DELIVERING VALUE DURING A TRANSITION PERIOD

2014 was a year of both political and economic transition for Indonesia marked by high volatility in the foreign exchange and capital markets and continuing pressure on commodity prices.

4

The solid foundation laid by the previous government provides a sound basis for facing the macro economic issues now impacting the Indonesian economy. The new administration is taking steps to address these issues, including the reallocation of a large part of the fuel subsidy budget to other strategic areas, that should pave the way for future sustainable economic development.

New challenges for the Indonesian banking industry surfaced in 2014 as the result of a slowing economy and tightening liquidity which both limited the capacity for loan growth and led to higher sector NPL's. BCA successfully maintained its solid performance and delivered value to its stakeholders throughout this transition year by boosting liquidity and maintaining prudential lending guidelines.

ANTICIPATING MARKET DYNAMICS

2014 was a year that required paying close attention to economic, political and regulatory transitions.

BCA prudently and cautiously executed a number of well-planned and well-managed steps to guide the Bank through the external uncertainties, prioritizing the Bank's liquidity position, credit quality and capital adequacy. The Bank continued to show resilience and an ability to adapt to the challenging environment.

Liquidity

Third party funds of

Rp448 T

The Bank maintained an ample liquidity position through stable and low-cost CASA funds and by proactively adjusting time deposit rates while remaining within the interest rate parameters set by the regulators.

Quality Lending

NPL ratio of

0.6%

Third biggest lending bank in Indonesia.

The Bank posted healthy lending growth of 11% while maintaining a low NPL ratio through prudent lending practices.

Capital adequacy

CAR ratio of

16.9%

Sound capital position built on a solid Tier 1 capital base.

Delivering strong returns with ROA of 3.9% and ROE of 25.5%.

MAINTAINING CUSTOMER TRUST

Customers are the driving force behind BCA's success and are the reason the Bank is committed to delivering the most convenient and highest quality service.

The uncertain environment in 2014 provided an opportunity for BCA to enhance customer relationships by offering quality financial products and services to cater to the transaction and financing needs of BCA's customers.

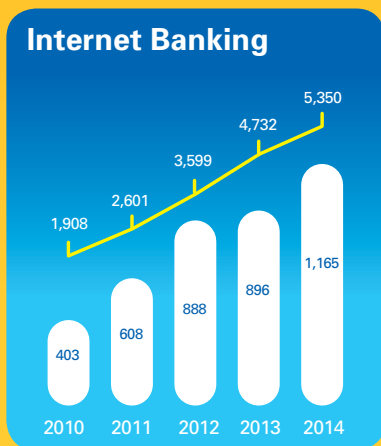

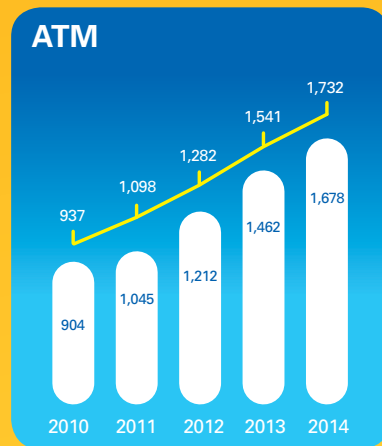

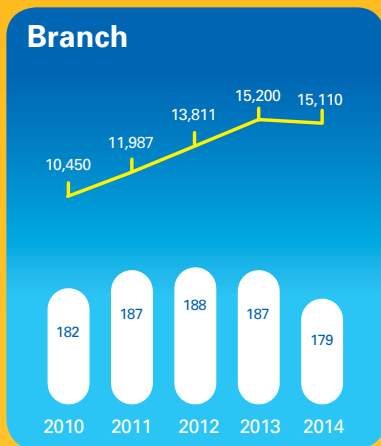

BCA is committed to being the bank of choice for customers by delivering the best possible services through its extensive branch network and convenient electronic channels. BCA's electronic delivery channels have played an increasingly important role in transaction services in recent years in line with the rapid development of technology and electronic communications.

Recognition of the quality of BCA's products and services is reflected in the number of prestigious awards bestowed on BCA in 2014...

Vision, Mission and Core Values

Vision

**To be the bank of choice and
a major pillar of the
Indonesian economy**

10

Mission

- To build centers of excellence in payment settlements and financial solutions for businesses and individuals
- To understand diverse customer needs and provide the right financial services to optimize customer satisfaction
- To enhance our corporate franchise and stakeholders value

The vision and mission statements have been approved by the Board of Directors and the Board of Commissioners of PT Bank Central Asia Tbk through Decree No. 022/SK/DIR/2006 dated February 23, 2006, concerning Vision and Mission of PT Bank Central Asia Tbk

Core Values

Milestones

1955

Bank Central Asia (BCA) founded as "NV Perseroan Dagang Dan Industrie Semarang Knitting Factory."

1970's

BCA strengthens its delivery channels and obtained a license to open as a Foreign Exchange Bank in 1977.

1957

BCA commenced operations on 21st February 1957 with Head Office located in Jakarta.

1980's

BCA aggressively expanded its branch network in line with the deregulation of the Indonesian banking sector.

BCA developed its information technology capacity, by establishing an online system for its branch office network, and launches new products and services including the Tahapan BCA savings accounts product.

1990's

BCA develops the Automated Teller Machine (ATM) network as an alternative delivery channel.

In 1991, BCA installed 50 ATM units in various locations in Jakarta.

BCA intensively develops the ATM network and features.

BCA works with well-known institutions, such as PT Telkom and Citibank, allowing BCA's customers to pay their Telkom phone bill or Citibank credit card bill through BCA ATMs.

1997-1998

BCA experiences a bank rush during the Indonesian economic crisis.

In 1998 BCA became a Bank Taken Over (BTO) and was placed under the recapitalization and restructuring program operated by the Indonesian Bank Restructuring Agency (IBRA), a Government Institution.

1999

BCA was fully recapitalized with the Government of Indonesia, through IBRA, assuming ownership of 92.8% of BCA shares in exchange for liquidity support from Bank Indonesia and a swap of related-party loans for Government Bonds.

Corporate actions highlights in 2000-2005

2000

IBRA divested 22.5% of its BCA shares through an Initial Public Offering, reducing its ownership of BCA to 70.3%.

2001

In a Secondary Public Offering, 10% of BCA's total shares were made available to the market. IBRA's ownership of BCA decreased to 60.3%.

2002

Farlindo Investment (Mauritius) Limited acquired 51% of BCA's shares through a strategic private placement.

2004

IBRA divested a further 1.4% of its BCA shares to domestic investors through a private placement.

2005

The Government of Indonesia through PT Perusahaan Pengelola Aset (PPA), divested the remaining 5.02% of its BCA shares and no longer has share ownership in BCA.

Note: There has been dilution effect to existing shareholders as new shares were issued in accordance with the Management Stock Option Plan, in which stock options were executable in the period from November 2001 to November 2006

Business development after 2000

BCA strengthens and develops its products and services, especially in electronic banking, by launching Debit BCA, Tunai BCA, KlikBCA internet banking, m-BCA mobile banking, EDCBIZZ, etc.

BCA establishes a Disaster Recovery Center in Singapore.

BCA develops expertise in lending, including expansion into vehicle financing through its subsidiary, BCA Finance.

2010-2013

BCA enters new lines of business including Sharia banking, motorcycle financing, general insurance and the capital markets business. In 2013, BCA increased its effective ownership from 25% to 100% in its general insurance arm PT Asuransi Umum BCA (formerly PT Central Sejahtera Insurance and also known as BCA Insurance).

2014

The Electronic Banking Center concept refined and rebranded under the name MyBCA, equipped with HaloBCA video conference and various video banking services.

In January 2014, BCA finalized share purchase of PT Central Santosa Finance (CS Finance), a subsidiary engaged in two-wheeler financing, increasing the Bank's effective ownership of CS Finance from 25% to 70%.

2007

BCA became a pioneer in introducing fixed-rate mortgage products. BCA launches its stored-value card, Flazz Card, and introduced Weekend Banking to maintain its transaction banking leadership.

BCA strengthens its transaction banking through further development of innovative products and services, notably with mobile banking applications in the latest Smartphones, with payment settlement services through e-Commerce, and through a new concept of Electronic Banking Center which equips ATM Centers with additional technology-backed features.

BCA obtained permission to provide life insurance services through PT Asuransi Jiwa BCA (BCA Life), which operates as a subsidiary of BCA Sekuritas.

BCA continues to lend prudently to support the funding needs of existing customers during a year of economic and political uncertainty.

2008-2009

BCA proactively manages its lending and liquidity position in the face of unprecedented global turbulence while continuing to strengthen the core transaction banking franchise.

Enhancing the reliability of its banking services, BCA completes a new Disaster Recovery Center (DRC) facility in Surabaya which functions as a disaster recovery backup data center, integrated with the current two mirroring data centers. The new DRC replaced the previous DRC in Singapore.

BCA completes the setting up of a mirroring IT system to strengthen business continuity and reduce operational risk.

BCA introduces Solitaire, a new banking service for high net-worth individual customers.

All numbers in this document use English notation.

- Including temporary syirkah funds amounting to Rp 1,952 billion in 2014, Rp 1,444 billion in 2013, Rp 1,029 billion in 2012, Rp 716 billion in 2011 and Rp 460 billion in 2010.
- Third party funds excluding deposits from other banks.
- Funds borrowings including deposits from other banks.
- The majority of debt securities issued represent bonds issued by BCA Finance, a subsidiary of the Bank that is engaged in 4-wheeler financing.
- The impact of the consolidation of the subsidiaries, BCA Insurance and Central Santosa Finance on Interest Income, Operating Income other than Interest and Operating Expenses can be seen in the Financial Review, pages 176–180. BCA Insurance was consolidated in September 2013 in line with the increase in the Bank's effective ownership to 100%, and Central Santosa Finance was consolidated in January 2014 after BCA's effective ownership increased to 70%.
- For 2011 and 2010, including provision/recovery of impairment losses on non financial assets and provision for estimated losses on administrative account transactions (mainly reserves for unused loan facilities).

Report of the Board of Commissioners

Djohan Emir Setijoso
President Commissioner

To our respected Shareholders,

We are pleased to report that BCA posted solid performance in 2014 and consistently delivered value to stakeholders in the face of a rapidly changing environment. Throughout a period of both economic and political transition for Indonesia in 2014, BCA successfully maintained a steady balance between short-term targets and long-term objectives, laying a strong foundation for future development. The Board of Directors prudently and cautiously conducted a number of well-planned and well-managed activities to guide the Bank through external uncertainties by prioritizing liquidity, credit quality and capital adequacy.

ECONOMIC REVIEW OF 2014

In the midst of continuing turmoil in the global economy, Indonesia posted a moderate Gross Domestic Product (GDP) growth of around 5% for the year 2014. The pace of economic growth has slowed to less than 6% over the past two years, reflecting the economic re-balancing process Indonesia is now experiencing. Even so, Indonesia's large and increasingly wealthy domestic consumer base continued to support healthy economic growth, allowing Indonesia to achieve a higher growth rate than most of its G-20 counterparts.

Since late 2011, Indonesia has faced widening trade and current account deficits. These deficits, due mostly to the steady decline of major export commodity prices, an

increased reliance on imported oil and slowing growth in some of Indonesia's main export markets, have led to increased uncertainty in the Indonesian financial markets.

Highly volatile foreign investment continued to represent a large portion of the interest in the Indonesian financial markets throughout 2014. The Quantitative Easing initiative and low interest rate policy implemented by the US in the wake of the 2008 global financial crisis led to an increase in liquidity in global markets, which flowed as capital into developing countries, including Indonesia, as economic capital sought higher returns. This inflow of foreign capital into Indonesia led to a national liquidity position that supported the relatively low interest rate environment experienced in Indonesia from 2009 to 2012. Beginning in 2013, the international market became increasingly volatile in anticipation of the tapering of Quantitative Easing with indications that tapering would begin in 2013 and the actual implementation of tapering and end of Quantitative Easing realized throughout 2014. In addition, the depreciation of the Russian Ruble and the repositioning of assets globally in relation to the fall of oil prices created more volatility in global investment funds. As such, this instability in the flow of funds along with Indonesia's current account deficit led to increased volatility and a weakening of the Rupiah in 2014.

In order to maintain macro-economic stability, in November of 2014 the newly elected Indonesian Government implemented a bold fiscal initiative in the form of a reduction of the fuel subsidy. We are confident that the Government's plans to shift focus from fuel subsidy spending, which is consumptive by nature, towards development of infrastructure, healthcare and education spending is a strategy that promises to yield greater long-term results. This initiative is also vital for the improvement of the oil & gas trade deficit, which will help to rebalance Indonesia's current account deficit. In line with the reduction in the fuel subsidy, and in anticipation of increased inflationary pressure, Bank Indonesia prudently took the proactive decision to raise interest rates in 2014. As a follow up, the new Indonesian Government announced at year end 2014 the elimination of all fuel subsidies for gasoline with a set subsidy maintained for diesel fuel and kerosene.

Through these prudent fiscal and monetary initiatives, Indonesia has achieved stronger economic fundamentals with the potential to regain control over the current account deficit, strengthen the structure of the national budget, and improve its capability to maintain stable inflation and Rupiah exchange rates. All of these factors play an important role in Indonesia's long-term economic growth and the national banking industry's performance.

In the face of the macroeconomics volatility in 2014, the overall capital base proved strong for both BCA and Indonesia's banking industry in general. Although NPL rates indicated a marginal increase throughout the banking sector, credit quality remained within manageable limits and the Bank Indonesia & Financial Services Authority (OJK) guidelines. Indonesia entered a new liquidity environment in 2014, marked by the industry Loan to Deposit Ratio (LDR) reaching roughly 90%, compared with 78.8% three years ago. This placed more limits on lending in the banking industry and led to a tighter competition for third party funds. Stringent monetary policy along with regulatory efforts to control

credit growth rate successfully secured a stronger overall sector liquidity position by the end of 2014 when compared to the beginning of the year.

Following the smooth, albeit with some disruptions, presidential election, the new administration under President Joko Widodo took positive steps at the end of 2014. These steps were intended to stimulate the economy by focusing targeted government spending in 2015 on areas of the economy that have lagged in the past. We believe this focus is positive and that economic growth will accelerate in the years to come.

BCA is optimistic that the Indonesian Government, Financial Services Authority, and Bank Indonesia will continue to take the necessary steps to guide the Indonesian economy and banking industry in a positive direction even with challenging external pressures that show signs of persisting into 2015. A long-term approach to economic management is essential to address external pressures and the issues faced by the Indonesian economy. BCA is confident in the country's capacity to implement policies to mitigate expected continued turmoil in global markets and pressures on the domestic market.

PERFORMANCE REVIEW OF THE BOARD OF DIRECTORS

On behalf of the Board of Commissioners, I am pleased to report that the Board of Directors executed their various functions smoothly and implemented sound initiatives to maintain a healthy balance between profitability, liquidity, and asset quality. By maintaining balanced focus on both short-term and long-term objectives, BCA was able to achieve strategic targets in line with the Bank's vision and mission.

Throughout 2014, BCA was prudent in its lending activity in light of the uncertain economic and political environment. Lending was prioritized for businesses that had existing relationships with the Bank and exhibited a positive business and borrowing track record. Through

a process of structured monitoring of credit quality, the Bank maintained openness to align its work programs with the credit market climate. Following the smooth presidential election and the credit climate showed signs of stabilizing, BCA increased its lending activities while maintaining its prudent lending profile. In the consumer segment, BCA proactively managed credit growth by adjusting interest rates, particularly mortgage loan rates, up in the first quarter of 2014 and then reducing rates slightly in September 2014.

In the Bank's various business activities, BCA management demonstrated strong commitment and a disciplined approach to maintaining a solid liquidity position. BCA continuously works to strengthen the capabilities of its core business as a leading provider of transaction solutions. Through its transaction banking services, BCA was able to generate stable liquidity based on low cost of funds from Current Accounts and Savings Accounts (CASA), which contributed the bulk of BCA's total third party funds. In 2014, BCA was able to record a moderate CASA growth of 4.2% in spite of slowing business activities. BCA is one of the most innovative players in transaction banking. With the expected improvement in the growth rate of the Indonesian economy, BCA will be in a strong position to serve the increased demand for transaction services which will provide a strong platform for CASA funds growth.

Throughout 2014, BCA took proactive steps to increase third party funds from time deposits by selectively increasing interest rates on certain categories of time deposits in order to maintain an overall solid liquidity position. Time deposits grew strongly in 2014 as a result of this policy and supported the overall third party funds. The Board of Commissioners is pleased to see a solid 9.4% growth in total third party funds.

As a leading bank in Indonesia, BCA continues to develop long-term competencies and assess opportunities for

business development that can build a more complete portfolio of products and solutions for BCA customers. The Board of Commissioners supports the steps taken by the Board of Directors to build and develop the Bank's new life insurance business which began operations at the end of 2014. BCA also continues to support and strengthen the activities of its other subsidiaries operating in vehicle financing, Sharia banking, general insurance, remittance and securities. Through these subsidiaries, BCA is able to offer a wide varied range of products to the Bank's customers which in turn strengthens relations between BCA and its customers.

The results of the efforts of the Board of Directors in 2014 are represented by BCA's solid financial performance. BCA successfully booked a healthy lending growth of Rp 34.3 trillion, a 11.0% increase year on year, accompanied by solid credit quality and a strong liquidity position. Non Performing Loans (NPL) ratio was low at 0.6% while the Loan to Deposit Ratio (LDR) remained healthy at around 76.8%. Net Income in 2014 grew by 15.7% to Rp 16.5 trillion, and earnings per share reached Rp 669, with a Return on Assets (ROA) of 3.9% and Return on Equity (ROE) of 25.5%. The Capital Adequacy Ratio (CAR) stood at 16.9% as of December 2014 compared to 15.7% as of December 2013, reinforcing BCA's strong capital position.

IMPROVING GOOD CORPORATE GOVERNANCE

Amidst the increasing challenges facing the banking industry in Indonesia, the consistent application of Good Corporate Governance (GCG) is essential in nurturing trust amongst the customers, shareholders and the Bank's other stakeholders. Implementing GCG principles throughout the organization helps BCA protect its reputation while also ensuring sound business performance.

The Board of Commissioners works closely with the Board of Directors to monitor and enhance GCG

practices to meet current regulations and expectations. BCA endeavors to continuously develop its GCG practice to align with the standards of the ASEAN Corporate Governance Scorecard. The principles of transparency, accountability, responsibility, independence, and fairness are major guidelines for managing the Bank's business.

We are satisfied that BCA has implemented sound risk management practices and effective internal control systems. The implementation was made in accordance with business policies, the size and complexity of the business, and the ability to meet requirements and procedures as set out in the statutes and regulations of Bank Indonesia and Indonesia Financial Services Authority. With the implementation of reliable risk management and internal control systems, BCA can mitigate the possible negative impact of the risks the Bank faces in the course of business.

In order to monitor and improve GCG implementation, the Bank regularly conducts self-assessments to measure performance against regulations set by Bank Indonesia. The Board can report that self-assessment results for GCG performance in 2014 achieved a rating result of "Very Good".

For its commitment in implementing Good Corporate Governance, BCA has been awarded with various awards and acknowledgements including Finance Asia's "Asia's Best Companies 2014 – Best Corporate Governance", "The Most Trusted Companies 2014" from SWA and Indonesia Institute for Corporate Governance (IICG); and "Best Financial Sector – Corporate Governance Award" from Indonesia Institute for Corporate Directorship (IICD).

CHANGES TO THE BOARD OF COMMISSIONERS AND THE BOARD OF DIRECTORS

In 2014 there were no changes to the Board of Commissioners. Within the Board of Directors, Mr. Renaldo Hector Barros resigned as Director in 2014. The 2014 Annual General Meeting of Shareholders (AGM) selected Mr. Rudy Susanto as the newest addition to the Board of Directors.

On behalf of the Board, I wish to thank Mr. Renaldo Hector Barros for his 11 years of service as both a member of the Board of Directors and the Board of Commissioners. We also welcome Mr. Rudy Susanto as Director.

We further report that, in compliance with the new regulation as specified in the Decision of the Board of Directors of the Indonesia Stock Exchange and without reducing the independence of other Directors, the AGM also appointed Mr. Erwan Yuris Ang, a member of the Board of Directors of BCA, as an Independent Director of the Bank.

PERFORMANCE REVIEW OF COMMITTEES UNDER THE BOARD OF COMMISSIONERS

The Board is assisted in its activities by the Audit Committee, the Risk Oversight Committee, and the Remuneration & Nomination Committee. Throughout 2014, these committees performed their respective duties effectively and satisfactorily and provided significant support to the Board of Commissioners in carrying out their duties to oversee business and operational activities.

The role of the Audit Committee is to ensure the adequacy and viability of internal control, including the adequacy of the financial reporting process. The Audit Committee has conducted reviews of the Bank's business reports and met with several parties, including the Internal Audit Division, the Finance and Planning Division and the external auditor KAP Siddharta Widjaja & Rekan (a member firm of KPMG), as part of their oversight process. The Audit Committee also visited work units at the headquarter and branches for field checks and to verify compliance with policy.

To ensure that the risk management activities provide sufficient protection from the various risks faced by the Bank, the Risk Oversight Committee conducted reviews, observations and evaluations of a number of operational and risk management activities. Meanwhile, the Remuneration and Nomination Committee evaluated the remuneration policies of the Board of Commissioners, the Board of Directors, high-level Bank executives and overall BCA employees.

CORPORATE SOCIAL RESPONSIBILITY

As members of the public, we are proud to see BCA's involvement in socially responsible activities, especially in the areas of small business empowerment, education, culture and health, in support of essential elements in the greater development of Indonesia. BCA works with leading social institutions, such as WWF, UNICEF, and Red Cross Indonesia in order to support the Bank's social activities.

As the economy grows and new opportunities arise, the Bank's comprehensive commitment to social development will continue to develop and improve as BCA continues to increase its contribution to build a solid foundation for the future of Indonesia.

BUSINESS PROSPECTS AS VIEWED BY THE BOARD OF COMMISSIONERS

The Indonesian economy continues to show signs of recent transitions throughout 2014 that are expected to continue into 2015.

We believe that BCA is well poised to navigate this transition. The presidential election and the smooth political transition reconfirms trust in the direction of the country from the global business and consumer perspectives. The solid foundation laid by Mr. Susilo Bambang Yudhoyono's government in conjunction

with new approaches taken by President Joko Widodo on the economy will open business opportunities. We are optimistic that once the local economy gains momentum, BCA will be in a strong position to take advantage of these opportunities.

In 2015, the ASEAN Economic Community will bring new opportunities and challenges to Indonesia's banking industry. Overall, BCA is confident in the long-term prospects of the industry as one of the leading banking markets in ASEAN.

The Board of Commissioners is pleased with the Board of Directors' ongoing efforts to strengthen the Bank's main businesses in the fields of payment settlement and lending within Indonesia and in maintaining BCA's competitive position while addressing the changing dynamics that the ASEAN Economic Community promises to bring. The Board of Commissioners will continue to support the Board of Directors and BCA in its efforts to increase investments in infrastructure, improve internal risk management and strengthen business enablers.

BCA plans to continue developing its multi-business lines through business units and subsidiaries as a part of its strategy to increase its capabilities and product offerings in the long term. The Board of Commissioners works very closely with the Board of Directors throughout these activities to ensure that prudence and caution are always exercised while the Bank adapts to the changing market conditions and the developing financial sector.

APPRECIATION TO ALL STAKEHOLDERS

On behalf of the Board of Commissioners, I want to thank all BCA shareholders, customers, business partners, staffs and other stakeholders for their ongoing supports of the Bank. BCA's success in 2014 could not have been achieved without their support.

The Board of Commissioners appreciates the hard work and the leadership of the Board of Directors throughout 2014 in maintaining stability and delivering solid financial performance. Furthermore, the Board of Commissioners also wishes to thank BCA's subsidiaries for their role in the Bank's success and their contribution to the overall development of BCA.

We are grateful to the regulators, the Indonesia Financial Services Authority and Bank Indonesia, for the direction and support given to the banking industry and to BCA specifically.

With the commitment of all stakeholders, we believe BCA will continue to improve its performance and enhance the benefits it provides to customers, all stakeholders and to the people of Indonesia in the coming years.

Jakarta, March 2015

On behalf of the Board of Commissioners,

Djohan Emir Setijoso
President Commissioner

Report of the Board of Directors

Jahja Setiaatmadja
President Director

Dear Stakeholders and Valued Customers,

2014 was a year of economic and political transition. We are delighted to report that BCA continued to post solid financial results in 2014 due to the realization of various initiatives designed to maintain liquidity and asset quality while providing top quality service to the Bank's customers.

In response to the uncertainties of 2014, BCA's Board of Directors managed the business with caution and sought to strive a balance between opportunities and risk. Going forward, BCA will continue to monitor closely developing economic and political conditions and will take proactive steps to assure sound banking practices and a solid balance sheet.

REVIEW OF THE INDONESIAN ECONOMY

The Indonesian economy has experienced major changes in recent years. From 2008 to 2012, the business environment was supported by strong foreign capital inflows due to the effects of Quantitative Easing in the United States resulting in low domestic and global interest rates. In 2013 and 2014, this environment began to change. Indonesia experienced volatility in foreign capital flows, in the exchange rate and in domestic interest rates as US Federal Reserve Quantitative Easing slowed and finally came to an end. The markets will continue to be volatile in 2015 as market participants monitor interest rates in the US and the possible impact

of an increase in US interest rates on worldwide, and in particular, emerging markets, capital flows.

Recent capital flow volatility coincided with the imbalance between exports and imports in Indonesia, particularly in the oil and gas sector as Indonesia became a large net-importer of energy, leading to a significant current account deficit. In addition, the prolonged downturn in the global economy, with the exception of the US, combined with continued low commodity prices has adversely impacted Indonesia's trade balance. These rapid changes led to lower growth. GDP was reported at 5.0% at year-end compared with the previous year's 5.6%.

As Indonesia faced uncertainty with a widening current account deficit, the Central Bank and the Government took proactive steps to address economic imbalances. These actions included raising interest rates, revamping the fuel pricing policy through the elimination of a large part of the fuel subsidy and stressing prudent lending. These proactive measures are showing signs of leading to a reduction in the current account deficit and mitigating the risk of a hard landing from the recent strong growth years. BCA believes that the Government's actions to consolidate the economy for a soft landing were correct and establish a solid foundation for long-term economic growth.

Although 2014 was a year of uncertainty, it is worth noting that Indonesia remains among the top five G-20 countries for GDP growth, supported by a resilient local economy and a large, dynamic population. Politically, Indonesia closed 2014 with a well-managed and smooth presidential transition, an impressive milestone in the political health of the country. This fair and legitimate election puts Indonesia on a strong footing to move into the next phase of economic development. BCA is optimistic that the nation is on the right trajectory in 2015 for a solid long-term economic growth.

2014 PERFORMANCE: MAINTAINING QUALITY GROWTH

BCA posted positive financial performance, generating added value for its shareholders. The Bank maintained a quality loan portfolio with improving profitability while sustaining solid liquidity and a strong capital position. BCA booked Earnings per Share of Rp 669 in 2014, a 15.7% increase on 2013's Rp 579 per share. A Non Performing Loans (NPL) closed the year at 0.6% and Capital Adequacy Ratio (CAR) at 16.9%. Loan to Deposit Ratio (LDR) stood at 76.8%.

Focus on Liquidity

The tight banking sector liquidity trend evidenced in 2013 continued into 2014. Overall, since 2013 the Indonesian banking sector has experienced a slower pace of growth in third party funds. In particular, Current Accounts and Savings Accounts (CASA) growth has slowed even as loan growth has remained strong. The banking sector LDR peaked at 92.2% in July 2014. Towards the end of 2014, the liquidity condition improved somewhat due to flagging loan demand.

Despite tighter liquidity conditions, BCA maintained a stable liquidity position driven by excellence in transaction banking. This enabled BCA to have a sustainable pool of core funds consisting of CASA. Despite slower economic growth, BCA managed to grow its CASA account balances to Rp 336.4 trillion. CASA comprised the main contributor to the Bank's funding base, accounting for 75.1% of total deposits. We are pleased to report that our transaction banking franchise remained strong, as evidenced by resilient CASA funds throughout 2014, even with no increase in CASA accounts interest rates.

Throughout 2014 and going forward, BCA will continue to cultivate customer confidence by providing high quality, secure and reliable transaction banking services. BCA has been successful in promoting efficient and low-cost electronic delivery channels to strengthen traditional branch banking services. The Bank continues to expand both electronic delivery channels and the traditional branch network. In support of this growth, we continue to improve the Bank's infrastructure, and to develop the products and transaction services that will keep us ahead of the competition.

At BCA we continue to improve ease of access for customers by enhancing the branch network and electronic delivery channels, in particular by increasing the number of branches, Electronic Data Captures (EDCs), and cash withdrawal and deposit machines. Branch network development focuses on strategic locations, such as shopping centers, business centers and rapidly growing residential areas.

BCA is exploring the possibility of establishing smaller branches equipped with electronic banking channels. The Bank remains in the forefront of innovation in the use of new technologies designed to improve customer experience and to maintain the transaction banking business as the prime mechanism for raising CASA funds.

To maintain an overall strong liquidity position in the face of slowing economic growth during 2014, BCA took proactive steps in collecting funds from time deposit products by proactively adjusting interest rates ahead of the market. With this strategy, the Bank was able to keep time deposit interest rates paid by BCA lower than market rates while keeping rates well within guidelines established by the Indonesia Deposit Insurance Corporation and the Indonesia Financial Services Authority. Time deposit balances increased 28.8% to Rp 111.5 trillion at the end of 2014 from Rp 86.6 trillion at the end of 2013.

Total third party funds grew 9.4% to Rp 447.9 trillion by the end of 2014 with a CASA portfolio of Rp 336.4 trillion, an increase of 4.2% from 2013. We are pleased to see the positive trend of total deposits which reinforced our strong funding position and liquidity buffer. Short-term

placements and government bonds accounted for 20.7% of total third party funds in addition to primary reserves, which stood at 8.7% of total third party funds. BCA's LDR ratio was maintained at a healthy level of 76.8%.

Prudence in Lending

The banking sector experienced slower loan growth in 2014 when compared to 2013. Moderate GDP growth, tight liquidity conditions and a higher interest rate environment were seen as the chief constraints that limited loan growth in 2014. Consumer lending slowed dramatically due to higher market interest rates and more prudent government regulations for consumer lending. Rising banking sector NPLs indicated a weaker, though still tolerable, level of asset quality in 2014. In this environment, BCA adopted a cautious approach to lending, with an emphasis on quality and careful consideration both to the liquidity position of the banking sector as a whole and, specifically, to BCA's own liquidity targets.

Relationship banking is central to the Bank's approach to lending. Provision of credit focused on the development of the debtors' businesses, particularly companies that have an established relationship with the Bank as well as established track records in their respective fields. BCA closely monitored the activity of businesses and consumers in order to best align lending activities with changing risk tolerance. The lending process continues to be supported by established lending infrastructure in the branches and head office that is designed to support sustainable high quality loan growth.

Credit administration and real time credit portfolio monitoring capabilities continue to improve in support of sound lending practices. BCA also continues to develop the capacity and capability of its account officers through training and a focus on the balance between marketing skills and risk knowledge.

In 2014 BCA's loan portfolio grew 11.0% to Rp 346.6 trillion, underpinned by growth in lending to the business sector. Thanks to the Bank's prudent lending policy, credit quality was maintained with an NPL level of 0.6% of total loans.

Business Development Through Subsidiaries

In order to enhance customer services, BCA is diversifying its financial services portfolio, offering a wider variety of financial products and services. The Bank expects that this move will result in growing fee-based income, which will become a significant part of future revenue and profitability.

In recent years the Bank has developed a comprehensive range of new financial products and services, including the development of new business lines through subsidiaries in the fields of Sharia banking (BCA Syariah), securities (BCA Sekuritas), general insurance (BCA Insurance) and 2-wheeler financing (Central Santosa Finance). These businesses are showing positive results and are expected to contribute to even greater profitability in the future. BCA Life (life insurance) began operations in the 4th quarter 2014 and will add to the Bank's ability to provide a greater array of financial products and solutions for BCA's customers. BCA Life is owned by the Bank's securities subsidiary. The established subsidiary BCA Finance (4-wheeler financing) continued to provide a significant contribution to the Bank's profitability.

BCA's large customer base, built upon excellence in transaction banking and lending, provides a strong base for non-bank financial products growth. Going forward, new product lines will allow BCA to expand beyond its existing customer base and will provide a point of entry for Indonesians who are not yet BCA customers.

The development of these new business lines is essential for BCA in its endeavor to strengthen relationships with customers. With a growing middle class and their increasingly diverse needs, banking products & services are becoming inseparable from non-banking products and services.

Going forward, the Bank will continue to support the growth of the subsidiaries as well as continuing to strengthen synergies with the Bank's main businesses. We are optimistic that the subsidiaries will make greater contributions to BCA in the future.

CHALLENGES FACED IN 2014 AND TARGETS VS. REALIZATION

Although slightly lower than originally expected, BCA recorded positive lending growth of 11.0% in 2014. Throughout the year BCA focused on lending to existing high quality customers with proven ability to weather uncertain political and economic conditions. Overall, the corporate and commercial lending segments represented the biggest portion of the Bank's total loan growth in 2014. Loan growth was achieved without a material deterioration in asset quality, with the NPL ratio standing at 0.6% at year end 2014. BCA's NPL ratio compares favorably to the banking sector's 2.2% NPL ratio.

As a proactive move to anticipate a modest CASA growth rate, BCA proactively raised funds from time deposit products through a series of staged interest rate adjustments. As a result, BCA was able to record total third party funds of Rp 447.9 trillion at the end of 2014, a growth rate of 9.4%, well within the targeted range of 8-11% growth.

Steady growth in lending and in third party funds supported solid financial performance and profitability growth. Net interest income rose by 21.2% to Rp 32.0 trillion in 2014, compared with Rp 26.4 trillion in 2013, with a net interest margin of 6.5% compared with 6.2% in the previous year. Operating income other than interest grew by 13.6% to Rp 9.0 trillion during 2014. Cost efficiency ratio measured at 44.2% in 2014, slightly higher than 2013's 42.9%. BCA's overall net income grew by 15.7% to Rp 16.5 trillion by the end of 2014. The Bank generated sound returns throughout the year, with Return on Assets (ROA) and Return on Equity (ROE) of 3.9% and 25.5% respectively, exceeding the predetermined targets.

BCA Financial Highlights (in billion Rupiah)

	2014	2013	Δ %
Total Assets	552,424	496,305	11.3%

QUALITY IMPLEMENTATION OF GOOD CORPORATE GOVERNANCE

In the midst of external challenges and the increasing complexity of banking operations, BCA believes that the implementation of Good Corporate Governance is the foundation for establishing both a solid banking infrastructure and a strong corporate culture that will contribute to sustainable performance while helping to minimize risks.

The Bank's application of Good Corporate Governance continues to be refined with reference to the best practices and standards in Indonesia, and the ASEAN Corporate Governance Scorecard. In addition, BCA has reviewed the Company's core values to be in accordance with the developments and demands of today's businesses. All business activities are carried out based on the principles of Good Corporate Governance and are supported by strong internal control and risk management systems.

Measures taken to increase the quality of the implementation of Corporate Governance will strengthen BCA as an institution, making the Bank more adaptive to changes in an increasingly competitive business environment and ultimately providing added value for all our stakeholders. BCA has received numerous awards for Good Corporate Governance over the past years which is evidence that the community recognizes the achievements of the Bank and its efforts to increase the quality of Good Corporate Governance implementation.

CHANGES TO THE BOARD OF DIRECTORS

We would like to report that there were some changes to the composition of the Board of Directors in 2014. The Annual General Meeting of Shareholders (AGM) held on 7 April 2014 approved the resignation of Mr. Renaldo Hector Barros as a member of the Board of Directors. We give the highest appreciation and thanks to Mr. Renaldo Hector Barros for his significant contribution in his career spanning 11 years with the Bank, first as a member of the Board of Commissioners and then as a member of the Board of Directors.

The AGM also appointed Mr. Rudy Susanto as a new Director. We would like to welcome Mr. Rudy Susanto as a member of the Board of Directors, effective as of 21 July 2014, the date upon which the Indonesia Financial Services Authority approved the appointment.

