSAK No. 15 (2013 Revision), "Investment in Associates and Joint Ventures"
- d. PSAK No. 24 (2013 Revision), "Employee Benefits"
- e. PSAK No. 46 (2014 Revision), "Income Taxes"
- f. PSAK No. 48 (2014 Revision), "Impairment of Assets"
- g. PSAK No. 50 (2014 Revision), "Financial Instruments: Presentation"
- h. PSAK No. 55 (2014 Revision), "Financial Instruments: Recognition and Measurement"
- i. PSAK No. 60 (2014 Revision), "Financial Instruments: Disclosures"
- j. PSAK No. 65, "Consolidated Financial Statements"
- k. PSAK No. 67, "Disclosure of Interests in Other Entities"
- l. PSAK No. 68, "Fair Value Measurement"

The Bank and Subsidiaries have assessed that the adoption of the above mentioned accounting standards and interpretation do not have any significant impact to the consolidated financial statements with some exceptions as detailed in the audited Consolidated Financial Statements, note No.2.d.1 pages 419-420.

Accounting standards issued but not yet effective

Certain amendments and accounting interpretations have been issued but not yet effective for the year ended 31 December 2015, and have not been applied in preparing these consolidated financial statements. The following PSAK and ISAK ("Interpretations of Financial Accounting Standard"), which will become effective starting 1 January 2016 and 1 January 2017, may have a significant effect on the Bank and Subsidiaries' future financial statements, and may require retrospective application under PSAK No. 25, "Accounting Policies, Changes in Accounting Estimates and Errors":

- a. PSAK No. 1 (2015 Revision), "Presentation of Financial Statements"
- b. PSAK No. 4 (2015 Revision), "Separate Financial Statements"
- c. PSAK No. 5 (2015 Revision), "Operating Segment"
- d. PSAK No. 7 (2015 Revision), "Related Party Disclosures"
- e. PSAK No. 13 (2015 Revision), "Investment Property"
- f. PSAK No. 15 (2015 Revision), "Investment in Associates and Joint Ventures"
- g. PSAK No. 16 (2015 Revision), "Property, Plant and Equipment"
- h. PSAK No. 19 (2015 Revision), "Intangible Assets"
- i. PSAK No. 22 (2015 Revision), "Business Combination"
- j. PSAK No. 24 (2015 Revision), "Employee Benefits"
- k. PSAK No. 25 (2015 Revision), "Accounting Policies, Changes in Accounting Estimates and Errors"
- l. PSAK No. 53 (2015 Revision), "Share-based Payment"
- m. PSAK No. 65 (2015 Revision), "Consolidated Financial Statements"

- n. PSAK No. 66 (2015 Revision), "Joint Arrangements"
- o. PSAK No. 67 (2015 Revision), "Disclosure of Interest in Other Entities"
- p. PSAK No. 68 (2015 Revision), "Fair Value Measurement"
- q. ISAK No. 30 (2015 Revision), "Levies"
- r. ISAK No. 31 (2015 Revision), "Interpretation of Scope PSAK No.13: Investment Property"

As of the issuance of these consolidated financial statements, the Bank and Subsidiaries have not determined the extent of retrospective impact, if any, that the future adoption of these standards will have on the Bank and Subsidiaries' consolidated financial position and operating results.

PRIME LENDING RATE

In connection with the Regulation of Bank Indonesia No. 7/50/PBI/2005 on Transparency of Financial Condition, BCA has been transparent in providing Prime Lending Rate information to the public through publications on its websites, in newspapers, and in the Annual Report. Prime Lending Rate publication enhances good corporate governance, and encourages healthy competition in the banking industry.

The Prime Lending Rate calculation is based on three components consisting of the cost of loanable funds; overhead costs incurred by the Bank in the lending process; and the profit margin determined for lending activities. The following is a presentation of BCA's quarterly Prime Lending Rates in 2015. The Bank's Prime Lending Rate was relatively stable in 2015 with changes occurring only in March 2015.

Detailed information on changes to the Prime Lending Rate is made available at branches and can be accessed from the Bank's website at www.bca.co.id, as well as through national daily newspapers.

Quarterly Prime Lending Rate (effective % p.a)

End of Period	Prime Lending Rate Based on Loan Segment			
	Corporate Loan	Retail Loan	Consumer Loan	
			Mortgage	Non Mortgage
Quarter IV - 2014	10.50	11.75	10.50	8.71
Quarter I - 2015	10.25	11.50	10.25	8.63
Quarter II - 2015	10.25	11.50	10.25	8.63
Quarter III - 2015	10.25	11.50	10.25	8.63
Quarter IV - 2015	10.25	11.50	10.25	8.63

Note:

- a. Prime Lending Rate is used as the basis for determining lending rates to be charged to the Bank's customers. The Prime Lending Rate does not include the estimated individual credit risk premium which depends on the Bank's risk assessment on each debtor or group of debtors. Therefore, the lending rate for each debtor might be different from the Prime Lending Rate.
- b. Non-mortgage consumer loans do not include credit card and/or uncollateralized credit loans.
- c. Non-mortgage consumer loans Prime Lending Rate is the Prime Lending Rate for vehicle loans provided to customers through a joint financing program with PT BCA Finance.
- d. The Prime Lending Rate for mortgages is the variable rate (floating rate).

MATERIAL COMMITMENTS FOR CAPITAL EXPENDITURES AND REALIZATION IN 2014 AND 2015

In 2015 the Bank invested Rp 2.5 trillion in capital expenditures, in which the Bank entered into agreements with vendors, including in terms of:

- Expansion of branch, ATM and EDC distribution network.
- The development of information technology infrastructure, including the purchase of hardware and software for mainframe needs, purchasing of licenses, firewall upgrades and storage increases.
- Additional tools and other office equipment for the operational needs of the Bank's branch network.

With capital expenditure investments in 2015, total Bank gross fixed assets reached Rp 16.8 trillion at the end of 2015, an increase of 13.8% compared to Rp 14.7 trillion at the end of 2014.

Going forward, the Bank is committed to continue investing in the development of business networks while utilizing technological developments to maintain excellence in transaction banking and provide quality services in accordance with increasingly diverse customer needs.

Capital Expenditures Investment (in billion Rupiah)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Land	326	115	211	183.5%
Buildings	136	79	57	72.2%

MANAGEMENT DISCUSSION AND ANALYSIS BY BUSINESS SEGMENT

Composition of Third Party Funds and Interest Expense - as of December 31, 2015

Composition of Earning Assets, Loans and Interest Income - as of December 31, 2015

Credit Quality

Bankwide NPL Ratio

NPL Ratio by Segment

Branch Banking

BCA manages an extensive brick and mortar branch network that is interconnected online and is supported by a multi-channel electronic banking network that consists of internet banking, mobile banking, Automated Teller Machine (ATM) and Electronic Data Capture (EDC). Internet banking and mobile banking have increased in importance to facilitate customer transactions in line with the rapid adoption of the newest telecommunication and information technologies in Indonesia. Reliable transaction banking services enable the Bank to maintain a strong presence in the CASA funds market which represent the largest portion of BCA's third party funds.

Along with its historical function to support the growth of third party funds, the Bank's widespread branch network is well positioned to service the working capital and investment loan needs of its customers in the commercial and Small & Medium Enterprises (SME) loan segments.

Third Party Funds

Development of branch services and electronic networks have secured the Bank's position as a leading transaction bank in Indonesia. Amid weakening business activity in 2015, BCA maintained growth in CASA funds. Total CASA funds grew by 7.1% to Rp 360.3 trillion at year-end 2015. Savings accounts composed 67.9% of total CASA funding and posted a positive growth of 6.8%, reaching Rp 244.6 trillion at year end 2015 while current accounts grew by 7.7% to Rp 115.7 trillion by the end of December 2015. CASA provides the greatest contribution to BCA's total third party funds, amounting to 76.1% at the end of 2015.

In 2015, BCA's time deposits amounted to Rp 113.4 trillion, up only 1.7%, a lower growth rate than in previous years. The Bank did not compete heavily to increase time deposit funds given the Bank's solid liquidity position. A slowdown in lending activities led to higher liquidity in the market and allowed the Bank to gradually lower the interest rate on Rupiah time deposits over the course of the year.

Commercial and SME Lending

The total commercial and Small & Medium Enterprise (SME) loan portfolio grew 8.8% to Rp 144.0 trillion by the end of 2015. Commercial and SME loans represent a significant portion, 37.1%, of total Bank lending.

In 2015, commercial loans grew 10.0% to Rp 91.2 trillion while SME loans increased by 6.8% to Rp 52.8 trillion. Commercial loans accounted for 63.4% of the total commercial & SME loan portfolio with SME loans making up the remaining 36.6%

BCA continues to maintain its prudent lending policy with loans prioritized for borrowers who have solid financials and already have a good relationship with the Bank. The loan portfolio is closely monitored for each branch, region and industry sector. At the end of 2015, the level of Non-Performing Loans (NPL) of the commercial and SME segment as a whole was at 1.1%.

Micro, Small and Medium Enterprises Lending

In addition to branch banking for Commercial and SME lending, BCA provided loans for Micro, Small and Medium Enterprises by working with several partner institutions, such as rural banks and cooperatives, to extend credit in this sector. Through these partnerships, the Bank can provide loans directly (through a channeling system) and indirectly to support business development in parts of the Micro, Small and Medium Enterprises segment unreachable by the Bank's branch network. In accordance with Bank Indonesia regulations, on December 31, 2015, the Bank's Micro, Small and Medium Enterprises loan portfolio (as defined by Bank Indonesia) amounted to Rp 46.6 trillion, or 12.0% of total Bank lending. Furthermore, through BCA Syariah, the Bank is exploring a pilot financing project for the Sharia micro-SME segment.

Corporate Banking

BCA Corporate Banking experienced a slowdown in loan demand and in the utilization of allocated credit lines during the first half of 2015. This was due to a significant number of corporate customers experiencing lower growth in revenues and need for credit in the first part of the year. In the second half of 2015, demand for corporate loans began to show signs of growth based on a slight uptick in the economy and the realization of more aggressive government expenditure as well as an increase in domestic consumption towards the end of the year. By the end of 2015, BCA's corporate loan portfolio stood at Rp 141.3 trillion, a growth of 17.2%. The growth in the corporate loan portfolio played an important role in leading the growth of the Bank's loan portfolio as a whole.

As of December 2015, working capital loans contributed 46.9% to the total corporate loan portfolio with investment loans making up 53.1% of the total. Working capital loans amounted to Rp 66.3 trillion per December 31, 2015, growing 16.7%, while investment loans increased by 17.7% to Rp 75.0 trillion.

Internal policies designed to maintain a diversified loan portfolio allowed the Bank to minimize risk exposure to the performance of any one given industry. These prudent lending policies enabled the Corporate Banking Group to maintain a high quality loan portfolio with a relatively low NPL of 0.3%, in a difficult lending environment.

Individual Banking

2015 saw a weakening demand for consumer loans in line with the weakening performance of the property sector and drop in car sales in Indonesia. BCA continued to promote consumer lending by reintroducing a number of attractive consumer lending products and programs in 2015 while maintaining high lending standards.

BCA maintained its position as one of the leading mortgage providers in Indonesia with a market share of 17.4%. BCA mortgages increased 8.7% to Rp 59.4 trillion representing 59.1% of total consumer loans at the end of 2015. Vehicle loans increased 9.6% to Rp 31.6 trillion, accounting for 31.5% of total consumer lending. In the same period, credit card outstanding grew 8.1% to Rp 9.5 trillion, representing 9.4% of total consumer loans. Overall, the Bank's total consumer lending reached Rp 100.5 trillion, an increase of 8.9% compared to the previous year.

Growth in consumer loans was achieved with well-maintained loan quality at a 0.7% NPL ratio. BCA provided mortgages to quality debtors and focused on properties in prime residential areas. As part of the Bank's risk management efforts, BCA offered vehicle loan products with competitive interest rates that require high down payments. Financing is prioritized for popular cars that have gained wide acceptance in the Indonesian automotive market.

Consumer Loans (in billion Rupiah, non consolidated)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Mortgages	59,415	54,652	4,763	8.7%

Total	100,510	92,277	8,233	8.9%

* Including 2-wheeler financing of Rp 4.3 trillion in 2015 and Rp 4.2 trillion in 2014

MARKETING

BCA designs various marketing strategies to build awareness and capture customer interest with the goal to maintain the Bank's solid funding position and disseminate improvements of its various products and services to the market. BCA remains focused on strengthening the implementation of a 360° marketing communication strategy, which identifies customer touch points through various conventional and digital communication channels.

BCA conducted several strategic campaigns in 2015 aimed at the mass segment and individual businesses. These campaigns can be summarized as follows:

- Mass Individual.** BCA organized Gebyar Tahapan BCA (GTB) with the overarching theme "Gebyar Tahapan BCA is a Celebration". The theme positions GTB as a platform to celebrate a special moment, in particular winning one of the GTB prizes. This program is designed to show appreciation to customers in the form of sweepstakes, with a grand prize of 1 Mercedes Benz S Class as well as 10 Mercedes Benz C Class, and 500 motorcycles that were awarded over the period June 2015–September 2015. In 2015, the GTB program was held at branch offices in eight major cities with the experience of driving a Mercedes-Benz S Class using Augmented Reality technology. As part of the GTB, the Bank organized an "activation event" to encourage customers to use a variety of banking solutions offered by the Bank under the theme "Celebrate the Moment with Gebyar Tahapan BCA" held in Pekanbaru, Palembang, Yogyakarta, Balikpapan, and Makassar. GTB is aimed at the entire customer base across all segments and was broadcast on television to benefit from wide coverage, and was made available on alternative media, including internet.

In celebration of the Bank's anniversary in early 2015, BCA re-introduced the popular 'Fix and Cap' mortgage plan program with improved and more flexible terms and competitive interest rates. From August 2015 to December 2015, the tenure for the Fix & Cap program was extended from 5 years to 6 years.

In car financing, the Bank together with the Bank's subsidiary, BCA Finance, organized the "Kredit Keren Banget" program with the concept of "Finance 1 Car, Take Home 3" in 2015. By joining this program, customers who apply for a vehicle loan through BCA or BCA Finance were given the opportunity to earn regular rewards and the Grand Prize of a car. The program applied for new and used cars during the lucky draw period from May 2015 to October 2015.

In addition to both conventional and digital media communication, BCA also participated in the 'Gaikindo Indonesia Auto Show 2015' automotive event to strengthen customer awareness of the 'Kredit Keren Banget' program and provide an opportunity for customers to obtain complete information on the Bank's vehicle loan programs and facilities at the BCA booth.

To show appreciation for customer loyalty, Debit BCA held a joint promotion with several modern retailers in various locations in Indonesia. By shopping with these retailers using Debit BCA, customers had the chance to be rewarded by the Bank and the cooperating merchants with discounts and prizes.

BCA also held online shopping promotions in cooperation with reputable merchants. BCA organized the e-Shopping Carnival promotional program with several online merchants and offered customers discounts and cash back on online purchases through certain merchants using BCA credit cards. The Bank also organized the "BCA KlikPay Deal!" program with online merchants to offer products such as gadgets, fashion items, accessories and electronics at attractive prices.

- Business Segment.** High traffic trading areas were a major focus for the Bank's business segment. BCA organized a number of promotional activities with prize rewards in cooperation with large trading area managers in several high-potential regions across Indonesia.

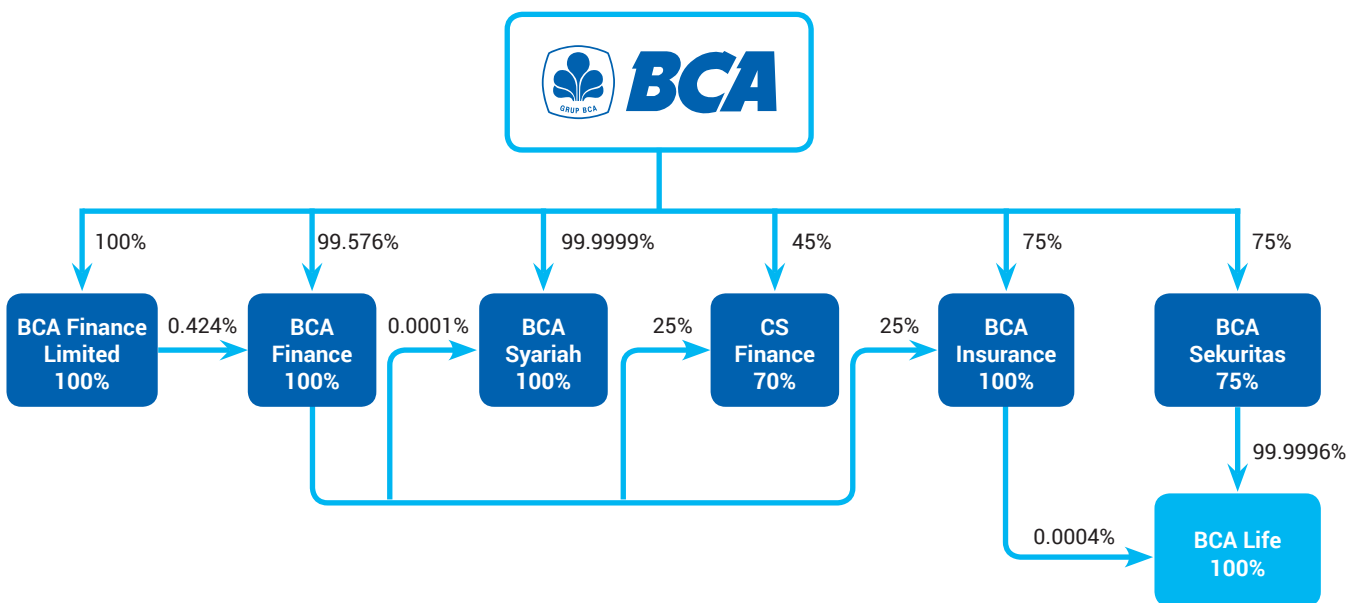

In 2015, the Bank launched a new product, 'Sakuku', an electronic money service that can be used to make transactions via a smartphone application, including payments for both online and physical merchants, mobile phone credits and other transactions. Sakuku is targeted at the youth market, with the opening theme "Make Hangouts More Fun!". It is expected that 'Sakuku' will become increasingly popular in the future.

Various marketing activities were carried out intensively and effectively to support the Bank's business development in 2015 and promote BCA as the top of mind brand in the eyes of customers and the public. In response to these brand strengthening activities, the Bank was considered one of the 50 best companies in Indonesia in the cross-industry category for the "Indonesia's Most Valuable Brand" award by the Millward Brown and Wira Pamungkas Pariwara research consulting firm. Based on the results of the assessment, the value of the BCA brand was estimated at Rp 136.9 trillion, approximately USD 9.9 billion, close to qualifying for the category of the top 100 companies with the highest international brand value. Accordingly, the Bank is expected to be the first strong Indonesian brand candidate to enter into BrandZ™ global ranking in 2016.

OVERVIEW OF SUBSIDIARY PERFORMANCE

BCA supports the business development of the subsidiaries to complement the Bank's core business lines by offering comprehensive financial solutions to the customers. Through synergy with the subsidiaries, BCA hopes to be able to promote fee-based income growth in the future.

As of December 31, 2015, BCA owns 6 direct subsidiaries and 1 indirect subsidiary, namely, PT BCA Finance ("BCA Finance"), BCA Finance Limited, PT Bank BCA Syariah ("BCA Syariah"), PT BCA Sekuritas ("BCA Sekuritas"), PT Asuransi Umum BCA ("BCA Insurance"), PT Central Santosa Finance ("CS Finance") and PT Asuransi Jiwa BCA ("BCA Life").

PT BCA Finance

Established in 1981 and a subsidiary of BCA since 2001, BCA Finance, a BCA wholly owned subsidiary and a leading finance company in Indonesia, engages in 4-wheeler financing, both for new and used automobiles. In the midst of a weakening Indonesian economy and automotive industry, BCA Finance was able to maintain its lead in the 4-wheeler financing business. This achievement is due to the strategy implemented by BCA Finance which promotes operational efficiency, competitive interest rates, prudent risk management and solid cooperation with business partners.

At the end of 2015, BCA Finance operated with the support of 3,156 employees and 60 branches in cities across Indonesia. BCA Finance branches synergized with the BCA branch network whereby branches work together in marketing and customer service.

2015 saw a number of exciting promotions. BCA Finance launched the "Kredit Keren Banget" program, a lucky draw offering customers a chance to receive up to three cars if they win the lucky draw. The program received a positive

response from customers and supported BCA Finance's lending activities in 2015. In addition, BCA Finance offered an extended tenure of up to 6 years for certain auto purchases. Through a variety of innovative product developments and attractive promotions, BCA Finance has maintained its position as the "top of mind" 4-wheeler financing provider in Indonesia.

Through these efforts, BCA Finance was able to maintain solid financial and business performance. BCA Finance's total assets under management in 2015 amounted to Rp 38.2 trillion, growing 7.2% when compared with 2014's Rp 35.6 trillion. BCA Finance's net income in 2015 reached Rp 1,047 billion, a growth of 4.6% from Rp 1,001 billion in 2014.

In appreciation of the performance achieved in 2015, BCA Finance received a number of awards, including best car financing company from Marketing magazine, and placed third for financial institution digital brand in the category of financing company from Infobank magazine.

BCA Finance Total Assets Managed Assets (in billion Rupiah)

BCA Finance Net Income (in billion Rupiah)

PT Central Santosa Finance

CS Finance was established in 2010 with a business focus on 2-wheeler financing. CS Finance continuously strengthens its capacity and capability by developing promotion and marketing, network infrastructure, human resources, technology, and risk management.

CS Finance explored low-risk marketing strategies by offering motorcycle financing for BCA's customer base as well as through third party dealers in accordance with the predetermined criteria and standards. CS Finance also initiated exclusive partnership to provide motorcycle financing for one of the app-based courier service providers.

In 2015, CS Finance continued to strengthen network infrastructure and develop human resources. In addition to the BCA network and CS Finance branch network, CS Finance established payment points in collaboration with other partners, such as modern minimarkets and post offices, to facilitate loan installments for 2-wheeled vehicles. As of 31 December 2015, CS Finance has 76 branches across Java, Sumatra and other parts of Indonesia with the support of 6,868 employees.

In response to a weaker economy and higher-than-forecast NPLs, CS Finance curbed the growth of motorcycle loans and strengthened its branch collection teams throughout 2015. These efforts in handling non-performing loans began to show results as the NPL growth rate slowed in 2015.

In 2015, total assets under management at CS Finance reached Rp 5.9 trillion, an increase of 4.1% from Rp 5.7 trillion at the end of 2014. CS Finance recorded a net income of Rp 76.2 billion, compared to Rp 82.3 billion in 2014.

PT Bank BCA Syariah

BCA Syariah is a company engaged in Sharia banking. In 2009, BCA acquired a commercial bank which was subsequently converted into a Sharia bank under the name BCA Syariah.

BCA Syariah facilitates the needs of customers for Sharia banking products in the field of payment settlement, funding and the provision of financing facilities for individuals and SME customers. The main business targets of BCA Syariah are customers who require quality Sharia banking products and services supported by the ease of access and speed of transactions that the BCA Group can offer.

In 2015, BCA injected additional capital in BCA Syariah so that the bank could be classified as a BUKU II category Sharia bank. The requirement for BUKU II is having capital of more than Rp 1 trillion. As a BUKU II Sharia bank, BCA Syariah can further develop products and activities that are permitted only for Sharia banks falling under the BUKU II category.

BCA Syariah introduced several new products, including Student Savings (SimPel iB), BCA Syariah Virtual Accounts in cooperation with third parties, and was able to become an administrating bank for Customer Funds Accounts with the Indonesian Central Securities Depository (KSEI). These initiatives were intended to increase the range of products offered and to expand the customer base.

BCA Syariah serves customers through its network of 47 branches, including 24 Syariah Service Units spread throughout Greater Jakarta, Bandung, Semarang, Solo, Surabaya and Yogyakarta. The branch network is integrated with the BCA banking system, thus giving added value to BCA Syariah customers with the convenience of transacting through the BCA ATM and EDC machines, as well as access to the Halo BCA call centre.

BCA Syariah recorded growth in business performance in terms of assets, third party funds and financing. At the end of 2015, BCA Syariah's total assets grew by 45.3% to Rp 4.3 trillion from Rp 3.0 trillion. Third party funds grew by 39.2% to Rp 3.3 trillion from Rp 2.3 trillion, while Sharia financing portfolio increased by 39.6% to Rp 3.0 trillion from Rp 2.1 trillion. Growth in financing was accompanied by well-

maintained loan quality as reflected in the non performing financing ratio, which was relatively low at 0.7% at the end of 2015. Public recognition of BCA Syariah's achievements was reflected in the various awards received during the year, including for a 'very good' financial performance in 2014 from Infobank magazine's "The Best Sharia Finance Awards 2015".

BCA Syariah Performance (in billion Rupiah)

	2015	2014	Increase / (decrease)	
			Nominal	Percentage
Total Assets	4,350	2,994	1,356	45.3%
Sharia Financing	2,975	2,131	844	39.6%
Third Party Funds	3,255	2,339	916	39.2%
Net Income	23.4	13.0	10.4	80.0%

PT BCA Sekuritas

BCA Sekuritas is a company engaged in securities brokerage and underwriting.

BCA Sekuritas has been active in the fixed income market in Indonesia, ranked 8th by Bloomberg for Domestic Bonds in 2015 and leading the market for Negotiable Certificates of Deposit issuance.

In 2015 BCA Sekuritas launched a wide range of retail-oriented products and services, such as BCA Sekuritas Equity Smart Trading (BEST), a facility for online stock trading, margin trading, and Shares Savings Accounts (part of "Yuk Nabung Saham" program initiated by Indonesia Stock Exchange). BCA Sekuritas also maintains positive synergy with BCA's Wealth Management Unit to further expand the scope of its services for customers.

As of the end of 2015, total assets of BCA Sekuritas (parent company) reached Rp 593.5 billion, an increase of 25.0% compared to 2014's Rp 475.0 billion. Net income of BCA Sekuritas (parent company) amounting of Rp 4.4 billion in 2015, compared to Rp 9.6 billion in 2014.

PT Asuransi Umum BCA

In 2015, BCA Insurance cooperated with BCA Finance to conduct joint promotion at the two largest automotive events in Indonesia, the Gaikindo Indonesia International Auto Show (GIIAS) and the Indonesia International Auto Show (IIMS).

BCA Insurance continued to improve cooperation with both Authorized and independent repair shops as well as with Astra Daihatsu, which has an extensive network throughout Indonesia. To increase customer convenience when seeking vehicle repair services, BCA Insurance provides priority workshops that allow customers to drop off their vehicles without having to file damage claims in advance. BCA Insurance expanded its network of priority workshops to reach a total 3 priority workshops in the Greater Jakarta area, 3 in Bandung, and 4 in Surabaya. BCA Insurance also has a partnership to provide a free towing service for customers.

BCA Insurance's total assets at the end of 2015 rose 32.3% to Rp 898.6 billion, compared with Rp 679.5 billion in 2014. Gross premium income increased 12.9% to Rp 360.8 billion. Investment income grew by 38.4% from Rp 39.6 billion to Rp 54.8 billion in 2015. BCA Insurance recorded a net income of Rp 44.2 billion, an increase of 22.1% compared to Rp 36.2 billion in 2014.

BCA with BCA Finance also made a capital injection to BCA Insurance amounting to Rp 150 billion (BCA portion amounting to Rp 112.5 billion and BCA Finance portion amounting to Rp 37.5 billion), which was used for business development, to strengthen capital and to maintain a healthy solvency level.

In 2015, BCA Insurance earned a number of awards, including the best insurance company with assets between Rp 250 billion and Rp 1 trillion from Investor magazine's "Best Insurance Companies 2015" awards, and received acknowledgement for a 'very good' financial performance in 2014 from the "Infobank Insurance Awards 2015".

PT Asuransi Jiwa BCA

Supported by Indonesia's large productive population, the life insurance industry shows promising prospect. This is further confirmed by the relatively low penetration rate of the insurance industry in Indonesia by comparison to other ASEAN countries.

Receiving the license of establishment and operation from Indonesia Financial Services Authority in July 2014, PT Asuransi Jiwa BCA (BCA Life) commenced operations in the fourth quarter of 2014. In the beginning of the business development cycle, BCA Life focus on providing insurance protection for BCA consumer loan customers. BCA Life continues to build its operational system to support future business growth. As a growing new business, BCA Life posted a loss of Rp 38.3 billion in 2015. BCA Life received capital injection in the amount of Rp 150 billion in 2015, with BCA Sekuritas' portion amounting to Rp 112.5 billion. These funds were used to support business developments as well as to strengthen the solvency level, Risk Based Capital (RBC) requirement of BCA Life in accordance with relevant Government regulations.

BCA Finance Limited

BCA Finance Limited is a company wholly owned by BCA and domiciled in Hong Kong. BCA Finance Limited is engaged in the remittance business and carry out its role as a money lender.

Total assets of BCA Finance Limited in 2015 reached Rp 686.3 billion, an increase of 53.7% compared to Rp 446.5 billion in 2014. The net income of BCA Finance Limited in 2015 was Rp 4.4 billion in 2015, compared to a loss of Rp 2.8 billion in 2014.

PROSPECTS AND STRATEGIC PRIORITIES IN 2016

Prospects for the Indonesian Economy and Banking Sector in 2016

We expect that the Indonesian economy will continue to face challenges and to grow moderately in 2016. The uncertainty and stagnation of the economies of developed countries is expected to continue into 2016. China's economy, as the main engine driving the overall Asian economy, remains weak and is not expected to recover substantially in 2016. This indicates that the estimated probability of recovery in the prices of Indonesia's main commodity exports will remain low throughout 2016. The effectiveness of government spending realization and the implementation of government policy packages will be a catalyst to support the Indonesian economy in the coming year. Infrastructure development in Indonesia will gradually provide benefits in the medium-long term.

Uncertainty in international and domestic economic conditions will continue to have an impact on the performance of the Indonesian banking sector. Although loan is still expected to grow moderately, BCA sees that the banking liquidity has the potential of tightening in the coming years, in line with slower growth in the sector's third party funds, the increasing LDR position of the banking sector and the growing volume of Government bonds in the market. Bank Indonesia's policy in reducing Minimum Reserves Requirement regulation allowed the banking sector to meet its liquidity needs. With regards to loan quality, the Bank believes that non-performing loans in the banking sector have the potential to increase in the midst of a challenging national economy.

BCA Business Prospects and Strategic Priorities in 2016

BCA will continue to monitor the economic environment and its impact on the performance of the Indonesian banking sector. Entering 2016, BCA will continue to prioritize cautious policies and measures. The trend of increasing non-performing loans in the banking sector has the potential to lead to a multiplier effect

on the deterioration of loan quality for some of BCA's customers. To mitigate risk, the Bank will remain disciplined in applying prudent risk management principles, working to implement cost efficiency programs. BCA will continue to explore alternative sources of income other than interest income.

In general, the Bank assesses the Indonesian economy and banking industry as having a solid footing in the face of a slowing economic cycle. BCA continues to support the efforts of the Indonesia Financial Services Authority and Bank Indonesia in maintaining the balance of loan quality and sustainable national loan growth while also maintaining healthy capital and liquidity position. BCA is optimistic about the long-term prospects of the Indonesian economy and banking sector. The growth of the middle class in Indonesia and the infrastructure development programs proposed by the Government are expected to support domestic economic growth in the future.

Responding to the dynamic changes in the external environment, the Bank continuously examines business strategies both for the short, medium and long terms as outlined in the Bank's Strategic Plan in the form of the Bank Business Plan and the Annual Budget & Work Plan.

BCA believes that investments made to strengthen transaction banking capabilities and to improve lending infrastructure should not be interrupted considering the long-term prospects of the Indonesian banking industry and anticipating the increased competition in the era of the ASEAN Economic Community and rapid digital evolution. In addition to the strategic steps taken by the Bank, the development of human resources and organizational alignment of all work units, and with the subsidiaries, are essential to further reinforce BCA's position as a leading financial institution.

In 2016, the Bank is committed to continue investing in the Bank's franchise value. Strategic priorities in 2016 will remain focused on efforts to strengthen relationships with customers through enhanced payment settlement services, prudent lending, and development of new business lines through its subsidiaries. Below is a further elaboration of the three major business objectives:

- **Strengthening Payment Settlement Services**

BCA believes that the ease, convenience and security of transactions are fundamental factors that sustain the growth of the Bank's current accounts and savings accounts (CASA). BCA continues to develop its range of payment transaction products and services, as well as expanding the coverage of conventional and electronic banking and information technology infrastructure.

The Bank will increase the number of branches and electronic delivery channels in Indonesia supported by an enhancement in the capability and capacity of information technology infrastructure. BCA will explore and implement the latest technological developments into the Bank's payment settlement products and services in accordance with evolving customer needs and their acceptance level.

To maintain a solid liquidity position, the Bank will continue to assess developments and liquidity trends in the banking sector. CASA will remain the major source of liquidity. The Bank believes that BCA can actively raise funds through time deposits products by adjusting interest rates as needed. This is essential to maintain the position of third party funds as a whole.

- **Lending**

Through the economic slowdown, the Bank will continue to provide lending while focusing on healthy and real loan demand with a view that sustainable lending growth will strengthen relationships with quality customers.

Lending activities are planned upon a solid capital position and the implementation of prudent and effective risk management principles to manage the Non-Performing Loans (NPL) ratio. The increasing NPL trends signify higher risk for the national banks, including BCA. Therefore, the Bank prioritizes lending to customers who have a good track record in the corporate, commercial & SME and consumer segments. Asset quality will be an important factor for maintaining BCA's strategic position in the national banking industry and for maintaining sustainable long-term growth.

For the business segment, the Bank will actively explore lending to sectors with broad value chains. In the individual credit segment, the Bank believes that the mortgage, vehicle loans, and credit card financing have great potential for growth in the long term although individual lending is expected to grow slower than business lending in the short term. Nevertheless, the Bank remains committed to being at the forefront in consumer lending and continues to maintain a strategic presence in the individual credit market.

To support sustainable loan growth, the Bank will continue to enhance the credit infrastructure across all segments, both in branches and at head office.

- **Business Development among the Subsidiaries**

To meet the increasingly diverse needs of customers, the Bank has developed a comprehensive range of financial products and services through its business lines and the Bank's subsidiaries. Business development of the subsidiaries are focused on automotive financing, Sharia banking, securities, remittance, general insurance, and life insurance.

The subsidiaries continue to grow and have demonstrated positive business development in recent years. BCA Finance, a subsidiary engaged in car financing, consistently contributes significantly to the profitability of the Bank.

BCA will continue to build synergies between the Bank's main business and the subsidiaries, including cross selling between BCA consumer products and the insurance products of the subsidiaries, as well as joint financing activities with BCA Finance and CS Finance. BCA is committed to provide the necessary capital support to the subsidiaries in line with the business growth prospects of the subsidiaries. BCA expects the contribution of interest income and fee-based income from the subsidiaries will continue to increase going forward.

BCA believes that these strategies and policies will support the Bank in strengthening its long-term competitive advantages. Consistent strategy will build a quality customer base amid increasing competition in the Indonesian banking industry.

Financial Projections in the 2016 Business Plan

In setting the projections and preparations for the budget, BCA assesses the performance and achievements in the previous period and the near to intermediate term business plan. With the Indonesian economy expected to see moderate growth in 2016, BCA is targeting an average growth rate of credit volume in the range of 9–10%. We estimate that all segments will continue to grow, with the corporate segment contributing significantly to this growth. On the funding side, the Bank estimates approximately 5–7% growth in third party funds year on year.

BCA will review the annual dividend payout ratio to maintain the growth of capital necessary to sustain target asset growth, capital expenditures and new business activities. BCA projects organic growth of capital will support the development of business activities in 2016. The Bank seeks to achieve ROA of no lower than 2.5% and ROE in the range of 15–20%.

BCA will remain cautious in order to achieve the projections and budget that have been prepared. BCA continues to observe the development of macro-economic factors and the banking industry competition in 2016, and if necessary, the Bank may take strategic steps to adjust the business plan in order to protect the interests of stakeholders in the face of unexpected events that may arise.

Corporate Governance

Consistent good corporate governance implementation carried out to maintain the trust of shareholders and stakeholders of PT Bank Central Asia Tbk (“BCA”) has become even more crucial with the increasing business risks and challenges encountered by the banking industry in the era of ASEAN Economic Community.

INTRODUCTION

1. Purpose of Good Corporate Governance Implementation

BCA understands that implementation of good corporate governance is imperative to maintain the Company’s business sustainability and maximize value in the long run. Implementation of good corporate governance in BCA is intended to:

- a. Support the vision of BCA to be “the bank of choice and a major pillar of the Indonesian economy”.
- b. Support the following missions of BCA:
 - Build centers of excellence in payment settlements and financial solutions for businesses and individuals.

- Understand diverse customer needs and provide the right financial services to optimize customer satisfaction.
 - Enhance our corporate franchise and stakeholder value.
- c. Give benefits and added value to the shareholders and stakeholders.
 - d. Sustain and increase sound and competitive business continuity in the long run.
 - e. Enhance the trust of investors in BCA.

2. References

BCA's policy for Good Corporate Governance is developed based on the following:

- a. Regulation No.X.K.6 concerning Submission of the Annual Report of Issuers or Public Companies – Attachment of Chairman of the Capital Market and Financial Institution Supervisory Agency Decision No.Kep-431/BL/2012 dated 1 August 2012.

3. Statement of Corporate Governance Implementation Commitment

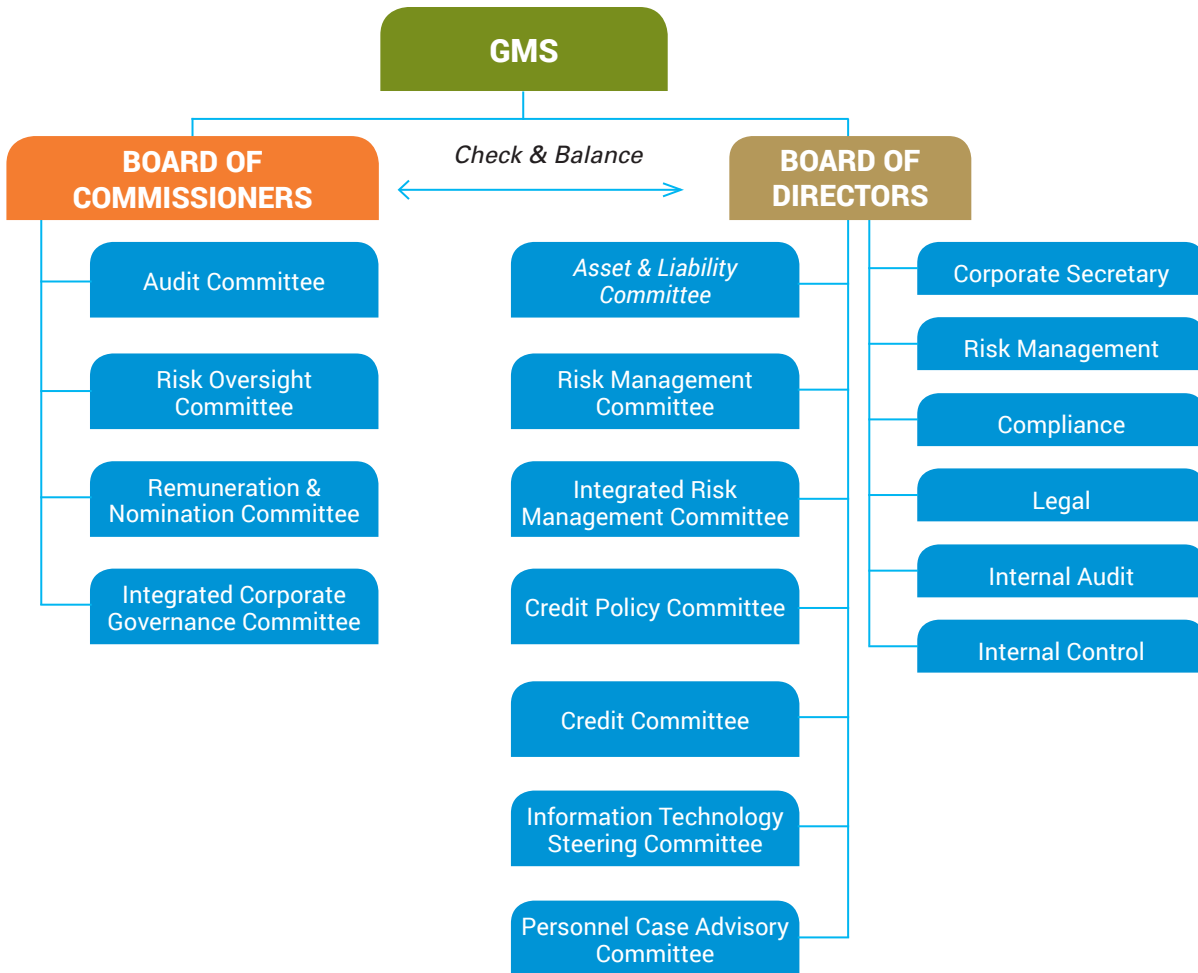

Implementation of GCG is a key factor in maintaining the trust of shareholders and stakeholders in BCA. It has become even more significant with the increasing business risk and challenges faced by the banking industry. Through the implementation of GCG principles, BCA will be able to maintain soundness and competitive business continuity.

BCA is committed to continuously improving the implementation of good corporate governance principles in accordance with the provisions of the applicable legislation and the development of best corporate governance practices, as well as the ASEAN Corporate Governance Scorecard.

4. Governance Structure

A clear division of tasks and responsibilities between different functions/work units within BCA reflects the application of a checks and balances principle within a good internal control system.

BCA's Corporate Governance Structure

The BCA's structure of Corporate Governance consists of:

1. The General Meeting of Shareholders (GMS);
2. Board of Commissioners;
3. Board of Directors;
4. Committees under the Board of Commissioners: Audit Committee, Risk Oversight Committee, and Remuneration & Nomination Committee; Integrated Corporate Governance Committee.
5. Executive Committees under the Board of Directors: Asset & Liability Committee (ALCO), Risk Management Committee, Integrated Risk Management Committee, Credit Policy Committee, Credit Committee, Information Technology Steering Committee, Personnel Case Advisory Committee;
6. Corporate Secretary;
7. Risk Management, Compliance, Legal, Internal Audit work units and Internal Control.

The corporate governance structure allows BCA to carry out its duties and responsibilities according to the scope of duty, responsibility, and functions as stated in the applicable regulations.

5. Results of GCG Assessment

5.1. GCG Self Assessment Implementation

In 2015, BCA conducted its GCG self assessment review in accordance with the Regulations of Bank Indonesia and Bank Indonesia Circular Letter on GCG Implementation for Commercial Banks. The assessment falls into 3 (three) governance aspects, namely:

1. Governance Structure;
2. Governance Process; and
3. Governance Outcome.

The 3 aspects of Governance are evaluated in the 11 (eleven) Assessment Factors below:

1. Implementation of duties and responsibilities of the Board of Commissioners;

2. Implementation of duties and responsibilities of the Board of Directors;
3. Adequacy and implementation of duties of the Committees;
4. Handling of conflict of interests;
5. Implementation of compliance function;
6. Implementation of internal audit function;
7. Implementation of external audit function;
8. Implementation of risk management, including the internal control system;
9. Funding to related party and large exposures;
10. Transparency of financial and non-financial condition of the Bank, GCG implementation report; and
11. The Bank's strategic plan.

Results of the Good Corporate Governance implementation self-assessment in the first and second half of 2015 is categorized under **"Rank 1" ("Very Good")**.

Results of The GCG Implementation Self-Assessment at BCA

	Rank	Rank Definition
Individual	1	Overall, implementation of Good Corporate Governance (GCG) by the Management of BCA is rated excellent . As reflected in the substantial implementation of GCG principles. Any remaining weaknesses in the implementation of GCG principles are either generally considered not significant or would soon be corrected by the Management of BCA.

Analysis

The analysis of the Self Assessment on aspects of Governance Structure, Governance Process and Governance Output as applied to each of the GCG Implementation Assessment Factor can be summarized below:

1. The governance structure as per all the GCG Implementation Assessment Factors is more than adequate and comprehensive.
2. The governance process as per most of the GCG Implementation Assessment Factors is very effective, supported by a more than adequate governance structure and infrastructure.
3. The governance output as per most of the GCG Implementation Assessment Factors is of high-quality, resulting from governance processes that are mostly very effective with the support of a more than adequate governance structure and infrastructure.

5.2. Assessment of GCG Implementation by External Party

To evaluate and measure the implementation of GCG in BCA, in 2015 BCA participated in the GCG research and ranking program in Indonesia – Corporate Governance Perception Index (CGPI) organized by The Indonesian Institute for Corporate Governance (IICG) in collaboration with SWA Magazine.

The CGPI theme in 2015 is “Good Corporate Governance in the Perspective of Value Creation.” The assessment consists of 4 (four) stages, as follows:

- a. Self assessment;
- b. Document assessment;
- c. Essay assessment;
- d. Observation.

As a result of its participation in the program, BCA was awarded **“The Most Trusted Company” (“Highly Trusted”)**, which is the highest valuation possible.

In 2015, The Indonesian Institute for Corporate Directorship (IICD) performed an evaluation and ranking for 100 largest listed companies by market capitalization listed at the Indonesia Stock Exchange. In the 2015 IICD Conference and Corporate Governance Awards, BCA obtained an award under **“The Best Financial Sector”** category.

6. GCG Implementation Report

BCA's Good Corporate Governance Implementation Report in 2015 was prepared in accordance with the Bank Indonesia Regulation No.8/4/PBI/2006 dated 30 January 2006, as amended by the Bank Indonesia Regulation No.8/14/PBI/2006 dated 5 October 2006, and Circular Letter of Bank Indonesia No.15/15/DPNP dated 29 April 2013 concerning the Implementation of Good Corporate Governance for Commercial Banks.

The BCA's Good Corporate Governance report has to cover at least the following:

1. Transparency of Good Corporate Governance Implementation as referred by point IX Circular Letter of Bank Indonesia No.15/15/DPNP dated 29 April 2013; and
2. GCG Implementation Self Assessment Report in accordance with the assessment period of Bank Soundness Level for the past 1 (one) year.

Transparency of Good Corporate Governance implementation includes:

- A. GCG implementation disclosures include:
 1. Implementation of duties and responsibilities of the Board of Commissioners and Board of Directors;
 2. Adequacy and implementation of duties of the Committees;
 3. Implementation of compliance, internal audit, and external audit functions;
 4. Implementation of risk management, including the internal control system;
 5. Funding to related party and large exposure;
 6. Strategic planning;
 7. Transparency of financial and non-financial conditions that have not been disclosed in other reports;
 8. Other information related to GCG.
- B. Share ownership of the members of Boards of Commissioners and Directors with an equity amount of 5% (five percent) or more, including the type and number of shares in:
 - a. BCA;
 - b. Other banks;
 - c. Non Bank Financial Institutions; and
 - d. Other companies; domiciled in Indonesia or overseas.
- C. Financial relationships and family relationships of members of the Board of Commissioners and Board of Directors with other members of the Board of Commissioners, Board of Directors and/or Controlling Shareholders.

- D. Remuneration package/policy and other facilities for the Board of Commissioners and Board of Directors.
- E. Share Options.
- F. Ratios of the highest to the lowest salary.
- G. Frequency of Board of Commissioners meetings.
- H. Number of internal fraud cases.
- I. Legal issues.
- J. Transactions with conflict of interest.
- K. Share and/or bond buy-backs.
- L. Provision of funds for social and/or political activities during the reporting period.

IMPLEMENTATION OF INTEGRATED GOVERNANCE

In accordance with the issuance of Financial Services Authority Regulation Number 18/POJK.03/2014 dated 18 November 2014 concerning the Application of Integrated Governance for Financial Conglomerates, and Financial Services Authority Circular Letter Number 15/SEOJK.03/2015 dated 25 May 2015 concerning the Application of Integrated Governance for Financial Conglomerates, BCA has implemented integrated company governance system encompassing all subsidiary companies within the financial group in a comprehensive and effective manner, by applying the below principles:

1. Transparency: openness in conveying material and relevant information and in implementing the decision making process;
2. Accountability: clarity of functions and responsibility of the Bank's organs in order to have effective management;
3. Responsibility: Bank management complies with the applicable law and regulations and prudent banking principles;
4. Independency/professionalism: the Bank shall be managed in a professional manner, without succumbing to influence/pressure from any parties; and
5. Fairness: fair and equal in fulfilling shareholder rights in conformity with agreements and existing laws and regulations.

Implementation of Integrated Governance covers:

- a. Requirements for the Board of Directors and Board of Commissioners of the Group principal;
- b. Duties and responsibilities of the Board of Directors and Board of Commissioners of the Group Principal;
- c. Duties and responsibilities of the Integrated Governance Committee;
- d. Duties and responsibilities of the Integrated Compliance Work Unit;
- e. Duties and responsibilities of the Integrated Internal Audit Work Unit;
- f. Implementation of Integrated Risk Management; and
- g. Development and implementation of the Integrated Governance Guidelines.

 - iv. Is not on the Disqualified List (DTL);
 - v. Having a commitment not to conduct and/or repeat any actions as referred to Article 27 and Article 28. This applies to candidates of a Board of Directors who were on the Disqualified List in the Fit and Proper test, and had passed the sanction period as referred to Article 35 paragraph

(1), Article 40 paragraph (4) point a and Article 40 paragraph (5) of the Bank Indonesia Regulation mentioned above.

- b. Competence requirements:
 - i. Adequate knowledge in banking, relevant to his/her position;
 - ii. Experience and expertise in banking and/or finance;
 - iii. Capability to perform strategic management in developing a sound Bank.
- c. Financial reputations:
 - i. Does not have bad debt; and
 - ii. Not been declared bankrupt or was a member of Board of Directors or Commissioners who was found guilty of causing a bankruptcy of a Financial Group in the 5 (five) years before nomination.

Requirements for the Board of Commissioners of Group Principal:

1. Possess adequate knowledge on the Group Principal and Subsidiary Companies within the Financial Group. "Knowledge" refers, among others, to understanding the main business activities and main risks of Subsidiary Companies within the Financial Group.
2. Meet the requirements as referred to in Financial Services Authority Regulation No.33/POJK.04/2014 dated 8 December 2014 concerning the Board of Directors and Board of Commissioners of Issuers or Public Companies, as follows:
 - a. Having good character, morals, and integrity;
 - b. Capable of performing legal actions;
 - c. Within 5 (five) years before appointment and when in charge of the position:
 - i. Not been declared bankrupt;
 - ii. Not a member of Board of Directors and/or Commissioners that was found guilty in causing a company to become bankrupt;
 - iii. Not having been convicted of any criminal offense that is detrimental to a country's or financial sector's financial position; and
 - iv. Not a member of the Board of Directors and/or Commissioners which during the terms of office:
 - a) Did not hold an AGMS;

- b) His/her accountability as a member of the Board of Directors and/or Commissioners was not accepted by the GMS or he/she did not submit his/her accountability as a member of the Board of Directors and/or Commissioners to the GMS; and
 - c) Had caused a company that obtained license, approval, or registration from the Financial Services Authority in not complying with its obligation to submit the annual report and/or financial report to the Financial Services Authority.
 - d. Has a commitment to comply with the law and regulations; and
 - e. Possesses knowledge and skill in the area required by the company.
3. Meet the integrity, competence, and financial reputation requirements as referred to the Bank Indonesia Regulation No.12/23/PBI/2010 dated 29 December 2010 concerning Fit and Proper Test, as follows:
- a. Integrity requirements:
 - i. Having a good character and morals, which among others are shown by complying to the applicable regulations, including not having been convicted of certain criminal offense in the 20 (twenty) years before nomination;
 - ii. Having a commitment to comply with the prevailing law and regulations;
 - iii. Having a commitment towards development of a sound banking operations;
 - iv. Is not on the Disqualified List (DTL);
 - v. Having a commitment not to conduct and/or repeat any actions as referred to Article 27 and Article 28. This applies to candidates of the Board of Directors who were in the Disqualified List in the Fit and Proper test, and had passed the sanction period as referred to Article 35 paragraph (1), Article 40 paragraph (4) point a and Article 40 paragraph (5) of the Bank Indonesia Regulation mentioned above.
 - b. Competence requirements:
 - i. Adequate knowledge in banking, relevant to his/her position;
 - ii. Experience and expertise in banking and/or finance;
 - c. Financial reputation:
 - i. Does not have bad debt; and
 - ii. Not having been declared bankrupt or a member of board of directors or commissioners who was found guilty of causing a bankruptcy of a limited liability companies in the 5 (five) years before the nomination.
- Duties and Responsibilities of the Board of Directors and Board of Commissioners of the Group Principal**
- Duties and responsibilities of the Board of Directors of the Group Principal:
1. To ensure the implementation of Integrated Governance within the Financial Group.
 2. In order to ensure the implementation of Integrated Governance above, the Board of Directors must at least:
 - a. Develop the Integrated Governance Guidelines;
 - b. Direct, monitor, and evaluate the implementation of the Integrated Governance Guidelines; and
 - c. Follow-up the direction or advise from the Board of Commissioners of the Group Principal for improving the Integrated Governance Guidelines.
 3. To ensure that audit findings and recommendations from the Integrated Audit Work Unit, external auditor and the monitoring results of the Financial Services Authority and/or other authorities have been followed-up within the Financial Group.
- Duties and responsibilities of the Board of Commissioners of the Group Principal:
1. To monitor the Integrated Governance implementation.
 2. In order to monitor the implementation of the Integrated Governance referred above, must at least:
 - a. Monitor implementation of governance in each Financial Services Institution within the Financial Group in order to comply with the Integrated Governance Guidelines;

- b. Monitor implementation of duties and responsibilities of the Board of Directors of the Group Principal, and provide direction or advice to the Board of Directors of the Group Principal on the implementation of Integrated Governance Guidelines; and
 - c. Evaluate the Integrated Governance Guidelines and give direction for improvements.
3. To conduct regular meetings at minimum 1 (once) each semester.
 4. To present the meeting results in well-documented minutes of meetings and give clear explanation on any dissenting opinion occurring in the meetings, including the reasons.
 5. To establish the Integrated Governance Committee.

Duties and Responsibilities of the Integrated Governance Committee

The Integrated Governance Committee was established based on the Decision Letter of the Board of Commissioners of BCA (Group Principal) No.037/SK/KOM/2015 dated 26 February 2015 concerning the Establishment of the Integrated Governance Committee.

The Integrated Governance Committee has Duties and Responsibilities to:

- a. Evaluate implementation of the Integrated Governance at least through assessment of internal control adequacy and implementation of integrated compliance function.
- b. Provide recommendation to Board of Commissioners of the Primary Entity for improvement of Integrated Governance Guidelines.
- c. Hold meeting at least 1 (one) time every semester, and contains the meeting result of Integrated Governance Committee, as well as set forth dissenting opinion occurs in the meeting explicitly in Minutes of Meeting attached by the reason of dissenting opinion.

Duties and Responsibilities of the Integrated Compliance Committee Work Unit

The Integrated Compliance Committee has duties and responsibilities, among others:

1. To monitor and evaluate the implementation of compliance function at each Subsidiary Company within the Financial Group.
2. To develop the methods and processes required in implementing the integrated compliance risk management.
3. To assess and develop the integrated compliance risk profile in order to apply integrated risk management.
4. To develop and submit the duty and responsibility implementation report of the integrated compliance work unit to the Compliance Director of the Group Principal. Further, the Compliance Director of the Group Principal will prepare and submit this report to the Board of Directors and Board of Commissioners of the Group Principal.

Duties and Responsibilities of the Integrated Internal Audit Work Unit

The Integrated Internal Audit Work Unit has duties and responsibilities, among others:

1. To assess the adequacy and effectiveness of the risk management process, internal control and governance of the Group Principal and Subsidiary Companies within the Financial Group, and give recommendations for improvement.
2. To monitor the implementation of internal audit in each Subsidiary Company within the Financial Group.
3. To monitor and evaluate the adequacy of follow-up improvements on audit results of the Group Principal and Subsidiary Companies, and report it to the Board of Directors, Board of Commissioners, and Audit Committee of the Group Principal.
4. To submit the integrated internal audit report to the Board of Directors, Board of Commissioners, and Audit Committee of the Group Principal.