Associated with these changes and in accordance with the authority granted by the AGM, the Board of Commissioners established new roles and responsibilities among the members of the Board of Directors. Mr. Armand W. Hartono was designated Director of Information Technology and Operations, replacing Mr. Renaldo Hector Barros; and Mr. Rudy Susanto was designated Credit Director.

We further report that, in compliance with the new regulation as specified in the Decision of the Board of Directors of the Indonesia Stock Exchange and without reducing the independence of other Directors, the AGM also appointed Mr. Erwan Yuris Ang, as an Independent Director of the Bank.

CORPORATE SOCIAL RESPONSIBILITY

As a good corporate citizen, BCA is committed to supporting Corporate Social Responsibility (CSR) activities to make a meaningful contribution to development of communities. In particular, the Bank's CSR activities were directed to areas fundamental to building a strong foundation for the future of the nation. The Bank's CSR focuses on education, health, and environmental and cultural preservation.

In the area of education, BCA has sponsored various scholarship programs in collaboration with a number of leading universities in Indonesia aside from operating its own learning center for banking and finance.

BCA has a policy of recruiting employees for the internship program to support the industry manpower needs in general. The interns are rotated throughout the Bank to maximize exposure to banking and to create skilled professionals. Part of the interns are recruited by BCA, and the remaining are recruited by companies in various developing industries throughout Indonesia. We believe this healthy process contributes to the long-term growth of BCA and of Indonesia.

In addition, the Bank is active in the empowerment of SMEs; the preservation of the cultural heritage of Indonesia, especially that of traditional Wayang puppetry; and the medical support of many communities. BCA was also a primary sponsor of the 2014 Indonesia Open, a badminton championship held in Jakarta.

PROSPECTS AND STRATEGY REVIEW FOR 2015

Amidst continuing uncertainty in the global markets, we believe that the Indonesian economy will remain in a consolidation phase in 2015 before growing more rapidly thereafter. Indonesia must be sensitive to the potential threats that could arise from the current account deficit, the risk of weak commodity prices, and the reversal possibility of foreign funds flows in line with the Fed's normalization of interest rate policy.

Nevertheless, we believe that the Government and the regulators will be effective in guiding the Indonesian economy and building a solid foundation for sustainable growth into the future. The Government prudently plans to reallocate a large part of government budget from spending on fuel subsidies to other areas such as essential infrastructure projects that promise to stimulate economic growth. Realization of government spending and investment flows will provide significant liquidity to strengthen the domestic banking industry.

The ASEAN Economic Community (AEC), to be implemented in 2015, will present many challenges and opportunities for Indonesia. Banking competition is expected to intensify in Indonesia, as the country becomes one of the main pillars of the AEC economy. BCA will continue to improve excellence in transaction

banking and strengthen lending infrastructure with a focus in-country. In addition, the Bank will develop business alliances and strengthen ties with selected banks in Asia to capture business opportunities from potential ASEAN customers requiring banking services in Indonesia. Meanwhile, synergy with the Bank's subsidiaries will evolve both in terms of business and operational strategy.

With consideration to these factors as a whole, the work plan across the various Bank business lines will be accompanied by a prudent liquidity management plan, a strong capital base and solid credit risk management. We will keep a close watch on macro developments and will proactively make adjustments to the work program and business plan if needed, particularly in the face of any unexpected eventualities.

We realize that all business strategies rely on the support of capable employees. To that end, the Bank will continue to work to improve the competency of human resources through coaching, training and learning. With these measures, we hope to maintain a highly qualified workforce that embodies integrity and BCA's core values.

APPRECIATION TO ALL STAKEHOLDERS

We are fully aware that the success of BCA in maintaining solid business performance in these uncertain times is due to the trust of our customers. This trust motivates BCA to work hard to maintain that trust and provide the best possible products and services to our valued customers.

The role of the Board of Commissioners—the careful observation and guidance they have provided—is very important and allows the Bank to move with certainty amid the uncertainties that arise in the operating environment.

Finally, on behalf of the Board of Directors and the management of BCA, I would like to thank all stakeholders, including the Indonesia Financial Services Authority and Bank Indonesia, for all the support and trust we have received and which has enabled us to look ahead with optimism.

Jakarta, March 2015

On behalf of the Board of Directors,

Jahja Setiaatmadja
President Director

“ With strong customer relationships and sound business practices, BCA grew both lending and third party funds while maintaining healthy asset quality and a solid liquidity and capital position ”

Net Income Growth

Third Party Funds (in billion Rupiah)

Commercial and SME Loan Portfolio (in billion Rupiah)

Branch Banking is at the center of BCA's business activities in providing transaction and payment settlement services as well as commercial & SME lending. While the Bank continued to strategically expand its branch network to provide broader access and better service for the Bank's growing customer base, BCA's electronic delivery channels have played a major role in recent years in transaction banking. This role has been enhanced by the rapid development of technology and electronic communications.

BCA has consistently been in the forefront in developing the accessibility of electronic banking network, including Automated Teller Machine (ATM), Electronic Data Capture (EDC), point-of-sale for pre-paid Flazz card use, and in improving internet and mobile banking services. BCA's priority is to maintain the convenience, safety and reliability of banking services through disciplined investments in electronic networks and banking infrastructure.

BCA's preeminence in transaction banking and extensive network coverage provides a solid base for the Bank to grow its commercial and SME lending across Indonesia. BCA is currently one of the leading lenders in Indonesia in the commercial and SME segment. BCA's overall loan exposure to this segment represents the largest portion of BCA's total loan portfolio.

Transaction Banking

BCA is the leading transaction bank in Indonesia, with 13 million customer accounts, 1,111 branches, 16,694 ATMs and hundreds of thousands of EDC machines, as well as robust internet and mobile banking services. BCA focuses on strategically expanding the Bank's multi-channel network to capitalize on high potential growth opportunities in Indonesia. The Bank also works to optimize client comfort and provide financial services that cater to the needs of the Bank's growing customers in both the individual and business banking segments. One of the Bank's strategies to manage the rapid increase in transaction volume is to promote the use of low-cost electronic banking services.

In 2014 the Bank continued to expand its merchant network, adding around 80 thousand new EDC machines at selected merchants with high frequency of payment transactions. This ever-increasing number of EDC units includes installations of Flazz card machines to capitalize on the high frequency of micro-payments being made in a number of strategic merchants, such as retail stores, supermarkets, parking locations and commuter trains in Jakarta.

Increasing functionality and the ongoing refinement of this multi-channel integration is an important focus of BCA to entice customers away from the branches and to the Bank's electronic channels. Significant strides have been made in improving the integration of internet and mobile banking into a single platform through the development of BCA Mobile. From the customers' point of view, this integrated interface has enhanced the internet and mobile banking service by providing a seamless experience across platforms. BCA Mobile application is available on a variety of popular smartphone and tablet operating systems, including Apple iOS, Android, and BlackBerry, that are widely used by the growing Indonesian middle class. The BCA Mobile application is equipped with "Info BCA" service which displays promotional materials, credit card application forms and the Bank's product and service information, including smart features to determine the location of the nearest branch and ATMs for customers on the go.

In recent years BCA has seen customer preferences for transaction services gravitate towards electronic banking, a positive indication that the Bank will be able to reduce queues and thus waiting time for customers at branches during peak hours. The Bank seeks to educate its customers to use electronic banking services as a reliable, safe and convenient transaction channel. In 2014, transaction banking activities through the electronic network continued to grow with the support of ongoing network expansion and the innovation and development of transaction features. The use of internet banking and other electronic networks increased significantly in 2014 both in terms of transaction value and frequency. The highest e-channel transaction value in 2014 was recorded in internet banking transactions, reaching Rp 5,350 trillion, up 13.1% from Rp 4,732 trillion

in 2013. The number of clients who accessed the KlikBCA Individual and Business services increased from 4.1 million customers in 2013 to 4.5 million in 2014. BCA's ATM network remains one of the most popular means of transactions with 1,678 million transactions recorded in 2014, breaking previous year's record of 1,462 million transactions.

The electronic banking network will continue to be improved upon in order to ensure customer convenience and security in conducting electronic banking transactions. Improvements will include increasing the range of products and payment facilities and through collaboration with strategic partners. BCA also plans to develop branchless banking services to expand its reach beyond the Bank's existing customer base, particularly in the field of payment settlement and transaction banking.

In 2014 the Bank managed to maintain its role as a leading transaction bank in Indonesia with a market share of Current Accounts and Savings Accounts (CASA) of 15.5%. BCA CASA funds recorded positive growth of 4.2%, reaching Rp 336.4 trillion by the end of 2014. Resilient CASA balances were maintained due to consistently high transaction volume and frequency catalyzed by BCA's large number of interconnected individual and business transaction banking customers. On this basis, BCA did not

Number of Distribution Channels (unit)

Transaction Value (in trillion Rupiah)	5,349.7	4,731.8
Mobile Banking		
Number of Transactions (in million)	499.7	408.1
Transaction Value (in trillion Rupiah)	485.6	389.9

choose to compete on CASA rates, thereby avoiding a CASA rate price war that could in turn lead to unhealthy market competition. It is testament to BCA's transaction strength that CASA funds continued to grow even with unchanged and relatively low CASA rates and a notably widening gap between CASA and time deposit rates.

CASA remains BCA's main source of liquidity, representing 75.1% to the Bank's total third party funds at the end of 2014. More precisely, savings accounts contributed 68.1% to CASA funds while the remaining 31.9% were in current accounts. BCA is confident that stronger CASA growth will return when the Indonesian economy accelerates and commerce velocity increases in the coming years.

BCA seeks to create value-added services to meet the diverse financial needs of the Bank's different customer segments. In addition to regular branch banking services, the Bank also provides priority banking services to individuals in the mass-affluent segment, and Weekend Banking services in specific shopping malls to serve individual and small business customers who may not be able to go to the branches during regular branch hours. Furthermore, the Bank offers Solitaire banking services for high net-worth individuals.

Tahapan BCA continues to dominate third party funds and is central to the Bank's position as a leading transaction bank. BCA offers a range of Tahapan savings products geared to different customer segments, with features meant to appeal to each of those segments. For example, Tahapan Gold is aimed for the business segment. Meanwhile, to capture a large share of the youth market, BCA also provides Tahapan Xpresi with features tailored for the younger generation, including ATM cards customization.

In order to keep up with the evolution of contemporary lifestyles, the Bank proactively connects with customers through social media thereby providing additional communication channels and further strengthening customer relationships. BCA has been expanding its digital marketing strategies to take advantage of the country's growing use of social networking sites. The Bank has set up several social media accounts as communication and information platforms, which have received positive responses from Indonesian netizens. Currently, BCA has close to 850 thousands social media followers and likes. Gebyar BCA, the long established TV variety show, is now available through social media and BCA website.

Faced with intense competition in fund raising in the midst of a rising interest rate environment and a widening gap between CASA and time deposit rates, the Bank selectively raised time deposit rates in 2014 for specified deposit amounts and tenors to further strengthen BCA's liquidity position. Time deposits grew 28.8% from Rp 86.6 trillion in 2013 to Rp 111.5 trillion in 2014, with total third party funds increasing by 9.4% to Rp 447.9 trillion in 2014 from Rp 409.5 trillion in 2013.

Cash Management

BCA continues improving relationships with corporate and commercial & SME customers through integrated cash management services designed to facilitate the flow of funds in business transactions. By providing a more efficient process for the payment of goods and services, the Bank places itself in a strategic position within the customers' business value chains, allowing BCA to effectively capture opportunities to acquire fee-based income and solidify stable source of third party funds.

BCA offers a number of Business to Business (B2B) and Business to Consumer (B2C) services via internet banking. In addition, the use of BCA virtual account services, one of the Bank's cash management features, continued to increase with a total of around 1,300 companies making use of the service in 2014.

In order to optimize the provision of services to its customers, BCA maintains its cash management services in a community format, whereby groups of customers are connected to one another within a business chain from supplier to distributor. These communities include the capital markets community, futures markets community, oil and gas community, cement community, modern market community, and telecommunications community.

Various events were organized to enhance relationships with members of these communities such as benchmarking trips, workshops, dissemination and business solutions updates. BCA also organized business gatherings in a number of cities, both within and outside the country, aimed

to increase knowledge and experience as well as to strengthen relationships between community members.

In an effort to meet customer demand for a total integrated cash management solution, the Bank engages the Corporate Business Group and the Commercial & SME Division to facilitate supply chain financing and other credit facilities as key elements for cash management.

BCA Cash Management also cooperates with selected foreign banks to provide services for modern foreign-owned retail enterprises that have recently entered the Indonesian market. These enterprises include H&M, UNIQLO, IKEA and Central Department Store. In 2014, the number of companies using BCA cash management solutions rose to more than 3,000.

In order to strengthen the infrastructure, BCA is planning the launch of its latest cash management innovation, KlikBCA Bisnis 'Integrated Business Solution', which provides integrated interface to connect BCA's cash management with companies' internal cash management systems through a host-to-host network. This service is a development of KlikBCA Bisnis bringing more complete features, a better interface and a variety of other facilities, including enhanced supply chain financing. This new solution is expected to further strengthen the relationship between BCA and corporate enterprises, as well as strengthening the Bank's transaction business and improving cash flow management and customer payment capacities.

Commercial & SME Customers

Branch Banking plays an important role in growing commercial and SME segment. Driven by growth in the commercial segment, in 2014 the commercial & SME loan portfolio grew 9.6% to Rp 132.3 trillion from the previous year's Rp 120.7 trillion. Commercial & SME loan contributed significantly to the Bank's overall loan portfolio and represented 38.1% of the total portfolio at the end of 2014.

In line with the credit risk management policies adopted by the Bank in the midst of challenging economic conditions, commercial and SME loan growth was not as high as in previous years. BCA implemented a number of prudent lending policies, with credit facilities prioritized for borrowers showing promising prospects and those who have established good relationships with the Bank. With these measures, growth in commercial and SME loans was well-balanced with the preservation of quality, reflected in the low commercial and SME NPL ratio of 0.7% at the end of 2014.

In the commercial banking segment, the Bank positioned itself as a business partner to its customers by providing working capital loans and financing for medium-scale enterprises mainly those engaged in the trade, manufacturing and services industries with loans ranging from Rp 10 billion to Rp 350 billion. In 2014, commercial loans grew 13.5% to Rp 82.9 trillion, contributing 62.7% to the total Commercial and SME loan portfolio.

Supported by the Commercial Business Centers, BCA is able to provide better service and ease of access in offering banking solutions that fit the needs of commercial customers. At the end of 2014, there were 14 Commercial Business Centers located in major business centers in Indonesia including in Jakarta, Semarang, Bandung and Surabaya as well as in cities outside Java including Medan, Palembang, Makassar and Denpasar. Working closely with the branches, Commercial Business Centers actively analyzes SME borrowers to find those with the potential of growing into commercial sized borrowers. In line with the expansion of SME customers' businesses, approximately 4% of SME lending migrates to the commercial segment each year.

BCA defines the SME segment as business loans with nominal less than Rp 10 billion. In 2014, SME loans increased by 3.6% to Rp 49.4 trillion and contributed 37.3% to the total Commercial and SME loan portfolio. BCA faces tight competition in this SME segment given that all banks are active within the segment.

Most SME customers are family businesses, shop or restaurant owners or small-scale factory owners. Lending is done through the BCA branch network which is strategically located throughout Indonesia. SME lending is supported by an online credit scoring system. In addition, BCA collaborates with several partner institutions, such as rural banks and cooperatives, to provide loan facilities both directly or indirectly in support of business development for those SME customers who cannot be reached by the Bank's branch network.

Efforts to encourage business growth are made through intensive marketing in major cities by optimizing BCA's branch network and the use of value chain financing system that capitalizes on the relationships between corporate, commercial and SME customers. BCA also continuously strengthens infrastructure, simplifies the credit processes and improves the skills and abilities of account officers in establishing strong relationships with customers. The recruitment and training of new account officers continued throughout 2014 in order to meet the increasing demand for skilled account officers. BCA also introduced the relationship officers program, a new initiative established to complement the role of account officers primarily in providing banking solutions beside credit facilities. Relationship officer development is consistent with the Bank's strategic direction to build on relationship banking, increase the Bank's funding and create cross-selling opportunities.

Sharia Banking

In 2014, BCA Syariah continued to enhance its products and services to cater to the needs of its customers. Launched in 2010, BCA Syariah currently manages a network of 45 branches — including 23 Syariah Service Units — across Greater Jakarta, Bandung, Semarang, Solo and Surabaya. The BCA network supports BCA Syariah by allowing their customers to use the Bank's ATM services and EDC machines. Through BCA's transaction network, BCA Syariah also provides mobile banking services via smartphones to increase customer convenience. For easy access to information and as a platform to submit complaints or feedbacks, BCA Syariah customers can also make use of the Bank's call center HaloBCA.

BCA Syariah is strategically positioned to complement financing services for the SME lending segment by exploring opportunities for cooperation with BCA SME business unit. In 2014, BCA Syariah introduced new investment product in precious metals for customers with low installments. As a Muslim majority country with a population of over 250 million, the sharia banking possesses promising prospects for the future.

With increased competition in 2014, BCA Syariah faced a rising cost of funds which negatively impacted its profitability. In 2014, BCA Syariah's third party funds grew 32.8% to Rp 2.2 trillion, while total Syariah financing grew 49.9% to Rp 2.1 trillion. Reliance on high-cost time deposit funding affected BCA Syariah's margin in 2014 with Net Core Operating Margin decreasing to 6.4% from 7.7%. Throughout the year, focus was directed towards maintaining loan quality with the Non Performing Financing ratio maintained at a low level of 0.1%. To strengthen its business, BCA injected an additional Rp 300 billion of capital into the business in 2014.

Looking to the Future

Transaction banking remains BCA's core business and will be maintained and developed as a foundation for growing the Bank's other businesses. In the future, the Bank will continue to expand coverage and improve the quality of its services to provide convenience and security for customers.

To further extend its reach at a lower cost than conventional branch banking, BCA will introduce a new branch concept with smaller physical premises and fewer staffs. These new branches will be supported by the latest electronic banking facilities.

In order to strengthen the Bank's position in the value-chains of large customers, BCA will continue to enhance its cash management systems as a flexible solution to corporate and commercial & SME customers' needs.

In the commercial and SME segment, the Bank will increase lending to prospective customers and continue to improve credit infrastructure. BCA will increase the number of account officers in line with business growth as well as improving their skills and abilities through training initiatives. The commercial and SME segment plays an important role in sustaining the growth of the national economy. Leveraging off its solid position in transaction banking and extensive network, BCA is poised to capture the demand for commercial and SME lending when the Indonesian economy returns to a faster rate of growth.

Corporate Banking

Corporate Loans

Rp 120_TDiversified portfolio of top-tier
companies across sectors

Supported by its solid balance sheet and strong relationships with the corporate customers, BCA is one of the leading banks in Indonesia in lending to the corporate segment

Corporate Loan by Currency

(in billion Rupiah)

Corporate Loan by Facilities

(in billion Rupiah)

In line with BCA's goal of maintaining a high quality loan portfolio, the Bank focuses corporate lending activities on top-tier Indonesian corporate customers with business stability and excellent reputation within their respective fields. Prudent lending to a well-defined and diversified market minimizes risk exposure that may arise from declining performance in any one industry.

In 2014, corporate lending was a main driver of growth in the Bank's overall loan portfolio. BCA corporate lending grew 16.9% to Rp 120.5 trillion at the end of 2014. Demand for corporate loans rose across most industries in various sectors of the economy as a result of limited alternative funding sources. With a solid balance sheet, BCA is a major lender to the Indonesian corporate segment.

Focus on Customer Needs

In the midst of an unfavorable economic environment, corporate borrowers continued to seek bank lending in 2014. In line with BCA's commitment to building strong relationships with its corporate customers, the Bank stood ready to provide funding to high quality corporate customers during this period of tight liquidity. Close cooperation and ability to meet customers' funding needs enabled Corporate Banking to continue its sustainable approach for long-term growth. The Bank maintained its prudent

lending practices by focusing on quality customers and leading institutions who have established good relationships with the Bank.

In 2014, growth in corporate lending was mainly derived from investment loans. This was largely attributable to the drawdown of previously committed facilities and new facilities that catered for selected reputable state-owned companies. The provision of this type of credit facility is expected to generate demand for working capital loans, trade finance, and a variety of other banking services in the future. BCA's investment loan portfolio in corporate segment increased by 23.4% to Rp 63.7 trillion in 2014, while working capital loans grew 10.4% to Rp 56.8 trillion in the same period. The overall corporate loan portfolio booked a 16.9% growth to reach Rp 120.5 trillion in 2014. This growth was mainly derived from state-owned oil & gas company, Pertamina, as well as corporations in the plantation and tourism industries.

BCA provides credit facilities mostly in Rupiah as it matches with the Bank's source of funds. Approximately 90% of BCA's total third party funds are in Rupiah. BCA is one of Indonesia's top banks which enables the Bank to fund large scale borrowings at competitive Rupiah lending rates to top quality Indonesian corporate customers.

Rupiah-denominated loans accounted for the largest portion of 2014's corporate loan portfolio representing 84.3% of total corporate lending with the remaining 15.7% denominated in foreign currencies. BCA maintains a conservative foreign currency lending profile in order to minimize risks associated with fluctuations in the Rupiah exchange rate against foreign currencies. The Bank has a long standing policy of providing foreign currency lending facilities only to corporate customers with US Dollar or other foreign currency-denominated revenue. This ensures that customers have a source of income that is in line with their credit obligations to minimize exchange risk. In addition, BCA has set a cap on foreign currency loan exposure to the Bank's portfolio as a whole.

Thanks to comprehensive industry analysis and careful monitoring, BCA has been able to expand its corporate loan portfolio while mitigating the risks the banking sector faces from the declining performances of the commodities sectors, particularly mining. The Non Performing Loans (NPL) ratio on the corporate portfolio stood at 0.4% at year-end, compared to 0.1% in previous year. The increase is due to a

downgrade of a previously restructured corporate loan that showed signs of weakness in the current environment. BCA has adequate credit loss reserves to cover any impact this loan restructuring may have on the financial position of the Bank.

BCA seeks to exploit the opportunities presented by increasing trade flows in Asia, especially with the upcoming implementation of the ASEAN Economic Community (AEC) in 2015. To that end, the Bank continues to strengthen its partnerships with banks in other Asian countries, such as Thailand, Japan, South Korea, China and the Philippines, in facilitating access to the Indonesian markets for corporates in these countries. With its varied banking services, BCA hopes to be able to fulfill the banking needs of these corporate customers.

Loan Syndication

In 2014, the Bank completed syndicated loan transactions amounting to Rp 45.2 trillion, making BCA one of the major players in the field of syndicated loans in Indonesia. Underwriting conducted by BCA reached an equivalent of Rp 8.6 trillion for its

participation in syndicated loans while the Bank booked Rp 7.7 trillion on its own balance sheet. In 2014, syndicated loans were disbursed to various sectors including telecommunications; power generation; transportation; oil & gas; poultry; and property.

Through syndicated loans, the Bank contributed to the development of Indonesian infrastructure by providing financing to PT Kereta Api Indonesia (Persero), PT KAI Commuter Jabodetabek, state-owned electricity power corporation PT PLN (Persero) and PT Tower Bersama Infrastructure Tbk along with

its subsidiaries. In addition, syndicated loans were disbursed to state-owned oil and gas company, PT Pertamina and a leading poultry feed producer, PT Charoen Phokphand Indonesia Tbk. In the property sector, the Bank disbursed syndicated loans to PT Pakuwon Jati Tbk and PT Bali Raga Wisata as leading property developers in Indonesia.

BCA's role as a syndicated loans agent makes for a meaningful contribution to fee-based income growth. In carrying out its function as an agent, the Bank may act as a facility agent, collateral agent or escrow account agent.

Top 10 Corporate Loan Portfolios by Industry Sectors

Community-Based Services

BCA actively creates and develops business community networks connecting corporate customers with commercial & SME customers within one business circle. The Bank made use of its extensive banking network throughout Indonesia to foster value chain lending relationships with these community-based customers.

This community-based service provides large enterprises, commercial and small to medium enterprises with value chain financing for access to credit facilities as well as BCA's cash management and transaction services.

With its important role as banking services provider, BCA offers ease for corporations and suppliers in controlling daily payment settlements for a more efficient cash management process. The Bank continues to increase its presence in cash management, targeting selected promising business communities and industries especially those in value chains that can strengthen BCA's transaction franchise, and ultimately cementing the Bank's strong position in stable Current Accounts and Savings Accounts (CASA) funds. BCA's reliable cash management services have, over the years, been

utilized by various strategic communities, including public gas stations and convenience store chains. Individual users of the gas station network and convenience stores also benefit from value chain service with the ability to use BCA payment settlement products, including Credit Cards, Debit Cards as well as Flazz cards for non-cash micro payments.

To meet the growing needs of corporate customers, BCA continued to enhance its cash management infrastructure and interface capabilities for an improved integration with corporate customers' cash management systems. The development of these value chain networks facilitates businesses to expand further and equips the Bank with the necessary capacity to capture sustainable growth opportunities.

The Bank aims to improve relationships between corporate, commercial and SME clients. Through various networking events in recent years, BCA is actively promoting interaction among the Bank's corporate customers. In 2014, the Bank organized cross-sector networking events for selected sectors with close business associations. BCA brought together customers from the transportation, logistics and automotive industries in an event themed "Connecting the New Indonesia" to discuss the

prospects of transport connectivity across land, air and sea in Indonesia. In addition, the Bank also brought together customers from the property community with those from the tourism community at a seminar on the development of tourism in Indonesia. Interaction between clients is expected to create vibrant multi-industry communities, which in turn forms closer relationships between BCA and these communities.

Going Forward

BCA will carefully monitor developments and trends in each industry sector and in the global economy as well as national developments to determine the most promising industries for lending without compromising the Bank's prudent lending principles.

Cooperation between BCA Corporate Banking and other business units will continue to be improved to strengthen the Bank's value chain financing and integrated cash management services. BCA will continue to pursue the ongoing development of more advanced cash management systems and infrastructure.

BCA will continue its partnerships with foreign banks in the Asian region to capture Foreign Direct Investment (FDI) opportunities by providing financing, trade, foreign exchange and cash management services to foreign corporates wishing to establish a presence in Indonesia.

BUSINESS REVIEW

60

Individual Banking

Consumer Lending

Rp **92** T

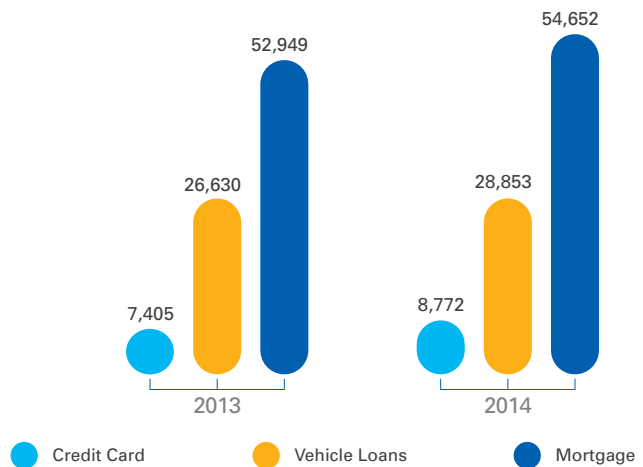

Mortgages contributed 59.2%
to total consumer loans

The steady growth of Indonesia's professional and middle classes continued to support growing demand for consumer banking products including mortgages, vehicle loans, credit cards, insurance and wealth management products and services

Total Consumer Loans (in billion Rupiah)

Consumer Loan Portfolio (in billion Rupiah)

BCA is optimistic about the long-term growth prospects of the Indonesian economy and developing middle class. Over the last several years, the Bank has established a solid business framework to service the changing banking needs of the Bank's individual customers. The steady growth of Indonesia's professional and middle income classes continues to support growing demand for consumer banking products including mortgages, vehicle loans, credit cards, insurance and wealth management products and services.

After posting 5 years of strong 32.9% growth in lending, BCA pulled back on consumer lending in 2014 in line with an overall slowdown in the broader Indonesian economy. In a year marked by challenging macroeconomic conditions, higher interest rates and tighter regulations, the Bank proactively tightened credit appetite and raised lending rates intended to manage the growth of consumer lending. Over 2014, BCA recorded consumer loan growth of 6.1% with credit quality comfortably maintained at a low Non Performing Loans (NPL) ratio of 0.7%.

The Bank focuses on developing infrastructure and enhancing the organizational structure of the work units in the Individual Banking Group. With improved infrastructure, BCA will be able to capitalize on cross-selling opportunities going forward while allowing the Bank to improve the quality of products and services. Overall, these efforts will solidify BCA's

well-known position as the leading consumer lender in Indonesia offering a transparent and timely credit approval process with competitive rates.

Mortgages

Since fully developing its mortgage business in 2007, BCA has become a leader in the Indonesian mortgage market. By the end of December 2014, the Bank's mortgage portfolio reached Rp 54.7 trillion, a 32.0% CAGR growth since 2007, contributing 59.2% to BCA's total consumer loans.

BCA understands the long-term strategic value of mortgage lending as it enables customers to purchase homes and provides the Bank with an opportunity to build long-term relationships with individual customers. Through the provision of mortgages, the Bank has succeeded in building greater customer loyalty thereby creating cross-selling opportunities and developing a future source of stable long-term funding. BCA's mortgage strategy of concentrating on prime residential areas with high demand for housing results in low default risk.

BCA markets mortgage loans through the Bank's extensive branch network and consumer loan centers in major cities throughout the country. The majority of mortgage applications originated from branch referrals with the remaining from property developers. The healthy flow of branch referrals provides key support for the mortgage business

particularly in the midst of tighter regulation in the property industry. Since 2013, the regulator has restricted the national banking industry from providing mortgages for properties that are semi-completed or in the development process.

In 2014 BCA maintained its prudent mortgage lending standards reflecting the prevailing property market conditions. The growth rate of the mortgage portfolio stood at 3.2%, with mortgages outstanding reaching Rp 54.7 trillion. The majority of this growth occurred in the fourth quarter of 2014 following previous four quarters of relatively flat growth. Throughout 2014, new mortgage bookings were approximately equal to the mortgage repayment run-off. Due to the unfavorable economic environment and higher interest rates in 2014, close attention was required to ensure that disbursement of mortgages was maintained at a sustainable and prudent level.

BCA maintained mortgages rates relatively high in 2014 compared to 2013. Rates of the flagship product, the 5 year fixed-rate mortgage, stood at 10.5% throughout most of the first 9 months of 2014, compared to 8.5% - 9.5% in 2013. Following the smooth presidential election, banking liquidity improved, allowing BCA to proactively reduce mortgage rates slightly in September 2014 by 50 bps to 10.0%.

While BCA recognizes the need for government action to prevent excessive growth in the property market through tightened Loan-to-Value restrictions, the Bank remains optimistic about the long-term potential of mortgages in Indonesia. With low penetration rates

and the increasing size of Indonesia's middle-class, mortgages stand out as a promising business. The Bank believes that mortgages can and will continue to give significant contribution to the Individual Banking business and provide increased opportunities for the Bank in providing a range of other banking solutions to consumer banking customers.

Vehicle Financing

The economic uncertainty and new Loan-to-Value restrictions affected both the automotive industry and the growth of the auto finance industry in 2014. BCA believes that the introduction of prudent Loan-to-Value rules designed to prevent excessive consumer finance growth in an uncertain economic environment, is the best course of action to establish a healthy consumer credit culture. New car sales nation-wide were recorded at 1.21 million units in 2014, down 2% from 1.23 million units in 2013. Meanwhile, growth in motorcycle sales nation-wide had a slight increase of 2% to 7.9 million units in 2014.

BCA manages car and motorcycle financing through its subsidiaries, BCA Finance and Central Santosa Finance (CS Finance) respectively. Both BCA Finance and CS Finance offer financing through Joint Financing Agreements, with the majority of the loans booked directly at BCA and a smaller portion remaining on the books of BCA Finance and CS Finance.

In 2014, BCA Finance focused on enhancing the quality and efficiency of product and service delivery to ensure customers continued to receive the high service standards to which they are accustomed. BCA Finance improved its online service to speed up applications for vehicle loans and complemented this with an on-site survey option to further expedite the credit process. This is part of BCA Finance's strategy to maintain market share among its mass-affluent target.

BCA Finance continued to work closely with BCA branches to serve the Bank's quality customers while continuing to maintain relationships with third party dealers. Marketing synergy with BCA branches distinguishes BCA Finance from its competitors in providing a high quality customer network for

auto finance lending. BCA Finance aligns its credit risk management and risk appetite with the Bank's prudent policies resulting in a relatively low NPL level. Benefiting from its multi sales channels, BCA Finance had more than 400 thousand customers in 2014, a growth of over 300% from 2008. In addition to BCA branches, BCA Finance maintains a standalone branch network of a total of 59 branches with 6 new outlets opening in 2014.

BCA Finance offers attractive, 'top of mind' financing products in the auto financing markets. BCA Finance's flagship product, the 'Fix and Cap' loan, offers 3 years fixed-rate installment and 2 years installment at a capped interest rate. BCA Finance also has an attractive product, the 'mini for max' loan, which is a 3-year financing facility offering lower monthly principal installment with a 40% principal balloon payment on loan maturity. Customers may choose to pay off the facility, or to sign up for another financing facility after the 3-year tenor.

To minimize risk, BCA Finance prioritizes lending for the best-selling cars produced by leading auto makers while maintaining a relatively high down payment with competitive interest rates. BCA Finance also continued to penetrate the highly prospective second-hand vehicle market by lending against second-hand vehicles with evidence of maintaining value for an optimal risk-return trade-off.

In January 2014, BCA increased its effective stake in CS Finance to 70% from the previous 25% share ownership in line with overall strategic management objectives to strengthen the Bank's presence in the two-wheeler financing market. Subsequently, BCA and other shareholders made a capital injection into Central Santosa Finance in the amount of Rp 200 billion, Rp 140 billion of which was contributed by BCA and BCA Finance. CS Finance continued to grow in 2014, albeit slowly, and contributed positive results to the Bank. CS Finance is focusing on strengthening its business platform through infrastructure development, risk management policy, human resource recruitment, branch expansion and close cooperation with dealers in Java and Sumatra.

Total loans for car financing at the end of 2014 stood at Rp 24.7 trillion on BCA's book and Rp 5.2 trillion on BCA Finance's. Total motorcycle financing stood at Rp 4.2 trillion on BCA's book and Rp 2.0 trillion on CS Finance's at the end of 2014.

Credit Cards

In 2014, BCA's outstanding credit card balances grew 18.5% to Rp 8.8 trillion, securing the Bank's position as a leading provider of credit card services in Indonesia. The number of BCA's cards in circulation continued to grow throughout 2014, with an overall increase of 5.1%, amounting to a total of 2.6 million cards by the end of the year. The growth in the number of credit cards issued yields a market share of 16.1% in 2014. The growth in cards was accompanied by consistently high credit card usage with an active usage rate of over 90%, resulting in an overall increase in BCA's credit card transaction volume of 18.0% to reach Rp 46.1 trillion in 2014.

This positive performance was made possible by BCA's solid brand image and focused promotional efforts. The Bank works to develop a better understanding of the changing customer needs in the various customer holding BCA credit cards.

To this end, BCA works closely with many strategic urban merchants to facilitate customers' lifestyle and spending behaviours. In 2014, the Bank continued its partnership with long-term strategic partners, such as Starbucks Coffee, Pizza Hut, Cineplex21, Haagen-Dazs, and other renowned brands.

The Bank continued to promote the successful Singapore Airlines co-branded credit card focusing on the middle-to-upper class market. The BCA Singapore Airlines card has recorded excellent growth, with an increase in the number and value of transactions in excess of 50% on a year to year basis. Further, to accommodate needs of the growing mass-affluent segment, BCA released the Black Visa and MasterCard in 2014 for highly mobile customers who require the widest range of services to facilitate global transactional needs. The lower risk middle-to-upper class segments are BCA's main target market for credit card services.

BCA remains the only bank in Indonesia to have a private label or proprietary card, or the 'BCA Card', in addition to offering BCA Visa and BCA MasterCard options. The BCA Card can be used throughout Indonesia and in certain locations in Singapore. In recognition of the Bank's achievement in the credit card business, BCA was awarded the Indonesian Best Brand Award 2014 from SWA magazine and the Top Brand Award from Marketing Magazine and Frontier Consulting Group.