Implementation of the Integrated Risk Management

Risk Management is a series of methodologies and procedures utilized to identify, measure, monitor, and control the risks that occur from all business activities of Subsidiary Companies. Integrated Risk Management is a series of methodologies and procedures utilized to identify, measure, monitor, and control the risks that occur from all business activities of Subsidiary Companies within a Financial Group in an integrated manner. A Financial

Group must implement the Integrated Risk Management effectively, according to the business characteristics and complexity of the Financial Group and by complying with provisions of the Financial Services Authority concerning the Application of Integrated Risk Management for Financial Conglomerates.

Development and Implementation of the Integrated Governance Guidelines

In accordance with the implementation of integrated governance with all of its Subsidiary Companies, BCA has carried out the following:

1. Develop the Integrated Governance Guidelines;
2. Established the Integrated Governance Committee;
3. Adjusted the structure of organization:
 - a. Compliance Work Unit, which covers integrated compliance;
 - b. Internal Audit Work Unit, which covers integrated internal audit;
 - c. Risk Management Work Unit, which covers integrated risk management;
4. To socialize the Integrated Governance Guidelines and implementation of Integrated Governance to the members of Integrated Governance Committee, work units related with Integrated Governance implementation, and all Subsidiary Companies.

The Integrated Governance Guidelines is a guide for BCA (as the Group Principal) and Subsidiary Companies within the Financial Group to have good implementation of integrated governance, thus encouraging quality improvement of integrated governance implementation.

The Integrated Governance Guidelines was prepared by the Board of Directors of BCA (Group Principal), and has been approved by the Board of Commissioner of BCA (Group Principal).

The Integrated Governance Guidelines must at least cover:

- a. Framework of Integrated Governance for Group Principal; and
- b. Framework of Governance for Subsidiary Companies within the Financial Group.

Development of Integrated Governance framework refers to the Financial Services Authority (OJK) Regulation No.18/POJK.03/2014 and the provisions applicable to each Subsidiary Company within the Financial Group.

The Board of Directors of BCA (Group Principal) has submitted the Integrated Governance Guidelines to the Board of Directors of Subsidiary Companies within the Financial Group, to serve as a guideline for Subsidiary Companies in developing the Governance Guidelines and implementing governance in each Subsidiary Company.

The Integrated Governance Framework for the Group Principal contains:

- a. Requirements of Board of Directors of the Group Principal and Board of Commissioners of the Group Principal;
- b. Duties and Responsibilities of Board of Directors of the Group Principal and Board of Commissioners of the Group Principal;
- c. Duties and Responsibilities of the Integrated Governance Committee;
- d. Duties and Responsibilities of Integrated Compliance Working Unit;
- e. Duties and Responsibilities of Integrated Internal Audit Working Unit; and
- f. Implementation of integrated risk management.

Framework of Integrated Governance for Subsidiary Companies covers, among others:

- a. Requirements for a candidate of the Board of Directors and Board of Commissioners.
- b. Requirements for a candidate of the Sharia Supervisory Board;
- c. Structure of the Board of Directors and Board of Commissioners;
- d. Structure of the Sharia Supervisory Board;
- e. Independence in the Board of Commissioners actions;
- f. Implementation of management functions by the Board of Directors;
- g. Implementation of supervisory functions by the Board of Commissioners;
- h. Implementation of supervisory functions by the Sharia Supervisory Board;

- i. Implementation of compliance and internal audit functions, and implementation of external audits;
- j. Implementation of risk management functions;
- k. Remuneration policy; and
- l. Handling conflict of interest.

Assessment of the Integrated Governance Implementation

In 2015, BCA performed Assessment on the Integrated Governance Implementation for Semester I and Semester II, in line with the Financial Services Authority Regulation No.18/POJK.03/2014 dated 18 November 2014 concerning the Application of Integrated Governance for Financial Conglomerates, and the Financial Services Authority Circular Letter No.15/SEOJK.03/2015 dated 25 May 2015 concerning the Application of Integrated Governance for Financial Groups. The assessment covers 3 (three) Integrated Governance aspects, namely Structure, Process, and Results of Integrated Governance.

Assessment on the Integrated Governance implementation covers at least 7 (seven) factors, as follows:

1. Implementation of duties and responsibilities of the Board of Directors of the Group Principal;
2. Implementation of duties and responsibilities of the Board of Commissioners of the Group Principal;
3. Duties and responsibilities of the Integrated Governance Committee;
4. Duties and responsibilities of the Integrated Compliance Work Unit;
5. Duties and responsibilities of the Integrated Internal Audit Work Unit;
6. Implementation of Integrated Risk Management;
7. Development and implementation of the Integrated Governance Guidelines.

Results of the Integrated Governance implementation assessment in the first and second half of 2015 is within category of **"Rank 1" ("Very Good")**.

Annual Report of the Integrated Governance Implementation

Annual Report of the Integrated Governance Implementation at least contains:

1. Self Assessment Report on the Integrated Governance Implementation for 1 (one) fiscal year;
2. Financial Conglomerate Structure;
3. Share ownership structure in Financial Conglomerate describing the parties who become shareholders of Financial Service Institution (Subsidiaries) in Financial Conglomerate up to the ultimate shareholders;
4. Management structure in the Primary Entity and LJK in Financial Conglomerate; and
5. Intra-group transaction policy which at least contains policy to identify, to manage and to mitigate intra-group transaction

In addition to contain information on the above mentioned matters, Annual Report on Integrated Governance Implementation also includes Report on Good Corporate Governance (GCG) Implementation as governed in provision applicable for commercial bank.

**1. SELF-ASSESSMENT REPORT ON THE INTEGRATED GOVERNANCE IMPLEMENTATION FOR 1 (ONE) FISCAL YEAR**Group Principal : **PT Bank Central Asia Tbk**

Report Position : 31 December 2015

Rank	Result of Self-Assessment On Integrated Governance Implementation
	Rating Definition
1	Financial Conglomerate has carried out the Integrated Governance implementation which generally was excellent . This is reflected from the very adequate fulfillment upon the implementation of Integrated Governance principle. If there is weakness in the Integrated Governance implementation, in general the weakness is not significant and can be promptly improved by the Primary Entity and/or Financial Service Institution (Subsidiaries) in Financial Conglomerate.

Analysis

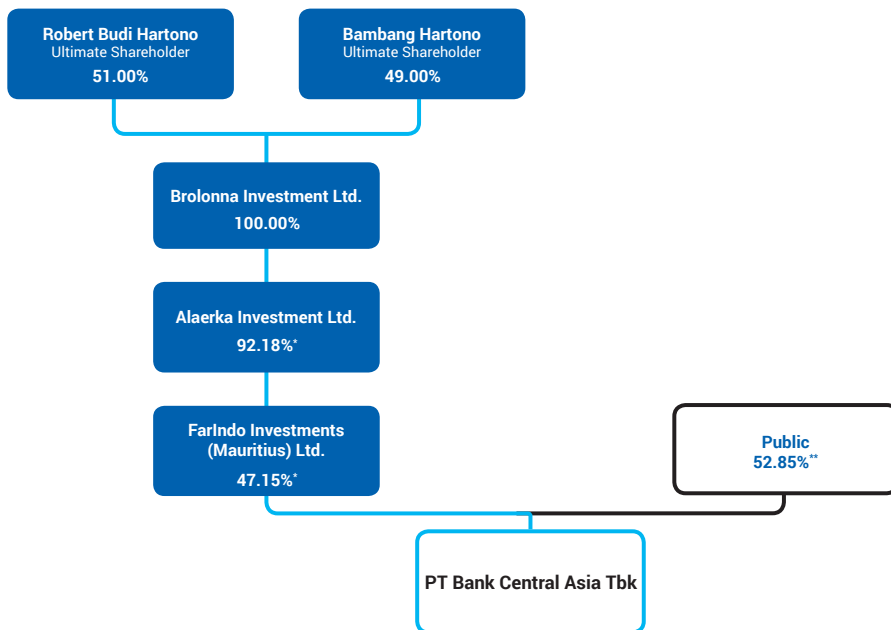

Bases on the analysis on Self assessment towards the Integrated Governance Structure, Integrated Governance process, and the result on Integrated Governance to the respective assessment factor of the Integrated Governance implementation, it can be concluded as follows:

1. Integrated Governance Structure based on the assessment result is completed.
2. Integrated Governance Process based on the assessment result is very effective supported by a complete structure.
3. Integrated Governance Result based on the assessment result is highly qualified which is generated from the aspect of Integrated Governance process which very effective supported by a complete structure.

2. FINANCIAL CONGLOMERATE STRUCTURE OF BCA

3. STRUCTURE OF SHARE OWNERSHIP IN FINANCIAL CONGLOMERATE DESCRIBING THE SHAREHOLDERS IN FINANCIAL SERVICE INSTITUTION (SUBSIDIARIES) IN FINANCIAL CONGLOMERATE UP TO THE ULTIMATE SHAREHOLDERS

5. POLICY OF INTRA-GROUP TRANSACTION CONTAINING THE POLICY TO IDENTIFY, MANAGE AND MITIGATE THE INTRA-GROUP TRANSACTIONS

Introduction

The relation of ownership and/or control in various sectors of financial service will affect the business continuity of financial service institution caused by risk exposures arising out directly or indirectly from subsidiaries' business activities which are incorporated in a financial conglomerate.

BCA as the Primary Entity of the BCA Financial Conglomerate is obliged to manage the risks of intra-group transactions and to carry out monitoring the intra-group transactions in an integrated manner.

Definition of Intra-Group Transaction Risk

Intra-group transaction risk is a risk due to reliance of an entity, either directly or indirectly, towards other entity within one financial conglomerate in order to fulfill its contractual obligation of written or unwritten agreement which is followed with fund transfer and/or not followed with fund transfer.

The Purpose of Intra-Group Transaction Risk Management

The main purposes of intra-group transaction risk management are:

1. To organize and supervise the intra-group transactions of Financial Conglomerate based on prudent principle.
2. To ensure that the risk management process can minimize the possibility of negative impact resulted by dependence of a Financial Service Institution either directly or indirectly towards other LJK within one Financial Conglomerate.

Type of Intra-Group Transaction

Risk of intra-group transaction, among others, may arise from:

1. Cross ownership between LJK and Financial Conglomerate.
2. Centralization of short term liquidity management.

3. Guarantee, loan, and commitment provided or acquired by a LJK from another LJK within Financial Conglomerate.
4. Exposure to the controlling shareholders, including loan exposure and off-balance sheet such as guarantee and commitment.
5. Asset purchase and sale to other LJK within one Financial Conglomerate.
6. Risk transfer through re-insurance.
7. Transaction to assign third party's risk exposure between LJKs within Financial Conglomerate.

Principles of Intra-Group Transaction Risk Management

In principles of intra-group transaction risk management, the Primary Entity is obliged to:

1. Have adequacy in risk management process including the overall intra-group transaction for Financial Conglomerate.
2. Carry out monitoring the intra-group transactions of Financial Conglomerate regularly and to prepare periodic report.
3. Encourage public disclosure related to the intra-group transactions.
4. Act as a liaison for members of Financial Conglomerate in ensuring important matters required to be noted and to act as a supervisor to consider the feasibility of intra-group transactions.
5. Consider adverse impact to be occur to the members of Conglomerate indirectly and to the entire Final Conglomerate from the intra-group transaction.

Scope of Policy of Intra-Group Transaction Risk Management

Implementation of intra-group risk management in Financial Conglomerate covers:

1. Supervision by Board of Commissioners and Board of Directors.
2. Adequacy of policy, procedure, and stipulation on intra-group transaction risk limits.
3. Adequacy on the process of identification, measurement, monitoring, and risk controlling as well as information system of intra-group transaction risk management.

4. A comprehensive internal controlling system towards the implementation of intra-group transaction risk management.

Supervision By Board of Commissioners and Board of Directors

Supervision by Board of Commissioners and Board of Directors is indispensable to ensure the implementation effectiveness of intra-group transaction risk management and conformity to the applicable provisions.

Authority and Responsibility of Board of Commissioners

The authorities and responsibilities of Board of Commissioners in the implementation of intra-group transaction risk management, are:

1. Approving the policy of intra-group transaction risk management.
2. Evaluating the Board of Directors' accountability and providing direction on improvement and implementation of the policy of intra-group transaction risk management.

Authority and Responsibility of Board of Directors

The authorities and responsibilities of Board of Directors in intra-group transaction risk management, are:

1. Comprehending the intra-group transaction risk attached to the financial conglomerate.
2. Preparing and determining the policy on intra-group transaction risk management.
3. Responsible for the implementation of intra-group transaction risk management.
4. Ensuring that each entity in the financial conglomerate implements the intra-group transaction risk management.
5. Monitoring the intra-group transaction risk regularly.
6. Developing risk culture as a part of the implementation of intra-group transaction risk management.
7. Ensuring that the implementation of intra-group transaction risk management is free of any conflict of interest between the financial conglomerate and the individual LJK.

Human Resources

In the framework of the responsibility implementation of HR-related risk management, the Board of Directors is required to ensure:

1. A clear determination of human resource qualification for every position level related to the implementation of intra-group transaction risk management.
2. Placement of competent officers and staff in working unit related to the implementation of intra-group transaction risk management.
3. Adequacy of human resources quantity and quality in understanding duties and responsibilities in the implementation of intra-group transaction risk management.
4. Capacity building of human resources among others through sustainable education and training programs.
5. Comprehension of the entire human resources towards strategies, risk level will be taken (risk appetite), risk tolerance, and risk management framework of the intra-group transactions.

Adequacy on Policy, Procedure, and Determination of Intra-Group Transaction Risk Limit

Policy, procedure, and determination of intra-group transaction risk limit refer to the policy, procedure and limit determination as contained in Basic Policy of Integrated Risk Management.

Risk Appetite and Risk Tolerance

Risk level of the intra-group transaction will be taken (risk appetite) and risk tolerance is described as follows:

1. The risk level of intra-group transaction which will be taken (risk appetite) is the risk available to be taken in order to achieve target in an integrated manner. The risk will be taken is reflected in business strategy and target.
2. Risk tolerance is the maximum risk level available to be taken.
3. The risk level which will be taken (risk appetite) and risk tolerance must be in line with business strategy, risk profile, and capital plan of the financial conglomerate.

Policy and Procedure

Several matters required to be noted in policy and procedure relating to intra-group transaction risk are:

1. The Financial Conglomerate's Policy must comply with the applicable regulations related to the intra-group transactions.
2. The Financial Conglomerate must ensure the fulfillment of arm's length principle (transaction fairness) related to the intra-group transaction.
3. Procedures of the intra-group transaction risk management at least include:
 - 3.1 Accountability and level of a clear authority delegation in the implementation of intra-group transaction risk management.

Risk Limit of Intra-Group Transaction

The Financial Conglomerate must ensure that determination of intra-group risk limit is in accordance with the regulatory provisions applicable.

Adequacy of Identification Process, Measurement, Monitoring, and Risk Control as well Information System of Intra-Group Transaction Risk Management

In the implementation of intra-group transaction risk management, the Primary Entity is obliged to carry out identification process, measurement, monitoring and risk control towards all significant risk factors in an integrated manner, and supported by information system of an adequate intra-group transaction risk management.

Identification of Intra-Group Transaction Risk

The identification of intra-group transaction risk is carried out through:

1. Identification on composition of intra-group transaction in the Financial Conglomerate.
2. Identification on documentation and transaction fairness.
3. Identification on other information.

Measurement of Intra-Group Transaction Risk

The measurement of intra-group transaction risk aims to rank the risk level of intra-group transaction of the financial conglomerate. In addition, the Primary Entity obliges to prepare risk profile of the intra-group transaction which is integrated to the members of the Financial Conglomerate.

The following is the measurements must be carried out to obtain risk profile of an integrated intra-group transaction

Measurement	Description	Measurement Results
Inherent Risk	In determining the inherent risk level, the Primary Entity must make comprehensive analysis using the whole relevant quantitative and qualitative indicators. The indicators include 3 aspects: 1. Composition of the intra-group transaction in the financial conglomerate. 2. Documentation and transaction fairness. 3. Other information.	1. Low 2. Low to Moderate 3. Moderate 4. Moderate to High 5. High
Quality of Risk Management Implementation	Measurement of quality of the integrated risk management implementation includes 4 aspects: 1. Supervision by Board of Commissioners and Board of Directors. 2. Adequacy of policy, procedure, and limit determination of the intra-group transaction. 3. Adequacy of process of identification, measurement, and risk control as well as information system of the intra-group transaction risk management. 4. A comprehensive internal control system towards the implementation of the intra-group transaction risk management.	1. Strong 2. Satisfactory 3. Fair 4. Marginal 5. Unsatisfactory

Risk Level Rating

Risk level rating is a combination of inherent risk measurement and measurement of risk management implementation.

Mapping of risk level rating of the intra-group transaction can be seen in the matrix below:

Assessment Result on Risk Level Rating		Quality Rating of Risk Management Implementation (KPMR)				
		Strong	Satisfactory	Fair	Marginal	Unsatisfactory
Inherent Risk Rating	Low	Low	Low	Low to Moderate	Moderate	Moderate
	Low to moderate	Low	Low to Moderate	Low to Moderate	Moderate	Moderate to High
	Moderate	Low to Moderate	Low to Moderate	Moderate	Moderate to High	Moderate to High
	Moderate to high	Low to Moderate	Moderate	Moderate to High	Moderate to High	High
	High	Moderate	Moderate	Moderate to High	High	High

Note:

Monitoring to The Intra-Group Transaction Risk

Monitoring to the intra-group transaction risk is carried out by taking into account of:

1. Parameters composition of the intra-group transaction risk in the integrated risk profile report.
2. Documentation completeness of the intra-group transaction.
3. Intra-group transaction reasonableness.
4. Other information related to the intra-group transaction.

Control on the Intra-Group Transaction Risk

Control on the intra-group transaction risk is carried out by ensuring:

1. Reasonableness of the intra-group transaction of the Financial Conglomerate.
2. Documentation for each intra-group transaction.
3. Each intra-group transaction must comply with the law/regulatory provisions applicable.

Information System of Intra-Group Transaction Risk Management

The information system of intra-group transaction risk management includes report on the intra-group transaction profile risk which constitutes a part of an integrated risk profile report.

A Comprehensive Internal Control System Towards the Implementation of Intra-Group Transaction Risk Management

The internal control system for intra-group transaction risk refers to the internal control as contained in the Basic Policy of Integrated Risk Management.

Internal Control System

An effective implementation process of intra-group transaction risk management must be equipped with a comprehensive internal control system. An effective implementation of internal control system is expected to be able to maintain the assets of the financial conglomerate, to guarantee the availability of a reliable reporting, to improve compliance to the provisions as well as laws and regulations, and to mitigate the risk of losses, deviation and violation of circumspection aspect.

The implementations of internal control system are as follows:

1. BCA is obliged to implement an effective internal control system on the intra-group transaction risk by referring to the policy and procedures have been set out.
2. The internal control system is prepared in order to ensure:
 - 2.1. The compliance to policy and internal terms as well as laws and regulations.
 - 2.2. The risk culture effectiveness in the Financial Conglomerate organization comprehensively to identify weakness and deviation early and to re-assess reasonableness of the policy and procedures available in the financial conglomerate in an ongoing basis.
3. Review towards measurement of the intra-group transaction risk, at least includes:
 - 3.1. Policy conformity, organization structure, resources allocation, process design of the intra-group transaction risk management, information system, and risk reporting in accordance with business requirements of the financial conglomerate, as well as development of regulation and best practice related to the intra-group transaction risk management.
 - 3.2. A complete and adequate documentation towards the coverage, operational procedure, audit findings, as well as the responds of the financial conglomerate management based on the audit results.

The full Annual Report on the Implementation of Integrated Governance of BCA Financial Conglomerate is made separately which constitutes an integral part of this Annual Report, and contained in BCA website.

GENERAL MEETING OF SHAREHOLDERS

1. General Meeting of Shareholders

The General Meeting of Shareholders (GMS) is the highest company organ, having a function as a forum for the shareholders to make decisions related to the Company. In the GMS, shareholders exercise their rights, express their opinions, and use their votes in the decision making process.

The GMS possesses exclusive authority not granted to the Board of Directors and the Board of Commissioners as stipulated in the Company's Articles of Association and the applicable regulations.

2. 2015 Annual and Extraordinary General Meeting of Shareholders Procedure

The procedure of BCA's 2015 Annual and Extraordinary General Meeting of Shareholders was as follows:

1. As a public company, in accordance with Financial Service Authority Regulation No.32/POJK.04/2014 dated 8 December 2014 on Plan and Implementation of the General Meeting of Shareholders of Public Company. BCA delivered the agenda of the 2015 Annual and Extraordinary GMS in a clear and detailed manner to the Financial Services Authority not later than 5 (five) working days prior to the notification, as referred to in the letter No.018/CRS/2015 dated 23 February 2015.
2. Before conducting the 2015 Annual and Extraordinary GMS notification, BCA conveyed that the Annual GMS announcement would be conducted, 14 (fourteen) days prior to the 2015 Annual and Extraordinary GMS notification, excluding the date of announcement and the date of the 2015 Annual and Extraordinary GMS notification. The 2015 Annual and Extraordinary GMS announcement was published in *Bisnis Indonesia*, *Suara Pembaruan* and *The Jakarta Post* daily newspapers, all on 3 March 2015.
3. The 2015 Annual and Extraordinary GMS notification was conducted by advertising in newspapers 21 (twenty one) days prior to the date of the 2015 Annual and Extraordinary GMS, excluding the date of the notification and the date of the Annual GMS. The 2015 Annual and Extraordinary GMS notification was published in *Bisnis Indonesia*, *Suara Pembaruan* and *The Jakarta Post* newspapers, all dated 18 March 2015.
4. Entitled to attend and vote in the 2015 Annual and Extraordinary GMS are shareholders whose names are recorded in the Register of Shareholders, which was closed on the last

working day of the Indonesia Stock Exchange before the advertised 2014 Annual and Extraordinary GMS notification.

5. Each share issued has 1 one (one) voting right unless the Articles of Association of BCA state otherwise.
6. After holding the GMS, BCA conveyed the results of the 2015 Annual and Extraordinary GMS 2 (two) business days after the 2015 Annual and Extraordinary GMS to the Financial Services Authority and the Indonesia Stock Exchange, and announced it to the public in *Bisnis Indonesia*, *Suara Pembaruan* and *The Jakarta Post* daily newspapers, all dated 13 April 2015.

3. Implementation of the 2015 Annual and Extraordinary GMS

In 2015, BCA held the Annual and Extraordinary GMS on 9 April 2015 at the Grand Ballroom, Hotel

Indonesia Kempinski 11th, Jalan MH. Thamrin No. 1, Jakarta 10310.

The materials and agenda (including explanation of each agenda item) discussed in the Annual and Extraordinary GMS was available from the Corporate Secretary – BCA Head Office, and had been uploaded in the BCA website on the same date as the 2015 Annual and Extraordinary GMS Notification.

4. Attendance of Management and Shareholders

The 2015 Annual and Extraordinary GMS was attended by the President Commissioner and members of the Board of Commissioners, President Director, Vice President Director, and all members of the Board of Directors, the Chairmen and members of Committees under the Board of Commissioners (Audit Committee, Remuneration & Nomination Committee and Risk Oversight Committee) as well as the shareholders or their proxies.

All members of the Board of Commissioners and Board of Directors of BCA were present in the 2015 Annual and Extraordinary GMS, as stated below:

Board of Commissioners

Name	Position
Djohan Emir Setijoso	President Commissioner
Tonny Kusnadi	Commissioner

The number of shares with voting rights represented at the 2015 Annual GMS was 21,601,309,793 shares or 87.614% of the total shares issued and paid up by the shareholders; therefore, the quorum provisions as stipulated in Article 23, paragraph 1 (a) of BCA's Articles of Association were met.

The Extraordinary GMS was attended by shareholders representing 21,627,119,036 shares or 87.719% of the total BCA Issued shares with valid voting rights.

5. Chairman of the 2015 Annual and Extraordinary GMS

The 2015 Annual and Extraordinary GMS was chaired by Ir. Djohan Emir Setijoso as President Commissioner, in accordance with Article 22, paragraph 1 of BCA's Articles of Association.

6. Agenda of the Annual GMS

- **Agenda of the 2015 Annual GMS**
- 1. Approval of the Annual Report, including the Financial Statements of BCA and the Reports of the Supervisory Duties of the Board of Commissioners of BCA for the fiscal year ended on 31 December 2014 and to provide liability release and discharge (acquit et decharge) to members of the Board of Directors and Board of Commissioners of BCA for the actions of management and supervision conducted in the financial year ended on 31 December 2014;
- 2. Determination of the utilization of BCA's profit for the financial year ended on 31 December 2014;
- 3. Determination of salary or honorarium and other allowances for the members of the Board of Directors and Board of Commissioners;
- 4. Appointment of Registered Public Accountant to examine BCA books for the financial year ended 31 December 2015;
- 5. Giving power and authority to the Directors to pay an interim dividend for the financial year ended 31 December 2015.

- **Agenda of the 2015 Extraordinary GMS**

Approval on the Amendment and Restatement of BCA's Articles of Associations.

7. Mechanism of Vote Calculation in the 2015 Annual and Extraordinary GMS

Each shareholder or proxy of the shareholder has a right to ask and/or present opinions to the Chairman of the Annual and Extraordinary GMS before a vote is held for each Annual GMS agenda.

In any discussion of the agenda of the Annual and Extraordinary GMS, the Chairman of Annual GMS provides an opportunity for the shareholders or the proxies of the shareholders to ask questions before a vote is held.

Based on Article 23 clause 8 of BCA's Articles of Associations, any decisions concerning the submitted proposals in every AGM agenda item will be made through deliberation. If no agreement is reached, the decision will be taken by voting.

Based on Article 23 clause 6 of BCA's Articles of Associations, voting on every proposal submitted in each Annual GMS will be conducted orally using pooling method, wherein the shareholders or proxies who do not agree or provide abstention will raise their hands to submit the ballot papers. The ballot papers are counted by PT Raya Saham Registra as BCA's Share Registrar and further be verified by a Notary as an independent party, in accordance with the Order of the 2015 Annual and Extraordinary GMS.

THE BOARD OF COMMISSIONERS

The Board of Commissioners is the organ of the Company that has the primary duty to provide advice and oversee the policies of the Board of Directors in running the Company. The Board of Commissioners also has the duty of ensuring the implementation of GCG (good corporate governance) principles in every business activity conducted by BCA at all the levels of the organization.

The Board of Commissioners conducts their duties and responsibilities independently.

1. Legal Reference

- Law Number 40 Year 2007 regarding Limited Liability Companies.
- Financial Services Authority Regulation Number 33/POJK.04/2014 concerning the Board of Directors and Commissioners of Issuers or Public Companies.
- Bank Indonesia Regulation No.8/4/PBI/2006 dated 30 January 2006 concerning the Implementation of Good Corporate Governance For Commercial Bank as amended with Bank Indonesia Regulation No.8/14/PBI/2006 dated 5 October 2006.

- Bank Indonesia Circular Letter No.15/15/DPNP dated 29 April 2013 concerning the Implementation of Good Corporate Governance For Commercial Banks.
- Regulation of Financial Service Authority No. 18/POJK.03/2014 dated 18 November 2014 regarding Implementation of Integrated Governance for Financial Conglomerate.
- Financial Service Authority Circular Letter No.15/SEOJK.03/2015 dated 25 May 2015 on The Implementation of Good Corporate Governance for Financial Groups.

2. Charter of the Board of Commissioners

The Board of Commissioners operates under a Code of Conduct (Board of Commissioners Charter) which covers:

- Composition and criteria of members of the Board of Commissioners;
- Independent Commissioners;
- Tenure of members of the Board of Commissioners;
- Dual positions of members of the Board of Commissioners;
- Obligations, Duties, Responsibilities and Authorities of the Board of Commissioners;
- Transparency and prohibitions for the Members of Board of Commissioners;
- Orientation Program and training of members of the Board of Commissioners;
- Ethics and working hours of Board of Commissioners;
- Meetings of the Board of Commissioners.

The Board of Commissioners Charter is published in the GCG BCA Manual and can be viewed on BCA's website (www.bca.co.id) under Good Corporate Governance.

3. Duties and Responsibilities of the Board of Commissioners

The duties and responsibilities of the Board of Commissioners are as follows:

1. To supervise the management policies of BCA and the running of the management and to provide advice to the Board of Directors. The supervision by the Board of Commissioners is in the in-terest of BCA and accordance with

the purposes and objectives as stated in BCA's Articles of Associations.

2. To ensure the implementation of GCG principles in all BCA's business activities at all levels of the organization.
3. To direct, monitor, and evaluate the implementation of BCA's strategic policies.
4. To ensure that the Board of Directors has taken follow-up actions on audit findings and heeded recommendations of the Internal Audit Division, External Auditor, monitoring reports of the authorities including but not limited to the Financial Services Authority, Bank Indonesia, and/or the Indonesian Stock Exchange.
5. To inform Bank Indonesia/Financial Services Authority no later than 7 (seven) working days of discovering violations of the laws and regulations in the field of finance and banking, and a state or an indication of a state which may harm the business continuity of BCA.
6. To establish the:
 - a. Audit Committee;
 - b. Risk Oversight Committee; and
 - c. Remuneration and Nomination Committee;
 - d. Integrated Governance Committee.
7. To ensure that the Committees formed by the Board of Commissioners perform their duties effectively.
8. To provide sufficient time to perform their duties and responsibilities in an optimal manner.
9. To organize periodic Board of Commissioners meetings, no less than 1 (one) times in 2 month. All members of the Board of Commissioners will attend the Board of Commissioners Meeting physically at least 2 (two) times in one year.
10. To prepare the minutes of the Board of Commissioners meetings, signed by all members of the Board of Commissioners attending the Board of Commissioners meeting.
11. To distribute a copy of the minutes of Board of Commissioners meetings to all members of the Board of Commissioners and related parties.
12. To convene joint meeting of Board of Directors periodically at least 1 (one) time within 4 (four) months:
13. To submit a report on the monitoring tasks that have been carried out during the financial year prior to the Annual GMS.

4. Authorities of the Board of Commissioners

The Board of Commissioners, among other tasks, is authorized:

1. To enter buildings or other places used or controlled by BCA.
2. To inspect all books, correspondence and other data.
3. To request explanation from the Board of Directors regarding any aspect of BCA.
4. Temporarily dismiss one or more members of the Board of Directors in the event the member of the Board of Directors' action contradicts the Articles of Association of BCA, is detrimental to BCA, is malpractice and/or violates the applicable laws and regulations.
5. To evaluate and decide on requests of the Board of Directors relating to transactions that require the approval of the Board of Commissioners in accordance with the Articles of Association of BCA, among others:
 - a. Lending money or providing credit or other banking facilities that resemble or result in loans:
 - i. To related parties as stipulated in Bank Indonesia regulations concerning Lending Limit of Commercial Banks;
 - ii. That exceed a certain amount which from time to time will be determined by the Board of Commissioners;
 - b. Providing guarantees or underwriting debt (*borgtocht*):

 - ii. To guarantee the obligations of other parties for the amount that exceeds a certain amount which from time to time will be determined by the Board of Commissioners;
 - c. Purchasing, or otherwise acquiring immovable property, except in order to implement what is established in point (q) paragraph 2 Article 3 of the Articles of Associations of BCA, namely in performing activities commonly conducted by a bank as long as not contrary to the prevailing laws and regulations, including, among other measures for restructuring or rescuing loans including collateral purchase, either all or in part, by auction or otherwise, in the event the debtor does not fulfill its obligations to the bank, with the provision that the collateral purchased shall be disbursed;
 - d. Establishing a new company, conducting or releasing or reducing or increasing its equity capital, except:
 - i. Increase in capital from stock dividends of BCA, or;
 - ii. Equity in order to rescue credit; by constantly taking into account the prevailing laws;
 - e. Borrowing money that is not included in point (a) paragraph 2 Article 3 of the Articles of Associations of BCA, namely collecting funds from the public through savings in the form of demand deposits, time deposits, certificates of deposit, savings and/or other equivalent forms;
 - f. Transferring or releasing BCA's right to collect amounts written off, either in part or in whole, the amount to be determined from time to time by the Board of Commissioners;
 - g. Selling or otherwise transferring or disposing or pledging/offering, property of BCA which is worth less than or equal to ½ (one half) of the total net assets of BCA as listed on the balance sheet of BCA, both in 1 (one) transaction or in multiple transactions which stand alone or are related to each other in one (1) fiscal year;
 - h. Taking legal actions or transactions that are strategic and can have a significant impact on the continuity of BCA's business, the type of legal action or transaction from time to time to be determined by the Board of Commissioners.

In carrying out their duties, responsibilities and authorities, the Board of Commissioners shall consider BCA's Articles of Association, the Board of Commissioners Charter, and prevailing legislation.

5. The Board of Commissioner Membership Number, Composition and Criteria

As of 31 December 2015, the Board of Commissioners of BCA consisted of 5 (five) members, comprising 1 (one) President Commissioner, 1 (one) Commissioner, and 3 (three) Independent Commissioners. The number of members of the Board of Commissioners does not exceed the number of members in the Board of Directors. The number of Independent Commissioners is 60% of the total number of members of the Board of Commissioners.

All BCA Commissioners have passed the Fit and Proper Test and have obtained approval letters from Bank Indonesia and are domiciled in Indonesia.

The term of office of members of the Board of Commissioners is 5 (five) years. The term of office of Commissioners for the current period will expire at the conclusion of the 2016 BCA Annual GMS, without prejudice to the authority of the General Meeting of Shareholders to dismiss one or more Commissioners at any time before the term ends.

The general criteria in the selection of members of the Board of Commissioners, among others are to:

1. Meet the requirements as referred to in Financial Services Authority Regulation No.33/POJK.04/2014 dated 8 December 2014 concerning the Board of Directors and Board of Commissioners of Issuers or Public Companies, as follows:
 - a. Having good character, morals, and integrity;
 - b. Capable of performing legal actions;
 - c. Within 5 (five) years before appointment and when in charge of the position:

- (1) Not been declared bankrupt;
- (2) Not a member of Board of Directors and/or Commissioners that was found guilty in causing a company to become bankrupt;
- (3) Not having been convicted of any criminal offense that is detrimental to a country's or financial sector's financial position; and
- (4) Not a member of the Board of Directors and/or Commissioners which during the terms of office:
 - (a) Did not hold an AGMS;
 - (b) His/her accountability as a member of the Board of Directors and/or Commissioners was not accepted by the GMS or he/she did not submit his/her accountability as a member of the Board of Directors and/or Commissioners to the GMS; and
 - (c) Had caused a company that obtained license, approval, or registration from the Financial Services Authority in not complying with its obligation to submit the annual report and/or financial report to the Financial Services Authority.
- d. Has a commitment to comply with the law and regulations; and;
- e. Possesses knowledge and skill in the area required by the company.

2. Meet the integrity, competence, and financial reputation requirements as referred to the Bank Indonesia Regulation No.12/23/PBI/2010 dated 29 December 2010 concerning Fit and Proper Test, as follows:

- a. Integrity requirements:

13. Implementation of Duties of the Board of Commissioners

One of duties and responsibilities of the Board of Commissioners is to provide suggestions to Board of Directors in accordance with the Company's aims and objectives. Given the increasing competitiveness in the Indonesian banking industry and to anticipate competitiveness from regional banks in response to the beginning of the ASEAN Economic Community, the Board of Commissioners has suggested the need for and benefits of sustaining and expanding BCA's talent-pool strengthening, infrastructure enhancement and efficiency improvement as part of a balanced and prudent business strategy and good implementation of risk management.

In regard to this matter, the following details were provided by Board of Commissioners to the Board of Directors within 2015:

1. Relating to Business Management in general:

- a. Developing strategies which are focused and effective in order to maintain the excellence of BCA in terms of Current Account, and Saving Account (CASA).

- b. Developing on products and services continuously to respond development of digital banking and its customers' evolving needs.
- c. Striving for quality credit growth and improving synergy with subsidiaries.
- d. Improving efficiency and control on the operational cost.
- e. Adjusting the recruitment strategy to obtain human resources that is reliable and competent, as well as improving the human resources quality through appropriate trainings.

2. Relating to Risk Management:**a. Credit Risk**

In the condition of fluctuating rupiah and the commodity price which is kept depressed, Board of Directors should pay special attention to debtors who have foreign exchange in large amount or whose scope of businesses are affected due to the decline in commodity prices.

b. Liquidity Risk

Liquidity risk remains a major challenge for banking industry. In that regard, a good crisis management protocol is required so that all parties' the duties and responsibilities in each phase/contingency level becomes clear.

c. Operational Risk

Operational processes with a high risk of human error should be evaluated and mitigated by utilizing facilities already existing within systems.

d. Reputation Risk

- By the increasing risk of cyber crime, the security factor of internet & mobile banking is very important and accordingly, education and risk socialization to customers as the service users are required to be improved.
- By the growing of wealth management business, the impact of reputational risk that may occur, require attention.

e. Strategic Risk

In any condition of heightened uncertainty, BCA needs to also heighten diligence in identifying and mitigating risk.

3. Relating to Audit and Compliance

- Regulatory compliance is the responsibility of all working units and is carried out starting from the front liner up to the bank office.
- Improve the quality of internal control by adding aspect of IT general control review in the coverage of routine operational audit to branches.

14. The Board of Commissioners Performance Assessment

Board of Commissioners performance assessment is carried out once every year, by using performance appraisal indicators outlined below:

1. Contribution and support of the Board of Commissioners to implement the vision and mission of BCA in the current year's work program, by continuously adhering to the values of BCA.
2. Monitoring for the implementation of Good Corporate Governance.

The annual performance assessment of members of the Board of Commissioners is carried out by the Controlling Shareholders.

15. Procedure of Determining the Remuneration for the Board of Commissioners

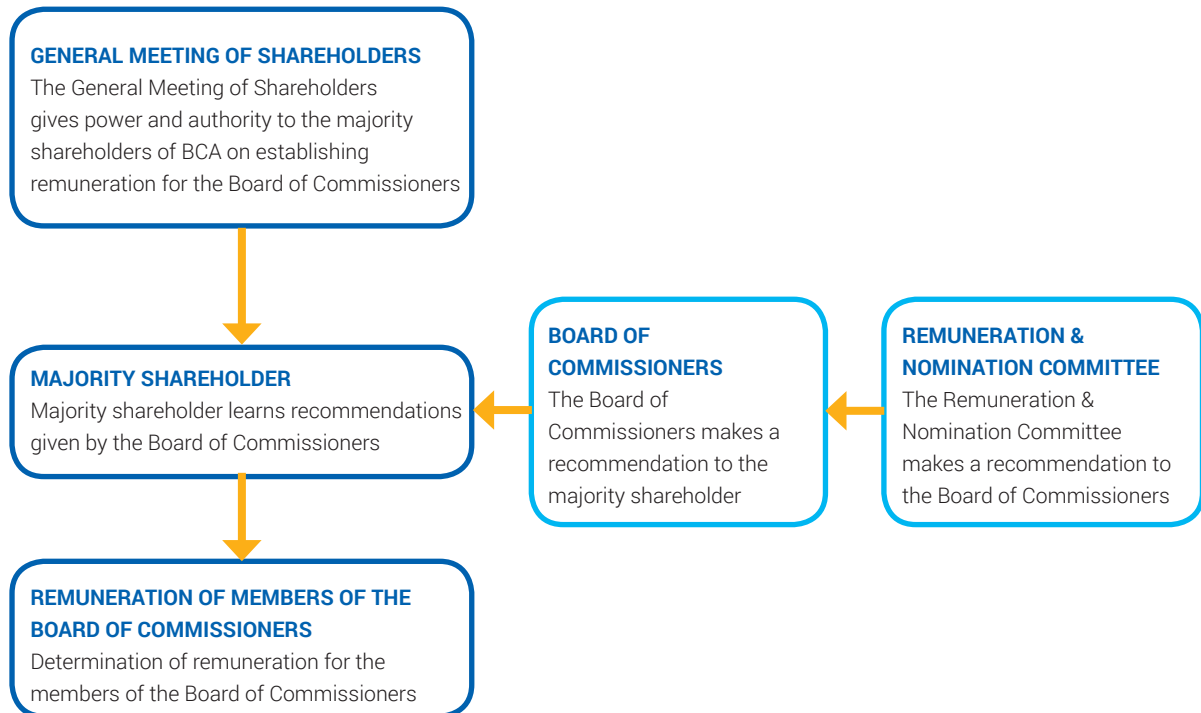

Based on the decision of the 2014 Annual GMS, the GMS has granted power and authority to the Controlling Shareholders to:

- (i) determine the amount of honorarium and other benefits to the members of the Board of Commissioners;
- (ii) determine the distribution of bonus among the members of the Boards of Commissioners and Directors of BCA.

In exercising the power and authority, the Controlling Shareholders would take into consideration the recommendations of the Board of Commissioners, in which the Board of Commissioners will take into account the recommendation of the Remuneration and Nomination Committee.

Determination Procedure Scheme of Remuneration of the Board of Commissioners

16. The Remuneration Structure of the Board of Commissioners

The Remuneration Structure showing the components of remuneration and the nominal amount per component for all Commissioners in 2015 is as follows:

Type of Remuneration and Other Facilities	Amount Received in 1 Year	
	BOARD OF COMMISSIONERS	
	Persons	In Million Rupiah
1. Remuneration (salary, bonus, routine allowance, tantiem and other non-natura facilities)	5	82.722
2. Other natura facilities:		
a. Business Remuneration Travel Allowance	3	73
b. Health Benefits	5	2.067
c. Health & Golf Club Memberships	1	34
d. Option of purchasing service vehicles at the end of Leasing period	5	707
3. Benefit retirement (owned at the end of term)	-	-
Total		85.603

The amount of remuneration received in cash during 2015 for each Commissioner for 1 (one) year is in excess of Rp 2 billion.

17. Orientation Programs for New Members of the Board of Commissioners

An orientation program is organized for new members of the Board of Commissioners, in order to assure that the new members are prepared as thoroughly as possible to carry out their relevant duties and responsibilities as a member of the Board of Commissioners.

The orientation program includes:

1. Information regarding BCA such as the vision, mission, strategy and medium and long term plans, performance, as well as finances of BCA.
2. Details of the duties and responsibilities as a member of the Board of Commissioners such as limits of authority, working time, the relationship with the Board of Directors, rules and regulations, and others.

Members of the Board of Commissioners who are participating in the orientation can:

- a. Request presentations to obtain explanation of various aspects deemed necessary, involving the management under it.
- b. Organize meetings with the Board of Directors to discuss issues in BCA or other information deemed necessary.
- c. Conduct visits to various BCA business locations with members of the Board of Directors/ Management.

Notes :

1. Alternate Director reports to the respective (functional) Director all actions/decisions made during the period of acting in place of the Director.

2. The management of Subsidiary Companies is set as follows:

¹⁾ To perform the overall monitoring and alignment of the management of Subsidiary Companies.

²⁾ To monitor the business progress of Subsidiary Companies.

³⁾ To perform the risk monitoring of Subsidiary Companies in order to have an integrated risk management.

⁴⁾ To perform the monitoring of internal audit/risk management/compliance function at Subsidiary Companies in order to implement integrated corporate governance and risk management.

Implementation of the above functions shall always consider the principles in Limited Liability Companies, wherein the Subsidiary Company is an independent/separated legal entity.

The Board of Directors and/or Commissioners of Subsidiary Companies are responsible to the GMS of the Subsidiary Company.

The Parent Company as shareholder carries out its authorities and functions through the GMS held by the Subsidiary Company.

3. ^{#)} The Regional and Branch Support Director is responsible for daily implementation, development and monitoring. The Head of Regional Office is responsible to the Board of Directors.

6. Number, Composition, and Criteria of Members of the Board of Directors

As of 31 December 2015, there were 10 (ten) members of the Board of Directors of BCA, comprising of 1 (one) President Director, 1 (one) Deputy President Director, 1 (one) Compliance Director, 1 (one) Independent Director, and 6 (six) Directors. 1 (one) member of the Board of Directors also serves as the Compliance Director. The President Director is an independent party to the controlling shareholders.

All Directors have passed the Fit and Proper Test and have acquired Approval Letters of Bank Indonesia/Indonesia Financial Services Authority. All Directors reside in Indonesia.

The term of office of Directors is 5 (five) years. The current period will expire at the conclusion of the 2016 BCA Annual GMS, without prejudice to the authority of the General Meeting of Shareholders to dismiss one or more Director at any time before the term ends.

The general criteria in the selection of Directors are, among others, to:

1. Comply with the requirement as referred to in Regulation of Financial Service Authority No.33/POJK.04/2014 dated 8 December 2014 regarding Board of Directors and Board of Commissioners of Issuer or Public Company, namely:
 - a. Having good character, morals, and integrity;
 - b. Capable of performing legal actions;
 - c. Within 5 (five) years before appointment and when in charge of the position:
 - i. Not been declared bankrupt;
 - ii. Not a member of Board of Directors and/or Commissioners that was found guilty in causing a company to become bankrupt;
 - iii. Not having been convicted of any criminal offense that is detrimental to a country's or financial sector's financial position; and
2. Complies with the requirements of integrity, competency, and financial reputation as referred to in Regulation of Bank Indonesia No.12/23/PBI/2010 dated 29 December 2010 regarding Fit and Proper Test, namely:
 - a. Integrity requirements include:
 - i. Has good character and morals among others shown by the attitude to adhere the regulatory requirement, including never been convicted a specific crime within the last 20 (twenty) prior to nomination;
 - ii. Committed to comply with the applicable laws and regulations;
 - iii. Committed to the development of health Bank operations;
 - iv. not included in the Disqualified List (DTL);
 - b. Has a commitment to comply with the law and regulations;
 - c. Possesses knowledge and skill in the area required by the company.
3. Not a member of the Board of Directors and/or Commissioners which during the terms of office:
 - a. Did not hold an AGMS;
 - b. His/her accountability as a member of the Board of Directors and/or Commissioners was not accepted by the GMS or he/she did not submit his/her accountability as a member of the Board of Directors and/or Commissioners to the GMS; and
 - c. Had caused a company that obtained license, approval, or registration from the Financial Services Authority in not complying with its obligation to submit the annual report and/or financial report to the Financial Services Authority.
4. Has a commitment to comply with the law and regulations;
5. Possesses knowledge and skill in the area required by the company.

- v. committed not to conduct and/or to repeat offenses and/or actions as referred to in Article 27 and Article 28, for candidates of Board of Directors who once had Disqualified predicate in a fit and proper test and have been undergoing a period of sanction as referred to in Article 35 paragraph (1), Article 40 paragraph (4) letter a and Article 40 paragraph (5) of Regulation of Bank Indonesia as mentioned here in above.
- b. Competency requirements include:
 - i. knowledge in banking sector which is adequate and relevant to the position;
 - ii. experience and expertise in banking sector and/or finance;
 - iii. capability to perform strategic management in the framework of development of health Bank.
- c. Requirements of finance reputation include:
 - i. has no bad credit; and
 - ii. never been stated bankrupt or to Board of Commissioners who convicted to cause a company to be declared bankrupt, within the last 5 (five) years prior to the nomination.

7. Composition of BCA's Board of Directors as of 31 December 2015

Based on the Deed of Minutes of the Annual General Meeting of Shareholders of PT Bank Central Asia Tbk No.80 dated 14 August 2014, composition of membership of the Board of Directors of BCA is as follows:

Position	Name
President Director	Jahja Setiaatmadja
Deputy President Director	Eugene Keith Galbraith
Director	Dhalia Mansor Ariotedjo
Director	Anthony Brent Elam
Director	Suwignyo Budiman
Director (concurrently as Compliance Director)	Tan Ho Hien/Subur atau Subur Tan
Director	Henry Koenafi
Director	Armand Wahyudi Hartono
Independent Director	Erwan Yuris Ang
Director	Rudy Susanto

Profiles of members of the Board of Directors of BCA are presented at the Company Profile section, page 560 - 563 of this Annual Report.

8. Diversity in the Composition of Members of the Board of Directors

The composition of members of the Board of Commissioners of BCA reflects the diversity of its members, both in terms of education, working experience, age, gender, and expertise. Each members of Board of Directors holds a high degree of competence in favour of increasing the performance of the Company.

9. Nomination of Members of the Board of Directors

The Remuneration and Nomination Committee (KRN) recommends candidates for members of the Board of Directors to the Board of Commissioners. After considering this recommendation, the Board of Commissioners proposes the Director candidate(s) for appointment at the GMS. The GMS appoints the candidate as member(s) of the Board of Directors by considering the recommendation from the Board of Commissioners.

10. The Board of Directors Statement of Independence

The majority of members of the Board of Directors of BCA have no financial, management, stock ownership or family relationships with members of the Board of Commissioners, fellow members of the Board of Directors and/ or Controlling Shareholders or relationship with BCA that may affect their ability to act independently.

December	22	

14. The Board of Directors Performance Assessment

The Board of Directors performance assessment is carried out once every year. Performance appraisal of Directors is performed by carrying out self-assessment and review by the President Commissioner/Board of Commissioners.

In general, the basis of assessment of the members of the Board of Directors is as follows:

1. The performance of the Board of Directors in implementing the vision and mission of BCA in the work program of the current year, by adhering to the values of BCA.
2. The GCG implementation.

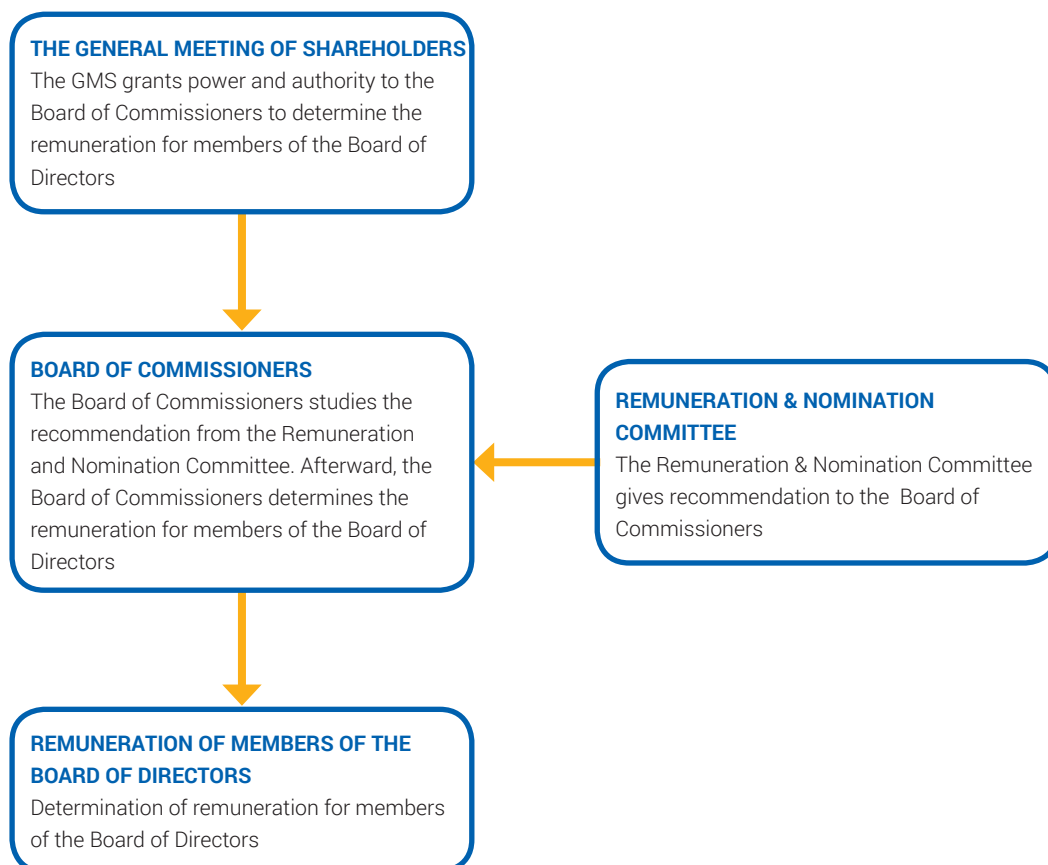

15. Procedure of Determining the Remuneration of the Board of Directors

Based on the decision of the 2015 Annual GMS, the GMS has granted the power and authority to:

- (i) The Board of Commissioners to determine the amount of salary and other benefits for members of the Board of Directors;
- (ii) The controlling shareholders to determine the distribution of tantiem for Commissioners and Directors.

In exercising its power and authority, the Board of Commissioners will consider the recommendation of the Remuneration and Nomination Committee.

Determination Procedure Scheme of Remuneration of the Board of Directors

16. Remuneration Structure of the Board of Directors

The Remuneration Structure showing the remuneration components and nominal value for each component for all members of the Board of Directors in 2015 is as follows:

Type of Remuneration and Other Facilities	Amount Received in 1 Year	
	BOARD OF DIRECTORS	
	Persons	In Million Rupiah
1. Remuneration (salary, bonus, routine allowances, tantiem, and other non-natura facilities)	10	293.210
2. Other natura facilities:		
a. Business Travel Allowance	10	659
b. Health Benefits	9	1.807
c. Health Club Membership	6	283 + USD 5.500
d. Option to buy service vehicle at the end of leasing period	10	1.979
3. Benefit retirement (owned at the end of the duty)	-	-
Total		297.938 + USD 5.500

The amount of remuneration for each member of the Board of Directors in 1 (one) year is above Rp 2 Billion, received in cash throughout 2015.

Indicators for Implementing the Remuneration of the Board of Directors

The indicators for implementing the remuneration of the Board of Directors are as follows:

- a. Individual performance of each Director.
- b. Financial performance and fulfillment of reserve fund as stated in Limited Liability Company Law.
- c. Fairness with peer group. Equality of position within BCA organization and with other similar banks in terms of assets and characteristics.
- d. Consideration of BCA's long term goals and strategies.

17. Training Programs for New Members of the Board of Directors

An orientation program is organized for new members of the Board of Directors in order to help them in carrying out the relevant duties and responsibilities as a Director as well as possible.

The orientation program includes:

1. Information regarding BCA such as the vision, mission, medium and long term strategy and plans, performance, as well as financial aspects;
2. Understanding the duties and responsibilities as a member of the Board of Directors, limits of authority, working time, relationship with the Board of Commissioners, rules and regulations, etc.

Directors who are participating in the orientation may do the following:

- a. Request presentations to obtain explanation of various aspects deemed necessary, by involving the management under it.
- b. Organize meetings with fellow Directors and with Commissioners to discuss various issues in BCA or other information deemed necessary.
- c. Conduct visits to several business locations/branches of BCA with fellow Directors or Management.

18. Training Programs to Enhance the Competence of Members of the Board of Directors

Directors shall attend at least 1 (one) training program in a year to help them in carrying out their duties and responsibilities. Training programs attended by Directors in 2015 are as follows:

COMMITTEES UNDER THE BOARD OF COMMISSIONERS

THE AUDIT COMMITTEE

1. Main Duties

The Audit Committee was formed by, and is responsible to, the Board of Commissioners with the purpose of assisting the Board of Commissioners to support the effectiveness of implementation of the oversight/supervision duties and functions on matters related to financial reporting, internal control systems, the implementation of internal and external audits, implementation of good corporate governance (GCG), and compliance with applicable laws and regulations.

2. Legal Reference

The formation of Audit Committee refers to:

- Decision of Chairman of Bapepam-LK No. Kep-643/BL/2012 dated 7 December 2012 and Attachment of Regulation No. IX.1.5 concerning Establishment and Work Guidelines of Audit Committee.
- Bank Indonesia Regulation No.8/14/PBI/2006 dated 5 October 2006 as a substitute of Bank Indonesia Regulation No.8/4/PBI/2006 concerning Good Corporate Governance Implementation in Commercial Bank.
- Bank Indonesia Circular Letter No.15/15/DPNP dated 29 April 2013 concerning Good Corporate Governance Implementation in Commercial Bank.
- Articles of Association of PT. Bank Central Asia, Tbk No.171 dated 23 April 2015 concerning Duties and Authorities of the Board of Commissioners.

3. Charter of Audit Committee

BCA's Audit Committee Charter and Code of Conduct have been adapted to adhere with the Bapepam-LK Regulation No.IX.1.5 on Establishment and Work Guidelines of Audit Committee mentioned above. The matters listed below fall under the scope of the Guidelines and Code of Conduct of the Audit Committee:

- Duties and Responsibilities;
- Authorities;
- Structure and Membership;
- Membership requirements;
- Term of Office;
- Work Mechanism;
- Work Hours;
- Meetings;
- Mechanism of Decision Making in Meeting;
- Minutes of Meeting;
- Reporting;
- The handling of complaints/reports regarding claims about infractions in financial reports.