As part of BCA's integrated transaction platform, the Bank's credit card business focuses on both the issuing and acquiring sides with the support of reliable EDC network.

BCA has installed hundreds of thousands of Electronic Data Capture (EDC) as payment points in strategic locations, business centres, and at retail merchants across Indonesia. BCA's extensive EDC network has constantly generated high transaction volume that augments BCA's transaction and CASA accounts. Today, BCA's EDCs can also provide Dynamic Currency Conversion (DCC), a service that allows cardholders to choose from Rupiah or the local currency of the card-issuing bank for convenient transactions. In 2014, BCA's EDC has been able to process transactions using UnionPay International and American Express (Amex) cards, in addition to BCA Card, Debit BCA, MasterCard, Visa, JCB, PrimaDebit and Flazz cards.

BCA enhances comfort by providing e-statements and other credit card information digitally, autopay registration via SMS, easy conversion of transactions into installment facilities and online credit card applications. In 2014, BCA prepared the infrastructure to introduce PIN security for credit card transactions and conducted training to educate and socialize this feature among merchants and cashiers.

Pre-paid Flazz Card

Complementing credit cards and debit cards, the Bank also offers the pre-paid Flazz Card. In 2014, BCA continued to contribute to the transportation infrastructure by providing Flazz Card services as e-ticketing for TransJakarta buses and commuter trains throughout greater Jakarta. In addition, the Bank has also developed self-service Flazz Card top-up machines. At the end of 2014, there were 6.5 million Flazz Cards in circulation, including BCA Combi cards (combined BCA credit card and Flazz Card).

The use of Flazz Cards is expected to increase given the increasing needs for services to handle small-value transactions, such as parking facilities, highways, fast food outlets and food & beverage counters. Furthermore, the Bank will continue to improve the Flazz Card network and infrastructure.

Priority Banking and Wealth Management

Introduced in 1996, BCA Prioritas provides tailored service to the Bank's mass-affluent clients. In 2014, BCA manages 152 Prioritas branches equipped with capable relationship officers to deliver quality services. BCA Prioritas customers can now enjoy the benefits of using exclusive services and programs, such as health services, exclusive communication bulletin, airport executive lounges, investment products, and other attractive offers as added service values. BCA's Prioritas' customers made a significant contribution towards growth in various BCA Individual Banking products.

In 2014, BCA Priority Banking Officers continued to focus on deepening relationships with priority customers, providing close contact on updating financial markets movements and expanding awareness of diversified investment alternatives including bonds and mutual funds.

In 2014, the Bank participated in the Retail Saving Bonds sales, a new investment instrument introduced by the Government. This floating rate non-traded instrument is intended for retail investors with a minimum purchase of Rp 5 million up to Rp 5 billion.

BCA seeks to take advantage of opportunities arising from the growth of Indonesia's high net-worth segment through the development of Solitaire Banking services. Launched in 2009, Solitaire Banking aims to provide services through personalized touch for the Bank's customers who require Wealth

Management services. The Bank has set up exclusive facilities in selected BCA branches staffed with specially trained financial advisers to assist Solitaire clients in managing their personal finances.

In 2014 the Bank reorganized work units in the Individual Banking Division to facilitate improved cooperation between the different units. BCA Prioritas and BCA Solitaire aligned their organizational structures for business integration and upgraded human resource capabilities to better satisfy the needs of their customers.

Going Forward

BCA will continue to develop the Individual Banking business in line with the promising growth prospects of Indonesia's burgeoning middle class. The Bank sees its large customer base and extensive branch network as assets that can be used when designing and marketing Individual Banking products.

Synergy between work units will be further strengthened to allow for a more effective delivery of Individual Banking products. These efforts are intended to help increase product diversity for the Bank's customers. BCA will also continue to enhance its Customer Relationship Management system to better understand customer behavior and needs as the basis for establishing effective strategies in product development as well as marketing and promotional activities.

BCA aims to improve the infrastructure and enhance the business of its subsidiaries. The Bank will establish synergies with BCA Life that began operations at the end of 2014.

(in USD billion)

TREASURY BANKING

Throughout 2014, BCA safeguards its liquidity position by carefully managing the Bank's investment portfolios and maintaining a balance between risk and return on investments through short and medium term placements. BCA also works to enhance customer relationships by offering products and services to meet a wide variety of foreign exchange and other treasury related needs.

Maintaining a Robust Liquidity Position

In 2014 the Indonesian banking industry faced the challenge of tightening liquidity and a rapid increase in cost of funds. Together with a decline in business activity and the general elections taking place in 2014, these events resulted in a slowdown in lending and increasing focus on loan quality. Faced with these market conditions, the Bank responded by managing its funding and assets with care.

In 2014 BCA successfully maintained a solid third party funds position and transaction account franchise. BCA's strong transaction banking network allows the Bank to pay relatively low interest rates on Current Accounts and Savings Accounts (CASA). Throughout the year, CASA funds remained stable and represented approximately 75.1% of total third party funds. BCA's strategy to strengthen its liquidity position by being more aggressive in pricing for time deposit products had no significant impact on the increase of overall cost of funds. In 2014 cost of funds was recorded at 2.6%, compared with 2.0% in 2013.

In 2014 the Bank entered into short term loan agreements for USD 270 million with several of BCA's correspondent banks. This step was intended to test both the market for USD borrowing by the Bank and the availability of USD to Rupiah hedging instruments. The ability to borrow in USD and convert the borrowing to Rupiah is a possible source of liquidity for the Bank.

On the assets side, the Bank's total earning assets amounted to Rp 483.9 trillion by the end of 2014, an increase of 11.2% compared with Rp 435.3 trillion at the end of 2013. The total investment funds managed by BCA Treasury reached Rp 112.1 trillion by the end of 2014, growing 9.5% from Rp 102.4 trillion at the end of 2013. Most of these investments were placed in low-risk Bank Indonesia and sovereign instruments such as Bank Indonesia Term Deposits, Bank Indonesia Certificates, Bank Indonesia securities purchased under agreements to resell, and short-term and medium-term government bonds. Treasury's investment structure is designed to balance the Bank's liquidity with optimum investment yield. These high-quality investments represented 25.0% of the Bank's total third party funds as of December 31, 2014. This percentage reflects a continued strong liquidity position especially when compared to the overall banking sector. Investment assets managed by BCA Treasury and the Bank's loan portfolio enhanced overall earnings assets yield in 2014. Total earning assets yield increased 90 bps to 8.7% in 2014 from 7.8% in 2013.

Increased yield on earning assets and a solid funding composition allowed BCA to generate a Net Interest Margin (NIM) of 6.5% in 2014, an increase from 6.2% in 2013.

The Bank managed its balance sheet and liquidity position with careful consideration to cash flow forecasts and exchange rate risk. BCA's balance sheet remained resilient against fluctuations in the value of the Rupiah against foreign currencies. At the end of 2014, the Bank's Net Open Position (NOP) was recorded at 0.6% of the capital, far below the limit of 20% set by Bank Indonesia.

Facilitating Customer Needs

In addition to managing the Bank's assets and liabilities, BCA Treasury also provides a variety of services to meet the needs of customers, including foreign exchange products, capital markets and custodian services. These services are provided to corporate, commercial, SME and individual customers in cooperation with front liners located in the Bank's branches.

BCA capitalizes on technological advances by improving online forex services for corporate customers using BCA's internet banking e-Rate application. There are currently 14 foreign currencies that can be traded through KlikBCA, BCA's internet

banking facility. In 2014, BCA expanded the features of KlikBCA Bisnis, by offering a facility for USD sales at even better exchange rates compared to the regular e-Rate application. This feature is still in the early stages of a pilot project and will be further developed in accordance with customers' responses.

In 2014 the volume of customers' foreign exchange transactions increased to 673.2 thousand transactions compared to 596.6 thousand in 2013. Despite the increase in the frequency of transactions, overall transaction value decreased to USD 36.8 billion in 2014 from USD 45.0 billion in 2013, due to the decline in domestic export and import activities.

In the bonds market, BCA is one of the official selling agents for Indonesia Retail (ORI) and Sukuk Retail (SR) bonds. BCA Treasury sold Rp 2.7 trillion ORI011 and Rp 1.4 trillion SR006 in bonds in 2014, an increase from 2013's Rp 2.1 trillion ORI010 and Rp 857 billion SR005 bonds. In selling SR006, BCA collaborated with UNICEF to help the Early Childhood Development program in Aceh by contributing a percentage of every bond sold to the program. In addition, BCA Treasury participated in the launch of Retail Savings Bonds issued by the Government for retail investors, with total sales through BCA reaching Rp 260 billion.

In 2014, BCA Treasury received several awards, including Best Domestic FX Bank awarded by the Asiamoney Poll as well as awards for the previous year's performance as one of the Best Selling Agent for ORI010 from the Ministry of Finance.

INTERNATIONAL BANKING

Remittance Services

Although faced with several challenges, owing to the uncertainty of the global economic recovery, BCA maintained its position as one of the main remittance service providers in Indonesia. Throughout 2014, BCA successfully processed remittances with a total value of USD 82.0 billion.

To support the business development of remittance services, foreign exchange, bank notes, and other cross-border settlements, the Bank's International Banking has access to a global network of more than

2,000 correspondent banks. BCA's representative offices in Singapore and Hong Kong support and enhance the cooperation between BCA and the Bank's correspondent banks. BCA International Banking also manages remittance services through BCA Finance Limited in Hong Kong. BCA remittance services are currently available in 14 currencies.

Since 2007, BCA has facilitated money transfers for Indonesian Overseas Workers through its web-based Financial Institution Remittance Fire Cash BCA service. Supported by correspondent banks and offshore partners, Fire Cash BCA is present in more than 100 countries around the world, especially in the main destination countries of Indonesian migrants. In 2014, BCA's Fire Cash system was updated to expedite the disbursement of cash remittances via EDCs, as well as transfers to BCA accounts, other banks in Indonesia and Post Office. BCA continues to develop the Fire Cash capacity in Indonesia to facilitate customers' Fire Cash transactions throughout the country.

International Trade Finance Services

The slow recovery in commodity prices, particularly coal and palm oil (CPO), and slowing economic growth in Indonesia's major trading partners, such as China, Japan and some European countries, have impacted Indonesia's exports and affected demand for Indonesian commodities in 2014. In the midst of these conditions, the demand for BCA's international trade services declined for both imports and exports products. The volume of international trade services managed by BCA fell 16.2% to USD 9.0 billion in 2014.

However, the decline in international trade volumes was partly offset by the increase in domestic trade transactions using Domestic Letters of Credit (SKBDN) with higher volume recorded in 2014 when compared to 2013. The domestic trade growth was mainly in the steel, coal, pharmaceuticals and chemicals industries. Volume of domestic trade transactions through SKBDN in BCA increased 9.2% to USD 2.7 billion in 2014.

Despite the unfavorable conditions of 2014, BCA International Banking continued to develop a wide

range of trade finance products and services and improve the quality of human resources in order to increase competitiveness and to accommodate the increasingly complex trading service needs of BCA customers.

LOOKING AHEAD

We expect uncertainty in the global economy to continue in 2015. In these conditions, BCA Treasury will remain focused on managing liquidity prudently as well as optimizing the Bank's profitability. BCA will continue to monitor economic developments and be ready to anticipate events before they arise.

As for international trade transactions and remittance business, the Bank will continue to explore opportunities to expand its partnership network and to improve the quality of its infrastructure and human resources. This is essential in anticipating the improving economic growth in Indonesia in the years to come.

BUSINESS SUPPORT

Risk Management

Non Performing Loans

0.6%

Implementing prudent lending standards

The Bank proactively reviews and enhances risk management policies to adapt to changes in the macroeconomic environment and to comply with changing regulatory provisions and international best practices for risk management

The application of a professional and disciplined risk management framework has supported the prudent, consistent and sustainable growth of the Bank while delivering added value for all BCA stakeholders.

The various risks BCA and its subsidiaries face are managed comprehensively, covering all aspects of enterprise-wide risk. The Bank proactively reviews and enhances risk management policies to adapt to changes in the macroeconomic environment and to remain in line with the latest regulatory provisions and international best practices. By working with business lines to identify, measure and mitigate risks in the design and implementation of risk management policies and procedures, BCA was able to ease the negative effects of uncertainties arising from the uncertain economic and political environment in Indonesia in 2014.

Risk management is the responsibility of all the Bank's management and employees. BCA continues to instill risk awareness as an integral part of the Bank's culture to all levels of the organization. Accordingly, the Bank applies the Three Lines of Defense approach, whereby risk management is performed by all organization lines, and overseen by the Board of Commissioners and the Board of Directors. All frontline and supporting business units serve as the First Line of Defense, tasked to manage risks related to the risk owner. The Second Line of Defense comprises of the Risk Management and Compliance work units who are in charge of monitoring the bank-wide enterprise risk management. As the Third Line of Defense, Internal Audit work unit is responsible to provide independent assurance for risk management implementation at BCA.

Focus of Risk Management in 2014

Amidst the consolidation phase of the Indonesian economy and the transition to the new administration in 2014, BCA implemented risk management policies that aimed to ensure a solid liquidity position, maintain loan quality and strengthen the Bank's capital position in addition to maintaining a strong focus on Operational Risk.

BCA established conservative risk appetite parameters in 2014 and managed loan growth by raising credit standards and loan pricing. Prudent lending principles were maintained with priority given to existing customers who have established good relationships with the Bank and those with verifiable track records. After recording significant growth over the past 5 years, BCA raised rates and pulled back on consumer loan growth amid slower growth of the Indonesian economy in 2014.

The Bank conducts intensive monitoring of the loan portfolio and takes proactive steps to address potential problems if there are signs of a weakening in loan quality. BCA consistently applies an early warning system in the evaluation of loan quality to enable the Bank to take preventative measures against problems that may arise. The Bank also appoints employees at branches to monitor Non Performing Loans (NPL) ratios, and to safeguard asset quality.

Thanks to these efforts, BCA successfully maintained healthy loan quality in 2014 reflected in the low NPL ratio of 0.6%, comfortably below the industry average. The NPL level was slightly higher compared to the previous year of 0.4%, mainly due to a downgrade

of a previously restructured corporate loan. However, this minor increase had no significant impact on the Bank's overall financial position. In the last 10 years, BCA has recorded significant loan growth with relatively low NPL ratios. The loan portfolio is well reserved with a ratio of reserves to Non Performing Loans of 324.2% in December 2014.

Supported by its preeminence in transaction banking, BCA was able to achieve a solid liquidity position through low-cost current accounts and saving accounts. Together, current accounts and savings accounts contribute 75.1% to the Bank's total third party funds. To further reinforce the Bank's liquidity position, in 2014 BCA resumed its proactive approach to raising funds through time deposits products by selectively increasing interest rates for Rupiah time deposits in certain categories.

This anticipatory strategy proved beneficial to BCA in gathering funds amidst increasingly intense competition in deposit taking and in a rising interest rate environment. Stable funding and a solid liquidity position are the Bank's main focuses and these strategic steps have enabled the Bank to maintain solid third party funds.

Effective operational risk management and reliable information technology systems are key elements in maintaining the Bank's position as the leading transaction bank in Indonesia. BCA regularly assesses the Operational Risk Management Information System (ORMIS), a web-based system equipped with Key

Risk Indicators, to provide early detection of operational risks. To ensure that banking operations continue to run 24 hours a day without interruption, BCA operates two data centers to manage data redundancy for maintaining business continuity in the event of a system failure at one of the locations. These two data centers are complemented by a Disaster Recovery Center (DRC) in Surabaya that was completed in 2013. As part of the Bank's Business Continuity Management, the Surabaya DRC is currently undergoing further upgrading so that the DRC can operate as a Crisis and Command Centre should a disaster occur in Jakarta and cause a disruption at BCA Head Office.

BCA has sufficient capital to cover stress tested losses that may occur. Capital Adequacy Ratio (CAR) for credit risk, operational risk and market risk was recorded at 16.9% at the end of 2014. The Bank conducts regular stress tests based on a number of models to ensure adequate capital in a range of possible scenarios. BCA also continues to prepare for the Basel III framework on bank capital and liquidity standards by taking part to support the implementation of Quantitative Impact Study (QIS) and the preparation for setting the Liquidity Coverage Ratio (LCR) and Leverage Ratio standards which are planned for publication in 2015.

Thanks to the effective implementation of risk management in all business activities, based on a self-assessment in 2014, the Bank registered a "low to moderate" composite risk level. The composite risk level was recorded as "low to moderate" inherent risk with "satisfactory" risk management implementation.

RISK MANAGEMENT DISCLOSURE

The implementation of risk management principles and bank wide risk exposure, including the Bank's capital, are done in accordance with Bank Indonesia Circular Letter No.14/35/DPNP dated December 10, 2012, regarding the Annual Reports of Commercial Banks and Specific Annual Reporting Required by Bank Indonesia.

I. BCA's Risk Management Application

Guidelines for the implementation of the Bank's risk management are based on Bank Indonesia Regulation No. 5/8/PBI/2003 dated May 19, 2003 on Application of Risk Management for Commercial Banks as amended by Bank Indonesia Regulation No. 11/25/PBI/2009 dated July 1, 2009 and are as follows:

I.A. Active Supervision by the Board of Commissioners and the Board of Directors

1. In performing the function of risk management, the Board of Commissioners has clear duties and responsibilities, including the following:
 - Approving policies that require the approval of the Board of Commissioners.
 - Evaluating the implementation of risk management policies and risk management strategies.
 - Evaluating the accountability of the Board of Directors and providing guidance on improvements to the risk management policies implementation, including evaluating the implementation of risk management through reviewing regular reports from

the Board of Directors and requesting clarification from the Board of Directors if there are any deviations on policies.

- Approving transactions that require the approval of the Board of Commissioners.
2. In performing the function of risk management, the Board of Directors has clear duties and responsibilities, including the following:
 - Evaluating and approving policies and methodologies used for the assessment of the various types of risk faced by the Bank.
 - Periodically monitoring the development of the Bank's risk profile and the implementation of Management Information Systems (MIS).
 - Determining the requirements for human resources and establishing a clear organizational structure in regards to authority levels and clear definitions of duties, responsibilities, and functions of activities subject to risk as well as the review procedures.
 - Conducting regular risk management training programs for all officials/employees of the Bank in order to improve the quality and skills of human resources in the field of risk management.
 - Requiring all employees/officials to attain Risk Management Certification in accordance with their respective positions.
 3. Active supervision by the Board of Commissioners and the Board of Directors (Management) includes the following mechanisms:

- Supervision by the Board of Commissioners is conducted in accordance with their duties and responsibilities as stipulated in the Articles of Association and relevant regulations.
- The Audit Committee, the Risk Oversight Committee and the Remuneration and Nomination Committee assist in the supervisory duties of the Board of Commissioners
 - a. **The Audit Committee**, established to ensure the implementation of internal control systems, financial reporting processes and effective corporate governance.
 - b. **Risk Oversight Committee**, established to ensure that the risk management framework provides adequate protection against the risks faced by the Bank.
 - c. **Remuneration and Nomination Committee**, established to provide recommendations to the Board of Commissioners on remuneration policies as well as systems and procedures for selection and/or replacement of members of the Board of Commissioners and the Board of Directors.
- The Board of Commissioners maintains constructive communication with the Board of Directors.
- The Board of Commissioners actively provides recommendations to the Board of Directors in determining strategic actions that they believe should be implemented.
- The Board of Directors actively engages in discussion and provides input and monitors the internal conditions and the development of external factors that directly or indirectly affect the Bank's business strategy.

I.B. Adequacy of Risk Management Policies and Procedures, and Determination of Risk Management Limits

1. The Bank's organizational structure adequately supports the implementation of sound risk management and internal control, consisting of the Internal Audit Division, Risk Management Unit, Compliance Unit and Risk Management Committee.
2. BCA risk management policy, as detailed in the Bank Business Plan and the Annual Budget & Work Plan, is in line with the vision, mission, business strategy, capital adequacy, human resources competencies and risk appetite of the Bank. This policy is reviewed regularly and adjusted to both internal and external developments.
3. Policies and procedures, and determination of risk management limits, have been fully documented in writing and are regularly reviewed.
4. In conducting its business activities, the Bank has developed a Bank Business Plan and Annual Budget & Work Plan that addresses BCA's overall strategy, including business direction, which has been determined with consideration to the impact on the Bank's capital, particularly in relation to capital projections and the Capital Adequacy Ratio (CAR).

I.C. Adequacy of Risk Identification, Measurement, Monitoring and Mitigation Processes as well as Risk Management Information Systems

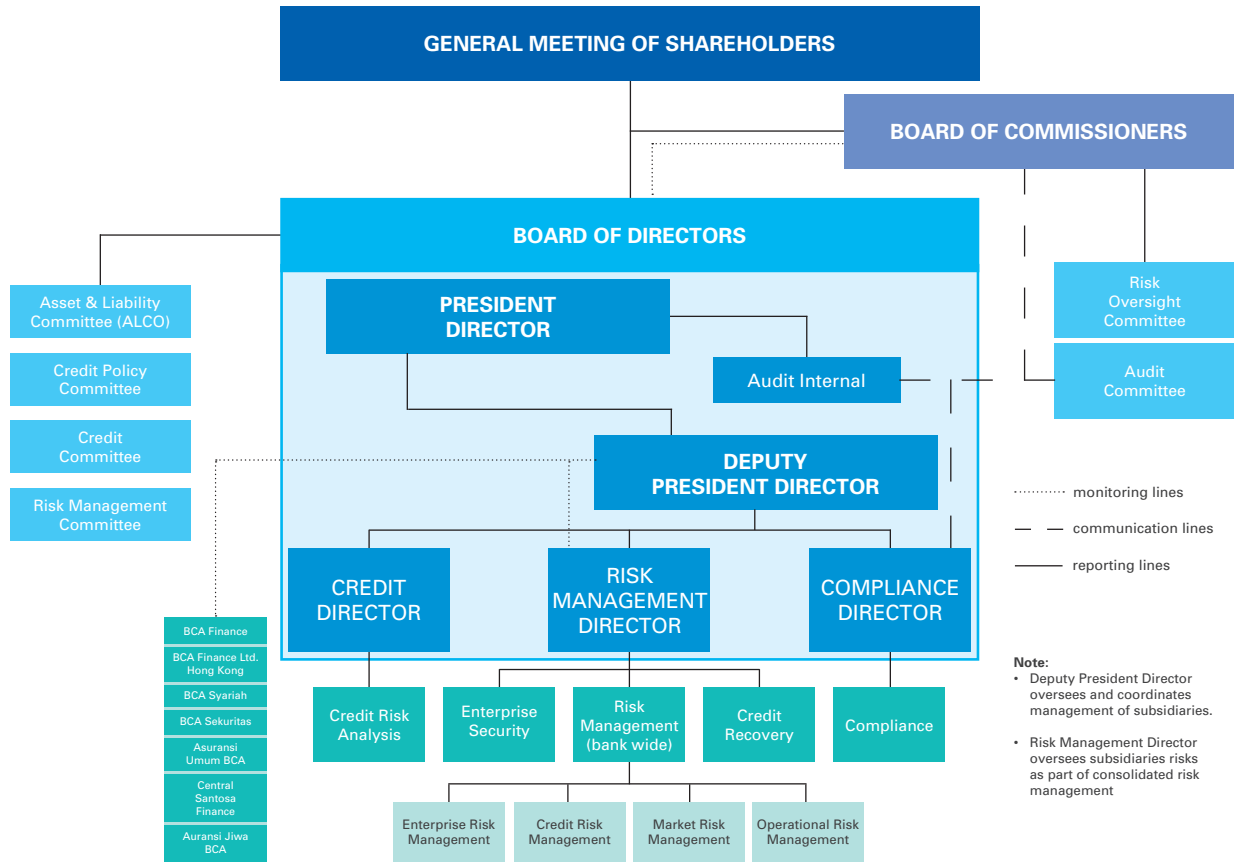

1. BCA's lending procedures and other operational procedures are clearly set forth in the Operating Manuals, Job Guidance, and Decisions and Circulars Letters.
2. Risk exposure is monitored regularly by the Risk Management Unit by comparing the actual risk against set risk limits.
3. Reports on risk trends, including among others Risk Profile Reports, Credit Portfolio Reports and Business Plan Progress Reports, are submitted to the Board of Directors on an accurate and timely regular basis.

I.D. Comprehensive Internal Control System

1. BCA's internal control systems policy comprises five components:
 - Supervision by management and development of a culture of risk control
 - Risk identification and assessment
 - Risk control activities and segregation of duties.
 - Accounting, information, and communication systems.
 - Monitoring and corrective actions against deviations
2. The Bank has in place the following:
 - business continuity plan and disaster recovery plan, to speed up the recovery process in the event of a disaster;
 - back up system, to prevent high-risk business failure.

3. All operational activities are based on the standards set forth in the job guidance manual, a detailed internal control system. Effectiveness of internal control is reviewed regularly by the Internal Control Unit in branches, regional offices and headquarters as well as by the Internal Audit Division.
4. All management and employees of the Bank have a role and responsibility in improving the quality and implementation of the Bank's internal control systems.

Risk Management and Internal Control Organization Structure

Implementation of Basel Accords

BCA continues to prepare for the Basel III framework on bank capital and liquidity standards by taking part to support the implementation of Quantitative Impact Study (QIS) and the preparation for setting the Liquidity Coverage Ratio (LCR) and Leverage Ratio standards which are planned for publication in 2015.

Risk Appetite

BCA defines risk appetite as the level and type of risk that BCA is willing to take in order to achieve its business objectives. The risk appetite set by the Bank is reflected in the Bank’s strategy and business objectives.

Stress Test

BCA regularly and continuously performs stress testing with a variety of scenarios as well as enhancing the factors and parameters of stress testing.

Generally, stress test scenarios consider several macroeconomic variables such as the BI rate, inflation rates, GDP, exchange rates, fuel prices and others. The method used to conduct stress tests in addition to the use of statistical models based on the historical data also allows management to input their best judgement as part of the stress test methodology. Stress testing is carried out to estimate the impact of changes in macroeconomic factors on the level of NPL ratios, profitability, liquidity and capital.

The results of stress testing conducted by BCA for credit, market and liquidity risk have been satisfactory and indicate that capital and liquidity would be sufficient to anticipate estimated potential losses.

II. BCA Capital

Capital management policy aims to ensure that BCA has a strong capital base to support the current expansion strategy, assure sustainable growth in the future, and to comply with the capital adequacy provisions set by the regulator.

A Capital Plan is prepared by the Board of Directors as part of the Bank's Business Plan and Annual Budget & Work Plan and approved by the Board of Commissioners. This plan is expected to ensure the availability of sufficient capital and the maintenance of an healthy capital structure.

In 2014, all capital requirements were met through organic capital growth driven by BCA's solid profitability and a balanced dividend distribution policy based on a target level for capital.

Dividend Policy

BCA determined the dividend payout ratio based on the Bank's profitability and capital needs for growth while taking into consideration the interests of the shareholders.

In the last few years BCA has gradually adjusted the dividend payout ratio to strengthen capital, particularly for supporting lending and new business lines as well as building capital in anticipation of the implementation of Basel III. Based on the results of the Annual General Meeting

of Shareholders on April 7, 2014, the shareholders approved the net income allocation in 2013 with the provision of cash dividends in the amount of Rp 3.0 trillion or Rp 120 per share (paid through the interim dividend in the amount of Rp 45 per share on December 17, 2013 and a final dividend of Rp 75 per share paid on May 20, 2014). The most recent dividend payout ratio stood at 20.8%, payable from the net income in 2013. BCA distributed a portion of the 2014 net income with an interim dividend of Rp 50 per share paid on December 23, 2014.

BCA sets the appropriate dividend payout ratio annually to ensure that the retained earnings will be able to support the capital necessary to meet growth targets and manage risk. The amount of the dividend payout ratio is determined by taking into account the latest business developments, particularly in the achievement of loan targets, and the need to maintain adequate capital.

Dividend Payout Ratio

Capital Requirement of Subsidiaries

The capital requirements of BCA's subsidiaries are currently not significant compared to BCA's capital position. The subsidiaries are projected to grow gradually, allowing the Bank to monitor the risks periodically and enabling the Bank to meet the capital requirements of the subsidiaries.

In 2014, BCA provided a Rp 300 billion capital injection to BCA Syariah as approved by the Indonesia Financial Services Authority (OJK) on June 18, 2014. Meanwhile, BCA and other shareholders provided Central Santosa Finance with a capital injection of Rp 200 billion, Rp 140 billion of which was contributed by BCA and BCA Finance with the approval from OJK on July 17, 2014. These capital injections are expected to expedite business developments at both companies.

Capital Structure Policy

BCA has a policy to maintain the capital structure and CAR at an adequate level to support business growth and to anticipate major risks, including but not limited to credit risk, market risk and operational risk that are inherent in the Bank's businesses. Tier I capital base accounted for 94.9% of total BCA's capital.

BCA's Capital Position

At the end of December 2014, the Capital Adequacy Ratio (CAR) was recorded at 16.9% (non consolidated), while the consolidated CAR was at 17.2%. Non-consolidated core capital at the end of 2014 stood at Rp 64.4 trillion, representing 94.9% of BCA's total capital, while the non-consolidated supplementary capital stood at Rp 3.5 trillion, or 5.1% of BCA's total capital.

III. Disclosure of Risk Exposures and Implementation of Risk Management

Following is a summary of the risk exposures faced by BCA in conducting business and the risk management framework designed to mitigate those risks.

III.A. Disclosure of Credit Risk Exposure and Implementation of Credit Risk Management

Organization of Credit Risk Management

BCA has established a structured credit risk management process in order to support sound lending principles with strong internal control.

1. **The Board of Commissioners** approves the Bank's credit plan and oversees its realization; approves the Bank's Basic Credit Policy and seeks explanations from the Board of Directors wherever the provision of credit deviates from the established policy.
2. **The Board of Directors** is responsible for the preparation of the Bank's credit plan and formulation of the Bank's credit policies; ensures the Bank's compliance with laws and regulations relevant to the field of credit and credit policies; and reports to the Board of Commissioners on matters such as the realization of the credit plan, irregularities in loan disbursement, loan portfolio quality and credit in the special mention or in the non performing loan category.
3. **Chief Risk Officer**, a member of the BCA Board of Directors, has signing authority for credit related to the feasibility of credit applications for credit recovery and in the Chief Risk Officer's capacity to provide advice from a risk management point of view on the feasibility of credit applications and the suitability of an individual credit or credit pool with the Bank's overall risk appetite.

4. **Work units** who perform functions related to credit risk management (The Business Development Units and Credit Risk Analysis Unit) are the risk owners responsible for the management of credit risk.

The Bank has dedicated committees that assist the Board of Directors in the lending process as follows:

1. **Credit Policy Committee**, has the principal function of assisting the Board of Directors in formulating credit policies, especially with regard to the principle of prudence in lending, monitoring and evaluating the implementation of credit policy, monitoring and regularly reviewing the progress and condition of the credit portfolio as well as providing advice and suggesting solutions for improvements based on the results of the Committee's evaluations.
2. **Credit Committee** has the principal function of providing guidance when a more in-depth credit analysis is required; provides decisions or recommendations on drafts of credit decisions related to large debtors, specific industries or special requests from the Board of Directors; coordinates with the Asset & Liability Committee (ALCO) in relation to the funding aspect of credit and corporate credit interest rate adjustments.
3. **Risk Management Committee** has the main function of developing policies, strategies and guidelines for risk management implementation; determines matters related to business decisions that contain irregularities; enhances the implementation of risk management based on evaluation of the implementation of an effective risk management process and system.

Risk Management Strategy for Activities with Significant Credit Risk Exposure

BCA formulates risk management strategies in accordance with the Bank's overall business strategy and in accordance with risk appetite and risk tolerance. Risk management strategy is structured to ensure that BCA's risk exposure is managed carefully in line with credit policy, the Bank's internal procedures, laws and regulations, and other applicable rules.

Structured risk management strategies are based on the following general principles:

- Risk management strategy should be long term oriented for the sustainability of the business by considering economic conditions and cycles,
- Comprehensive risk management strategy should identify and manage the risks of the Bank and its subsidiaries, and
- The expected capital adequacy should be achievable with the allocation of adequate resources.

Risk management strategies are prepared with consideration to the following factors:

- Economic and business development and the possible impact of the risks faced by the Bank.
- Organization of BCA, including the adequacy of human resources and supporting infrastructure.
- The financial condition of the Bank, including the ability to generate earnings and the Bank's ability to manage the risks arising from both external and internal changes.
- Composition and diversification of the Bank's portfolio.

Credit Risk Concentration Management Policy

Portfolio management manages credit risk by determining risk concentration limits for, among others, the industrial sector, foreign exchange, and certain types of loans as well as both individual and business group exposures. Along with the development of the ratings database, technology, human resources, the level of complexity of the Bank, the market and regulations, the Bank's portfolio management actively works to optimize the allocation of the Bank's capital to achieve an acceptable risk level/risk appetite and risk tolerance.

Credit Risk Measurement and Control

The Bank measures credit risk using Basel II based guidelines in accordance with Bank Indonesia Circular Letter No. 13/6/DPNP regarding Guidelines for Calculation of Risk Weighted Assets by using the Standard Approach which specifies that Indonesian banks use the Basel II standardized approach for measuring credit risk. For internal purposes, the Bank uses an internal ratings scorecard as a tool to assist with the credit decision process.

Credit risk management is executed through the establishment of an independent rating system for effective implementation of credit risk management processes, comprising:

- Evaluation of the credit administration process;
- Assessment of accuracy in the implementation of internal risk ratings and the use of other monitoring tools; and
- Performance effectiveness of work units or officers responsible for monitoring individual credit quality.

BCA exercises early detection to identify non performing or potentially problematic loans and makes every efforts to address such issues as early as possible. The Bank is proactive in managing the Non Performing Loans (NPL) portfolio.

Loans and Receivables that are Overdue and Impaired

Past due loans and receivables are defined as any loan or receivable that is more than 90 days overdue for payment or either principal and/or interest. Impaired loans and receivables are those financial assets of significant individual value that have objective evidence of impairment occurring after the initial recognition of the financial asset.

Disclosure of the Bank's net receivables - Bank only and consolidated - can be seen in Table 2.1.a and b; Table 2.2.a and b; Table 2.3.a and b.

Approach Used for the Formation of Allowances for Impairment

In anticipating possible impairment arising from the Bank's financial assets, it is necessary to establish Allowances for Impairment Losses. The Allowance for Impairment losses is adjusted on the basis of impairment under the implementation of Statement of Financial Accounting Standards (SFAS) No. 50/55.

Impairment evaluation is performed individually and collectively. The approach to calculating individual impairment takes the difference between the cash value of the estimated discounted cash flows based on the Effective Interest Rate (EIR) and the amortized cost at the time of impairment. Collective impairment is calculated statistically using the following statistical parameters:

- a. Probability of Default (PD) is the debtor's probability of failure to meet obligations, which is measured based on Migration Analysis and Roll Rates reviews.
- b. Loss Given Default (LGD) is the level of losses resulting from the debtor's failure to meet obligations. Calculating a reasonable LGD percentage requires an analysis of historical data.

Disclosure of movement allowance for impairment losses - Bank only and consolidated - can be seen in Table 2.4.a and b; Table 2.5.a and b; Table 2.6.a and b.

Standardized Approach to the Application of Credit Risk Management

In the calculation of Risk Weighted Assets (RWA) for credit risk, the Bank refers to Bank Indonesia Circular Letter No. 13/6/DPNP regarding Guidelines for Calculation of Risk Weighted Assets using the Basel II standardized approach for credit risk. RWA is generally calculated based on the ratings issued by rating agencies recognized by Bank Indonesia as stipulated in Bank Indonesia Circular Letter No. 13/31/DPNP regarding Rating Agencies and Ratings recognized by Bank Indonesia.

The use of ratings in the calculation of RWA credit risk is only used for claims on Governments of Other Countries, Public Sector Entities, Multilateral Development Banks and particular International Institutions, Banks and Corporates.

Disclosure of net receivables based on portfolio type and scale of rating - Bank only and consolidated - is presented in Table 3.1.a and b.

Counterparty credit risk arises from Over the Counter (OTC) derivative transactions and repo/reserve repo transactions, both on the trading book and the banking book.