The Audit Committee Charter and Code of Conduct have been uploaded to the BCA website (www.bca.co.id) under Good Corporate Governance.

4. Duties and Responsibilities of the Audit Committee

In carrying out its function, the Audit Committee has the following duties and responsibilities:

1. Monitoring and evaluating the planning and implementation of audits as well as monitoring the follow-up actions of audit findings in order to assess the adequacy of internal controls including the adequacy of the financial reporting process.
2. In order to carry out the above-stated duties and to provide recommendations to the Board of Commissioners, the Audit Committee conducts monitoring and evaluation on:
 - a. The implementation of tasks by the Internal Audit Division (DAI).
 - b. The compliance of audit implementation by the Public Accountant Office to the prevailing auditing standards.
 - c. The compliance of Financial Statements with the prevailing accounting standards.
 - d. Providing independent opinion in the event of disagreements between the management and the Public Accounting Office for services rendered.
 - e. The follow-up implementation by the Board of Directors on the findings of DAI, Public Accountants and Financial Services Authority (OJK) supervision results.

3. Reviewing other financial information that will be issued by BCA to the public and/ or documents such as projections, and other reports relating to the financial information of BCA.
4. Reviewing the compliance of BCA with laws and regulations in the field of banking, Capital Markets, and other legislation and provisions relating to the business activities of BCA.
5. Providing recommendations to the Board of Commissioners on the appointment of a Public Accounting Office, based on independency, scope of the assignment, and fee to be submitted to the General Meeting of Shareholders.
6. Reviewing and reporting to the Board of Commissioners regarding complaints in relation to accounting and financial reporting processes of BCA.
7. Reviewing and providing advice to the Board of Commissioners in relation to potential conflict of interest at BCA.
8. Reviewing and monitoring of the implementation of effective and sustainable GCG.
9. Performing other tasks relevant to the functions of the Audit Committee at the request of the Board of Commissioners.

5. Authority of the Audit Committee

In performing its duties, the Audit Committee has the authority to carry out the following actions:

- a. To access documents, data, and information regarding employees, funds, assets, and BCA's resources;
- b. To communicate with employees, Management and parties executing internal audit functions, risk management, and Public Accountants regarding the duties and responsibilities of the Audit Committee;
- c. If needed, to involve independent parties outside the members of the Audit Committee whose services are required in order to assist the Committee in carrying out its duties;
- d. Other actions with authority granted by the Board of Commissioners.

6. Membership of the Audit Committee

The Audit Committee of BCA comprises of 3 (three) members, consisting of a Chairman who is also an Independent Commissioner and 2 (two) Committee members who are Independent Parties.

One independent party is an expert in finance/ accounting and the other independent party is an expert in the field of banking.

7. Membership Composition of the Audit Committee as of 31 December 2015

Name	Position
Cyrellus Harinowo ^{*)}	Chairman (concurrently as Independent Commissioner)
Inawaty Handoyo	Member (Independent Party)
Ilham Ikhsan	Member (Independent Party)

^{*)} As of 1 July 2015, Chairman of Audit Committee is Mr. Cyrellus Harinowo, replacing Mr. Sigit Pramono

Appointment of members of the Audit Committee is conducted by the Board of Directors Decision No.103/SK/ DIR/2011 dated 27 July 2011 based on the Board of Commissioners Meeting Decision No.030/RR/KOM/2011 dated 23 June 2011, was updated by Decree of Board of Directors No.094/SK/ DIR/2015 dated 30 June 2015 based on decision of Board of Commissioners' Meeting No.31/RR/ KOM/2015 dated 24 June 2015.

Profiles of education, positions, and work experience of members of the Audit Committee can be viewed in the Corporate Data section, page 564-565 of this Annual Report.

8. Term of Office of The Audit Committee Member

The term of office of the Audit Committee members shall expire at the end of the term of the Audit Committee Chairman, who is also an Independent Commissioner. The Audit Committee term of office for this period will end at the close of the 2016 AGMS.

9. Independence and Requirements of the Audit Committee Members

All members of the Audit Committee are independent parties, not having financial, management, share ownership and/or family relationships with members of the Board of Commissioners, members of the Board of Directors and/or Controlling Shareholders or business relationships with BCA that may affect the ability to act independently.

Membership requirements that must be met by Audit Committee members are as follows:

1. Have good integrity, character, and morals.
2. Possess the ability, knowledge, and experience in accordance to his/her field of duties, as well as being able to communicate well;
3. Understand the Financial Statements, the business of BCA as particularly related to services or business activities of BCA, audit processes, and legislation in the field of the Capital Markets as well as other relevant laws and legislations;
4. Willing to comply with BCA's Code of Ethics and the Audit Committee's Code of Conduct established by BCA;
5. Willing to continuously improve competence through education and training;
6. Have at least one member whose educational background and expertise is in accounting and/or finance;
7. Did not work in a Public Accountant Firm, Law Firm, Public Appraisal Service Office or other parties that provided assurance services, non-assurance services, appraisal services and/ or other advisory services to the Bank within the last 6 (six) months;
8. Had not worked or had the authority and responsibility for planning, directing, controlling, or supervising the activities of BCA in the prior 6 (six) months unless as an Independent Commissioner;
9. Not a member of a Board of Directors of other Banks;
10. Does not have direct or indirect shareholdings in BCA;
11. In the case of members of the Audit Committee of BCA acquires shares either directly or indirectly as a result of a legal event, the shares shall be transferred to other parties within a maximum period of 6 (six) months after the shares were acquired;
12. Have no affiliation with fellow members of the Board of Commissioners, the Board of Directors or Controlling Shareholders of BCA;
13. Have no business relationship that is either directly or indirectly related to the business activities of BCA;
14. The Chairman of the Audit Committee may hold office as a Committee Chairman of only 1 (one) other committee in BCA;
15. Audit Committee members who are Independent Parties may hold more than one position as an Independent Party at other Committees in BCA, other Banks, and/or other companies, as long as he/she:
 - a. meets all the required competencies;
 - b. meets the independency criteria;
 - c. is able to keep BCA matters confidential;
 - d. observes the applicable code of conduct; and
 - e. does not neglect implementation of duties and responsibilities as a member of the Committee.

10. Meetings of the Audit Committee

The Audit Committee holds at least 4 (four) meetings in one year as stipulated in the Audit Committee Charter and Code of Conduct. During 2015, the Audit Committee held 20 (twenty) meetings.

Minutes of meetings are prepared for each Audit Committee Meeting, describing the date of meeting, attendance of the Audit Committee members, meeting agenda, and meeting materials.

Attendance of the members of the Audit Committee at Audit Committee meetings during 2015 is as follows:

Name	Number of Meetings	Attendance	Percentage
Cyrillus Harinowo ^{*)}	13	13	100
Sigit Pramono	7	7	100
Inawaty Handoyo	20	20	100
Ilham Ikhsan	20	20	100

^{*)} As of 1 July 2015, Chairman of Audit Committee is Mr. Cyrillus Harinowo, replacing Mr. Sigit Pramono

11. Reports on the Implementation of Audit Committee Work Program in 2015

During 2015, BCA's Audit Committee has accomplished the following:

1. Conducted meeting with the Public Accountant Firm (KAP) Siddharta Widjaja & Rekan, to discuss the final audit results of BCA's Financial Statement for the 2014 fiscal year and its Management Letter.
2. Evaluated and approved the proposal for extending the contract with KAP Siddharta Widjaja & Rekan, which is affiliated with KPMG International and recommended it to the Board of Commissioners to perform the audit for the BCA Financial Statements for financial year 2015.
3. Conducted meeting with KAP Siddharta Widjaja & Rekan to discuss the plan and scope of the audit of BCA's Financial Statements for the 2015 fiscal year.
4. Conducted meeting with the Division of Finance and Planning to review BCA's Financial Statements which will be published every quarter.
5. Conducted 8 (eight) meetings with the Internal Audit Division to:
 - a. Evaluate the annual planning.
 - b. Evaluate the implementation of internal audit each semester.
 - c. Conduct discussions on audit results deemed significant.
6. Conducted 7 (seven) visits to the Main Branch Office to attend internal audit exit meetings as part of process to assess the internal audit quality, as well as adequacy and effectiveness of internal control.
7. Conducted 8 (eight) visits to Subsidiary Branch Offices and 2 (two) Cash Offices to observe their activities as part of process to assess the adequacy and effectiveness of internal control.
8. Reviewed reports of internal audit results (179 reports) and monitored follow-ups.
9. Assessed BCA's compliance with prevailing legislation in the field of banking through a review of the reports of compliance to the prudent banking principles as reported every quarter.
10. Assessed credit portfolio reports issued every semester.
11. Monitored the risk management implementation through quarterly reports of BCA's Risk Profile and monthly reports of the Operation Risk Management Information System (ORMIS).
12. Attended presentation on the audit results of IT Governance conducted by the Internal Audit Division assisted by a consultant from Asia Pacific Advisory Services Private Limited, Singapore. The presentation was also attended by the Board of Commissioners.
13. Conducted studies on:
 - a. Results of the examination conducted by the Financial Services Authority and follow-up actions.
 - b. Examination result of Bank Indonesia and the follow-up.
 - c. The management letter from KAP Siddharta Widjaja & Rekan and its follow-ups.
14. Reported the results of review and routine evaluation to the Board of Commissioners on aspects such as governance, risk management, compliance and control on a quarterly basis.

15. Discussed modes of external fraud, including those relating to cyber crime that occurred during 2015 and the next mitigation with the Risk Oversight Committee.
16. Attended the GMS, Analyst Meetings, and the 2016 BCA National Work Meetings in order to monitor the implementation of GCG.

THE RISK OVERSIGHT COMMITTEE

1. Main Duties

The Risk Oversight Committee was formed to ensure that the enterprise wide risk management framework provides adequate protection to the bank against all risks faced by the Bank.

2. Legal Reference

Establishment of the Risk Oversight Committee refers to:

- Bank Indonesia Regulation No.8/14/PBI/2006 dated 5 October 2006 on Amendments to Bank Indonesia Regulation No.8/4 PBI/2006 on Good Corporate Governance Implementation for Commercial Bank.
- Circular Letter of Bank Indonesia No.15/15/DPNP dated 29 April 2013 regarding Implementation of Good Corporate Governance for Public Bank.

- The Board of Commissioners Decision Letter No.033/SK/KOM/2007 dated 22 February 2007 on the Structure of the Risk Oversight Committee.

3. Guidelines and Code of Conduct of the Risk Oversight Committee

The Risk Oversight Committee adheres to the Risk Oversight Committee Charter and Code of Conduct prepared in accordance with Bank Indonesia Regulation on the Implementation of Good Corporate Governance for Commercial Banks. The Risk Oversight Committee Charter and Code of Conduct are contained in the BCA GCG Manual and posted on the BCA website (www.bca.co.id).

The Risk Oversight Committee Charter and Code of Conduct covers:

- Structure and Membership;
- Duties and Responsibilities;
- Working Mechanism;
- Ethics and Work Hours;
- Committee Meetings.

4. Membership of the Risk Oversight Committee

BCA's Risk Oversight Committee comprises 3 (three) persons, consisting of a Chairman who is also an Independent Commissioner and 2 (two) Independent Parties.

One Independent Party has expertise in financial risk management and the other one has an expertise in finance.

5. Membership Composition of the Risk Oversight Committee as of 31 December 2015

Name	Position
Sigit Pramono ^{*)}	Chairman (concurrently as Independent Commissioner)
Endang Swasthika Wibowo	Member (Independent Party)
Wimpie Rianto ^{**)}	Member (Independent Party)

^{*)} Effective starting 1 July 2015, the Chairman of Risk Oversight Committee is Mr. Sigit Pramono replaced by Mr. Cyrillus Harinowo

^{**)} Effective starting 1 January 2015, Andreas E. Susetyo resigned as member of Risk Oversight Committee. Effective as of 1 February 2015, Mr. Wimpie Rianto is assigned as member of the Risk Oversight Committee to replace Mr. Andreas E. Susetyo

Appointment of members of the Risk Oversight Committee was formalized by the Board of Directors Decree No.001/SK/DIR/2015 dated 12 January 2015, based on decision of Board of Commissioners' meeting No.64/RR/KOM/2014 dated 10 December 2014, and updated by Decree of Board of Directors No.095/SK/DIR/2015 dated 30 June 2015 based on decision of Board of Commissioners' Meeting No.31/RR/KOM/2015 dated 24 June 2015.

The educational and work experience profiles of the members of the Risk Oversight Committee can be found in the Corporate Data section page 566 of this Annual Report.

6. Term of Office of the Risk Oversight Committee Members

The term of office of the Risk Oversight Committee members will expire at the expiration of the term of office of Risk Oversight Committee Chairman, who is also an Independent Commissioner. The Risk Oversight Committee term of office for this period will end at the close of the 2016 AGMS.

7. Independence and Requirements of the Risk Oversight Committee Members

All members of the Risk Oversight Committee are independent parties who do not have any financial, management, ownership of shares and/or family relationships with members of the Board of Commissioners, the Board of Directors and/or the Controlling Shareholders or business relationships with the BCA that may affect their ability to act independently.

Requirements to be met by members of the Risk Oversight Committee of BCA are, among others, as follows:

- a. High integrity, ability, knowledge, experience in accordance with their field of work, and the ability to communicate excellently;
- b. At least one independent party has an educational background and expertise in finance;
- c. At least one independent party has an educational background and expertise in the field of risk management;
- d. Has no affiliation with the Board of Commissioners, the Board of Directors, or the Controlling Shareholder of the Bank;

- e. Has no business relationship, either directly or indirectly, related to the business activities of the Bank;
- f. Not a member of a Risk Oversight Committee at any other company (issuers or public companies) during the same period.

8. Duties and Responsibilities of the Risk Oversight Committee

Duties and responsibilities of the Risk Oversight Committee, among others, are:

1. Assisting and making recommendations to the Board of Commissioners in order to improve oversight in implementation of tasks and responsibilities in risk management and to ensure that risk management policies are properly implemented.
2. In regard with the process to provide recommendation, the Risk Oversight Committee should:
 - a. Evaluate on the consistency between risk management policies and policy implementation.
 - b. Monitor and evaluate the implementation of duties of the Risk Management Committee and the Risk Management Unit.

9. Meetings of the Risk Oversight Committee

The Risk Oversight Committee meetings are held at least 4 (four) times a year as stipulated in the Guidelines and Code of Conduct of the Risk Oversight Committee. In 2015, the Risk Oversight Committee held 10 (ten) meetings.

Minutes of meetings are prepared for each Risk Oversight Meeting, describing the date of meeting, attendance of the Risk Oversight Committee members, meeting agenda, and main discussion.

Attendance of the members of the Risk Oversight Committee at the Risk Oversight Committee meetings during the year 2015 is as follows:

Name	Number of Meetings	Attendance	Percentage
Sigit Pramono ^{*)}	5	5	100%
Cyrellus Harinowo	5	5	100%
Endang Swasthika Wibowo	10	10	100%
Wimpie Rianto ^{**)}	10	10	100%

^{*)} Effective starting 1 July 2015, the Chairman of Risk Oversight Committee is Mr. Sigit Pramono replaced by Mr. Cyrellus Harinowo

^{**)} Effective starting 1 January 2015, Andreas E. Susetyo resigned as member of Risk Oversight Committee. Effective as of 1 February 2015, Mr. Wimpie Rianto is assigned as member of the Risk Oversight Committee to replace Mr. Andreas E. Susetyo

10. Report of the Implementation of the Risk Oversight Committee Work Program in 2015

In 2015, the Risk Oversight Committee's work program was as follows:

1. Conducted:

- a. Monitoring of risk by reviewing and evaluating risk reports prepared by the risk control units. The Risk Oversight Committee gives opinions and suggestions in writing and can request further clarification or explanations through special meetings to discuss the topic.
- b. Evaluating the quarterly stress test results.
- c. Monitoring of risk profiles by a periodic risk dashboard report, to comply with the regulation.
- d. Reporting the progress of monitoring duties to the Board of Commissioners quarterly.

2. Conducted special monitoring on:

- a. Operational risks, particularly the risk of Information Technology (IT) to ensure that BCA operational risks are under control. In addition, conducted evaluation on the Business Continuity Plan (BCP) and Crisis Management Protocol. Conducted monitoring on the implementation and control of operational risks, especially those related with fraud.
- b. Analyze the stress test results specifically on the aspects of:
 - Liquidity risk based on various macro indicators scenarios and testing the resistance of liquidity reserves.

- Credit risk including consumer credit, SME and corporation credit.
 - Capital allocation and reserves to support various economic conditions.
3. Evaluated the implementation of good corporate governance by reviewing the risk management documents of SKMR and the Risk Management Committee.
 4. Provided recommendation to the Board of Commissioners on the implementation and development of the risk management process regarding:
 - a. Business Continuity Planning and Crisis Management Protocol.
 - b. Consumer Credit Risk on a national level.
 - c. Preparation for achieving the targets of the SME credit program, in line with economic conditions and potential.
 - d. Preparation for the implementation of integrated risk management and assessment mechanisms.
 5. Ensured that BCA has a good infrastructure for controlling risk; therefore evaluation is conducted by:
 - a. Reviewing the rules and guidelines for risk management.
 - b. Evaluating the methods, indicators and measurement of risk.
 6. Ensuring that GCG is well implemented by attending the General Meeting of Shareholders, Analyst Meetings and the Annual National Work Meeting.

THE REMUNERATION AND NOMINATION COMMITTEE

1. Main Duties

The Remuneration and Nomination Committee was formed to enhance the quality of top management through prescribed remuneration and nomination policies.

2. Legal Reference

The Remuneration and Nomination Committee was established by:

- Bank Indonesia Regulation No.8/14/PBI/2006 dated 5 October 2006 as a subtitle of Bank Indonesia Regulation No.8/4/PBI/2006 concerning Good Corporate Governance Implementation in Commercial Bank.
- Circular Letter of Bank Indonesia No.15/15/DPNP dated 29 April 2013 regarding Implementation of Good Corporate Governance for Public Bank.
- Regulation of Financial Service Authority No.34/POJK.04/2014 dated 8 December 2014 regarding Nomination and Remuneration Committee of Issuer or Public Company.

3. Guidelines and Code of Conduct of the Remuneration and Nomination Committee

The Remuneration and Nomination Committee has a Charter and Code of Conduct, prepared in accordance with regulations from the Bank of Indonesia and Circular Letters from Bank of Indonesia regarding the

Implementation of Good Corporate Governance for Banks and Financial Services Authority Regulation No.34/POJK.04/2014 dated 8 December 2015 concerning the Remuneration and Nomination Committee of Issuers or Public Companies. The Remuneration and Nomination Committee Charter and Code of Conduct were published in the BCA GCG Manual and the BCA website (www.bca.co.id) under Good Corporate Governance.

The scope of the Remuneration and Nomination Guidelines and Code of Conduct covers the following:

- Structure and Membership;
- Duties and Responsibilities;
- Work Mechanisms;
- Ethics and Work Hours;
- Committee Meetings;
- Activity Reporting System;
- The Procedures for Replacement Members;
- Terms of office.

4. Membership of the Remuneration and Nomination Committee

BCA's Remuneration and Nomination Committee has 3 (three) members, comprising a Chairman who is also an Independent Commissioner and 2 (two) members a President Commissioner and an Executive Officer in charge of the Human Capital Management (Human Resources) Division.

The Remuneration and Nomination Committee members have the knowledge of remuneration systems and/or nominations as well as of succession planning.

5. Membership Composition of The Remuneration and Nominations Committee as of 31 December 2015

Name	Position
Raden Pardede	Chairman (concurrently as Independent Commissioner)
Djohan Emir Setijoso	Member (concurrently as President Commissioner)
Lianawaty Suwono	Member (concurrently as the Head of Human Capital Management)

The appointment of members of the Remuneration and Nomination Committee is undertaken by Board of Directors Decision No.123/SK/DIR/2011 dated 19 September 2011 based on Decision of Board of Commissioners No.027A/RR/KOM/2011 dated 30 May 2011.

The education and work experience profiles of the members of the Remuneration and Nomination Committee can be viewed in the Corporate Data section, page 567 of this Annual Report.

6. Term of Office of the Remuneration and Nomination Committee Members

The term of office of the members of the Remuneration and Nomination Committee will expire at the expiration of the term of office of the Chairman of the Remuneration and Nomination Committee, who is also an Independent Commissioner. The term of office of the members of the Remuneration and Nomination Committee during this period will expire at the close of the 2016 AGMS.

7. Independence and Requirements of the Remuneration and Nomination Committee Members

All members of the Remuneration and Nomination Committee are independent parties who do not have financial, management, share ownership and/or family relationships with any members of the Board of Commissioners, the Board of Directors and/or Controlling Shareholders or business relationships with the Bank that may affect their ability to act independently.

Requirements to be met as a member of the BCA Remuneration and Nomination Committee are, among others as follows:

1. Have high integrity, ability, knowledge, experience in accordance with their field of work and the ability to communicate well;
2. Have knowledge of remuneration and/or nominations system;
3. Have no affiliation with other member of the Board of Commissioners, the Board of Directors, or the Controlling Shareholder of BCA;
4. Have no business relationship, either directly or indirectly, related to the business activities of BCA

8. Duties and Responsibilities of the Remuneration and Nomination Committee

Duties and Responsibilities of the Remuneration and Nomination Committee, among others are:

1. To evaluate the remuneration and nomination policies of BCA.
2. To give recommendations to the Board of Commissioners on:
 - a. Remuneration policy for the Board of Commissioners and Board of Directors to be submitted to the General Meeting of Shareholders of BCA.
 - b. Remuneration policy for all Executive Officers and employees to be delivered by the Board of Commissioners to the Board of Directors.
3. To develop and recommend the election systems and procedures and/or replacement of members of the Board of Commissioners and the Board of Directors to the Board of Commissioners, to be further submitted to the GMS.
4. To ensure that the remuneration policies of BCA are in compliance with the prevailing legislation.
5. To advise the Board of Commissioners regarding prospective Commissioners and /or prospective Directors to be submitted to the GMS.
6. To recommend independent parties as prospective members of the Audit Committee and the Risk Oversight Committee to the Board of Commissioners.
7. To assess the feasibility of the facilities policy provided to the Board of Commissioners and Board of Directors.
8. To carry out other duties assigned by the Board of Commissioners regarding remuneration and nomination in accordance with the applicable regulations.
9. To report the results of assessments and recommendations with respect to the duties of the Remuneration and Nomination Committee to the Board of Commissioners when required.

In addition, pursuant to the Regulation of Financial Service Authority No.34/POJK.04/2014 dated 8 December 2014 regarding Nomination and Remuneration Committee of Issuer or Public Company, The Remuneration and Nomination Committee has the following duties and responsibilities:

- a. Relating to Nomination function:
 1. Making recommendations to the Board of Commissioners on:
 - a) Composition of the Board of Directors and/or the Board of Commissioners;
 - b) Policies and criteria needed in nomination process; and
 - c) Performance evaluation policy of the Board of Directors and/or the Board of Commissioners.
 2. Assisting the Board of Commissioners to assessment the performance of the Board of Directors and the Board of Commissioners based on criteria as a evaluation;
 3. To give recommendations to the Board of Commissioners on developed the ability of the Board of Directors and/or the Board of Commissioners; and
 4. To advise prospective Directors and/or Commissioners to the Board of Commissioners to be submitted to the GMS.

- b. Relating to Remuneration function:
 1. Making recommendation to the Board of Commissioners on:
 - a) structure of remuneration;
 - b) Remuneration policy; and
 - c) Amount of remuneration.
 2. Assisting the Board of Commissioners to assessment the performance of the conformity of remuneration to each members of the Board of Directors and/or members of the Board of Commissioners.

9. The Remuneration and Nomination Committee Meetings

The Remuneration and Nomination Committee holds meetings in accordance with BCA requirements, at least 1 (one) time of 4 (four) months as stipulated in the Financial Services Authority Regulation No.34/POJK.04/2014 dated 8 December 2015 concerning the Remuneration and Nomination Committee of Issuers or Public Companies. During 2015, the Remuneration and Nomination Committee held 4 (four) meetings.

Minutes of meetings are prepared for each Remuneration and Nomination Committee meeting, describing the date of meetings, attendance of the Remuneration and Nomination Committee members, meeting agenda, and meeting materials.

Attendance of the members of the Remuneration and nomination Committee at the Remuneration and Nomination Committee meetings during the year 2015 is as follows:

Name	Number of Meetings	Attendance	Percentage
Raden Pardede	4	4	100%
Djohan Emir Setijoso	4	4	100%
Lianawaty Suwono	4	4	100%

10. Policy Concerning the Succession of the Board of Directors

1. Develop and provide recommendations on systems and procedure of selection and/or replacement of members of the Board of Commissioners and Board of Directors to the Board of Commissioners to be submitted to the GMS.
2. Provide recommendations on prospective members of the Board of Commissioners and/or Board of Directors to the Board of Commissioners to be submitted to the GMS.
3. In order to prepare the executives of BCA to gain a broad knowledge and experience as an official at the head or branch office, every executive will be rotated.

11. Report on the Implementation of the Remuneration and Nomination Committee Work Program in 2015

During 2015 the Remuneration and Nomination Committee accomplished the following:

1. Recommended to the Board of Commissioners the distribution of tantiem of financial year 2014 to all members of the Board of Commissioners and Directors who held office during the 2014 financial year, to be delivered by the Board of Commissioners during the AGMS on 9 April 2015 for approval.
2. Recommended the change of office vehicles facility previously given in form of "company owned vehicles that are permitted to be used by members of the Board of Commissioners and Directors" to "Monthly Office Vehicle Allowance".
3. Updated the Remuneration Policy in relation with the Employee Expense Budget in 2016 and BPJS Health and Pension Insurance.
4. Recommended the improvement of the System and Procedure of Appointment and/or Replacement of Members of the Board of Commissioners and/or Directors to the Board of Commissioners.

THE INTEGRATED GOVERNANCE COMMITTEE

1. Main Duties

The Integrated Governance Committee was established and is responsible to the Board of Commissioners of BCA as the Main Entity within the Financial Conglomerate. The purpose is to assist BCA's Board of Commissioners in overseeing the application of Integrated Governance.

2. Legal Reference

Establishment of the Integrated Governance Committee refers to:

- Financial Services Authority Regulation No.18/POJK.03/2014 dated 18 November 2014 concerning the Application of Integrated Governance for Financial Conglomerates.
- Financial Services Authority Circular Letter No.15/SEOJK.03/2015 dated 25 May 2015 concerning the Application of Integrated Governance for Financial Conglomerates.

3. Charter of the Integrated Governance Committee

The Integrated Governance Committee has a Charter (Structure of the Integrated Governance Committee) developed according to the Financial Services Authority Regulation No.18/POJK.03/2014 dated 18 November 2014 concerning the Application of Integrated Governance for Financial Conglomerates.

The Charter (Structure of the Integrated Governance Committee) covers the following:

- Legal basis (reference);
- Position;
- Duties and Responsibilities;
- Composition of Membership;
- Number and Composition of Independent Commissioners;
- Terms of office;
- Work Mechanism;
- Committee Meetings;
- Reporting.

The Integrated Governance Committee Charter and Code of Conduct are contained in the BCA website (www.bca.co.id) under Good Corporate Governance.

4. Duties and Responsibilities of the Integrated Governance Committee

In performing its functions, the Integrated Governance Committee has the following duties and responsibilities:

- a. Evaluating the application of Integrated Governance, at minimum through assessing the adequacy of internal control and implementation of an integrated compliance function.
- b. Providing recommendation to the Board of Commissioners of BCA as the Main Entity

within the Financial Conglomerate to improve the Integrated Governance Guideline.

5. Membership of the Integrated Governance Committee

Membership of the Integrated Governance Committee at least must consist of:

- a. An Independent Commissioner of BCA (as Main Entity) as a Chairman;
- b. Independent Commissioners from Subsidiary Companies in the Financial Conglomerate as members;
- c. An Independent Party as a member; and
- d. Member of Sharia Supervisory Board from Financial Services Institution in the Financial Conglomerate, as a member.

6. Composition of the Integrated Governance Committee Membership

Based the Board of Decision No.106/ SK/DIR/2015 dated 30 July 2015, composition of the Integrated Governance Committee Membership is as follows:

Name	Position
Sigit Pramono	Chairman, concurrently as Independent Commissioner at BCA (Main Entity)
Adhi Gunawan Budirahardjo	Member (concurrently as Independent Commissioner of PT BCA Finance)
Gustiono Kustianto	Member (concurrently as Independent Commissioner of PT Asuransi Umum BCA)
Suyanto Sutjiadi	Member (concurrently as Independent Commissioner of PT Bank BCA Syariah)
Pudjianto	Member (concurrently as Independent Commissioner of PT Asuransi Jiwa BCA)
Inawaty Handoyo	Member, concurrently as Independent Party at BCA (Main Entity)
Sutedjo Prihatono	Member (concurrently member of Syariah Supervisory Board of PT Bank BCA Syariah)

Educational background, position and work experience of members of Integrated Governance Committee can be seen in the Company Data on page 568-570 of this BCA Annual Report.

7. Number and Composition of Independent Commissioners

The number and composition of Independent Commissioner as members of the Integrated Governance Committee depends on the needs of the Financial Conglomerate and the Integrated Governance Committee's efficiency and effectiveness in carrying out its duties, by taking into consideration the representation of each financial service provider within the Group.

8. Terms of Office of the Integrated Governance Committee Members

The terms of office of the Integrated Governance Committee members is the same as members of Board of Commissioners of BCA (as Main Entity), and can be reappointed for the next period.

Term of office of members of the Integrated Governance Committee in this period will be expired on the closing of the 2016 Annual GMS of BCA.

9. Work Mechanism

The work mechanism of the Integrated Governance Committee is as follows:

- a. Duties and responsibilities of the Integrated Governance Committee, among others, are carried out as decided through Integrated Governance Committee meetings.
- b. To ensure that duties are well implemented, the Integrated Governance Committee is assisted by a Committee Secretary to perform secretarial duties such as:
 - i. Arranging the schedule of meetings;
 - ii. Proposing and contacting interviewees when needed;
 - iii. Preparing and distributing invitation and materials for the meetings;
 - iv. Preparing and distributing the minutes of meetings.
- c. Whenever required, the Integrated Governance Committee may invite interviewees from members of the Board of Commissioners, Directors, or other internal and external parties of the Main Entity and the financial services providers within the financial conglomerate.

10. Meetings of the Integrated Governance Committee

Following are the arrangements in regard to meetings of the Integrated Governance Committee:

- a. Meetings of the Integrated Governance Committee are conducted based on the needs of the financial conglomerate, at least 1 (once) every semester.

- b. Meeting quorum of the Integrated Governance Committee occurs only if attended by more than ½ (a half) of the number of its members.
- c. Meetings of the Integrated Governance Committee can be held through video-conference.
- d. Decision-making in the meetings of the Integrated Governance Committee is conducted through consensus agreement.
- e. In the event consensus agreement does not occur, decision-making is carried out based on majority vote.
- f. Chairman and members of the Integrated Governance Committee each have 1 (one) vote.
- g. Results of the meetings of the Integrated Governance Committee serve as recommendations that can be followed-up by the Board of Commissioners of the Main Entity and/or the financial service providers within the Financial Conglomerate.
- h. Minutes of meetings shall be made in each Integrated Governance Committee meeting, signed by all members of Integrated Governance Committee who attend, and be well documented. Differences of opinion (dissenting opinions) that occur in the meeting shall be clearly stated in the minutes of meeting along with the reasons for dissent.

During 2015, the Integrated Governance Committee held 2 (two) meetings.

Attendance of members of the Integrated Governance Committee in meetings in 2015 is as follows:

Name	Number of Meetings	Attendance	Percentage
Sigit Pramono	2	2	100%
Adhi Gunawan	2	1	50%
Gustiono Kustianto	2	1	50%
Suyanto Sutjiadi	2	1	50%
Pudjianto	2	2	100%
Inawaty Handoyo	2	2	100%
Sutedjo Prihatono	2	2	100%

11. Reports on the Implementation of the Integrated Governance Committee Work Program in 2015

In 2015, the Integrated Governance Committee carried out the following program:

- a. Reviewing the overall preparation of integrated governance application in BCA's financial group among Subsidiary Companies, including updating the compliance status of Subsidiary Companies toward applicable regulations for each Subsidiary Company.
- b. Reviewing the draft of a Self Assessment Report on the Application of Integrated Governance in Semester I and Semester II Year 2015.
- c. Updating the legal review on the application of integrated governance in financial conglomerates in relation with Limited Liability Company Law principles.
- d. Evaluating the application of integrated governance in financial conglomerates.
- e. Attending socialization of the integrated governance application and guidelines held by the National Committee of Governance Policy.

THE EXECUTIVE COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors is assisted by 7 (seven) Executive Committees, which are in charge of providing objective opinions to the Board of Directors and helping to systematically improve the effectiveness of the Board of Directors in performing their duties.

Executive Committee members are appointed by the Board of Directors. The Committees provide input based on their scope of duties and responsibilities.

Following are the 7 (seven) Executive Committees under the Board of Directors:

1. Asset & Liability Committee (ALCO)
2. Risk Management Committee (KMR)
3. Integrated Risk Management Committee (KMRT)
4. Credit Policy Committee (KKP)
5. Credit Committee (KK)
6. Information Technology Steering Committee (KPTI)
7. Personnel Case Advisory Committee (KPKK)

ASSET & LIABILITY COMMITTEE (ALCO)

The Asset & Liability Committee (ALCO) is a permanent committee under the Board of Directors with the mission of achieving an optimum level of profitability for BCA as well as ensuring that liquidity risk, interest rate risk and foreign exchange risk is controlled through the establishment of policies and strategies for Bank asset and liability management.

Main Functions of ALCO

To establish and evaluate policies and liquidity management strategies to meet the liquidity needs of BCA in accordance with the applicable rules, including unexpected funds requirements, while minimizing idle funds.

- To establish and evaluate policies and strategies related to market risks, including interest rate risk and foreign exchange risk.
- To establish and evaluate pricing policies and strategies for products such as funding, credit, and inter-office accounts.
- To establish and evaluate policies and strategies for managing the investment portfolio.
- To establish and evaluate policies and strategies for arranging balance sheet structure by anticipating changes in interest rates to achieve an optimum net interest margin.

Authorities of ALCO

ALCO has the authority to take strategic decisions in the management of Bank assets and liabilities within parameters set by the Board of Directors and Board of Commissioners, such as:

- To establish deposit rates, savings, and checking account interest rates;
- To establish lending rates;
- To establish funding and investment strategies;
- To establish hedging strategy where necessary;
- To establish limits relating to liquidity risk, interest rate risk, and foreign exchange risk according to the overall risk management policy.

Membership of ALCO and Voting Right Status

Position	Filled By	Voting Right Status
Chairman (concurrently as member)	President Director	Reserve Voting Rights
Members	• Deputy President Director	Reserve Voting Rights
	• Corporate Banking Director	Reserve Voting Rights
	• Risk Management Director	Reserve Voting Rights

	• Individual Banking Director	Reserve Voting Rights
	• Regional & Branch Banking Director	Reserve Voting Rights
	• Credit Director	Reserve Voting Rights
	• Head of Treasury Division	Reserve Voting Rights
	• Head of International Banking Division	Reserve Voting Rights
	• Head of Finance and Planning Division	Reserve Voting Rights
	• Head of Corporate Banking dan Corporate Finance	Reserve Voting Rights
	• Head of Retail and Commercial Banking	Reserve Voting Rights
	• Head of Transaction Services Development	Reserve Voting Rights
	• Head of Consumer Credit Business Unit	Reserve Voting Rights
• Head of Consumer Card Business Group	Reserve Voting Rights	
• Head of Risk Management Unit	Reserve Voting Rights	
Secretary	Senior Adviser at Risk Management Unit (SKMR) which covers Asset Liability Management (ALM)	No Voting Rights

Duties and Liabilities of ALCO

ALCO, among others tasks, functions to establish the liquidity management policies and strategies to meet the liquidity needs of BCA and minimize idle funds. In addition, ALCO establishes policies and strategies related to market risk, pricing strategy and the structuring of the investment portfolio and balance sheet structuring strategies to anticipate market rate movements and to optimize the net interest margin (net interest margin - NIM). ALCO reports initiatives and activities through regular monthly meetings with special smaller meetings held to discuss specific issues.

Main Duties of ALCO Members

Voting ALCO members have main duties such as:

- To provide input to the ALCO secretary for the preparation of the agenda and meeting materials.
- To provide input in the form of information and analysis on the ALCO meeting, regarding:
 - Methodology of product pricing and loan funds.
 - Methodology of measuring liquidity risk, interest rate risk and foreign exchange risk.
 - Determination of product price and loan funds.
 - The competitiveness of interest rates and funding products.
 - Strategies of Bank competitors.
 - Constraints, if any, in the implementation of ALCO decisions.
 - The behavior of customers and market changes.

**ALCO Meetings**

- ALCO meetings are held as necessary and at least once every month.
- ALCO meetings meet quorum if attended by at least ½ (half) plus one of the members of ALCO including the Chairman or alternate, or attended by 5 (five) Directors, including the Chairman or alternate.

Decision Making

- Decision making in relation with the use of ALCO authorities will only be taken through legitimate ALCO meeting decisions.
- ALCO meeting decisions are valid and binding if approved by half plus 1 (one) of the members with voting rights present.

Frequency and Attendance of the Board of Directors and Other ALCO Members in the 2015 Meetings

Name of Director	Number of Meetings	Attendance	Percentage
President Director (Jahja Setiaatmadja) ^{*)}	12	12	100%

^{**)} = Undergoing on medical treatment overseas

Notes:

Non-member Directors also attend the ALCO Meeting as resource persons.

In addition, units from Head Office, Regional or Branch Offices, as well as parties outside BCA may be invited as a resource person to provide input related to certain issues.

Accountability/Work Realization Reporting

Realization of the Committee's work is reported through:

- Minutes of regular meetings.
- Minutes of special meetings held to discuss specific issues.
- Data and information related to the areas covered.
- Notes and ALCO's opinion regarding the minutes of meetings and relevant data and information.

ALCO Activity/Work Realization Program in 2015

Throughout 2015, ALCO held 12 (twelve) meetings with the following agenda:

- Report of follow-ups of previous ALCO meeting decisions.
- Economic parameters including inflation rates, Bank Indonesia Term Deposit interest rates, yield curves of Rupiah and USD, Rupiah & USD market liquidity and exchange rate of Rupiah.
- Liquidity reserves comprising Primary and Secondary Rupiah and Foreign Exchange Reserves, Rupiah and Foreign Exchange Fund Structure, Credit Projection, Liquidity Projection and losses due to liquidity risk.
- Interest rate risks, including Repricing Gap and Sensitivity Analysis, both for Rupiah and Foreign Exchange.
- Foreign Exchange Risk, in regard with development of the Net Open Position (NOP) and the related risks.
- Loan Portfolio, which comprises limit and outstanding loans and type of debtors.
- Yield and Cost of Fund of Rupiah and Foreign Exchange.
- Analysis of Assets/Liabilities Management.
- Development of Bank Funds to Total Banking.
- To discuss and decide on changes in interest rates for Funds and Loans, Prime Lending Rates and limits relating to the Asset Liability Management (ALM).

- To review the results of profit/loss simulations in accordance with the strategy applied by the ALM BCA.

RISK MANAGEMENT COMMITTEE

The Risk Management Committee (KMR) was established to ensure that the enterprise-wide risk management framework provides adequate protection against all risks faced by BCA.

Main Functions of KMR

- To develop policies, strategies, and guidelines for the implementation of enterprise-wide risk management.
- To improve the implementation of risk management based on the results of evaluations on the implementation process and effective risk management system.
- To determine matters related with business decisions that deviate from normal procedures (irregularities).

Authority of KMR

KMR has the authority to review and make recommendations on matters relating to risk management that need to be decided by the Board of Directors.

Notes:

¹⁾ If there is any concurrent position, the person only has the right of 1 (one) vote

²⁾ Relevant with the topics discussed.

**Main Duties of KMR**

- To provide input to the secretary of KMR in form of topics and meeting materials to be discussed in the KMR meetings.
- To provide input in form of information and analysis related to topics to be discussed in the KMR meetings. Topics that can be discussed in the KMR meetings include:
 - Directions and targets of BCA in formulating policies, strategies, and guidelines for risk management, with recommendations for improvement or adjustment when necessary.
 - Assessment of the effectiveness of the implementation of the risk management framework.
 - The development and trend of the total risk exposure of BCA and propose an overall risk tolerance level (risk appetite).
 - Results of the review on total risk exposure faced by BCA and its possible impacts.
 - Assessment of BCA's capital adequacy and impact on capital/profitability of the bank under different stress test scenarios.
 - Development of risk measurement methods including contingency plans for abnormal conditions (worst case scenario) as well as other methods related with risk management.

- Improvements/justifications associated with business decisions that deviate from normal procedures (irregularities).
- Limit of authority, exposures, and the concentration of the loan portfolio as well as other parameters designed to limit risk.

KMR Meetings

Following are some provisions concerning the KMR meetings:

- KMR meetings are held as necessary, with a minimum of once in 3 (three) months or 4 (four) times in 1 (one) year.
- KMR meetings meet quorum if attended by at least 2/3 (two thirds) of the number of permanent members or ½ (half) of total number of permanent members but with the approval of all permanent members.

Decision Making

Following are provisions concerning decision making:

- Decision making related with the use of KMR authority will only be carried out through legitimate KMR meeting decisions.
- KMR meeting decisions are valid and binding if approved by more than half the number of present members.

Frequency of KMR Meetings and Attendance of the Board of Directors and Other KMR Members in 2015

³⁾ Undergoing on medical treatment overseas

Accountability/Work Realization Reporting

Accountability and work realization of KMR are reported through the following:

- A written report on a regular basis at least once in 1 (one) year to the Board of Directors, regarding the results of regular KMR meetings.
- A written report to the Board of Directors concerning the results of special meetings held to discuss specific issues.
- Special reports or activity reports (if necessary).

KMR Activity and Work Program in 2015 and its Realization

Throughout 2015, KMR conducted 4 (four) meetings with the realization of KMR work program below:

- To inform about the condition of BCA's credit portfolio and the causes of credit problem in SME.
- To inform about the stress test result on the weakening of Rupiah exchange rate to USD by implementing the credit, liquidity and market risks approach.

- To inform about the prevention mechanism for data loss that can be implemented by internal and external parties in form of Advance Persistent Threat/APT.
- To inform about the BCM (Business Continuity Management) and the Crisis Management Team organization structure.
- To give updates regarding the Integrated Risk Management application.
- To inform about the New Secondary Operation Center (SOC) and Alternate Network Solution (MBCA & WSA2).
- To inform about the projection of BCA's credit portfolio as of December 2015, which includes outstanding value, DPK and NPL.
- To inform about the current security condition at branches and efforts to improve security at BCA.
- To conduct review on the IDR and USD secondary reserves.
- To inform about the risks and accounting treatment for SWAP transactions.

INTEGRATED RISK MANAGEMENT COMMITTEE

The Integrated Risk Management Committee (KMRT) was established to ensure the risk management framework has provided an integrated and adequate coverage over all risks faced by BCA and Subsidiary Companies.

Main Function of KMRT

To give recommendation to the Board of Directors, which at least includes:

- Development of an integrated risk management policy.

- Improvements on the integrated risk management policy based on evaluation results.

Authority of KMRT

KMRT has authority to review and give recommendation on matters associated with the integrated risk management to be decided by the Board of Directors.

Membership of the Integrated Risk Management Committee and Voting Rights

2. Directors at Subsidiary Companies ³⁾		
Secretary (concurrently as permanent member)	Head of Risk Management Unit or Substitute Officer	Reserve Voting Rights

Notes:

¹⁾ If there is any concurrent position, the person only has the right of 1 (one) vote.

²⁾ Relevant with the topics discussed.

³⁾ If the Head of Internal Audit Division attends the KMRT meeting, he/she does not have voting right.

Main Duties of Members of KMRT

- To provide recommendation to the Secretary of Committee regarding the topics and meeting materials to be discussed in the Committee meeting.
- To provide recommendation in form of information and analysis related with the topics discussed in the Committee meeting. The topics may cover, among others:
 - Direction and target of the Company in developing policy, strategy, and guidelines for the integrated risk management application, and its amendment when necessary.
 - Assessment on the effectiveness of the integrated risk management framework application.
 - Report on the development and tendency of integrated risk exposure and recommendation on risk appetite and risk tolerance.
 - The result of review on the total exposure of integrated risk and its impact.
 - Assessment on the Bank's capital adequacy in handling the risk of loss incurred by using various stress test scenarios.
 - Recommendation on developing risk measurement methods, contingency plans in the worst case scenario, and other methods in regard with the integrated risk management.
 - Other matters that require justification as related with business decisions taken out of normal procedure (irregularities).

- Limit of authority, exposure, and credit portfolio concentration as well as other parameters to limit risks.
- Improvement of the integrated risk management both regularly and incidentally as a result of changes in internal and external conditions that may affect capital adequacy, risk profile, and ineffectiveness of the current integrated risk management application based on evaluation.

Meetings of KMRT

Following are some provisions regarding the meetings of KMRT:

- KMRT meetings are held as necessary, with a minimum of once in a semester.
- KMRT meetings meet quorum if attended by at least 51% (fifty one percent) of the number of permanent members.

Decision Making

Following are provisions concerning decision making:

- Decision making related with the use of the KMRT's authority will only be carried out through a legitimate KMRT meeting decisions.
- KMRT meeting decisions are valid and binding if approved by more than ½ (half) the number of present members.

Accountability/Work Realization Reporting

Accountability and work realization of KMRT are reported through the following:

- A written report on a regular basis at least once in 1 (one) year to the Board of Directors, regarding the results of regular KMRT meetings.
- A written report to the Board of Directors concerning the results of special meetings held to discuss specific issues.
- Special reports or activity reports (if necessary).

KMRT Activity and its Realization

Throughout 2015, KMRT conducted 2 (two) meetings with the realization as follows:

- To give information related to:
 1. The Integrated Risk Management Committee (KMRT)
 - Background of KMRT formation
 - Structure of Authority of KMRT
 - KMRT Meetings
 - Authority and responsibility of KMRT
 2. Basic Policy of the Integrated Risk Management Committee (KDMRT)
 - Background of KDMRT development
 - Content of KDMRT
 3. Report on the Profile of Integrated Risk (LPRT)
 - Background of LPRT development
 - Type of risks in LPRT
 - Rank of LPRT's risk profile for semester I of 2015

- To inform about the strategy of PT Central Santosa Finance (CSF) in coping with economic slowdown, portfolio performance review, and asset recovery.

CREDIT POLICY COMMITTEE

The Credit Policy Committee (KKP) was established to direct the provision of loans through the credit policy formulation designed in order to achieve prudent lending targets.

Main Functions of KKP

- To assist the Board of Directors in formulating the credit policies, primarily with regard to the prudent lending principle.
- To monitor and evaluate the implementation of credit policies to be implemented consistently and consequently.
- To perform periodic reviews on BCA's Basic Credit Policy (KDPB).
- To monitor the progress and condition of the credit portfolio.
- To provide advice and steps to improve the results of monitoring and evaluation that has been done.

Authority of KKP

KKP has the authority to provide advice and improvement steps to the Board of Directors associated with the credit policy.

²⁾ In accordance with the topics discussed

Main Duties of KKP Members

The main duties of KKP members are, among others:

- To provide input to the secretary of KKP in the preparation of meetings agenda and materials.
- To provide input in form of information and analysis at the KKP meetings in order to make a KKP decision regarding the following:
 - Development of credit policies (corporation, commercial, SME, KUK, consumer, and credit card) in accordance with the Bank's mission and business plan.
 - Compliance to the provisions of law in granting credit.
 - Overall development and quality of credit portfolio.
 - Proper implementation of loan approval authority.
 - Proper process of lending, development, and quality of loan given to related parties and certain large borrowers.
- Proper implementation of the Legal Lending Limit (LLL).
- Handling of Non-Performing Loans in accordance with the credit policies.
- Adequacy on the allowance for Bank loan losses.
- Results of oversight on the implementation of the Basic Credit Policy (KDPB).

KKP Meetings

Below are the provisions in KKP meetings:

- KKP meetings are held as necessary at a minimum of once within 1 (one) year.
- KKP meetings meet quorum if attended by at least 2/3 (two-thirds) of the number of members.

Decision Making

Following are the provisions in decision making.

- Decision making in regard with the use of KKP authority can be done through circulars to KKP members or a valid KKP meeting.
- A decision of KKP meeting is valid and binding if approved by more than half the number of present members.

Accountability /Work Realization Reporting

- A written report is submitted to the Board of Directors on a regular basis, with copies to the Board of Commissioners regarding the results of controlling, monitoring, and evaluating the Basic Bank Credit Policy (KDPB), as well as advice for necessary improvement.
- Other data and information related with the the results of controlling, monitoring, and evaluating of activities.

KKP Work Program and Realization in 2015

1. To recommend the authority delegation policy in deciding the category of credit under Commercial and Corporation.
2. To prepare the Accountability and Work Realization Report of the Credit Policy Committee and submit it to the Board of Directors with copies to the Board of Commissioners.

CREDIT COMMITTEE

The mission of the Credit Committee (KK) is to assist the Board of Directors in making loan evaluations and/or loan approval decisions within the authorized limits set by the Board of Directors as stipulated in the Company's Articles of Association with regards to BCA's business development without abandoning the prudence principles.

Main Functions of the Credit Committee

- To provide credit guidance and to conduct a more intensive and comprehensive credit analysis when necessary.
- To provide decisions or recommendations on credit approval proposals submitted by the referral/proposal associated with:
 - Large Loans;
 - Specific Industries; and,
 - Special requests from the Board of Directors.
- To coordinate with the Asset & Liability Committee (ALCO) on funding and adjustments of interest rates for corporate loans.

Level of Credit Committee

In carrying out its duties, the Credit Committee is grouped under the following credit categories:

1. Corporate Credit Committee
2. Commercial Credit Committee.

Credit Committee Authority

The authority of the Credit Committee includes making credit decisions or providing recommendations for the draft of credit decisions, by referring to the provision concerning the Authority to Terminate Credit as contained in the Corporate Credit Policy Manual and Commercial Credit Policy Manual.

Following is the scope of authority vested in the Credit Committee:

- In terms of the magnitude of authority:
The Credit Committee has the authority to terminate credit in accordance with the authorized maximum amounts specified for each type of borrower.
- In terms of the object of credit decisions:
 - Giving credit decisions for corporate and commercial categories above a certain value.
 - Providing a decision on proposed credit facilities.
 - Determining the take over/purchase of loans that have or have not been restructured from other financial institutions.

Description:

¹⁾ Decision making through meetings conducted by voting mechanism

^{**)} Duties of Committee Chairman may be alternated among Group Heads based on the relevant commercial loan exposure handled

^{***)} Has voting rights in the decision of loan restructuring, loan settlement and matters relating to risk management

Main Duties of Credit Committee Members

The main duties of Credit Committee are stated below:

- To provide direction for more comprehensive credit analysis of specific credit when necessary, should information presented be insufficient for decision-making;
- To give consideration to draft decisions, proposals and recommendations submitted by the provider of the recommendation/proposer;
- To decide on credit based on professional skills in an honest, objective, accurate, and thorough fashion;
- To provide input to the Credit Committee secretary regarding the meeting needs.

Credit Committee Meetings

The following are several provisions on Credit Committee Meetings:

- Credit Committee Meetings are held as necessary with at least 6 (six) meetings per year;
- Meetings can be held and declared to meet quorum if attended by at least 3 (three) Permanent Members;
- Meetings can be conducted through teleconference;
- For the Corporate Credit Committee, the Compliance Director or his alternate shall attend every Credit Committee meeting;
- Commercial Credit Committee meetings can be done both at the Head Office and Regional Offices;
- Details of each Credit Committee meeting must be noted in minutes of meetings.

Decision Making

The following are provisions on decision making:

- Decision making on credit can be made via the approval for the draft decision, which is circulated in writing or approval confirmation via email (memo circulation) to the members of the Committee or through Credit Committee meetings. If a circulated draft decision is not approved by one member of the Committee, then the secretary has to schedule a Credit Committee meeting immediately;
- For the Corporation Credit Committee, if the credit decision that was taken at a Credit Committee meeting has not complied with the authority of the Board of Directors in the loan approval; therefore, the draft decision is circulated to seek credit approval from other Directors and/or Board of Commissioners;
- Monitoring and Resource Persons do not have voting rights in the credit decision.

Accountability of Credit Committee

Accountability of Credit Committee can be delivered through the minutes of Credit Committee meeting, circulated decision memoranda, and periodic Credit Committee reports.

PERSONNEL CASE ADVISORY COMMITTEE

The Personnel Case Advisory Committee (KPKK) was established with the mission to provide recommendations to the Board of Directors regarding the settlement of personnel cases based on the principles of justice and equality by analyzing cases of violations of policy and/or possible illegal activity undertaken by employees.

Main Functions of KPKK

- To review cases of violations and/or crimes committed by employees, which require decision by the Board of Directors for follow-up settlement.
- To give consideration to the Board of Directors in determining follow-up settlement of cases of violations and/or crimes, which include the imposition of sanctions, revamping operational procedures and systems and processing legal cases if necessary.
- To periodically review the settlement of violations and/or crimes that were implemented by the Heads of Branch Offices and Regional Office.
- To provide advice and guidance (if necessary) to branches and regions in handling cases of violations and/or crimes.

KPKK Authority

KPKK has the authority to make suggestions/recommendations to the Board of Directors concerning the settlement of violations and/or crimes committed by employees.

Membership of the Personnel Case Advisory Committee and Voting Rights

Position	Filled By	Voting Rights Status
Chairman (concurrently as Member)	Head of Human Capital Management	Reserves Voting Rights
Permanent Members	• Head of Internal Audit Division	Reserves Voting Rights
	• Head of Legal Group	Reserves Voting Rights
	• Head of Operation Strategy & Development Division	Reserves Voting Rights
Non Permanent Members	• Head of Network Management Unit and Regional Planning	Reserves Voting Rights
Secretary	• Head of Branch Audit Subdivision	No Voting Rights

Main Duties of KPKK

KPKK members have voting rights, with the main tasks of providing analysis and consideration at meetings in order to formulate suggestions/ recommendations in regard with:

- Imposition of sanctions;
- Improving systems and operational procedures;
- Processing of legal cases.

KPKK members who are unable to attend the meeting can be represented by other officials (with a level equal to the Deputy Head or Division Head) appointed by the member concerned.

KPKK Meetings

The following are several provisions of KPKK Meetings:

- KPKK meetings are held as necessary.
- Voting rights are held by members.
- KPKK meetings meet quorum if attended by at least 2/3 (two thirds) of the number of members.

Decision Making

The following are several provisions of KPKK meetings and decision making:

- Decision-making in relation to the use of authority of the Committee can only be taken for decisions from legitimate KPKK meetings.
- Decisions of KPKK meetings can be in form of:
 - A recommendation to the Board of Directors agreed upon by all members, or
 - More than one recommendation (if consensus is not reached).

Accountability/Work Realization Reporting

Realization of KPKK work reported through:

- Minutes of KPKK regular meetings.
- Minutes of KPKK special meetings held to discuss specific issues.

Frequency and Attendance of the Board of Directors and Other KPKK Members in the 2015 KPKK Meetings

During 2015, KPKK conducted 10 (ten) meetings and meeting attendance rate has reached quorum. The Chairman and members of KPKK are Executive Officers under the Board of Directors.

Realization of KPKK Work Program in 2015

Throughout 2015, KPKK held 10 (ten) meetings. Realization of the KPKK work program is to provide input in the form of information, analysis and judgment to make recommendations to the Board of Directors on several offenses committed by employees that required

the Board's decision for follow-up settlement, including the imposition of sanctions and/or improvement of systems and operational procedures and/or processing of legal cases.

CORPORATE SECRETARY

The Corporate Secretary is primarily responsible for maintaining the BCA image and safeguarding the best interests of BCA by fostering communication and good relations with stakeholders. Corporate Secretary is also responsible for supporting the Board of Directors and Board of Commissioners in running the Company. In addition, the Corporate Secretary performs the BCAs secretarial duties, manages public relations, ensures the Bank's compliance with industry and capital market authorities, and supports the implementation of GCG.