Disclosure of counterparty credit risk: derivatives and reverse repo transactions can be seen in Table 3.2.a-c.

Credit Risk Mitigation

The main types of collateral accepted to mitigate credit risk are solid collateral defined as cash or land and buildings. These types of collateral have relatively high liquidity value and/or can be legally attached so that the Bank is able to liquidate collateral immediately on the debtor's/debtor group's loan becoming delinquent.

Collateral assessment is performed by an independent appraiser, except in certain remote areas where no independent appraiser is available, in which event the appraisal will be conducted by internal staff who are not involved in the loan processing. To exert control over the physical collateral pledged to BCA by the debtor, site visits are conducted periodically to review the status of the collateral. These reviews are performed by external parties, except in certain locations where no external reviewer is available, in which event an internal account officer will conduct the visit.

When processing credit, the main guarantors/warrant providers are also analyzed, and creditworthiness is determined by applying the Four Eyes Principle, where credit decisions are determined by the two parties, the business development aspect and the credit risk aspect.

Credit mitigation techniques are focused on strong collateral coverage. To further mitigate potential credit risks, the Bank's loan portfolio is well diversified with regard to loans category and industrial and economic sectors.

Disclosure of net receivables - Bank only and consolidated - by risk weight after calculation of credit risk mitigation impact is presented in Table 4.1.a and b.

Disclosure of net receivables and credit risk mitigation techniques - Bank only and consolidated - is presented in Table 4.2.a and b.

Calculation of RWA for credit risk using the standard method - consolidated - is presented in Table 6.2.1, 6.2.2, 6.2.3, 6.2.6 and 6.2.7.

Calculation of RWA for credit risk using the standard method - Bank only - is presented in Table 6.1.1, 6.1.2, 6.1.3 and 6.1.7.

III.B. Disclosure of Market Risk Exposures and Implementation of Market Risk Management

Market Risk Management Organization

The Board of Commissioners and the Board of Directors are responsible for ensuring that the implementation of risk management with regards to exchange rates and interest rates is in line with the Bank's strategic direction, scale, business characteristics and the Bank's exchange rate and interest rate risk profiles. This includes ensuring the integration of exchange rate and interest rate risk management with other risks that may affect the Bank's risk position.

The Board of Directors delegates its authority and responsibility to the parties listed below.

Party	Authority and Responsibilities
ALCO	Determines policies and strategies regarding foreign exchange rate and interest rate risks.
The Risk Management Unit	Supports ALCO in monitoring and measuring foreign exchange rate and interest rate risks.
Treasury Division	Manages the Bank's overall operations in foreign currency transactions, and interest rates on the trading book: <ul style="list-style-type: none"> - Responsible for maintaining foreign currency Net Open Position (NOP) and interest rate on the trading book and ensuring the Bank's compliance with Bank Indonesia regulations regarding NOP. - Responsible for managing Trading Marketable Securities and Foreign Currency Transactions in line with customer needs and/or income considerations.
Regional Offices and Branches	Responsible for managing foreign currency transactions in the respective regional offices/branches in accordance with predetermined limits. All regional/branch foreign currency transactions shall be covered by the Treasury Division. Limits for each region/branch are determined in accordance with operational needs.

The calculation of market risk to determine the Bank's capital requirements uses standardized methods defined by Bank Indonesia.

Trading Book and Banking Book Portfolio Management

Management of portfolios exposed to interest rate risk (on the trading book) and to foreign exchange risk is conducted by setting and monitoring the use of Nominal Limits (Net Open Position), Value at Risk Limits, Stress Loss Limits and Stop Loss Limits.

The valuation method is based on closeout prices or market price quotations from independent sources, including the following:

- Exchange Prices.
- Dealer screen prices.
- The most conservative quotations given by at least two (2) brokers and/or market makers.
- Where market prices are not available from independent sources, the pricing is done by setting a price based on established yield curve building principles.

Market Risk Measurement

For the purposes of monitoring market risk (exchange rate and interest rate risk), measurements are taken on a daily basis in the form of Value at Risk based on a full historical valuation method using 250 days data at a 99% confidence level.

For the calculation of minimum Capital Adequacy Ratio (CAR), market risk is calculated based on the Basel II standardized method as adopted by Bank Indonesia.

Disclosure of market risk – Bank only and consolidated – using the standardized method can be seen in Table 7.1.

Disclosure of market risk – Bank only – using the internal method (Value at Risk) can be seen in Table 7.2.a.

Scope of Trading and Banking Portfolios Accounted for by Capital Adequacy Ratio

Following is the scope of the portfolio coverage included in the CAR calculations:

- Exchange rate risk considers the trading book and banking book. Exchange rate risk can arise from foreign currency transactions (Today (TOD), Tomorrow (TOM), SPOT, Forward and SWAP.
- Interest rate risk takes into account the trading book. Interest rate risk can arise from securities transactions, as well as Forward and SWAP transactions.
- Equity risk (for subsidiaries) takes into account the trading book. Equity risk can arise from equity trading transactions that may be performed by subsidiaries.

Anticipation of Market Risk on Foreign Currency Transactions

In order to anticipate market risk in transactions associated with exchange rate and interest rate risks, steps are taken to establish and control market risk limits, such as Value at Risk, Nominal, Stress Loss and Stop Loss Limit, as well as conducting stress tests. For new products, the Bank will conduct assessments to identify and to mitigate market risk.

III.C. Disclosure of Operational Risk Exposure and Implementation of Operational Risk Management

Organization of Operational Risk Management

Bankwide Operational Risk Management is undertaken as follows:

1. **The Board of Commissioners and the Board of Directors** ensure adequate risk management implementation according to the characteristics, complexity and risk profile of the Bank as well as a good understanding of the type and level of risk inherent in the business activities of the Bank.
2. **The Risk Management Committee** ensures that the risk management framework provides adequate protection against risks faced by the Bank.
3. **The Risk Management Unit (SKMR)** ensures that the risks faced by the Bank are identified, measured, monitored, controlled and reported correctly through the application of an appropriate risk management framework; SKMR also provides input to the Board of Directors on the development of policies, strategies and the risk management framework.
4. **The Enterprise Security Work Unit** protects and secures information and the physical assets of the Bank; develops the Bank's ability to deal with emergency situations that threaten the business as an ongoing concern; and ensures that the application of information technology governance is in line with the Bank's policy.
5. **The Internal Audit Division** assures that business risks are managed properly and evaluates the adequacy and effectiveness of risk management and internal control.

6. **The Operation Strategy and Development Division** assists SKMR in implementing operational risk management programs and provides support to all work units in implementing SKMR programs.
7. **The Work Units** (business units and support units) are risk owners responsible for risk management in daily operations; they issue reports on operational risk events to SKMR.

Measurement and Identification of Operational Risks

Implemented in 2002, BCA applies a Risk Self-Assessment (RSA) methodology to identify and quantify operational risk across all work units in the Bank. A main function of an RSA is to cultivate strong risk culture and increase risk awareness as an important element of effective risk management. Developing a stronger risk culture is expected to improve risk control implementation amongst all employees in performing their daily activities and subsequently reduce overall risk.

The RSA methodology is further refined into a Risk and Control Self-Assessment (RCSA) model, which has been implemented in all branches and head office units that have been identified as having significant operational risks. In the RCSA methodology, branches and the head office conducts a process of identification and measurement of operational risks inherent to their respective work units and, based on this process, the work units determines the risk mitigation measures required to monitor, control, and minimize the risk. These are then reviewed and approved by the Risk Management Unit.

In addition to RCSA, the Bank has implemented a Loss Event Database (LED) and Key Risk Indicators (KRI) identification system. KRI is a method used to provide an early warning signal should the possibility of increased operational risk within a work unit arise. KRI has been implemented in every regional office and branch.

LED is designed to assist in recording and analyzing cases or events that could lead to a loss so that corrective action can be taken and similar cases can be prevented from occurring in the future. The ultimate purpose of the LED is to minimize the risk of operational losses. LED is also a means of operational loss risk data collection used by the Bank to determine the allocation of capital charges and for continuous monitoring of events that could lead to further operational losses. LED is currently implemented in all regional offices, branches and at head office.

The application of RCSA, LED and KRI is supported by the Operational Risk Management Information System (ORMIS). Currently all branches and head office units use ORMIS in their implementation of RCSA, LED and KRI.

Operational Risk Mitigation

To mitigate operational risk, the Bank uses the following:

- Policies, procedures and limits to monitor, measure and mitigate operational risks.
- Up-to-date policies and procedures in accordance with organizational development and changes in legislation and regulations.

- Integrated and comprehensive Business Continuity Management (BCM) plans to ensure operational continuity in running the business and serving customers.
- Internal control system, which in practice applies the segregation of duties principle (four eyes principle) and operates on a rotation system to avoid potential self-dealing and concealment of documents or possible fraudulent transactions.

Disclosure of quantitative operational risk - Bank only and consolidated - can be seen in Tables 8.1.a and b.

Risk Management of New Products and Activities

In line with the tag line "BCA Always by Your Side", the Bank continues to provide diverse banking products and services to meet customers' needs. The risks of those products and services are managed through the implementation of sufficient mitigation steps. Risk management is conducted based on internal regulations drawn up in accordance with regulatory provisions. Consideration is always given to the comfort and security of BCA customers in order to maintain and increase customer confidence in the Bank. New products or services launched in 2014 include Video Banking Services and Flazz Machines. At the end of 2014, the Bank participated in promoting the Cashless Society National Campaign through the planning of Digital Financial Services.

III.D. Disclosure of Liquidity Risk Exposure and Implementation of Liquidity Risk Management

Organization of Liquidity Risk Management

The Board of Commissioners and the Board of Directors are responsible for ensuring that liquidity risk management is conducted in accordance with the strategic objectives, scale, business characteristics and liquidity risk profile of the Bank, which includes the integration of liquidity risk management with other risks that may impact on the Bank's liquidity position.

The Board of Directors delegates liquidity risk authority and responsibility to the parties below.

Party	Authority and Responsibilities
ALCO	Determines policies and strategies regarding liquidity.
Risk Management Work Unit	Supports ALCO in monitoring and calculating liquidity risks.
Treasury Division	Manages overall operational liquidity of the Bank: <ul style="list-style-type: none"> - Responsible for monitoring Statutory Reserves and ensuring the Bank's compliance with Bank Indonesia regulations regarding Statutory Reserves. - Responsible for managing secondary reserves in order to maintain liquidity and seek income.
Regional Offices and Branches	Responsible for managing liquidity risk at the respective regional offices and branches.

Measurement and Control of Liquidity Risk and Early Warning Indicators for Liquidity Problems

Liquidity risk is measured using a model that is integrated with cash flow projection, maturity profile report and stress test scenarios. Liquidity risk management includes funding strategies that cover source diversification strategy and funding terms to support the overall business plan of the Bank. Daily liquidity management, high quality liquid assets and limits related to liquidity risks, as well as contingency funding plans are monitored and reported to mitigate liquidity risk.

Liquidity risk monitoring is conducted to ensure that in the event of potential increases in liquidity risk, the situation can be readily mitigated or that necessary adjustments can be made to liquidity risk management mechanisms in a timely manner.

Below are the activities involved in the process of monitoring liquidity risk:

- Monitoring of liquidity risk considers both internal and external early warning indicators of potential increases in liquidity risk.
- Monitoring of funding and the liquidity position includes:
 - Interest rate movement strategies, alternative investments for funds owners, changes in customer behavior, changes in exchange rate and interest rate differentials with the Bank's main competitors that affect changes in the structure of funds, funds volatility and core funds. Funds are thus monitored regularly (daily, monthly and yearly).
 - Monitoring of the liquidity position in the form of statutory reserves and cash as well as secondary reserves is done daily, weekly, monthly, and yearly.

- Monitoring of losses due to liquidity risk is evaluated through the costs arising from liquidity maintenance or losses caused by liquidity factors.

The Bank maintains liquidity reserves by preserving high quality liquid assets sufficient to meet its commitments to customers and other parties, including the provision of credit, return of customer deposits, fulfillment of operational liquidity needs, and ensuring that the amount of assets maturing in each period will cover the liabilities due to mature.

Disclosure of Rupiah and foreign exchange maturity profiles for the Bank alone and as a consolidated entity (according to Bank Indonesia regulations regarding the Implementation of Risk Management for Commercial Banks and Periodic Reports of Commercial Banks) are presented in Table 9.1.a and b, Table 9.2.a and b.

III.E. Disclosure of Legal Risk Exposure and Implementation of Legal Risk Management

Legal risk is defined as risk from lawsuits and/or weaknesses in legal documentation or contracts, or an absence of and/or change in regulation that causes a formerly compliant procedure to be no longer in accordance with the updated regulation, and litigation arising from third party claims against the Bank or claims by the Bank against a third party.

Organization of Legal Risk Management

In order to minimize legal risk, the Bank has established a Legal Group at the head office and legal units in regional offices to support the Bank in carrying out banking activities and mitigating legal risk. The Legal Group also has the duty and responsibility of supporting and safeguarding the legal interests of the Bank with respect to the prevailing laws and regulations as it carries out banking activities.

Legal risk control

BCA has mitigated legal risk through the following:

- Legal Risk Management Policy; having internal regulations to govern the organizational structure and job description for the Legal Group; standardizing legal documents.
- Socializing the impact of new regulations applicable to BCA's banking activities and the various modus operandi of criminal and fraudulent banking activities as well as the legal guidelines for prosecuting such crimes to branch officers and related work units.
- Registering intellectual property rights for the Bank's products and services as well as securing ownership of the Bank's assets, such as rights to land and buildings owned by the Bank, with the appropriate authority.
- Monitoring and taking legal action on violations against the Bank's assets, including infringement of intellectual property rights belonging to BCA.
- Identifying, monitoring, analyzing and quantifying potential losses that may arise in relation to legal cases.

III.F. Disclosure of Strategic Risk Exposure and Implementation of Strategic Risk Management

Strategic risk can occur as a result of inaccuracies in management decisions and/or inappropriate implementation of strategic direction and failure to anticipate changes in the business environment.

Organization of Strategic Risk Management

In an effort to limit the occurrence of strategic risks, the Board of Directors has developed strategic plans and business initiatives. These are outlined in a 3-year business strategy blue print (the Bank Business Plan) and a one-year business plan and budget (Annual Budget & Work Plan). The Bank Business Plan and the Annual Budget & Work Plan also require the approval of the Board of Commissioners. BCA has a Corporate Planning Sub-Division to support and monitor the formulation and the implementation of the Bank Business Plan and the Annual Budget & Work Plan by preparing reports comparing the business plan and budget with their realization and conducting regular reviews of both financial and non-financial business targets. The Bank Business Plan and the Annual Budget & Work Plan are compiled through a series of discussions involving the Board of Commissioners, the Board of Directors and other management.

Policies to Identify and Respond to Changes in the Business Environment

In order to identify and respond to changes in the external and internal environment and business conditions, BCA conducts:

- Regular reviews of the Bank Business Plan and the Annual Budget & Work Plan in accordance with business developments and the state of the Indonesian economy.
- Reviews of business targets with consideration to the current economic situation and the forecast of the coming

year while emphasizing the principle of prudence, attention to the capacity and capabilities of BCA and trends in banking competition.

BCA's strategy is formulated with reference to the relevant Bank Indonesia and Financial Services Authority regulations and potential impacts on the Bank's capital related to the Capital Adequacy Ratio (CAR) based on risk appetite, risk tolerance, and considering the Bank's capabilities.

Measurement of the Bank Business Plan Progress

To measure progress in achieving the business plan, the Bank conducts the following activities, among others:

- Identifying, measuring and monitoring strategic risk as well as compiling quarterly strategic risk profile reports.
- Compiling reports on the realization of the Bank Business Plan, which includes financial performance (actual vs. budgeted), realization of corporate/divisional work programs and the realization of branch network development.
- Regularly monitoring changes to the business environment and developments in the Indonesian economy.

III.G Disclosure of Reputation Risk Exposure and Implementation of Reputation Risk Management

Reputation risk can occur as a result of reduced levels of trust from stakeholders triggered by negative perceptions of the Bank.

Organization of Reputation Risk Management

BCA has a strong commitment to managing reputation risk. To this end, the Bank has established the Halo BCA Contact Center and Customer Care that specifically deals

with customer complaints by phone, mail, email, and social media 24 hours a day, every day. In handling customer complaints, Halo BCA Contact Center and Customer Care coordinates with other related units, including the Consumer Card Work Unit, the Consumer Credit Work Unit and the Electronic Banking Services Center, to respond to potential reputational risk events.

Policies and Mechanisms of Reputation Risk Control

In order to manage reputation risk, the Bank implements the following:

- Establishment of provisions for customer complaints that clearly define the policies, procedures, work units that monitor and handle customer complaints, including the format of reports made to Bank Indonesia or Indonesia Financial Services Authority.
- Monitors customer complaints and routinely reports the results to the head of each unit and to the Board of Directors. These reports help the Bank to better handle complaints.
- Develops infrastructure, including the implementation of appropriate software and hardware; develops and manages procedures; develops management information system infrastructure to facilitate monitoring and to support the speed and quality of work in responding to and monitoring customer complaints.

Reputation Risk Management at Times of Crisis

To manage reputation risk in times of crisis, the Bank has conducted the following:

1. Implemented Crisis Management, which includes:
 - Crisis Management Policy, a strategy to manage disorder or events that disturb the Bank's services and reputation, as well as those with the potential to cause disruptions.

- Crisis Management Team, responsible for coordinating the process of crisis management.
 - Crisis Communication Protocol, to coordinate crisis communications to internal and external parties, including to the mass media. Clear chains of communication and the person in charge of communications have been established for all stages of the crisis.
 - Crisis Management Guidelines, including emergency responses, to facilitate customer service and transactions in the event of a crisis or emergency situation.
2. Developed a business continuity plan and a disaster recovery plan, designed to speed up the recovery process in the event of a disaster.
 3. Installed backup systems to prevent high risk business failure.

III.H. Disclosure of Compliance Risk Exposure and Implementation of Compliance Risk Management

Compliance risk is the risk arising should the Bank not comply with and/or implement laws and regulations.

Organization of Compliance Risk Management

In order to minimize compliance risks, all organizational lines need to be responsible for the management of compliance risk in all activities of the Bank. The Board of Commissioners is responsible for approving risk management policies and providing advice. With the assistance of the Audit Committee and Risk Oversight Committee, the Board of Commissioners supervises the implementation of compliance risk management.

The Compliance Director, assisted by the Compliance Unit, is responsible for ensuring compliance and minimizing compliance risk by formulating compliance risk management policies and procedures in the monitoring and the implementation of the compliance function. The Compliance Unit is independent from other working units. The results of the Compliance Director's activities are reported to the President Director and brought to the attention of the Board of Commissioners. The Compliance Unit is responsible for the implementation of the Bank's Anti Money Laundering and Combatting the Financing of Terrorism programs in BCA.

Business units at head office and branches are the front-line in ensuring all business activities are carried out in accordance with the relevant regulations.

Risk Management Strategies Associated with Compliance Risk

BCA has a strong commitment to comply with prevailing laws and regulations and actively take steps to correct any weaknesses. This is in line with BCA's compliance risk management strategy, which contains policies to always comply with the applicable regulations, foremost through proactive prevention (ex-ante) to minimize any occurrence of violations, and through curative action (ex-post) to take corrective actions on any violations.

Compliance Risk Monitoring and Control

In order to control and minimize compliance risk, the Bank has taken the following steps, among others:

- Identify sources of compliance risk.
- Perform gap analysis between new and previous provisions and accordingly make the necessary changes to internal policies and regulations, as well as the application of information systems.

- Measure and monitor compliance risk exposure on a regular basis; results are discussed with the Risk Management Unit and then reported to the Director of Compliance, who finalizes decisions and prepares the compliance risk profile report.
- Socialize and consult on provisions of various regulations.
- Examine compliance in the implementation of provisions.
- Develop a compliance matrix as a means of monitoring commitment to comply with rules issued by regulators.
- Monitor suspicious financial transactions regularly with implementation of Anti Money Laundering protocols, which are regularly audited by internal and external auditors.

In order to improve the effectiveness of internal control, coordination is maintained between the Risk Management Unit, Internal Audit Division and the Compliance Unit through regular meetings and intensive communication. Problems associated with internal compliance control, particularly in addressing potential compliance risks, are comprehensively assessed, allowing the formulation of effective measures.

IV. Consolidated Risk Management

In the consolidation of risk management, BCA refers to Bank Indonesia Regulation No. 8/6/PBI/2006 dated January 30, 2006 regarding the Application of Consolidated Risk Management for Banks Exercising Control Over Subsidiaries.

Application of consolidated risk management includes the following:

1. Active supervision by the Board of Commissioners and the Board of Directors.
2. Adequacy of risk management policies, procedures and determination of risk management limits.
3. Adequacy of identification, measurement, monitoring and mitigation risk processes as well as risk management information system.
4. Comprehensive internal control system.

Implementation of the above four pillars is adapted to the characteristics of the business and resource capabilities of each subsidiary.

The Bank's subsidiaries that fall within the scope of consolidated risk management are BCA Finance, BCA Finance Limited, BCA Syariah, BCA Sekuritas, BCA Insurance and Central Santosa Finance.

V. Application of Integrated Risk Management

With the issuance of Indonesia Financial Services Authority Regulation No. 17/POJK.03/2014 dated November 18, 2014 on Integrated Risk Management For Financial Conglomerates, BCA has conducted the following:

1. Appointment of Director in charge of risk management as the Director in charge of Integrated Risk Management with the function to implement Integrated Risk Management.
2. Preparation of the formation of an Integrated Risk Management Committee.
3. Identification and preparation of the Risk Management Unit organizational structure in order to develop and support an integrated risk management framework.
4. Identification of subsidiaries and affiliated companies included in the Financial conglomerate for integrated risk management purposes.
5. Socialization and coordination with those subsidiaries and affiliated companies.

The summary of risk management implementation at each subsidiary

PT BCA Finance	
Active Supervision by the Board of Commissioners and the Board of Directors	Active supervision is conducted by the Board of Commissioners and the Board of Directors through the establishment of the following: <ul style="list-style-type: none"> • Audit Committee at the level of the Board of Commissioners, and • Risk Management Committee and Asset Liability Committee (ALCO) at the level of the Board of Directors

Human Resources

Number of Employees

22 thousand

Serving millions of customers across Indonesia

Developing a well-trained and dedicated employee base allows BCA to strengthen customer relationships through offering effective and timely solutions that meet customers' financial needs

Quality human resources are essential in maintaining BCA's competitive edge and supporting the Bank's business strategy. BCA focuses on enhancing the capability and skill base of human resources, both through ongoing professional training and by recruiting quality staffs. Accordingly, BCA has instituted a structured employee recruitment and competencies development program as well as a progressive career development program to better prepare staffs for future leadership and strategic positions.

Corporate culture is cultivated through a series of programs designed to internalize BCA's Vision, Mission and Core Values. A common culture is imperative for the Bank in order to ensure that the business of the Bank is carried out in line with the overall strategy and direction of BCA.

Maintaining a well-trained and dedicated employee base allows BCA to strengthen customer relationships by being able to offer effective and timely solutions that meet the customers' financial needs. The Bank's achievements in developing its human capital have made BCA one of the employers of choice in Indonesia and garnered public recognition, including from SWA Magazine, where the Bank received high praise in the 2014 HR Excellence Awards.

Training and Development

BCA offers various training and development programs designed to equip employees with the skill sets required to excel in today's financial world and to develop a shared culture in accordance with the Bank's core values. Employee training and development activities are primarily delivered at the BCA Learning Center.

Through a combination of in-house and external programs, BCA Learning Center focuses on programs related to banking operations, payment settlement services, credit and marketing, internal control and risk management in line with the overall strategic

direction of the Bank. BCA Learning Center also considers the development of employees' soft skills to be as equally important as the development of technical job skills. To that end, BCA Learning Center offers various programs in leadership, personality development and coaching practice, as well as promoting membership in special interest clubs and activities.

Throughout 2014, 55,713 trainees participated in 1,785 classes for a total of 241,909 training days. In addition to face-to-face training, the Bank continues to develop technology-based learning programs to maximize efficiency and practicability. Since 2009, BCA has provided training through e-learning media, which increases accessibility for mass participants. E-learning materials are regularly enhanced and updated to assure that the material is always relevant and of high quality. Network capacity is continually upgraded to support these e-learning services for easier access at all branches, regional offices and headquarters with minimal time constraints. Moreover, the Bank uses interactive training methods, such as Video Based Training, which continues to grow and is attracting more and more participants in remote areas. The total number of e-learning participants in 2014 reached 18,443, a significant increase compared with 12,863 participants in 2013.

BCA continuously improves and refines programs, training materials and learning support facilities. In 2014, the Bank began a pilot project to introduce gamification, a learning process that makes use of interactive and entertaining educational games to develop both technical and soft skills. Results of the pilot project have proven gamification to be a very promising approach to training as it facilitates faster learning of the key concepts with high retention of material learned.

As a means for self-development, in 2014 the Bank hosted BCA Innovation Awards to facilitate employee innovation and self-expression. This event provided

an opportunity for employees at all levels to channel creative ideas in innovating and developing banking services and solutions and in improving internal processes.

Recruitment and Career Development

BCA understands that the development of well qualified human resources relies on an effective recruitment process that pays close attention to the specific needs of the organization. BCA is stepping up its efforts to recruit staffs who can meet the changing requirements for employee skills in an evolving market and to replace members of the workforce who retire or resign. In 2014, BCA recruited a total of 1,167 individuals as permanent staffs and accepted 3,429 people to work under Bakti BCA internship program on a contract basis as tellers and customer services.

In order to find and employ talented candidates, BCA continues to foster relationships with various educational institutions as a source of prospective candidates and actively works to improve its reputation as a leading choice employer in Indonesia. In 2014, the Bank organized several Job Fairs and Campus Hiring events, inviting students to visit the Bank and offering long-term internships for perspective hires. BCA also continues to expand its recruiting channel network in order to broaden the scope of hiring and deepen the pool of candidates by advertising in colleges and promoting online recruitment via karir.bca.co.id. BCA actively sponsors high-profile university events, such as the 5th annual PPM Regional Business Case Competition (RBCC), a case study on BCA held by PPM School of Management, involving master's students from 26 business schools and universities in Southeast Asia and China. The Bank will continue to support similar programs in its efforts to promote BCA as an employer of choice.

In 2014, the Bank hired approximately 366 graduates to participate in BCA's management development program or the BCA Development Program (BDP). Trainees must complete a comprehensive training program for a full year before being placed in various work units as account officers, relationship officers, branch operations staff, and in positions in regional offices and in the head office. This long-running program has been consistently implemented since

1991 with a number of successful BDP graduates now occupying important positions at the Bank.

To meet the manpower needs of commercial and SME lending, the Bank conducted the Account Officer program. Similar to BDP, Account Officer program's learning approach begins with one year comprehensive training program before placing candidates in various branches in their areas of origin as account officers. The aim of this program is to recruit and ultimately place well-trained employees in their home regions, where it is hoped they can contribute through their knowledge of both the business industry and the local culture.

In 2014, the Bank introduced a new program dedicated to creating a cadre of frontline customer service staffs, tellers and back office staffs. Throughout the year, a total of 205 people participated in this program consisting of 13 different groups. The program also includes training in customer relationship management, with the new role of relationship officer being developed to maximize customer engagement and maintain customer relationships and satisfaction.

BCA recognizes the regeneration process as an essential element in maintaining and developing the Bank's long-term competitive advantage. As such, BCA strives to offer ample opportunity for career training and to prepare the younger generation for greater responsibilities. The Bank regularly organizes career development programs to prepare employees for higher positions and to fulfill staffing needs in strategic position. High potential employees are identified through a scoring system designed to analyze the strengths and competencies of employees and implemented by a panel consisting of the department of Human Capital Management and related work units. These potential talents are then proposed as candidates for a tailored management succession plan at various levels in the organization. Through this program, the relevant work units along with the department of Human Capital Management then monitors and evaluates the performance of each candidate, as well as providing them with appropriate training and guidance. In 2014, 1,517 employees graduated from these targeted career development programs.

BCA also provides the opportunity for employees who have been placed in the talent pool to receive scholarships for master's degrees (S2) and to enroll in executive education programs in Singapore, China, Europe and the United States. BCA prioritizes internal resources development to fulfill staffing needs but also recruits external talents to balance overall human capital needs.

BCA continues to foster a culture of coaching in order to maximize employee potential. Since 2013, structured coaching activities have been conducted at every level of the organization and are assessed as part of the performance evaluation of the leaders of BCA. Through the coaching culture ambassador program, BCA selected 12 main branches heads as coaching ambassadors to convey the importance of effective coaching. These 12 main branches heads are representative of each regional office and are equipped with the knowledge and skills for effective coaching, which they can then put into practice in their units and pass on to other units and branches in their respective regions.

BCA implements an attractive rewards program and shows appreciation to employees in an effort to maintain and improve their performances based on the achievement of predetermined targets. Since 2012, a portion of employees' annual bonuses have been paid in the form of BCA shares acquired through the Indonesia Stock Exchange. The bonus shares are held for 3 years before the employee has the right to sell. The bonus shares scheme is designed to enhance the sense of belonging and community among the BCA family and ultimately is hoped to maintain employee loyalty throughout BCA.

Community of Practice & Team Engagement

As a learning organization, BCA continues to implement Knowledge Management programs designed to capture and disseminate the valuable experiences of individual employees to the broader BCA family. In 2009, BCA introduced the Community of Practice (COP) program which serves as a tool for employees to share their knowledge and expertise across work units. In addition, COP is also useful to facilitate interaction between team members to form a stronger unity and strengthen a BCA culture.

BCA also conducts Community of Practice amongst the senior leaders of the Bank. At this level, this program is useful for socializing updates from the various work units. COP also invites external speakers or experts from different backgrounds and with many experiences. Through the Community of Practice, it is hoped that BCA leaders can gain new knowledge and engage in social interaction, ultimately enhancing team engagement.

BCA, in collaboration with Gallup Polling Group (Gallup), conducts surveys on employee engagement at all levels. The Bank's first survey was conducted in 2011 and has been repeated on an annual basis. The surveys have continued to show improvement and positive results over the past four years. BCA believes that a strong culture of team engagement is essential to ensure the best service for customers and to support effective interaction among team members. BCA socializes team engagement through e-learning channels and provides a means for sharing as part of knowledge management.

Since 2013, the Gallup results, coaching activities and BCA's learning culture are used as performance indicators for middle to senior management. These programs have the main goal of maximizing employee satisfaction and ultimately enhancing employee retention.

The Bank endeavors to broaden horizons and expand BCA's knowledge sharing culture to its customers and the public via the Indonesia Knowledge Forum (IKF), which was first held in 2012. In 2014, the IKF presented the theme "Moving Our Nation to the Next Level", which introduced an innovative paradigm of leadership called 'technopreneurship'. The Forum invited as speakers individuals who have achieved success in various industries and from a wide variety of backgrounds. Speakers have included Mrs. Marie Elka Pangestu, a former Minister of Tourism and Creative Economy, and Mr. Ridwan Kamil, the Mayor of Bandung. Through experience sharing coupled with academic research, these forum activities offer added value for all participants, as well as the opportunity for BCA employees, customers and the general public to interact.

Work Life Balance

BCA believes that employees will be more productive when there is a well-maintained balance between work and personal life. To that end, the Bank offers a wide range of activities and training that not only meet the demands of employees' professional lives, but also satisfy their needs as individuals. BCA strives to provide a comfortable working environment and to foster a BCA family with maximum engagement by all staff.

BCA provides a variety of training programs to equip individual employees with skills and support as they enter into the various stages of life, such as 'Ring The Bell' training to encourage employees to plan for their retirement in the future, 'Beautiful Life & Counseling' to prepare employees for retirement, 'Rebuilding Passion & Productivity' to improve morale and productivity, and 'New Me' to encourage employees to recognize and develop their personal identities.

BCA is home to a wide variety of communities that facilitate employees' creativity and support their hobbies. Some of these communities include AsiaLens for photography enthusiasts, AsiaBike for those who like to cycle and AsiaFish for employees whose hobby is fishing. In addition, the Bank also organizes a variety of activities that support the physical health of employees, such as yoga, futsal, basketball and more. In the field of art, AsiaWangi is available to employees who are interested in preserving the culture of the Indonesian puppetry tradition, Wayang.

Going Forward

Looking to 2015 and beyond, the Bank will continue to develop its human capital and enhance employee engagement by seeking new programs and initiatives to create a positive and conducive working environment.

With comprehensive training programs and attention to work-life balance, the Bank aims to develop as an employer brand. BCA will benefit from this branding when approaching targeted universities to secure the highest quality new recruits to meet the Bank's ever changing staffing needs.

To support the growing needs for training, BCA is constructing a new training center, which is expected to be completed by mid-2015. The training center is designed to have comprehensive facilities including training classes, accommodation and conference rooms. Its modern design and suite of training facilities are based on the latest technology in order to ensure that it will be a valuable source of education to create reliable human resources for the Bank.

Network and Operations

Number of ATMs

16,694

Contributed the highest number of transactions

BCA operates a multi-channel network consisting of a nationwide branch network and best in class electronic delivery channels

Service quality is essential to remaining at the forefront of an increasingly competitive banking industry. As such, the Bank continues to improve its systems, procedures and network reliability. To accommodate its growing customer base, the Bank further expanded its banking network including electronic delivery channels with the opening of new branches, Automated Teller Machine (ATM) and Electronic Data Capture (EDC) installments and additional banking services features. Network expansion requires an increasing number of qualified employees. BCA consistently enhance the skills of frontliners and business enablers to ensure the Bank's position as one of the leading banks in Indonesia.

While BCA still believes that expanding the physical branch network is important, the Bank is of the view that electronic banking will grow faster than branch banking and will become a core necessity in the years to come. In line with this concept, BCA has put increasing efforts into boosting electronic delivery channels in recent years and has been rewarded in the effort by seeing customer preference shift to increased usage of electronic delivery channels. The greater role of electronic banking translates to lower cost per transaction and minimizes the need for the rapid expansion of higher-cost traditional branches.

Focus on Customer Service

Services offered by BCA are constantly evolving in line with the needs and demands of the Bank's customers. To that end, efforts are directed towards developing employees in their ability to provide complete, efficient and timely banking solutions. In order to encourage the growth of a service culture at BCA, in 2010 BCA introduced the SMART SOLUTION program as an expansion of the SMART program established in 2001. "SMART" is an abbreviation of Sigap (active), Menarik (attractive), Antusias (enthusiastic), Ramah (friendly) and Teliti (accurate), while "SOLUTION" stands for Simak (attentive); Open-minded; Lengkap (comprehensive); Utamakan kebutuhan nasabah (prioritizing the needs of customers); Telling solutions; Inisiatif (initiative); and ON-time follow-up.

BCA regularly assesses customer satisfaction and measures service quality through annual Gallup Engagement Ratings which have continuously posted positive and improving results. As part of the SMART SOLUTION program, the Bank also organizes BCA Awards as a form of appreciation for the Bank's employees that recognized outstanding individuals as well as work units at headquarters, regional offices and branches with outstanding performance and services. In 2012, the Bank introduced the Relationship Officer (RO) concept to enhance the effectiveness of customer service at branches. The RO is intended to improve customer service in facilitating comprehensive solutions for customers.

The SMART SOLUTION program, RO initiatives and the Gallup periodic measurement of customer satisfaction reinforce the Bank's focus on service and sales.

As part of the Bank's commitment to maintain the highest standards in customer service, BCA manages an internationally recognized customer care helpline, HaloBCA, staffed with well trained operators standing by 24 hours a day. HaloBCA serves as a call and solution center to assist in product and service inquiries, technical support, and tailored product recommendations for each individual customer. As a demonstration of service excellence, HaloBCA received several national, regional and international awards in 2014. Awards received include the "The Best Mega Contact Center in the World" and "Top Ranking Performers - Asia Pacific 2014" from Contact Center World, as well as "The Best Contact Center Indonesia 2014" from Indonesia Contact Center Association (ICCA).

BCA is optimistic that these efforts will help the Bank to maintain and improve the quality of its services and financial solutions offered to customers.