Position and Officer of Corporate Secretary

The Corporate Secretary is appointed and installed by the Board of Directors, and responsible to the President Director. The position of Corporate Secretary is at par with a Division Head.

BCA's incumbent Corporate Secretary is Inge Setiawati, who has been in office since 1 August 2011 pursuant to Board of Directors Decision No.1289/SK/DHR/A/2011 issued by the Board of Directors on 1 August 2011. Corporate Secretary domiciled in Indonesia.

The educational background and work experience of the Corporate Secretary is provided in the Corporate Data section on page 571 of this Annual Report.

Duties and Responsibilities of the Corporate Secretary

Duties and responsibilities of Corporate Secretary, among others, are as follows:

- Represent the Board of Directors in liaising with public and private agencies/institutions.
- Monitor BCA's compliance to the provisions of the laws and regulations applicable in the Capital Markets and Stock Exchange.
- Support the implementation and enforcement of Good Corporate Governance within BCA.
- Manage and develop BCA's positive image by fostering internal and external relations through public relations activities.
- In regard with Company operations, support adherence by the Board of Directors and Board of Commissioners to BCA's Articles of Association and other policies, among others in implementing corporate actions.
- Monitor activities under the corporate secretariat, protocol, correspondence and document-keeping related to the Board of Directors and Board of Commissioners.
- Manage and monitor the implementation of corporate social responsibility (CSR), social awareness programs as well as BCA corporate sponsorship in an effort to provide guidance to stakeholders.
- Establish communication and good relations with internal and external parties, and business partners.
- Remain updated on laws and regulations related to the capital market, good corporate governance and banking.
- Organize the GMS, corporate actions and public expose (together with Investor Relations).
- Coordinate with the relevant internal work units and external parties/institutions to facilitate corporate activities and boost work effectiveness related to activities carried out by the Board of Directors and Board of Commissioners, and Board of Commissioners' Committees.
- Coordinate/monitor activities associated with the receipt and delivery of corporate information and the convening of the Board of Directors and Board of Commissioners' meetings.
- Provide stakeholders with the necessary services for any information needed concerning BCA.
- Act as the contact person (liaison officer) between BCA and the Financial Services Authority (OJK), Indonesian Stock Exchange, other capital market authorities and the public.
- Perform activities that support the implementation of transparency, primarily related to BCA's performance through communication with relevant parties.

Overview of Duties Fulfilled by the Corporate Secretary in 2015

Throughout 2015, the Corporate Secretary carried out the following activities:

1. Organized the 2015 AGMS.
2. Conducted GCG Implementation self-assessment of BCA and integrated governance for the first and second semester of 2015.
3. Prepared the GCG Implementation Report for 2015.
4. Formulated "Corporate Governance" and "Corporate Social Responsibility" to be included in the 2015 Annual Report.
5. Developed implementing corporate governance according to the ASEAN Corporate Governance Scorecard.
6. Organized a sports and cultural event in celebration of BCA's 58th anniversary on February 2015 across Jakarta, Bogor, Depok, Tangerang and Bekasi that involved employees and public from various regions and BCA branches in Jakarta, Bogor, Depok, Tangerang and Bekasi.
7. Conducted Public Expose (together with Investor Relations).
8. Held press conferences and analyst meetings on a quarterly basis.
9. Convened the National Working Meeting (together with other work units).
10. Developed and implemented CSR programs and activities.
11. Prepared press releases on BCA's performance and progress.
12. Developed BCA's corporate communication materials such as publications of financial statements through the mass media, advertisements during national holidays, and others.
13. Developed and implemented BCA sponsorship activities in keeping with Company policies.
14. Developed means of communication and organized internal events, such as BCA's anniversary celebration, retired employee gatherings and social gatherings to celebrate Eid al-Fitr, Christmas and New Year.

Competency-Building Training Programs for Corporate Secretary

Training programs which the Corporate Secretary has participated in are as follows:

- Activation Strategy "Developing Your Communication Strategy"
- Indonesia Knowledge Forum
- ICSA "Socialization of the Financial Services Authority Regulation"
- ASEAN CG Scorecard In House Training
- Socialization of the Integrated Governance for Financial Conglomeration Guidelines
- Workshop on the Preparation of 2015 Sustainability Report
- BCA's Knowledge Sharing Open Source "A Corporate Heritage"

INVESTOR RELATIONS FUNCTIONS

The main Duty of Investor Relations in 2016

The main duty of Investor Relations is to represent the Board of Directors in liaising with investors, the capital markets (community) and shareholders, including to:

1. Formulate communication strategies, specifically toward investors, potential investors, analysts, fund managers and the capital markets in general.
2. Prepare the necessary materials and implement organize various activities such as road shows, analyst meetings and conference calls.
3. Communicate various matters related to BCA shares, performance, and Financial Statements to parties such as fund managers, investors and potential investors.

Note:

^{*)} Others come from Japan, Malaysia, Thailand, Australia, Africa, South Korea & United Arab Emirates

The Frequency of Monthly Investor Relations Activities in 2015

INTERNAL AUDIT DIVISION

The Internal Audit Division was established to generate added value and improve BCA's operations through independent and objective audits to provide assurance as well as consulting activities.

In carrying out its functions, the Internal Audit Division assesses the adequacy and effectiveness of risk management, internal control and governance, and offers consultation internally within BCA for those requiring such services.

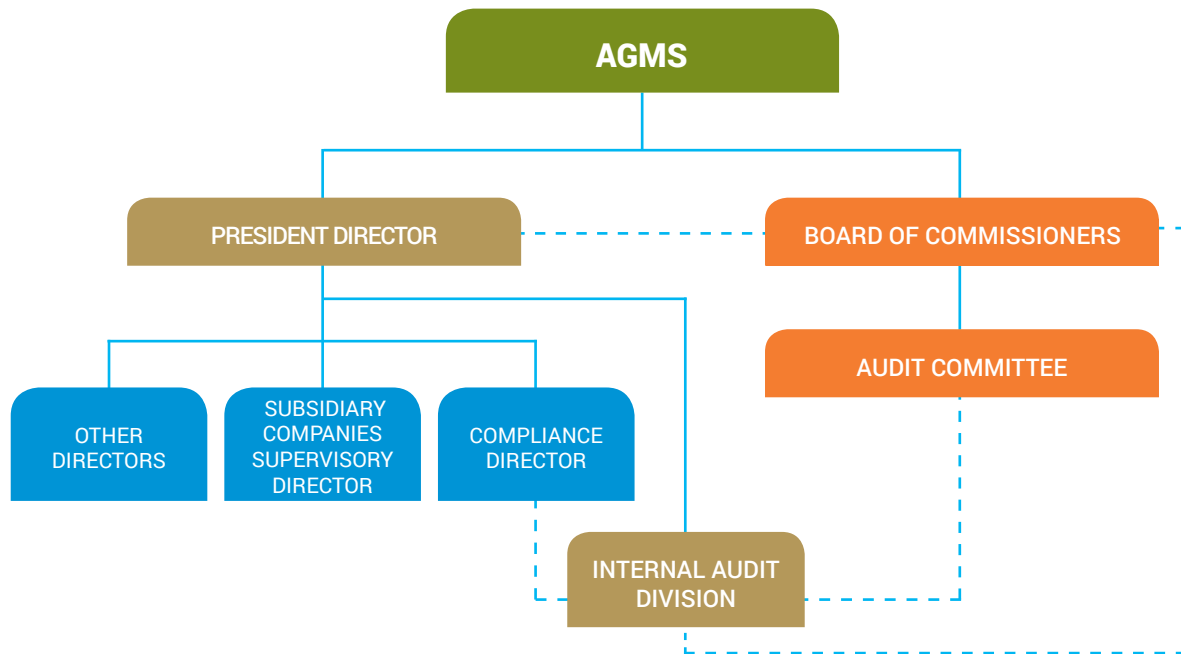

In line with the enactment of the Financial Services Authority Regulation POJK No.18/POJK.03/2014 concerning Application of Integrated Governance for Financial Conglomerates, the Internal Audit Division

also carries out the integrated internal audit functions to support the application of integrated governance for BCA as Financial Groups.

Structure and Position of Internal Audit Division

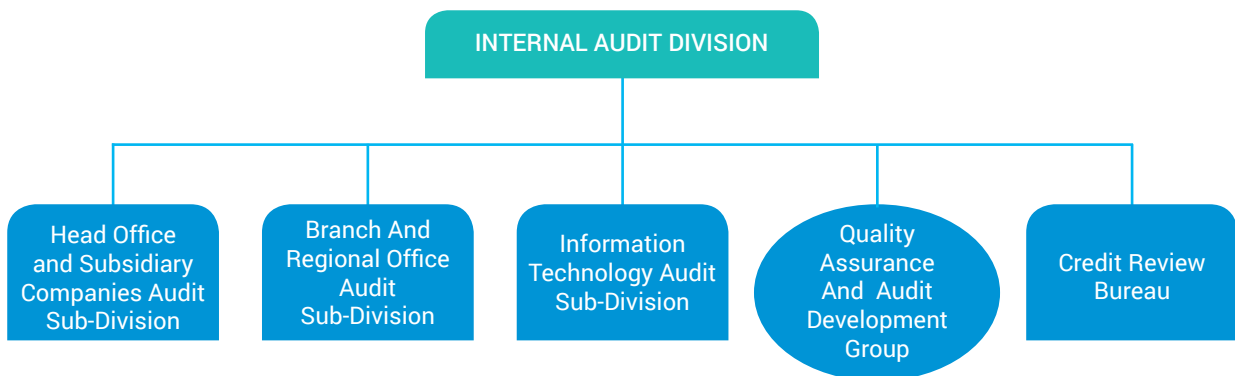

The Head of the Internal Audit Division is responsible to the President Director. Jacobus Sindu Adisuwono currently serves as the Division Head since 1 November 2008 in accordance to Directive No.1390/SK/DHR/A/2008 concerning the Appointment of Employees signed by the President Director on 24 October 2008, with approval from the Board of Commissioners. The Division Head has considerable experience in internal auditing and has earned certification for internal audit professionals, namely the Certified Internal Auditor (CIA) and Qualified Internal Auditor (QIA).

The Position of Internal Audit Division in BCA's Organizational Structure

Description :
 ----- Communication line

Organizational Chart of Internal Audit Division

Duties and Responsibilities of the Internal Audit Division

1. Formulate and implement an annual risk-based audit plan and report on its realization.
2. Test and evaluate risk management, internal control and governance in order to assess its adequacy and effectiveness.
3. Conduct credit quality assessment.
4. Offer recommendations for improvements and objective information on audited activities.
5. Conduct special investigations/examinations at the request of the Board of Commissioners, Audit Committee, Board of Directors and work units or based on specific indications.
6. Monitor, analyze and report on follow-up actions which the auditee has undertaken as recommended according to audit results.
7. Act as consultant for BCA's internal parties in need of such services, primarily in regard to the Internal Audit Division's scope of duties.
8. Monitor the implementation of internal audit functions at each subsidiary company in order to perform the integrated internal audit functions.
9. Develop and submit the Integrated Internal Audit Reports.

Implementation Standards

Activities carried out by the Internal Audit Division refer to the Internal Audit Work Manual and Charter in accordance to the Board of Directors Decision Letter No. 074A/SK/DIR/2012 of 30 April 2012 which was issued in compliance with the Implementation Standard of the Banking Internal Audit Function established by Bank Indonesia and provisions on the Establishment and Guidelines for Formulating an Internal Audit Charter laid out by Bapepam-LK. As a source of reference for global best practices, the Internal Audit Division also abides by the standards and code of ethics issued by the Institute of Internal Auditors (IIA) and the Information System Audit & Control Association (ISACA).

The effectiveness of the Internal Audit function and its compliance with the Implementation Standard of the Banking Internal Audit Function (SPFAIB) is reviewed by an independent external party at least every 3 (three) years. The most recent review was conducted by an external assessor in late 2013.

Scope

The scope of the internal audit covers the activities of all Branch Offices, Regional Offices, Divisions, Work Units and Business Units at the Head Office and Subsidiaries, and BCA activities outsourced to third parties.

Independence

The Internal Audit Division is independent to operational work units. The Division Head is accountable directly to the President Director and may communicate directly with the Board of Commissioners and Audit Committee.

The Internal Audit Division's meeting with the President Director and Audit Committee was held 8 (eight) times in 2015, while meetings with the Board of Commissioners are convened every semester.

The appointment, replacement and dismissal of the Internal Audit Division Head is done by the President Director upon approval by the Board of Commissioners, and reported to the Financial Services Authority.

Number of Auditors in the Internal Audit Division

The Internal Audit Division is supported by 185 auditors (as of 31 December 2015) with diverse position levels, experiences and professional certification, as provided below:

Job Position:

• Division Head	: 1 person
• Deputy Division Head	: 4 person
• Audit Adviser	: 17 person
• Senior Audit Officer	: 25 person
• Audit Officer	: 39 person
• Associate Audit Officer	: 77 person
• Assistant Audit Officer	: 10 person
• Senior Staff	: 12 person

Experience:

• 0 to < 3 years	: 71 person
• 3 to < 9 years	: 52 person
• 9 to < 15 years	: 17 person
• ≥ 15 years	: 45 person

Professional Certification:

1. Qualified Internal Auditor : 29 persons
2. Certified Information System Auditor : 4 persons
3. Certified Internal Auditor : 1 person
4. Certified Fraud Examiners : 1 person

Reporting

The Internal Audit Division submits reports to the following:

1. Board of Commissioners, Audit Committee and Board of Directors, consisting of:
 - a. Audit Report.
 - b. Summary Report of Follow-Up to Audit Results.
 - c. Report of Audit Realization.
 - d. Integrated Internal Audit Report
2. The Financial Services Authority concerning the implementation of the Internal Audit function, which consists of:
 - a. Report on the Implementation and Fundamental Results of Internal Audit.
 - b. Special reports on any internal audit findings that may disrupt the sustainability of banking operations.
 - c. Report on external assessor's review that provides opinions on the work performance of the Internal Audit Division and its compliance with the Implementation Standard of the Internal Audit Function in Banking and improvements that may be made.

Internal Audit Division Activities in 2015

Activities carried out by the Internal Audit Division in 2015 focused on the following:

1. Renewal of the Strategic Audit Plan 2016-2018 by referring to the Bank's Business Plan for 2016-2018 and expectations of the Board of Commissioners, Audit Committee and Board of Directors expressed in various occasions.
2. Conducted an audit of Branch Offices, Regional Offices, Divisions/Work Units of the Head Office and Subsidiaries as determined according to the results of a risk assessment.

3. Conducted IT governance, in line with the increasing complexity of information technology being applied.
4. Performed an audit on Internet Banking and Mobile Banking processes in line with the increasing transaction volume carried through these delivery channels.
5. Conducted a thematic audit of Management of Outsourcing in line with the greater number of activities being outsourced.
6. Conducted an audit of the SME, commercial, and corporation credit processes in order to maintain high credit quality.
7. Enhanced the effectiveness of methodologies by developing and implementing continuous auditing to support the role of the audit process as an early warning system.

Focus of Audit Plan in 2016

1. In 2016, the audit process will focus on the following:
 - Implementation of consumer protection in compliance with the existing provisions from regulators.
 - Implementation of Branchless Banking, a new activity.
 - Implementation of Internal Control Over Financial Reporting in regard to Good Corporate Governance.
 - Internal control adequacy related to Automatic Teller Machines (ATM) due to incidents of external fraud at ATMs in Indonesia.
 - Implementation of the Internal Capital Adequacy Assessment Process (ICAAP) in compliance with Bank Indonesia regulation.
2. Performing audits of branch offices, regional offices, divisions/work units in the Head Office and Subsidiaries as determined according to the results of risk assessments.
3. Continue developing an Audit Management System for improving the efficiency and effectiveness of managing internal audit activities.
4. Developing and implementing continuous audits and analytical review to support the role of the audit mechanism as an early warning system.

PUBLIC ACCOUNTANT (EXTERNAL AUDIT)

In an effort to ensure that the External Audit function is implemented in compliance with the Financial Services Authority Regulation No. 6/POJK/2015 on Transparency and Publication of Bank Reports, and Bank Indonesia Circular Letter No. 3/32/DPNP on the Relationship between Banks, Public Accounting Firms and Bank Indonesia, BCA has undertaken the following measures:

1. BCA Financial Statements were audited by an independent, competent, and professional Public Accountant, who exercised due professional care.
2. The Public Accountant appointed by BCA conducted the audit according to professional standards, the work agreement and scope of the audit function.
3. In keeping with the resolution of the AGMS, the Board of Commissioners appointed the Public Accounting Firm and determined the fee involved by taking into account the recommendations provided by the Audit Committee.
4. Appointment of the Public Accounting Firm had been conducted in accordance with applicable provisions, among others:
 - The Public Accounting Firm and Public Accountant (partner-in-charge) are registered with the Financial Services Authority/Bank Indonesia. BCA only took into consideration 4 (four) of the largest Public Accounting Firms registered with the Financial Services Authority/Bank Indonesia.

- The Public Accounting Firm does not provide other services to BCA for the year in question, preventing the likelihood of a conflict of interest.
- The Public Accounting Firm only renders audit services for an audit period no longer than 5 (five) consecutive fiscal years.

The Siddharta Widjaja & Rekan Public Accounting Firm in affiliation with KPMG International was appointed as BCA's auditor to conduct an audit of the Bank's financial statements for the fiscal year ending 31 December 2015, for an estimated fee of Rp 7,050,000,000 (excluding VAT).

5. BCA grants power to the Public Accounting Firm to submit the audited financial statements accompanied with a Management Letter to the Financial Services Authority no later than 3 (three) months after the fiscal year.

Public Accounting Firms and Public Accountants Who Have Audited BCA's Financial Statements

	2015	2014	2013	2012	2011
Public Accounting Firm	Siddharta Widjaja & Rekan	Siddharta Widjaja & Rekan	Siddharta & Widjaja	Siddharta & Widjaja	Purwantono, Suherman & Surja
Public Accountant	Kusumaningsih Angkawijaya	Elisabeth Imelda	Elisabeth Imelda	Elisabeth Imelda	Peter Surja

COMPLIANCE FUNCTION

BCA formed the compliance function to reflect its commitment to comply with the existing law and regulations. The compliance function in BCA acts as implementor and manager of compliance risks, and performs preventive supervisory duties. This has to be

done by BCA considering the Bank is an industry that is highly regulated and supervised by regulators. In addition, the increasing complexity of bank operations also creates significant impact on the risk exposure faced by the Bank, including compliance risks.

To manage and mitigate the compliance risks, BCA has appointed one Director as Compliance Director to oversee the compliance function. In carrying out these duties, BCA formed a Compliance Work Unit that is independent, separate and free from the influences of other work units.

The Compliance Work Unit is at the same level as Divisions at the Head Office and directly responsible to the Compliance Director. The Compliance Work Unit is also responsible for implementing policies related to compliance functions, as well as implementation of Anti-Money Laundering and Prevention of Terrorism Financing.

In order to ensure the implementation of BCA's compliance function, the Board of Directors and Board of Commissioners also perform active supervision in many forms, such as approval of policies and procedures, periodic reporting, requests for explanations, and meetings.

Compliance-Related Activities in 2015

Pursuant to Bank Indonesia Regulation No.13/2/PBI/2011 of 12 January 2011 on the Compliance Function of Commercial Banks, the Bank's compliance function covers actions aimed at:

1. Instilling a compliance culture at all organizational levels and business activities of the Bank.
2. Managing compliance risks facing the Bank.
3. Ensuring that the Bank's policies, provisions, systems, procedures and business activities are in conformity with Bank Indonesia policies and other applicable laws and regulations, including the Sharia Principle for Sharia-compliant Commercial Banks and Business Units.
4. Ensuring compliance of the Bank with the commitment made with the Bank of Indonesia and/or other supervisory authorities.

In fulfilling its function, the Compliance Work Unit undertakes preventive measures (ex-ante) to prevent violations as well as curative steps (ex-post) to ensure improvements.

The following activities were conducted by the Compliance Function in 2015:

1. In order to encourage the Compliance Culture to be formed:
 - Disseminated new provisions from regulators to other units.
 - Sensitized BCA employees and customers on relevant regulations.
 - Provided information on the Financial Services Authority and Bank Indonesia regulations and other laws and regulations in the BCA employee intranet.
 - Enrolled Compliance Unit personnel in various training sessions, seminars and sensitization events to improve quality, including their active participation in a working group known as the Communication Forum of Banking Compliance Directors (FKDKP) and in compliance certification programs held by the Banking Professional Certification Institute (LSPP).
 - Performed a consultative function in relation to the implementation of prevailing laws and regulations by offering advice/feedback to questions posed by work units or branches, and through e-mail, memorandums and discussions by phone or meetings.
2. In order to manage compliance risks and ensure that all policies, provisions, systems and procedures, and business operations carried out by the Bank are in conformity with the prevailing regulations:
 - Conducted a gap analysis and examined the impact of new policies on BCA operations.
 - Proposed adjustments to internal manuals, policies and procedures.
 - Reviewed and offered input on new products and activities in the pipeline to ensure that they conform to applicable laws and regulations.
 - Reviewed draft internal policies to be issued to ensure conformity of internal policies with existing laws and regulations.
 - To conduct study adherence to the release of the corporate credit.
 - Tested the level of compliance toward the implementation of policies by branch offices in cooperation with Branch Internal Supervisors.

- Updated the database of existing regulations.
 - Monitored the level of compliance with applicable policies related to practices and principles of prudent banking (KPMM, GWM, PDN, BMPK, NPL). Throughout 2015, in general, there were no violations of policies related to the principle of prudential banking.
 - Monitored the submission of reports to regulators.
 - Monitored the imposition of sanctions/penalties by regulators.
 - Assessed compliance risks and prepared a quarterly compliance risk profile report as part of an effort to effectively manage compliance risks.
 - Ensured operational preparedness for the opening, relocation and closing of offices through coordination with Network Management and Regional Planning Unit as coordinators, and reviewed submitted documents.
 - Coordinated with related units in performing the Risk-Based Soundness Level of the Bank.
3. To ensure the Bank's compliance with the commitments pledged to regulators:
- Monitored BCA's commitment to OJK, BI and other regulators, together with the Internal Audit Division (DAI).
 - Monitored and followed up on requests for data/information from OJK and BI relating banking supervision.

In line with the implementation of POJK No.18/POJK.03/2014 dated 18 November 2014 on Integrated Governance for Financial Groups, the Compliance Work Unit included the Integrated and Corporate Compliance Aspect to be at least responsible for monitoring and evaluating the compliance function of each financial service provider within the Financial Group.

In implementing its duties, Integrated Corporate Compliance has engaged in discussions on implementing the compliance function in each BCA subsidiary to gain a deeper understanding of the fulfillment of the compliance function in the respective subsidiary. Monitoring and evaluation is also conducted through reports submitted

by each subsidiary in a view to prepare the Integrated Risk Profile Report regarding compliance risks as a part of PT BCA Tbk's Integrated Risk Profile Report. This report was submitted in August 2015 for the first time. In addition, Integrated Corporate Compliance also handed in an Integrated Compliance Report to the Compliance Director.

Know Your Customer and the Supporting and Information in the Implementation of Anti-Money Laundering and Prevention of Terrorism Financing in 2015

Pursuant to Bank Indonesia Regulation No.14/27/PBI/2012 of 28 December 2012 concerning the Implementation of the Anti-Money Laundering and Counter Terrorist Financing (AML and CFT) Programs for commercial Banks, a special unit responsible for conducting the AML and CFT must undertake the following measures:

- a. Prepare and propose guidelines for implementing the AML and CFT programs to the board of directors.
- b. Ensure:
 - 1) the establishment of a support system for the AML and CFT programs;
 - 2) policies and procedures are in line with the latest developments in the AML and CFT areas, as well as the bank's product risks, activities and complexities of the banking business and transaction volume;
- c. Monitor:
 - 1) updates in customer profiles and transactions;
 - 2) that the bank has an effective communication mechanism in place in each work unit related to the special unit or to the officer responsible for implementing the AML and CFT programs while maintaining the confidentiality of information;
 - 3) relevant work units to ensure that they perform their duty of preparing reports on alleged Suspicious Financial Transactions to be submitted to the special unit or officer in charge of implementing the AML and CFT programs;
 - 4) the bank to ensure that it has identified high-risk areas related to the implementation of the AML and CFT programs by referring to applicable policies and adequate information.
- d. Coordinate and monitor the implementation of the AML and CFT policy with those relevant work units liaising with customers.

- e. Receive any report on potentially suspicious money transactions or red flags from those relevant work units liaising with customers and conduct an analysis of the report.
- f. Prepare reports on Suspicious Financial Transactions and other reports as laid out in laws related to the prevention and eradication of money laundering to be handed over to PPATK upon approval of the director overseeing the compliance function.
- g. Monitor, analyze and recommend any need for training on the AML and CFT program for bank employees.

In carrying out Bank functions in 2015, Know Your Customer activities included the following:

- Refined the Implementation Policy of the Anti-Money Laundering and Prevention of Terrorism Financing Programs of BCA that have been approved by the Board of Commissioners.
- Completed the system for filtering outgoing money transfers as part of an effort to improve the STIM application.
- Coordinated the updating of customer data by setting targets and monitoring their realization.
- Monitored dubious financial transactions by applying the Suspicious Transaction Identification Model (STIM).
- Reviewed plans for the launching of new products and activities to ensure they conform to AML and CFT regulations.
- Updated the OFAC List and UN List as a terrorist database to filter customers and transactions.
- Conducted a compliance test on the implementation of AML and CFT in branch offices in cooperation with the Branch Internal Supervisor.
- Reported suspicious financial transactions and cash transfer transactions from and to overseas to PPATK (Financial Transaction Reporting and Analysis Center).
- Conducted training and sensitization of AML and CFT in a continuous manner.
- Developed e-learning material on the implementation of AML and CFT.
- Distributed a comic book on AML and CFT to all branch offices and the head office as part of socialization efforts.

Indicators of Compliance in 2015

- The minimum Capital Adequacy Ratio (CAR), which includes credit, market, and operational risks, is 18.67% and is above the applicable regulation of 9% - 10% (the minimum CAR based on BCA's risk profile is in rank 2).
- The NPL ratio (net) is 0.22%, within the range of the applicable provision of 5% (net) maximum.
- There was no excess or violation to the maximum Legal Lending Limit either to related parties or business groups.
- Minimum Statutory Reserves in Rupiah – Main 7.54% and Secondary 7.44% already comply with the existing provision concerning Minimum Statutory Reserves in Rupiah.
- Minimum Statutory Reserves in Foreign Exchange at 9.12% already comply with the existing provision concerning Minimum Statutory Reserves in Foreign Exchange.
- Foreign Exchange position is 0.41%, significantly above the limit allowed by the regulatory provision of a maximum 20% of the capital.
- Commitments to the Financial Services Authority, Bank Indonesia and other authorities have been well-accomplished.

IMPLEMENTATION OF RISK MANAGEMENT

The Board of Commissioners and Board of Directors are responsible for implementing risk management and the internal control system within BCA. The implementation of risk management and the internal control system covers the following:

- Robust supervision by the Board of Commissioners and Board of Directors.
- Adequacy of policies, procedures and limit setting.
- Adequacy of the process of risk identification, measurement, monitoring and control, and the risk management information system.
- Internal control system.

BCA effectively applies risk management and the internal control system in keeping with business goals and policies, as well as BCA's business size and complexities by complying with the requirements and procedures set forth in regulations issued by Bank Indonesia (BI) and the Financial Services Authority (OJK), as well as referring to best practices through the following actions:

1. Identify and control all risks, including risks arising from new products and activities.
2. Establish a Risk Oversight Committee to ensure that the existing risk management framework provides adequate protection for all BCA risks, with the primary duty of offering recommendations and opinions in a professional and independent manner regarding the appropriateness of policies with the implementation of risk management policies to the Board of Commissioners, and monitoring and evaluating the duties carried out by the Risk Management Committee and Risk Management Unit.
3. Establish a Risk Management Committee with the primary responsibility of formulating risk management policies, strategies and implementation guidelines, improving the effective implementation of risk management based on results of the evaluation of the risk management process and system, and deciding on matters related to business decisions that deviate from normal procedures (irregularities).
4. Establish a Risk Management Unit (Integrated) to ensure that the risks facing the Bank and Subsidiaries are identified, measured, monitored, controlled and accurately reported in an integrated manner by applying the appropriate risk management framework.
5. Manage risks and make sure that the necessary policies and risk limit setting are in place and supported by procedures, reports and information systems that provide accurate and timely information and analysis to the management, including in determining the required measures in dealing with changes in market conditions.
6. Ensure that the existing work systems and procedures pay heed to operational and business dimensions as well as the level of risk that may occur in work units.
7. Ensure that the internal control system is implemented according to applicable policies.
8. Monitor BCA's compliance with principles applied for the management of a healthy bank in conformity with existing policies through the Compliance Unit.
9. Prepare the BCA Risk Profile Report on a quarterly basis and the Integrated Risk Profile Report every semester to be submitted to OJK in a timely fashion.

Risk Management System

In regard to risk control, BCA implements the Risk Management Framework in an integrated manner as embodied in the basic Risk Management Policy. The framework serves as a means for determining BCA strategies, organization, policies, guidelines and infrastructure to help ensure that all risks that BCA needs to deal with can be effectively identified, measured, controlled and reported.

In order for risk management to be implemented effectively and optimally, BCA has established a Risk Management Committee to comprehensively discuss risk-related issues and recommend risk management policies to the Board of Directors.

Apart from the Committee above, BCA has also formed several other Committees assigned to deal with more specific risks, among others the Credit Policy Committee, Credit Committee and Asset and Liability Committee (ALCO).

BCA consistently assesses risks in a comprehensive manner related to the planned launching of new products and activities according to the type of risk set forth in PBI No.5/8/PBI/2003 dated 19 May 2003 and its amendments, among others through PBI No.11/25/PBI/2009 of 1 July 2009 and SEBI No. 11/35/DPNP of 31 December 2009.

Managed risks

There are 8 (eight) types of risks that are being managed:

1. Credit Risk

- Credit organizations undergo continual improvements based on the "four eyes principle" whereby credit decisions are made according to two considerations: business development and credit risk analysis.
- BCA has established a basic Bank Lending Policy (KDPB) that is constantly refined in line with developments in BCA and regulations issued by Bank Indonesia and the Financial Services Authority, and according to international best practices.

- The credit risk management system and procedure is refined through the development of a Loan Origination System for the lending process (from start to finish) to ensure an effective and efficient credit process. A debtor risk profile assessment system is constantly improved to ensure its comprehensive implementation, as is the case for the development of a credit database.
 - To maintain credit quality, it is necessary to regularly monitor the quality of loans, both by credit category (Corporate, Commercial, Small and Medium-Sized Enterprise/SME, Consumer and Credit Card) and credit portfolio as a whole.
 - BCA has developed its credit risk management system through the stress testing of credit portfolios and monitoring the results of these stress tests. In responding to a changing market and economic turbulence, BCA periodically conducts stress testing. Stress testing is beneficial for the Bank as a tool for estimating the risk impact under stressful conditions which will help BCA devise the most appropriate risk mitigation strategy as part of implementing the contingency plan.
 - In monitoring and controlling credit risks in subsidiaries, BCA regularly monitors the credit risks of its subsidiaries while ensuring that an effective Credit Risk Management Policy is in place in subsidiaries.
- To measure foreign exchange risks, BCA adopts the Value at Risk (VaR) method with the Historical Simulation approach for internal reporting purposes, whereas for calculating provisions its minimum capital requirement BCA applies the Bank Indonesia standard method.
 - A key component of BCA liabilities which are sensitive to interest rate movements is customer deposits, while BCA's interest-sensitive assets are government bonds, securities and loans. ALCO regularly keeps track of market developments and adjusts the interest rate of deposits and loans.
 - BCA sets the deposit interest rate based on market condition and competition by monitoring the movement of the reference interest rate and the interest rates offered by competitor banks.

2. Market Risk

- In managing foreign exchange risks, BCA centralizes the management of its net open foreign exchange position at the Treasury Division, which consolidates daily reports of net open positions from all branches. Each branch is generally expected to cover its foreign exchange risks by the end of each working day, even though each branch has a tolerance limit for its net open position which depends on the volume of foreign exchange transactions at the respective branch. BCA prepares a daily net open position report that combines the net open positions in the consolidated statement of financial position and administrative accounts (off-balance sheet accounts).

3. Liquidity Risk

- BCA places emphasis on maintaining adequate liquidity to fulfill its commitment to customers and other parties in regard to giving out loans, repaying customer deposits and meeting operational liquidity needs. Liquidity needs overall are managed by ALCO, while operationally this comes under the responsibility of the Treasury Division.
- Liquidity risks are measured and controlled by monitoring liquidity reserves and the Loan to Funding Ratio (LFR), analyzing the maturity profile, projecting cashflows and conducting stress tests on a regular basis to observe the impact towards BCA's liquidity under extreme conditions. BCA also follows a contingency funding plan in coping with such extreme situations. Furthermore, in accordance with OJK policies, BCA has conducted a trial run in calculating the Liquidity Coverage Ratio (LCR).
- BCA has complied with provisions related to liquidity as governed in the Bank Indonesia Regulation that makes it compulsory for banks to maintain the Rupiah liquidity (Statutory Reserves) on a daily basis, consisting of Primary Reserves and LFR-Statutory Reserves in the form of Rupiah deposits in Bank Indonesia, Secondary Reserves in the form of

SBI, SDBI, SUN and excess reserves, as well as foreign currency reserves in the form of foreign currency current accounts in Bank Indonesia.

4. Operational Risk

- Basel Accord II requires banks to include operational risks as a component in calculating their capital adequacy. In line with this, BCA implements the Risk Control Self Assessment (RCSA) in all branches/regional offices and in those divisions or work units which have been assessed to have significant operational risks by Head Office. One of the purposes of implementing RCSA is to instill a risk culture and build risk awareness which is a key requirement in risk management.

- BCA also maintains a database of cases/losses related to operational risks that occur in all work units, known as Loss Event Database (LED). LED is mainly maintained as an instrument to record operational losses which BCA will use in calculating capital charge and regularly monitor events that may result in operational losses for BCA.

In addition, BCA also applies LED to analyze cases or problems facing the bank in order to decide on the necessary improvement/preventive measures for minimizing/mitigating the risk of operational losses which may later arise. BCA implements Key Risk Indicator (KRI), which is an application that can help provide an indication (early warning sign) of the likelihood of increased operational risk in work units.

- BCA calculates the Bank's minimum capital requirement for operational risks based on the Basic Indicator Approach according to Bank Indonesia regulations related to the inclusion of operational risks into the calculation of the capital adequacy ratio (CAR), apart from credit risk and market risk.

5. Legal Risk

- Inherent legal risks are assessed according to the potential losses of court cases involving BCA and subsidiaries against the Bank's consolidated capital. The parameter for calculating potential losses from an ongoing court case is the basis

for the lawsuit (position case), value of court case and legal documentation.

- To identify, measure, monitor and control legal risks, BCA has established a Legal Group at the Head Office and legal units in most Regional Offices.
- In mitigating legal risks, the Legal Group has taken the following measures:
 - Developed the Legal Risk Management Policy with internal provisions on the organizational structure and job description of the Legal Group, and standardized the legal documents.
 - Held legal communication forums to build the competency of the legal staff.
 - Sensitized on the impact of new regulations on BCA's banking activities and the various modus operandi of banking crimes, and guidelines on handling such cases through the legal route, to branch officers and the relevant work unit.
 - Provided legal defense for ongoing criminal and civil cases involving the Bank, and monitored progress of the cases.
 - Formulated a loan security strategic plan (in cooperation with other work units, among others the Credit Settlement Bureau) related to non-performing loans.
 - Registered with the authorized body all assets owned by BCA, including intellectual property rights for BCA banking products and services, and the right to BCA land and buildings.
 - Monitored and took legal action on violations against BCA assets, including infringements of BCA's intellectual property rights.
 - Monitored and analyzed ongoing court cases faced by BCA and subsidiaries.
 - Conducted an inventory of, monitored, analyzed and calculated potential losses that may occur due to court cases.

6. Reputation Risk

- Reputation risks are assessed by using parameters such as the number of complaints and negative publicity, and complaints

resolution rate. The assessment is presented in the reputation risk profile report prepared on a quarterly basis.

- To manage and control reputation risks, BCA is supported by the Halo BCA Contact Center (24-hour hotline for information, suggestions and complaints).
- Reputation risks are managed according to the following policies:
 - PBI No.7/7/PBI/2005 dated 20 January 2005 on Customer Complaints Resolution as amended through PBI No.10/10/PBI/2008 of 28 February 2008.
 - SEBI No.7/24/DPNP dated 18 July 2005 on Customer Complaints Resolution as amended through SEBI No.10/13/DPNP of 6 March 2008.
 - PBI No.8/5/PBI/2006 dated 30 January 2006 on Banking Mediation as amended through PBI No.10/1/PBI/2008 of 28 February 2008.
 - PBI No.16/1/PBI/2014 dated 16 January 2014 on Consumer Protection Related to the Payment System Services.
 - POJK No.1/POJK.07/2013 dated 26 July 2013 on Consumer Protection Related to the Financial Service Sector.
 - SE OJK No.2/SEOJK.07/2014 dated 14 February 2014 on Consumer Complaint Services and Resolution for Financial Service Providers.

7. Strategic Risk

- Assessment of Inherent strategic risk is conducted by applying parameters such as the suitability of strategy with the business environment, low-risk and high-risk strategy, BCA's business position and the achievement of the Bank Business Plan.
- Assessment of the quality of strategic risk management implementation is conducted by applying parameters such as risk governance, risk management framework, risk management process, management information system, human resource and adequacy of the risk control system.

8. Compliance Risk

- Pursuant to Bank Indonesia Regulation, BCA has appointed a member of the Board of Directors as Director overseeing the compliance function. In implementing duties, the Compliance Director oversees the compliance function with assistance from the Compliance Unit responsible for managing BCA's compliance risks. The Compliance Unit is also in charge of implementing the Anti-Money Laundering (AML) and Prevention of Terrorism Financing (PTF) programs.
- In assessing inherent compliance risks, the parameters are the type and significance of violations that were committed, frequency of violations or compliance track record, and violation against policies related to specific financial transactions.
- BCA enforces compliance policies and procedures that among others govern on a process for the continual adjustment of internal policies and system with prevailing laws and regulations, communicates policies to relevant employees, reviews new products/activities, conducts periodic compliance tests, provides training for employees and prepares quarterly compliance reports for submission to the Board of Directors and Board of Commissioners.
- BCA has introduced and implemented AML and PTF programs. To help identify suspicious financial transactions, BCA has an application that is constantly improved to enhance its capacity.

In relation to the issuance of Regulation of Financial Service Authority No.17/POJK.03/2014 dated 18 November 2014 and Circular Letter of Financial Service Authority No.14/SEOJK.03/2015 regarding Implementation of Integrated Risk Management for Financial Conglomeracy, the Financial Conglomeracy of BCA in integrated manner manages 10 (ten) type of risks with additional 2 (two) risks as follows:

9. Intra-group Transaction Risk

- Assessment of inherent intra-group transaction risk is conducted by applying parameters such as intra-group transaction composition in the

Financial Group, documentation and fairness of transactions and other information.

- Assessment of the quality of intra-group transaction risk management implementation is conducted by applying parameters such as risk governance, risk management framework, risk management process, MIS and HRD, and adequacy of risk management system.

10. Insurance Risk

- Assessment of inherent insurance risk is conducted by applying parameters such as technical risk, priority of insurance risk towards over all business lines, product risk bias and type of benefit, and reinsurance structure.
- Assessment of the quality of insurance risk management implementation is conducted by applying parameters such as risk governance, risk management framework, risk management process, MIS and HRD, and adequacy of risk management system.

BCA's Integrated Risk profile level in December 2015 is "low to moderate", which reflects a "low to moderate" level of inherent risk and "satisfactory" quality of risk management implementation.

The ranking of risk levels of the 10 (ten) types risk being assessed is as follows:

- Risks with "low" level of risk are Market Risk, Liquidity Risk, Legal Risk, Intra-Group Transaction Risk and Insurance Risk.
- Risks with "low to moderate" level of risk are Credit Risk, Operational Risk, Reputation Risk, Strategic Risk and Compliance Risk.

BCA's Integrated Risk "low to moderate" profile was accomplished because BCA and its Subsidiary Company are able to implement an effective and efficient risk management process in all corporate activities.

The inherent risks trend in the next period is stable because projections show that there will be no significant change to inherent risks.

Similarly, quality of risk management implementation in the future is stable as well. This is because BCA and

Subsidiary Company continually makes enhanced adjustments to the implementation of risk management for all activities which help the Company identify, measure, monitor and control each risk.

INTERNAL CONTROL SYSTEM

BCA's internal control system abides by Bank Indonesia Circular Letter No.5/22/DPNP on Guidelines for Internal Control Systems Standard for Commercial Banks dated 29 September 2003, and cover 5 (five) key components:

1. Supervision by management and a control culture.
2. Risk identification and assessment.
3. Control activities and separation of functions.
4. Accounting, information and communication systems.
5. Monitoring activities and corrective measures for any irregularity.

The five components are in line with the Internal Control Integrated Framework developed by the Committee of Sponsoring Organization of the Treadway Commission (COSO).

Furthermore, BCA has established a business continuity plan and disaster recovery plan to expedite the recovery process in the event of a disaster, with a backup system for preventing high-risk business failures.

The management and employees of BCA play their roles and responsibility in improving the quality and implementation of BCA's internal control.

Parties involved and responsible for implementing BCA's internal control system among others are the Board of Commissioners, Audit Committee, Board of Directors, Internal Audit Division, BCA senior officers and employees, Branch Internal Supervisors, Internal Regional Office Supervisors and Specific Internal Work Unit Supervisors at Head Office.

Implementation of Internal Control

1. Internal control is implemented as follows:
 - a. **Financial Control**, whereby:
 - BCA has prepared a Bank Business Plan that discusses BCA strategies in overall which covers the direction of business development.

- Strategies are formulated by factoring in the impact towards BCA capital, among others capital projections and the minimum capital requirement.
 - The Board of Directors actively engages in discussions to offer input and monitor the internal situation, and keep track of external factors that directly or indirectly affect BCA's business strategy.
 - BCA has implemented a financial control process by monitoring realization against the financial budget in periodic reports and submitted when follow-up action from the Board of Directors is needed.
- b. **Operational Control**, whereby:
- BCA has completed standard operating procedure/work manuals that provide, in detail, the work procedure of each banking operational transaction that BCA undertakes in relation to new products and activities, including the relevant operational risk mitigation measures. The work procedure is developed by the Operational and Service Development and Strategy Division which has been reviewed by various relevant work units to ensure that operational risks that may arise have been effectively mitigated.
 - BCA confers limited powers on officers by imposing a transaction limit and restricted access to IT and computer networks through control of user ID and password, and installing fingerscanners.
 - BCA has established a sound organizational structure complete with supervisory/control units which further support operational control, as provided below:
 - o Separation of functions that may create conflict of interest.
 - o Supervisor oversees the implementation of internal controls in branches on a daily basis.
 - o PIC oversees the implementation of internal controls in branches on a periodic basis.
- o PIKW (Regional Office Supervisor) oversees the implementation of internal controls in Regional Offices.
 - o Internal Supervisor oversees the implementation of internal controls in certain work units at Head Office.
 - o Risk Management Unit, Legal Group and Compliance Unit.
 - o Internal Audit Division:
 - Independent from the risk-taking unit.
 - Examines and assesses the adequacy/effectiveness of the internal control system, risk management and corporate governance by implementing the annual audit plan.
- c. **Compliance to other laws and regulations**, whereby:
- BCA stands firm in the commitment to comply with prevailing laws and regulations and take the necessary steps to improve weaknesses, if any.
 - BCA has established a Compliance Unit independent from operational units in implementing the compliance function.
 - A quarterly Compliance Monitoring Report is prepared related to BCA's Principle of Prudence, to be submitted to the Board of Commissioners and Board of Directors.
 - BCA's Compliance Risk Management Strategy involves the necessary policies to ensure compliance with applicable laws and regulations which means proactively taking preventive measures (ex-ante) to minimize the possibility of violations and curative actions (ex-post) for improvements.
2. BCA applies an effective inherent control system tailored to BCA business goals, policies, size and complexities in accordance to requirements and procedures set forth in the Bank Indonesia Regulation, and in reference to best practices through the following measures:

- Established clear reporting lines and separation of functions between operational units and units implementing the control function.
- The control function is implemented by the Risk Management Unit (SKMR), Legal Group (GHK), Compliance Unit (SKK), Credit Risk Analysis Group (GARK) and Internal Audit Division (DAI).
- DAI independently and objectively reviews BCA procedures and operational activities on a periodic basis. Review results are presented in the Audit Report and Audit Follow-Up Report to the Board of Directors.
- The Branch Internal Supervisor (PIC), Internal Regional Office Supervisor (PIKW) and DAI evaluate the implementation of BCA systems and procedures. Evaluation results from PIC, PIKW and DAI serve as benchmarks on the level of compliance of work units in existing systems and procedures.

CORRUPTION PREVENTION

• Implementation Of Anti-Fraud Strategy

The anti-fraud policy comprises part of BCA's management commitment in preventing fraud by applying an effective and ongoing fraud control system. The fraud control system guides the Bank in determining the necessary measures to prevent, detect, investigate and monitor fraud.

Fraud refers to any violation or act of omission committed willfully to deceive, dupe or manipulate the Bank, customers or other parties that takes place within the Bank and/or using Bank facilities and which causes the Bank, customers or other parties to incur losses, and/or fraud offenders gaining financial advantage or benefit either directly or indirectly.

Actions that constitute fraud are as follows:

1. Cheating.
2. Deception.
3. Asset misappropriation.
4. Breach of confidence.

Background

The legal basis for implementing an anti-fraud policy in BCA is BI Circular Letter No.13/28/DPNP of 9 December 2011. This Circular Letter was issued to help strengthen the internal control system of banking institutions, and for the further implementation of BI Regulation PBI No.5/8/PBI/2003 of 19 May 2003 on Risk Management for Commercial Banks.

Pursuant to the BI Circular Letter, banks are required to establish and apply an effective anti-fraud strategy that should at least fulfill a minimum standard, and should take into account the following matters:

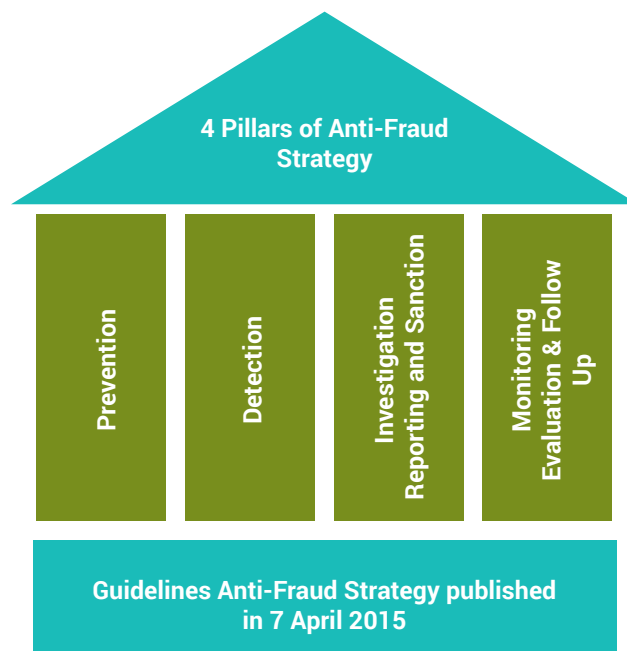

- a. Internal and external environment;
- b. Business complexities;
- c. Potentiality, type and risk of fraud; and
- d. Resource adequacy.

Purpose

An anti-fraud policy is implemented in BCA for the following purpose:

- To instill an anti-fraud culture in all BCA organizational levels.
- To raise awareness and concern over fraud risks in BCA operations.
- To serve as a reminder for BCA operational officers to comply with existing procedures and policies.

The 4 Pillars of Anti-Fraud Strategy

The implemented anti-fraud strategy is a fraud control system consisting of 4 (four) pillars:

1. **Prevention:**
Comprises methods for lowering the fraud risks from occurring, that should at least cover anti-fraud awareness, identification of vulnerabilities and know your employees.
2. **Detection:** Comprises methods to identify and detect fraud in Bank operations that should at least cover a whistleblowing mechanism, surprise audit and surveillance system.
3. **Investigation, Reporting and Sanction:**
Comprises methods to obtain information, implement a reporting system and impose sanctions for fraud in Bank operations that should at least cover investigation standards, reporting mechanism, and the imposition of sanctions.
4. **Monitoring, Evaluation and Follow-up:**
Comprises methods to monitor and evaluate fraud and the required follow-up action based on evaluation results that should at least cover monitoring and evaluation of fraud and the follow-up mechanism.

• Whistleblowing System

The whistleblowing system is a means of internal communication for BCA to report on any action/behavior/incident related to fraud, violation of the law, BCA Collective Work Agreement, Code of Ethics and other BCA internal policies, and/or conflict of interest committed internally within BCA.

The lodging of a report must be done in good faith and not grounded on personal complaint, bad faith, or slander. The following provides the definitions and provisions related to the whistleblowing system.

Conflict of Interest

Conflict of interest refers to a situation where BCA personnel in the discharging of their duties and responsibilities have vested interests other than for the best interests of the Company, which could be a personal and family interest, or the interest of other parties that may compromise the person's objectivity in making decisions and policies according to the power and authority which BCA has vested in said person.

Purpose of the Whistleblowing System

- Confidentiality is assured as a means for a whistleblower to report a fraudulent act, as well as violation of the law, BCA Collective Work Agreement, Code of Ethics and other BCA internal policies, and/or conflict of interest, without any fear or worry.
- To ensure the early detection and prevention of fraud.

Complaint Mechanism

The following presents the methods and addresses that whistleblowers can use to initiate the disclosure process.

METHOD	ADDRESS/CONTACT
E-mail	bcabersih@bca.co.id
SMS	0818-0818-1909*
Telepon Direct	021-2358-8008
VSAT – Extension	VSAT 89000 Extension 22888
Mail correspondence	PO BOX 1189, JKS 12011

*This number can only be used for text messaging

Matters Required from the Whistleblower

To facilitate and speed up the follow-up process, the whistleblower needs to fulfill the following matters when filing a report.

- Provide personal information to facilitate communication with the whistleblower which should at least consist of the following:
 - Name of whistleblower (an anonymous name is allowed);
 - Phone number/email address which can be contacted.
- Provide an early indication which can be accounted for (3W & 1H) that consists of the following:
 - What is the complaint about;
 - Who is involved;
 - When did it happen;
 - How did it happen;
- The filed report should be related to the following:
 - Fraud;
 - Violation of the law;
 - Violation of the BCA Collective Work Agreement;
 - Breach of Code of Ethics;
 - Breach of other BCA internal policy;
 - Breach of the conflict of interest policy;
 - Other similar matters.

Whistleblower Protection

For reports that have been proven true, BCA shall provide protection for the whistleblower.

Whistleblower protection covers:

- Guarantee of confidentiality of the whistleblower's identity and content of report lodged by the whistleblower;
- Guarantee of protection against any act that may be harmful to the whistleblower;
- Guarantee of protection against the likelihood of a threat, intimidation, punishment or any other unpleasant act brought about by the alleged offender.

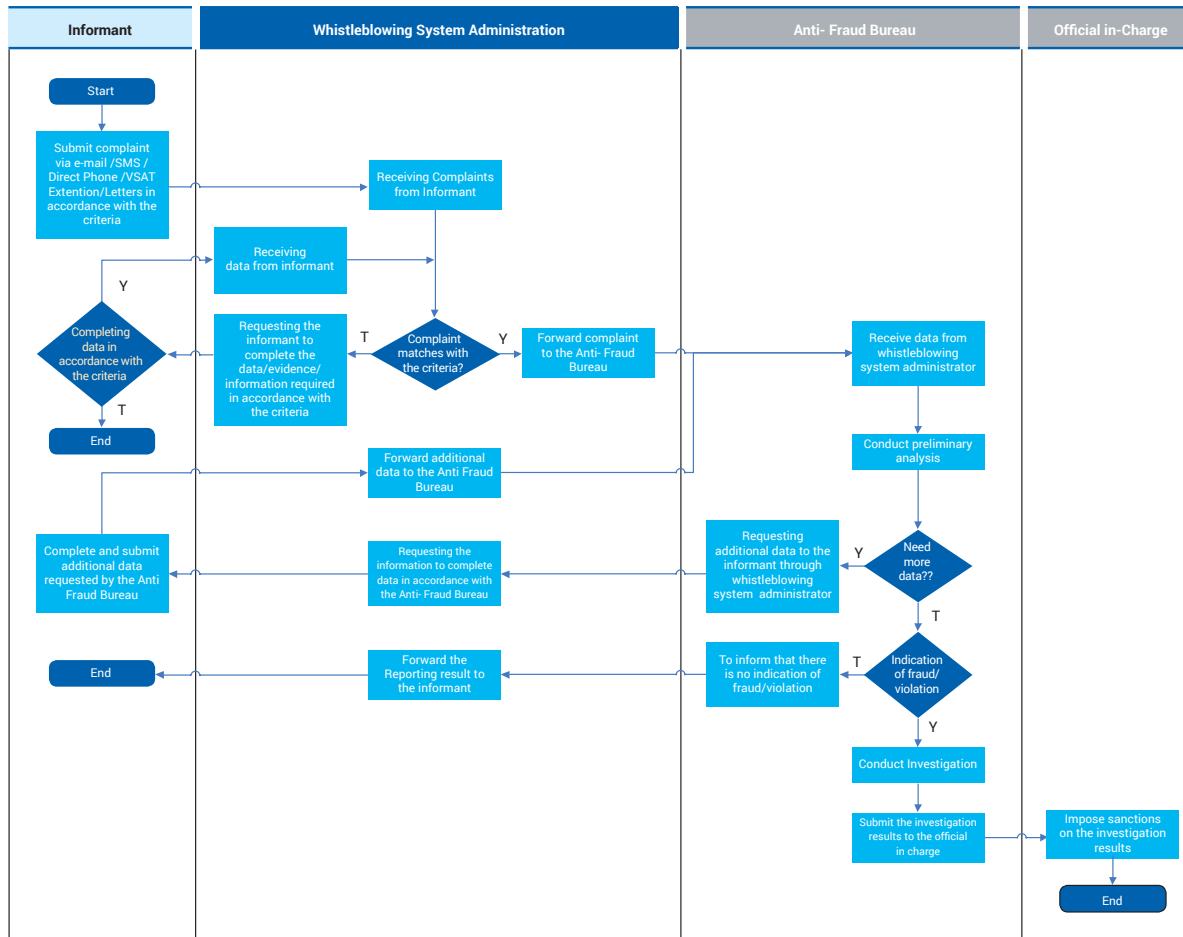

Complaint Handling

Follow-up to a complaint shall be handled thoroughly in compliance with BCA policies and prevailing laws and regulations in Indonesia by BCA's internal team assigned by BCA management.

Imposition of Sanctions

If the investigation process has proven that the alleged offender has committed fraud or wrongdoing, the authorized officer shall impose sanctions according to applicable policies.

Processing Flow of Report Handling

Whistleblowing Data

A recapitulation of incoming reports through the Whistleblowing System is submitted periodically to the Board of Directors. By 31 December 2015, a total of 18 (eighteen) complaints were lodged through the Whistleblowing System with the following status:

Status	Amount	Description
Open (on going)	2	In the middle of the investigation process
Closed (resolved)	16	<ul style="list-style-type: none"> - Proven (2) - Unproven (6) - Customer information/complaint (6) - Incomplete data and the whistleblower could not/has yet to provide the requested additional information/data (2)

- **Anti Gratuity**

The level of trust given to the Bank by the public and market players is highly influenced by the code of conduct of the Bank at all levels, beginning from the Board of Commissioners to the Board of Directors, management and all employees. This trust is critical to foster and maintain business relations with customers and other third parties related to BCA.

In practice, there is the potential for such relationships to incline toward more personal purposes where business ties inter-twine with personal relations, causing professional and private interests to collide.

In an effort to build public trust and support the implementation of the principles of good corporate governance, BCA's Board of Directors finds it necessary to establish the necessary policy governing conflict of interest for the purpose of guiding the Bank's work force, as individuals, in interacting with customers, business partners and fellow coworkers.

This policy is intended to provide guidelines on reasonable and reliable conduct for all Bank employees in their dealings with customers, business partners and fellow coworkers, where personal interests must not be allowed to interfere with their professional conduct.

The policy above among others stipulates that:

- All Bank employees are prohibited from soliciting or accepting, allowing or approving the receipt of a gift or reward from a third party who has received or made an attempt to receive facilities from the Bank in the form of loans or other facilities associated with BCA's operational activities.
- All Bank employees are prohibited from soliciting or accepting, allowing or approving the receipt of a gift or reward from a third party who has secured or made an attempt to secure employment or an order associated with the procurement of goods or services from BCA.
- In regard to customers, business partners and other parties offering gifts during specific occasions, such as the Eid al-Fitr celebration or other celebrations, acceptance is prohibited if:

- receipt of the gift will lead to negative consequences and affect BCA decisions, and
- the gift costs greater than a reasonable amount

Any Bank personnel who accept a gift must immediately return it with a courteous explanation on company policy that prohibits the receipt of such gifts.

Concerning this issue and BCA's commitment to promote good corporate governance, all Bank personnel are required to:

1. Know, understand and implement the policy with full responsibility and without exception.
2. Support the implementation of the policy, whereby all members of the Board of Commissioners, Board of Directors as well as echelon 1 to V officials are required to make an annual disclosure of any situation or circumstances that may lead to conflict of interest.

Sanctions for Violations:

1. The policy is binding and must be seriously understood and implemented by all Bank employees as part of the BCA Code of Ethics for Bankers and to support the implementation of the principles of Good Corporate Governance.
2. Any violation or non-compliance with the policy will be liable to sanction according to the severity of the misconduct.

This is part of an effort to prevent gratuities, an act prohibited by existing laws and regulations. In line with this, BCA's Board of Directors since 2003 has issued a Directive to implement the anti-gratuity policy to be adhered to by all Bank personnel.

It has become a culture in BCA to refuse any gift or reward from customers, debtors, vendors, business associates and partners and other third parties for services rendered by BCA employees in carrying out their duties.

- Internal Fraud**

Internal fraud refers to any fraud/deception committed by management, and permanent and temporary employees related to BCA's work processes and operational activities.

In 2015, a number of internal fraud incidents for a nominal value of above IDR 100,000,000 (one hundred million rupiah), including 1 (one) case of internal fraud committed by permanent employees, and 5 (five) cases involving temporary employees.

Internal fraud in a year	Number of cases committed by:					
	Management		Permanent Employee		Temporary Employee	
	Previous year	Current year	Previous year	Current year	Previous year	Current year
Total Fraud	-	-	2	1	1	5
Resolved cases	-	-	2	1	1	-
Ongoing cases resolved internally within BCA	-	-	-	-	-	-
Cases yet to be resolved	-	-	-	-	-	-
Cases already followed-up through the legal process	-	-	-	-	-	-

TRANSACTIONS WITH CONFLICT OF INTEREST AND AFFILIATED TRANSACTIONS

BCA keeps by the commitment to deal with all transactions bearing an element of conflicting interests by complying with existing laws and regulations, among others those issued by Bank Indonesia and OJK. To this end, BCA has established internal policies on conflict of interest as governed in the following:

- Board of Directors Decision No.219/SK/DIR/2003 dated 10 November 2003 on Provisions Regarding Conflict of Interest.
- Board of Directors Decision No.137/SK/DIR/2008 dated 26 September 2008 on Provisions Regarding Transactions with Parties Affiliated to BCA.
- Board of Directors Decision on the Procurement of Logistics Goods/Services and Buildings, including related to Information Technology Applicable to the Head Office, and All BCA Regional and Branch Offices.
- BCA Articles of Association.
- BCA Code of Ethics.
- Code of Ethics of the Logistics and Building Division.
- Internal policies/memos on affiliated transactions.
- BCA manuals such as GCG Manual, Logistics and Building Division Manual.

To prevent conflict of interest from arising in decisions on the procurement of goods and/or services, the following measures on the procurement system were taken:

1. Centralized procurement
Logistics goods/services are procured through the Logistics and Building Division – BCA Head Office.
2. Decentralized Procurement
Logistics goods/services and buildings procured not through the Logistics and Building Division – BCA Head Office, but through the:
 - Head Office Work Unit in Branches, or
 - BCA Regional Office (for all Main Branch Offices and their Sub-Branch Offices).

BCA has also introduced internal policies that require all members of the Board of Commissioners and Board of Directors, and echelon 1 (S1) to 5(S5) officials to make an annual disclosure of any situation or circumstances that may lead to conflict of interest and which is updated on a yearly basis.

In 2015, BCA did not carry out any transaction with conflict of interest.

**Affiliated transactions in 2015 are as follows:**

No.	Type of Transaction	Affiliated Party	Transaction Value	Reason and Explanation for the Affiliated Transaction
1	The use of Service of Technical Assistance Programmer and IT Architect	PT Angkasa Komunikasi Global Utama	Rp 4,171,200,000,-	PT Angkasa Komunikasi Global Utama has an IT Architect who understands the structure of BCA's delivery channels and has experience in mobile and web programming
2	Room rent for Conducting the 2014 Forth Quarter Analyst Meeting	PT Grand Indonesia	Rp 87,120,000,-	Location of the room is near to the BCA headoffice, making coordination easier
3	Room rent for Conducting of the GMS of BCA of 2015	PT Grand Indonesia	Rp 145,200,000,-	Location of the room is near to the BCA headoffice, making coordination easier
4	Room rent for Conducting the 2015 First Quarter Analyst	PT Grand Indonesia	Rp 87,120,000,-	Location of the room is near to the BCA headoffice, making coordination easier
5	Provision of subordinated loans to PT BCA Sekuritas and Additional Capital in PT Asuransi Jiwa BCA by PT BCA Sekuritas	- PT BCA Sekuritas - PT Asuransi Jiwa BCA	Loans provided directly by BCA amounted to Rp 112,500,000,000,-	This is in line with BCA's efforts to strengthen relationships with its customers by providing more variety of financial solution products and services
6	Increase of paid up capital to PT Asuransi Umum BCA	- PT Asuransi Umum - PT BCA Finance	Portion of directly investment by BCA in the amount of Rp 112,500,000,000.	In line with its business growth, PT Asuransi Umum BCA is necessary to more strengthen the capitalization and to maintain solvency (Risk Based Capital) above minimum provision, namely as much as 120%
7	Long term rent of office space on the 33th floor, Gedung Menara BCA	PT Grand Indonesia	US\$ 32 per semi gross meter square per month + 10% VAT	Currently, BCA is renting office space at Gedung Menara BCA. Due to BCA's organization expansion, more office space is required.
8	Purchase of 10 kiosks at ITC Mangga Dua	Pension Fund of BCA	Rp 5,900,000,000,-	The location is utilized by BCA as a Supporting Branch, therefore enabling BCA to perform operational activities and receive assurance in continuing its future business activities there.
9	Room rent for Conducting the 2015 Second Quarter Analyst Meeting	PT Grand Indonesia	Rp 87,120,000,-	Location of the room is near to the BCA head office, making coordination easier
10	Increase of Paid-up Capital to BCA Syariah	PT Bank BCA Syariah	Rp 400,000,000,000,-	In line with BCA's strategic plan in strengthening relationship with its customers, BCA continues to provide more comprehensive financial products and services. Together with its Subsidiary and BCA Syariah, it plans to enter the BOOK II level in order to support a larger business activities development and increase its business scale.

No.	Type of Transaction	Affiliated Party	Transaction Value	Reason and Explanation for the Affiliated Transaction
11	Room rent for Conducting the 2015 Third Quarter Analyst Meeting	PT Grand Indonesia	Rp 87,120,000,-	Location of the room is near to the BCA head office, making coordination easier.
12	Room rent for Conducting of BCA National Working Meeting of 2016	PT Grand Indonesia	Rp 798,600,000,-	Location of the room is near to the BCA head office, making coordination easier.
13	Sale of land and building between BCA and PT Central Santosa Finance	PT Central Santosa Finane	Rp 13,401,000,000,-	The space is an idle property because it was not used as a branch network and therefore must be settled. By conducting sales, BCA can reduce the cost incurred.

SIGNIFICANT CASES AND ADMINISTRATIVE SANCTION

Civil and criminal cases for the value of over Rp 100,000,000 (one hundred million rupiah) which have been resolved (having permanent legal force) and which are in the process of settlement as of 31 December 2015 are as follows:

Legal Case	Civil Case	Criminal Case
Have been resolved (having permanent legal force):		
• Rp 101 million – Rp 500 million	6	1
• Rp 500 million above	2	-
Total	8	1
Still ongoing:		
• Rp 101 million – Rp 500 million	51	-
• Rp 500 million above	3	-
Total	54	-
Total Number of Cases	62	1

In 2015, there were no significant cases facing BCA and its subsidiaries, or members of its Board of Commissioners and Board of Directors in office for this reporting period, and consequently there is no effect on BCA's financial condition.

Throughout 2015 there were no material administrative sanctions imposed by authorities (Financial Services Authority, Bank Indonesia, Stock Exchange, and other authorities) on BCA, or members of the Board of Commissioners and Board of Directors.

ACCESS TO COMPANY DATA AND INFORMATION

Access to Information

BCA at all times strives to facilitate stakeholders in accessing Company data and information, including on the Company's financial situation as well as corporate products and actions. BCA also issues press releases and sends them out to the print and electronic media.

For more information, the following addresses can be contacted:

- Customers may contact Halo BCA Call Center (021) 500 888.
- The media may directly contact the Corporate Secretariat, Public Relations through humas@bca.co.id
- Investors may directly contact Investor Relations through investor_relations@bca.co.id

Website BCA

BCA's official website (www.bca.co.id) featuring a reliable search engine is intended to help existing and potential customers seek information on BCA products and services.

Furthermore, the BCA website makes available a wide range of interesting and worthwhile articles that provide pertinent information and tips on different needs according to the following categories: Personal & Family, Career & Profession, and Financial & Banking. BCA consistently works toward making its presence felt in society. "BCA, Always By Your Side."

Social Media BCA

In social media, netizens are increasingly being made aware of BCA's presence. BCA is active in different social media platforms such as Facebook, Twitter, Youtube, Kaskus and others. This year, BCA was seriously making itself known through Instagram and LinkedIn. This reflects BCA's earnestness in making its presence felt in society. BCA's official social media accounts and activities can all be accessed at www.bca.co.id/socialmedia

List of BCA Press Releases in 2015

In 2015, BCA has issued 150 (one hundred and fifty) press releases as provided below in detail:

Internal Communications

Internal communication plays a central role in building corporate character and corporate culture, fostering solid team work. Smooth, intensive and effective internal communications in disseminating company information will accelerate processes and mechanisms at all organizational levels. In line with this, overall Company performance is inextricably linked to effective Company-wide internal communication support.

Information content and communication media are the keys to successful internal communication. Both components are complementary and together ensure that information reaches employees, is understandable and actionable.

With a sizeable work force dispersed across Indonesia, effective internal communication is key to making BCA's vision and mission real. BCA is therefore fully aware of the need for an accurately-targeted internal communication strategy which among other goals aims to cultivate a harmonious relationship with all employees.

Through smooth, intensive and effective internal communication for disseminating Company information, BCA can accelerate processes and mechanisms in all organizational levels.

Internal communication media in BCA, includes:

1. InfoBCA

InfoBCA is a monthly in-house magazine that functions as a media for education, sensitization, entertainment and the sharing of knowledge, experiences and company activities for all BCA employees.

Therefore, InfoBCA contains information on Company, products, services, networks, programs, awards and recognitions, technology, activities of all work units and branches spread across Indonesia, subsidiaries, knowledge resources (economy, business and investment, etc), learning and motivation modules and other useful information for employees.

From time to time, InfoBCA publishes Special Editions that feature information on service-related activities. To meet the needs of readers and BCA's employees, other than the printed edition, the magazine is also published in an e-magazine edition, which can be downloaded through MyBCA.

2. MyBCA

MyBCA is BCA's internet-based internal communication media. It is only accessible internally within BCA through Company-provided facilities.

MyBCA is managed by the Information Technology Group in cooperation with Public Relations and other work units at the Head Office. Each work unit maintains their own portal accessible through MyBCA's main page. This internal website functions as a medium for imparting information on the Company, work unit programs and other key information, building awareness on products, services, programs, educational and learning media, and other valuable information.

Employees can download various data such as application systems, texts, pictures and videos useful for supporting work-related activities. MyBCA's function has broadened to include online information and personnel administration services such as health expenses, request for leave, overtime, business trips, employee data, compensation, appraisal and others.

3. Plasma TV

To complete internal communication media, Plasma TVs are installed in strategic locations inside BCA office buildings or premises. This audio visual electronic media provides information on the Company, products, services, work unit activities and other important information.

4. Email

BCA also relies on email as an internal communication media. Email blasts are effective in spreading information on the Company, products, programs or events, and other information. Another of the many email internal communication facilities is the management communication forum.

5. Microsoft Lync

Another internal communication media is based on Software Microsoft Lync, which enables employees to send data or information from their respective personal computer (PC) and easily communicate with each other, as similar to the chatting feature in modern gadgets. Microsoft Lync is particularly useful for urgent matters because incoming messages instantly appear on screen with a message alert, along with the incoming message sign. In addition, the Microsoft Lync facility can be used for sending large files or data.

6. Internal Events

Internal communication is also built through a wide range of internal events, such as:

- a. BCA anniversary activities;
- b. Branch openings;
- c. Lunching Together with Management;
- d. Gatherings to celebrate, among others Christmas/New Year and Eid al-Fitr, annual recreational events and events dedicated to BCA retirees;
- e. National Working Meetings attended by the Board of Commissioners, Board of Directors, Regional Office Heads, Division Heads, Division Deputy Heads and Branch Heads;
- f. Coordination meetings, such as at the regional and branch levels;
- g. Sports, arts and cultural activities under Bakorseni;
- h. Knowledge sharing, such as COP (community of practice).

7. Corporate Identity Manual

This manual is internal guidance for BCA, specifically in using the corporate logo and other usage. This standardization applies at least to:

- a. BCA logo;
- b. Building signage (Head Office, Regional and Branch Offices);
- c. Corporate materials: ID cards, name cards, corporate advertisements, stationery and others;
- d. BCA employee uniforms.

8. Facebook Semua Beres

BCA makes the most of Facebook as a means of internal communication known as Facebook Semua Beres. As a social networking site, Facebook helps share information on BCA performance, specifically related to BCA solutions or values. Internal parties within BCA already registered are connected to each other and can exchange information and experiences.

9. HaloSDM

A call center for BCA employees creates a communication line on information related to human resource policies. This facility provides employees with the opportunity to better understand and comply with BCA policies.

Bakorseni

Bakorseni, standing for the Coordinating Body for Sports, Arts and Hobbies, is an informal forum with the purpose of encouraging BCA employees to develop their interest in sports, arts and hobbies.

The National Bakorseni is headquartered in Jakarta under the coordination of the Training and Learning Division (DPP), which in its daily operations is assisted by executives from the Head Office and Regional Bakorseni (BAKORWIL) to coordinate routine activities related to sports, arts and hobbies at the respective Regional/Branch Office/Work Unit.

Bakorseni was established to nurture a sense of togetherness and camaraderie, and to develop employee potential in sports, arts and hobbies, in order to create a work-life balance where employees are not only preoccupied with work but also have balance with activities outside of work such as in sports, arts or other hobbies. This is expected to boost productivity and employee spirit at work.

Types of Bakorseni activities:

1. Sports: football, volleyball, futsal, table tennis, tennis, basketball, badminton, cycling, bowling and others.
2. Arts: vocal group, choir singing, band, dance and shadow puppetry.
3. Hobbies: photography, fishing, chess.

Bakorseni organizes a national-scale activity known as National Porseni every 3 (three) years, and a regional event for the Jabodetabek area on a yearly basis. Outside of Jabodetabek, the Regional Porseni may be held every 1-2 years.

In its implementation, Bakorseni also coordinates with various BCA internal work units and relevant bodies outside of BCA, such as banking institutions and organizations dedicated to sports, arts and hobbies, for encouraging employees to compete in various competitions or championships such as the Inter-Bank Sports Week organized by Bank Indonesia (PORBANK) or other sports events held by the National Private Bank Association (PERBANAS) and the Regional Banking Consultative Board (BMPD).

Bakorseni Activities in 2015

1. Held the National Coordination Meeting attended by executives of National Bakorseni in preparation for National PORSENI to celebrate BCA's 58th.
2. Organized National Porseni as part of BCA's 58th anniversary celebration on 22 February 2015 at the Soemantri Brodjonegoro Sports Complex in Jakarta that involved 1,148 athletes and 3,000 employees from BCA Regional and Branch Offices across Indonesia.
3. Indonesia Wayang Seminar, held on 7 November 2015 at the Raden Saleh Cultural Center in Semarang, to commemorate 12 years of the Indonesian wayang puppetry declared by UNESCO as a World Heritage. Present at the event were experts and executives of national wayang organizations from Jakarta, Semarang and Jogjakarta.
4. In the field of sports, the Head Office and Regional Offices held regular training, joint community activities and the Regional PORSENI.
5. In regard to arts, several friendly competitions were held and members performed in events held by organizations outside of BCA, in addition to regular training.
6. In regard to hobbies, several seminars were held apart from training for competitions and regular activities.

CODE OF ETHICS

BCA Code of Ethics for Bankers

1. Comply with existing laws and regulations.
2. Maintain the good name and reputation of BCA and safeguard corporate assets.
3. Maintain the confidentiality of BCA and customer data.
4. Ensure that personal interests do not conflict with the interests of BCA or customers.
5. Accurately record all transactions according to applicable policies.
6. Nurture and maintain a harmonious working environment and healthy competition.
7. Will not abuse their position and powers for personal or family interests.
8. Will not commit an act of misconduct that may be harmful to their professional image and BCA's reputation in general.
9. Will shun all forms of gambling or speculation.
10. Will constantly build their knowledge and broaden their horizons by keeping abreast of developments in the banking industry in particular and the business world in general.

Sensitization and Enforcement of the Code of Ethics

Pursuant to the Direction of the Board of Directors No. 778/SK/DIR/95, BCA's Code of Ethics applies to members of the Board of Commissioners and Board of Directors, and BCA employees. The Code of Ethics is available in pocketbook form and has been distributed to all BCA employees. Employees sign a statement asserting that they understand and promise to observe and implement BCA's Code of Ethics to guide their conduct and behavior both inside and outside of work. Any breach to the Code of Ethics will be liable to sanctions according to existing policies.

BCA's Code of Ethics for Bankers is accessible at the Company website under Good Corporate Governance.

Apart from the Code of Ethics, BCA Board of Directors has issued a policy that guides employees when liaising with customers, business partners and fellow coworkers as laid down in Direction No.219/SK/DIR/2003

dated 10 November 2003. The Directive applies to all BCA employees, including members of the Board of Commissioners and Directors and all employees. The policy and Code of Ethics are also embodied in BCA's GCG Manual.

Enforcement of the Code of Ethics and Sanctions for Breach of the Code of Ethics

- The policy and Code of Ethics are binding in nature and must be understood and implemented in all earnestness by all BCA employees to support the fulfillment of GCG principles.
- In the event of a breach or non-compliance with provisions in the policy and Code of Ethics, the offender is liable to sanctions according to the severity of the wrongdoing. Any decision on this matter shall be made by BCA in proportion to the type and severity of the offense based on a comprehensive evaluation of the individual who has committed the act of misconduct.

In 2015, BCA did not introduce breach of the Code Ethics

CORPORATE CULTURE

Corporate Culture Consists of BCA Vision, Mission and Values.

BCA's Vision, Mission and Values are as follows:

BCA's Vision

To be the people's bank of choice and a key pillar of Indonesia's economy.

BCA's Mission

- To build an outstanding institution in the field of payment settlement and financial solution for business entities and individual customers.
- To understand the diverse needs of customers and offer the right financial services to generate optimal customer satisfaction.
- To increase BCA's franchise value and stakeholder value.

BCA's Values

1. Customer Focus

Understand, explore and fulfill customer needs in the best possible way.

2. Integrity

Honest, sincere and direct.

A Bank that customers can trust.

Trust is built through actions that reflect unquestionable integrity and business ethics.

3. Team Work

Team is a group of people with a special bond, commitment, approach and synergy aimed at achieving a shared goal.

4. Continuous Pursuit of Excellence

Consistently strives to offer the best through the best method with the highest quality.

BCA Vision, Mission and Values

The corporate vision and mission provide the platform, direction and guiding principles for all BCA employees in implementing Company activities.

Corporate values serve as the moral compass for all BCA employees in fulfilling the corporate vision and mission.

Efforts to build awareness on corporate vision, mission and values are through the following:

1. Head Office, all work units (participants represent echelon 1 to 3 officials).
2. Coordination Meeting/Quality Meeting (QM) across BCA Regional Offices.
3. Career Development Program (Management Development Program/MDP and Manager Development Program), special forums such as the Account Officer (AO) Forum, and specific groups such as Project Management Office/PMO.

BCA's corporate culture is introduced through the induction program for all new employees, specifically on the corporate vision, mission and values. Learning through games is an effective approach for communicating the corporate vision, mission and values to the new employees of Generation Y.

BCA's vision, mission and values are also sensitized through:

- InfoBCA bulletin (monthly in-house magazine);
- Employees' PC screen saver and mouse pad;
- In-house training;
- Internal culture video clip;
- BCA handbook;
- Comic book distributed to all employees;
- Games;
- Other media.

BCA mission statements are understood as below:

1. To build an outstanding institution in the field of payment settlement and financial solution for business entities and individual customers signifies that BCA aims to evolve into an exceptional payment institution in all sectors to cover all payment activities in the banking business.
2. To understand the diverse needs of customers and offer the right financial services to generate optimal customer satisfaction signifies that BCA is highly familiar with different customer needs and caters to these diverse needs.
3. To increase BCA's franchise value and stakeholder value denotes a broader meaning that covers corporate value in its totality, both tangible and intangible values. Stakeholder value on the other hand reflects BCA's flexibility in accommodating the interests of various parties.

BCA's vision and mission are evaluated at least every five years. In 2014, the corporate vision and mission statements were evaluated by BCA's Board of Commissioners and Board of Directors. Based on the evaluation, it was found that the stated vision and mission remains valid with the current situation.

STOCK OPTION

In 2015, BCA did not introduce a Stock Option Program.

PROVISION OF FUNDS TO RELATED PARTIES AND LARGE EXPOSURES

BCA has issued a policy on providing funds to related parties and large exposures as laid down in the Credit Manual. Evaluation and updates of policies in the Credit Manual are carried out on a periodic basis. Providing

funds to related parties or debtors in large amounts consistently adhere to the principle of prudence, and abide by Bank Indonesia policies and other applicable laws and regulations, including those related to the Legal Lending Limit (LLL). Furthermore, decisions concerning loans to related parties must be made by the Board of Commissioners in an independent manner.

The LLL is reported regularly to Bank Indonesia in a timely fashion. In 2015, there was no violation or exceeding of the LLL.

Provision of Funds to Related Parties and Main Individual and Group Debtors (Large Exposure) in BCA in 2015.

No	Provision of Funds	Amount	
		Debtor/Group	Nominal (Rp million)
1	To Related Parties	192	5,441,635
2	To Main Debtors:		
	a. Individual	50	80,709,227
	b. Group	30	113,032,306

STRATEGIC PLAN

To respond to dynamic changes in the external environment, BCA periodically re-examines short-term, middle-term and long-term business strategy as detailed in the Bank Business Plan (RBB) and Annual Work & Budget Plan (RKAT). BCA prepares strategic plans referring to Bank Indonesia Regulation No.12/21/PBI/2010 dated 19 October 2010 regarding Bank Business Plan, and to Bank Indonesia Circular Letter No.12/27/DPNP dated 25 October 2010 regarding Bank Business Plans.

As part of BCA policy direction and strategic measures in order to realise its vision and mission, BCA designs and develops business initiatives with an orientation to meet customers' growing and changing requirements.

BCA Strategic Plan 2016

Indonesia economy is estimated to continue through various challenges and grows moderately in 2016. BCA will continue to monitor the economic environment and its impact on the performance of the Indonesian banking sector. Entering 2016, BCA will continue to prioritize cautious policies and measures. The trend of increasing non-performing loans in the banking sector has the potential to lead to a multiplier effect on the deterioration of loan quality for some of BCA's customers. To mitigate risk, the Bank will remain disciplined in applying prudent risk management principles, working to implement cost efficiency programs. BCA will continue to explore alternative sources of income other than interest income.

In general, the Bank assesses the Indonesian economy and banking industry as having a solid footing in the face of a slowing economic cycle. BCA continues to support the efforts of the Indonesia Financial Services Authority and Bank Indonesia in maintaining the balance of loan quality and sustainable national loan growth while also maintaining healthy capital and liquidity position. BCA is optimistic about the long-term prospects of the Indonesian economy and banking sector. The growth of the middle class in Indonesia and the infrastructure development programs proposed by the Government are expected to support domestic economic growth in the future.

Responding to the dynamic changes in the external environment, the Bank continuously examines business strategies both for the short, medium and long terms as outlined in the Bank's Strategic Plan in the form of the Bank Business Plan and the Annual Budget & Work Plan.

BCA believes that investments made to strengthen transaction banking capabilities and to improve lending infrastructure should not be interrupted considering the long-term prospects of the Indonesian banking industry and anticipating the increased competition in the era of the ASEAN Economic Community and rapid digital evolution. In addition to the strategic steps taken by the Bank, the development of human resources and organizational alignment of all work units, and with the subsidiaries, are essential to further reinforce BCA's position as a leading financial institution.

In 2016, the Bank is committed to continue investing in the Bank's franchise value. Strategic priorities in 2016 will remain focused on efforts to strengthen relationships with customers through enhanced payment settlement services, prudent lending, and development of new business lines through its subsidiaries. Below is a further elaboration of the three major business objectives:

- **Strengthening Payment Settlement Services**

BCA believes that the ease, convenience and security of transactions are fundamental factors that sustain the growth of the Bank's current accounts and savings accounts (CASA). BCA continues to develop its range of payment transaction products and services, as well as expanding the coverage of conventional and electronic banking and information technology infrastructure.

The Bank will increase the number of branches and electronic delivery channels in Indonesia supported by an enhancement in the capability and capacity of information technology infrastructure. BCA will explore and implement the latest technological developments into the Bank's payment settlement products and services in accordance with evolving customer needs and their acceptance level.

To maintain a solid liquidity position, the Bank will continue to assess developments and liquidity trends in the banking sector. CASA will remain the major source of liquidity. The Bank believes that BCA can actively raise funds through time deposits products by adjusting interest rates as needed. This is essential to maintain the position of third party funds as a whole.

- **Lending**

Through the economic slowdown, the Bank will continue to provide lending while focusing on healthy and real loan demand with a view that sustainable lending growth will strengthen relationships with quality customers.

Lending activities are planned upon a solid capital position and the implementation of prudent and effective risk management principles to manage the Non-Performing Loans (NPL) ratio. The increasing NPL trends signify higher risk for the national banks, including BCA. Therefore, the Bank prioritizes lending to customers who have a good track record in the corporate, commercial & SME and consumer segments. Asset quality will be an important factor for maintaining BCA's strategic position in the national banking industry and for maintaining sustainable long-term growth.

For the business segment, the Bank will actively explore lending to sectors with broad value chains. In the individual credit segment, the Bank believes that the mortgage, vehicle loans, and credit card financing have great potential for growth in the long term although individual lending is expected to grow slower than business lending in the short term. Nevertheless, the Bank remains committed to being at the forefront in consumer lending and continues to maintain a strategic presence in the individual credit market.

To support sustainable loan growth, the Bank will continue to enhance the credit infrastructure across all segments, both in branches and at head office.

- **Business Development among the Subsidiaries**

To meet the increasingly diverse needs of customers, the Bank has developed a comprehensive range of financial products and services through the business lines of the Bank's subsidiaries. Business development of the subsidiaries are focused on automotive financing, Sharia banking, securities, remittance, general insurance, and life insurance.

The subsidiaries continue to grow and have demonstrated positive business development in recent years. BCA Finance, a subsidiary engaged in car financing, consistently contributes significantly to the profitability of the Bank.

BCA will continue to build synergies between the Bank's main business and the subsidiaries, including cross selling between BCA consumer products and the insurance products of the subsidiaries, as well as joint financing activities with BCA Finance and CS Finance. BCA is committed to provide the necessary capital support to the subsidiaries in line with the business growth prospects of the subsidiaries. BCA expects the contribution of interest income and fee-based income from the subsidiaries will continue to increase going forward.

BCA believes that these strategies and policies will support the Bank in strengthening its long-term competitive advantages. Consistent strategy will build a quality customer base amid increasing competition in the Indonesian banking industry.

TRANSPARENCY OF FINANCIAL AND NON-FINANCIAL CONDITION UNDISCLOSED IN OTHER REPORTS

Information on BCA's financial condition is disclosed explicitly and transparently in several reports, including the following:

Transparency of Financial Conditions

1. Annual Report

- a. Financial Highlights that include stock performance, reports from the Board of Commissioners and Board of Directors, company profile, management analysis and discussion on business and financial performance, corporate governance and corporate social responsibility.
- b. Annual Financial Statement audited by a Public Accountant and Public Accounting Firm registered with Bank Indonesia. The Annual Financial Statement covers a period of 1 (one) fiscal year and is compared to the previous fiscal year, and the start of the earliest comparative year.
- c. Accountability statement of the Board of Commissioners and Board of Directors verifying the content of the Annual Report. The statement is delivered in writing and bears the signature of all members of the Board of Commissioners and Board of Directors.

2. Quarterly Published Financial Reports

BCA has made the necessary announcements on its Quarterly Financial Report in accordance with existing policies. The Published Financial Report is signed by 2 (two) members of BCA's Board of Directors. The announcement was featured in 2 (two) newspapers in the Indonesian language with widespread circulation in the place of domicile of BCA's Head Office.

3. Monthly Published Financial Reports

BCA publishes its Monthly Financial Report in a format laid out by the Financial Services Authority Regulation.

In addition, BCA provides and communicates to customers on its customer complaints and dispute settlement mechanism in compliance with Bank Indonesia policy on customer complaints and banking mediation.

In view of the above, BCA has carried out the following measures:

1. Transparently publicized its financial and non-financial condition to stakeholders, among others through its Periodic Financial Reports, Routine Reporting of Legal Lending Limit to Bank Indonesia, Quarterly Published Financial Reports, and featured in BCA's official website according to existing policies.
2. Prepared and presented reports according to the procedure, type and scope set forth in the Bank Indonesia policy on the transparency of banks' financial condition.
3. Published information on BCA products in compliance with Bank Indonesia policy on the transparency of information on banking products and use of customers' personal data.
4. Provided customers with a customer complaint and dispute settlement mechanism according to Bank Indonesia policy on customer complaint and banking mediation.
5. Submitted the Annual Report to Bank Indonesia, regulators and other institutions as required or deemed necessary.
6. Disclosed information on the Ownership Structure in the Annual Report and BCA's website.

Transparency of Non-Financial Conditions

BCA discloses information on its products in an explicit, accurate and updated manner. Such information can be easily accessed by customers, among others in leaflets, brochures or other written materials in every BCA branch office in locations that customers can have easy access to, and/or in the form of electronic information made available through hotline service/call center or website.

HIGHEST AND LOWEST SALARY RATIO

Salary refers to an employee's right that is received and expressed in the form of monetary compensation from BCA as the employer to the employee who is hired and

paid according to an employment contract, agreement or laws and regulations, including benefits for the employee and members of the family for the work and/or services rendered.

The highest and lowest salary ratio according to the comparative scale is as follows.

Ratio	Comparative Scale
Highest and lowest employee salary ratio	46,43
Highest and lowest Director salary ratio	2,88
Highest and lowest Commissioner salary ratio	1,63
The ratio of the Highest Director salary and the highest employee salary ratio	5,63

The remuneration being compared in the salary ratio above is the compensation received by members of the Board of Commissioners and Board of Directors, and employees on a monthly basis. Employees here refer to BCA's permanent employees up to the executive level.

SHARES BUY BACK

In 2015, BCA did not undertake the corporate action of repurchasing shares (share buy backs).

PROVISION OF FUNDS FOR SOCIAL ACTIVITIES

BCA actively contributes to increasing the welfare of communities and improving the environment through corporate social responsibility activities developed under the 'Bakti BCA' program.

Overall, BCA social activities throughout 2015 focused on 3 (three) key pillars:

- A. Pilar Solusi Cerdas (Smart Solution Pillar), are as follows:
1. Non-Degree Accounting Education Program
 2. Non-Degree Information Technology Education Program
 3. Bakti BCA Internship
 4. Integrated Partner Schools
 5. Bakti BCA Scholarship
 6. Banking education and partnership with other institutions related to education, and contributions/donations to other educational institutions

B. Pilar Solusi Sinergi (Synergy Solution Pillar), are as follows:

1. Culture
2. Health
 - a. Cataract Surgical Services - Bakti BCA
 - b. Bakti BCA Blood Drives
 - c. Bakti BCA Public Health Service Partnership
3. Environmental Conservation
4. Bakti BCA Empathy Program in the form of donations for natural disaster victims and sports programs.

C. Pilar Solusi Bisnis Unggul (Outstanding Business Solution Pillar), as follows:

1. Partnership with the community
2. Business Development Institute

Apart from the aforementioned programs, BCA also channels donations to other social organizations.

Total amount of funds that BCA has invested in social activities in 2015 is provided in the Chapter on Corporate Social Responsibility of this Annual Report.

Further information on the Company's social activities in 2015 is available in the Chapter on Corporate Social Responsibility of this Annual Report.

PROVISION OF FUNDS FOR POLITICAL ACTIVITIES

Similar to previous years, in 2015 BCA did not provide funds for political activities.

FULFILLING THE RECOMMENDED GCG CODE FOR PUBLIC COMPANIES

BCA has complied with both the recently enacted Financial Services Authority Regulation No 21/POJK.04/2015 dated November 16 regarding the Implementation of GCG Code for Public Companies and with the Financial Services Authority Circular Letter No.32/SEOJK.04/2015 regarding GCG Code for Public Companies, as presented in the table below:

Corporate Social Responsibility

Teater Koma performed "White Snake"

“BCA is committed to CSR philosophy as an integral part of the Bank’s business activities,”

As a bank that has been serving the community since 1957, BCA is fully aware that its decisions impact not only on the economy but also on short term and long term social and environmental issues. To that end, BCA is committed to responsibly develop its business, among other ways, through its Corporate Social Responsibility, CSR, programs.

Besides being at times charitable, BCA's CSR programs are empowering, not only having members of the community as mere beneficiaries but instead actively encouraging participation in planning and implementing CSR programs.

BCA is committed to positioning its CSR philosophy and objectives as an integral part of its business activities. Therefore, BCA's commitment to help promote community empowerment and welfare is implied in each product and service.

Three Pillars of Bakti BCA Program

Under Bakti BCA, the Bank's CSR program is conducted on an ongoing basis and arranged into 3 (three) pillars: Smart Solution, Synergy Solution, and Excellent Business Solution.

The Bank developed the Smart Solution program to support the education of Indonesia's younger generation. Synergy Solution is a program in which the Bank synergizes with a number of credible and competent institutions in the field of culture, health, environment, sports, and empathy. Moreover, BCA strives to participate actively in supporting community empowerment to build communities with the ability to grow and progress independently through the Excellent Business Solution program.

Bakti BCA is a program developed by BCA which is implemented continuously in order to deliver sustainable benefits for the community.

BCA's CSR program also incorporates employee and customer protection services.

One of the Bank's undertakings related to environmental protection is the elimination of receipt issuance of the Bank's current Automated Teller Machine (ATM) for certain transactions. BCA also actively promotes the use of Flazz Card and online payment via e-channel and mobile banking in order to reduce paper usage. Moreover, BCA strives to improve the efficient use of electricity and water as one way to implement the concept of green building or green office.

BCA is committed to employee protection, demonstrated through a variety of policies to ensure the rights of each employee, such as:

1. Policy transparency;
2. Information disclosure;
3. Clear and systemized career path and development;
4. Compensation and benefits program; and
5. Equal employment opportunities for all employees regardless of their ethnicity, religion, race, class, and gender.

BCA continues to provide opportunity for the employees to actualize their expertise and competence in order to achieve work targets. Through the Sports and Arts Coordinating Board (Bakorseni), the Bank also provides opportunity for employees to develop their talents and interests outside of work, such as in sports and the arts.

In 2015, BCA became the only Indonesian company that received the Gallup Great Workplace Award due to the Bank's commitment in protecting and providing welfare for its employees. The award is initiated by Gallup, an international performance management consulting firm based in the USA. The award is given to companies with the ability to build positive and productive work environment, thus creating optimum company performance. Approximately, only 5% of the companies that meet the criteria received the award.

A. ENVIRONMENT

A.1. Policy

The Bank's business activities are not substantially related to the environment; nevertheless, the Bank realizes that its existence as a bank is inseparable from the environmental aspect. To that end, the Bank is committed to perform ongoing environmental conservation activities.

To support environmental conservation, BCA works with various institutions competent in handling environmental issues, one of which realized under the Bakti BCA program, namely BCA Synergy Solution. Through these partnerships, the Bank expects to provide a more effective and sustainable results which provides broad impact through its environmental conservation programs.

Although detailed calculations have not been made, the Bank is confident that its policy related to water and electricity savings applied in all of the work units in Indonesia is able to reduce the amount of water and energy consumption significantly.

Energy efficiency is realized through electricity consumption savings, limiting long distance business travel by utilizing teleconferencing and e-learning, efficiency in the use of fuel for transport and delivery services through the paperless banking initiative, both for the employees and customers. In addition, to fulfill the need of intranet for work communications throughout Indonesia, the Bank uses an online network connected via MyBCA portal.

A.2. Execution

In general, the Bank's environmental policy is implemented and manifested through a number of activities, namely:

1. Menara BCA - Green Building.
2. Go Green program.
3. Earth Hour - Participation.
4. Implementation of environmental program – BCA Synergy Solution.

A.2.1. Green Building Menara BCA

BCA head quarter is on Menara BCA, located in Jalan M.H. Thamrin No. 1 Central Jakarta. Menara BCA is one of the first buildings in Indonesia to receive the Greenship EB Platinum award, the highest rating achievable in Green Building certification.

The Greenship certification is awarded by the Green Building Council of Indonesia (GBCI), an independent, non-profit institution and member of the World Green Building Council (WGBC) based in Toronto, Canada. Currently, only six buildings in Indonesia have received Greenship certification.

Since 2011, Menara BCA has been able to meet the stringent evaluation standards of the certification process, with parameters comprising site suitability, energy efficiency and conservation, water conservation, material resources and material cycle, air quality and room comfort.

Power consumption is one of the parameters that had Menara BCA named as one of the most environmentally friendly buildings in Indonesia. Menara BCA is able to save

 BCA supported the planting of 18,000 mangrove seedlings that was launched by WWF Indonesia

on electrical energy consumption by 35% or the equivalent to the reduction in emissions of carbon dioxide (CO₂) by 6,360 tons per year, compared to similar buildings.

The use of LED lighting also contributes substantially to energy efficiency by 70% and with virtually no heat emitted from LED lights, the building benefits from less need for air conditioning. In addition, the insulated glazing technology used in the outer windows of the building reduces radiant heat without significantly reducing the light intensity.

Moreover, the Bank's Corporate Secretary Division has begun to apply the routine of turning off lights during break time (12:00 until 13:00). Other divisions in Menara BCA will also perform this routine.

Electricity use efficiency is also conducted through the application of Printer Pooling Management (PPM) program, replacing all printers, copiers, scanners and faxes into a single device multi-function printer in order to reduce print costs up to 15%, and paper use up to 11%.

A.2.2. Go Green Program

To support the Go Green program, the Company initiated several policies to be conducted by the Head Office and Branch Office. The policies cover fuel efficiency for transport, namely in the following way:

1. Reduce long-distance travel and instead perform teleconferences, e-learning, and provide vehicle sharing;
2. Reduce document delivery services and the use of paper through the paperless banking initiative;
3. Save electricity by using LED lights, raise the temperature on the air conditioner and turn off lights outside working hours; and
4. Water-saving campaign, and so forth.

Related to water efficiency, since 2013 the Bank has been using press faucets for its new buildings or renovated branch offices. This type of faucet uses an automatic stop-flow function so as to reduce the amount of water wasted. In addition, the bank applies a rainwater recycling system to water the plants in the Bintaro Main Branch Office (KCU Bintaro)

The Bank also continues the greenship program by adding more plants/ trees in the garden or on the building. In fact, Alam Sutra Main Branch Office already uses Green Wall. This main branch office also utilizes Solar panels to generate electricity for the lights in the parking area.

Since 2011, BCA's new buildings and renovated branch offices use LED lights. Meanwhile, in 2015, new buildings which use LED lights consist of KCU Kuta, KCU Dago, Soliter Kelapa Gading, KCP Kerobokan, KCP Teluk Betung, KCP Buah Batu, KCP Kartasura, KCP Katamso, KCP Singosaren, KCP Taman Kencana, KCP Padalarang, and KCP Kepa Duri.

In the future, the architectural design of the new buildings will mainly consist of glass with consideration on the direction of the sun, aiming to reduce the use of lights. In addition, placement of light switches will be carefully planned and light sensors will be added so as to adjust the level of light inside the room.

In addition to using LED lights, since 2014 the Bank has made efforts to save electricity by using Inverter Air Conditioner and environmentally friendly refrigerant (R32). Generally, inverter air conditioners use up to 30% lower power than conventional air conditioning because the unique way they work.

Throughout 2015, buildings with Inverter AC among others include KCU Borobudur, KCU Gang Tengah, KCU Panakkukang, KCU Sunter Mal, KCU Tulung Agung, KCU Pangkal Pinang, KCU Serpong, KCU Bukit Darmo, KCU Green Garden, KCU Pekalongan, KCP Citra Garden and KCP Taman Sari.

 The President Director of BCA during the mangrove planting

A.2.3. Earth Hour

Earth Hour is a global event organized by WWF signaling an awareness of the danger of climate change. Participants turn off all non-essential lighting for 1 hour, held on the last Saturday of March of each year.

In March 28, 2015, BCA participated in this event by turning off its logos and other outdoor lightings for one hour, from 20:30 to 21:30, in Menara BCA, and in all main and supporting branch offices and billboards across Indonesia.

A.2.4. Environmental Program

Environmental preservation activities were carried out under BCA Synergy Solution, which includes

- **Mangrove Planting**

In 2015, through Bakti BCA program, BCA in collaboration with WWF Indonesia planted 18,000 trees in ten regions in Indonesia namely: Lamujung (Aceh Besar), Tanggamus (Lampung), Hutan Mangrove Tol Sedyatmo, Pantai Indah Kapuk (Jakarta), Muara Gembong (Jawa Barat), Blanakan Subang (Jawa Barat), Muara Kali Opak (Yogyakarta), Teluk Lamong (Surabaya), Muncar (Banyuwangi), Buleleng (Bali), and Bengkayang (Kalimantan Barat). Mangrove tree planting is part of the NEWtrees program launched by the World Wide Fund for Nature (WWF) Indonesia.

Besides recovering the environment, planting mangroves can also encourage productive economic activities. As an example, the local community of Wringin Putih village, Muncar district, Banyuwangi process mangrove into chips, syrup, coffee, and tea.

According to data from The World Atlas of Mangroves 2010, Indonesia's mangrove area consists of 3 million hectares, or 20% of the world's mangrove forest area. Mangrove forests can prevent erosion, reduce the impact of tsunami as well as land salinization, and is primarily beneficial for 40% -50% of the Indonesian people who live in areas near the coast.

- **Orangutan Release Program**

Since 2012, BCA has been supporting activities signaling the awareness on the preservation of protected wildlife habitat. In 2015, BCA provided assistance to the Borneo Orangutan Survival (BOS) Foundation to release orangutans from Samboja Lestari Orangutan Reintroduction Center to Kehje Sewen Forest, Kalimantan Timur.

Orangutan (*pongi pygmaeus*) is a protected wildlife species which has an important function in the forest ecosystem, especially as an umbrella species. Currently the population of orangutans in Kalimantan is estimated to be 55,000. Forest land conversion, illegal logging, forest fires, poaching and illegal wildlife trading has caused the population of orangutan to decrease. To that end, BOS Foundation performs activities to rescue, rehabilitate, and release (reintroduction), as well as conserving the habitats of orangutans.

BCA's support is realized through a number of publications and educational activities on the conservation of the orangutan and its habitat. Events held included "BCA Green Stage" in March 2015 and "BCA Indonesian Open" in June 2015. In addition, the Bank also broadcasted a long duration orangutan conservation program in a LED Big Screen installed in Menara BCA Jakarta.

- **Turtles Conservation**

Worked together with the Banyuwangi Sea Turtle Foundation to perform the efforts to conserve turtles in Banyuwangi, on December 2015.

- **Coral Reefs Preservation**

In the sales of ORI1012, in cooperation with Yayasan Terangi which was designated by the Ministry of Finance to work with the banks selling ORI1012, BCA performed the efforts to preserve the coral reefs in Pulau Harapan, Kepulauan Seribu, on December 2015.

B. EMPLOYMENT & PROTECTION

B.1. Company Policy

At BCA, Human capital is the major driving force of the Company and has a central role in the management of the Company's other resources. At BCA, every employee is a valuable asset and therefore BCA strives to prioritize comprehensive human capital development. BCA is committed to carrying out sustainable human resources development in order to improve the quality, competence and character, career and well-being of every employee as a means of fostering a sense of comfort and pride amongst employees. Moreover, BCA also strives to provide maximum protection for all employees in the working environment.

Related to employee protection, BCA has set a number of policies intended to assure the rights of each employee, including:

- Transparency of the Bank's strategic employment policy.** BCA provides the facility for employees to access the Bank's employment policies such as the recruitment system, promotion system, and remuneration system. Employees can access online through BCA's intranet (MyBCA) and offline through Decision and Circular Letters, as well as the Collective Labor Agreement (CLA).
- Disclosure of information to employees.** BCA has developed a comprehensive internal communication mechanism with official correspondence in the form of circulars, email blasts, internal magazine (InfoBCA printed version as well as e-magazine), HaloSDM phone service, COP (community of practice), and many more. By the end of 2013, BCA developed a new platform for internal communication, using Facebook and entitled "Facebook Group Semua Beres!"
- Collective Labor Agreement (CLA).** In line with BCA's commitment to nurture positive industrial relations, by publishing the Collective Labour Agreement (CLA) formulated by the negotiating team and the union. CLA is updated every two years. In 2015, management used BCA CLA 2014-2016.
- Conducive working climate.** BCA strives to maintain a conducive working climate that supports the achievement of individual targets, unit targets and BCA targets in general. Management believes that achieving the best possible performance can only be realized in a conducive working environment built upon the implementation of a strong corporate culture as well as the vision and mission of the Bank. Such a conducive working climate can be realized by developing a healthy competitive performance culture through transparent and fair individual assessments and through periodic evaluations of unit performance.
- Clear and well-planned career path and development.** Every employee is entitled to a clear and well planned career path and development, in accordance to the achievement quality of individual and unit performance target.

- f. **Equal opportunity of employment.** BCA provides equal employment opportunities for all employees regardless of their ethnicity, religion, race, class, and gender. To that end, the Bank's policy on employee deployment and placement is based on employee merits and competence.
- g. **Opportunities for actualization of skills, competencies, talents and interests.** BCA provides employees with opportunities for actualization of their skills and competencies in order to support the fulfillment of performance targets. In addition, employees are also provided the opportunities to develop their talents and interests outside their jobs through sports and art activities. BCA coordinates these activities through the Bakorseni (Sports and Arts Coordinating Board). The activities include AsiaBike (for bike enthusiast employees), AsiaLens (for photography enthusiast employees), AsiaWangi (for wayang enthusiast employees), AsiaHike (for hiking enthusiast employees), and others.
- h. **Compensation and benefit program.** BCA provides a competitive compensation and benefits program.

B.2. Execution

B.2.1. Employee Health Care

BCA is a company that pays attention to its employees' health and well-being. BCA strives to maintain its employee compensation and benefits at a competitive level within the banking industry.

BCA provides both preventive and curative health care facilities, among others vaccination, inpatient facilities, outpatient facilities, maternity, eyeglasses, dental care, laboratory tests, medical check-up and pap smears. With this comprehensive health care policy, BCA undertakes to safeguard the employees' wellbeing so that positive results will impact on the lives of employees as individuals, their families and as BCA employees.

In order to support the Government's program regarding public health services, BCA encourages its employees and their families to become participants of BPJS Kesehatan, through collective enrolment, with a maximum coverage for 5 family members including the employee.

BCA actively disseminates healthy lifestyle and health awareness information as part of "Program Sehat Bersama BCA" launched in 2012. Related to the program, throughout 2015, BCA facilitated various employee sport activities under the coordination of Bakorseni BCA. To celebrate the anniversary of BCA in February 2015, BCA held number of sporting competitions participated in by employees from the head office and branch offices.

Volley ball tournament and vocal group competition, some of the event during the 2015 PORSENI BCA

In addition, BCA organized health seminars for BCA employees, namely Seminar on Cancer and Heart Disease (held in August and September 2015) for the areas outside Jabodetabek and Healthy Brain for Productivity (September 2015) for the area of Jabodetabek, Common Gastrointestinal and Liver Diseases dan When Do You Need Doctor's Help (December 2015).

BCA provides a lactation room in a number of its offices equipped with supporting facilities to help BCA female employees conduct exclusive breastfeeding for their children.

B.2.2. Employee Welfare

BCA's commitment to increase employee welfare is embodied through periodic salary increases, employee or corporate performance bonus. In addition, in order to increase a sense of belonging by employees of the Bank, the Bank also provided an extra bonus. Shares were granted based on an employee's performance during the period January 1 until December 31, 2014 and was given in April 25, 2015 to 19,238 permanent employees for a total of 12,935,369 shares at an average pricing of Rp14,309.86 per share.

This extra share bonus was locked up for three years to help build a sense of belonging at the Bank, a commitment by each individual to improve both individual and company performance.

B.2.3. Occupational Safety

BCA pays immense attention in creating a safe working environment at all of its offices through its office layout planning and development which considered among others:

- Completeness and appropriateness of the facilities and working environment;
- Cleanliness
- Harmonious interior layout
- Proper placement of facilities
- Completeness and appropriateness of security measures.

 BOD and employees of BCA during BCA's 58th anniversary celebration

Periodically, the head office in Menara BCA holds an evacuation drill which is compulsory for all employees in order for them to know how to handle a fire or earthquake.

B.2.4. Employee Turnover

A company's employee turnover rate reflects the nature of its human resources management. BCA is among a small group of banks in the Indonesian banking industry with a low employee turnover. This is testament to BCA's maintaining a conducive working atmosphere with high employee satisfaction.

As of December 2015, the number of permanent employees who resigned from BCA was 508, or 2.12% of BCA's total employees. The details of employee data are as follows.

Employee Turnover Based on Years of Service

Years of Service	Number of Employee	%
< 1 year	2,755	11.49
> 1 - 5 years	4,360	18.18
> 5 - 10 years	1,040	4.34
> 10 - 15 years	937	3.91
> 15 - 20 years	6,047	25.21
> 20 years	8,843	36.87
TOTAL	23,982	100.00

* including contract, probation and trainee. Data as of December 2015.

B.2.5. BCA Day Care Program

Launched in 2010, BCA's Day Care program is designed for employees' children of an elementary school age. In 2015, 494 children attended the BCA Day Care Program which was held in five (5) locations within Jabodetabek (Greater Jakarta) and two (2) locations in non Jabodetabek (outside Greater Jakarta).

BCA Day Care Program Based on the Location, Theme, and Number of Participants

 BCA Day Care Program

C. SOCIAL DEVELOPMENT

C.1. Company Policy

To maintain business continuity and maximize the Company's long term value, the Bank's CSR program is focused on social development as outlined in the Bakti BCA program through three main pillars, namely:

1. BCA Smart Solution
2. BCA Synergy Solution
3. BCA Excellent Business Solution.

C.2. Execution

C.2.1. BCA Smart Solution

BCA Smart Solution consists of education related programs under Bakti BCA which aims to improve the quality and competitive edge of Indonesian people, in particular the young generation, especially as we enter the upcoming ASEAN Economic Community (AEC). Various educational programs are developed on an ongoing basis through BCA Smart Solution, among others:

1. Accounting Education Program (PPA) non-degree

The program which was launched in 1996 aims to provide non-degree education, free of charge, to high school graduates or the equivalent who have strong academic credentials but who have financial constraints that hinder their ability to pursue higher education.

The program lasts for 30 months using a conditional knockout system with rigorous academic requirements. In addition to in-class activities, the

students also undertake on the job training programs at BCA. The participants will learn soft skills, such as leadership, teamwork, character building, grooming, and financial planning.

The program is supported by a qualified teaching staff consisting of professional and experienced lecturers from leading universities in Indonesia. The staffs overseeing the program have to go the extra mile to better understand the personality of each student to be able to encourage the students to realize their best potential. The PPA non-degree program also facilitates the development of students' interests in sports and arts.

This program is provided free of charge and the participants receive pocket money and facilities, such as textbooks and medical examinations, in accordance with the Bank's policy. Participants are also given the opportunity to work at BCA, but have no obligation to do so upon completing the PPA program.

In 2015, the number of participants of the PPA program was 387 persons, comprising 9 batches. 126 participants successfully completed the program and 125 of them have chosen to join BCA as permanent employees in 2015.

BCA actively disseminates the PPA non-degree program through various channels such as the corporate website www.bca.co.id.

2. Information Technology Education Program (PPTI) non-degree

To keep abreast of the increasing human resources demand and the development of Information Technology, since 2013 BCA held the non-degree Information Technology Education Program (PPTI BCA). This program which is equivalent to a bachelor's degree is provided for high school (SMA) and Vocational School (SMK) graduates who want to continue their education or develop their skills in the field of information technology. The material provided in PPTI BCA is similar to that of a university's, but enriched with self-development material.

PPTI Program

The PPTI BCA program lasts for 30 months. This program is provided free of charge and the participants receive pocket money and facilities, such as textbooks and medical examinations, in accordance with the Bank's policy. In addition to in-class activities, participants also have the opportunity to undertake on the job training programs at BCA Head Office.

To ensure the high quality of graduates, the program implements a conditional knockout system with rigorous academic requirements. Participants with less than a 2.75 GPA (out of 4) will be disqualified and dismissed from the program. Furthermore, upon completion, participants will be offered by the Bank to work as employees of the Bank, if the company requires. In 2015, PPTI BCA was attended by 91 people, consisting of 3 classes.

3. Bakti BCA Internship Program

Introduced in 2002, the Bakti BCA Internship Program is designated for high school to university graduates. Participants will follow the training and internship program for one year, in which they will be provided with internship experience in banking operations and other knowledge.

Currently, Bakti BCA Internship Program provides interns with an opportunity to gain working experience as a CSO (Customer Service Officer) or Teller. Interns will undergo a series of training programs, including on how to count and sort money safely, identifying the authenticity of Rupiah, teller/CSO skills, product knowledge, mini-bank simulation, bank secrecy, and much more. In addition, trainees will also learn soft skills, such as motivation and self-grooming.

Furthermore, those who perform well will be offered scholarships to continue their education. Until now, the public has shown favorable interest on Bakti BCA

Internship program. As of December 2015, 45,588 candidates submitted applications for the program, with 10,598 passing the test to become CSOs and tellers.

4. Integrated Bakti BCA

Integrated Bakti BCA is a CSR program launched since 2000 and aimed to improve educational access and quality as well as support for the development of educational infrastructure for elementary, junior and senior high school. Activities undertaken include teacher training, to improve the quality of teaching, construction of computer laboratories, renovation of school facilities, donation of books and other supporting facilities such as infocus, LCD, air conditioning (AC).

Until now, BCA has provided assistance to 17 schools, ranging from elementary schools to senior high schools, in Gunung Kidul, Yogyakarta; Gadingrejo, Lampung and Taktakan Serang, Banten.