Network Infrastructure Development

BCA operates a multi-channel network, consisting of branches and electronic delivery channels, to provide customers with flexibility in their transaction banking

activities. The Bank's varied network spans across the Indonesian archipelago, with main branches, sub-branches and cash offices to best meet the many and differing needs of customers. BCA's electronic delivery channels include ATMs, EDCs, internet banking and mobile banking. This multi-channel network is interconnected and fully integrated to maximize convenience for customers. In an effort to ensure security and a fast response time at all times, BCA integrates communication protocols and systems with redundancy backup through two complementary data centers in Jakarta. BCA also operates a disaster recovery center in Surabaya to minimize the risk of system failure.

To further extend the reach of its services, in 2014 the Bank opened 13 new branch offices and 34 cash offices. BCA also installed 2,646 ATMs. As of December 2014, the Bank operates a total of 1,111 branch offices (130 main branches, 838 sub branches and 143 cash offices), 16,694 ATMs and hundreds of thousands of EDC machines.

These additions to the network were placed in strategic locations such as trade centers, shopping centers and residential areas. To ensure each new location will operate efficiently and can accommodate growth in customer transactions, BCA conducts careful research and studies in demographic trends, branch concentration, market size and potential demand in that location. When there is an indication of increasing transaction volumes, BCA will

consider upgrading the branch capacity or opening a sub-branch or cash offices to maintain transaction convenience. In addition, the Bank has embarked on a national program to renovate and improve existing branches to ensure a satisfying banking experience for customers.

While BCA continues to recognize the need to expand physical branches, the Bank believes that Indonesia will experience robust growth in electronic banking in the future. To support this growth, BCA has been investing aggressively in ATMs, IT infrastructure, internet banking, mobile banking, and data centers. These efforts have been supported by educating customers on the convenience and security of using these electronic channels. BCA is pleased to see that these efforts have been fruitful, with customer preference shifting to electronic channels thereby leading to less crowded branches and enhanced customer satisfaction. BCA has witnessed significant growth from electronic delivery channels to overall transaction volumes over the last several years. This trend reinforces BCA's strategy to emphasize network expansion of electronic delivery channels that have the added benefit to the Bank of lower cost per transaction when compared to traditional branches.

In this era of rapidly increasing use of electronic banking services, BCA is developing a new digital banking service outlet called myBCA (previously called Electronic Banking Center) with the theme "My Bank, My Way". MyBCA is currently available

in three shopping centers, Ciputra World and Grand City in Surabaya and Gandaria City in Jakarta. MyBCA evolved from the concept of traditional ATM centers, and presents new digital features including HaloBCA call center with video call features and Flazz card vending machine.

In 2014, the Bank continued to refine MyBCA services, including through the addition of video assistance for account openings for Tahapan Xpresi (savings accounts targeted for young people), credit card applications, KeyBCA token applications, and Xpresi passport card replacement requests. With the implementation of video banking machines, customers can now access banking services during the operating hours of the shopping centers where myBCA branches are located. The process of opening new accounts through Video Banking runs from data entry to the printing of the Xpresi passport card, which is available in a variety of designs. The Bank plans to add several myBCA services in selected malls throughout the country due to the positive customer reception of myBCA .

Supported by the scale of its business, the Bank is able to invest substantially in developing its multi-channel banking network to continuously improve the quality of services to its customers.

Process Efficiency

BCA consistently refines its processes and infrastructure and streamlines its various systems and procedures to support efficiency while operating within the limits of precautionary principles and industry regulations.

BCA has automated several systems in its branches, including the use of machines to increase the productivity and accuracy of teller services, such as teller-assisted machines. The Bank also start to automate customer data validation, particularly for opening new accounts, by utilizing access to the Government's electronic-based demographic data. These various automation measures are taken to improve efficiency and provide the best service to BCA customers while increasing employee productivity at the branches. Through automation and the use of technology, it is hoped that branch office staff will be more focused in providing solutions to BCA customers.

To minimize operational expenses at the branches, BCA continues to drive increasing usage of electronic delivery channels for customer transactions and various banking services. The Bank now provides a web-based system for the opening of savings accounts and applications for mortgages, vehicle loans and credit cards. This online system will improve efficiency by simplifying the mechanism of account openings and the mass processing of individual loans. Beginning in 2013, the Bank introduced Cash Recycling Machine (CRM) for more efficient cash handling operations. CRM allows for both deposits and withdrawals by recycling deposited cash for later withdrawals without the need to refill the machine with cash.

In 2014, the Bank continued to embark on major projects focused on efficiency. Ongoing initiatives include the development of Cash Processing Centers, the enhancement of Credit Service Centers, and the implementation of a continuous improvement culture. The Bank is committed to pursue efficiency and achieve higher quality of operations, which in turn enhance business quality.

Looking Ahead

BCA will continue to invest in developing infrastructure for the electronic and branch banking network. The Bank will also further diversify the forms and concepts of branches with branches tailored to meet the needs of target customers. On December 2014, BCA started two pilot projects to develop a new concept of smaller branches equipped with a set of electronic devices to complement the existing branch banking format.

With support from banking regulators and by taking advantage of the latest technological developments, the Bank is exploring opportunities to expand the scope of its services in the community to reach beyond the existing customer base. On this front, the Bank is developing agent-based branchless banking services in 2015.

The recruitment and development of relationship officers at branches will continue in 2015 in an effort to further enhance customer relationship management. The Bank believes that a close relationship with clients is the cornerstone to generating solid business and financial performance.

Information Technology

Internet Banking Transaction Value

Rp **15** T/day

Dual mirroring world class data centers combined with a strong network handled high volume customer transactions

A reliable information technology infrastructure is a major prerequisite to support the rapidly increasing volume of customer transactions

As one of the leading transaction banks in Indonesia, it is crucial for the Bank to ensure that all banking services remain reliable, secure and recoverable at all times. To that end, BCA focuses on enhancing information technology infrastructure to keep pace with the Bank's growing transaction volume and recent developments in technology.

In line with an ever-changing technological infrastructure, BCA refined the Bank's system development process and the information technology organizational structure by combining several work units according to their primary functions. This reorganization is intended to provide more productive and responsive support for the needs of customers and of the Bank's business units.

BCA's focus on enhancing the capacity and the capability of its information technology will allow the Bank to maintain its core strength in transaction banking in an environment of changing customer behavior that is influenced by the rapid development in information and communication technology.

Solid Information Technology Infrastructure

A reliable information technology infrastructure is a major prerequisite to support the rapidly increasing volume of customer transactions.

In 2014, BCA rejuvenated the core network hardware, servers and other devices that had reached the end of their useful lives. The rejuvenation was also carried out for mainframe operating systems, databases and other servers that are no longer supported by the vendors. The capacity of the network and hardware that supports core banking system processes was also increased to aid in ongoing business development.

BCA implements high-capacity redundant communication systems to maintain the availability and reliability of the Bank's banking network nationwide. Network redundancy is an important

aspect of the Bank's information technology systems in order to operate a reliable infrastructure network with real-time performance. Network redundancy is expected to mitigate system failures and allows the network to independently recover from equipment damage without system disruption or data loss.

As part of the redundancy policy, BCA manages two data centers in Jakarta. Each data center is capable of handling the entire volume of all customer transactions independently. The two data centers were designed to manage data redundancy for the purpose of maintaining business continuity in the event of a system failure at one of the locations.

In addition to these two data centers, the Bank also maintains a Disaster Recovery Center (DRC) in Surabaya. The DRC is designed to integrate fully with the two mirroring data centers. As a leading national transaction bank, BCA is committed to ensuring that the Bank is well prepared in the event of a disaster so that the BCA will remain operational with minimal downtime. Surabaya was selected as the location for the DRC and as a business continuity platform due to the relatively low natural disaster risk, infrastructure availability and the relatively high number of trained employees in Surabaya. The Surabaya DRC also serves as a test center for new products and services and has the capacity to be used as a third data center.

Increased Reliability of Banking Transactions

The enhancement of electronic banking services capability was one of top priorities for BCA in 2014. The electronic banking facilities were upgraded continuously throughout the year with new features added to increase convenience for customers in making transactions. Increased functionality and the refinement of multi-channel integration are viewed as important steps to entice customers to use the Bank's electronic channels rather than the branch network for their day-to-day transaction activities.

The speed and efficiency of making changes to ATM menus increased significantly with the implementation of a Multi-Vendor Application system that allows changes to be made once and deployed across ATMs of various brands. In 2014, functionality was added for customers to top up pre-paid Flazz card balances through ATM machines. Previously, balance top-ups could only be done through EDC machines at select merchants and BCA's branches. Through ATM machines as well as internet and mobile banking services, customers can now make payments for their insurance and pension fund plans to the government-controlled Social Security Agency (BPJS *Ketenagakerjaan*).

BCA added the "InfoBCA" feature to the mobile banking service. Info BCA provides promotional materials, credit card application forms as well as product and service information, including smart features to determine the location of the nearest branch and ATM, especially useful for customers who are on the go. In 2014, the Bank launched BCA Mobile application for Windows Mobile users in addition to the existing iOS, Blackberry and Android versions.

Features offered in the BCA internet and mobile banking services also continue to be enhanced to meet the growing needs of customers. The latest additions to the service include features for balance inquiry and accounts records for Customer Funds Accounts used for the sale and purchase of securities.

BCA manages its increasingly complex Information Technology (IT) platform using the Service Oriented Architecture (SOA) framework. SOA provides the architectural framework that classifies various programs and applications into systems running on IT middle-ware, which can then be used to create and replicate programs and new business applications. These programs and applications can be used in other business areas or implemented in other front-end distribution networks. SOA has proven to be an important element of the overall IT architecture as it reduces repetition in the design and programming process and minimizes errors in creating functionality for business purposes.

BCA will continue to be in the forefront of future developments and latest advancements in technology in order to fulfill the Bank's priority to remaining the leading transaction bank in Indonesia.

Promoting Customer Centricity

In line with the Bank's business strategy, BCA conducted ongoing systems development initiatives and work process enhancements in an effort to provide optimal support for improving the quality of service to customers. In recent years, the Bank has developed an integrated database system to further support customer-oriented business processes. The database is designed to integrate the continually growing transaction data storage with customer behavior analysis tools to better understand the needs of customers and thereby to enable the Bank to bundle product offerings and provide tailored financial solutions that fit the specific needs of customers.

The database supports the Single View Customer Relationship Management system, designed to facilitate interactions between relationship officers and customers by providing comprehensive information to offer the right financial solutions at every point of contact with customers.

Security a Priority

BCA endeavors to maximize the security of the banking system while still maintaining the comfort and convenience of customers in their transaction activities. The Bank realizes that threats to information systems come from various sources and in various forms. As such, information security systems are in place to protect both the customers and the internal operations of the Bank.

BCA proactively works to disseminate information to customers on the growing potential of cyber-crime. Cyber-crime has become a serious threat in the midst of the shifting customer preference towards internet based channels. The Bank also enhances the security of internet banking systems through SMS notification for transactions over a certain amount and for the registration of new transferee or payment recipients. In addition, BCA operates a system to detect malware on customers' devices as a further precaution against threats to online transactions.

In 2014, BCA implemented a security monitoring system to monitor suspicious and illegitimate transactions in order to prevent hacker attacks that could disrupt the Bank's systems and operations. Security devices owned by the Bank are continuously improved to further strengthen the security of the Bank's transactions and data. BCA has formed a special team to carry out preventive action against suspicious or dubious security activity.

In 2014 the Bank took steps to comply with credit card chip security standards by adopting the National Standard for Indonesia Chip Card Specification (NSICCS) introduced by Bank Indonesia.

Business Continuity Plan

To ensure banking services continue to run even in the worst of situations, BCA has developed a detailed business continuity plan that covers major business areas of the Bank. BCA consistently evaluates and updates the emergency guidelines and procedures at all operational levels to ensure business functions can withstand all eventualities. The Bank also regularly holds seminars, training and simulations to maintain readiness in the face of disaster and the possible emergence of other events that could disrupt business activities.

In 2014, the Bank continued to optimize its Secondary Operation Site, established for the Area Operations Centers located in the Regional Offices, to improve and ensure the readiness of Regional Offices to remain functional in the event of natural disasters or other disturbances.

BCA has established and implemented Command Centers at Surabaya DRC and in several locations in Jakarta that can serve as command centers in the event the head office is offline. In the event that a disruption impacts the Jakarta area, the Crisis Center in Surabaya DRC can be used as a back up headquarters for the crisis team.

The Bank plans to build a Secondary Operation Center in Surabaya for the head office operational unit. In addition, the Bank has conducted a review and comprehensive testing to ensure that all of BCA's highly critical business functions are available at Surabaya DRC.

Looking Ahead

In 2014, the Bank received the ISO 9001:2008 certification quality standard for the standardization of data center processes from SAI Global, one of Australia's leading management system certification body, and also received level three certification of Maturity Model Integration Capability (CMMI-Dev v1.3) for software system development. This stands as evidence of the Bank's commitment to quality control and standardization of processes and documentation.

BCA will continue to improve the capacity of information technology to facilitate convenience and efficiency in banking transactions as the value and frequency of transactions increases. The information technology infrastructure will continue to be improved in terms of system, network and data centers. These are important steps in the Bank's effort to ensure the security, availability, reliability and scalability of the Bank's information technology systems.

As part of the strategic plan for business development, BCA IT will continue to deliver an enhanced digital banking experience to provide comfort in financial transactions through IT initiatives. These initiatives include server-based e-money to attract young customers and automation of certain branch office services.

Currently the Bank is developing an agent-based branchless banking system. BCA believes that, with support from the latest technology, this service will allow BCA to extend its reach beyond the Bank's existing customer base, particularly in the field of payment settlement.

Maintained healthy franchise, delivering value to all stakeholders

BCA's strong business performance led to greater profitability and solid ROA and ROE in recent years

OVERVIEW OF INDONESIA'S MACRO ECONOMY IN 2014

Although economic growth in Indonesia slowed in 2014, the 5.0% growth rate was amongst the highest rates achieved by major economies in the world. This growth was realized against a backdrop of continued uncertainty in international markets and the global economy as well as during a period of political transition in Indonesia. Throughout the fluid and unpredictable environment experienced in 2013 and 2014, the government and regulators undertook prudent fiscal and monetary policies designed to maintain economic stability.

During 2014, the Eurozone continued to experience weak economic growth. In the mean time, the US economy has shown signs of recovery, although US monetary policy normalization remained uncertain. Global economic uncertainties have impacted growth in China's economy which has had a significant impact on the Asian region. Continued depressed pricing for Indonesia's main commodity exports and fluctuations in the Rupiah along with the rapid decline in international oil prices contributed to the uncertainty faced by Indonesia and world markets in 2014.

The Indonesian economy in 2014 entered a consolidation phase characterized by a slower growth rate than had been achieved in recent years. Indonesia's Gross Domestic Product growth was 5.0% in 2014, continuing a decreasing trend over the past 4 years. The growth rate was negatively impacted by the ongoing slump in the prices of Indonesia's leading export commodities and sluggish demand from Indonesia's major trading partners. The general election and the transition to the new administration predictably influenced the timing of investment and expansion decisions of the business community leading to a delay in new investment planning. However, it is also worth noting that the overall investment flow in 2014 remained resilient, particularly when compared to investment cycles in previous election periods. Investor confidence and steady domestic consumption continue to be the main drivers of economic growth in Indonesia.

Growth in Indonesia Gross Domestic Product (GDP) (%)

Source: Central Bureau of Statistics

Weakened export earnings and the negative impact of increasing costs for oil and gas imports in 2014 put significant pressure on Indonesia's trade balance. This trade deficit impacted the current account which continued to run at a deficit of USD 26.2 billion, or 2.95% of the GDP in 2014.

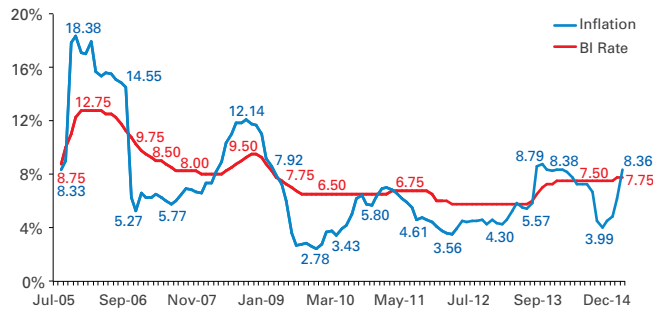

Rupiah Exchange Rate against USD (in Rupiah)

Source: Bloomberg

The effects of an increasing current account deficit, increased volatility in the flow of funds from global markets and domestic elections impacted the Rupiah versus US Dollar exchange rate. At year-end 2014, the Rupiah versus US Dollar exchange rate was Rp 12,388 per 1 US Dollar. This represents a depreciation of 1.8% when compared to the exchange rate position at the end of 2013 of Rp 12,171 per 1 US Dollar.

Inflation and BI Rates (%)

Source: Central Bureau of Statistics and Bank Indonesia

In November 2014, the new Government prudently reduced fuel subsidies in order to reduce the subsidy for fuel imports. This step was followed by Bank Indonesia increasing its benchmark interest rate by 25 bps to 7.75% to anticipate an expected inflationary spike resulting from the rising fuel price. Inflation at the end of 2014, as a result, was restrained at 8.4%. Taking advantage of the decline in world oil prices, at the end of 2014, the Government of Indonesia further removed fuel subsidies for gasoline, while maintaining a certain amount of subsidy for diesel fuel and kerosene. This timely reduction of subsidies is expected to redress the current account deficit as well as provide opportunity for the Government to develop infrastructure and thereby stimulating the Indonesian economy for sustainable future growth. Lower world major commodities prices have taken inflationary pressure off into certain extent. Bank Indonesia forecasts that inflation rate will hover around 3%-5% in 2015, lower than 2014's inflation.

While this consolidation phase of the Indonesian economy is expected to continue to 2015, in the longer run, the Indonesian economy, supported by strong macroeconomic management and a sound banking industry, remains poised to return to higher growth with increased investment in infrastructure and the recovery of global economic growth.

GDP per Capita (in USD)

Source: Central Bureau of Statistics

In a period of over a decade, GDP per capita has grown significantly. In 2014 GDP per capita stood at USD 3,531 per capita in US Dollar terms. This strong GDP per capita continues to play an important role in attracting capital investment and driving economic growth.

Overall, we expect the regulators and the Government to remain cautious and vigilant in assessing the possible market and economic impact of the Fed rates normalization and the continued negative impact of depressed pricing in commodity markets.

OVERVIEW OF INDONESIAN BANKING SECTOR PERFORMANCE IN 2014

Bank Indonesia and the Financial Services Authority proactively directed the growth of the banking industry towards a realistic and sustainable level by implementing prudent policies that addressed the economic challenges of 2014.

The total assets of the Indonesian banking sector grew by 13.3% to Rp 5,615 trillion with a sector Return on Assets (ROA) of 2.9% in 2014. The industry loan portfolio grew by 11.6% or Rp 381 trillion to Rp 3,674 trillion, of which 47.8% was working capital loans, while total consumer and investment loans contributed 27.6% and 24.6% to the total loan portfolio, respectively. Working capital loans amounted to Rp 1,757 trillion, an increase of 10.8% from the previous year, while consumer loans amounted to Rp 1,014 trillion, an increase of 11.6%, and investment loans amounted to Rp 903 trillion, an increase of 13.2% by the end of 2014.

Banking sector lending grew moderately with a slight increase in Non Performing Loans (NPL) amounting to 40 bps from 1.8% in 2013 to 2.2% by the end of 2014. This decline in credit quality was expected given the slower economic growth. The overall capital position of Indonesian banks remains strong with a Capital Adequacy Ratio (CAR) of 19.6% at the end of 2014, increasing by 150 bps compared to 18.1% at the end of 2013.

In terms of deposit taking, third party funds grew 12.3% and reached Rp 4,114 trillion per December 31, 2014 from Rp 3,664 trillion per December 31, 2013. The increase in third party funds was mainly supported by growth in time deposits with total time deposit funds growing by 20.9% to Rp 1,940 trillion by the end of 2014. Current Account and Savings Account (CASA) funds posted an increase of 5.1% and 5.9% and reached Rp 890 trillion and Rp 1,284 trillion, respectively.

Over the past several years with the exception of 2014, lending growth frequently exceeded third party funds growth, thereby leading to tighter overall liquidity in the Indonesian banking sector. In addition, third party funds posted a relatively lower 2014 growth, compared to several previous years.

These conditions led to rise of the Loan to Deposit Ratio (LDR) in the national banking sector in the last few years.

Particularly in the first half of 2014, the tightening of liquidity in the Indonesian banking sector was reflected in increased competition in time deposits interest rates offered by banks. In response, on 30 September 2014, Indonesia Financial Services Authority took the initiative to set a maximum interest rate on time deposits to mitigate unhealthy competition. The regulators also actively managed lending growth to stabilize liquidity positions and prevent an overheating of the national economy. Overall liquidity showed some improvements towards the end of 2014 with the LDR easing to 89.4% as of December 2014, lower than the peak at 92.2% in July 2014.

Tight liquidity and increased deposit interest rates encouraged higher lending interest rates in the banking sector. Data from Bank Indonesia shows an increase in the weighted average interest rates on working capital loans of 70 bps to reach 12.8%, and increases in interest rates for investment loans of 60 bps, reaching 12.4% during 2014.

The banking sector booked total Operating Income increased 10.2% to Rp 422 trillion in 2014 from Rp 383 trillion in 2013. Net Interest Income and Other Operating Income in 2014 grew by 12.8% and 5.7% to Rp 274 trillion and Rp 148 trillion, respectively. With a higher cost of funds and Operating Expenses, industry-wide Net Income increased by 4.7% to Rp 112 trillion in 2014.

BCA is optimistic that regulators and the government will continue to promote a healthy banking industry as a solid platform for long-term economic growth. BCA will continue to be a major pillar of the Indonesian banking industry and will improve and expand its network in the years ahead to meet the needs of customers in accordance with BCA's commitment to always be by the customers' side.

OVERVIEW OF BCA FINANCIAL PERFORMANCE IN 2014

BCA recorded a positive business performance in the midst of economic uncertainty and the political transition period that took place in 2014. As a response to the challenges of the economic slowdown, BCA focused on the implementation of a prudent risk management posture in order to maintain quality loan growth as well as to assure a healthy capital and liquidity position.

BCA succeeded in maintaining a solid liquidity position with the support of the growth of third party funds of Rp 38.4 trillion, a 9.4% growth, to Rp 447.9 trillion as of year-end 2014. Supported by the strength of its transaction banking capability, BCA was able to generate stable, low cost funding resulting from the Bank's core strength in Current Accounts and Savings Accounts (CASA) transactions. The Bank also continued to promote transactions through low-cost electronic delivery channels. In 2014, CASA funds grew by 4.2% to Rp 336.4 trillion in an environment marked by unfavorable economic conditions and a slowdown in business activities. It is worth noting that such growth was achieved without any adjustment to CASA rates throughout the year. CASA funds represent a majority of third party funds accounting for some 75.1% of the total funding pool.

To maintain the Bank's solid liquidity position, BCA proactively increased funding from time deposits products by selectively increasing time deposits rates for selected deposit sizes and tenors. As a result of this proactive policy, time deposits grew significantly by 28.8% to Rp 111.5 trillion by the end of 2014.

As of December 31, 2014 the loan portfolio stood at Rp 346.6 trillion, growing Rp 34.3 trillion, or 11.0%, primarily driven by the growth of productive loans from the corporate and commercial lending segments. Prudent lending standards enabled the Bank to maintain a Non Performing Loans (NPL) ratio below 1% of the total loan portfolio of BCA. At the end of 2014, BCA's NPL ratio reached 0.6%, with the reserves to total NPL ratio amounting to 324.2%.

With a balance between the growth of the loan portfolio and third party funds, BCA managed the Loan to Deposit (LDR) ratio to a conservative 76.8% in a tightening liquidity environment. Short-term placements, excluding primary reserves, were recorded at Rp 63.9 trillion or 14.3% of the total third party funds at the end of December 2014. In addition, BCA's Capital Adequacy Ratio (CAR) stood at 16.9% at December 31, 2014, reinforcing BCA's solid capital position.

Overall, Net Interest Income increased by 21.2% to Rp 32.0 trillion, supported by the growth in the loan portfolio and favorable funding mix as well as a stronger Net Interest Margin (NIM). Operating Income other than Interest grew by 13.6% to Rp 9.0 trillion, supported by an increase in Fee and Commission Income of 15.5%. A solid increase in Operating Income supported growth in Net Income by 15.7% to Rp 16.5 trillion in 2014. BCA earnings outperformed the banking sector average in 2014. With this profitability, the Bank's Return on Assets (ROA) stood at 3.9% and Return on Equity (ROE) was recorded at 25.5%.

SUMMARY OF INCOME

Solid increase in Operating Income managed to support Net Income growth in 2014.

Net Interest Income (in billion Rupiah)				
	2014	2013	Increase / (decrease)	
			Nominal	Percentage

Total Interest Income from Securities	5,900	4,870	1,030	21.1%

Interest Income

Interest Income grew by 27.7% or Rp 9.5 trillion to Rp 43.8 trillion in 2014. This growth came mainly from an increase in Interest Income from the loan portfolio which contributed 76.4% of the total growth of the Bank's Interest Income in 2014. Interest Income from the loan portfolio increased by 27.8% to Rp 33.4 trillion in 2014, driven by the growth of outstanding loans and interest rate increases. Since 2013, BCA's loan interest rates have increased in line with the interest movements in the market and tighter liquidity conditions.

Interest Income from Placements with Bank Indonesia and Other Banks decreased by 10.1% to Rp 947 billion in 2014 from Rp 1.1 trillion in 2013. This decrease was mainly due to a 24.6% decrease in the average outstanding balance of Placements with Bank Indonesia and Other Banks to Rp 19.2 trillion in 2014 from Rp 25.5 trillion in 2013. The decrease in the average outstanding balance resulted from a reallocation of funds placements to higher yielding

instruments, from Bank Indonesia Term Deposits and Bank Indonesia Deposit Facilities to Bank Indonesia Certificates booked in Investment Securities.

Supported by higher average outstanding and an increase in yield, Interest Income from Securities (including Securities Purchased Under Agreements to Resell) increased by 21.1% to Rp 5.9 trillion at year end 2014.

Interest Income from Consumer Financing and Investment in Finance Leases grew by 68.5% to Rp 2.8 trillion by the end of 2014. This was due to the consolidation of Central Santosa Finance, a subsidiary of BCA and BCA Finance engaged in motorcycle financing, beginning January 2014. Excluding new contribution from Central Santosa Finance, Interest Income from Consumer Financing and Investment in Finance Leases increased by 11.9% to Rp 1.9 trillion by the end of 2014.

Interest Income from Consumer Financing and Investment in Finance Leases Excluding Central Santosa Finance Contribution (in billion Rupiah)

	2014	2013	Increase / (decrease)		Remark
			Nominal	Percentage	
Interest Income	1,874	1,674	200	11.9%	2014 figure excluded interest income contribution from Central Santosa Finance of Rp 947 billion. Central Santosa Finance was consolidated in January 2014.

The overall loan portfolio yield stood at 10.3% in 2014, an increase of 100 bps compared to 9.3% in 2013. Aside from the rising interest rates, the increase in loan yields was also supported by loan growth in the corporate and commercial segments. Overall yields on earning assets increased to 8.7% in 2014 from 7.8% in 2013 in line with the rising interest rates throughout 2014.

Earning Assets Yield

	2014	2013
Loans	10.3%	9.3%
Placement with Bank Indonesia and Other Banks	4.9%	4.1%
Securities (Including Securities Purchased Under Agreements to Resell)	6.3%	6.1%
Earning Assets	8.7%	7.8%

Composition of Interest Income

Interest Expense

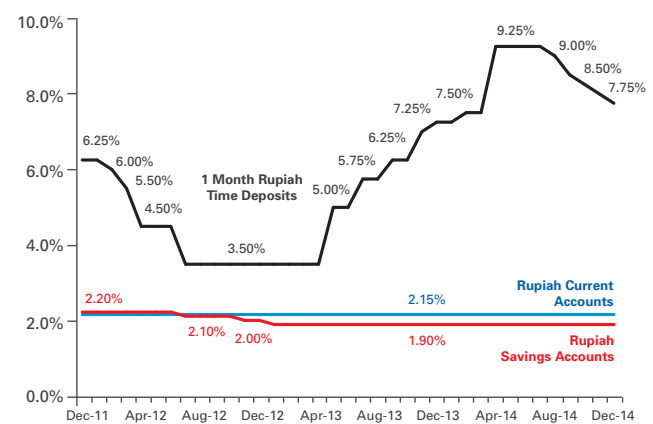

In 2014, BCA's Interest Expense increased by 49.6% to Rp 11.7 trillion in 2014. To balance BCA's solid liquidity position, in 2014 BCA proactively raised time deposits products by increasing interest rates for time deposits over Rp 2 billion. The Bank's maximum time deposits interest rates reached its highest level in April 2014 at 9.25% p.a. Toward the end of 2014, in line with the improving banking sector liquidity, BCA lowered the maximum time deposits interest rates to 7.75% p.a. Throughout the year 2014, the Bank was able to maintain a relatively lower time deposits rate than market rates while keeping interest rates in accordance with the guidelines set by the Indonesia Deposit Insurance Corporation and the Indonesia Financial Services Authority.

In line with the growth of funds as well as the increase in time deposits rates, Time Deposits Interest Expense increased by 107.7% to Rp 6.7 trillion while Interest Expense on Current Accounts and Savings Accounts in 2014 were relatively stable at Rp 1.1 trillion and Rp 2.5 trillion, respectively. Other Interest Expenses increased by 33.6% to Rp 1.5 trillion mainly derived

from Interest Expenses on working capital received by subsidiary entities and on government guarantee premium.

Cost of funds for time deposits increased by 260 bps to 6.90% in 2014 while cost of funds for current accounts and savings accounts remained stable at 0.99% and 1.16%, respectively. The overall cost of third party funds came to 2.61% in 2014, an increase of 66 bps from 1.95% in 2013.

Composition of Interest Expense

Net Interest Income and Net Interest Margin

The significant increase in Interest Income boosted the Bank's Net Interest Income by 21.2% or Rp 5.6 trillion, to reach Rp 32.0 trillion in 2014 compared to Rp 26.4 trillion in 2013. Accordingly, Net Interest Margin (NIM) increased by 30 bps to 6.5% in 2014 from 6.2% in the previous year supported by the various factors mentioned above.

Net Interest Income (in billion Rupiah)

Net Interest Margin - NIM (% , non consolidated)

Operating Income other than Interest

Operating Income other than Interest in 2014 grew by 13.6%, or Rp 1.1 trillion, to Rp 9.0 trillion, mainly supported by an increase in Fee and Commission Income. In 2014, Net Fee and Commission represented 80.7% of the Total Operating Income other than Interest while Net Trading Income accounted for 9.2% and Other Operating Income contributed 10.1% to the total Operating Income other than Interest.

Operating Income other than Interest (in billion Rupiah)

	2014	2013	Increase / (decrease)	
			Nominal	Percentage
Net Fee and Commission Income	7,285	6,310	975	15.5%

Others	426	379	47	12.4%
Total	7,289	6,310	979	15.5%
Fee and commission expense	(4)	(0)	(4)	N.A
Net Fee and Commission Income	7,285	6,310	975	15.5%

* Mostly derived from monthly administration income from savings accounts

Net Fee and Commission Income grew by 15.5% to Rp 7.3 trillion in 2014, which mainly came from the increase in the monthly administration fee, fee and commission from loans and credit cards, and commissions on transaction banking services. Net Trading Income decreased by Rp 333 billion or 28.6% to Rp 833 billion due to the lower increase in the Gain on Spot and Derivative Transactions and Unrealized Gain from Fair Value of Financial Assets Held for Trading compared to the previous year.

Other Operating Income on Operating Income other than Interest increased significantly by 92.4% to Rp 906 billion, particularly from credit card penalties and the consolidation of income from BCA Insurance beginning in September 2013. Accordingly, Operating Income other than Interest increased 13.6% in 2014. Excluding contribution from BCA Insurance, Operating Income other than Interest increased 10.2% in 2014.

Operating Expenses

BCA's Operating Expenses (non consolidated) were recorded at Rp 16.7 trillion in 2014, an increase of 19.7% compared to the previous year. The Cost Efficiency Ratio was recorded at 44.2% in 2014, slightly higher than 2013's 42.9%. On a consolidated basis, Operating Expenses increased by 25.1% to Rp 18.3 trillion in 2014. This difference was mainly due to the consolidation of the Operating Expenses of BCA Insurance and Central Santosa Finance.

General and Administrative Expenses increased by 20.9% to Rp 8.9 trillion in 2014. General and Administrative Expenses, non consolidated, increased by 17.7% to Rp 8.4 trillion, mainly coming from an increase in daily operational expenses, promotion, repair and maintenance, as well as depreciation and amortization expenses. These increases are in line with the expansion of the Bank's branch network and new investment in electronic channels along with the development of the capacity and the capability of information technology.

Personnel Expenses increased by 26.3% from Rp 6.9 trillion to Rp 8.7 trillion in 2014. Meanwhile, the Personnel Expenses of BCA, non consolidated, in the amount of Rp 7.9 trillion was an increase of 20.3%, in line with the increase in salaries and benefits, including the provision of bonuses and pension funds & benefits.

Allowance for Impairment Losses on Financial Assets

Allowance for Impairment Losses (CKPN) refers to the application of SFAS 50 and 55 regulations, in effect since January 1, 2010, assessed individually and collectively on the loan portfolio. Individual assessment is conducted on loans that have individually significant value and where there is objective evidence of impairment. The objective evidence covers breach of contract, including delayed payments by debtors, or a strong indication that the debtor will be unable to meet its obligations.

Individual assessment is performed to determine the best estimate of the present value of the cash flows expected to be received should the loan be deemed to be impaired. In estimating these cash flows, management makes judgments about the counterparty's financial condition and the net realizable value of any underlying collateral.

Collective assessment is conducted on loans that have no significant value individually, or on loans that have a significant value individually but no objective evidence of impairment. Based on these criteria, the collective assessment is conducted on: (a) loans for Small & Medium Enterprises (SME) and consumer loans including credit cards, and (b) loans to corporate and commercial segments classified as current and special mention loans.

The collective assessment of impairment allowances cover credit losses inherent in portfolios of receivables with similar economic characteristics when there is objective evidence to suggest that they contain impaired receivables but can not be identified individually.

In determining the need for making collective allowances, management considers factors such as credit quality, size of the portfolio, credit concentrations, and economic factors.

For the calculation of the collective impairment, BCA applies the following formula: Probability of Default x Loss Given Default x Amortized Cost¹.

By implementing the impairment losses on financial assets calculation method under SFAS 50 & 55, BCA made a Net Provision for Impairment Losses on

Financial Assets of Rp 2.2 trillion in 2014, compared to Rp 2.0 trillion in 2013.

The higher allowance for impairment losses is in line with BCA's prudent risk management principles in establishing allowance, adjusted for management's judgment as to whether current economic and credit conditions.

Movement of Allowance for Impairment Losses on Financial Assets (in billion Rupiah)

	2014	2013
Beginning Balance	(6,548)	(4,802)
Starting Balance of Acquired Subsidiaries	(65)	-

Exchange Rate Differences	(21)	(88)
Ending Balance	(8,099)	(6,548)

Income Before Tax

Income Before Tax was recorded at Rp 20.7 trillion in 2014, growing 16.4% from Rp 17.8 trillion in 2013. With the profitability growth higher than asset growth, the Return on Assets (ROA) increased to 3.9% in 2014 compared to 3.8% in 2013.

Net Income

BCA Net Income attributable to equity holders of the parent entity in 2014 was Rp 16.5 trillion, an

increase of 15.7% compared to 2013 of Rp 14.3 trillion. The increase in Net Income led an increase in Earnings Per Share (EPS) to Rp 669 per share in 2014 compared to Rp 579 per share in 2013. The Return on Equity (ROE) came to 25.5% in 2014 compared to 28.2% in 2013. The lower ROE was due to BCA's strategy to strengthen capital including by lowering the dividend payout ratio to prepare the Bank for the implementation of the introduction of Basel III regulations in Indonesia.

Income Before Tax and ROA

- ✚ Return of Equity (ROE) - non consolidated

¹ **Probability of Default** is the probability of failure by debtors in meeting their obligations. **Loss Given Default** are levels of losses resulting from failure of debtors to meet their obligations. **Amortized Cost** is the carrying value of financial assets and amortized at cost.

Statements of Comprehensive Income

The major component of the Bank's Other Comprehensive Income is arising from Change in Fair Value of Available-for-Sale Financial Assets.

Statements of BCA Comprehensive Income for the year ending December 31, 2014 and December 31, 2013 are as follows:

Comprehensive Income (in billion Rupiah)

	2014	2013
Net Income	16,512	14,256
Other Comprehensive Income		
Foreign exchange differences arising from translation of foreign currency financial statements	7	88
Available-for-sale financial assets :		
Change in fair value - net	539	(1,781)
Income tax related to components of other comprehensive income	(135)	445
Others	2	(4)
Total Other Comprehensive Income, Net of Income Tax	413	(1,252)
Total Comprehensive Income	16,925	13,004
Net Income attributable to		
Equity holders of parent entity	16,486	14,254
Non-controlling interest	26	2
Comprehensive Income attributable to		
Equity holders of parent entity	16,899	13,002
Non-controlling interest	26	2
Earning per Share attributable to Equity Holders of The Parent Entity (in Rupiah)	669	579

The total Comprehensive Income attributable to equity holders of parent entity in 2014 grew by 30.0% to Rp 16.9 trillion compared to 2013 at Rp 13.0 trillion, influenced by Change in Fair Value - net on Available for Sale Financial Assets.

Change in Fair Value - net on Available for Sale Financial Assets in 2014 was recorded at Rp 539 billion. Accordingly, BCA recorded a Total Other Comprehensive Income of Rp 413 billion. In 2013 the Bank recorded a loss of Rp 1.8 trillion in Change in Fair Value - net on Available for Sale of Financial Assets, which impacted BCA's equity and led to the Bank recording total Other Comprehensive Income Expenses in the amount of Rp 1.3 trillion.

The positive contribution on Other Comprehensive Income in 2014 was mainly due to the decrease in interest rates which caused an increase in the fair value of securities recorded as Available for Sale Financial Assets. The placement of financial assets remained conservative and prudent by placing funds in sovereign securities instruments, particularly Government Bonds, which are considered risk-free investments in Indonesia. As of December 31, 2014, BCA has a portfolio of Financial Assets in the Available for Sale category - which are mostly Government Bonds with a fixed interest rate - in the amount of Rp 20.2 trillion, relatively stable compared to the previous year.

BALANCE SHEET

BCA managed to record quality loan growth, and maintained liquidity and sound capital positions.

ASSETS

As of December 31, 2014, BCA's total assets came to Rp 552.4 trillion, an increase of 11.3%, or Rp 56.1 trillion, from the previous year of Rp 496.3 trillion. The growth in total assets was supported by the increase in third party funds as well as growth in equity.

Total Earning Assets	483,945	87.6%	435,309	87.7%	48,636	11.2%

EARNING ASSETS

Earning assets increased by 11.2%, or Rp 48.6 trillion, to Rp 483.9 trillion in 2014 from the previous year of Rp 435.3 trillion, and accounted for 87.6% of total assets. The yield on earning assets increased to 8.7% in 2014 from 7.8% in 2013.

In absolute terms, the loan portfolio experienced the most significant nominal growth compared to other assets. At the end of 2014, the loan portfolio contributed 71.6% to total earning assets and represents the largest portion of earning asset instruments. At the end of 2014, the loan portfolio was recorded at Rp 346.6 trillion, an increase of Rp 34.3 trillion, or 11.0%, with the increase mainly deriving from the growth of investment and working capital loans disbursed to the corporate and commercial segments. Prudent lending practices have allowed the Bank to maintain the quality of the loan portfolio.

Aside from placing funds through lending, BCA also made fund placements in liquid and low-risks instruments in the form of Placements with Bank Indonesia and Other Banks, Investment Securities and Securities Purchased Under Agreements to Resell.

PLACEMENTS WITH BANK INDONESIA AND OTHER BANKS

At the end of 2014, the balance of Placements with Bank Indonesia and Other Banks was down by 6.1% to Rp 11.5 trillion. The portion of Placements with Bank Indonesia reached 71.6% of the total account while the balance was placement with other banks. Placements with Bank Indonesia were Bank Indonesia Deposit Facility instruments of Rp 6.1 trillion and Bank Indonesia Term Deposit instruments of Rp 2.1 trillion at the end of 2014.

SECURITIES PURCHASED UNDER AGREEMENT TO RESELL

Securities Purchased Under Agreement to Resell decreased by 36.0% to Rp 26.3 trillion in 2014 from Rp 41.1 trillion at the end of 2013. Of this amount, transactions of Securities Purchased Under Agreements to Resell with Bank Indonesia reached Rp 19.3 trillion, or 73.2% of the total while transactions of Securities Purchased Under Agreements to Resell with Other Banks amounted to Rp 7.0 trillion or 26.8% of the total.

In fourth quarter 2014, BCA reallocated large part of its short term placements from Securities Purchased Under Agreements to Resell to Bank Indonesia Certificates instruments (categorized Investment Securities) seeking for higher yield.

INVESTMENT SECURITIES

Investment Securities is the second largest component in the earning asset mix after the loan portfolio and stood at Rp 72.8 trillion in 2014, an increase of 48.1% or Rp 23.7 trillion from 2013. This significant increase was mainly derived from the growth of placement in Bank Indonesia Certificates. In 2014, Bank Indonesia Certificates in the category of Investment Securities increased 577.1% or Rp 26.9 trillion from Rp 4.7 trillion in 2013 to Rp 31.6 trillion in 2014.

Investment Securities are mostly Bank Indonesia Certificates and Government Bonds, each accounted for 43.4% and 39.8% of the total Investment Securities.

Investment Securities (in billion Rupiah)

	2014	2013	Increase/(decrease)		Composition	
			Nominal	Percentage	2014	2013
Bank Indonesia Certificates	31,581	4,664	26,917	577.1%	43.4%	9.5%
Government Bonds	29,018	34,345	(5,327)	-15.5%	39.8%	69.9%
Other Securities	12,218	10,146	2,072	20.4%	16.8%	20.6%
Total	72,817	49,155	23,662	48.1%	100.0%	100.0%

The portfolio of Government Bonds at the end of 2014 was recorded at Rp 29.0 trillion, a decrease of 15.5% compared to the previous year of Rp 34.3 trillion. The decline was mainly due to the maturing of Government Bonds in the amount of Rp 9.7 trillion in 2014. There are Rp 25.7 trillion or 88.6% of the total Government Bonds maturing within the next 5 years.

The majority of Government Bonds, totaling Rp 20.3 trillion, are held in the Available-for-Sale account and represent some 70.1% of the total portfolio. Government Bonds in the Held to Maturity account came to Rp 8.6 trillion, or 29.7% of the total portfolio, and Government Bonds for Trading was posted at Rp 73 billion, or 0.2% of the total portfolio in 2014.

As of December 31, 2014 fixed rate Government Bonds totaled Rp 26.7 trillion, or 91.9% of the total portfolio. Variable rate Government Bonds was recorded at Rp 2.3 trillion or 8.1% of the total portfolio.

Most Government Bonds are denominated in Rupiah, amounting to Rp 24.9 trillion or 85.9% of the total portfolio of Government Bonds held by BCA. The remaining Rp 4.1 trillion, or 14.1% of the Government Bonds, are denominated in US Dollars.

LOANS

The total loan portfolio grew by Rp 34.3 trillion, or 11.0%, to Rp 346.6 trillion as of December 31, 2014, with the growth primarily derived from growth in investment and working capital loans channeled into the corporate and commercial segments. Corporate loans grew by 16.9% to Rp 120.5 trillion while commercial loans increased by 13.5% to Rp 82.9 trillion. Loans to the SME and the consumer segments posted moderate growth of 3.6% and 6.1% to Rp 49.4 trillion and Rp 92.3 trillion, respectively. The Bank faces stiff competition in SME segment where all banks competes in SME, while the Bank pulled back on consumer lending in line with an overall slowdown in the broader Indonesian economy.

Loan Portfolio Denominated in Rupiah and Foreign Currencies

Loans disbursed by BCA are largely denominated in Rupiah representing 93.2% of the total loan portfolio. Foreign currency denominated loans contributed to 6.8% to the total loan portfolio. Rupiah denominated loans increased by 9.9% to Rp 323.1 trillion at the end of 2014.

Growth of BCA's Loan Portfolio (in billion Rupiah)

Loans denominated in foreign currencies amounted to USD 1.9 billion at the end of 2014, compared to USD 1.5 billion the previous year. To minimize the exchange rate risk, lending in foreign currency is disbursed to borrowers who have a business with primary income in foreign currency.

Loan Composition based on Currency Denomination

Loan Portfolio based on Economic Sector

Based on the economic sector, the largest portions of the loan portfolio in 2014 were in the trading, restaurants and hotels and in the manufacturing sectors with each contributing 26.5% and 20.6% respectively to total loans. In absolute terms, these two sectors were also the major contributors to BCA's loan growth in 2014.

The trading, restaurants and hotels sector increased by 12.2% to Rp 91.9 trillion at the end of 2014 while the manufacturing sector grew by 13.7%, or Rp 8.6 trillion, to Rp 71.5 trillion. The 'Others' Category in the total loans composition, which amounted to 27.2% of the total loan portfolio, is primarily consumer loans.

Loan Composition based on Economic Sector

	2014		2013		Increase / (decrease)

Loan Receivables Collectability

BCA remains prudent in lending by prioritizing loan quality and taking into account the macroeconomic development as well as the conditions in each industry and borrowing segment. Business lending is focused on lending to selected entities that are experienced in their fields and, preferably, have been long standing customers of BCA with solid track records. In the consumer segment, BCA applies strict Loan to Value and repayment capacity guidelines on all consumer borrowing.

BCA's prudent lending policy is reflected in the Non Performing Loans (NPL) which is relatively low at 0.6% compared to the average national banking sector which stood at 2.2% in 2014. The provision to NPL ratio stood at 324.2% in 2014.

* Although allowance for impairment losses is not calculated based on collectability, the calculation remains necessary to determine the Capital Adequacy Ratio (CAR) according to Bank Indonesia Regulation

Compared to the end of 2013, there was a slight increase of 20 bps in NPL ratio mainly due to a downgrade of a previously restructured corporate loan.

BCA proactively managed the loan portfolio by performing stringent supervision and conducting stress tests on a regular basis. These steps are taken to anticipate the possibility of a direct or indirect impact on the quality of the loan portfolio that may be caused by conditions such as economic downturn, declining purchasing power of customers and fluctuations in the Rupiah exchange rate. With this preparation, BCA can quickly take corrective measures to mitigate the negative impacts that may occur in the loan portfolio.

As of December 31, 2014, non performing loans were mainly derived from the trading, restaurants and hotels sector contributing to Rp 675 billion, or 32.7% of the total non performing loans, followed by the construction sector which accounted for 20.3% or Rp 419 billion. These non performing loans are relatively low compared to the total loans in those sectors.

Allowance for Impairment Losses on Loans

The allowance for impairment losses on loans amounted to Rp 6.7 trillion as of December 31, 2014, an increase of 19.5% compared to 2013 at Rp 5.6 trillion. The formation of higher allowance for impairment losses on loans was in line with the Bank's prudence principle in forming additional reserves using the collective method of impairment and based on the significant increase in the loan portfolio in recent years as well as the economic slowdown since 2013. The ratio of allowance to non performing loans stood at 324.2% of total NPLs in the end of 2014.

Movement of Allowance for Impairment Losses on Loans Receivable (in billion Rupiah)

	2014	2013
Beginning Balance	(5,611)	(4,017)

Ending Balance	(6,704)	(5,611)

* Loans written-off outside new business in 2-wheeler financing is in the amount of Rp 422 billion in 2014 and Rp 299 billion in 2013

Loans Written Off

During 2014, the Bank has written-off loans in the amount of Rp 656 billion. Excluding new business in 2-wheeler financing, the total written-off loans stood at Rp 422 billion in 2014. Recoveries on loans previously written-off in 2014 amounted to Rp 65 billion.

Loans written-off on the average loan portfolio were recorded at 0.20% at the end of 2014, compared to 0.14% at the end of 2013.

Loans to Deposit Ratio (LDR)

BCA's LDR continued to increase in the past several years and reached 76.8% at the end of 2014 compared to 75.4% at the end of 2013, closer to the lower range set by regulator at 78%. BCA maintains LDR ratio at a healthy level and below the average of Indonesia banking industry.

LDR (non consolidated)

LIABILITIES

BCA's liabilities grew by 9.8%, or Rp 42.2 trillion, to Rp 474.5 trillion at the end of 2014. Third party funds contributed to 94.4% of BCA's total liabilities at the end of the 2014.

THIRD PARTY FUNDS

During a period of economic slowdown, BCA's solid funding position was successfully maintained with third party funds recorded at Rp 447.9 trillion at the end of 2014, an increase of 9.4% compared to the previous year.

Composition of Third Party Funds

Current Accounts and Savings Accounts (CASA)

Supported by BCA's preeminence as a transaction bank, the Bank maintained a solid liquidity position with low funding costs deriving from the transaction based Current Accounts and Savings Accounts (CASA). In 2014, BCA recorded CASA growth of 4.2% to Rp 336.4 trillion, achieved in a year marked by unfavorable economic conditions, slowing business activities and with no changes in CASA interest rates throughout the year. CASA funds were a major portion of third party funds, amounting to 75.1% of the total.

Current accounts increased by 4.1%, or Rp 4.3 trillion, to Rp 107.4 trillion in 2014, compared with Rp 103.2 trillion in 2013. Current accounts denominated in Rupiah accounted for 84.2% of total current account funds, while current accounts in foreign currencies made up the remaining 15.8%.

Savings account increased by Rp 9.3 trillion, or 4.2%, to Rp 229.0 trillion in 2014 from the previous year's position of Rp 219.7 trillion. Rupiah denominated savings accounts contributed 94.3% to the total savings accounts while savings accounts denominated in foreign currencies accounted for 5.7% of the total savings account funds in 2014.

Going forward, BCA is in a solid position to serve the growing number of customers transactions resulting from BCA's innovations as well as business improvements and economic growth in Indonesia. This will ultimately provide a solid platform for continued growth in CASA funds at BCA.

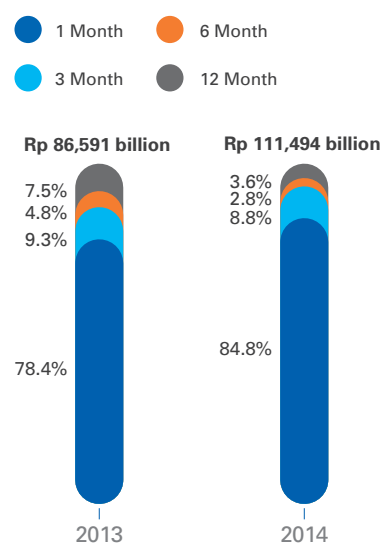

Time Deposits

To maintain overall strong liquidity position, BCA proactively raised rates on specific categories of time deposits, differentiated by the amount and tenor of the deposit. The Bank was able to maintain lower time deposits rates compared to the market in general while keeping interest rates in line with the guidelines established by the Indonesia Deposit Insurance Corporation and the Indonesia Financial Services Authority.

Time deposits grew by 28.8% to Rp 111.5 trillion at the end of 2014 from Rp 86.6 trillion at the end of 2013. The composition of time deposit funds denominated in Rupiah and foreign currencies were 93.1% and 6.9% respectively.

Time deposits are divided into 'buckets' based on currency, maturity periods and amounts. Maturities of time deposits range from a period of 1 month, 3 month, 6 month or 12 month.

Time Deposits based on Maturity Period

At the end of 2014, the majority of time deposits had a 1 month maturity with a total outstanding of Rp 94.5 trillion or 84.8% of total time deposits. 3 month time deposits were recorded at 8.8% or Rp 9.8 trillion while time deposits of 6 month represented at 2.8%, or Rp 3.2 trillion, and time deposits of 12 month were recorded at 3.6%, or Rp 4.0 trillion.

Debt Service Ability

Throughout 2014, BCA and its subsidiaries maintained a healthy financial position and fulfilled all financial obligations and payments on all interest and other amounts due. BCA as a parent company does not have bonds outstanding in 2014.

BCA's total third party funds amounted to Rp 447.9 trillion, or 94.4% of total liabilities, at the end of 2014. Deposits from Other Banks, Acceptance Payables, Debt Securities Issued and Borrowings were recorded at Rp 14.0 trillion, or 3.0% of the total liabilities at the end of 2014.

Summary of Liabilities (in billion Rupiah)

	2014	2013

Non Consolidated		
Liabilities to Equity Ratio	613.5%	679.5%
Liabilities to Assets Ratio	86.0%	87.2%

* Including temporary Syirkah deposits in the amount of Rp 1,952 billion in 2014 and Rp 1,444 billion in 2013.

Debt service ability improved in 2014 reflected in the improvement of the ratio of liabilities to equity and to total assets. As of the end of 2014, the ratio of Liabilities to Total Assets was 85.9%, compared to 87.1% at the end of 2013. Liabilities to Equity ratio was 609.0% at the end of 2014, compared to 675.9% at the end of 2013.

On a consolidated base, Debt Securities Issued came to Rp 2.5 trillion in 2014. These debt securities were primarily bonds issued by BCA Finance, a subsidiary of BCA engaged in 4-wheeler financing. As of the end of 2014, the Debt Securities Issued by BCA Finance totaled Rp 2.5 trillion, compared to Rp 3.1 trillion by the end of 2013. BCA Finance has a solid financial position reflected by the ratio of Liabilities to Assets of 74.9% and the ratio of Liabilities to Equity of 299.0%. BCA Finance's Bonds were rated idAAA by Pefindo and AAA(idn) by Fitch Ratings Indonesia at the end of 2014. In 2014 BCA Finance offered bonds coupon rate in the range of 9% - 10% for tenor between 1 - 3 years.

EQUITY

BCA's total equity in 2014 increased by 21.8%, or Rp 13.9 trillion, to Rp 77.9 trillion from Rp 64.0 trillion in 2013. The equity increase in 2014 was mainly supported by the increase in Net Income for the year. Higher accumulation of retained earnings combined with lower dividend payout ratio have promoted high growth in equity, and thereby resulting in a lower ROE.

Equity (in billion Rupiah)

CASH FLOW

Cash flow reports are prepared using the direct method by classifying cash flows into operating, investing, and financing activities. A more detailed cash flow can be seen in the Consolidated Cash Flow Report in the Audited Consolidated Financial Statements on pages 361-362.

Cash Flows (in billion Rupiah)

	2014	2013	Increase / (Decrease)
Cash Flows from Operating Activities	35,137	(4,190)	39,327
Cash Flows from Investing Activities	(25,054)	(4,612)	(20,442)
Cash Flows from Financing Activities	(2,743)	84	(2,827)
Net (Decrease) Increase in Cash and Cash Equivalents	7,340	(8,718)	16,058
Cash and Cash Equivalents, Beginning of Year	67,156	76,894	(9,738)
Effect of Foreign Exchange Rate Fluctuations on Cash and Cash Equivalents	(20)	(1,020)	1,000
Cash and Cash Equivalents, End of Year	74,476	67,156	7,320

Cash Flows from Operating Activities

BCA's net cash inflows generated from operations in 2014 amounted to Rp 35.1 trillion compared to use of cash of Rp 4.2 trillion in 2013. The major differences in cash flows from operating activities in 2014 compared to 2013 were:

- Cash inflows arising from operating activities were primarily derived from interest, fees and commissions and deposits from customers. In 2014 the Bank received net cash inflows from interest, fees and commissions amounting to Rp 50.3 trillion, compared to Rp 40.5 trillion in 2013. Net cash inflows generated from deposits from customers amounted to Rp 39.1 trillion in 2014 compared with Rp 47.1 trillion in 2013.
- Cash outflows from operating activities are primarily derived from lending activities, payment of interest, fees and commissions and other operating expenses. In 2014, the Bank recorded net cash outflows from lending activities of Rp 34.3 trillion, compared to Rp 52.1 trillion in 2013. The cash outflow from payment of interest, fees and commissions expenses totaled Rp 11.7 trillion in 2014 compared to Rp 7.8 trillion in 2013. Cash outflows from other operating expenses amounted to Rp 15.7 trillion in 2014 compared to Rp 12.7 trillion in 2013.
- Furthermore, movements of 'Securities Purchased Under Agreements to Resell' generated cash inflows of Rp 14.8 trillion compared to cash outflow of Rp 6.6 trillion in 2013.

Cash Flow from Investing Activities

Net cash outflows for investing activities during 2014 amounted to Rp 25.1 trillion, compared to Rp 4.6 trillion in 2013. The difference was mainly derived from cash outflows for acquisition of Investment Securities totaling Rp 49.7 trillion in 2014 from Rp 18.3 trillion in 2013. In addition, the Bank received cash inflows of Rp 27.3 trillion from proceeds from Investment Securities that had matured during the year compared to Rp 15.6 trillion in 2013. In 2014 cash used for acquisition of fixed assets totaled Rp 2.7 trillion, similar to 2013's Rp 2.9 trillion.

Cash Flow from Financing Activities

Net cash outflows for financing activities in 2014 amounted to Rp 2.7 trillion. In contrast, in 2013 the Bank recorded a net cash inflow of Rp 84 billion from financing activities. The difference in cash flow from financing activities was primarily due to decrease or increase in debt securities issued; an increase in borrowings; payment of cash dividends; as well as the sale of treasury stocks.

In 2014 the Bank recorded a decrease of Rp 629 billion in the debt securities issued compared to an increase of Rp 611 billion in 2013. There was a rise in net borrowings to Rp 908 billion in 2014 from Rp 373 billion in 2013. Cash used for dividends paid by the Bank in 2014 amounted to Rp 3.1 trillion, up from Rp 2.9 trillion in 2013. Furthermore, in 2013 the Bank recorded cash inflow from sales of treasury stock amounting to Rp 1.9 trillion from the sale of 198,781,000 treasury stocks previously owned by the Bank. With these sales, as of 2014, the Bank no longer holds treasury stocks.

With cash flow movements as highlighted above, BCA's cash and cash equivalent position at the end of 2014 recorded at Rp 74.5 trillion compared to Rp 67.2 trillion at the end of 2013.

Solvability and Collectability

• Capital Adequacy Ratio

On a consolidated basis, the Capital Adequacy Ratio (CAR), taking into account credit, market and operational risk, was recorded at 17.2% in 2014, an increase of 120 bps from 16.0% in 2013. The non consolidated CAR ratio was recorded at 16.9% in 2014, an increase of 120 bps from 15.7% in 2013. The increase in the CAR ratio reaffirms the strong capital position of BCA.

In line with profitability growth, the Bank's core capital grew by 21.7%, reaching Rp 64.4 trillion at the end of 2014 (non consolidated) and accounted for 94.9% of BCA's total capital. Supplementary capital was recorded at Rp 3.5 trillion, or 5.1% of BCA's total capital. On a consolidated basis, BCA's core capital in 2014 was Rp 66.7 trillion and accounted for 94.0% of the total capital of BCA and supplementary capital amounted to Rp 4.2 trillion, or 6.0% of the total capital of BCA.

- **Non Performing Loans (NPL)**

In an unfavorable economic environment, BCA proactively managed the loan portfolio to maintain the quality of the Bank's loans. At the end of 2014, the Bank's gross NPL ratio stood at 0.6%, better than the overall banking industry in Indonesia. The NPL ratio rose slightly compared to 0.4% in 2013. The increase in the NPL was mainly due to the downgrade of a previously restructured corporate loan. The low NPL ratio is consistent with BCA's commitment to implement the principle of prudence in lending, thus enabling BCA to book a quality loan growth.

Rentability

- **Return on Assets (ROA)**

The Bank recorded a higher ROA ratio of 3.9% in 2014, an increase of 10 bps from 3.8% in 2013. The growth in operating income supported the growth of income that was greater than the growth rate of assets, resulting in an increase of the ROA ratio in 2014.

- **Return on Equity (ROE)**

Although the Bank recorded higher ROA, ROE was recorded at 25.5%, down 270 bps from the 28.2% ROE posted in 2013. The higher accumulation of retained earnings combined with a lower dividend payout ratio have promoted growth in equity and thus, a lower ROE.

- **Net Interest Margin (NIM)**

In 2014 the NIM ratio was recorded at 6.5% compared to 6.2% in 2013. The increase in yield and volume of earning assets offset the increase in cost of funds resulting in the Bank's NIM increasing by 30 bps in 2014.

- **Operating Expenses to Operating Revenues**

In 2014 the BOPO ratio was relatively stable at 62.4%. The cost efficiency ratio stood at 44.2%, compared to 42.9% in the previous year.

Liquidity

- **Secondary Reserves**

BCA remains committed to maintaining a sound liquidity position. BCA's solid funding sources are mostly comprised of CASA funds representing 75.1% of the total third party funds in 2014. The Bank routinely monitors liquidity and performs strict monitoring of secondary reserves. The liquidity buffer is maintained at a conservative level with secondary reserves recorded at Rp 63.9 trillion, or 14.3% of the total third party funds, at the end of 2014.

Secondary Reserves*

	2014		2013		Increase / (decrease)	
	billion Rupiah	Composition	billion Rupiah	Composition	billion Rupiah	Percentage
Securities Purchased under Agreements to Resell**	19,253	30.1%	38,882	68.5%	(19,629)	-50.5%
Bank Indonesia Certificates***	33,141	51.9%	5,619	9.9%	27,522	489.8%
Bank Indonesia Term Deposits	2,168	3.4%	5,477	9.7%	(3,309)	-60.4%
Bank Indonesia Deposit Facility	6,071	9.5%	3,007	5.3%	3,064	101.9%
Placement with Other Banks	3,264	5.1%	3,770	6.6%	(506)	-13.4%
Total Secondary Reserves	63,897	100.0%	56,755	100.0%	7,142	12.6%

* Internally, BCA defines placements in short-term instruments with risk-free or low-risk characteristic as the Bank's secondary reserves

** Consists of Securities Purchased Under Agreements to Resell from Bank Indonesia and excluding from other banks which amounted Rp 7.0 trillion in 2014 and Rp 2.2 trillion in 2013

*** For investment purpose stood at Rp 31.6 trillion in 2014 and Rp 4.7 trillion in 2013. As Financial Assets Held for Trading amounted to Rp 1.5 trillion in 2014 and Rp 0.9 trillion in 2013

Placements in the secondary reserves were largely placements with Bank Indonesia. The placement of funds was in the form of risk-free or low risk short-term placements. BCA's secondary reserves consist of Placements with Bank Indonesia and Other Banks, Securities Purchased Under Agreements to Resell with Bank Indonesia and Bank Indonesia Certificates.

Bank Indonesia Certificates and Securities Purchased Under Agreements to Resell with Bank Indonesia are a large part of the Bank's secondary reserves, amounting to 82.0% of the total. Placement allocation of secondary reserves considers issuer, tenor, yield and market availability.

Secondary reserves are deemed to be adequate to support the liquidity for BCA's banking activities in various scenarios under liquidity stress test conditions.

- **Loan to Deposit Ratio (LDR)**

In 2014 the LDR of BCA was recorded at 76.8% compared to 75.4% in 2013, lower than the average banking sector LDR which came to 89.4%. BCA strives to achieve and maintains an optimal balance between its liquidity position and the growth of the Bank's lending.

TARGET ACHIEVEMENTS IN 2014

Although slightly lower than originally expected, BCA recorded positive lending growth of 11.0% in 2014. Throughout the year BCA focused on lending to existing high quality customers with proven ability to weather uncertain political and economic conditions. Overall, the corporate and commercial lending segments represented the biggest portion of the Bank's total loan growth in 2014. Loan growth was achieved without a material deterioration in asset quality, with the NPL ratio standing at 0.6% at year end 2014. BCA's NPL ratio compares favorably to the banking sector's 2.2% NPL ratio.

As a proactive move to anticipate a modest CASA growth rate, BCA proactively raised funds from time deposit products through a series of staged interest rate adjustments. As a result, BCA was able to record total third party funds of Rp 447.9 trillion at the end of 2014, a growth rate of 9.4%, well within the targeted range of 8-11% growth.

Steady growth in lending and in third party funds supported solid financial performance and profitability growth. Net interest income rose by 21.2% to Rp 32.0 trillion in 2014, compared with Rp 26.4 trillion in 2013, with a net interest margin of 6.5% compared with 6.2% in the previous year. Operating income other than interest grew by 13.6% to Rp 9.0 trillion during 2014. Cost efficiency ratio measured at 44.2% in 2014, slightly higher than 2013's 42.9%. BCA's overall net income grew by 15.7% to Rp 16.5 trillion by the end of 2014. The Bank generated sound returns throughout the year, with Return on Assets (ROA) and Return on Equity (ROE) of 3.9% and 25.5% respectively, exceeding the predetermined targets.

CAPITAL STRUCTURE AND MANAGEMENT CAPITAL STRUCTURE POLICY

Capital management policy aims to ensure that BCA has a strong capital base to support the Bank's current expansion strategy, assure sustainable growth in the future, in accordance with regulations.

A Capital Plan is prepared by the Board of Directors as part of the Bank's Business Plan and approved by the Board of Commissioners. This plan is expected to ensure the availability of sufficient capital and the maintenance of a healthy capital structure.

In 2014, all capital requirements were met through organic capital growth driven by BCA's solid profitability and a balanced dividend distribution policy based on a target level for capital.

Dividend Policy

BCA determined the dividend payout ratio based on the Bank's profitability and capital needs for growth while taking into consideration the interests of the shareholders.

In the last few years BCA has gradually adjusted the dividend payout ratio to strengthen capital, particularly for supporting lending and new business lines as well as building capital in anticipation of the implementation of Basel III. Based on the results of the Annual General Meeting of Shareholders on April 7, 2014, the shareholders approved the net income allocation in 2013 with the provision of cash dividends in the amount of Rp 3.0 trillion or Rp 120 per share (paid through the interim dividend in the amount of Rp 45 per share on December 17, 2013 and a final dividend of Rp 75 per share paid on May 20, 2014). The most recent dividend payout ratio stood at 20.8%, payable from the net income in 2013. BCA distributed a portion of the 2014 net income with an interim dividend of Rp 50 per share paid on December 23, 2014.

BCA sets the appropriate dividend payout ratio annually to ensure that the retained earnings will be able to support the capital necessary to meet growth targets and manage risk. The amount of the dividend payout ratio is determined by taking into account the latest business developments, particularly in the achievement of loan targets, and the need to maintain adequate capital.

Dividend Payout Ratio

Capital Requirement of Subsidiaries

The capital requirements of BCA's subsidiaries are currently not significant compared to BCA's capital position. The subsidiaries are projected to grow gradually, allowing the Bank to monitor the risks periodically and enabling the Bank to comfortably meet the capital requirements of the subsidiaries.

In 2014, BCA provided a Rp 300 billion capital injection to BCA Syariah as approved by the Indonesia Financial Services Authority on June 18, 2014. Meanwhile, BCA and other shareholders also made a capital injection into Central Santosa Finance in the amount of Rp 200 billion overall, Rp 140 billion of which was contributed by BCA and BCA Finance as approved by the Indonesia Financial Services Authority on July 17, 2014. These capital injections are expected to accelerate developments at both companies.

Capital Structure Policy

BCA has a policy to maintain the capital structure and CAR at an adequate level to support business growth and to anticipate major risks, including but not limited to credit risk, market risk and operational risk that are inherent in the Bank's businesses. Tier I capital base accounted for 94.9% of total BCA's capital.

BCA's Capital Position

At the end of December 2014, the Capital Adequacy Ratio (CAR) was recorded at 16.9% (non consolidated), while the consolidated CAR was at 17.2%. Non consolidated core capital at the end of 2014 stood at Rp 64.4 trillion, representing 94.9% of BCA's total capital, while the non consolidated supplementary capital stood at Rp 3.5 trillion, or 5.1% of BCA's total capital.

Component of Capital (non consolidated - in billion Rupiah)

	2014	2013
Capital

Credit, Operational and Market Risk	16.9%	15.7%

MATERIAL INFORMATION ABOUT INVESTMENT, EXPANSION, DIVESTMENT AND ACQUISITION

During 2014, there were no material transactions or activities related to investments, expansions, divestitures, or acquisitions.

In the second half of 2014, through the subsidiary BCA Sekuritas, BCA was granted the permission to develop a new life insurance subsidiary.

INFORMATION ON MATERIAL TRANSACTIONS WITH CONFLICTS OF INTEREST

During 2014, there were no transactions conducted by BCA that could be considered as transactions with conflict of interest.

In 2014, the Company engaged in several transactions with related parties, including lending and deposit taking from customers, the details of the amount and type of transaction as well as the nature of relationships with related parties can be viewed in the Consolidated Financial Statements which have been audited in Note No. 41.

PROVISION OF FUNDING, COMMITMENT AND OTHER FACILITIES THAT CAN BE EQUATED WITH THAT OF ANY COMPANY OR LEGAL ENTITY WHO IS WITHIN ONE BUSINESS GROUP WITH THE BANK TO DEBTORS WHO HAD OBTAINED PROVISION OF FUNDS FROM THE BANK

Combined facilities provided by the Bank and its subsidiaries to a debtor or debtor group amounted to Rp 130.2 trillion, or 37.6%, of the Bank's total outstanding loans as of 31 December 2014. The NPL of this loan portfolio was 1.2% in December 2014. The majority of combined lending facilities were loans from the Bank and its 4-wheeler financing subsidiary, BCA Finance, to the same borrowing party.

Combined Facilities provided by the Bank and its Subsidiaries (in billion Rupiah)

Collectability	Number of Debtors	Facilities at Subsidiaries				Facilities in BCA	Total Exposure

IMPACT OF CHANGES IN LAWS AND REGULATIONS

Since 2014, the banking industry has been under the supervision of the Indonesia Financial Services Authority (OJK). In the framework of integrated supervision, in 2014 OJK issued regulations to strengthen the integrated supervision of business groups. The regulation includes the Integrated Risk Management and Integrated Governance for Financial Conglomerates. These regulations are to be implemented in stages from 2014 to 2018, starting with reports on the designation of main entities, risk profile and GCG and ending with sanctions for banks that do not meet the regulations.

In addition to regulations on risk management and integrated governance, OJK also issued regulations for Branchless Banking. Branchless banking relies on the latest information technology advancements and is supported by both individual and institutional agents. This service aims to reach out to the previously unbanked population—communities that have thus far not enjoyed access to banking services. Services offered by branchless banking include savings, micro-credit, micro-insurance and e-money. In addition to these regulations, Bank Indonesia issued regulations relating to the provision of e-money services.

In 2012, Bank Indonesia issued a regulation regarding banks' participation in the financing of Indonesia's Micro, Small, and Medium Enterprises segment. This regulation is aimed to accelerate the development of inclusive financing services, in cooperation with the Micro, Small, and Medium Enterprises sector as one of economic pillars of the national economy. In accordance with Bank Indonesia's regulation, banks are required to provide Micro, Small, and Medium Enterprises loans equivalent to at least 20% of total loans. This percentage shall be reached gradually from 5% in 2015 to 20% in 2018.

In 2014, Bank Indonesia began enforcing rules to restrict the number of credit cards held by each customer. Bank Indonesia also issued regulations regarding the use of a 6-digit PIN for credit cards, which is to be applied gradually starting from January 1, 2015 and is targeted to be completed by June 20, 2020.

BCA believes that these regulations will have positive impacts to the banking sector. In the short to medium term, regulations related to the Branchless Banking initiatives and Micro, Small, and Medium Enterprises, are unlikely to contribute to profitability as the Bank will need to make investments and develop expertise in these new business areas. In the long run, the Bank believes that these initiatives will be beneficial for the development of the banking industry and will open up new areas of business.

CHANGES IN ACCOUNTING POLICIES

Standards issued but not yet effective

Certain new accounting standards have been issued but are not yet effective for the year ended 31 December 2014, and have not been applied in preparing these consolidated financial statements.