In October 2015, BCA in cooperation with Master's Hand provided training for 35 junior and high school teachers representing BCA's patronages in the area of Yogyakarta, namely SMPN 1 Ponjong, SMPN 1 Semanu, SMPN 1 Karangmojo, and SMAN 1 Karangmojo, with the theme "Great Teacher Great Student".

5. Bakti BCA Scholarship

Since 1999, BCA has sponsored the Bakti BCA Scholarship, a program for undergraduate students with good achievement but difficult financial background. The program is intended to motivate them in pursuing their studies and assisting them in completing their education. Bakti BCA scholarships cover tuition fee and/or pocket money.

In 2015, BCA provided scholarships for 481 students in the period of 2014/2015 and 468 students in the period 2015/2016. In providing the scholarships, BCA collaborates with 14 universities in Indonesia, namely Universitas Indonesia (UI), Institut Teknologi Bandung (ITB), Universitas Padjadjaran (Unpad), Institut Pertanian Bogor (IPB), Universitas Diponegoro (Undip), Universitas Gadjah Mada (UGM), Institut Teknologi Sepuluh Nopember (ITS), Universitas Airlangga (Unair), Universitas Udayana (UD), Universitas Sumatera Utara (USU), Universitas Hasanuddin (UNHAS), Universitas Mulawarman (UNMUL), Universitas Brawijaya (UB), Universitas Samratulangi (UNSRAT). BCA also collaborates with a number of foundations such as the Paramadina Foundation, the Perbanas Foundation, Karya Salemba Empat Foundation, ISRF, Sanata Dharma and IKOPIN to provide educational scholarships to outstanding students.

To broaden scholars' horizons, BCA also facilitates the development of soft skills courses at several universities, such as: training, mentoring programs and seminars.

6. Educational Partnership

Related to educational partnerships, in 2015 BCA performed several activities, including:

- **Gadjah Mada University, Yogyakarta.** BCA provides assistance for the program making of Massive Open Online Courses (MOOCs) namely a program of lectures transmitted online and executed with the principles of openness and each individual can

have access to the internet to absorb knowledge through online courses by the Faculty of Social and Political Sciences (FISIPOL) UGM. In addition, the Bank also provides assistance for the renovation of the central library building in UGM in order to strengthen the stability of the building against teknotik earthquakes, as well as renovation of the music chamber at the Koesnadi Hardjosoemantri Cultural Center used to complete the development of the soft skills of UGM students.

- **University of Indonesia** In the Faculty of Economics (UI, BCA again sponsored the "The 4th Bachelor Journey, The 8th Master Journey, The 10th Doctoral Journey in Management 2015." A competition followed by master and doctoral students of management of various educational institutions and universities in Indonesia.
- **PPM School of Management, Jakarta** BCA becomes the main sponsor of the 5th PPM Regional Case Competition (RBCC). More than 73 high school teams or universias in Indonesia, Singapore, Malaysia, the Philippines, China, etc participated in the competition.
- **Diponegoro University Semarang.** BCA assisted the provision of Bloomberg in Faculty of Economics and Business (FEB) Undip, as well as became the sponsor of "Diponegoro Entrepreneur Festival".

Training for students who were recipient of Bakti BCA Scholarship

- **The United Nations Children's Fund (UNICEF).**

BCA again participated in the nation's education, one of which is realized by handing over the donation for Pendidikan Ramah Anak. In Pendidikan Ramah Anak, UNICEF and the BCA produced two innovative modules, namely safe and strong school modules which build resilient community.

- **Yayasan Djarum (Djarum Foundation)**

In order to develop the quality of human resources in Indonesia, BCA supports the Djarum Foundation to renovate the infrastructure facilities at SMK PGRI 1 Mejobo, Kudus and SMK Taman Siswa, Kudus.

7. Education on Banking Solutions & Financial Literacy

To support the financial literacy program, BCA organizes several activities, among others:

- **Financial literacy for school children.** Beginning in 2007, BCA has collaborated with KidZania in developing a means of banking education for children in the form of edutainment. The children can learn more about banking solutions, services and ATM functions, as well as get to know some of the professions in the banking industry. One of the activities carried out was inviting 1,500 students from SDN 1 Taktakan Serang, SDN 2 Taktakan Serang and also other elementary schools located around BCA's regional offices or branch offices in Jabodetabek.

- **Financial Literacy for the Families of Indonesian Workers.**

In May and June 2015, the Bank organized a financial literacy education program for the children and families of Indonesian migrant workers in Arjawinangun, Cirebon; Dukuh Jati, Indramayu and Sagaranten, Sukabumi. They learned simple financial management, such as savings. The Bank also socialized overseas remittance services.

- **Financial Literacy through the BCA Day Care Program.**

A number of activities related to financial literacy for school children are also performed through the BCA Day Care program which is given to the children of BCA employees.

- **Financial Literacy Education using the Financial Literacy Cars (SIMOLEK).**

In August 2015, the Bank participated in an educational activity initiated by the Financial Services Authority (FSA) using the financial literacy car (SIMOLEK). Financial Literacy Education such as the understanding of financial planning, introduction to FSA and BCA, products/ financial services (benefits, risks, rights and obligations) was performed in 17 cities.

- **Financial Literacy Education to Indonesian Migrant Workers in Hong Kong.**

In August 2015, the Bank participated in the financial education program held by the FSA for Indonesian workers in Hong Kong. This program was supported by the Indonesian Consulate General in Hong Kong, National Agency for the Placement and Protection of Indonesian Migrant Workers (BNP2TKI) and

 The hand over of books for the library of SDN 35 Nuni, Manokwari

 Banking education for Elementary School at KidZania

other financial services institutions. The purpose of the education is to provide understanding of financial management, introduction to FSA and LJK, financial products/ services (benefits, risks, rights and obligations) as well as entrepreneurship.

- **Financial Literacy Education through the development of the product Simpanan Pelajar (Simpel/ Simpel IB)** with the aim to improve the knowledge and understanding of students, parents and the school community regarding financial services, especially savings products.
- **Financial Literacy Education through the LAKU PANDAI** program endorsed by the FSA with the aim to provide the public with better understanding on the principles of financial management, public awareness on the function of savings as a means of preparation and realization of the family's future as well as awareness and insight on the differences of consumptive debt and productive debt.

BCA creates and publishes educational materials on BCA's banking solutions through a variety of means, one of which is BCA News Rubric. Throughout 2015, BCA entered into collaboration with other mass media to publish and manage the BCA News Rubric, such as with Kompas, Pikiran Rakyat, Jawa Pos News Network (JPNN), Swa Magazine, Tempo Magazine, Kontan tabloid, kompas.com, kontan.co.id, yahoo.co.id, Pikiran Rakyat online, detik.com mobile version, SWA online, and Tempo online, metrotvnews.com and various other.

C.2.2. BCA Synergy Solution

BCA collaborates with a number of institutions which have proven credibility and competence in the field of culture, health, environment, sports, and empathy, to implement BCA Synergy Solution.

In 2015, the programs included:

1. Bakti BCA for Culture
2. Bakti BCA for Health Care
3. Bakti BCA for Environment
4. Bakti BCA for Sports
5. Empathy program.

C.2.2.A. Bakti BCA for Culture

BCA takes an active role in the efforts to preserve and support the development of the national culture. In 2015, BCA conducted several activities as follows:

1. Wayang

Since 2012, BCA formulated the program "BCA untuk Wayang Indonesia." Program BCA untuk Wayang Indonesia is performed through the following programs:

- **WOW – World of Wayang**

BCA in collaboration with Persatuan Pedalangan Indonesia (Pepadi) and Kompas TV, developed a means to introduce and educate the youth about the wayang tradition through television. WOW was aired for the first time in 2012 and was broadcast every Sunday afternoon on Kompas TV. In the long term the program is expected to foster pride and to motivate the youth to learn and develop Indonesian wayang.

- **Wayang for Students**

This activity is developed as an effort to promote and introduce wayang to the younger generation. In 2015, the wayang educational program was performed in SMP Pangudi Luhur Domenico Savio, Semarang with the play The Young Hero – Abhimanyu's Heroic Story watched by 400 students and 30 teachers and employees; SMP Negeri 18 Semarang with the play The Self Transformation – the story of Dewa Ruci with an audience of 750 students and 30 teachers and employees; as well as in SMP Kanisius St. Yoris, Semarang with the play Never Ending Love Story - The

story of Rama Sinta with an audience of 401 students and 25 teachers and employees. These respective activities were performed in one full day.

- **Wayang Goes to Campus**

BCA supports this event as an attempt to educate the younger generation, especially students. The activities are diverse, namely including exhibitions, seminars, and puppet shows. Wayang Goes to Campus was held in Indonesia University, on May 2015

- **Wayang in Town**

As a continuation of the program Wayang in Town, BCA re-develop an educational program related to the introduction of wayang to the younger generation, namely Wayang goes to the Mall in Galeri Indonesia Kaya, Grand Indonesia in November 17-18, 2015. At this event, the Bank invited to get to know more closely through puppet shows, talk shows, and competitions students from 20 middle and high schools in Jakarta.

2. Cultural Education

BCA also actively supports organizations with the dedication and integrity in the nation's cultural development, both in the form of donations and sponsorship. Among others, BCA in collaboration with Persatuan Pedalangan Indonesia (Pepadi), Unima Indonesia, and Teater Wayang Indonesia (Senawangi).

Bank invites high school students from Lampung, Serang and Yogyakarta to watch the performance of Teater Koma with the play "Ular Putih" (March 2015). In November 2015 the Bank again supported the performance of Teater Koma with the play "Kalau Penguasa Kacau (KPK)".

C.2.2.B. Bakti BCA in Health

BCA actively participates in public health care activities including the provision of affordable health care services for the underprivileged. BCA works together with several institutions with proven competence and credibility in the field of health care services.

1. Cataract Surgery. In collaboration with the Cataract Blindness Control unit of the Association of Indonesian Ophthalmologist (SPBK Perdami), BCA organized free cataract surgery for unprivileged people. This program has been implemented since 2001 with the objective of reducing the number of cataract sufferers as well as support the Government and WHO (World Health Organization) program of Vision 2020. *The Right to Sight*, a global initiative to reduce blindness in the world.

Throughout 2015, BCA organized 689 cataract surgeries in several regions including Ciledug, Tangerang, Banten; Pelabuhan Ratu, Sukabumi, Jawa Barat; Balangan, Kalimantan Selatan; Lela, Maumare, Flores; Sukadana, Lampung; Liwa, Lampung and Mamuju, Sulawesi Barat.

 The President Director of BCA during the event of Wayang in Town, attended by 600 students

2. Cataract Surgery Equipment Donation. Coinciding with BCA's 58th Anniversary, BCA donated 13 pieces of equipment for cataract surgery and two biometric tools to SPBK Perdami, symbolically handed over by President Director of BCA Jahja Setiaatmadja to Secretary General of Perdami M. Sidik.

3. Health Care Services. On BCA's 58th anniversary, the President Director of BCA Jahja Setiaatmadja inaugurated the Bakti Medika Clinic, located in Mangga Dua, Jakarta. In addition to providing free medical treatment at the Bakti Medika Clinic, BCA also provided free medical treatment for the community around Duri Utara Clinic, Jakarta Barat as well as in several villages as an appreciation to the people of Indonesia who have given their support and trust to BCA.

Since 2012, BCA has facilitated affordable health care services for the underprivileged, including general health consultation and treatment, family planning services, minor surgery/ handling and wound care, child immunization, adult vaccination.

In 2015, the number of patients in Duri Utara Clinic amounted to 10,335 patients and Medika Bakti Clinic 1,563 patients.

4. Free Eyeglasses. Through Bakti BCA program, BCA provided free eye examination and eyeglasses for the students in BCA's partner schools. The event was held simultaneously in Serang, Lampung and Yogyakarta.

5. Bakti BCA Blood Donation. Since 1991, BCA has collaborated with PMI in organizing blood donation programs 3 to 4 times a year, taking place at BCA head office and branch offices. In 2015, BCA donated 1,820 blood bags to PMI.

6. Others. Related to health education, BCA actively provided support both in the form of donations or sponsorships to a number of institutions, among others. Alzheimer Awareness Campaign (Alzheimer Foundation - ALZI), and TBC Eradication program, Rumah Sakit Pusat Angkatan Darat (RSPAD) Gatot Subroto and others.

C.2.2.C. Bakti BCA in the Environment

Environmental management is one way to preserve the natural ecosystem and reduce environmental damage. BCA collaborated with several organizations with environmental concerns and capabilities to carry out the following activities:

1. BCA works together with WWF to plant 18,000 mangrove trees at 10 locations.
2. BCA collaborates with BOSF to release orangutans in East Kalimantan.
3. BCA works with the Banyuwangi Sea Turtle Foundation to conserve turtles in Banyuwangi.

BOD handed over the donation for cataract surgery

Eye check up and free eye-glasses for student

4. In the sales of ORI012, BCA cooperates with Yayasan Terangi appointed by the Ministry of Finance to conserve the coral reef in Pulau Harapan, Kepulauan Seribu.

C.2.2.D. Bakti BCA in Sports

In order to support the development of national sports and disseminate healthy lifestyles, since 2014 the Bank has signed a Memorandum of Understanding with the Indonesian Badminton Association (PBSI) to organize an international badminton competition. The annual competition was initiated by PBSI, Badminton World Federation (BWF), and several other institutions under the name BCA Indonesia Open (BIO).

In 2015, BCA again supported the world-class badminton tournament, BCA Indonesia Open Super series Premier (BIOSSP) which took place in Istora Senayan, Jakarta, on June 2 to 7, 2015.

On June 6, 2015, BCA together with Ismaya Live and Mesarace again organized a 5K race at night, titled Electro Run 2015 at Dunia Fantasi Taman Impian Jaya Ancol, Jakarta.

In addition, BCA also supports a variety of other sports activities in the form of donations or sponsorships, such as golf tournaments, and many more.

C.2.2.E. Empathy

Apart the above mentioned, BCA is also active in giving donations for victims of natural disasters, among others the flood in Bandung Selatan, Sinabung Mount Eruption in

Sumatera Utara and rehabilitation of Pasar Klewer, Solo after the fire.

C.2.2.F. Others

BCA gave donations for institutions and organizations who conduct social activities in the interest of the general public, in line with the pillars of BCA's CSR activities. In 2015, BCA gave donations to a number of social activities for children, donations for orphanages and the unprivileged, donation for Yayasan PEPABRI, Corps Cacat Veteran RI, LVRI, and Purnayuda.

C.2.3. BCA Excellent Business Solution

Community empowerment aims to create an environment whereby people can grow and progress independently. BCA supports the efforts of community empowerment through BCA Excellent Business Solution. This program was developed in line with BCA's advantage in payment systems.

Programs implemented under BCA Excellent Business Solution include:

1. Business Development Institution (LPB) Mitra Bersama;
2. Partnership with Community.

C.2.3.A. Business Development Institution (LPB) Mitra Bersama

Small and Medium Entrepreneurs (SMEs) play a major role in Indonesia and they have proven themselves resilient during times of crisis. SMEs provide job opportunities for millions of people and help strengthen the fundamentals of the Indonesian economy.

 BIO's Mascots are in action during the 2015 BCA Indonesia Open

 BCA BoD opened the 2015 BIO

In 2009, in collaboration with two other prominent companies in Indonesia, PT Astra Internasional Tbk and PT Pertamina (Persero), BCA established the Business Development Institution (LPB) Mitra Bersama, with the objective to provide facilities for SMEs to develop sustainable and competitive businesses.

To help achieve the objectives of LPB Mitra Bersama, the founding corporations were assisted by Yayasan Dharma Bhakti Astra, among others in providing consultation and training in financial management for simple accounting, packaging, website, quality control, etc; market introduction and development; introduction on banking or financial institutions, such as the socialization of banking products and services, SME financing; network development, for instance SME meetings, and bazaars.

Currently, branches/programs of LPB Mitra Bersama are in several cities:

- LPB Mitra Bersama Sidoarjo, East Jawa: 553 SMEs in the field of handicrafts, convection, repair shop, and motor cycle spare parts.
- LPB Mitra Bersama Palembang, South Sumatera: 166 SMEs in the field of culinary, natural-fibre fabrics, and repair shop.
- LPB Mitra Bersama Yogyakarta: 217 SMEs in the field of culinary, repair shop, and trading.
- LPB Mitra Bersama Pontianak, West Kalimantan: 130 SMEs in the field of culinary, handicrafts, and repair shop.

- LPB Mitra Bersama Bukittinggi, West Sumatera, since the beginning of 2015 has been able to establish independently and form Serba Usaha Jam Gadang Cooperative, with 30 member SMEs in the culinary field.

LPB Mitra Bersama actively encourages collaboration with a number of educational institutions and the local government as well as related agencies to provide more effective services to SMEs.

C.2.3.B. Partnership with the Community

BCA actively assists various communities to open new business and employment opportunities for the local communities. These undertakings also aim to promote the well-being and independence of the community, which would indirectly support the Indonesian economic development. Some programs are implemented, among others:

• **Wirawisata Gua Pindul**

Paguyuban Wirawisata Gelaran II is a community initiated by karang taruna (the youth organization), with the blessing of local community leaders, to develop Gua Pindul tourism which is located in the Village of Bejiharjo, Karangmojo sub-district, District of Gunung Kidul, Yogyakarta. This tourism village is expected to empower local communities with by opening jobs and business opportunities.

Since 2012, BCA actively supports the efforts of Karang Taruna Gelaran II Desa Bejiharjo by installing BCA's Electronic Data Capture (EDC) as an alternative

Gua Pindul tourism, Gunung Kidul

means of payment for the tourists visiting Gua Pindul. To achieve continuity of support, BCA trained the human resources of the tourism village with soft skills and improved their quality with a variety of trainings covering promotional materials, formulation of packages, and tool-making.

The training aims to further improve and complete the existing water attraction. BCA also organizes training related to the quality of services, tourism knowledge and how to use and manage their online promotion.

In addition, the Bank also helped the Paguyuban Wirawisata Gelaran II in developing the Early Childhood Education (ECD) infrastructure to provide early childhood education to children around the Bejiharjo village.

- **Desa Wukirsari**

Wukirsari Village is located in Imogiri and as evolved into a pioneering village for batik in the district of Bantul, where batik is a craft tradition handed down from generation to generation. Besides batik, this village is also well known for their tatang sungging (wayang made from leather) and other leather crafts. To improve the management of the tourism village, BCA organized a training on human resources skills. The training was equipped with a comparative study on tourism services.

 Carving Artisan from Desa Wukirsari

After receiving training on tourist village management, excellent service, and marketing via the internet, in mid-2015, the Bank provided funding for the construction of facilities and infrastructure development of the Wukirsari Tourism Village Wayang in the form of puppet pavilion.

- **Desa Pentingsari**

Penting Sari Tourism Village, also known as Dewi Peri, is situated on the slope of Gunung Merapi, Cangkringan, Sleman, Yogyakarta. It has the potential to be developed as an eco-tourism village as well as cultural and farming tourist village. Tourists can live and experience rural living. BCA provides training for the management team of the village, related to the maintenance and management of facilities and HR. The training covered various subjects, among others, tourism industry and its management, excellent services, teamwork, and communication.

After training on the management of tourist village and excellent services, BCA also assisted Dewi Peri in the construction of the secretariat office of the village, renovated and built the pavillions used for guests, as well as established a "home production" used by housewives to produce a variety of snacks as souvenirs typical of Dewi Peri.

- **Desa Tamansari**

Tamansari Tourism Village is located in the district of Licin, Banyuwangi, in the slopes of Mount Ijen. The tourism potential of the area includes the life of the villagers such as farming; coffee, cloves, and chocolates plantations; sulfur mine; as well as the local culture, namely the Gandrung dance.

In June 2015, BCA provided training to the administrators of the Tamansari Tourism as a form of support to the development of the tourism industry through the development of rural tourism.

In 12 to 14 June 2015, the Bank invited several of the administrators of the Tamansari Tourism Village to conduct a comparative study at Pentingsari Tourism

Village, along with the administrators of the Batu Lonceng Tourism Village.

To complete the development of rural tourism program, the Bank provided funding infrastructure development for tourism village Tamansari's secretariat office, toilet, and joglo to receive travel guests. Tamansari Tourism Village development gains support from the Government of Licin sub district Banyuwangi, East Java.

- **Desa Wisata Batu Lonceng**

Batu Lonceng Tourism Village is located in the village of Sunten Jaya, Lembang district, Bandung Barat regency, West Java. In addition as one of the nature conservation in the form of springs for Cikapundung river, there are also sites such as the Batu Lonceng namely an inscriptions relics of the Pajajaran kingdom from around the 16th century.

In addition, the tourism potential of Kampung Batu Lonceng is the life of village community such as planting crops, coffee gardening, raising goats and cattle, camping ground, as well as the live at their homes. Some administrators of Batu Lonceng Tourism Village also participated and performed comparative studies at Pentingsari Tourism Village, Yogyakarta, along with the administrators of Tamansari Tourism Village, Banyuwangi.

In July 2015, BCA provided training for the management of Desa Wisata Batu Lonceng, Desa Sunten Jaya, District Lembang, Bandung Barat Regency, West Java. This is BCA's form of support towards the development of the tourism industry through the development of rural tourism.

In addition to providing training, the Bank also provided infrastructure in the form of computer equipment, office secretariat, toilet, and a center for guest reception.

In addition, the Bank also supports the activity "Hajat Lembur", a tradition of the community of Sunten Jaya Village in welcoming the Hijriah New Year. This is an annual event in Batu Lonceng Village, which displays local art both from Kabuyutan Batu Lonceng, as well as from other Kabuyutan in Bandung and the surrounding areas. This event is also supported and attended by local government officials of the West Bandung regency.

- **Assisting the Code Margonda Community**

The Code Margonda Community is a gathering place for activism, meeting, sharing, and workshops in Depok, West Java. It is an innovation that generates a stylish atmosphere for the cooperative work among members of the creative industry by bringing the values of the community into the process of business development.

The objective of co-working is to encourage collaboration and thus accelerate the achievement of economic growth, as well as the social and cultural development of Indonesia. Until now more than 18,000 people have visited the site and more than 1,300 events have been held with a focus on the development of SMEs and the increase of digital creative start-up incubation.

BCA Began to assist the Code Margonda Community by providing infrastructure support in the form of office support equipment at the co-working space of Code Margonda in Depok.

D. CUSTOMER PROTECTION

D.1. Company Policy

BCA constantly maintains customer trust by applying the principle of prudence and prioritizing customer safety and service. Optimally protecting customer interests is the key to building customer trust within the banking system in general.

Customer protection also serves as embodiment of one of BCA's corporate values, namely customer focus. At BCA, business management is not merely seeking profitability but also seeks to provide banking solutions for customers, partners and the public. The development of banking solutions is oriented to customer needs and to paying attention to customer protection and safety, consistently and continuously.

 BCA BOD during Customer Day

D.2. Execution

D.2.1 Customer Education

Conducting customer education is one preventive tool to avoid fraudulent transactions or other forms of fraud. BCA consistently develops various educational programs related to transaction security when using BCA banking products and services. BCA customer education programs are carried out consistently and continuously among others through the rubric "Berita BCA" in cooperation with the mass media, both traditional media and online media. In the rubric, Halo BCA 1500888 is also well-informed as a solution center for BCA banking transaction.

The dissemination of Halo BCA numbers and procedures in respect to the safety and comfort of BCA customers, and the public, is done through the Bank's website www.bca.co.id and twitter account @HaloBCA as the main social media accounts.

In addition, BCA develops customer education channels through its official social media accounts:

D.2.2. Customer Complaint Mechanisms

BCA provides various channels of communication for customer complaints, namely Halo BCA contact center which provides services every day for 24 hours, non-stop. For BCA, suggestions and complaints of customers serve as valuable feedback, especially in order for BCA to strengthen and improve the quality of its services.

BCA provides a number of communication channels as a means of support for customer protection, including:

- 24 hours contact center Halo BCA 1500888
- E-mail at halobca@bca.co.id.
- Twitter @HaloBCA
- Face to face with BCA frontliners.

Call Center HaloBCA 1500888

D.2.3. Halo BCA

Halo BCA 1500888, is a means for customers to obtain important information related to BCA products and services. Halo BCA also receives feedback and complaints from customers.

During 2015, Halo BCA received 9,483,013 phone calls, where 9.5% or 896,459 calls were customer complaints and 24.3% or 2,305,628 calls were related to the customers' needs for information on BCA products and services. In 2015, 97.8% of the customer complaints were able to be solved according to the service level.

D.2.4. Letters to the Editor

BCA through the Corporate Secretary strives to respond to all inputs and customer complaints submitted via the Readers' Letters section in the printed media. Furthermore, the Company Secretary will coordinate with Halo BCA and related work units and branches to resolve the problems presented by the customer.

During 2015, there were 21 customer inputs conveyed to BCA delivered through the Readers' Letters section in several printed media. BCA was able to follow up or provide settlement solutions for 100% of the total inputs and complaints.

D.2.5. Social Network Media

BCA utilizes social networks to be closer and communicate with customers, namely through social media platforms, such as Facebook, Twitter, Youtube, Mindtalk, Instagram, Kaskus, LinkedIn and Slideshare.

During 2015, @HaloBCA Twitter account had 91,324 followers and receives received 83,542 mentions. Besides Twitter, customers can submit their inputs through BCA's official social media accounts as mentioned at www.bca.co.id/socialmedia or at page 393 of this book.

D.2.6. Sosialisasi Saluran Pengaduan Nasabah

Through a variety of promotional brochures and printed banking materials (savings book, product starter pack), the Bank actively educates about the Bank's means of communication, one of them by including information about the service contact center Halo BCA 1500888 and website www.bca.co.id.

In addition, customers can also use e-mail to communicate with BCA. In 2015, there were 167,967 e-mails from customers, namely on product or service information needs, inputs, as well as issues related to BCA services.

D.2.7. Customer Complaint Handling

Customer complaints communicated through a variety of communication media is always welcomed and responded to quickly and accurately by the branches, service offices or relevant work units. In addition, BCA continues to provide serious attention to all input and customer complaints and develop them into feedback for the Bank to enhance the Bank's services for all customers.

D.2.8. Development of Customer Complaints Handling

BCA strives to provide the best services in order to deliver optimal benefits and added values for all stakeholders. To that end, BCA will continue to develop and improve procedures on handling complaints and suggestions.

As the frontline in receiving suggestions and complaints from customers, BCA continually improves the quality of Halo BCA officers through trainings and product knowledge updates, especially due to BCA's diverse banking solutions.

D.2.9. Customer Service Improvement Program & Branch Network Development

BCA is committed to always provide the best services for customers. BCA continues to develop its branch network. In 2015, BCA's has 1,182 branch offices, an increase of 92 branch offices compared to the end of 2014. Expansion of the BCA branch network is intended to deepen BCA's reach in various cities in Indonesia.

D.2.10. ATM Network Setup and Synergy

To improve its services, BCA always performs monitoring and analysis on its ATM network development and network synergy. This is done in order to provide the best services and banking solutions for customers and the public in general.

D.2.11. Public Recognition

BCA's commitment and excellent services is evidenced by various honors from various independent institutions, both local and abroad.

In 2015, BCA received various awards among others from Indonesia Contact Center Association (ICCA), Center for Customer Satisfaction & Loyalty (CCSL), Perbanas, Asia Pacific Contact Association Leadership (APCAL), and Contact Center World (CCW).

These awards further encourages BCA to continue to refine its services by managing customer input so as to deliver the best banking solutions for our customers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL

a. Establishment and general information of the Bank

PT Bank Central Asia Tbk (the “Bank”) was established in the Republic of Indonesia based on the Notary Deed No. 38 of Raden Mas Soeprapto dated 10 August 1955 under the name of “N.V. Perseroan Dagang Dan Industrie Semarang Knitting Factory”. This deed of establishment was approved by the Minister of Justice in its decision letter No. J.A.5/89/19 dated 10 October 1955 and was published in Supplement No. 595 to State Gazette of the Republic of Indonesia No. 62 dated 3 August 1956. The name of the Bank has been changed several times with the latest change was PT Bank Central Asia based on the Notary Deed No. 144 of Wargio Suhardjo, S.H., the substitute of notary public Ridwan Suselo, dated 21 May 1974.

The Bank’s Articles of Association have been amended several times, including amendments in relation to the Initial Public Offering of the Bank’s shares in May 2000, which among others, changed its status to a publicly-listed company and its name to PT Bank Central Asia Tbk. These amendments were made based on Notary Deed No. 62 of Hendra Karyadi, S.H., dated 29 December 1999, which was approved by the Minister of Justice in its decision letter No. C-21020 HT.01.04.TH.99 dated 31 December 1999 and published in Supplement No. 1871 to the State Gazette of the Republic of Indonesia No. 30 dated 14 April 2000.

The amendment made in relation to the issuance of new shares under the Management Stock Option Plan (“MSOP”), for which the options were exercised up to 31 December 2006, was made based on Notary Deed No. 1 of Hendra Karyadi, S.H., dated 9 January 2007. This deed was approved by the Minister of Justice and Human Rights under its decision letter No. W7-HT.01.04-797 dated 18 January 2007 and published in Supplement No. 185 to the State Gazette of the Republic of Indonesia No. 15 dated 20 February 2007.

The latest amendment to all articles in the Bank’s Articles of Association was made based on Notary Deed No. 19 of Dr. Irawan Soerodjo, S.H., MSi., dated 15 January 2009. This deed was approved by the Minister of Justice and Human Rights in its decision letter No. AHU-12512.AH.01.02 dated 14 April 2009 and published in Supplement No. 12790 to the State Gazette of the Republic of Indonesia No. 38 dated 12 May 2009.

The Bank started its commercial operations in the banking business since 12 October 1956. According to Article 3 of the Bank’s Articles of Association, the Bank operates as a commercial bank. The Bank is engaged in banking activities and other financial services in accordance with the prevailing regulations in Indonesia. The Bank obtained its license to conduct these activities under the Minister of Finance Decision Letter No. 42855/U.M.II dated 14 March 1957. The Bank obtained its license to engage in foreign exchange activities based on the Directors of Bank Indonesia Decision Letter No. 9/110/Kep/Dir/UD dated 28 March 1977.

The Bank is domiciled in Jakarta with its head office located at Jalan M.H. Thamrin No. 1. As of 31 December 2015 and 2014, the Bank had the following branches and representative offices:

	2015	2014
Domestic branches	985	968
Overseas representative offices	2	2
	<u>987</u>	<u>970</u>

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

a. Establishment and general information of the Bank (continued)

The domestic branches are located in major business centers all over Indonesia. The overseas representative offices are located in Hong Kong and Singapore.

b. Recapitalization

Based on the Indonesian Bank Restructuring Agency (“IBRA”) Decision Letter No. 19/BPPN/1998 dated 28 May 1998, the IBRA took over the operations and management of the Bank. Accordingly, the Bank’s status was changed into a Bank Taken Over (“BTO”). The Bank was determined as a participant of the bank recapitalization program under the Minister of Finance and the Governor of Bank Indonesia joint decision No. 117/KMK.017/1999 and No. 31/15/KEP/GBI dated 26 March 1999 regarding the implementation of the bank recapitalization program for Bank Taken Over.

In conjunction with the recapitalization program, on 28 May 1999 the Bank received a payment of Rp 60,877,000 from the Government of the Republic of Indonesia. This amount consisted of (i) the principal amount of loans granted to affiliated companies that were transferred to IBRA (consisting of Rp 47,751,000 transferred effectively on 21 September 1998 and Rp 4,975,000 transferred effectively on 26 April 1999), and (ii) accrued interest on the loans granted to affiliated companies calculated from their respective effective transfer dates up to 30 April 1999, amounted to Rp 8,771,000, minus (iii) the excess of outstanding Liquidity Support from Bank Indonesia (including interest) amounted to Rp 29,100,000 over the recapitalization payment from the government through IBRA of Rp 28,480,000. On the same date, the Bank used such proceeds to purchase newly issued government bonds of Rp 60,877,000 (consisted of fixed-rate government bonds amounted to Rp 2,752,000 and variable-rate government bonds amounted to Rp 58,125,000 through Bank Indonesia).

Pursuant to the Chairman of IBRA Decision Letter No. SK-501/BPPN/0400 dated 25 April 2000, IBRA returned the Bank to Bank Indonesia effective on that date. To fulfill the requirement of Bank Indonesia Regulation (“PBI”) No. 2/11/PBI/2000 dated 31 March 2000, Bank Indonesia announced in its press release Peng. No. 2/4/Bgub dated 28 April 2000, that the recovery program including the restructuring of the Bank had been completed and the Bank had been returned to be under the supervision of Bank Indonesia.

c. Public offering of the Bank’s shares

Based on the Letter of the Chairman of the Capital Market Supervisory Agency No. S-1037/PM/2000 dated 11 May 2000, the Bank through an Initial Public Offering, offered its 662,400,000 shares with a total par value of Rp 331,200 (offering price of Rp 1,400 (full amount) per share), which represents 22% (twenty two percent) of the issued and paid-up share capital, as part of the divestment of shares owned by the Republic of Indonesia as represented by IBRA. This public offering was registered at the Jakarta Stock Exchange and the Surabaya Stock Exchange on 31 May 2000 (both exchanges have been merged and now namely the Indonesia Stock Exchange).

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

c. Public offering of the Bank's shares (continued)

The Bank's shareholders through the Extraordinary General Meeting of Shareholders ("EGMS") held on 12 April 2001 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 25) resolved to conduct a stock split from Rp 500 (full amount) per share to Rp 250 (full amount) per share and to increase the issued shares through the issuance of 147,199,300 shares (or equivalent to 294,398,600 shares after the stock split) under the Management Stock Option Plan ("MSOP"). The stock split was made under the Notary Deed No. 30 of Hendra Karyadi, S.H., dated 12 April 2001, which was approved by the Minister of Justice and Human Rights on 18 April 2001.

Based on the Letter of the Chairman of the Capital Market Supervisory Agency No. S-1611/PM/2001 dated 29 June 2001, the Bank offered additional 588,800,000 shares with a total par value of Rp 147,200 (at an offering price of Rp 900 (full amount) per share), which represents 10% (ten percent) of the issued and paid-up share capital, as part of the divestment of shares owned by the Republic of Indonesia as represented by IBRA. This public offering was registered at the Jakarta Stock Exchange and the Surabaya Stock Exchange on 10 July 2001.

The Bank's shareholders through the Annual General Meeting of Shareholders ("AGMS") held on 6 May 2004 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 16) approved the stock split from Rp 250 (full amount) per share to Rp 125 (full amount) per share. The stock split was made under the Notary Deed No. 40 of Hendra Karyadi, S.H., dated 18 May 2004, which was approved by the Minister of Justice and Human Rights on 26 May 2004.

EGMS held on 26 May 2005 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 42) approved the buy back of the Bank's shares, provided that the buy back of shares has been approved by Bank Indonesia, whereby the number of shares to be bought back should not exceed 5% (five percent) of the Bank's total issued shares as of 31 December 2004, i.e. in total of 615,160,675 shares, and total fund to buy back the shares should not exceed Rp 2,153,060. With Letter No. 7/7/DPwB2/PwB24/Rahasia dated 16 November 2005, Bank Indonesia expressed no objection on the Bank's plan to buy back its shares.

EGMS held on 15 May 2007 (with the minutes prepared by notary public Hendra Karyadi, S.H., in the Deed No. 6) approved the buy back of the Bank's shares stage II, provided that the buy back of shares has been approved by Bank Indonesia and executed from time to time during the period of 18 (eighteen) months after the date of the meeting, whereby the number of shares to be bought back should not exceed 1% (one percent) of the Bank's total issued shares as of 27 April 2007 or in total of 123,275,050 shares and the total fund to buy back the shares should not exceed Rp 678,013. With Letter No. 9/160/DPB 3/TPB 3-2 dated 11 October 2007, the Bank received an approval from Bank Indonesia in relation to buy back of shares stage II.

EGMS held on 28 November 2007 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 33), approved to conduct a stock split of the Bank's shares from Rp 125 (full amount) to Rp 62.50 (full amount) per share and therefore decided to amend note 1, note 2 and note 3 of Article 4 of the Bank's Articles of Association. The Amendments of the Bank's Articles of Association by the Deed of Notary Public Hendra Karyadi, S.H., dated 11 December 2007 were received and recorded by the Department of Law and Human Rights of the Republic of Indonesia by the Receipt Report of the Deed on Amendment of the Articles of Association No. AHU-AH.01.10-0247 dated 3 January 2008.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

c. Public offering of the Bank's shares (continued)

Based on Letter No. 038/IQ-ECM/LTR/HFJ/XI/2008.TRIM dated 26 November 2008, the buy back of shares stage II for the period of 11 February 2008 to 13 November 2008 had been performed with the number of shares bought back in total of 397,562 lot or 198,781,000 shares at the average acquisition cost of Rp 3,106.88 (full amount) per share. Therefore, the total shares bought back as of 13 November 2008 were 289,767,000 shares with a total amount of Rp 808,585.

On 7 August 2012, the Bank sold 90,986,000 shares of its treasury stocks at Rp 7,700 (full amount) per share, with total net sales amounted to Rp 691,492. The difference between the acquisition costs and the selling price of treasury stocks amounted to Rp 500,496 was recorded as "additional paid-in capital from treasury stock transactions", which is part of additional paid-in capital (see Note 21). As of 31 December 2012, total treasury stocks of the Bank were 198,781,000 shares with a total amount of Rp 617,589.

On 7 February 2013, the Bank sold 198,781,000 shares of its treasury stocks at Rp 9,900 (full amount) per share, with total net sales amounted to Rp 1,932,528. The difference between the acquisition costs and the selling price of treasury stocks amounted to Rp 1,314,939 was recorded as "additional paid-in capital from treasury stock transactions", which is part of additional paid-in capital (see Note 21). As of 31 December 2013, the Bank did not have any treasury stocks.

The majority shareholder of the Bank is FarIndo Investments (Mauritius) Ltd., which owned 47.15% of the Bank's issued and fully paid shares as of 31 December 2015. The ultimate shareholders of the parent entity of the Bank are Mr. Robert Budi Hartono and Mr. Bambang Hartono.

d. The Subsidiaries

The Subsidiaries, directly and indirectly owned by the Bank as of 31 December 2015 and 2014, were as follows:

1. GENERAL (Continued)

d. The Subsidiaries (continued)

PT BCA Finance

PT BCA Finance, a company domiciled in Indonesia and located at Wisma BCA Pondok Indah, 2nd Floor, Jalan Metro Pondok Indah No. 10, South Jakarta, was established in 1981 under the name of PT Central Sari Metropolitan Leasing Corporation (“CSML”). At its inception, the shareholders of CSML were PT Bank Central Asia and Japan Leasing Corporation.

In 2001, PT Central Sari Metropolitan Leasing Corporation changed its name to PT Central Sari Finance (“CSF”), followed by the change in the composition of its shareholders, where PT Bank Central Asia Tbk became the majority shareholder, and the change in its business focus to motor vehicles financing activities, particularly in for four wheels or more vehicles. Further, based on the Decision Letter of Minister of Law and Human Rights of the Republic of Indonesia No.C-08091 HT.01.04.TH.2005 dated 28 March 2005, PT Central Sari Finance’s name was changed to PT BCA Finance.

BCA Finance Limited

BCA Finance Limited, a company domiciled in Hong Kong and located at The Center, 47th Floor, Unit 4707, 99 Queen’s Road Central, Hong Kong (previously in Room 3211 - 3215, Jardine House, 1 Connaught Place, Central, Hong Kong), is engaged in money lending and remittance and has been operating commercially since 1975.

PT Bank BCA Syariah

PT Bank BCA Syariah (formerly PT Bank UIB), a company domiciled in Indonesia and located at Jalan Jatinegara Timur No. 72, East Jakarta, is engaged in banking activities and has been operating commercially since 1991.

Based on the Acquisition Deed No. 72 dated 12 June 2009 of Notary Public Dr. Irawan Soerodjo, SH., Msi., PT Bank Central Asia Tbk acquired 42,500 shares of PT Bank UIB or equivalent to 100% (one hundred percent) of ownership.

Based on the Deed of Resolutions in lieu of General Meeting of Shareholders of PT Bank UIB No. 49 of Notary Public Ny. Pudji Redjeki Irawati, S.H. dated 16 December 2009, PT Bank UIB changed its business activities to become sharia bank and changed its name to PT Bank BCA Syariah. The deed of amendment was approved by the Minister of Justice of the Republic of Indonesia in its Decision Letter No. AHU-01929.AH.01.02 dated 14 January 2010.

1. GENERAL (Continued)

d. The Subsidiaries (continued)

PT Bank BCA Syariah (continued)

The change in business activities of this subsidiary from conventional bank into sharia bank was approved by the Governor of Bank Indonesia through its Decision Letter No. 12/13/KEP.GBI/DpG/2010 dated 2 March 2010. Through this approval, on 5 April 2010, PT Bank BCA Syariah officially operated as a sharia bank.

Based on the Deed of Resolution in lieu of General Meeting of Shareholders No. 73 dated 21 October 2010 of Notary Public Ny. Pudji Redjeki Irawati, S.H., to fulfill the requirements of Article 6 of Bank Indonesia Regulation No. 11/15/PBI/2009 regarding conversion of business activities from conventional bank to sharia bank, PT Bank BCA Syariah presented its first financial statements as a sharia bank by presenting current and prior year income in nil balance. Considering this matter, the shareholders of PT Bank BCA Syariah approved the utilization all of its retained earnings as of 2 April 2010 of Rp 53,838 to be allocated as general reserve amounted to Rp 38 and to be converted as 53,800 new shares amounted to Rp 53,800. The deed of amendment was ratified by the Minister of Justice of the Republic of Indonesia in its Decision Letter No. AHU-01.10-30741 dated 1 December 2010. The deed had been reported to Bank Indonesia through its Letter No. 294/DIR/2010 dated 28 October 2010 and Letter No. 105/SKHS/2010 dated 9 December 2010. The approval from Bank Indonesia was obtained through its Letter No. 12/2564/DPBs dated 17 December 2010.

Total net assets acquired and goodwill arising from the acquisition of this subsidiary at the date of acquisition were as follows:

	Total
Purchase price	248,256
Deducted by: Fair value of the net assets of acquired Subsidiary	(110,864)
Goodwill	<u>137,392</u>

During 2015 and 2014, there was an increase in share capital of PT Bank BCA Syariah amounting to Rp 400,000 and Rp 300,000, respectively.

PT BCA Sekuritas

PT BCA Sekuritas (formerly PT Dinamika Usaha Jaya), a company domiciled in Indonesia and located at Menara BCA, Grand Indonesia, 41st Floor, Suite 4101, Jalan M.H. Thamrin No. 1, Jakarta, is engaged as securities broker and underwriter since 1990.

Based on the Deed of Sale and Purchase Agreement No. 56 dated 15 September 2011, the Bank signed a sale and purchase agreement with the owner of PT Dinamika Usaha Jaya to acquire PT Dinamika Usaha Jaya. The purchase was approved by Bank Indonesia on 19 July 2011. This transaction was a transaction of entities under common control; therefore, it was recorded in accordance with Statement of Financial Accounting Standard ("PSAK") No. 38 (2012 Revision) under pooling-of-interests method.

On 2 October 2012, based on the Deed of Minutes of Extraordinary General Meeting of Shareholders of PT Dinamika Usaha Jaya No. 5 of Notary Public Dr. Irawan Soerodjo, S.H., Msi., PT Dinamika Usaha Jaya changed its name to PT BCA Sekuritas. This change was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-54329.AH.01.02 dated 22 October 2012.

PT Asuransi Umum BCA (formerly PT Central Sejahtera Insurance), a company domiciled in Indonesia and located at WTC Mangga Dua, 3Ard Floor, Block CL 003, Jalan Mangga Dua Raya Kav. 8, North Jakarta, is engaged in insurance activities, in particular in general or loss insurance activities.

PT Asuransi Umum BCA was established in 1988 under the name of PT Asuransi Ganesha Danamas. In 2006, PT Asuransi Ganesha Danamas changed its name to PT Transpacific General Insurance and later in 2011, this subsidiary's name was changed to PT Central Sejahtera Insurance, following the change in the composition of its shareholders to Dana Pensiun BCA at 75% (seventy five percent) ownership and PT BCA Finance (Bank's Subsidiary) at 25% (twenty five percent) ownership.

Based on the Deed of Sale and Purchase Agreement No. 64 dated 28 June 2013, the Bank signed a sale and purchase agreement with the owner of PT Central Sejahtera Insurance to acquire 75% (seventy five percent) ownership of PT Central Sejahtera Insurance from Dana Pensiun BCA with acquisition cost of Rp 102,000. The purchase was approved by the Financial Services Authority ("OJK") through its Letter No. S-300/D.05/2013 on 23 July 2013 and Bank Indonesia through its Letter No. 15/62/DPB/PB3-7/Rahasia on 17 September 2013. This transaction was a business combination under common control transaction (see Note 2g); therefore, it was recorded in accordance with PSAK No. 38 (2012 Revision) under pooling-of-interests method.

On 5 December 2013, based on the Deed of Minutes of Extraordinary General Meeting of Shareholders of PT Central Sejahtera Insurance No. 7 of Notary Public Veronica Sandra Irawaty Purnadi, S.H., PT Central Sejahtera Insurance changed its name to PT Asuransi Umum BCA. This change was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-64973.AH.01.02 dated 11 December 2013.

Total net assets acquired and goodwill arising from the acquisition of this subsidiary at the date of acquisition were as follows:

	<u>Total</u>
Purchase price	102,000
Deducted by: Fair value of the net assets of acquired Subsidiary	<u>(76,798)</u>
Goodwill	<u>25,202</u>
	<u>Total</u>
Cash paid on acquisition of Subsidiary, including transaction costs	102,000
Deducted by: Cash and cash equivalents of acquired Subsidiary	<u>(128,574)</u>
Net cash outflow on acquisition of PT Asuransi Umum BCA	<u>(26,574)</u>

During 2015, there was an increase in share capital of PT Asurasi Umum BCA amounting to Rp 150,000.

1. GENERAL (Continued)

d. The Subsidiaries (continued)

PT Central Santosa Finance

PT Central Santosa Finance, a company domiciled in Indonesia and located at Gedung Wisma Antara, 18th Floor, Jalan Medan Merdeka Selatan No. 17, Central Jakarta, is engaged in investment financing, working capital financing, multipurpose financing, operating lease, other financing activities based on approval from authorized agency.

Based on the Deed of Sale and Purchase Agreement No. 10 dated 9 January 2014, the Bank signed a sale and a purchase agreement with the owner of PT Central Santosa Finance to acquire 45% (forty five percent) ownership of PT Central Santosa Finance with purchase price of Rp 70,110. The purchase was approved by Bank Indonesia through its letter No. 15/90/DPB3/PB 3-7/Rahasia on 27 December 2013.

Total net assets acquired and excess of fair value of net assets over purchase price arising from the acquisition at the date of acquisition were as follow:

	<u>Total</u>
Purchase price	70,110
Deducted by: Fair value of the net assets of the acquired subsidiary	<u>(75,966)</u>
Excess of fair value of net assets over purchase price	<u>(5,856)</u>
	<u>Total</u>
Cash paid on acquisition of subsidiary, including transaction costs	70,110
Deducted by: Cash and cash equivalents of acquired subsidiary	<u>(117,803)</u>
Net cash outflow on acquisition of PT Central Santosa Finance	<u>(47,693)</u>

Bank indirectly owned 25% (twenty five percent) ownership of PT Central Santosa Finance through its subsidiary, PT BCA Finance; consequently, with this acquisition, the Bank has 70% (seventy percent) ownership of PT Central Santosa Finance as of 31 December 2015 and 2014.

During 2014, there was an increase in share capital of PT Central Santosa Finance amounting to Rp 200,000.

e. Board of Commissioners and Board of Directors

h. Changes of regulatory and supervisory in capital market and banking sectors

Effective 31 December 2012, the regulatory and supervisory function, duties and authority in the capital market sector moved from Bapepam-LK of the Ministry of Finance to the Capital Market Supervisory Department of OJK. Effective 31 December 2013, the regulatory and supervisory functions, duties and authority in the banking sector moved from Bank Indonesia to OJK.

i. Completion of the consolidated financial statements

The Bank's management is responsible for the preparation of these consolidated financial statements, which were authorized for issue on 16 February 2016.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In its accounting and financial reporting, the Bank and Subsidiaries adopt accounting policies in accordance with the Indonesian Financial Accounting Standard (“SAK”). The significant accounting policies, consistently applied in the preparation of the consolidated financial statements of the Bank and Subsidiaries, were as follows:

a. Statement of compliance

The consolidated financial statements are prepared and presented in accordance with Indonesian SAK.

b. Basis for the preparation of the consolidated financial statements

These consolidated financial statements are presented in Rupiah, which is its functional currency. Except as otherwise stated, financial information presented has been rounded to the nearest million of Rupiah.

The consolidated financial statements have been prepared based on the accrual basis using the historical cost concept, unless otherwise specified.

The consolidated statements of cash flows presented the changes in cash and cash equivalents from operating, investing and financing activities, and are prepared using the direct method. For the purpose of the presentation of the consolidated statements of cash flows, cash and cash equivalents consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other banks that mature within 3 (three) months from the date of acquisition, as long as they are not being pledged as collateral for borrowings nor restricted.

c. Use of judgments, estimates and assumptions

The preparation of consolidated financial statements in conformity with Indonesian SAK requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Although these estimates are based on management’s best knowledge of current events and activities, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have significant effect on the amount recognized in the consolidated financial statements are described in Note 4.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**d. Changes in accounting policies****d.1. Standards, amendments and accounting interpretations effective on 1 January 2015**

The following standards, amendments and accounting interpretations became effective on 1 January 2015 and are relevant to the Bank and Subsidiaries' consolidated financial statements:

- a. Statement on Financial Accounting Standards ("PSAK") No. 1 (2013 Revision), "Presentation of Financial Statements"
- b. PSAK No. 4 (2013 Revision), "Separate Financial Statements"
- c. PSAK No. 15 (2013 Revision), "Investment in Associates and Joint Ventures"
- d. PSAK No. 24 (2013 Revision), "Employee Benefits"
- e. PSAK No. 46 (2014 Revision), "Income Taxes"
- f. PSAK No. 48 (2014 Revision), "Impairment of Assets"
- g. PSAK No. 50 (2014 Revision), "Financial Instruments: Presentation"
- h. PSAK No. 55 (2014 Revision), "Financial Instruments: Recognition and Measurement"
- i. PSAK No. 60 (2014 Revision), "Financial Instruments: Disclosures"
- j. PSAK No. 65, "Consolidated Financial Statements"
- k. PSAK No. 67, "Disclosure of Interests in Other Entities"
- l. PSAK No. 68, "Fair Value Measurement"

The Bank and Subsidiaries have assessed that the adoption of the abovementioned accounting standards and interpretation other than specified below do not have any significant impact to the consolidated financial statements.

i. Presentation of items in other comprehensive income

In connection with the adoption of PSAK No. 1 (2013 Revision), "Presentation of Financial Statements", the Bank and Subsidiaries have modified the presentation of items of other comprehensive income in the statements of profit or loss and other comprehensive income, to present items that would be reclassified to profit or loss in the future separately from those that would never be reclassified to profit or loss. Comparative information has been re-presented using the same basis.

ii. Employee benefits

On 1 January 2015, the Bank and Subsidiaries adopted PSAK No. 24 (2013 Revision), "Employee Benefits" which introduces changes in the measurement, presentation and disclosure of defined benefits plan. The most significant impact from these changes is the acceleration of the recognition of past service cost. When the post-employment benefits change, the portion of increases or decreases on benefits which relates to past service of employee is recognized immediately to profit or loss.

This accounting policy also requires the Bank and Subsidiaries to recognize actuarial gains/losses in the period when such actuarial gains/losses occur as other comprehensive income, which presented as part of retained earnings.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Changes in accounting policies (continued)

d.1. Standards, amendments and accounting interpretations effective on 1 January 2015 (continued)

ii. Employee benefits (continued)

Remeasurements of the net defined benefit liability, which comprise actuarial gains/losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Bank and Subsidiaries determine net interest expense (income) on net defined benefits obligation for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefits plan are recognized in profit or loss as personnel expenses.

Due to implementation of PSAK No. 24 (2013 Revision), the Bank and Subsidiaries recognized actuarial losses of defined benefits plan amounting to Rp 1,634,264 (net of income tax) as the adjustment of retained earnings as of 1 January 2014/31 December 2013. Since the impact is not material, the Bank and Subsidiaries do not restate the impact to 2014 profit or loss.

iii. Fair value measurement

On 1 January 2015, the Bank and Subsidiaries adopted PSAK No. 68, "Fair Value Measurement", which provides a single source of guidance on how to measure fair value but does not establish new requirements for when fair value is required. This standard provides a framework for determining fair value and clarifies the factors to be considered in estimating fair value. It introduces the use of an exit price in fair value measurement, as well as extensive disclosure requirements, particularly the inclusion of non-financial instruments into the fair value hierarchy disclosure. PSAK No. 68 is applied prospectively. The change had no significant impact on the measurements of the Bank and Subsidiaries' assets and liabilities. The Bank and Subsidiaries have included the new disclosures required under PSAK No. 68 in Notes 4b and 32 to the consolidated financial statements.

d.2. Accounting standards issued but not yet effective

Certain amendments and accounting interpretations have been issued but not yet effective for the year ended 31 December 2015, and have not been applied in preparing these consolidated financial statements. The following PSAK and ISAK ("Interpretations of Financial Accounting Standard"), which will become effective starting 1 January 2016 and 1 January 2017, may have a significant effect on the Bank and Subsidiaries' future financial statements, and may require retrospective application under PSAK No. 25, "Accounting Policies, Changes in Accounting Estimates and Errors":

- n. PSAK No. 66 (2015 Revision), "Joint Arrangements"
- o. PSAK No. 67 (2015 Revision), "Disclosure of Interest in Other Entities"
- p. PSAK No. 68 (2015 Revision), "Fair Value Measurement"
- q. ISAK No. 30 (2015 Revision), "Levies"
- r. ISAK No. 31 (2015 Revision), "Interpretation of Scope PSAK No.13: Investment Property"

As of the issuance of these consolidated financial statements, the Bank and Subsidiaries have not determined the extent of retrospective impact, if any, that the future adoption of these standards will have on the Bank and Subsidiaries' consolidated financial position and operating results.

e. Basis of consolidation

The consolidated financial statements consist of financial statements of the Bank and Subsidiaries (PT BCA Finance, BCA Finance Limited, PT Bank BCA Syariah, PT BCA Sekuritas, PT Asuransi Umum BCA and PT Central Santosa Finance) controlled by the Bank.

Prior to 1 January 2015, control over a Subsidiary is presumed to exist where more than 50% (fifty percent) of the Subsidiary's voting power is directly or indirectly controlled by the Bank, or the Bank has the ability to control the financial and operating policies of a Subsidiary, or has the ability to remove or appoint majority of the Subsidiary's members of Board of Directors and Board of Commissioners, or can control the majority vote in meetings of Board of Directors or Board of Commissioners.

Starting 1 January 2015, control over a Subsidiary is presumed to exist if the Bank is exposed to, or has rights to, variable returns from its involvement with the Subsidiary and has the ability to affect those returns through its power over the Subsidiary. The Bank reassesses whether it has control if there are changes to one or more of the elements of the control, including circumstances in which the potential rights (e.g. those resulting from a lending relationship) become substantive and lead to the Bank having power over a Subsidiary.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Basis of consolidation (continued)

The financial statements of Subsidiaries are included in the consolidated financial statements since the date on which the Bank obtained control until the date such control ceases. The financial statements of Subsidiaries have been prepared using the same accounting policies with those implemented by the Bank for similar transactions and other events in similar circumstances, unless otherwise specified.

When control of an entity is obtained during the year, its results are included in the consolidated financial statements from the date on which the control commences. Where control ceases during the year, its results are included in the consolidated financial statements for the part of the year during which control existed.

All significant balances, transactions, income and expenses with and between Subsidiaries are eliminated in preparing the consolidated financial statements such that the consolidated financial statements include only transactions and balances with third parties. Unrealized losses from transactions with and between Subsidiaries are eliminated, unless there is an indication of impairment that requires recognition in the consolidated financial statements.

Changes affected the Bank's ownership interest and equity of Subsidiary that do not result in a loss of control are accounted for as equity transactions and presented as other equity components within equity in the consolidated statements of financial position.