The following standards will become effective starting 1 January 2015 and relevant to the Bank and Subsidiaries:

- a. SFAS No. 1 (2013 Revision), "Presentation of Financial Statements"
- b. SFAS No. 4 (2013 Revision), "Separate Financial Statements"
- c. SFAS No. 24 (2013 Revision), "Employee Benefits"
- d. SFAS No. 46 (2014 Revision), "Income Taxes"
- e. SFAS No. 48 (2014 Revision), "Impairment of Assets"
- f. SFAS No. 50 (2014 Revision), "Financial Instruments: Presentation"
- g. SFAS No. 55 (2014 Revision), "Financial Instruments: Recognition and Measurement"
- h. SFAS No. 60 (2014 Revision), "Financial Instruments: Disclosures"
- i. IFAS No. 26 (2014 Revision), "Reassessment of Embedded Derivatives"
- j. SFAS No. 65, "Consolidated Financial Statements"
- k. SFAS No. 67, "Disclosure of Interests in Other Entities"
- l. SFAS No. 68, "Fair Value Measurement"

The Bank and Subsidiaries are still in process of analyzing the impact from adopting these standards.

PRIME LENDING RATE

In connection with the Regulation of Bank Indonesia No. 7/50/PBI/2005 on Transparency of Financial Condition, BCA has been transparent in providing Prime Lending Rate information to the public through publications on its website, in newspapers, and in the Annual Report. Prime Lending Rate publication enhances good corporate governance, and encourages healthy competition in the banking industry.

The Prime Lending Rate calculation is based on three components consisting of the cost of loanable funds; overhead costs incurred by the Bank in the lending process; and the profit margin determined for lending activities.

The following is a presentation of BCA's quarterly Prime Lending Rates in 2014. Detailed information on changes to the Prime Lending Rate is made available at branches and can be accessed from the Bank's website at www.bca.co.id, as well as through national daily newspapers.

Quarterly Prime Lending Rate in 2014 (effective % p.a)

End of Period	Prime Lending Rate Based on Loan Segment			
	Corporate Loan	Retail Loan	Consumer Loan	
			Mortgage	Non Mortgage
Quarter I	10.25	11.75	10.50	9.71
Quarter II	10.50	11.75	10.50	9.71
Quarter III	10.50	11.75	10.50	9.71
Quarter IV	10.50	11.75	10.50	9.71

Prime Lending Rate per Change (effective % p.a)

Month of Changes	Prime Lending Rate Based on Loan Segment			
	Corporate Loan	Retail Loan	Consumer Loan	
			Mortgage	Non Mortgage
January 2014	10.25	11.75	9.50	9.18
February 2014	10.25	11.75	10.50	9.71
May 2014	10.50	11.75	10.50	9.71

Note:

- Prime Lending Rate is used as the basis for determining lending rates to be charged to the Bank's customers. The Prime Lending Rate does not include the estimated individual credit risk premium which depends on the Bank's risk assessment on each debtor or group of debtors. Therefore, the lending rate for each debtor might be different from the Prime Lending Rate.
- Non-mortgage consumer loans do not include credit card and/or uncollateralized credit loans.
- Non-mortgage consumer loans Prime Lending Rate is the Prime Lending Rate for vehicle loans provided to customers through a joint financing program with PT BCA Finance.
- The Prime Lending Rate for mortgages is the variable rate (floating rate).

MATERIAL COMMITMENTS FOR CAPITAL EXPENDITURES AND REALIZATION IN 2013 AND 2014

In 2014 the Bank invested Rp 2.7 trillion in capital expenditure. This expense was primarily directed towards the expansion of the branch infrastructure, ATM and EDC networks, as well as information technology development. In 2014, 49 new branches (including cash offices) and 2,646 new ATMs were added to the network, and tens of thousands of new EDC machines were installed in various strategic locations throughout Indonesia. With these additions, as of end of the 2014, BCA operates 1,111 branches, 16,694 ATMs and hundreds of thousands of EDC machines. Investments in capital expenditure were financed from operational income retained from the previous year or from the current year.

Capital expenditure investment in 2014 was lower than in 2013, considering the significant investment in 2013 for the construction of the Surabaya Disaster Recovery Center.

With the capital expenditure investments made in 2014, the total gross fixed assets owned by the Bank were worth Rp 14.7 trillion at the end of 2014, an increase of 18.7% compared to Rp 12.4 trillion at the end of 2013.

In the future the Bank is committed to continuing to invest in the development of business networks and strengthening technology to better serve the various needs of the customers.

Capital Expenditures Investment (in billion Rupiah)

	2014	2013	Increase / (decrease)	
			Nominal	Percentage
Land	115	97	18	18.6%
Buildings	79	287	(208)	-72.5%
Office furnitures, fixtures and equipments	1,453	1,179	274	23.2%
Motor vehicles	9	11	(2)	-18.2%
Construction in progress	1,023	1,370	(347)	-25.3%
Leased assets	32	1	31	N.A
Total	2,711	2,945	(234)	-7.9%

MATERIAL INFORMATION AND FACTS THAT OCCURRED AFTER THE DATE OF ACCOUNTANTS' REPORT

OVERVIEW OF BCA PERFORMANCE BY BUSINESS SEGMENTS

The following is a summary of overall performance by business segments. More comprehensive information can be found in the Business Review section of this report on page 46 – 69.

Composition of Earning Assets, Loans and Interest Income

Earning Assets Composition

Rp 483.9 trillion

Loan Composition (non consolidated)

Rp 347.0 trillion

Interest Income Contribution

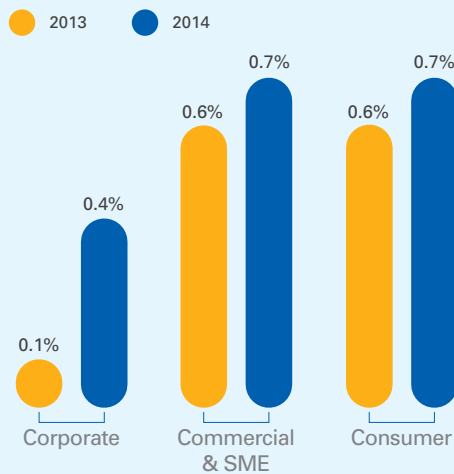

Rp 43.8 trillion

Credit Quality

Bankwide NPL Ratio

NPL Ratio by Segment

Composition of Third Party Funds and Interest Expense

Third Party Funds Composition

**CASA
Rp 336.4 trillion
75.1%**

Rp 447.9 trillion

Interest Expense Breakdown

Rp 11.7 trillion

Branch Banking

Branch Banking business covers commercial and Small & Medium Enterprises (SME) lending, transaction banking services, as well as deposit taking activities. In 2014, commercial and SME lending provided the largest contribution to the overall loan portfolio. With uncertain economic conditions and a business slowdown over 2014, BCA maintained funding in transaction accounts (CASA) and posted increasing transaction volume. BCA took proactive steps to maintain a solid liquidity position by gathering funds from time deposits. As a result, third party funds increased by Rp 38.4 trillion or 9.4% to Rp 447.9 trillion in 2014 from Rp 409.5 trillion in 2013

Commercial and SME Banking

Commercial and SME lending represent a significant portion, 38.1%, of the Bank's overall loan portfolio. Commercial and SME lending recorded a growth of 13.5% to Rp 82.9 trillion and 3.6% to Rp 49.4 trillion by the end of 2014. Commercial lending accounted for 62.7% of the overall commercial and SME loan portfolio while SME lending accounted for 37.3%.

BCA continues to maintain asset quality with low NPLs at 0.7% for both Commercial & SME lending at year end 2014. BCA prioritizes lending to customers with a proven credit track record and those who have a long relationship with the BCA. The Bank also requires an adequate amount of solid collateral for the SME segment.

Micro, Small and Medium Enterprises Lending

Aside through branch banking, the framework adopted by BCA in distributing loans to micro, small and medium enterprises lending is by cooperating with partner institutions such as Rural Credit Banks and Cooperatives. On December 31, 2014, the micro, small and medium enterprises loan portfolio of BCA (as defined by Bank Indonesia) stood at Rp 30.0 trillion or 8.7% of the total BCA loan portfolio. Through BCA Syariah, BCA is also exploring a pilot project in micro SMEs Sharia financing.

Third Party Funds

BCA CASA funds grew 4.2% to Rp 336.4 trillion by the end of 2014 amid the challenging economic conditions. Increased CASA funds during the Eid 2014 holidays was an indicator that BCA transaction banking services remained a mainstay for the Indonesian people. BCA maintained its position as a leading transaction bank in Indonesia by continuously launching new innovative products, expanding the network and improving payment services. BCA's focus on service quality and customer convenience provides a solid foundation to facilitate both business and individual customers.

CASA is a major part of BCA's total third party funds representing 75.1% of third party funds at the end of 2014. Savings accounts funds contributed 68.1% to BCA CASA while the remaining 31.9% were from current accounts funds. Savings accounts funds grew 4.2% to Rp 229.0 trillion while current accounts grew 4.1% to Rp 107.4 trillion at the end of 2014.

BCA proactively raised funds from time deposits to support the Bank's solid liquidity position. In 2014, BCA selectively raised time deposits rates for certain time deposit categories while keeping rates well within the guidelines established by the Indonesia Deposit Insurance Corporation and the Indonesia Financial Services Authority. The Bank's strategy to gather funds through time deposits strengthened the overall third party funding position. Overall time deposits grew Rp 24.9 trillion, or 28.8% from 2013 to reach Rp 111.5 trillion in 2014.

Corporate Banking

Corporate loans recorded a growth of 16.9% to Rp 120.5 trillion over the course of the year accounting for 34.7% of the total loan portfolio in 2014. The disbursement of corporate loan is directed at quality customers who have established good relationships with the Bank.

Overall corporate loans are managed in a diversified portfolio with lending limits for each industry, group of debtors and business line exposure.

Customer demand for funding to support investment activity drove significant growth in investment loans during 2014. Investment loans in the corporate segment increased by 23.4% to Rp 63.7 trillion by the end of 2014. Realization of committed investment loans and new exposure to the leading state-owned enterprises contributed about half of the total growth in investment loans in the corporate segment in the corporate segment. Working capital loans in the corporate segment grew 10.4% to Rp 56.8 trillion by the end of 2014 from the previous year, which amounted to Rp 51.5 trillion.

Rupiah denominated loans contributed 84.3% of total corporate loans with growth of 14.1% to Rp 101.6 trillion at the end of 2014. Loans in foreign currency accounted for 15.7% of the total corporate loans. Loans denominated in foreign currencies amounted to USD 1.5 billion at the end of 2014 compared to USD 1.2 billion in the previous year. The low Corporate Banking NPL ratio at 0.4% experienced a slight increase when compared with the NPL ratio of 0.1% at the end of 2013. This increase is due to a downgrade of a previously restructured corporate loan. The overall loan quality of the corporate segment remained intact up to the end of 2014 with no indication of significant NPL formation.

Individual Banking

In 2014, BCA recorded a slower growth in Individual Banking business, including mortgages and vehicle loans. Overall consumer loans grew 6.1% to Rp 92.3 trillion in 2014, contributing 26.6% to BCA's total loan portfolio.

In the midst of unfavorable macroeconomic conditions, tighter banking regulations and higher interest rates, BCA took steps to adopt a more cautious policy in lending, including for consumer lending. These proactive measures were taken to ensure that lending is done prudently with the result reflected in the NPL ratio for consumer loans being maintained at a low level of 0.7%.

In 2014, mortgages grew by 3.2% to Rp 54.7 trillion, accounting for 59.2% of the total consumer loans. Vehicle loans increased by 8.3% to Rp 28.9 trillion, accounting for 31.3% of the total consumer loans. In the same period, credit cards lending outstanding grew 18.5% to Rp 8.8 trillion, accounting for 9.5% of the total consumer loans.

Consumer Loans (in billion Rupiah, non consolidated)

	2014	2013	Increase / (decrease)	
			Nominal	Percentage
Mortgages	54,652	52,949	1,703	3.2%

Total	92,277	86,984	5,293	6.1%

* Including 2-wheeler financing of Rp 4.2 trillion in 2014 and Rp 3.3 trillion in 2013

MARKETING

BCA designs various marketing strategies to build awareness and capture customers interest with the goal to maintain the Bank's solid funding position and disseminate improvements of leading products and services to the market. BCA is implementing the 360° marketing communication approach, which provides various customer touch points through both conventional media and digital media.

The following are some of BCA's major events and headline campaigns in 2014.

Corporate Campaign

In 2014, BCA conducted a corporate branding campaign "Solusi Kemudahan Transaksi BCA" ("Hassle Free BCA Transactions") focusing on the individual segment. The campaign raised the message "*Hidup Lebih Lancar, e-Banking BCA*" ("Enjoy a Hassle Free Life, e-Banking BCA") where BCA highlighted a variety of solutions to make individual banking easier, such as BCA Mobile, KlikBCA, Flazz and other solutions.

Product Launch Campaign

In 2014 BCA launched myBCA, a BCA service concept of automated branch, available at 3 malls in Jakarta and Surabaya. Promoted with the theme "Bank dengan kendali penuh di tangan Anda" ("Bank with complete control in Your hands"), myBCA translates as "my bank my way", inviting customers to experience myBCA service.

Strategic Campaign

Several strategic campaigns conducted by BCA in 2014 were aimed at the mass segment and individual business as follows:

- **Mass individual.** BCA launched the Gebyar Tahapan BCA campaign through various promotional media with the campaign theme "Peluang dimana-mana" ("There's always a chance"). In addition, BCA organized local "culinary feast" events in 8 major cities across Indonesia. Gebyar Tahapan BCA is a lucky draw event on live TV that aims to increase the loyalty of Tahapan products customer with various rewards including a Grand Prize of a Mercedes-Benz S-Class.

BCA also promoted m-BCA, BCA mobile banking services. With the theme "Transaksi m-BCA melimpah hadiah" ("Abundant Prizes From m-BCA Transaction"), this joint promotion between m-BCA and Telkomsel was directed exclusively for customers who transacted through m-BCA, offering points and rewarding monthly prizes for customers with the highest points.

- **Business Segment.** For individual entrepreneur customers, BCA offers various prize rewards in several trading areas with the main focus at Tanah Abang Jakarta, ITC Mangga Dua Jakarta, and Pasar Atom Surabaya as large trading centers. Communications were focused in their respective areas through outdoor media and point of sales promos.

Together these intensive and effective marketing activities successfully supported the Bank's business development in 2014 and boosted BCA as the 'Top of Mind' bank. As evidence of BCA's marketing success, in 2014 BCA received numerous awards from leading institutions including "Indonesia's Most Admired Companies" from Fortune Magazine and "Top Brand Award 2014" from Frontier Consulting Group and Marketing Magazine.

OVERVIEW OF SUBSIDIARY AND ASSOCIATED ENTITY PERFORMANCE

Subsidiaries owned directly or indirectly by BCA as of December 31, 2014 include:

PT BCA Finance

Established in 1981 and a subsidiary of BCA since 2001, BCA Finance, a BCA wholly owned subsidiary and a leading finance company in Indonesia, engages in 4-wheeler financing, both for new and used automobiles. In the midst of intense competition and during a consolidation phase in the financing industry, BCA Finance continued to implement strategies that promote the efficiency of operations, competitive interest rates, prudent risk management, and solid cooperation with business partners.

As of year end 2014, BCA Finance operates with the support of 3,102 employees and 58 branches in cities across Indonesia. BCA Finance branches synergize with the BCA branch network whereby branches work together in marketing and customer service.

BCA Finance manages a joint financing program with BCA in order to support a solid and stable funding position. Including the joint financing program, total assets under management of BCA Finance as of December 31, 2014 reached Rp 35.6 trillion, relatively stable compared with the previous year. Total 4-wheeler financing booked by BCA Finance reached Rp 5.2 trillion, relatively stable compared to the previous year. The net profit of BCA Finance reached Rp 1,001 billion, up 7.1% compared to the end of 2013 of Rp 935 billion.

BCA Finance Total Assets Under Management (in billion Rupiah)

BCA Finance Net Profit (in billion Rupiah)

PT Central Santosa Finance

PT Central Santosa Finance (CS Finance) was established in 2010 with a business focus on 2-wheeler financing. In January 2014, BCA signed a purchase agreement in order to acquire a 45% ownership of CS Finance. Following the acquisition, BCA has a 70% shareholding of CS Finance, both directly and indirectly.

In 2014, CS Finance continued to strengthen network infrastructure and develop human resources. In addition to the BCA network and CS Finance branch network, CS Finance established payment points in collaboration with other partners such as Alfamart and Lawson group in order to serve loan installment payments for 2-wheeler vehicles. As of the end of 2014, CS Finance had 78 branches in various parts of Java, Sumatra and others.

Like BCA Finance, CS Finance also established joint financing with BCA. Total assets under management at CS Finance at the end of 2014 increased 17.2% to Rp 5.7 trillion from Rp 4.9 trillion at the end of 2013. Total 2-wheeler financing booked by CS Finance reached Rp 2.0 trillion, up 7.5% from Rp 1.9 trillion in 2013. CS Finance recorded net profit of Rp 82 billion compared to Rp 87 billion in 2013.

PT Bank BCA Syariah

PT Bank BCA Syariah is a company engaged in Sharia banking. In 2009, BCA acquired an independent commercial bank, which was subsequently converted into a Sharia bank under the name BCA Syariah. BCA's direct and indirect ownership of BCA Syariah is 100%.

BCA Syariah facilitates the needs of customers for Sharia banking products in the field of payment settlement, funding and the provision of financing facilities for individuals and micro, small and medium size businesses. The main business targets of BCA Syariah are those who desire quality Sharia banking products and services supported by the ease of access and speed of transactions that the BCA Group can offer.

At the end of 2014, BCA Syariah had 45 branches in a network consisting of 8 main branches; 2 sub branches offices; 4 sub branches and 8 functional branches for micro business development; and 23 Sharia services units across Jakarta, Tangerang, Bogor, Depok, Bekasi, Surabaya, Semarang and Bandung. In order to create improved service efficiency, BCA Syariah utilizes BCA's transaction banking infrastructure such as the branch network, ATMs, and EDC machines.

BCA Syariah's total assets at the end of 2014 rose 46.7% to Rp 3.0 trillion from Rp 2.0 trillion at the end of 2013. By the end of 2014, BCA Syariah recorded growth in third party funds of 32.8% to Rp 2.2 trillion and increasing portfolio of Sharia financing by 49.9% to Rp 2.1 trillion. BCA Syariah recorded net profits of Rp 13.0 billion in 2014 compared to Rp 12.7 billion in 2013. Reliance on high-cost time deposit funding limited BCA Syariah's profitability.

BCA Syariah Performance (in billion Rupiah)

	2014	2013	Increase / (decrease)	
			Nominal	Percentage
Total Assets	2,994	2,041	953	46.7%
Sharia Financing	2,131	1,422	709	49.9%
Third Party Funds	2,249	1,694	555	32.8%
Net Profit	13.0	12.7	0.3	2.4%

PT BCA Sekuritas

BCA owns a 75% stake in PT BCA Sekuritas, a company engaged in securities brokerage and underwriting.

In 2014, BCA Sekuritas continued to strengthen its business infrastructure and operational systems. BCA Sekuritas has been recruiting experienced human resources and consistently enhancing its products and services. In 2014, BCA Sekuritas completed the implementation of a Business Continuity Plan to ensure the continuity of business development.

As of the end of 2014, total assets of PT BCA Sekuritas reached Rp 517.1 billion, an increase of 25.1% compared to 2013's total assets of Rp 413.4 billion. PT BCA Sekuritas recorded net profit of Rp 4.5 billion in 2014, decreasing from Rp 7.5 billion in 2013. This decline was due to doubled personnel cost in 2014 due to the recruitment of experienced professionals to manage the business.

PT Asuransi Umum BCA

PT Asuransi Umum BCA is engaged in the general insurance industry. BCA's direct and indirect ownership of BCA Insurance is 100%.

In 2014, BCA Insurance continued to expand its network coverage. In addition to Java and Bali, BCA Insurance is also expanding its network in Sumatra and Kalimantan. In 2014, BCA Insurance finished building a Data Recovery Center and Security Networking to strengthen the data backup system and improve network security. The synergy of BCA and BCA Insurance continues to be developed through marketing of general insurance products at BCA branches.

BCA Insurance has recorded an improving operating performance sustained by rising premium income. BCA Insurance works with BCA Finance's vehicle loans and BCA's mortgages businesses as a main source of business for BCA Insurance. BCA Insurance will continue to work together with BCA Individual Banking team to increase cross-selling efforts.

Total assets of BCA Insurance at the end of 2014 rose 57.4% to Rp 679.5 billion from Rp 431.7 billion at the end of 2013. Gross premium income rose 52.4% to Rp 319.5 billion at the end of 2014, compared to the end of 2013, which amounted to Rp 209.6 billion.

Meanwhile, investment income grew by 113.8% compared to the previous year. BCA Insurance achieved a net profit of Rp 36.2 billion in 2014 compared to Rp 26.2 billion in 2013.

PT Asuransi Jiwa BCA

PT Asuransi Jiwa BCA (BCA Life) is a business entity that provides life insurance services. BCA Life is owned by BCA Sekuritas, which has a majority stake of 99% of the shares with the remaining owned by BCA Insurance.

Receiving the license of establishment and operation from Indonesia Financial Services Authority in July 2014, BCA Life commenced commercial operation in the fourth quarter of 2014. BCA Life will focus to provide protection insurance for BCA's consumer credits particularly on vehicle financings and mortgages in the early cycle of business development. BCA Life will grow its business scale in stages with focus on capital-light products. In 2015, BCA Life will lay emphasis on building its core operational system.

BCA Finance Limited

BCA Finance Limited is a company wholly owned by BCA and domiciled in Hong Kong. BCA Finance Limited is engaged in the remittance business and has a business license as a money lender.

As of the end of 2014, total assets of BCA Finance Limited reached Rp 446.5 billion, an increase of 0.4% compared to 2013, which amounted to Rp 444.9 billion. The decline in remittance business in line with the unfavorable global economic condition placed pressure on BCA Finance's profits in 2014. Meanwhile, in 2013 BCA Finance recorded an income tax restitution of Rp 10.9 billion. As a result of these factors, BCA Finance recorded a loss of Rp 2.8 billion in 2014, compared with a Rp 12.2 billion profit in 2013.

PROSPECTS AND STRATEGIC PRIORITIES IN 2015

Prospects for the Indonesian Economy and Banking Sector in 2015

The consolidation of the Indonesian economy is predicted to continue in 2015 with the Indonesian Government and Regulators continuing to lay the foundations for solid growth. Global and regional economic conditions, currently in the recovery phase, will impact the development of the domestic economy.

In 2015 the Indonesian banking sector is again expected to continue to grow moderately, when compared with the high growth cycle in the period 2010 - 2013. The potential for interest rate and currency volatility remains high in 2015 while liquidity trend requires close attention throughout the year.

Prudent banking direction and policy from the Indonesia Financial Services Authority and Bank Indonesia, as well as the strong capital of the national banking sector, have created solid banking conditions to face various economic challenges.

BCA expects that the regulators will take necessary steps to maintain Rupiah stability, manage current account deficit, and safeguard overall macro economy condition.

BCA Business Prospects and Strategic Priorities in 2015

Although faced with various challenges, BCA is optimistic that Indonesia will see a smooth transition period. The presidential elections and the transition to the new administration went smoothly with the election of Joko Widodo giving high confidence for businesses and consumers. The Bank believes that the solid base developed by Susilo Bambang Yudhoyono's administration and the new approaches offered by Joko Widodo's administration will open up new opportunities for businesses.

Overall, BCA sees the Indonesian economy and the banking sector on a solid footing to face a period of economic transition and consolidation in 2015. BCA supports the efforts of the Indonesia Financial Services Authority and Bank Indonesia to maintain national credit growth at sustainable levels and maintain a healthy capital and liquidity of the banking sector.

In the long run, BCA is optimistic about the prospects of the economy and banking in Indonesia. The growth of the middle class in Indonesia and infrastructure development will support domestic economic growth in the future.

Supported by sound capital and solid liquidity position, BCA is committed to continuing investments in 2015 in order to strengthen the Bank's franchise value. Strategic priorities in 2015 will remain directed at deepening customer relationships through enhanced payment settlement services, prudent lending, and new businesses development. Opportunities for lending and development of new businesses will optimize the Bank's preeminence as a transaction bank. Below is a further elaboration of the three major business objectives:

- **Enhancing Payment Settlement Services**

BCA believes that excellence in payment settlement services will strengthen the long-term competitive advantage and will support the growth of the Bank's third party funds particularly in the stable CASA accounts.

As such, BCA continues to improve the capability of payment settlement services, including through innovation and improvement of product features and services. BCA will follow, explore and apply the latest technological developments in line with the level of customer acceptance. On network expansion, the Bank will increase the number of branches and electronic delivery channels, supported by enhanced capability and capacity of information technology infrastructure. In addition, cash management capabilities will continue to be improved.

BCA will continue to assess the development of the banking sector, in particular liquidity and CASA trends, with consideration to economic growth and business activities. If necessary, BCA can actively raise funds through time deposits products by adjusting interest rates. This is essential to maintaining third party funds and a strong and healthy liquidity position.

- **Lending**

In developing the credit portfolio in the coming years, BCA will continue to implement ongoing policies while taking into account liquidity

and capital capacity, as well as monitoring macroeconomic developments accompanied by the implementation of a prudent and effective risk management regime.

In the short term, the Bank will prioritize lending to qualified customers and segments that can contribute to CASA and overall third-party funds growth. For business lending, the Bank will actively explore lending to sectors with broad value chains. For individual customer lending, the Bank believes that mortgages, vehicle loans, and credit card loans have great long term potential. Thus, although individual loans are expected to grow slower than loans in the business sector in short-medium term, BCA is committed to being a leader and maintaining a strategic presence in the market.

BCA sees that the lending activities play an important role in maintaining long-term relationships with customers. To that end, the Bank will continue to enhance lending infrastructure in the various segments both in branches and at headquarters in support of sustainable credit growth.

- **Business Development Through Subsidiaries**

To meet the increasingly diverse needs of customers, BCA is developing a wide range of comprehensive financial products and services through new lines of businesses together with its subsidiaries in the field of vehicle financing, Sharia banking, securities, remittance, general insurance and life insurance.

In general, the subsidiaries continued to grow and have begun showing positive results in recent years. In late 2014, BCA Life, providing life insurance products, began operations and will complete the Bank's financial products and solutions for customers. BCA Finance, an established subsidiary entity active in the 4-wheeler financing industry, consistently provides a significant contribution to BCA's profitability.

In the coming years, the Bank will continue to support the growth of its subsidiaries and strengthen synergies with the Bank's main business lines in the field of payment settlement

services and lending. BCA will provide capital support progressively in line with business growth of respective subsidiaries.

The Bank believes that the strategy and the policy will support BCA in strengthening the Bank's long-term competitive advantages. Consistent strategic moves are believed to be able to build a quality customer base amid rising competition of Indonesian banking industry.

Financial Projections in the 2015 Business Plan

For 2015, BCA has prepared financial performance targets in line with the outlook for moderate economic and banking growth. In determining the projections and budget preparation, the Bank assesses its previous performances as well as medium term business plan.

Observing the consolidation of the national economy that BCA believes will continue in 2015, BCA expects loan growth to be approximately 10%-12% with the largest contribution coming from corporate and commercial loans. The Bank believes the consumer loan portfolio will grow marginally. On the funding side, BCA targets growth in third party funds of approximately 8%-11%.

Organic capital growth will support the development of business activities in 2015. BCA will review the annual dividend payout ratio to maintain the capital needed to sustain assets growth targets, capital expenditures, activities of new businesses and upcoming Basel III requirements. ROA ratio will be maintained above 2.5%, and ROE ratio is targeted to be in a range of 20%-23% in 2015.

BCA will apply the principle of prudence in achieving the projections and budgets that have been prepared. BCA continues to observe the development of macroeconomic factors and national banking competition in 2015, and if necessary, BCA may take strategic steps to modify the business plan in accordance with the conditions and economic development, as well as other unforeseeable events that may occur, in order to optimize the interests of the Bank's stakeholders.

“ BCA is committed to improving corporate governance as part of the BCA’s focus on delivering solid business growth and creating value for all stakeholders ”

Corporate Governance

Consistent implementation of Good Corporate Governance plays a vital role in maintaining the trust of shareholders and stakeholders of PT Bank Central Asia Tbk ("BCA"). Good Corporate Governance has become even more crucial with the increasing business risks and challenges faced by the banking industry.

218

INTRODUCTION

1. Purpose of Good Corporate Governance Implementation

BCA understands that implementation of good corporate governance is imperative to maintaining the Company's business sustainability and maximize value in the long run. Implementation of good corporate governance in BCA is intended to:

- a. Support the vision of BCA to be "the Bank of choice and a major pillar of the Indonesian economy".
- b. Support the following missions of BCA:
 - Build centers of excellence in payment settlements and financial solutions for businesses and individuals.
 - Understand diverse customer needs and provide the right financial services to optimize customer satisfaction.
 - Enhance our corporate franchise and stakeholder value.

- c. Give benefit and added value to the shareholders and stakeholders.
- d. Sustain and increase sound and competitive business continuity.
- e. Enhance the trust of investors in BCA.

2. References

BCA's policy for Good Corporate Governance is developed based on the following:

- a. Regulation No. X.K.6 concerning Submission of the Annual Report of Issuers or Public Companies – Attachment of Chairman of the Capital Market and Financial Institution Supervisory Agency Decision No. Kep-431/BL/2012 dated 1 August 2012.
- b. Criteria of Annual Report Award.
- c. Regulation of Bank Indonesia (PBI) No. 8/4/PB1/2006 dated 30 January 2006 on The Implementation of Good Corporate Governance for Commercial Banks which has been amended by the Regulation of Bank Indonesia (PBI) No. 8/14/PB1/2006 dated 5 October 2006.
- d. Bank Indonesia Circular Letter No. 15/15/DPNP dated 29 April 2013 on the implementation of Good Corporate Governance for Commercial Banks.
- e. ASEAN Corporate Governance Scorecard.
- f. The Indonesian Good Corporate Governance Roadmap issued by the Indonesia Financial Services Authority.

3. Statement of Corporate Governance Implementation Commitment

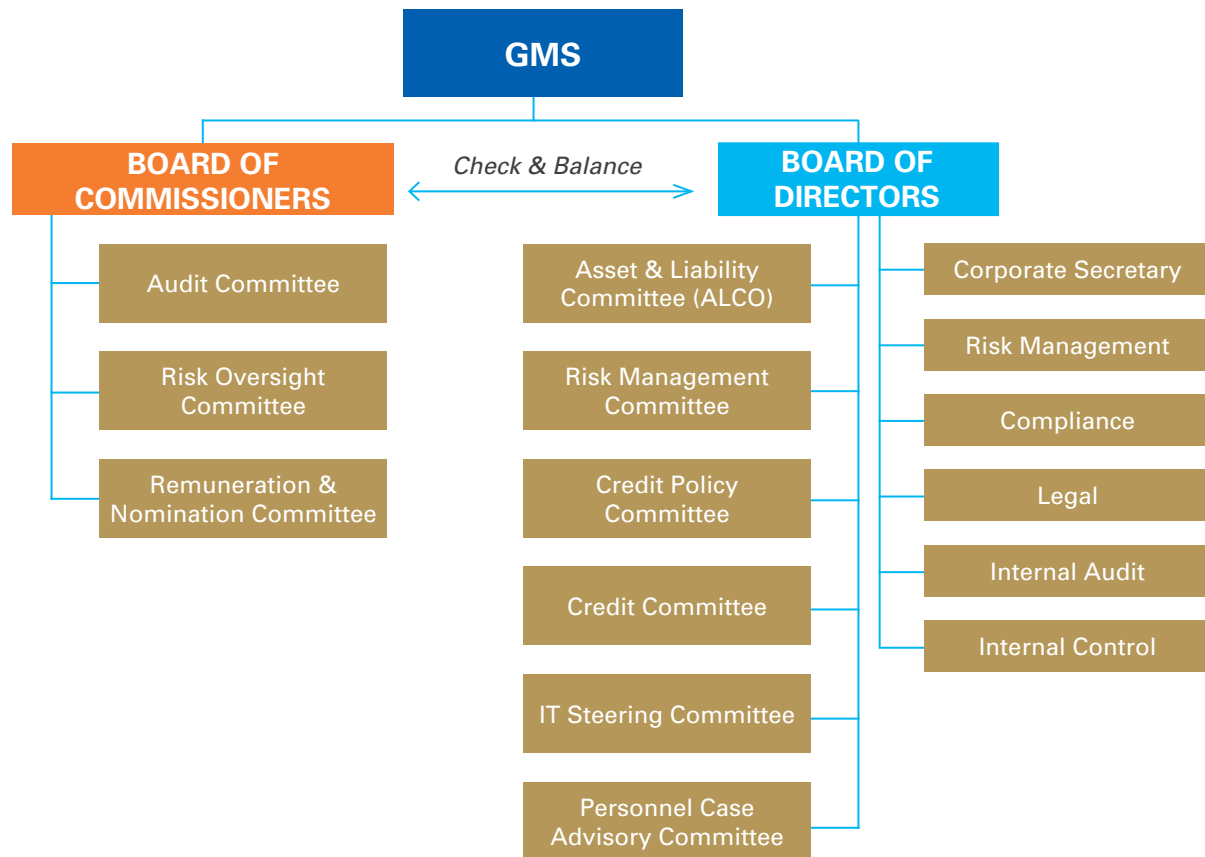

Implementation of GCG is a key factor in maintaining the trust of shareholders and stakeholders in BCA. It has become even more significant with the increasing business risk and challenges faced by the banking industry. Through the implementation of GCG principles, BCA will be able to maintain sound and competitive business continuity.

BCA is committed to continuously improve the implementation of good corporate governance principles in accordance with the provisions of the applicable legislation and the development of best corporate governance practices and the ASEAN Corporate Governance Scorecard.

4. Governance Structure

A clear division of tasks and responsibilities between different functions/work units within BCA reflects the application of checks and balances as well as a good internal control system.

BCA's Corporate Governance Structure

The BCA's structure of corporate governance consists of:

1. The General Meeting of Shareholders (GMS);
2. Board of Commissioners;
3. Board of Directors;
4. Committees under the Board of Commissioners: Audit Committee, Risk Oversight Committee, and Remuneration & Nomination Committee;
5. Executive Committees under the Board of Directors, which consist of the Asset & Liability Committee (ALCO), Risk Management Committee, Credit Policy Committee, Credit Committee, Information Technology Steering Committee, Personnel Case Advisory Committee;

6. Corporate Secretary;
7. Risk Management, Compliance, Legal, and Internal Audit work units.

The corporate governance structure allows BCA to carry out its duties and responsibilities according to the scope of duty, responsibility, and functions as stated in the applicable regulations.

5. Results of GCG Assessment

5.1. GCG Self Assessment Implementation

In 2014, BCA conducted its GCG self assessment review in accordance with the Regulations of Bank Indonesia and Bank Indonesia Circular Letter on GCG Implementation for Commercial Banks. The assessment falls into 3 (three) governance aspects, namely:

1. Governance Structure;
2. Governance Process; and
3. Governance Outcome.

The 3 aspects of Governance are implemented into 11 (eleven) Assessment Factors below:

1. Implementation of duties and responsibilities of the Board of Commissioners;
2. Implementation of duties and responsibilities of the Board of Directors;
3. Adequacy and implementation of duties of the Committees;
4. Handling conflict of interests;
5. Implementation of compliance function;
6. Implementation of internal audit function;
7. Implementation of external audit function;

8. Implementation of risk management, including the internal control system;
9. Funding to related party and large exposures;
10. Transparency of financial and non-financial condition of the Bank, GCG implementation report; and
11. The Bank's strategic plan.

Results of the Good Corporate Governance implementation self-assessment in the first and second half of 2014 is categorized under "**Rank 1**" ("**Very Good**"), both for Individual (BCA) and Consolidated (BCA and its subsidiary companies).

Results of the GCG Implementation Self-Assessment at BCA

	Rank	Rank Definition
Individual	1	Overall, implementation of Good Corporate Governance (GCG) by the Management of BCA is rated excellent . This is reflected in the fulfillment of GCG principles. Any remaining weaknesses, if any, in the implementation of GCG principles are generally considered not significant, and will be corrected by the Management of BCA.

	Analysis
--	----------

The self assessment on aspects of governance structure, governance process and governance output as applied to each of the GCG Implementation Assessment Factor can be summarized below:

1. The governance structure of all the GCG Implementation Assessment Factors is suitable and comprehensive.
2. The governance process in the GCG Implementation Assessment Factors is effective, supported by a suitable governance structure and infrastructure.
3. The governance output in the GCG Implementation Assessment Factors is of high-quality, resulting from governance processes that are effective with the support of a suitable governance structure and infrastructure.