Non-controlling interests are recognized on the date of business combination and subsequently adjusted to the portion of the changes in equity of Subsidiary.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity attributable to the equity holders of the parent entity, and presented to the portion of Subsidiary's income for the year and equity attributable to the non-controlling interest based on percentage of ownership of the non-controlling interest on the Subsidiary.

If the parent entity loses control of a Subsidiary, the parent entity:

- a. Derecognizes the assets and liabilities of the former Subsidiary from the consolidated statement of financial position.
- b. Recognizes any investment retained in the former Subsidiary at fair value on the date when control is lost and subsequently accounts for it and for any amounts owed by or to the former Subsidiary in accordance with the relevant financial accounting standard. That fair value is regarded as the fair value on initial recognition of a financial asset in accordance with PSAK No. 55 (2014 Revision), "Financial Instruments: Recognition and Measurement".
- c. Recognizes the gain or loss associated with the loss of control attributable to the former controlling interest.

f. Business combination

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured at the fair value of assets transferred, equity instruments issued, liabilities incurred or obtained and adjustment to the contingent purchase price, if any, at the date of acquisition. Acquisition costs are expensed as incurred and included in the administrative expenses.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Business combination (continued)

On the acquisition date, the acquirer classified and designated identified assets acquired and liabilities assumed as required to apply other financial accounting standards. The acquirer made classification or the determination based on the contractual terms, economic circumstances, its operational or accounting policies and other related conditions as at the acquisition date.

On the acquisition date, goodwill is initially measured at acquisition cost, which represents the excess of the aggregate of consideration transferred and the amount of any non-controlling interest in the acquiree over the net of the amounts of the identifiable assets acquired and the liabilities assumed at the date of acquisition. If the consideration is lower than the fair value of Subsidiary's net assets acquired, the difference is recognized in the profit or loss. Subsequent to initial recognition, goodwill is measured at its carrying amount less accumulated impairment losses.

g. Business combination of entities under common control

Business combination transactions of entities under common control, such as transfer of business in relation to reorganization of entities within the same business group, is not a change of ownership in terms of economic substance, therefore such transaction cannot generate any gains or losses for the group as a whole as well as the individual entity within the business group.

Business combination of entities under common control transactions, according to PSAK No. 38 (2012 Revision), "Business Combination under Common Control", is recognized at its carrying amount based on a pooling-of-interest method. Entity that receives the business and disposes the business recognizes the difference between the amounts transferred received and carrying amount arising from a business combination under common control transaction as part of equity in the additional paid-in capital account.

In accordance with transition requirement of PSAK No. 38 (2012 Revision), the balance of difference in value from restructuring transaction of entities under common control based on PSAK No. 38 (2004 Revision). "Accounting for Restructuring of Entities under Common Control", at the beginning of the implementation of this standard amounted Rp 111,193, was disclosed in equity as part of additional paid-in capital account and shall not be recognized as realized profit or loss or reclassified into retained earnings in the future.

h. Translation of transactions in foreign currencies

Bank and Subsidiaries domiciled in Indonesia maintained its accounting record in Rupiah. Transactions denominated in foreign currencies are translated into Rupiah at the exchange rates prevailing at the date of the transaction. At the reporting date, year-end balances of monetary assets and liabilities denominated in foreign currencies are translated into Rupiah at the exchange rates prevailing at the date of consolidated statements of financial position.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Translation of transactions in foreign currencies (continued)

For consolidation purposes, foreign currency financial statements of the Bank's overseas Subsidiary are translated into Rupiah based on the following basis:

- (1) Assets and liabilities, commitments and contingencies are translated using the Reuters spot rates at 16:00 WIB at the statement of financial position date.
- (2) Income, expenses, gains and losses, represent the accumulated amount from monthly profit or loss balance during the year, are translated into Rupiah using the average Reuters middle rate for the respective month.
- (3) Equity accounts are translated using historical rates.
- (4) Statements of cash flows are translated using the Reuters spot rate at 16:00 WIB at the statement of financial position date, except for income statement accounts which are translated using the average middle rates and equity accounts which are translated using historical rates.

Differences arising from the above translation are presented as "Foreign exchange differences arising from translation of financial statements in foreign currency" under the equity section of the consolidated statements of financial position.

Exchange gains and losses arising from transactions in foreign currencies and from the translation of monetary assets and liabilities in foreign currencies are recognized in the current year profit or loss.

The foreign currency gain or loss on monetary assets and liabilities is the difference between amortized cost in Rupiah at the beginning of the year, adjusted for effective interest and payments during the year and the amortized cost in foreign currency translated into Rupiah at the exchange rate at the end of the year.

Summarized below are the major exchange rates as of 31 December 2015 and 2014, using Reuters middle rate at 16:00 WIB (full amount of Rupiah):

Foreign currency		2015	2014
1	United States Dollar (USD)	13,785	12,385
1	Australian Dollar (AUD)	10,084	10,148
1	Singapore Dollar (SGD)	9,759	9,376
1	Hong Kong Dollar (HKD)	1,779	1,597
1	Great Britain Poundsterling (GBP)	20,439	19,288
100	Japanese Yen (JPY)	11,452	10,356
1	Euro (EUR)	15,057	15,053

i. Financial assets and liabilities

Financial assets of the Bank and Subsidiaries mainly consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other banks, financial assets held for trading, acceptance receivables, bills receivable, securities purchased under agreements to resell, loans receivable, consumer financing receivables, investment in finance leases and investment securities.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

Financial liabilities of the Bank and Subsidiaries mainly consist of deposits from customers, deposits from other banks, financial liabilities held for trading, acceptance payables, securities sold under agreements to repurchase, debt securities issued and borrowings.

i.1. Classification

The Bank and Subsidiaries classify their financial assets in the following categories at initial recognition:

- i. at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. financial assets designated as such upon initial recognition and financial assets classified as held for trading;
- ii. available-for-sale;
- iii. held-to-maturity; and
- iv. loans and receivables.

Financial liabilities are classified into the following measurement categories at initial recognition:

- i. at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. those designated as such upon initial recognition and those classified as held for trading; and
- ii. financial liabilities measured at amortized cost.

Held for trading are those financial assets and liabilities that the Bank and Subsidiaries acquire or incur principally for the purpose of selling or repurchasing in the near term, or hold as part of a certain financial instrument portfolio that is managed together for short-term profit or position taking.

Available-for-sale investments are non-derivative financial assets that are designated as available-for-sale or are not classified as another category of financial assets.

Held-to-maturity investments are non-derivative assets with fixed or determinable payments and fixed maturity that the Bank and Subsidiaries have the positive intent and ability to hold to maturity, and which are not designated at fair value through profit or loss or available-for-sale.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Bank and Subsidiaries do not intend to sell immediately or in the near term.

Financial liabilities measured at amortized cost consist of non-derivative financial liabilities that are not held for trading purpose and not designated at fair value through profit or loss.

i.2. Initial recognition

The Bank and Subsidiaries initially recognize loans receivable and deposits on the date of origination. Regular way purchases and sales of financial assets are recognized on the trade date at which the Bank and Subsidiaries commit to purchase or sell the asset. All other financial assets and liabilities are initially recognized on the trade date at which the Bank and Subsidiaries become a party to the contractual provisions of the instrument.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

i.2. Initial recognition (continued)

A financial asset or liability is initially measured at fair value plus (for a financial instrument not subsequently measured at fair value through profit and loss) transaction costs that are directly attributable to its acquisition or issue of financial liabilities.

The subsequent measurement of financial assets and liabilities depends on their classifications.

Transaction costs include only those costs that are directly attributable to the acquisition of a financial asset or issuance of financial liability and they are incremental costs that would not have been incurred if the instrument had not been acquired or issued. In the case of financial assets, transaction costs are added to the amount recognized initially, while for financial liabilities, transaction costs are deducted from the amount of debt recognized initially. Such transaction costs are amortized over the life of the instruments based on the effective interest rate method and are recorded as part of interest income for transaction costs related to financial assets or interest expenses for transaction costs related to financial liabilities.

i.3. Derecognition

The Bank and Subsidiaries derecognize a financial asset when the contractual rights to the cash flows from the financial asset expire, or when the Bank and Subsidiaries transfer the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Bank and Subsidiaries is recognized as a separate asset or liability.

The Bank and Subsidiaries derecognize a financial liability when its contractual obligations are discharged, cancelled or expire.

In transactions in which the Bank and Subsidiaries neither retain nor transfer substantially all the risks and rewards of ownership of a financial asset, the Bank and Subsidiaries derecognize the asset if they do not retain control over the asset. The rights and obligations retained in the transfer are recognized separately as assets and liabilities as appropriate. In transfers in which control over the asset is retained, the Bank and Subsidiaries continue to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

The Bank and Subsidiaries write-off a financial asset and any related allowance for impairment losses, when the Bank and Subsidiaries determine that the financial asset is uncollectible. This determination is reached after considering information the occurrence of significant changes in the financial position of borrower/financial asset issuer such that the borrower/financial asset issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure.

i. Financial assets and liabilities (continued)

i.4. Offsetting

Financial assets and liabilities are set-off and the net amount presented in the consolidated statements of financial position when, and only when, the Bank and Subsidiaries have a legal right to offset the recognized amounts and intend either to settle on a net basis or realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by accounting standards.

i.5. Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount and minus any reduction for impairment.

i.6. Fair value measurement

Policy applicable from 1 January 2015

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal market or, in its absence, the most advantageous market to which the Bank and Subsidiaries have access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Bank and Subsidiaries measure the fair value of a financial instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Bank and Subsidiaries use valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price, i.e., the fair value of the consideration given or received. If the Bank and Subsidiaries determine that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique that uses only data from observable markets, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognized in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

i.6. Fair value measurement (continued)

Policy applicable from 1 January 2015 (continued)

If an asset or a liability measured at fair value has a bid price and an ask price, then the Bank and Subsidiaries measure assets and long positions at a bid price and liabilities and short positions at an ask price.

Portfolios of financial assets and financial liabilities measured at fair value, that are exposed to market risk and credit risk that are managed by the Bank and Subsidiaries on the basis of the net exposure to either market or credit risk, are measured on the basis of a price that would be received to sell a net long position (or paid to transfer a net short position) for a particular risk exposure. Those portfolio-level adjustments are allocated to the individual assets and liabilities on the basis of the relative risk adjustment of each of the individual instruments in the portfolio.

Policy applicable before 1 January 2015

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction on the measurement date.

When available, the Bank and Subsidiaries measure the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If a market for a financial instrument is not active, the Bank and Subsidiaries establish fair value using a valuation technique. Valuation techniques include the use of recent arm's length transactions between knowledgeable, willing parties and if available, reference to the current fair value of other instruments that are substantially the same, discounted cash flow analysis and option pricing models. The chosen valuation technique makes maximum use of market inputs, relies as little as possible on estimates specific to the Bank and Subsidiaries, incorporates all factors that market participants would consider in setting a price, and is consistent with accepted economic methodologies for pricing financial instruments. Inputs to valuation techniques reasonably represent market expectations and measures of the risk-return factors inherent in the financial instrument. The Bank and Subsidiaries calibrate valuation techniques and test them for validity using prices from observable current market transactions in the same instrument or based on other available observable market data.

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price, i.e., the fair value of the consideration given or received, unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When transaction price provides the best evidence of fair value at initial recognition, the financial instrument is initially measured at the transaction price and any difference between this price and the value initially obtained from a valuation model is subsequently recognized in the profit or loss depending on the individual facts and circumstances of the transaction but not later than when the valuation is supported wholly by observable market data or the transaction is closed out.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

i.6. Fair value measurement (continued)

Policy applicable before 1 January 2015 (continued)

Fair values reflect the credit risk of the instrument and include adjustments to take into account of the credit risk of the Bank and Subsidiaries and counterparty where appropriate. Estimated fair values obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that the Bank and Subsidiaries believe a third-party market participation would take them into account in pricing a transaction.

Financial assets and long positions are measured at a bid price; financial liabilities and short positions are measured at an ask price. If the Bank and Subsidiaries have positions with offsetting risks, mid-market prices are used to measure the offsetting risk positions and a bid or asking price adjustment is applied only to the net open position as appropriate.

j. Current accounts with Bank Indonesia and other banks

Current accounts with Bank Indonesia and other banks are initially measured at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets, and subsequently measured at their amortized costs using the effective interest method.

k. Placements with Bank Indonesia and other banks

Placements with Bank Indonesia and other banks are initially measured at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets.

k.1. Loan and Receivables

Placements with Bank Indonesia and other banks are subsequently measured at amortized costs using the effective interest method after initial recognition.

k.2. Available-for-sale

After initial recognition, available-for-sale placements with Bank Indonesia and other banks are carried at their fair values. Interest income is recognized in profit or loss using the effective interest method.

Other fair value changes are recognized directly in other comprehensive income until the placements are sold or impaired, where the cumulative gains and losses previously recognized in other comprehensive income are recycled to the current year profit or loss based on a weighted average method.

l. Financial assets and liabilities held for trading

Financial assets and liabilities held for trading are initially and subsequently recognized and measured at fair value in the consolidated statements of financial position, with transaction costs recognized in the current year profit or loss.

Financial assets and liabilities held for trading include all derivative instruments held by the Bank for trading, except for a derivative that is financial guarantee contract or a designated and effective hedging instrument.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

l. Financial assets and liabilities held for trading (continued)

All changes in fair value of financial assets and liabilities held for trading are recognized as part of net trading income. Gains or losses which are realized when the financial assets and liabilities held for trading are derecognized, are recognized in the current year profit or loss.

Financial assets and liabilities held for trading are not reclassified subsequent to their initial recognition, except that non-derivative trading assets, other than those designated at fair value through profit or loss upon initial recognition, may be reclassified out of the fair value through profit or loss (i.e., trading category) if they are no longer held for the purpose of being sold or repurchased in the near term and the following conditions are met:

- the financial asset would have met the definition of loans and receivables (if the financial asset had not been required to be classified as held for trading at initial recognition), then it may be reclassified if the Bank and Subsidiaries have the intention and ability to hold the financial asset for the foreseeable future or until maturity; or
- the financial asset would not have met the definition of loans and receivables, then it may be reclassified out of the trading category only in rare circumstances.

m. Acceptance receivables and payables

Acceptance receivables and payables are initially measured at fair value plus/minus transaction costs that are directly attributable and incremental to the acquisition/issue of those financial assets/liabilities, and subsequently measured at their amortized costs using the effective interest method. Acceptance receivables are presented net of allowance for impairment losses.

n. Loans receivable

Loans receivable are initially measured at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets, and subsequently measured at their amortized costs using the effective interest method.

Syndicated, joint financing and channeling loans are stated at amortized cost in accordance with the portion of risks borne by the Bank.

The Bank and Subsidiaries account for troubled debt restructuring in accordance with the type of restructuring. In troubled debt restructuring which involves a modification of terms, reduction of portion of loan principal and/or combination of both, the Bank and Subsidiaries account for the effect of the restructuring prospectively and do not change the carrying value of receivables at the time of restructuring, unless the amount exceeds the present value of the total future cash receipts specified in the new terms. If the present value of the total future cash receipts specified in the new terms is lower than the recorded receivables balance prior to restructuring, the Bank and Subsidiaries should reduce the loan balance to the amount equal to the present value of the total future cash receipts. The amount of the reduction is recognized as individual impairment losses in the current year profit or loss.

**PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**o. Securities purchased under agreements to resell and securities sold under agreements to repurchase**

Securities purchased under agreements to resell (reverse repo) are presented as receivables and stated at the agreed resell price less the difference between the purchase price and the agreed resale price. The difference between the purchase price and the agreed resale price is amortized using the effective interest method as interest income over the years commencing from the acquisition date to the resell date.

Securities sold under agreements to repurchase (repo) are presented as liabilities and stated at the agreed repurchase price less the unamortized interest expense. Unamortized interest expense is a difference between selling price and agreed repurchase price and is recognized as interest expense during the period since the securities sold until repurchased. Sold securities are recorded as assets in the consolidated statements of financial position since the securities ownership remains substantially with the Bank as a seller.

p. Consumer financing receivables

Consumer financing receivables are stated at net of unamortized transaction cost (income), unearned consumer financing income and allowance for impairment losses on consumer financing receivables.

Unearned consumer financing income represents the difference between total installments to be received from the consumer and the principal amount financed, plus or deducted with the unamortized transaction cost (income), which will be recognized as income over the term of the contract using effective interest rate method of the related consumer financing receivable.

Unamortized transaction cost (income), are financing administration income and transaction expense which are incurred at the first time the financing agreement is signed and directly attributable to consumer financing.

Early termination of a contract is treated as a cancellation of an existing contract and the resulting gain is recognized in the current year profit or loss accounts.

Consumer financing receivables will be written-off when they are overdue for more than 150 (one hundred and fifty) days for four-wheeled motor vehicles and 180 (one hundred and eighty) days for two-wheeled motor vehicles, and based on management review of individual case.

Subsidiary has sharia financing with *murabahah* agreement.

Joint financing

All joint financing agreements entered by the Subsidiary are joint financing without recourse in which only the Subsidiary's financing portion of the total installments are recorded as consumer financing receivables in the consolidated statements of financial position (net approach). Consumer financing income is presented in the consolidated statements profit or loss and other comprehensive income after deducting the portions belong to other parties participated to these joint financing transactions.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p. Consumer financing receivables (continued)

Receivables from collateral vehicles reinforced

Receivables from collateral vehicles reinforced represent receivables derived from motor vehicle collaterals owned by customers for settlement of their consumer financing receivables, which is presented as part of consumer financing receivables.

In case of default, the consumer gives the right to the Bank and Subsidiaries to sell the motor vehicle collaterals or take any other actions to settle the outstanding receivables.

Consumers are entitled to the positive differences between the proceeds from sales of foreclosed collaterals and the outstanding consumer financing receivables. If the differences are negative, the resulting losses are charged to the current year profit or loss.

Expenses in relation with the acquisition and maintenance of receivables from collateral vehicles reinforced are charged to the profit or loss accounts when incurred.

q. Accounting for finance leases

Leases are classified as finance leases if such leases transfer substantially all the risks and rewards related to the ownership of the leased assets. Leases are classified as operating leases if the leases do not transfer substantially all the risks and rewards related to ownership of the leased assets.

Assets held under a finance lease are recognized in the consolidated statements of financial position at an amount equal to the net investment in the lease. Receipts from lease receivables are treated as repayments of principal and financing lease income. The recognition of finance lease income is based on a pattern reflecting a constant periodic rate of return on the Subsidiary's net investment as lessor in the finance lease.

r. Sharia transactions

Assets related to sharia transactions consist of *mudharabah* and *musyarakah* financing receivables, *ijarah* assets and receivables, and *murabahah* financing receivables.

Murabahah is a financing agreement to sell or purchase of goods, in which the selling price equals to the cost of goods plus a pre-agreed profit margin and the seller should disclose its cost to the buyer. *Murabahah* financing is stated at balance of receivables less deferred margin and allowance for impairment losses.

Ijarah is a lease agreement for goods and/or services, including the right to use, between the owner of a leased object (lessor) and lessee, to generate income from the leased object. *Ijarah muntahiyah bittamlik* is a lease agreement between lessor and lessee to obtain income from the leased object with an option to transfer the ownership title of leased object through purchase/sale or as a gift (*hibah*) at certain period as agreed in the lease agreement (*akad*). *Ijarah muntahiyah bittamlik* assets are stated at the acquisition costs less accumulated depreciation. *Ijarah* receivable is recognized at maturity date based on unearned lease income and presented at net realizable value, i.e. balance of the receivables less allowance for impairment losses.

Mudharabah is an investment of funds from the owner of fund (*shahibul maal*) to a fund manager (*mudharib*) for a specific business activity, under a profit or revenue sharing agreement between the two parties at a pre-agreed ratio (*nisbah*). *Mudharabah* financing is stated at financing balance less allowance for impairment losses.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

r. Sharia transactions (continued)

Musyarakah is an investment of funds from the owners of funds to combine their funds for a specific business activity, for which the profits are shared based on a pre-agreed *nisbah*, while losses are borne proportionally by the fund owners.

Permanent *musyarakah* is a *musyarakah* for which the amount of funds contributed by each party is fixed until the end of the agreement. Declining *musyarakah* (*musyarakah mutanaqisha*) is *musyarakah* with a condition that the amount contributed by a party will be declining from time to time as it is transferred to another party, such that at the end of the agreement, the other party will fully own the business. *Musyarakah* financing is stated at financing balance less allowance for impairment losses.

The Subsidiary determines the allowance for impairment losses of sharia financing receivables in accordance with the quality of each financing receivable by referring to the requirements of Bank Indonesia, except for *murabahah* financing receivables for which the identification and measurement of impairment losses follows PSAK No. 55 (2014 Revision).

s. Investment securities

Investment securities are initially recognized at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets, and subsequently measured in accordance with their classifications, either held-to-maturity or available-for-sale.

s.1. Held-to-maturity

Subsequent to initial recognition, held-to-maturity investments are carried at amortized cost using the effective interest method. Any sale or reclassification of a more than insignificant amount of held-to-maturity investments not close to their maturities would result in the reclassification of all held-to-maturity investments as available-for-sale, and prevent the Bank from classifying investment securities as held-to-maturity for the current and the following 2 (two) financial years.

s.2. Available-for-sale

After initial recognition, available-for-sale investments are carried at their fair values. Interest income is recognized in profit or loss using the effective interest method. Foreign exchange gains or losses on available-for-sale debt securities investments are recognized in the current year profit or loss.

Other fair value changes are recognized directly in other comprehensive income until the investment is sold or impaired, where the cumulative gains and losses previously recognized in other comprehensive income are recycled to the the current year profit or loss based on a weighted average method.

t. Fixed assets

Fixed assets are initially recognized at cost. Cost includes its expenditures directly attributable to bring the assets for their intended use. Subsequent to initial measurement, fixed assets are measured using cost model, which is carried at cost less accumulated depreciation and accumulated impairment losses.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

t. Fixed assets (continued)

Costs relating to the acquisition of legal titles on the land rights are recognized as part of acquisition cost of land, while costs of extension or renewal of legal titles on the land rights are charged to profit or loss as incurred because the amount is not significant.

Buildings are depreciated using the straight-line method over their estimated useful lives of 20 (twenty) years. Except for land which is not depreciated, other fixed assets are depreciated over their estimated useful lives ranging from 2 (two) to 8 (eight) years using the double-declining balance method for the Bank and PT BCA Finance, and straight-line method for other Subsidiaries. The effect of such different depreciation method is not material to the consolidated financial statements. For all fixed assets, the Bank and Subsidiaries have determined residual values to be “nil” for the calculation of depreciation.

Normal repair and maintenance expenses are charged to current year profit or loss; while renovation and betterments, which are significant and prolong the useful life of assets, are capitalized to the respective fixed assets. The carrying amount and the related accumulated depreciation of fixed assets which are not utilized anymore or sold, are removed from the related group of assets, and the gains or losses are recognized as other operating income or expenses in the consolidated statements of profit or loss and other comprehensive income.

Buildings under construction are stated at cost. The accumulated costs will be transferred to the buildings account when construction is completed and the buildings are ready for their intended use.

When assets are disposed, their carrying values and the related accumulated depreciation are eliminated from the consolidated statements of financial position, and the resulting gain or loss on the disposal of fixed assets is recognized in the current year profit or loss.

At each reporting date, residual value, useful life and depreciation method are reviewed, and if required, will be adjusted and applied in accordance with the requirement of prevailing PSAK.

u. Foreclosed assets

Foreclosed assets acquired in conjunction with settlement of loans are initially recorded at the lower of carrying value of the related loans or net realizable value of the repossessed assets. Net realizable value is the fair value of the repossessed assets after deducting the estimated cost of disposal.

Subsequent to initial recognition, foreclosed assets are recorded at carrying amount or at fair value less cost to sell, whichever is lower. The excess between the carrying value and fair value less cost to sell is recognized as impairment losses and charged to the current year profit or loss.

Foreclosed assets are not depreciated and expenses in relation with the acquisition and maintenance of those assets are charged as incurred.

The difference between the carrying value and the proceeds from the sale of foreclosed assets is recognized as gain or loss at the time of sale, and recognized as other operating income or expense in the current year profit or loss.

Foreclosed assets are presented under “Other assets” in the consolidated statements of financial position.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

v. Identification and measurement of impairment losses of assets

v.1. Financial assets

At each reporting date, the Bank and Subsidiaries assess whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows on the asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a borrower, restructuring of a loan by the Bank and Subsidiaries on terms that the Bank and Subsidiaries would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security due to financial difficulties or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group.

The Bank and Subsidiaries consider evidence of impairment for financial assets at both a specific asset and collective level. All individually significant financial assets are assessed for specific impairment.

All individually significant financial assets not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Financial assets that are not individually significant are collectively assessed for impairment by grouping together such financial assets with similar risk characteristics. Financial assets that are individually assessed for impairment and for which an impairment loss is recognized are no longer included in a collective assessment of impairment.

In assessing collective impairment, the Bank and Subsidiaries use statistical modeling of historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical modeling. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Impairment losses on financial assets carried at amortized cost are measured as the difference between the carrying amount of the financial assets and the present value of estimated future cash flows discounted at the financial assets' original effective interest rate. The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral. Losses are recognized in the current year profit or loss and reflected in an allowance account against financial assets in the consolidated statements of financial position. Interest on the impaired financial asset continues to be recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. When a subsequent event causes the amount of impairment loss to decrease, the impairment loss is reversed through the current year profit or loss.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

v. Identification and measurement of impairment losses of assets (continued)

v.1. Financial assets (continued)

Impairment losses on available-for-sale marketable securities are recognized by transferring the cumulative loss that has been recognized directly in other comprehensive income to profit or loss as a reclassification adjustment. The cumulative loss that is reclassified from other comprehensive income to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortization, and the current fair value, less any impairment loss previously recognized in the consolidated statements of profit or loss and other comprehensive income. Changes in impairment provisions attributable to time value are reflected as a component of interest income.

If, in a subsequent period, the fair value of an impaired available-for-sale debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized, the impairment loss is reversed with the amount of reversal recognized in the current year profit or loss.

If the terms of a loan, receivable or held-to maturity investment are renegotiated or otherwise modified because of financial difficulties of the borrower or issuer, impairment is measured using the original effective interest rate before the modification of terms.

v.2. Non-financial assets

The carrying amounts of the Bank and Subsidiaries' non-financial assets are reassessed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

For the purpose of impairment testing, non-financial assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that is largely independent of the cash inflows of other assets or cash generating units ("CGU").

The recoverable amount of an asset or CGU is the greater of its fair value and its value in use less costs to sell. Value in use is calculated based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of a non-financial asset or CGU exceeds its recoverable amount.

Impairment losses recognized in prior periods are tested at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

An impairment loss in respect of goodwill is not reversed.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

w. Intangible assets

Intangible assets consist of software and goodwill.

Software

Software is stated at cost less accumulated amortization and accumulated impairment losses. Subsequent expenditure, which are significant and increase the future economic benefit of assets, will be capitalized. Other expenditures are expensed as incurred. Amortization is recognized in profit or loss using a double-declining balance method over the estimated useful economic life of 4 (four) years.

Goodwill

Goodwill represents the excess of the aggregate of the consideration transferred and the amount of any non-controlling interest in the acquiree over the net of the amounts of the identifiable assets acquired and the liabilities assumed at the date of acquisition. Goodwill is tested at each reporting date for impairment and carried at cost less accumulated impairment losses.

x. Deposits from customers and other banks

Deposits from customers and deposits from other banks are initially measured at fair value minus directly attributable transaction costs and subsequently measured at their amortized costs using the effective interest method.

y. Sharia and temporary *syirkah* deposits

Sharia deposits are deposits from third parties in form of *wadiah* demand deposits and *wadiah* savings. *Wadiah* demand deposits can be used as payment instrument, and can be withdrawn using cheque and payment slip. *Wadiah* demand deposits and *wadiah* savings are entitled to receive bonus in accordance with Subsidiary's policy. *Wadiah* demand deposits and *wadiah* savings are stated at the liabilities of the Subsidiary.

Temporary *syirkah* deposit is an investment with *mudharabah mutlaqah* agreement, where the owner of funds (*shahibul maal*) gives flexibility to fund manager (*mudharib*/Subsidiary) in managing the investment with the purpose that the returns are to be shared based on a pre-agreed basis. Temporary *syirkah* deposits consist of *mudharabah* saving deposit and *mudharabah* time deposits. These funds obtained by sharia entity which has the right to manage and invest fund, according to sharia entity's policy or limitation from fund holders, whereby gains are to be shared based on the agreement. In case that the decrease of temporary *syirkah* deposits was caused by normal losses, and not caused by willful default, negligence or breach of the agreement, the sharia entity (Subsidiary) has no obligation to return or cover the fund losses or deficit.

Mudharabah saving deposits are deposits from third parties which are entitled to receive sharing revenue from Subsidiary for the utilization of the funds with a pre-agreed and approved *nisbah*. *Mudharabah* saving deposits are stated at the liabilities to customers.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

y. Sharia and temporary syirkah deposits (continued)

Mudharabah time deposits are deposits from third parties which can only be withdrawn at a specific time based on the agreement between holder of *mudharabah* time deposits and the Subsidiary. *Mudharabah* time deposits are stated at nominal amount based on the agreement between holder of *mudharabah* time deposits and the Subsidiary.

The holder of temporary *syirkah* deposits receives sharing profit based on the pre-agreed *nisbah*.

z. Debt securities issued

Debt securities issued by Subsidiary which consists of medium-term notes payable and bonds payable, are classified as other financial liabilities measured at amortized cost. Issuance costs in connection with the issuance of debt securities are recognized as discounts and directly deducted from the proceeds of debt securities issued and amortized over the period of debt securities using the effective interest method.

aa. Provision

A provision is recognized if, as a result of a past event, the Bank and Subsidiaries have a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the estimated future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

ab. Earning per share

Basic earnings per share is computed based on net income for the current year attributable to equity holders of the parent entity divided by the weighted average number of outstanding issued and fully paid-up common shares during the year after considering the treasury stocks.

As of 31 December 2015 and 2014, there were no instruments which could potentially result in the issuance of ordinary shares. Therefore, diluted earnings per share is equivalent to basic earnings per share.

ac. Treasury stocks

The Bank uses cost method in recording the treasury stocks. Treasury stocks are recorded at reacquisition cost and presented as a deduction of equity in the consolidated statement of financial position.

When treasury stocks are sold, the Bank recorded the difference between reacquisition price and selling price of treasury stocks as additional paid-in capital from treasury stock transaction as part of additional paid-in capital.

**PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**ad. Interest and sharia income and expenses**

Interest income and expenses are recognized in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or financial liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank and Subsidiaries estimate future cash flows by considering all contractual terms of the financial instrument but not future credit losses.

The calculation of the effective interest rate includes transaction costs (see Note 2i.2) and all fees and points paid or received that are an integral part of the effective interest rate.

Interest income and expenses presented in the consolidated statements of profit or loss and other comprehensive income include:

- interest on financial assets and liabilities at amortized cost calculated on an effective interest method; and
- interest on available-for-sale investment securities calculated on an effective interest method.

Interest income on all trading financial assets are considered to be incidental to the Bank's trading operations and are presented as part of interest income.

Interest on the impaired financial asset continues to be recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Sharia income consist of income from *murabahah*, lease income from *ijarah (rent)*, sharing income from *mudharabah* and *musyarakah* financing.

Income from *murabahah* and lease income from *ijarah (rent)* are recognized during the lease *akad* period using accrual basis. Sharing income of *mudharabah* and *musyarakah* financing are recognized when received or in the period when the rights of sharing income arise in accordance with agreed sharing ratio (*nisbah*).

Sharia expenses consist of *mudharabah* expense and *wadiah* bonus expense. Sharia expenses consist of revenue sharing expense of third party funds with revenue sharing principle in accordance with agreed sharing ratio (*nisbah*) based on *wadiah*, *mudharabah mutlaqah* and *mudharabah muqayyadah* principles.

ae. Fees and commission income and expenses

Significant fees and commission income and expenses that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fees and commission income and expenses, including export import related fees, cash management fees, service fees and/or related to a specific period and the amount is significant, are recognized as unearned income/prepaid expenses and amortized based on the straight-line method over the terms of the related transactions; otherwise, they are directly recognized as the related services are performed. When a loan commitment is not expected to result in the draw-down of a loan, loan commitment fees are recognized on a straight-line method over the commitment period.

Other fees and commission expenses which are mainly related to inter-bank transaction fees are expensed as the services are received.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

af. Net trading income

Net trading income comprises of net gains or losses related to financial assets and liabilities held for trading, and includes interest income and expenses from all financial instruments held for trading and all realized and unrealized fair value changes and foreign exchange differences.

ag. Obligation for post-employment benefits

The obligation for post-employment benefits is calculated at present value of estimated future benefits that the employees have earned in return for their services in the current and prior periods, deducted by any plan assets. The calculation is performed by an independent actuary using the projected-unit-credit method.

On 1 January 2015, the Bank and Subsidiaries adopted PSAK No. 24 (2013 Revision), "Employee Benefits" which introduces changes in the measurement, presentation and disclosure of defined benefits plan. The most significant impact from these changes is the acceleration of the recognition of past service cost. When the post-employment benefits change, the portion of increases or decreases on benefits which relates to past service of employee is recognized immediately to profit or loss.

This accounting policy requires the Bank and Subsidiaries to recognize actuarial gains/losses in the period when such actuarial gains/losses occur as other comprehensive income, which presented as part of retained earnings.

Remeasurements of the net defined benefit liability, which comprise actuarial gains/losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Bank and Subsidiaries determine net interest expense (income) on net defined benefits obligation for the period by applying the discount used to measure the defined benefits obligation at the beginning of the annual period to the then-net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefits plan are recognized in profit or loss as personnel expenses.

Prior to 1 January 2015, when the plan benefits change, the portion of the benefits that relate to past services by employees is charged or credited to the profit or loss on a straight-line method over the estimated average remaining vesting period. To the extent that the benefits vest immediately, the expense is recognized immediately in current year profit or loss. When the net cumulative unrecognized actuarial gains or losses at the end of the previous reporting period exceed 10% (ten percent) of the present value of the defined benefits obligation on the respective date, such actuarial gains/losses are recognized in profit or loss, on a straight-line basis over the estimated average remaining vesting period. Otherwise, the actuarial gains/losses are not recognized.

ah. Income taxes

Income tax expense comprises of current and deferred tax. Income tax expense is recognized in the consolidated statements of profit or loss except to the extent that it relates to items recognized directly in equity or other comprehensive income.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ah. Income taxes (continued)

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and includes adjustments made to the previous years' income tax calculation, either to adjust them with the income tax reported in annual tax returns, or to record the correction based on tax assessment result.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted as of the reporting date. This method also requires the recognition of future tax benefits, such as tax loss carry forwards, to the extent that realization of such benefits is probable.

Amendments to tax obligations are recorded when an assessment is received, or if objection and or appeal is applied, when the results of the objection or the appeal are determined.

ai. Operating segment

An operating segment is a component of the entity that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the entity's other components, whose operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items mainly comprise of head office expenses, fixed assets, income tax assets/liabilities and current and deferred taxes.

The Bank and Subsidiaries manage their businesses and identify reporting segment based on geographic region and product. Several regions have similar characteristics, have been aggregated and evaluated regularly by management. Gain/loss from each segment is used to assess the performance of each segment.

aj. Related parties transaction

In these consolidated financial statements, the term related parties is used as defined in PSAK No. 7 (2010 Revision) regarding "Related Party Disclosures".

All significant transactions and balance of accounts with related parties, whether or not transacted at normal terms and conditions similar with those with non-related parties, are disclosed in the notes to the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT

a. Risk management framework

The Bank recognizes that in operating its business, there are inherent risks in its financial instruments, i.e. credit risk, liquidity risk, market risk which consists of foreign exchange risk and interest rate risk, and operational risk.

In order to control those risks, the Bank implemented an integrated Risk Management Framework which is stated in its Basic Policy of Risk Management. This framework is used as a tool for determining the strategies, organization, policies and guidances as well as the Bank's infrastructures to ensure that all risks faced by the Bank can be properly identified, measured, controlled and reported.

To implement an effective risk management, the Bank has established a Risk Management Committee whose functions are to address overall risk issues faced by the Bank and recommend risk management policies to the Board of Directors.

In addition to the above-mentioned committee, the Bank also has other committees which are responsible to handle specific risks, such as: Credit Policy Committee, Credit Committee and Asset and Liability Committee ("ALCO").

The Bank always conducts a thorough risk assessment on management plan to release new product or activity in accordance with the type of risks regulated by the prevailing Bank Indonesia Regulations ("PBI"), Otoritas Jasa Keuangan Regulation ("POJK") and other prevailing regulations.

b. Assets and liabilities risk management

ALCO is responsible for evaluating, recommending and establishing the Bank's funding and investing strategies. Included in the scope of ALCO activities are managing liquidity risk, interest rate risk and foreign exchange risk; minimizing funding cost and, at the same time, maintaining liquidity; and optimizing the Bank's interest income by allocating the funds to productive assets in a prudent manner.

ALCO is led by the President Director (concurrently as a member of ALCO), with other members consisting of 7 (seven) directors, Head of Treasury Division, Head of Finance and Planning Division, Head of Corporate Banking and Corporate Finance Group, Head of Commercials and SME Division, Head of Service and Fund Development Division, Head of International Banking Division, Head of Consumer Credit Business Unit, Head of Credit Card Business Unit and Head of Risk Management Unit.

The Bank's asset and liability management process begins with an assessment of economic parameters affecting the Bank, which primarily consist of inflation rate, market liquidity, yield curve, US Dollar-Rupiah exchange rate, and other macro economic factors. Liquidity risks, foreign currency exchange risks and interest rate risks are reviewed by the Risk Management Unit and reported to ALCO. ALCO then decides the pricing strategy for the interest rates on deposits and loans based on the conditions and competition in the market.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management

The credit organization is continuously being improved with an emphasis on the four eyes principle, in which the credit decision is determined with the considerations of 2 (two) functions, i.e. business development function and credit risk analysis function.

The Bank has Basic Policy of Bank's Credit which are continuously being improved, in line with the Bank's development, "PBI", "POJK" and in accordance with International Best Practices.

The improvement on procedures and credit risk management system are conducted through the development of "Loan Origination System" which is a policy that regulates the workflow on loan origination process (end-to-end); to achieve an effective and efficient credit process. Risk profile measurement system is continuously being developed to determine the risk of debtor completely and correctly. The credit database development process is also continuously being conducted and improved.

The Credit Policy Committee is responsible for formulating credit policies, especially those relating to prudence principles in credit, monitoring and evaluating the implementation of credit policies so that it can be applied consistently and in accordance with credit policy, and give advice and corrective actions to resolve problems in the implementation.

The Credit Committee was established to assist Board of Directors in evaluating and/or providing credit decisions in accordance with their level of authorization through the Credit Committee Meeting or Directors' Circular Letter. The main functions of Credit Committee are as follows:

- providing further guidance if a thorough and comprehensive credit analysis is needed;
- making a decision or giving a recommendation on a credit proposal for big debtors and specific industries; and
- coordinating with ALCO, especially when it relates with sources of funding for credits.

The Bank has developed a debtor's risk rating system, which is known as the Internal Credit Risk Rating/Scoring System. The Internal Credit Risk Rating/Scoring System consists of 11 (eleven) categories of risk rating, from RR1 to RR10, and the worst is Loss. Debtor's risk rating provides an authorized officer with a valuable input for a better and more appropriate credit decision.

To maintain the credit quality, monitoring over credit quality is performed regularly on each credit category (Corporate, Commercial, Small & Medium Enterprise ("SME"), Consumer and Credit Card) as well as to overall credit portfolio.

The Bank developed a credit risk management tools through credit portfolio stress testing analysis and monitoring the results of such stress testing. Stress testing is used by the Bank as a tool to estimate the impact of stressful condition in order to enable the Bank creating appropriate strategies to mitigate the risks as part of its contingency plan implementation.

In order to monitor and control credit risk of the Subsidiaries, the Bank monitors the Subsidiaries' credit risk regularly, to ensure that the Subsidiaries have a good and effective Credit Risk Management Policy.

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management (continued)

i. Maximum exposure to credit risk

For financial assets recognized in the consolidated statements of financial position, the maximum exposure to credit risk generally equals their carrying amount. For guarantees and irrevocable Letters of Credit issued, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations of the guarantees and irrevocable Letters of Credit issued are called upon. For credit commitments, the maximum exposure to credit risk is the full amount of the unused committed loan facilities granted to customers.

The following table presents maximum exposure to credit risk of financial instruments in the consolidated statements of financial position and off-balance sheet accounts, without taking into account of any collateral held or other credit enhancements.

	31 December	
	2015	2014
Consolidated financial position:

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management (continued)

iii. Credit risk analysis (continued)

Individually impaired financial assets

Individually impaired financial assets are financial assets that are individually significant and there is objective evidence that impairment loss has incurred after initial recognition of the financial assets.

Based on the Bank's internal policy, loans that are determined to be individually significant are loans to corporate and commercial debtors.

Financial assets that are not individually significant and assessed for collective impairment

Financial assets that are not individually significant consist of loans and receivables of the Bank and Subsidiaries to retail debtors, i.e. Small & Medium Enterprise ("SME") debtors, consumer financing receivables (including joint financing) debtors, mortgage and its housing renovation loans, vehicle loans and credit card receivables.

The Bank and Subsidiaries determined that impairment losses of financial assets that are not individually significant are assessed collectively, by grouping those financial assets based on similar risk characteristics.

The carrying value of financial assets that are not individually significant and have been assessed for collective impairment, which have been past due for more than 90 (ninety) days as of 31 December 2015 and 2014 amounted to Rp 736,773 and Rp 654,407, respectively.

Past due but not impaired financial assets

Past due but not impaired financial assets are financial assets from corporate and commercial segment, for which contractual interest or principal payments are past due, but the Bank and Subsidiaries believes that individual impairment has not occurred on the basis of the level of security/collateral available and/or the stage of collection of amounts owed to the Bank and Subsidiaries.

Neither past due nor impaired financial assets

Included in neither past due nor impaired financial assets are financial assets which are not impaired individually and have been grouped based on similar risk characteristics for the purpose of assessing its collective impairment for the incurred but not yet reported losses ("IBNR").

Based on its quality, neither past due nor impaired loans receivable, acceptance receivables, and bills receivable are classified into 3 categories, i.e. high grade, standard grade and low grade, in accordance with the Bank's internal estimate of each debtor's probability of default or certain portfolios that have been assessed against a range of qualitative and quantitative factors.

Loans receivable, acceptance receivables and bills receivable with risk rating of RR1 to RR7 are included in high grade category. Included in high grade category are loans to debtors which have strong capacity to repay all of its obligations in a timely manner, supported by strong fundamental factors and are not easily affected by unfavourable economic conditions.

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management (continued)

iii. Credit risk analysis (continued)

Neither past due nor impaired financial assets (continued)

Loans receivable, acceptance receivables and bills receivable with risk rating of RR8 to RR9 are included in standard grade category. Included in standard grade category are loans to debtors which considered to have sufficient capacity to repay its contractual interest and principal, but quite sensitive to unfavourable changes of economic conditions.

Loans receivable, acceptance receivables and bills receivable with risk rating RR10 and Loss are included in low grade category. Included in low grade category are loans to debtors with volatile repayment capacity, have poor fundamental factors and are easily affected by unfavourable economic conditions.

iv. Collateral

Collateral is held to mitigate credit risk exposures and risk mitigation policies determine the eligibility of collateral types that can be accepted by the Bank. The Bank differentiates collateral types based on its liquidity and existence into solid collateral and non-solid collateral. Solid collaterals are collaterals which have relatively high liquidity value and/or the existence is permanent (is not easily moved) i.e., cash collaterals and land/building, and therefore, the collaterals can be repossessed or taken over by the Bank when the loan to debtor/group debtor becomes non-performing. Non-solid collaterals are collaterals which have relatively low liquidity value and/or the existence is temporary (easily moveable) i.e., vehicles, machineries, inventories, receivables, etc. As of 31 December 2015 and 2014, the Bank held collaterals against loans receivables in the form of cash, properties (land/building), motor vehicles, guarantees, machineries, inventories, debt securities, etc.

The Bank's policy in connection with collateral as mitigation of credit risk depends on the credit category or facilities provided. For SME loans, all loans should be supported with collateral (collateral basis) whereby at least 50% (fifty percent) of it are solid collaterals. For corporate and commercial loans, the collateral values are determined based on the individual debtor credit worthiness. The collateral value is determined based on the appraisal value at the time of loan approval.

For mortgage facility ("KPR"), the Bank requires that all facilities should be supported by collaterals. The Bank applied the Loan-to-Value ("LTV") regulation gradually, starting from the first mortgage facility and so forth, in accordance with the rules imposed by the regulator. Value of the collateral for KPR is calculated based on the collateral value when credit is granted and renewed every 30 (thirty) months. For auto loan facility ("KKB"), the Bank requires that all facilities should be supported by collateral vehicles. The Bank applied the down payment rule, in accordance with the regulation imposed by the regulator.

Subsidiaries' consumer financing receivables are secured by the related certificates of ownership ("BPKB") of the vehicles being financed.

For foreign exchange transactions, either spot or forward, the Bank requires cash collaterals which is set at a certain percentage of facility provided. If the debtor has other credit facilities in the Bank, the debtor may use the collateral that has been given previously to be crossed with each other. The policy on percentage of the required collateral will be reviewed periodically, in line with the fluctuation and volatility of IDR currency to foreign currency exchange rate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)**c. Credit risk management (continued)****iv. Collateral (continued)**

Details of financial and non-financial assets obtained by the Bank during the year by taking possession of collaterals held as security against financial assets as of 31 December 2015 and 2014, presented in other assets at the lower of carrying amount and net realizable value, were as follows:

	31 December	
	2015	2014
Land	66,147	3,332
Building	234,486	68,618
Other commercial properties	15,967	16,443
Fair value	<u>316,600</u>	<u>88,393</u>

The Bank generally does not use non-cash collateral for its own operations. The Bank's policy is to realize collaterals which are repossessed as part of the settlement of credit.

v. Financial assets held for trading

As of 31 December 2015 and 2014, the Bank and Subsidiaries had financial assets held for trading at the fair value amounting to Rp 1,783,792 and Rp 1,672,222, respectively (see Note 9). Information on credit quality of the maximum exposure to credit risk of financial assets held for trading was as follows:

	31 December	
	2015	2014
Government securities:		
Investment grade	1,525,873	1,633,073
Corporate securities:		
Investment grade	3,995	1,008
Derivative assets:		
Other banks as counterparties	221,968	24,657
Corporates as counterparties	30,083	10,967
Others	1,873	2,517
Fair value	<u>1,783,792</u>	<u>1,672,222</u>

vi. Investment securities

As of 31 December 2015 and 2014, the Bank and Subsidiaries had investment securities at the carrying value amounting to Rp 51,153,115 and Rp 71,528,070, respectively (see Note 14). Information of credit quality on the maximum exposure to credit risk of investment securities was as follows:

	31 December	
	2015	2014
Government securities:		
Investment grade	40,949,428	60,526,034
Corporate securities:		
Investment grade	5,155,802	4,805,677
Non-investment grade	124,180	114,723
Others	4,923,705	6,081,636
Carrying amount	<u>51,153,115</u>	<u>71,528,070</u>

d. Liquidity risk management

The Bank emphasizes the importance of maintaining adequate liquidity to meet its commitments to its customers and other parties, whether in loans disbursement, repayment of customers' deposits or to meet operational liquidity requirements. The management of overall liquidity needs is overseen by ALCO, and operationally by the Treasury Division.

The Bank monitors its liquidity by maintaining sufficient liquid assets to repay the customers' deposits, and ensuring that total assets mature in each period is sufficient to cover total matured liabilities.

The Bank's liquid assets mainly consist of placements with Bank Indonesia and other banks, including current accounts with Bank Indonesia and other banks, and cash. If the Bank needs liquidity, the Bank can immediately draw down excess reserve funds over its minimum statutory reserve requirements in the current accounts with Bank Indonesia (*Giro Wajib Minimum* or "GWM"), sell the Certificates of Bank Indonesia ("SBI")/State Debentures ("SUN")/other government securities or sell SBI/SUN/other government securities under repurchase agreements, early redemption of BI term deposits or seek for borrowings from interbank money market in Indonesia. The Bank's primary reserve consists of the minimum statutory reserve requirements and cash held at branches.

In order to reduce risk of dependency to single funding, the Subsidiaries have diversified its funding resources. Besides capital and collection from customers, the Subsidiaries generate funding resources from bank loans and capital market, through bonds and medium-term notes issuance.

The above tables were prepared based on remaining contractual maturities of the financial liabilities and irrevocable Letters of Credit facility, while for issued guarantee contracts and unused committed credit facility were based on the their earliest possible contractual maturity. The Bank's and Subsidiaries' expected cash flows from these instruments vary significantly from the above analysis. For example, current accounts and saving accounts are expected to have a stable or increasing balance, or unused committed credit facility to customers/other banks are not all expected to be drawn down immediately.

The nominal inflow/(outflow) disclosed in the above table represents the contractual undiscounted cash flows relating to the principal and interest on the financial liabilities or commitments. The disclosure for derivatives show a gross inflow and outflow amount for derivatives that have simultaneous gross settlement (e.g., foreign currency forward).

Analysis on the maturity gap profile of financial assets and liabilities based on remaining contractual maturities as of 31 December 2015 and 2014 is disclosed in Note 37.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

e. Market risk management

i. Foreign exchange risk

The Bank conducts foreign currency trading in accordance with its internal policies and regulations from Bank Indonesia regarding Net Open Position (“NOP”). In managing its foreign exchange risk, the Bank centralizes the management of its NOP at the Treasury Division, which consolidates daily NOP reports from all branches. In general, each branch is required to square its foreign exchange risk at the end of each business day, although there is a NOP tolerance limit set for each branch depending on the volume of its foreign exchange activity. The Bank prepares its daily NOP report which combines the NOP from consolidated statements of financial position and from administrative accounts (off-balance sheet accounts).

The Bank’s revenue from foreign currency trading is mainly obtained from customer-related transactions and sometimes the Bank has NOP in certain amount to fulfill the customer’s needs, in accordance with the Bank’s internal guidelines. Trading for profit-taking purposes (proprietary trading) can only be performed for limited foreign currencies with small limits.

The Bank’s foreign currency liabilities mainly consist of deposits and borrowings denominated in US Dollar. To comply with the NOP regulations, the Bank maintains its assets which consist of placements with other banks and loans receivable in USD.

For internal reporting purposes, the Bank measures its foreign exchange risk by using Value at Risk (“VaR”) method which is based on Historical Simulation approach, while for the Minimum Capital Adequacy Ratio purposes, the Bank uses the Bank Indonesia’s standard method.

Information of Bank’s NOP as of 31 December 2015 and 2014 was disclosed in Note 38.

The Subsidiary has borrowings in foreign currency as of 31 December 2014. The Subsidiary entered derivative contracts to manage its foreign exchange risk.

ii. Interest rate risk

The major component of the Bank’s interest-rate-sensitive liabilities is customer deposits, while its interest-rate-sensitive assets are government bonds, investment securities and loans receivable. ALCO regularly monitors any development in the market and adjusts the interest rates of deposits and loans receivable accordingly.

The Bank uses earning approach and economic value approach to measure interest rate risk in the banking book. The earning approach uses accrual method to measure the sensitivity of Bank’s Net Interest Income to changes in market interest rates. The economic value approach uses Duration method to measure the sensitivity of economic value of productive assets and interest bearing liabilities to changes in market interest rates. In the Duration method, the interest rate risk is defined as a decrease in fair value of all productive asset portfolio and interest bearing liabilities in the banking book due to movement in market interest rates.

The banking book consists of all financial assets/other positions that is not included in the trading book.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

e. Market risk management (continued)

ii. Interest rate risk (continued)

The risk measurement is performed on Rupiah and USD and to be reported to ALCO. To measure interest rate risk on the trading book, the Bank uses VaR method with Historical Simulation approach for internal reporting purposes, while for the Minimum Capital Adequacy Ratio purpose, the Bank uses Bank Indonesia's standard approach.

The Bank determines the interest rates on deposits from customers based on market condition and competitiveness by monitoring the fluctuations of the base rates and interest rates offered by other banks for similar products. The interest rates on a deposit may vary and depend on maturity and size of the deposit. The interest rates for saving and current account are floating in nature and will be reviewed periodically based on market condition, while the interest rate for time deposit is fixed and depends on the maturity period. The interest rate for credit is determined by adding a certain margin on the Bank's cost of funds (including the cost of Minimum Reserve Requirements).

Cash flow interest rate risk is the risk that future cash flow from financial instruments fluctuates due to the movement in market interest rates. Fair value interest rate risk is the risk that the fair value of financial instruments fluctuates due to the movement in market interest rates. Bank has exposure to the volatility in market interest rates both to the fair value risk and cash flows risk. To mitigate this risk, the Board of Directors have set VaR limits for trading book, which are monitored by the Risk Management Unit on a daily basis.

The Subsidiary is exposed to interest rate risk arising from consumer financing receivables, factoring receivables, other receivables, the issuance of fixed rate bonds payable and medium-term notes payable. The Subsidiary manages the interest rate risk by diversifying its financing sources to find the most suitable fixed interest rate to minimize mismatch.

The table below summarizes the Bank and Subsidiaries' financial assets and liabilities (non-trading purposes) at carrying amounts, categorized by the earlier of contractual re-pricing or maturity dates:

	31 December 2015						Total

Sensitivity analysis

Based on the re-pricing gap report, the Bank analyzes the sensitivity to 1% (one percent) parallel interest rate movement (increase or decrease), with the following assumptions:

- The movement in interest rate for assets is the same with the movement in interest rate for liabilities; and
- The movement is the same for every maturity period in the yield curve (parallel yield curve movement).

This sensitivity analysis is performed regularly on a monthly basis for ALCO purposes. The following table describes the sensitivity of a reasonably possible change in market interest rate, with all other variables held constant, to the net interest income:

	Year ended 31 December	
	2015	2014
Decrease in interest income due to 1% (one percent) parallel increase in interest rate	(801,952)	(809,089)
Increase in interest income due to 1% (one percent) parallel decrease in interest rate	801,952	809,089

Value at Risk ("VaR") analysis

The Bank uses Historical Simulation approach in calculating VaR. In the Historical Simulation approach, the simulation requires historical and current market data. By considering last year full year market data and observed relationships between different markets and prices, this approach generates a wide range of plausible future scenarios of market price movement. VaR is defined as the worst possibility of losses at 99% (ninety nine percent) confidence level.

**PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)**e. Market risk management (continued)****Value at Risk (“VaR”) analysis (continued)**

The Bank uses VaR limits to monitor overall market risk and certain foreign exchange and interest rate risks. The VaR limits are subject to review and approval by management. VaR limits are allocated to trading portfolios. VaR is measured at least once a day. Daily reports of utilization of VaR limits are submitted to related business unit and Risk Management Unit, while the summary is submitted to management.

Although VaR is an important tool for measuring market risk, the assumptions on which the model is based give rise to some limitations, including the following:

- A 10 (ten) days holding period assumes that it is possible to hedge or dispose of positions within that period. This may not be the case for certain highly illiquid assets or in situations in which there is severe general market illiquidity.
- A 99% (ninety nine percent) confidence level does not reflect losses that may occur beyond this level. Even within the model used there is a one percent probability that losses could exceed the VaR.
- VaR is calculated on an end-of-day basis and does not reflect exposures that may arise on positions during the trading day.
- The use of historical data as a basis for determining the possible range of future outcomes may not always cover all possible scenarios, especially those of an exceptional nature.
- The VaR measure is dependent upon the Bank’s position and the volatility of market prices. The VaR of an unchanged position reduces if market price volatility declines and vice versa.

The Bank validates the accuracy of VAR model by performing back-testing on the hypothetical profit or loss.

VaR positions during 2015 and 2014 were as follows:

	31 December			
	2015		2014	
	Foreign exchange	Interest rate	Foreign exchange	Interest rate
Average	38,246.75	12,831.74	14,606.05	7,363.59
Maximum	109,566.88	29,566.29	61,383.86	23,895.67
Minimum	1,564.56	2,951.97	1,414.31	1,979.88
As of 31 December	24,130.90	17,687.53	2,629.21	4,309.19

The Bank uses other sensitivity limit structures in order to mitigate VaR limitations, including limits to mitigate potential concentration risks in each trading assets portfolio. In addition, the Bank uses stress testing to measure the financial impact of a variety of exceptional market scenarios, such as non-parallel yield curves shifting and interest rates volatility.

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

e. Market risk management (continued)

Value at Risk (“VaR”) analysis (continued)

The Bank monitors the sensitivity of fair value of available-for-sale securities to various standard and non-standard market scenarios, which was tested on a quarterly basis, covering parallel increase and decrease of 400 (four hundred) basis points (bps) in yield curves. The table below describes the sensitivity of fair value of available-for-sale securities to these movements as of 31 December 2015 and 2014, and its impact to equity (in billions of Rupiah):

	31 December	
	2015	2014
Increase in fair value of securities due to 400 (four hundred) bps parallel decrease in yield curve	1,573	2,707
Decrease in fair value of securities due to 400 (four hundred) bps parallel increase in yield curve	(1,506)	(2,482)

f. Operational risk management

Risk and Control Self Assessment (“RCSA”)

Basel Accord II requires Bank to include operational risk as one of the components in the calculation of the Bank’s capital adequacy ratio. In accordance with Basel Accord II, in 2002, the Bank started to implement Risk Self Assessment (“RSA”) to all regional offices and branches, and all divisions in Head Office. One of the objectives of RSA is to disseminate the risk culture and to increase risk awareness which are the main conditions in managing those risks. By improving the risk culture, it is expected that the employees’ risk control culture in their daily activities will increase.

In its implementation, RSA is continuously being improved with an aim to increase risk awareness in all business units. In 2006, the RSA was supplemented with control factors, and therefore its name was changed into RCSA. From 2007 to 2010, RCSA was implemented using sampling method based on certain criteria, especially for working units that are significantly exposed to operational risk.

Starting 2011, RCSA has been implemented in all business units in branches and head office that are significantly exposed to operational risk. The scale of impact and probability of event in RCSA have been re-evaluated and re-validated every year to provide the Bank with more appropriate and accurate risk levels for current business activities and risk profile of each working unit and the Bank as a whole. For the year 2015, the validation and review results of the impact and incurred possibility have been approved by management. The implementation of RCSA is on progress in all branches and regional offices and working units in Head Office that have significant operational risks.

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

f. Operational risk management (continued)

Loss Event Database (“LED”)

Bank has a database of cases or losses related to operational risks occurred in every working unit which is called Loss Event Database (“LED”). The objective of LED is to facilitate the Bank in recording and analyzing cases or problems faced by the Bank, thus preventive and corrective actions can be made for similar cases. The main purpose of LED is to minimize the Bank’s potential losses from operational risks.

Further, LED is also used as a tool to summarize the loss data related to operational risks, which is used by the Bank to allocate capital charge and to continuously monitor events that can give rise to the Bank’s operational losses. Currently, LED has been implemented in all regional offices, branches and working units in head office.

Key Risk Indicator (“KRI”)

KRI is a method used to give indications (early warning sign) of the possibility of increasing operational risks in certain business unit. By the end of 2008, almost all branches had implemented the KRI method. In the early 2009, the Bank enhanced KRI methodology by adding 7 (seven) new indicators. This enhancement is used to increase the risk awareness. Since mid 2009, all regional offices and branches have implemented the KRI methodology. In 2013, by considering the development of the Bank’s operational activities and to monitor the operational transactions effectively, therefore KRI was improved by using 6 (six) indicators in monitoring the operational risks.

Operational Risk Management Information System (“ORMIS”)

ORMIS is a supporting application used in implementing RCSA, LED and KRI. Currently, all working units of the Bank have used the ORMIS in implementing RCSA, LED and KRI.

g. Consolidated risk management

In accordance with Bank Indonesia regulation No. 8/6/PBI/2006 dated 30 January 2006 regarding the Implementation of Consolidated Risk Management for Banks with Control over Subsidiaries, the Bank is required to implement a consolidated risk management.

Implementation of consolidated risk management in the Bank is performed based on the above-mentioned Bank Indonesia regulation, including:

- Active supervision of Board of Commissioners and Board of Directors;
- Adequate policies and procedures and setting limits;
- Adequacy of the process of identification, measurement, monitoring and risk control, as well as risk management information system; and
- A comprehensive internal control system.

By referring to the concept for implementation of consolidated risk management, the implementation of risk management framework in Subsidiaries has been indirectly monitored and examined by the Bank’s management.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

g. Consolidated risk management (continued)

The Subsidiaries have implemented risk management in line with the implementation of risk management in the Bank (parent entity). Implementation of risk management in the Subsidiaries is aimed to increase competitiveness, as this is one of the Bank's efforts to comply with the international standards.

The Bank has Accounting Information System and Risk Management System that can identify, measure and monitor the business risk of the Banks and Subsidiaries, in order to implement consolidated risk management effectively.

In accordance with Financial Services Authority Regulation ("POJK") No. 17/POJK.03/2014 dated 18 November 2014 regarding the Implementation of Integrated Risk Management for Financial Conglomeration, a financial conglomeration should implement a comprehensive and effective integrated risk management, in this case the Bank as the main entity is obliged to integrate the implementation of risk management within the financial conglomeration.

Referring to the implementation of integrated risk management concept, implementation of tasks and responsibilities of Integrated Risk Management Working Unit is one of the functions of the existing Risk Management Working Unit. In performing their duties, Integrated Risk Management Working Unit coordinates with working units that conduct Risk Management function on the respective Financial Service Institution ("LJK") in financial conglomeration.

The Bank as the main entity has submitted to OJK:

1. Reports regarding the main entity and LJK included as members of the financial conglomeration to the OJK.
2. Integrated Risk Profile Report.

4. USE OF ESTIMATES AND JUDGMENT

This disclosure supplements the commentary on financial risk management (see Note 3).

a. Key sources of estimation uncertainty

a.1. Allowance for impairment losses of financial assets

Financial assets accounted for at amortized cost are evaluated for impairment on a basis described in Note 2v.

The specific counterparty component of the total allowances for impairment applies to claims evaluated individually for impairment and is based upon management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgments about the counterparty's financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy, and estimated cash flows considered recoverable are independently approved by the credit risk unit.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

4. USE OF ESTIMATES AND JUDGMENT (Continued)

a. Key sources of estimation uncertainty (continued)

a.1. Allowance for impairment losses of financial assets (continued)

Collectively assessed impairment allowances cover credit losses inherent in portfolios of receivables with similar economic characteristics when there is an objective evidence to suggest that they contain impaired receivables, but the individual impaired items cannot yet be identified. In assessing the need for collective allowances, management considers factors such as credit quality, portfolio size, credit concentrations and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modeled and to determine the required input parameters, based on historical experiences and current economic conditions. The accuracy of the allowances depends on how well these estimated future cash flows for specific counterparty allowances and the model assumptions and parameters are used in determining collective allowances.

a.2. Determining fair values

In determining the fair value of financial assets and liabilities for which there is no observable market price, the Bank and Subsidiaries must use the valuation techniques as described in Note 2i.6. For financial instruments that trade infrequently and have little price transparency, fair value is less objective and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

b. Critical accounting judgments in applying the Bank and Subsidiaries' accounting policy

Critical accounting judgments made in applying the Bank and Subsidiaries' accounting policies include:

b.1. Valuation of financial instruments

The Bank and Subsidiaries' accounting policies on fair value measurements are discussed in Note 2i.6.

Information regarding the fair value of financial instruments is disclosed in Note 32.

b.2. Financial asset and liability classification

The Bank and Subsidiaries' accounting policies provide scope for assets and liabilities to be designated on inception into different accounting categories in certain circumstances:

- In classifying financial assets and financial liabilities as "trading", the Bank and Subsidiaries have determined that it meets the description of trading assets as set out in Note 2i.1.
- In classifying financial assets as "held-to-maturity", the Bank and Subsidiaries have determined that the Bank and Subsidiaries have both the positive intention and ability to hold the assets until their maturity date as required (see Note 2i.1).

			26,370,761	(81,098)	26,289,663

All securities purchased under agreements to resell as of 31 December 2015 and 2014 were government bonds denominated in Rupiah currency with investment grade ratings.

As of 31 December 2015 and 2014, the Bank did not have balances of securities purchased under agreements to resell with related party.

Management believes that the allowance for impairment losses of securities purchased under agreements to resell as of 31 December 2015 and 2014 were not necessary.

Weighted average effective interest rates per annum of securities purchased under agreements to resell for the years ended 31 December 2015 and 2014 were 6.08% and 6.25%, respectively.

Information on the classification and fair value of securities purchased under agreements to resell is disclosed in Note 32. Information on the maturity of securities purchased under agreements to resell is disclosed in Note 37.

Management believes that allowance for impairment losses provided was adequate to cover possible losses on uncollectible loans receivable. As of 31 December 2015 and 2014, allowance for collective impairment losses on loans receivable to related parties amounting to Rp 1,056 and Rp 796, respectively.

**PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

12. LOANS RECEIVABLE (Continued)

g. Joint financing

The Bank entered into joint financing agreements with several multi-finance companies for financing the purchase of vehicles. All risks from the loss arising from these joint financing facilities will be borne proportionally by both parties based on respective financing participation (without recourse). The Bank's portion of outstanding balance of joint financing receivable facilities as of 31 December 2015 and 2014 were Rp 35,762,472 and Rp 33,630,725, respectively.

h. Other significant information relating to loans receivable

As of 31 December 2015 and 2014, the Bank had no loans receivable which were pledged as collaterals.

Demand deposits, saving deposits and time deposits pledged as collateral for loans receivable amounting to Rp 10,700,349 and Rp 10,002,728, respectively, as of 31 December 2015 and 2014 (see Note 16).

As of 31 December 2015 and 2014, the Bank, at individual level and at consolidated level, complied with Legal Lending Limit ("LLL") requirements for both related parties and third parties.

Weighted average effective interest rates per annum of loans receivable were as follows:

	Year ended 31 December	
	2015	2014
Rupiah	10.86%	10.70%
Foreign currencies	4.14%	4.49%

Ratio of small business loans to loans receivable as of 31 December 2015 and 2014 was 1.18% and 0.66%, respectively.

The Bank's non-performing loans (classified as sub-standard, doubtful and loss) as of 31 December 2015 and 2014 amounting to Rp 2,801,255 and Rp 2,067,459, respectively.

As of 31 December 2015, the percentage of non-performing loan ("NPL") - gross and NPL - net was 0.72% and 0.22% (2014: 0.60% and 0.22%), respectively, which was calculated based on prevailing Bank Indonesia Regulations.

Information on the classification and fair value of loans receivable is disclosed in Note 32. Information on the maturity of loan receivables is disclosed in Note 37. Information on the details of loans receivable by geographic region is disclosed in Note 36.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

13. CONSUMER FINANCING RECEIVABLES

The Subsidiaries' consumer financing receivables at amortized cost were as follows:

	31 December	
	2015	2014
Consumer financing receivables		
- Self-financing	5,837,470	5,368,285
- Share in joint financing with related parties without recourse	6,001,423	5,635,111
Unamortized transaction cost - net	(143,223)	(168,773)
Unrecognized consumer financing income	(4,002,132)	(3,660,333)
Consumer financing receivables, before allowance for impairment losses	7,693,538	7,174,290
Less:		
Allowance for impairment losses	(286,019)	(201,062)
Total consumer financing receivables - net	7,407,519	6,973,228

Contractual interest rates per annum for consumer financing during 2015 and 2014 were 7.04% - 36.74% and 7.04% - 38.53%, respectively.

The Subsidiaries extend consumer financing contracts for 4 (four) wheel vehicles with terms ranging from 1 (one) year to 6 (six) years, while consumer financing contracts for 2 (two) wheel vehicles ranging from 1 (one) year to 4 (four) years.

The movement in the allowance for impairment losses on consumer financing receivables was as follows:

	31 December	
	2015	2014
Balance, beginning of year	(201,062)	(79,673)
Beginning balance of acquired Subsidiary	-	(64,652)
Addition of allowance during the year	(293,339)	(239,989)
Written-off during the year	208,382	183,252
Balance, end of year	(286,019)	(201,062)

The collection of consumer financing receivables previously written-off amounting to Rp 11,797 and Rp 8,015 in 2015 and 2014, respectively.

As of 31 December 2015 and 2014 consumer financing receivables, before deduction of unearned income, amounting to Rp 3,346,648 and Rp 3,219,018, respectively, were pledged as collateral to borrowings and overdraft, and debt securities issued.

The consumer financing receivables are secured by the related certificates of ownership ("BPKB") of the vehicles financed by the Subsidiaries.

Management believes that the allowance for impairment losses was adequate to cover possible losses arising from uncollectible consumer financing receivables.

Information on the classification and fair value of consumer financing receivables is disclosed in 32. Information on the maturity of consumer financing receivables is disclosed in Note 37.

As of 31 December 2015, investment securities includes government bonds with carrying value amounted to Rp 49,666 (nominal amount of Rp 48,252), which according to the agreements, the Bank is required to repurchase the respective government bonds on 7 January 2016 and 20 January 2016. Total liabilities at carrying value (“securities sold under agreements to repurchase”) in the consolidated statement of financial position as of 31 December 2015 amounting to Rp 38,602.

As of 31 December 2015 and 2014, the Bank did not have investment securities pledged as collateral.

**PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

14. INVESTMENT SECURITIES (Continued)

During the years ended 31 December 2015 and 2014, the Bank reclassified certain held-to-maturity investment securities to available-for-sale investment securities amounting to Rp 1,568,624 (fair value of Rp 1,562,972) and Rp 4,632,795 (fair value of Rp 4,648,498), respectively. Such reclassifications were made for investment closed to its maturity date (will be matured in less than six months) and fulfill the requirements of reclassification requirements in PSAK No. 55 (2014 Revision).

Management believes that changes of interest rate will have no significant impact to the fair value of those investment securities. The balance of available-for-sale securities reclassified from held-to-maturity as of 31 December 2015 and 2014 were Rp 459,560 and Rp 1,602,044, respectively.

The details of government recapitalization bonds owned by the Bank as of 31 December 2015 and 2014 were as follows:

31 December 2015					
	Nominal amount	Fair value	Maturity date	Frequency of interest payment	Carrying value
Held-to-maturity:					
VR0023 series	1,050,000	1,042,755	25 Oct 2016	3 months	1,050,068

15. FIXED ASSETS (Continued)

Revaluation of fixed assets

In accordance with Decree of Minister of Finance No. 384/KMK/04/1998 dated 14 August 1998, the Bank has revalued certain fixed assets on 31 December 1998. The revaluation of fixed assets was based on the appraisal report from PT Ujatek Baru dated 24 March 1999 which was determined using market data approach and resulted in fixed asset revaluation difference of Rp 1,043,470. Such fixed asset revaluation difference has been approved by the Jakarta Tamansari Tax Office with its letter No. KEP-2111/WPJ.05/KP.09/1999 dated 3 October 1999.

On 31 October 2000, the Bank revalued certain fixed assets amounting to Rp 141,127 in relation to the Bank's quasi-reorganization. The revaluation of fixed assets was based on the appraisal report from PT Ujatek Baru dated 20 December 2000 which was determined using market data approach.

The fixed asset revaluation difference in 2000 amounting to Rp 141,127 was approved by Listed Company Tax Office with its letter No. KEP-04/WPJ.06/KP.0404/2001 dated 15 June 2001. The fixed asset revaluation difference was allocated to additional paid-in capital due to quasi-reorganization amounting to Rp 124,690.

In 2008, the Bank and Subsidiaries chose the cost method as their accounting policy for fixed assets in accordance with PSAK No. 16 (2007 Revision), "Fixed Assets", and reclassified all remaining fixed asset revaluation difference of Rp 1,059,907 which was presented as part of equity in the consolidated statement of financial position to the retained earnings.

Other informations

As of 31 December 2015 and 2014, the Bank did not have any fixed assets pledged as collateral.

Depreciation charged to general and administrative expenses for the years ended 31 December 2015 and 2014 amounting to Rp 1,363,839 and Rp 1,091,858, respectively.

Gain on sale of fixed assets recognized as part of other operating income, for the years ended 31 December 2015 and 2014, amounting to Rp 4,354 and Rp 3,897, respectively.

Loss on sale of fixed assets recognized as part of other operating expenses, for the years ended 31 December 2015 and 2014, amounting to Rp 1,712 and Rp 2,145, respectively.

The Bank has insured its fixed assets (excluding land rights) to cover the possible losses from fire, theft and natural disaster with a total coverage of Rp 7,889,451 and USD 464,577,761 as of 31 December 2015, and Rp 6,547,509 and USD 442,390,508 as of 31 December 2014. Management believes that the insurance coverage is adequate to cover possible losses from such risks.

As of 31 December 2015 and 2014, the cost of fully depreciated fixed assets that are still in used amounting to Rp 3,056,167 and Rp 2,474,588, respectively.

No impairment losses on fixed assets existed during 2015 and 2014.

c. In accordance with Article 2 of Government Regulation No. 77/2013 regarding the Guidelines on the Implementation and Supervision on the Tariff Reduction for Domestic Tax Payers in the form of Public Companies, signed by the President of Republic Indonesia on 21 November 2013, tax payers can receive a reduction of 5% (five percent) lower than income tax rate for a domestic tax payer as stipulated by Tax Law, if the company fulfilled the following criteria:

1. The public owned 40% (forty percent) or more of the total paid up shares and those shares are owned by at least 300 (three hundred) parties.
2. Each party can only own less than 5% (five percent) of total paid-up shares.
3. The tax payer should fulfill the above mentioned criteria at least within 6 (six) months (183 (one hundred and eighty three) calendar days) in 1 (one) fiscal year.

The tax payers should attach the declaration letter from Securities Administration Agency (“*Biro Administrasi Efek*”) to the annual income tax return of the tax payers with the form X.H.1-2 as provided in Decision Letter of the Chairman of Capital Market and Financial Institution Supervisory Agency (“Bapepam-LK”) No. KEP-669/BL/2012 dated 13 December 2012 for the respective fiscal year.

On 13 January 2016 and 8 January 2015, the Bank received a declaration letter from the Securities Administration Agency for the fulfillment of the above criteria for fiscal year 2015 and 2014, respectively.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

17. INCOME TAX (Continued)

Included in total deferred tax asset and liability of the Bank and Subsidiaries were deferred tax asset and liability arising from unrealized (loss) gain from change in fair value of available-for-sale investment securities (see Note 14) amounting to Rp 31,553 and Rp 3,083 as of 31 December 2015, and Rp 19,848 and Rp 4,958 as of 31 December 2014, respectively. Moreover, included in total deferred tax asset of the Bank and Subsidiaries was deferred tax asset arising from unrealized gain from change in fair value of available-for-sale placements with Bank Indonesia and other banks (see Note 8) amounting to Rp (136) and Rp 51 as of 31 December 2015 and 2014, respectively.

Management believes that total deferred tax assets arising from temporary differences are probable to be realized in the future years.

- h. Under the taxation laws of Indonesia, the Bank and its Subsidiaries in Indonesia calculate and submit/pay individual company tax return (submission of consolidated income tax computation is not allowed) on the basis of self-assessment. The tax authorities may assess or amend taxes within the statute of limitations, under prevailing regulations.
- i. Under the taxation laws of Indonesia, the Bank and its Subsidiaries submit/pay the tax returns on the basis of self-assessment. The tax authorities may assess or amend taxes within the statute of limitations, under prevailing regulations.

The Bank and Subsidiaries' tax positions may be challenged by the tax authorities. Management vigorously defends the Bank and Subsidiaries' tax positions which are believed to be grounded on sound technical basis, in compliance with the tax regulations. Accordingly, management believes that the accruals for tax liabilities are adequate for all open tax years based on the assessment of various factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve judgement about future events. New information may become available that causes management to change its judgement regarding the adequacy of existing tax liabilities. Such changes to tax liabilities will impact tax expense in the period in which such determination is made.

- j. The Bank's 2008 taxes have been audited by tax authorities which resulted in tax underpayment of Rp 136,949. The Bank has paid the tax underpayment and filed an objection letter for certain part of tax audit result at amount of Rp 120,170. On 9 and 10 September 2013, Directorate General of Tax ("DGT") approved parts of the objection for Value Added Tax ("VAT") and corporate income tax amounting to Rp 15,482, and has been transferred to the Bank on 24 October 2013. In relation with the objection result, the Bank submitted an appeal for the remaining amount of Rp 104,039 to the Tax Court. On 21 May 2015, the Tax Court decided to grant only Rp 542. Based on the Tax Court decision, the Bank has requested a judicial review of the decision by the Tax Court to the Supreme Court on 11 August 2015 amounting to Rp 100,271, while the remaining amount of Rp 3,226 was accepted by the Bank.

- k. Other information

In 2015, the Bank has conducted a revaluation of fixed assets based on the Minister of Finance Regulation No. 191/PMK.01/2015 dated 20 October 2015 regarding Revaluation of Fixed Assets for Tax Purposes. In accordance with the regulation, the Bank submitted a request to obtain a tax incentive in the form of reduced tariff of final income tax at 3% (three percent) of fixed assets revaluation difference on tax basis.

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

17. INCOME TAX (Continued)

k. Other information (continued)

In accordance with this regulation, revaluation can be performed for some or all tangible fixed assets. In 2015 the Bank has revalued its fixed assets in the form of land by using value as calculated by *Kantor Jasa Penilai Publik* (“KJPP”) Antonius Setiady & Partners as follows:

Phase	Number of location which are revalued	Acquisition cost/book value of land	Book value after revaluation	Excess of revaluation	Final income tax rate	Final income tax
Phase 1	533	1,492,009	7,045,157	5,553,148	3%	166,595
Phase 2	11	426,964	1,115,106	688,142	3%	20,644
Total	544	1,918,973	8,160,263	6,241,290		187,239

For the phase 1 (one) of the revaluation, the Bank has obtained the Director General of Taxes Decision Letter No. KEP-2636/WPJ.19/2015 regarding “The Approval of the Revaluation of Fixed Assets for Taxation Purposes for Submission in 2015 and 2016” on 29 December 2015.

On 7 January 2016, the Bank has obtained the Director General of Taxes Decision Letter No. KEP-55/WPJ.19/2016 regarding “The Approval of the Revaluation of Fixed Assets for Taxation Purposes for Submission in 2015 and 2016” for phase 2 (two) revaluation.

The Bank has recorded a 3% (three percent) final income tax paid amounting to Rp 187,239 as part of general and administrative expenses in 2015.

21. ADDITIONAL PAID-IN CAPITAL

Additional paid-in capital as of 31 December 2015 and 2014 consists of:

	31 December	
	2015	2014
Additional paid-in capital from share capital payments	29,453,007	29,453,007
Elimination of accumulated loss through quasi-reorganization on 31 October 2000 ^{*)}	(25,853,162)	(25,853,162)
Additional paid-in capital from the exercise of stock options	296,088	296,088
Additional paid-in capital from treasury stock transactions (Note 1c)	1,815,435	1,815,435
Difference in values from business combination transaction of entities under common control (Note 2g)	(146,816)	(146,816)
	<u>5,564,552</u>	<u>5,564,552</u>

^{*)} On 31 October 2000, the Bank adopted PSAK No. 51, "Accounting for Quasi-Reorganization" to achieve a "fresh start" reporting. Fresh start reporting requires the revaluation of all its assets and liabilities recorded by using the fair value and elimination of its accumulated deficit. Pursuant to the implementation of quasi-reorganization, the Bank's accumulated losses as of 31 October 2000 amounted to Rp 25,853,162 has been eliminated against the additional paid-in capital. The implementation of quasi-reorganization has been approved by Bank Indonesia through its Letter No. 3/165/DPwB2/IDWB2 dated 21 February 2001 and by the shareholders in their Extraordinary General Meeting of Shareholders on 12 April 2001 (the minutes of meeting prepared by Notary Hendra Karyadi, S.H., in Notary Deed No. 25).

22. COMMITMENTS AND CONTINGENCIES

(Expressed in millions of Rupiah, unless otherwise stated)

22. COMMITMENTS AND CONTINGENCIES (Continued)Additional information

As of 31 December 2015 and 2014, the Bank had unused credit facilities to customers - uncommitted amounting to Rp 32,830,365 and Rp 30,428,092, respectively.

The Bank is a party to various unresolved legal actions, administrative proceedings, and claims in the ordinary course of its business. It is not possible to predict with certainty whether or not the Bank will be successful in any of these legal matters or, if not, what the impact might be. However, the Bank's management does not expect that the results in any of these proceedings will have a material adverse effect on the Bank's results of operations, financial position, or liquidity.

Commitments and contingencies from related parties are disclosed in Note 41.

23. INTEREST AND SHARIA INCOME

Interest and sharia income consist of:

	Year ended 31 December	
	2015	2014
Loans receivable	36,721,014	33,431,088
Placements with Bank Indonesia and other banks	958,170	959,832
Investment securities	3,865,404	3,412,104
Securities purchased under agreements to resell	1,784,791	2,475,169
Consumer financing and investment in finance lease	2,870,032	2,821,401
Sharia revenue sharing	368,911	222,966
Others	513,406	448,696
	<u>47,081,728</u>	<u>43,771,256</u>

Included in interest income from loans receivable and investment securities were interest from the effect of discounting (unwinding interest) of impaired financial assets for the year ended 31 December 2015 amounting to Rp 4,279 and Rp 659, respectively (2014: Rp 4,433 and Rp 4,789, respectively).

Interest income from loans receivable to related parties is disclosed in Note 41.

24. INTEREST AND SHARIA EXPENSES

Interest and sharia expenses consist of:

	Year ended 31 December	
	2015	2014
Deposits from customers	9,648,420	10,294,076
Deposits from other banks	29,645	14,321
Government guarantee premium	932,388	862,000
Debt securities issued	234,247	234,505

Security	18,207	17,689
Others	239,131	157,004
	<u>10,874,770</u>	<u>8,931,363</u>

30. BASIC AND DILUTED EARNINGS PER SHARE

Basic and diluted earnings per share are calculated based on the weighted average number of shares outstanding during the year, as follows:

	Year ended 31 December	
	2015	2014
Net income attributable to equity holder of the parent entity	18,018,653	16,485,858
Weighted average number of outstanding shares	24,655,010,000	24,655,010,000
Basic and diluted earnings per share attributable to equity holder of the parent entity (full amount of Rupiah)	731	669

As of 31 December 2015 and 2014, there were no instruments which can potentially be converted into common shares. Therefore, diluted earnings per share is equivalent to basic earnings per share.

31. APPROPRIATION OF NET INCOME

The Bank's Annual General Meeting of Shareholders on 9 April 2015 (the minutes was prepared by Notary Dr. Irawan Soerodjo, S.H., MSi., with Notary Deed No. 66) resolved the appropriation of 2014 net income, as follows:

- a. Allocate 1% (one percent) of 2014 net income for general reserve amounting to Rp 164,858.
- b. Distribute cash dividends amounting to Rp 3,648,941 (Rp 148 (full amount) per share) to shareholders who have the right to receive cash dividends. The actual cash dividends paid was Rp 2,416,191 (interim dividend for the year 2014 had been paid on 23 December 2014 amounting to Rp 1,232,750).
- c. Determine the tantiem for members of Board of Commissioners and Directors on duty in the year 2014 with a maximum amount of Rp 247,288 from the net income for the year 2014. The actual amount of tantiem paid was Rp 247,256.
- d. Determine the remaining 2014 net income after dividends as unappropriated retained earnings.

The Bank's Annual General Meeting of Shareholders on 9 April 2015 also resolved the granting of power and authority to the Bank's Directors to pay interim dividend for the year 2015, where possible, by considering the financial condition of the Bank.

In accordance with the Board of Directors' Decision Letter dated 5 November 2015 No. 154/SK/DIR/2015 regarding the Distribution of Interim Dividends for the year 2015, the Board of Directors resolved that the Bank will pay interim dividends to shareholders from net income for the year 2015 amounting to Rp 55 (full amount) per share. The actual interim dividends paid amounting to Rp 1,356,026.

The Bank's Annual General Meeting of Shareholders on 7 April 2014 (the minutes was prepared by Notary Dr. Irawan Soerodjo, S.H., MSi., with Notary Deed No. 4) resolved the appropriation of 2013 net income, as follows:

- a. Allocate 1% (one percent) of 2013 net income for general reserve amounted to Rp 142,539.
- b. Distribute cash dividends amounting to Rp 2,958,601 (Rp 120 (full amount) per share) to shareholders who have the right to receive cash dividends. The actual cash dividends paid was Rp 1,849,126 (interim dividend for the year 2013 had been paid on 17 December 2013 amounting to Rp 1,109,475).
- c. Determine the tantiem for members of Board of Commissioners and Directors on duty in the year 2013 with a maximum amount of Rp 213,807 from the net income for the year 2013. The actual amount of tantiem paid was Rp 213,762.
- d. Determine the remaining 2013 net income after dividends as unappropriated retained earnings.

The Bank's Annual General Meeting of Shareholders on 7 April 2014 also resolved the granting of power and authority to the Bank's Directors to pay interim dividend for the year 2014, where possible, by considering the financial condition of the Bank.

In accordance with the Board of Directors' Decision Letter dated 13 November 2014 No. 135/SK/DIR/2014 regarding the Distribution of Interim Dividends for the year 2014, the Board of Directors resolved that the Bank will pay interim dividends to shareholders from net income for the year 2014 amounting to Rp 50 (full amount) per share. The actual interim dividends paid amounting to Rp 1,232,750.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise stated)

32. FINANCIAL INSTRUMENTS

Classification of financial assets and financial liabilities

Financial instruments have been classified based on their respective classifications. The significant accounting policies in Note 2i.2 describe how the categories of the financial assets and liabilities are measured and how income and expenses, including fair value gains and losses (changes in fair value of financial instruments) are recognized.

Financial assets have been classified into held for trading, held to maturity, loans and receivables and available-for-sale. Financial liabilities have been classified into held-for-trading financial liabilities and financial liabilities measured at other amortized cost.

Valuation models of financial instruments

The Bank and Subsidiaries measure fair values using the following hierarchy of methods:

- Level 1: inputs that are quoted prices (unadjusted) in active markets for identical instruments that the Company can access at the measurement date.
- Level 2: inputs other than quoted prices included within level 1 that are observable either directly or indirectly. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are not active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3: inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active market are based on quoted market prices. For all other financial instruments, the Bank determines fair values using valuation techniques.

Valuation techniques include net present value and discounted cash flow models, comparison with similar instruments for which market observable prices exist and other valuation models. Assumptions and inputs used in valuation techniques include risk-free interest rates, benchmark interest rate, credit spreads and other variables used in estimating discount rates, bond prices, foreign currency exchange rates, and expected price volatilities and correlations.

The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date.

The Bank and Subsidiaries use widely recognized valuation models for determining the fair values of common and more simple financial instruments, such as interest rate and currency swaps that used only observable market data and require little management judgement and estimation. Observable prices or model inputs are usually available in the market for listed debt securities and simple over-the-counter derivatives such as interest rate swaps. Availability of observable market prices and model inputs reduces the needs for management judgement and estimation and also reduces the uncertainty associated with determining fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise specified)

32. FINANCIAL INSTRUMENTS (Continued)

Valuation Framework

Valuation of financial assets and financial liabilities are subject to an independent review from the business by Finance and Planning Division (“DKP”) and Risk Management Work Unit (“SKMR”). DKP is primarily responsible for ensuring that valuation adjustments have been properly accounted for. SKMR performs an independent price validation to ensure that the Bank and Subsidiaries use reliable market data from independent sources, e.g., traded prices and broker quotes.

Valuation model is proposed by SKMR and approved by the management. SKMR performs a periodic review of the feasibility of the market data sources used for valuation. The market data used for price validation may include those sourced from recent trade data involving external counterparties or third parties such as Bloomberg, Reuters, brokers and pricing providers. The market data used should be representative of the market as much as possible, which can evolve over time as markets and financial instruments develop. To determine the quality of the market data inputs, factors such as independence, relevance, reliability, availability of multiple data sources and methodology employed by the pricing providers are taken into consideration.

Valuation of financial instruments

Financial instruments measured at fair value

The following table sets out the carrying amounts and fair values of financial instruments of the Bank and Subsidiaries, measured at fair values, and their analysis by the level in the fair value hierarchy.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise specified)

32. FINANCIAL INSTRUMENTS (Continued)**Valuation of financial instruments (continued)****Financial instruments measured at fair value (continued)**

Fair value of available-for-sale placements with Bank Indonesia and other banks was calculated using valuation techniques based on the Bank's internal model, which is a discounted cash flow method. Input used in the valuation techniques is market interest rate for money market instruments which have similar credit characteristics, maturity and yield.

As of 31 December 2015, the fair value of held for trading securities was based on market price issued by pricing provider (Indonesian Bond Pricing Agency/"IBPA"). If the information is not available, the fair value is estimated using the quoted market prices of securities which have similar credit characteristics, maturity and yield. As of 31 December 2014, the fair value of held for trading securities was based on quoted market price. If the information is not available, the fair value was estimated using the quoted market price of securities which have similar credit characteristics, maturity and yield.

As of 31 December 2015, the fair value of available-for-sale investment securities was based on market price issued by pricing provider (Indonesian Bond Pricing Agency/"IBPA"). If the information is not available, the fair value was estimated using the quoted market prices of securities which have similar credit characteristics, maturity and yield. As of 31 December 2014, the fair value of available-for-sale investment securities was based on market prices or brokers/dealers quoted price which is observable in the market. If the information is not available, the fair value was estimated using the quoted market prices of securities which have similar credit characteristics, maturity and yield.

As of 31 December 2015 and 2014, the fair value of available-for-sale investment securities did not include the fair value of investments in shares amounting to Rp 153,175 and Rp 128,862, respectively, which were valued at cost, since the fair value cannot be measured reliably.

The Bank and Subsidiaries did not have financial assets and financial liabilities measured at fair value which the measurements fall under level 3 (three) hierarchy.

Financial instruments not measured at fair value

The following table sets out the carrying amounts and fair values of financial instruments of the Bank and Subsidiaries, which are not measured at fair values and their analysis by the level in the fair value hierarchy.

	31 December 2015						
	Carrying amount			Fair value			
Held-to-maturity	Loans and receivables	Other amortized cost	Total	Level 2	Level 3	Total	
Financial assets							
Loans receivable	-	378,616,292	-	378,616,292	4,080,501	374,791,576	378,872,077

Majority of the financial instruments not measured at fair value are measured at amortized cost.

The following financial instruments are short-term financial instruments or financial instruments which are re-priced periodically to current market rates; therefore, the fair values of financial instruments are reasonable approximation of carrying value.

Financial assets:

- Cash
- Current accounts with Bank Indonesia
- Current accounts with other banks
- Placements with Bank Indonesia and other banks
- Acceptance receivables
- Bills receivables
- Securities purchased under agreements to resell

Financial liabilities:

- Securities sold under agreements to repurchase
- Acceptance payables

As of 31 December 2015 and 2014, the fair values of loans receivable, consumer financing receivables, investment in finance leases and borrowings were determined using discounted cash flows based on internal interest rate.

As of 31 December 2015 and 2014, the fair values of held-to-maturity securities and debt securities issued based on market prices issued by pricing provider (Indonesian Bond Pricing Agency/“IBPA”). If the information is not available, the fair values were estimated using quoted market prices of securities which have similar credit characteristics, maturity and yield.

As of 31 December 2015 and 2014, the fair values of deposits from customers and deposits from other banks are same with the carrying amount because they are payable on demand in nature.

The fair values calculated are for disclosure purposes only and do not have any impact on the Bank and Subsidiaries' reported financial performance or position. The fair values calculated by the Bank and Subsidiaries may be different from the actual amount that will be received/paid on the settlement or maturity of the financial instrument. As certain categories of financial instruments are not traded, there is management judgment involved in calculating their fair values.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise specified)

33. POST-EMPLOYMENT BENEFITS OBLIGATION

In accordance with Law of the Republic of Indonesia No. 13/2003 concerning Manpower, the Bank is required to provide post-employment benefits to its employees when their employments are terminated or when they retire. These benefits are primarily based on years of services and the employees' compensation at termination or retirement. These post-employment benefits are defined benefits program.

The Bank also had a defined contribution pension plan that covers all permanent employees who fulfilled the criteria determined by the Bank. This defined contribution pension plan is managed and administered by Dana Pensiun BCA which was established by the Bank to manage the assets, generate investment income and pay the post-employment benefits to the employees. The establishment of Dana Pensiun BCA had been ratified by the Minister of Finance of Republic of Indonesia in its Decision Letter No. KEP-020/KM.17/1995 dated 25 January 1995. The contribution to the pension plan is computed based on certain percentage of employees' basic salary, for which the contribution from employees and the Bank are 3% (three percent) and 5% (five percent), respectively. Three percent of accumulated contribution from the Bank to the pension fund is used as a deduction against the post-employment benefits obligation in accordance with the manpower law.

During the year ended 31 December 2015 and 2014, the Bank provided some funds to support the fulfillment of its post-employment benefit obligations amounting to Rp 1,300,000 and Rp 800,000, respectively. These funds were placed in several insurance companies in the form of life insurance and saving plan program, which meet the criteria to be recorded as plan assets.

The defined benefit pension plan provides actuarial risk exposures to the Bank, e.g., investment risk, interest rate risk and inflation risk.

Post-employment benefits provided by the Bank consist of pension, other long-term compensations in the form of service award, and post-employment healthcare benefits. The post-employment benefits obligation as of 31 December 2015 and 2014 was calculated by PT Towers Watson Purbajaga and PT Sentra Jasa Aktuaria (Biro Pusat Aktuaria), respectively, as the Bank's independent actuary, using the projected-unit-credit method. The main assumptions used by independent actuary were as follows:

	31 December	
	2015	2014
Economic assumptions:		
Annual discount rate	8.75%	8%
Annual basic salary growth rate	10.00%	10.00%
Healthcare cost rate	10.00%	10.00%

The discount rate is used in determining the present value of the post-employment benefits obligation at valuation date. In general, the discount rate correlates with the yield on high quality government bonds that are traded in active capital markets at the reporting date.

The future basic salary growth assumption projects the post-employment benefits obligations starting from the valuation date through the normal retirement age. The basic salary growth rate is generally determined by applying inflation adjustment to payment scales and by taking into account of the years of service.

The Bank's obligation for post-employment benefits for the years ended 31 December 2015 and 2014 was in accordance with the independent actuary reports dated 28 January 2016 and 29 January 2015, respectively.

(Expressed in millions of Rupiah, unless otherwise specified)

33. POST-EMPLOYMENT BENEFITS OBLIGATION (Continued)

e. Sensitivity analysis

Changes in 1 (one) percentage of actuarial assumptions will have the following impacts:

	31 December 2015					
	Defined benefit pension plan		Other long-term compensations		Post-employment healthcare benefits	
	Increase	Decrease	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(401,085)	448,756	(194,605)	218,848	(18,839)	21,320
Basic salary rate (1% movement)	466,563	(424,840)	197,114	(179,472)	-	-
Healthcare cost rate (1% movement)	-	-	-	-	20,850	(18,787)

- f. The Bank expects to pay Rp 187,487 in contribution to its defined contribution pension plan in 2016.
- g. The weighted-average duration of the defined benefits obligation was 8 (eight) years as of 31 December 2015.

34. CUSTODIAL SERVICES

The Bank's Custodial Services Bureau obtained its license to provide custodial services from the Capital Market Supervisory Agency (Bapepam, currently Financial Services Authority or "OJK") under its Decision Letter No. KEP-148/PM/1991 dated 13 November 1991.

The services offered by the Bank's Custodial Services Bureau include safekeeping, settlement and transaction handling, income collection, proxy, corporate action, cash management, investment recording/reporting and tax reclamation.

As of 31 December 2015 and 2014, assets administered by the Bank's Custodial Services Bureau consist of shares, bonds, time deposits, certificate of deposits, commercial papers and other money market instruments amounting to Rp 27,073,511 and Rp 26,544,714, respectively.

38. NET OPEN POSITION

The Bank's net foreign exchange positions (Net Open Position or "NOP") as of 31 December 2015 and 2014 were calculated based on prevailing Bank Indonesia Regulations. Based on those regulations, banks are required to maintain the NOP (including all domestic and overseas branches) at the maximum of 20% (twenty percent) of capital.

The aggregate NOP represents the sum of the absolute values of (i) the net difference between assets and liabilities denominated in each foreign currency and (ii) the net difference of receivables and liabilities of both commitments and contingencies recorded in the administrative account (administrative account transactions) denominated in each foreign currency, which are all stated in Rupiah. The NOP for statement of financial position represents the sum of the net differences of assets and liabilities on the statement of financial position for each foreign currency, which are all stated in Rupiah.

39. CAPITAL MANAGEMENT

The primary objective of the Bank's capital management policy is to ensure that the Bank has a strong capital to support the Bank's current business expansion strategy and to sustain future development of the business, to meet regulatory capital adequacy requirements and also to ensure the efficiency of the Bank's capital structure.

The Bank prepares the Capital Plan based on assessment of and review over the capital situation in terms of the legal capital adequacy requirement, combined with current economic outlook assessment and the result of stress testing method. The Bank will continue to link financial goals and capital adequacy to risk appetite through the capital planning process and stress testing and assess the businesses based on Bank's capital and liquidity requirements.

The Bank's capital needs are also planned and discussed on a routine basis, supported by data analysis.

The Capital Plan is prepared by the Board of Directors as part of the Bank's Business Plan and approved by the Board of Commissioners. This plan is expected to ensure an adequate level of capital with an optimum capital structure.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2015 AND 2014

(Expressed in millions of Rupiah, unless otherwise specified)

39. CAPITAL MANAGEMENT (Continued)

Bank Indonesia Regulation No. 15/12/PBI/2013 dated 12 December 2013 requires all banks in Indonesia to meet the Capital Adequacy Ratio (“CAR”) in accordance with the risk profile at a minimum of 10% (ten percent).

Bank Indonesia Circular Letter No. 11/3/DPNP dated 27 January 2009 requires all banks in Indonesia with certain qualification to take into account operational risk in the CAR calculation.

Bank Indonesia Regulation No. 8/6/PBI/2006 dated 30 January 2006 and Bank Indonesia Circular Letter No. 8/27/DPNP dated 27 November 2006 requires all banks to meet CAR requirements for the bank on an individual and consolidated basis. The calculation of minimum CAR on consolidated basis is performed by calculating capital and Risk-Weighted Assets (“RWA”) based on risks from consolidated financial statements as provided in the prevailing Bank Indonesia Regulations.

The Bank calculates its capital requirements based on the prevailing Bank Indonesia Regulations as of 31 December 2015, where the regulatory capital consisted of two tiers:

- Core Capital (Tier 1), which includes:
 1. Common Equity (CET 1), which includes issued and fully paid-up capital (after deduction of treasury stock), additional paid-up capital, allowable non-controlling interest and deductions from Common Equity.
 2. Additional Core Capital
- Supplementary Capital (Tier 2), which includes share investment or other allowable instruments, agio or disagio from supplementary capital issuance, required general allowance for productive assets (maximum of 1.25% RWA credit risk), specific reserve and deductions from tier 2 capital.

The CAR as of 31 December 2015 and 2014, calculated in accordance with the prevailing Bank Indonesia Regulations, taking into account the credit risk, market risk and operational risk, were as follows:

	31 December 2015		31 December 2014	
	Bank	Consolidated	Bank	Consolidated
I. Core Capital (Tier 1)	83,683,732	87,614,207	64,370,108	66,729,621
II. Supplementary Capital (Tier 2)	4,203,541	4,312,664	3,470,098	4,231,476
Total Capital	87,887,273	91,926,871	67,840,206	70,961,097
Risk-Weighted Assets based on risk				
RWA Credit Risk	407,553,481	417,201,368	349,020,747	357,227,347
RWA Market Risk	909,386	968,663	52,930,005	54,202,668
RWA Operational Risk	62,778,880	64,913,468	507,392	235,863
Total RWA	471,241,747	483,083,499	402,458,144	411,665,878
CAR in accordance with risk profile	9.99%	9.99%	9.99%	9.99%
CAR				
CET 1 ratio	17.76%	18.14%	15.99%	16.21%
Tier 1 ratio	17.76%	18.14%	15.99%	16.21%
Tier 2 ratio	0.89%	0.89%	0.87%	1.03%
Total Ratio	18.65%	19.03%	16.86%	17.24%

Total	420,038	372,977

Rental Agreement with PT Grand Indonesia

On 11 April 2006, the Bank signed a rental agreement with PT Grand Indonesia (a related party), in which the Bank agreed to lease, on a long-term basis, the office space from PT Grand Indonesia with a total area of 28,166.88 sqm at an amount of USD 35,631,103.20, including Value Added Tax ("VAT"), with an option to lease for long-term additional space of 3,264.80 sqm at an amount of USD 4,129,972, including VAT. This rental transaction had been approved by the Board of Directors and Shareholders in the Bank's Extraordinary General Meeting of Shareholders on 25 November 2005 (the minutes of meeting was prepared by Notary Hendra Karyadi, S.H., with Deed No. 11). This rental agreement started on 1 July 2007 and will end on 30 June 2035.

The Bank was required to pay an advance of USD 3,244,092.50 on 5 December 2005, including VAT and 10 (ten) installments of USD 3,238,701.07, including VAT, for the period of 15 April 2006 to 31 December 2006.

(Expressed in millions of Rupiah, unless otherwise specified)

41. TRANSACTIONS AND BALANCES WITH RELATED PARTIES (Continued)

Rental Agreement with PT Grand Indonesia (continued)

As of 31 December 2006, the Bank had paid USD 32,392,402.13, including VAT and it was recorded as other assets. On 2 January 2007, the Bank settled the payments (paid the tenth installment) amounting to USD 3,238,701.07, including VAT.

On 29 June 2007, the Bank paid the lease for additional space in the 28th and 29th floors of 3,264.80 sqm at an amount of USD 4,129,972, including VAT.

This agreement was notarized by Notary Hendra Karyadi, S.H., under Deed No. 14 dated 11 April 2006.

Starting May 2008, the Bank has calculated the amortization for those prepaid rental expenses. As of 31 December 2015 and 2014, amortization of prepaid rental expenses was Rp 98,727 and Rp 86,765, respectively, such that the remaining prepaid rental payment to PT Grand Indonesia as of 31 December 2015 and 2014 was Rp 264,602 and Rp 277,649, respectively, which was recorded as other assets.

On 24 October 2008, the Bank paid security deposits for additional space on the 30th and 31st floors of 3,854.92 sqm at an amount of USD 208,165.68. This agreement was notarized in Deed No. 110 dated 22 May 2008 of Notary Dr. Irawan Soerodjo, S.H., M.Si.

Rental payment for the 30th and 31st floors started on 1 August 2009, for which in accordance with the agreement between the Bank and PT Grand Indonesia, starting from the first rental payment date (1 August 2009), the Bank will make the rental payments on a quarterly basis until the lease expires.

On 19 July 2011, the Bank paid security deposits for additional space on the 32nd floor of 1,932.04 sqm at an amount of USD 118,801.46. This agreement was notarized in Deed No. 32 dated 12 September 2011 of Notary Lim Robbyson Halim, S.H., M.H., replacement of Notary Dr. Irawan Soerodjo, S.H., M.Si., Notary in Jakarta.

Rental payment for the 32nd floor started on 1 September 2011, for which in accordance with the agreement between the Bank and PT Grand Indonesia, starting from the first rental payment date (1 September 2011), the Bank will make the rental payments on a quarterly basis until the lease expires.

On 22 June 2015, the Bank paid security deposits for additional space on the 33rd floor of 1,932.04 sqm at an amount of USD 231,844.80. This agreement was notarized in Deed No. 413 dated 30 June 2015 of Notary Dr. Irawan Soerodjo, S.H., M.Si., Notary in Jakarta.

Rental payment for the 33rd floor started on 1 September 2015, for which in accordance with the agreement between the Bank and PT Grand Indonesia, starting from the first rental payment date (1 September 2015), the Bank will make the rental payments on a quarterly basis until the lease expires.

44. GOVERNMENT GUARANTEE SCHEME ON THE OBLIGATIONS OF DOMESTIC BANKS

Based on the Law No. 24 regarding Indonesia Deposit Insurance Corporation (*Lembaga Penjaminan Simpanan* or "LPS") dated 22 September 2004, effective 22 September 2005, the LPS was established to provide guarantee on certain obligations of commercial banks based on the prevailing guarantee schemes, in which the guarantee amount could be changed if certain prevailing criteria are met. The law was changed with the Government Regulation as the Replacement of Law No. 3 Year 2008, which was then changed to a law since 13 January 2009 i.e. the Law of Republic of Indonesia No. 7 Year 2009.

Based on Government of Republic of Indonesia Regulation No. 66/2008 dated 13 October 2008 regarding the deposit amount guaranteed by LPS, on 31 December 2015 and 2014, the deposit amount guaranteed by LPS for every customer in a bank is at a maximum of Rp 2,000.

As of 31 December 2015 and 2014, the Bank was the participant of this guarantee scheme.

45. NEW REGULATIONS ISSUED

New regulations which have been issued and will have significant impact to the Bank and Subsidiaries' business activities are as follows:

- PBI No. 15/12/PBI/2013 dated 12 December 2013 regarding the CAR for Commercial Banks. Bank Indonesia requires banks to meet the CAR with the required minimum percentage in stages, as follows:
 - 2014
 - Common equity Tier 1 ratio at minimum of 4.50% from RWA, both individually and at consolidated level.
 - Core capital ratio at minimum of 6.00% from RWA, both individually and at consolidated level.
 - The minimum requirement for common equity Tier 1 and core capital ratios are still using components as stated in Bank Indonesia Regulation No. 14/18/PBI/2012 regarding the CAR for Commercial Banks.

45. NEW REGULATIONS ISSUED (Continued)

- POJK No. 17/POJK.03/2014 dated 18 November 2014 regarding Implementation of Integrated Risk Management of Financial Conglomeration.
 - A Financial Conglomeration, which comprised of Financial Service Institutions (“LJK”) that are managed under one group or conglomeration because of their relationships due to ownership and/or control, is required to implement a comprehensive and effective Integrated Risk Management. In implementing the Integrated Risk Management, Financial Conglomeration has a structure of a Principal Entity and subsidiaries, and/or affiliated entities as well as their subsidiaries.
 - The implementation of Integrated Risk Management shall include at least:
 - a. Monitoring by Board of Directors and Board of Commissioners of the Principal Entity;
 - b. Adequacy of policies, procedures and limit determination of Integrated Risk Management;
 - c. Adequacy of integrated process on the identification, measurement, monitoring and control the risks, as well as Integrated Risk Management information systems; and
 - d. Comprehensive internal control systems on the implementation of Integrated Risk Management.
 - The Principal Entity is required to establish an Integrated Risk Management Committee and Risk Management Working Unit and to prepare an integrated risk profile report on a semi-annual basis i.e., every end of June and December. The report is to be submitted to OJK at the latest by the 15th (fifteenth) of the second month after the end of the abovementioned month end.
 - The requirement to submit risk profile report will start for the first time for the reports as of the following position:
 - a. June 2015, for Principal Entity that is a bank categorized as BUKU 4;
 - b. December 2015, for Principal Entity that are banks other than BUKU 4 and non-banks.
- POJK No. 18/POJK.03/2014 dated 18 November 2014 regarding Implementation of Integrated Governance of Financial Conglomeration.
 - The Principal Entity is required to implement an Integrated Governance. Such implementation at the minimum includes the requirements of Board of Directors and Board of Commissioners of the Principal Entity, role and responsibility of Integrated Governance Committee, role and responsibility of integrated compliance working unit, role and responsibility of integrated internal audit working unit, implementation of integrated risk management, and the preparation and implementation of the Guidance of Integrated Governance. The Directors of the Principal Entities is required to ensure the implementation of the Integrated Governance in the Financial Conglomeration.
 - Principal Entity is required to submit the report on LJK that becomes the Principal Entity and LJK that becomes members of a Financial Conglomeration to OJK. The report is required to be submitted at the latest by the 20th (twentieth) working days after the formation of a new Financial Conglomeration, and includes the selection of the Principal Entity, changes to the Principal Entity, changes to members of Financial Conglomeration and/or the discharge of a Financial Conglomeration.
 - Reports regarding LJK that become Principal Entity and LJK that become members of a Financial Conglomeration should be submitted for the first time at the latest by 31 March 2015.

45. NEW REGULATIONS ISSUED (Continued)

- POJK No. 30/POJK.03/2014 dated 19 November 2014 regarding Good Governance for Financing Company.
 - The financing company should follow the basic concepts of good corporate governance, including transparency, accountability, responsibility, independency and fairness. A guidance and standard operating procedures should be prepared to perform these principles. Besides, the main parties of financing company, i.e., controlling shareholder, directors, commissioners, expatriates and sharia supervisory board (if any) are required to complete the fit and proper test conducted by OJK before occupying the position.
 - A financing company with assets of more than Rp 200 billion should have at least 3 (three) directors, 2 (two) commissioners, 1 (one) Independent Commissioner, an Audit Committee, and a function that assists the Commissioner to monitor and ensure the effectiveness of internal control system and the implementation of internal and external auditors' duties. A financing company with assets of less than Rp 200 billion should have at least 2 (two) directors.
 - This POJK became effective on 1 January 2015.
- POJK No. 6/POJK.03/2015 dated 31 March 2015 regarding Transparency and Publication of the Bank's Reports.
 - To improve the transparency of financial conditions and inline with the implementation of Basel II and Basel III, the Bank is required to disclose the type of risks and potential losses, risk management practices applied, more detailed components of capital, as well as additional capital requirement on top of the capital ratio in accordance with Bank's risk profile report.
 - In quarterly publication report, banks included in "BUKU 3" and "BUKU 4" are required to disclose additional information about capital in accordance with the Composition of Capital Disclosure Requirements document issued by the Basel Committee on Banking Supervision that will be effective for statements of financial position for the end of December 2015.
 - This POJK became effective on 1 April 2015.

Independent Auditor's Report

No. 1,17 - (2016 - 10/10/2016)

The Members,
 The Board of Commissioners and Board of Directors
 FT Real Capital Adv. Inc.

We have audited the consolidated financial statements of FT Real Capital Adv. Inc. and its subsidiaries, which comprise the consolidated statement of financial position as of 31 December 2015, and the consolidated statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the International Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements free and true from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with standards on auditing established by the International Board of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control related to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material aspects, the consolidated financial position of PT Bank Central Asia Tbk and its subsidiaries as of 31 December 2023, and their consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Other matter

The audit was performed for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The supplementary information included in Appendix 3 to 6, which comprises the summary of financial position (condensed company only) as of 31 December 2023, and the related statements of comprehensive income, changes in equity, and cash flows for the same year ended, is prepared on the basis of additional analysis and is not a required part of the consolidated financial statements under Indonesian Financial Accounting Standards. Such information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, is fairly stated, in all material aspects, in relation to the consolidated financial statements taken as a whole.

Supervisory Board of
PT Bank BCA Syariah)

Sutedjo Prihatono (47 years) has served as member of the Integrated Governance Committee of BCA since 30 June 2015. Currently he also serves as the member of Syariah Supervisory Board of PT Bank BCA Syariah. Before joining BCA Syariah, he developed his career at PT Bank Muamalat Indonesia Tbk as Senior Corporate Banking (1993-2004), then he held the position as Director at Karim Business Consultant (2004-2014). In 2010-2015, he was appointed as member of the Audit Committee and Risk Oversight Committee at PT Bank BCA Syariah. He completed his bachelor's degree from Economics Faculty, Management Department, Universitas Krisnadwipayana (1993) and Master of Management from Binus Business School (2014).

Corporate Secretary Profile

Inge Setiawati
Corporate Secretary

Inge Setiawati (aged 48) domiciled in Indonesia was appointed as the Corporate Secretary of BCA on August 1, 2011. Her career with BCA began in 1990 as a trainee in BCA's Management Development Program, Mrs. Setiawati was then assigned as Head of the Export Import Unit at the Matraman Main Branch Office, Jakarta (1991-1992). Throughout her career, she has occupied a number of managerial positions in several branch offices of BCA, as Head of Sub Branch (1992-1994), Deputy Head of Main Branch (1995-1998), and Head of Main Branches (1998-2011). Mrs. Setiawati earned a bachelor's degree in Architecture from the Bandung Institute of Technology, and completed her master's degree in Financial Management at the Faculty of Economics, University of Indonesia. She has also received training in law, accounting and corporate secretarial practices.