5.2. Assessment of GCG Implementation by External Party

- To evaluate and measure the implementation of GCG in BCA, in 2014 BCA participated in the GCG research and ranking program in Indonesia – Corporate Governance Perception Index (CGPI) organized by The Indonesian Institute for Corporate Governance (IICG) in collaboration with SWA Magazine.

The CGPI theme in 2014 is “GCG in the Perspective of a Learning Organization”. The assessment consists of 4 (four) stages, as follows:

- Self assessment;
- Document assessment;
- Essay assessment;
- Observation.

As a result of its participation in the program, BCA was awarded “**The Most Trusted Company**” (“**Highly Trusted**”), which is the highest valuation possible.

- In 2014, The Indonesian Institute for Corporate Directorship (IICD) performed an evaluation and ranking for 100 largest companies by market capitalization listed at the Indonesia Stock Exchange. In the 2014 IICD Conference and Corporate Governance Awards, BCA obtained an award under “**The Best Financial Sector**” category.

6. GCG Implementation Report

BCA’s Good Corporate Governance Implementation Report in 2014 was prepared in accordance with Bank Indonesia Regulation No. 8/4/PBI/2006 dated 30 January 2006, as amended by Bank Indonesia Regulation No. 8/14/PBI/2006 dated 5 October 2006, and Circular Letter of Bank Indonesia No. 15/15/DPNP dated 29 April 2013 concerning the Implementation of Good Corporate Governance for Commercial Banks.

The BCA’s Good Corporate Governance report has to cover at least the following:

- Transparency of Good Corporate Governance Implementation as referred by point IX Circular Letter of Bank Indonesia No.15/15/DPNP dated 29 April 2013; and
- GCG Implementation Self Assessment Report in accordance with the assessment period of Bank Soundness Level for the past 1 (one) year.

Transparency of Good Corporate Governance implementation includes:

- GCG implementation disclosures include:
 - Implementation of duties and responsibilities of the Board of Commissioners and Board of Directors.
 - Adequacy and implementation of duties of the Committees.
 - Implementation of compliance, internal audit, and external audit functions.
 - Implementation of risk management, including the internal control system.
 - Funding to related parties and large exposures.
 - Strategic planning.
 - Transparency of financial and non-financial conditions that have not been disclosed in other reports.
 - Other information related to GCG.
- Share ownership of the members of Board of Commissioners and Directors with an equity amount of 5% (five percent) or more, including the type and number of shares in:
 - BCA;
 - Other banks;
 - Non Bank Financial Institutions; and
 - other companies; domiciled in Indonesia or overseas.

- C. Financial relationships and family relationships of members of the Board of Commissioners and Board of Directors with other members of the Board of Commissioners, Board of Directors and/or Controlling Shareholders.
- D. Remuneration package/policy and other facilities for the Board of Commissioners and Board of Directors.
- E. Share Options.
- F. Ratios of the highest to the lowest salary.
- G. Frequency of Board of Commissioners meetings.
- H. Number of internal frauds.
- I. Legal issues.
- J. Transactions with conflict of interest.
- K. Shares and/or bond buy-back.
- L. Provision of funds for social and/or political activities during the reporting period.

GENERAL MEETING OF SHAREHOLDERS

1. General Meeting of Shareholders

The General Meeting of Shareholders (GMS) is the highest Company organ, having a function as a forum for the shareholders to make decisions related to the Company. In the GMS, shareholders exercise their rights, express their opinions, and use their votes in the decision making process.

The GMS possesses exclusive authority not granted to the Board of Directors and the Board of Commissioners as stipulated in the Company's Articles of Association and the applicable regulations.

2. 2014 Annual General Meeting of Shareholders Procedure

The procedure of BCA's 2014 Annual General Meeting of Shareholders was as follows:

1. As a public company, in accordance with the Regulation No. IX.I.1 on Plan and Implementation of the General Meeting of Shareholders - Attachment of Decision of the Chairman of the Capital Market Supervisory Board No. Kep-60/PM/1996 dated 17 January 1996, firstly, BCA delivered the agenda of the 2014 Annual GMS in a clear and detailed manner to the Financial Services Authority (formerly the Capital Market Supervisory Board) no later than 7 (seven) days prior to the notification, as referred to in the letter No. 008/CRS/2014 dated 20 February 2014.
2. Before conducting the 2014 Annual GMS notification, BCA conveyed that the Annual GMS notification would be conducted, 14 (fourteen) days prior to the 2014 Annual GMS notification, excluding the date of notification and the date of the 2014 Annual GMS. The 2014 Annual GMS notification was published in *Bisnis Indonesia*, *Suara Pembaruan* and *The Jakarta Post* daily newspapers, all on 27 February 2014.
3. The 2014 Annual GMS notification was conducted by advertising in newspapers 21 (twenty one) days prior to the date of the 2014 Annual GMS, excluding the date of the notification and the date of the Annual GMS. The 2014 Annual GMS notification was published in *Bisnis Indonesia*, *Suara Pembaruan* and *The Jakarta Post* newspapers, all dated 14 March 2014.

4. Entitled to attend and vote in the 2014 Annual GMS are shareholders whose names are recorded in the Register of Shareholders, which was closed on the last working day of the Indonesia Stock Exchange before the advertised 2014 Annual GMS notification.
5. Each share issued has 1 (one) voting right unless the Articles of Association of BCA states otherwise.
6. After holding the GMS, BCA conveyed the results of the 2014 Annual GMS 2 (two) business days after the 2014 Annual GMS to the Financial Services Authority and the Indonesia Stock Exchange, and announced it to the public in *Bisnis Indonesia*, *Suara Pembaruan* and *The Jakarta Post* daily newspapers, all dated 10 April 2014.

3. Implementation of the 2014 Annual GMS

In 2014, BCA held the 2014 Annual GMS on 7 April 2014 at the Bali Room, Hotel Indonesia Kempinski, Jalan MH. Thamrin no. 1, Jakarta 10310.

The materials and agenda (including explanation of each agenda item) discussed in the Annual GMS had been available via the Corporate Secretary – BCA Head Office, and had been uploaded in the BCA website on the same date as the 2014 Annual GMS Notification.

4. Attendance of Management and Shareholders

The 2014 Annual GMS was attended by the President Commissioner and members of the Board of Commissioners; President Director, Deputy President Director, and all members of the Board of Directors, the Chairmen and members of Committees under the Board of Commissioners (Audit Committee, Remuneration & Nomination Committee and Risk Oversight Committee) as well as the shareholders or their proxies.

All members of the Board of Commissioners and the Board of Directors of BCA were present in the 2014 Annual GMS, as stated below:

Board of Commissioners	
Name	Position
Ir. Djohan Emir Setijoso	President Commissioner
Tonny Kusnadi	Commissioner
Cyrellus Harinowo	Independent Commissioner, concurrently Chairman of the Risk Oversight Committee
Dr. Ir. Raden Pardede	Independent Commissioner, concurrently Chairman of the Remuneration and Nomination Committee
Sigit Pramono	Independent Commissioner, concurrently Chairman of the Audit Committee

Board of Directors

Name	Position
Jahja Setiaatmadja	President Director
Eugene Keith Galbraith	Deputy President Director
Dhalia Mansor Ariotedjo	Director
Anthony Brent Elam	Director
Ir. Suwignyo Budiman	Director
Tan Ho Hien/Subur Tan	Director of Compliance
Renaldo Hector Barros ^{*)}	Director
Henry Koenafi	Director
Armand Wahyudi Hartono	Director
Erwan Yuris Ang	Independent Director
Rudy Susanto ^{**)}	Director

^{*)} Mr. Renaldo Hector Barros resigned as Director of BCA effectively starting 1 June 2014

^{**)} Mr. Rudy Susanto effectively has become a Director of BCA starting 21 July 2014

The number of shares with voting rights represented at the 2014 Annual GMS was 21,774,660,084 shares or 88.317% of the total shares issued and paid up by the shareholders; therefore, the quorum provisions as stipulated in Article 23, paragraph 1 (a) of BCA's Articles of Association were met.

5. Chairman of the 2014 Annual GMS

The 2014 Annual GMS was chaired by Ir. Djohan Emir Setijoso as President Commissioner, in accordance with Article 22, paragraph 1 of BCA's Articles of Association.

6. Agenda of the 2014 Annual GMS

Agenda of the 2014 Annual GMS are as follows:

1. Approval of the Annual Report, including the Financial Statements of BCA and the Reports of the Supervisory Duties of the Board of Commissioners of BCA for the fiscal year ended on 31 December 2013 and to provide liability release and discharge (acquitt et decharge) to members of the Board of Directors and Board of Commissioners of BCA for the actions of management and supervision conducted in the financial year ended 31 December 2013;
2. Determination of the utilization of BCA's profit for the financial year ended 31 December 2013;
3. Changes in the composition of members of the Board of Directors and/or Board of Commissioners;
4. Determination of salary or honorarium and other allowances for the members of the Board of Directors and Board of Commissioners;
5. Appointment of Registered Public Accountant to examine BCA's books for the financial year ended 31 December 2014;
6. Giving power and authority to the Directors to pay an interim dividend for the financial year ended 31 December 2014.

7. Mechanism of Votes Calculation in the 2014 Annual GMS

Each shareholder or the proxy of the shareholder have a right to ask and/or present opinions to the Chairman of the Annual GMS before a vote is held for each Annual GMS agenda item.

In any discussion of the agenda of the Annual GMS, the Chairman provides an opportunity for the shareholders or the proxies of the shareholders to ask questions before a vote is held.

Based on Article 23 clause 8 of BCA's Articles of Associations, any decisions concerning the submitted proposals in every Annual General Meeting (AGM) agenda will be made through deliberation. If no agreement is reached, the decision will be taken by voting.

Based on Article 23 clause 6 of BCA's Articles of Associations, voting on every proposal submitted in each Annual GMS will be conducted orally using pooling method, wherein the shareholders or proxies who do not agree or provide abstention will raise their hands to submit the ballot papers. The ballot papers are counted by PT Raya Saham Registra as BCA's Share Registrar and further be verified by a Notary as an independent party, in accordance with the Order of the 2014 Annual GMS.

Result of the vote calculation of AGMS 2014 is as follows:

Approve	Disapprove	Abstain
21,764,183,384 (99.952%)	10,476,700	8,696,600

Realization description: Realized

Result of the vote calculation of AGMS 2013 is as follows:

Approve	Disapprove	Abstain
22,204,414,650 (99.98%)	1,050,000	1,470,000

Realization description: Realized

8. 2014 Annual GMS Resolution and Realization

a. The First Agenda

- I. Approving the Annual Report, including the Board of Commissioners' Report on its Supervisory Duties, for the financial year ended on 31 December 2013 as contained in the 2013 Annual Report;
- II. Ratifying the Company's financial statements, which include the Balance Sheet and Profit and Loss Statement for the financial year ended 31 December 2013, as had been audited with unqualified opinion by the Public Accountant Firm of Siddharta & Widjaja, member of KPMG International, as evident in the Company's 2013 Annual Report;
- III. Granting a release and discharge of liabilities (acquit et discharge) to members of the Company's Board of Directors and Board of Commissioners for their respective management and supervisory actions taken during the financial year ended 31 December 2013, to the extent that such actions were set out in the Company's Annual Report and Financial Statements for the financial year ended on 31 December 2013 and any relevant supporting documents thereof.

b. The Second Agenda

- I. Resolving to accept that the Company's net income for the year ended on 31 December 2013, as set out in the Company's Balance Sheet and Profit and Loss Statement for the financial year ended on 31 December 2013, as audited by the Public Accountant Firm of Siddharta & Widjaja, member of KPMG International, amounted to Rp 14,253,831,087,099,- (fourteen trillion two hundred fifty-three billion eight hundred thirty one million eighty seven thousand ninety nine Rupiah) ("Net Income for 2013").

- II. Resolving that the Company's Net Income for 2013, which amounted to Rp 14,253,831,087,099,- (fourteen trillion two hundred fifty-three billion eight hundred thirty one million eighty seven thousand ninety nine Rupiah), shall be appropriated as follows:
 1. Rp 142,538,310,871,- (one hundred forty two billion five hundred thirty eight million three hundred and ten thousand eight hundred seventy-one Rupiah) shall be appropriated for a reserve fund;
 2. Rp 2,958,601,200,000,- (two trillion nine hundred fifty eight billion six hundred and one million two hundred thousand Rupiah) or Rp 120,- (one hundred and twenty Rupiah) per share shall be distributed as cash dividends for the financial year ended on 31 December 2013 for the shareholders entitled to receive the cash dividends, the amount of which included the interim dividends amounted Rp 1,109,475,450,000,- (one trillion one hundred and nine billion four hundred seventy five million four hundred fifty thousand Rupiah) or Rp 45,- (forty five Rupiah) per share, which had been paid by BCA on 17 December 2013, so that the remaining amount of

Rp 1,849,125,750,000,- (one trillion eight hundred forty nine billion one hundred twenty five million seven hundred fifty thousand Rupiah) or Rp 75,- (seventy five Rupiah) per share.

As regards the payment of dividends, the following terms and conditions shall apply:

- (i) the remaining dividends for the financial year 2013 will be paid for each share issued by the Company recorded in the Company's Register of Shareholders as at the record date, which will be determined by the Board of Directors;
- (ii) as regards such remaining dividends for the financial year 2013, the Board of Directors shall withhold tax thereon pursuant to the tax regulations in force;
- (iii) the Board of Directors is granted the power of attorney and authority to determine matters concerning or relating to the payment of the remaining dividends for the financial year 2013, including (but not limited to):
 - (aa) determining the record date as referred to in clause (i), determining which shareholders are entitled to receive payments of the remaining dividends for the financial year 2013; and
 - (bb) determining the date of payment of the remaining dividends for the financial year 2013, in each case without prejudice to the regulations of the Stock Exchange where the Company's shares are listed;

3. With due observance of Regulation of Bank Indonesia number 8/4/PBI/2006 dated 30 January 2006 on the Implementation of Good Corporate Governance for Commercial Banks and its amendments in conjunction with Article 71 paragraph (1) of Law No. 40 of 2007 on Limited Liability Companies, and the consideration of the Board of Commissioners after taking into account the input from the Remuneration and Nomination Committee as evident in the letter of the Remuneration and Nomination Committee dated 4 March 2014 number 001/SK/KRE/2014, furthermore the 2014 Annual GMS has determined a maximum of Rp 213,807,466,306,- (two hundred thirteen billion eight hundred seven million four hundred sixty six thousand three hundred and six Rupiah) to be paid as tantieme to members of the Board of Commissioners and Board of Directors who served in the Company over the financial year 2013.
 - Granting power and authority to FARINDO INVESTMENTS (MAURITIUS) LIMITED, qualitate qua (qq) Mr. ROBERT BUDI HARTONO and

Mr. BAMBANG HARTONO, as the majority shareholder of the Company for the time being, to determine the distribution of tantieme among the members of the Board of Commissioners and Board of Directors who served in the Company in and over the financial year 2013, including all matters related to such tantieme payment, provided that the amount of tantieme to be paid to the members of the Company's Board of Commissioners and Board of Directors is reported in the Annual Report for the financial year 2014;

4. The remaining amount of the Net Income for 2013 that has not been allocated for any specific use, in the amount of at least Rp 10,938,884,109,922,- (ten trillion nine hundred thirty eight billion eight hundred eighty four million one hundred and nine thousand nine hundred twenty two Rupiah) shall be determined as retained earnings.

- III. Resolving that such power as described in point II number 2 and 3 above shall be effective as of the date on which the proposal put forward under this point is approved by the 2014 Annual GMS.

Result of the vote calculation of AGMS 2014 is as follows:

Approve	Disapprove	Abstain
21,728,246,371 (99.787%)	46,413,713	22,716,200

Realization description: Realized

Result of the vote calculation of AGMS 2013 is as follows:

Approve	Disapprove	Abstain
21,983,967,500 (98.99%)	41,958,350	181,008,800

Realization description: Realized

c. The Third Agenda

- I. Resolving to accept the resignation of Mr. RENALDO HECTOR BARROS as a Director of BCA effectively starting 1 June 2014 and further give a liability release and discharge (acquit et decharge) to Mr. RENALDO HECTOR BARROS for any management actions conducted during his term of office, as long as the actions are recorded in the books and records of the Company; Furthermore, we expressed our highest appreciation and thanked Mr. RENALDO HECTOR BARROS for his services while serving as a Director of BCA.
- II. Resolving to appoint Mr. RUDY SUSANTO as a Director, effectively if and from the date the Indonesian Financial Services Authority gives its approval to the appointment or starting 1 June 2014, whichever is more recent.
- III. Without reducing the independence of other members of the Board of Directors, the 2014 Annual GMS hereby appoint Mr. ERWAN YURIS ANG as an Independent Director at BCA as stipulated at Decision Letter of the Limited Liability Company in Indonesia Stock Exchange dated 20 January 2014 No. Kep-00001/BEI/01-2014 concerning Amendment to the Rule Number I-A concerning Listing of Shares (Stock) and Equity-Type Securities Other Than Stock Issued by the Listed Company, effective since the closing of the 2014 Annual GMS.
- IV. Confirming that after the closing of the 2014 Annual GMS, the composition of members of the Board of Commissioners and Board of Directors are as follows:

Board of Commissioners

Position	Name
President Commissioner	Mr. Ir. DJOHAN EMIR SETIJOSO
Commissioner	Mr. TONNY KUSNADI
Independent Commissioner	Mr. CYRILLUS HARINOWO
Independent Commissioner	Mr. Doktor RADEN PARDEDE
Independent Commissioner	Mr. SIGIT PRAMONO

Board of Directors

Position	Name
President Director	Mr. JAHJA SETIAATMADJA
Deputy President Director	Mr. EUGENE KEITH GALBRAITH
Director	Mrs. DHALIA MANSOR ARIOTEDJO
Director	Mr. ANTHONY BRENT ELAM
Director	Mr. SUWIGNYO BUDIMAN
Director (concurrently Compliance Director)	Mr. TAN HO HIEN/SUBUR also known as SUBUR TAN
Director	Mr. RENALDO HECTOR BARROS
Director	Mr. HENRY KOENAIFI
Director	Mr. ARMAND WAHYUDI HARTONO
Independent Director	Mr. ERWAN YURIS ANG
Director	Mr. RUDY SUSANTO

Under condition that Mr. RENALDO HECTOR BARROS still held the position as a Director of BCA up to 31 May 2014; The appointment of Mr. RUDY SUSANTO as a Director of BCA is effective if and from the date the Indonesia Financial Services Authority gives its approval to the appointment or starting 1 June 2014, whichever is more recent, with the term of office until the closing of the 2016 Annual GMS of BCA.

- V. Granting power and authority to the Board of Directors, with substitution right, to convey the decision regarding the composition of members of the Boards of Commissioners and

Directors in deed before a Notary, including conveying the composition after obtaining the Letter of Approval from the Financial Services Authority concerning the decisions made in the 2014 Annual GMS above, and then forward the notification to the competent authority, and perform each and every act required in accordance with the decision and the applicable legislation.

- VI. Confirming that the granting of authority as mentioned at point V of the decision is effective since the proposal submitted in this event is approved by the Annual GMS to be held in 2014.

Result of the vote calculation AGMS 2014 is as follows:

Approve	Disapprove	Abstain
19,532,964,933 (89.705%)	2,241,695,151	312,272,274

Realization description: Realized

d. The Fourth Agenda

- I. (i) Granting full power and authority to FARINDO INVESTMENTS (MAURITIUS) LIMITED, qualitate qua (qq) Mr. ROBERT BUDI HARTONO and Mr. BAMBANG HARTONO, as the majority shareholder of the Company, to determine the amount of the honorarium and other benefits to be paid by the Company to the members of the Board of Commissioners who serve in the Company over the financial year 2014;
- (ii) Granting full power and authority to the Company's Board of Commissioners to determine the amount of salary and other benefits to be paid by the Company to the members of the Board of Directors who serve in the Company over the financial year 2014.

In exercise of the power and authority mentioned above:

- i. FARINDO INVESTMENTS (MAURITIUS) LIMITED, qualitate qua (qq) Mr. ROBERT BUDI HARTONO and Mr. BAMBANG HARTONO, as the majority shareholder of the Company for the time being, shall consider the recommendations of the Board of Commissioners, which shall consider the recommendations of the Remuneration and Nomination Committee;
- ii. The Board of Commissioners shall consider the recommendations of the Remuneration and Nomination Committee;

- II. Resolving that such power and authority as described in point I above shall be effective as of the date on which the proposal put forward under this point is accepted and approved by the 2014 Annual GMS;
- III. The amount of salary or honorarium and benefits to be paid by the Company to the members of the Board of Directors and the Board of Commissioners who serve in the Company over the financial year 2014 shall be set out in the 2014 Annual Report.

Result of the vote calculation of AGMS 2014 is as follows:

Approve	Disapprove	Abstain
21,691,467,071 (99.618%)	83,193,013	47,879,987

Realization description: Realized

Result of the vote calculation of AGMS 2013 is as follows:

Approve	Disapprove	Abstain
22,162,038,800 (99.798%)	44,895,850	184,955,800

Realization description: Realized

e. The Fifth Agenda

- I. Granting power and authority to the Board of Commissioners to appoint a Registered Public Accounting Firm with a global network of member firms (including a Registered Public Accountant from such Registered Public Accounting Firm) to audit the books and records of the Company for the financial year 2014 and to determine the amount of honorarium and other conditions in relation to the appointment of such Registered Public Accounting Firm
- with a global network of member firms (including a Registered Public Accountant from such Registered Public Accounting Firm) with due observance of the recommendations of the Audit Committee and the prevailing laws and regulations, among others regulations in the field of Capital Markets.
- II. Resolving that such power and authority shall be effective as of the date on which the proposal put forward under this point is accepted and approved by the 2014 Annual GMS.

Result of the vote calculation of AGMS 2014 is as follows:

Approve	Disapprove	Abstain
21,657,650,132 (99.463%)	117,009,952	29,322,887

Realization description:

- The Board of Commissioners has appointed a Registered Public Accounting Firm, namely the **Public Accounting Office Siddharta & Widjaja (now Siddharta Widjaja & Rekan)**, a member of KPMG International (including the Registered Public Accountant, namely **Elisabeth Imelda** who is a member of the Registered Public Accounting Office) to audit the books of BCA for the 2014 financial year

Result of the vote calculation of AGMS 2013 is as follows:

Approve	Disapprove	Abstain
22,110,889,600 (99.567%)	96,045,050	184,955,800

Realization description:

- The Board of Commissioners has appointed a Registered Public Accounting Firm, namely the **Public Accounting Office Siddharta & Widjaja (now Siddharta Widjaja & Rekan)**, a member of KPMG International (including the Registered Public Accountant, namely **Elisabeth Imelda** who is a member of the Registered Public Accounting Office) to audit the books of BCA for the 2013 financial year

f. The Sixth Agenda

- I. Granting power and authority to the Company's Board of Directors (with the approval of the Board of Commissioners), to the extent that the financial condition allows, to determine and pay interim dividends for the financial year ended on 31 December 2014, provided that to ensure compliance with Article 72 of Law No. II. 40 of 2007 on Limited Liability Companies, if the interim dividends shall be distributed, then the distribution must be made prior to the end of the financial year 2014 to the shareholders, including determining the form, amount and manner of payment of such interim dividends, without prejudice to the approval of any competent authorities and the prevailing laws and regulations.
- II. Resolving that such power and authority shall be effective as of the date on which the proposal put forward under this point is accepted and approved by the 2014 Annual GMS.

Result of the vote calculation of AGMS 2014 is as follows:

Approve	Disapprove	Abstain
21,748,867,471 (99.882%)	25,792,613	22,716,200

Realization description:

- Interim dividend distribution for the 2014 financial year was conducted on 23 December 2014

Result of the vote calculation of AGMS 2013 is as follows:

Approve	Disapprove	Abstain
22,116,583,150 (99.59%)	27,776,000	625,716,500

Realization description:

- Interim dividend distribution for the 2013 financial year was conducted on 17 December 2013

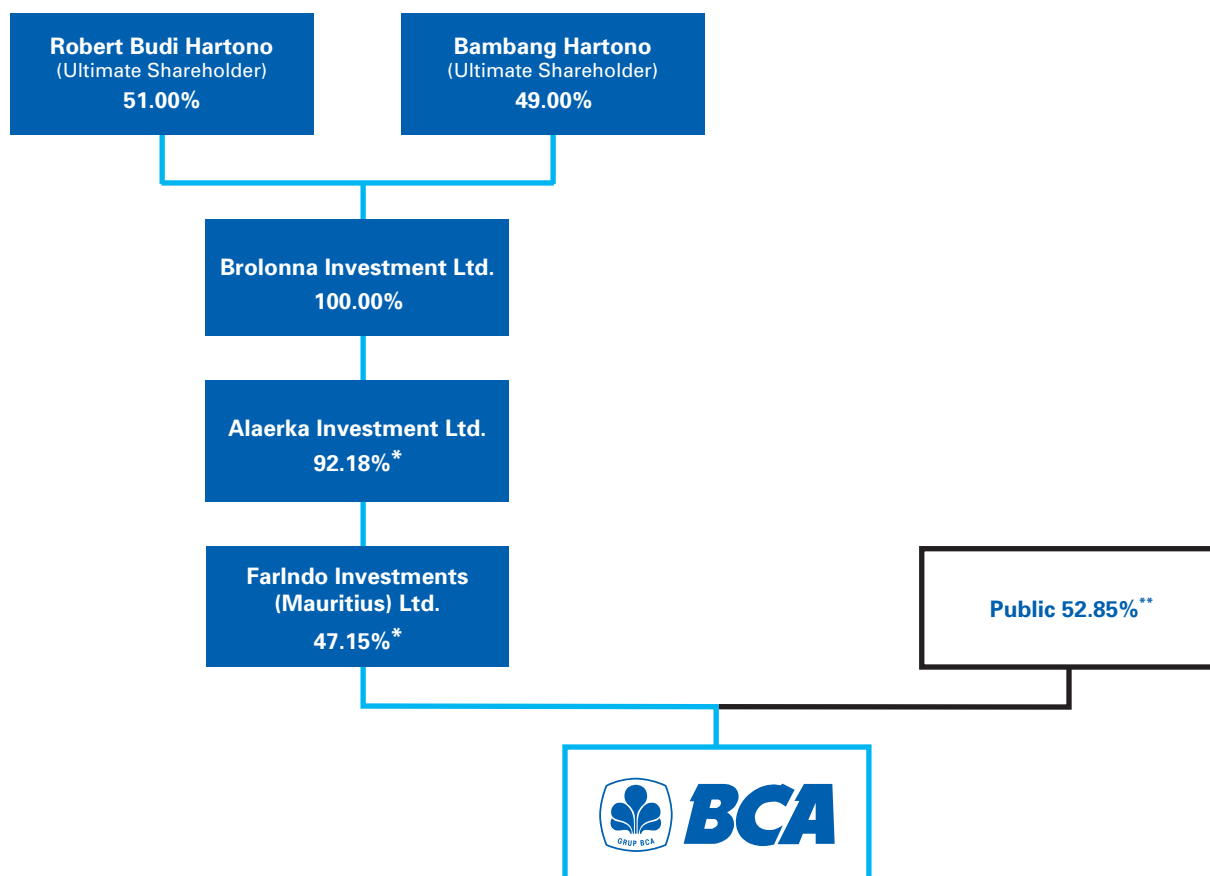

9. Statement Concerning the Unrealized GMS Resolution

There is no resolution of the 2014 GMS that has not been realized.

10. Major/Controlling Shareholders

The Major/Controlling Shareholders of BCA is **FarIndo Investments (Mauritius) Ltd.**

Below is an information diagram showing the Major/Controlling Shareholders of BCA (directly or indirectly):

Note:

Controlling Shareholders

Controlling Line

* Alaerka Investment Ltd. owns 92.18% shares in FarIndo Investments (Mauritius) Ltd. ("FarIndo"). FarIndo's Treasury Stocks accounts for the balance of 7.82%

** In the composition of shares held by the public, 2.45% of the shares are owned by parties affiliated with the Ultimate Shareholders, 0.02% are held by Mr. Robert Budi Hartono and 0.02% by Mr. Bambang Hartono

Board of Commissioners and Board of Directors owns 0.24% of the shares. Each public shareholders owns less than 5% of the shares

Shares owned by public also includes Anthony Salim's share ownership of 1.76%

THE BOARD OF COMMISSIONERS

The Board of Commissioners is the organ of the Company that has the primary duty to provide advice and oversee the policies of the Board of Directors in running the Company. The Board of Commissioners also has the duty of ensuring the implementation of GCG (Good Corporate Governance) principles in every business activity conducted by BCA at all the levels of the organization.

The Board of Commissioners conducts their duties and responsibilities independently.

1. Legal Reference

Based on Law No. 40 of 2007 on Limited Liability Companies, every company that is established in accordance to Indonesian law is required to form a Board of Commissioners. The Board of Commissioners supervises the management policies of BCA and the running of the management in general, both concerning the Company or the Company's business, as well as giving advice to the Board of Directors, which is done for the benefit of the Company in accordance with the Company's purposes and objectives.

2. Charter of the Board of Commissioners

The Board of Commissioners operates under a Code of Conduct (Board of Commissioners Charter) which covers:

- Composition and criteria of the Board of Commissioners;
- Independent Commissioners;
- Tenure of the Board of Commissioners;
- Dual positions of the Board of Commissioners;
- Obligations, Duties, Responsibilities and Authorities of the Board of Commissioners;
- Transparency and prohibitions of the Board of Commissioners;
- Orientation and training of the Board of Commissioners;

- Ethics and working hours of Board of Commissioners;
- Meetings of the Board of Commissioners.

The Board of Commissioners Charter is published in the GCG BCA Manual and can be viewed on BCA's website (www.bca.co.id) under Good Corporate Governance.

3. Duties and Responsibilities of the Board of Commissioners

The duties and responsibilities of the Board of Commissioners are as follows:

1. To supervise the management policies of BCA and the running of the management, and to provide advice to the Board of Directors. The supervision by the Board of Commissioners is in the interest of BCA and accordance with the purposes and objectives as stated in the Articles of Associations of BCA.
2. To ensure the implementation of GCG principles in any business activities of BCA at all levels of the organization.
3. To direct, monitor, and evaluate the implementation of BCA's strategic policies.
4. To ensure that the Board of Directors has taken follow-up actions on audit findings and heeded recommendations of the Internal Audit Division, External Auditor, monitoring reports of the authorities including but not limited to the Financial Services Authorities, Bank Indonesia, and/or the Indonesian Stock Exchange.
5. To inform Bank Indonesia/Financial Services Authorities no later than 7 (seven) working days of discovering violations of the laws and regulations in the field of finance and banking, or a condition or potential condition which may harm the business continuity of BCA.
6. To establish the:
 - a. Audit Committee;
 - b. Risk Oversight Committee; and
 - c. Remuneration and Nomination Committee.

7. To ensure that the Committees formed by the Board of Commissioners perform their duties effectively.
8. To provide sufficient time to perform their duties and responsibilities in an optimal manner.
9. To organize periodic Board of Commissioners meetings, no less than 4 (four) times in one year. All members of the Board of Commissioners will attend the Board of Commissioners meetings physically at least 2 (two) times in one year.
10. To prepare the minutes of the Board of Commissioners meetings, signed by all members of the Board of Commissioners attending the Board of Commissioners meeting.
11. To distribute a copy of the minutes of the Board of Commissioners meeting to all members of the Board of Commissioners and related parties.
12. To submit a report on the monitoring tasks that were carried out during the previous financial year to the Annual GMS.

4. Authorities of the Board of Commissioners

The Board of Commissioners, among other tasks, is authorized:

1. To enter buildings or other places used or controlled by BCA.
2. To inspect all books, correspondence and other data.
3. To request explanation to the Board of Directors regarding any aspect of BCA.
4. Temporarily dismiss one or more members of the Board of Directors in the event the member of the Board of Directors' action contradicts the Articles of Association of BCA, is detrimental to BCA, is malpractice and/ or violates the applicable laws and regulations.

5. To evaluate and decide on requests of the Board of Directors relating to transactions that require the approval of the Board of Commissioners in accordance with the Articles of Association of BCA, among others:
 - a. Lending money or providing credit or other banking facilities that resemble or result in loans:
 - i. To related parties as stipulated in Bank Indonesia regulations concerning Lending Limit of Commercial Banks;
 - ii. That exceed a certain amount which from time to time will be determined by the Board of Commissioners.
 - b. Providing guarantees or underwriting of debt (borgtocht):
 - i. To guarantee the payment obligations of related parties to other parties as stipulated in Bank Indonesia regulations concerning Lending Limit of Commercial Banks;
 - ii. To guarantee the obligations of other parties for the amount that exceeds a certain amount which from time to time will be determined by the Board of Commissioners.
 - c. Purchasing, or otherwise acquiring immovable property, except in order to implement what is established in point (q) paragraph 2 Article 3 of the Articles of Associations of BCA, namely in performing activities commonly conducted by a bank as long as not contrary to the prevailing laws and regulations, including, among other measures for restructuring or rescuing loans including collateral purchase, either all or in part, by auction or otherwise, in the event the debtor does not fulfill its obligations to the bank, with the provision that the collateral purchased shall then be disbursed;

- d. Establishing a new company, conducting or releasing or reducing or increasing its equity capital, except:
 - I. Increase in capital from stock dividends of BCA, or;
 - II. Equity in order to rescue credit; by constantly taking into account the prevailing laws;
- e. Borrowing money that is not included in point (a) paragraph 2 Article 3 of the Articles of Associations of BCA, namely collecting funds from the public through savings in the form of demand deposits, time deposits, certificates of deposit, savings and/or other equivalent forms;
- f. Transferring or releasing BCA's right to collect amounts written off, either in part or in whole, the amount to be determined from time to time by the Board of Commissioners;
- g. Selling or otherwise transferring or disposing or pledging/offering, property of BCA which is worth less than or equal to 1/2 (one half) of the total net assets of BCA as listed on the balance sheet of BCA, both in 1 (one) transaction or in multiple transactions which stand alone or are related to each other in 1 (one) fiscal year;
- h. Taking legal actions or transactions that are strategic and can have a significant impact on the continuity of BCA's business, the type of legal action or transaction from time to time to be determined by the Board of Commissioners.

In carrying out its duties, responsibilities and authorities, the Board of Commissioners shall consider the Articles of Association of BCA, the Board of Commissioners Charter, and the prevailing legislation.

5. Number, Composition and Criteria of Members of the Board of Commissioners

As of 31 December 2014, the Board of Commissioners of BCA consisted of 5 (five) members, comprising of 1 (one) President Commissioner, 1 (one) Commissioner, and 3 (three) Independent Commissioners. The number of members in the Board of Commissioners does not exceed the number of members in the Board of Directors. The number of Independent Commissioners is 60% of the total number of members of the Board of Commissioners.

All members of the Board of Commissioners have passed the Fit and Proper Test and have obtained approval letters from Bank Indonesia and are domiciled in Indonesia.

The term of office of members of the Board of Commissioners is 5 (five) years. The term of office of Commissioners for the current period will expire at the conclusion of the 2016 BCA Annual GMS, without prejudice to the authority of the General Meeting of Shareholders to dismiss one or more members of the Board of Commissioners at any time before the term ends.

The general criteria in the selection of Commissioners, among others, are to:

- a. Have expertise or experience in the field of his/ her responsibility;
- b. Have good leadership skills;
- c. Have good reputation in performing his/ her previous assignments;
- d. Have good character and morals;
- e. Willing and able to conduct legal actions;
- f. Have not been declared bankrupt or be a member of other Boards of Commissioners/ Directors found guilty of causing a company to go bankrupt within 5 (five) years prior to appointment;
- g. Have not been convicted of committing a crime in the financial sector within 5 (five) years prior to appointment.

6. Composition of Members of the Board of Commissioners of BCA as of 31 December 2014

Based on the Deed of Minutes of the Annual General Meeting of Shareholders of PT Bank Asia Tbk No. 80 dated 14 August 2014, the composition of the Board of Commissioners of BCA is the following:

Position	Name
President Commissioner	Djohan Emir Setijoso
Commissioner	Tonny Kusnadi
Independent Commissioner	Cyrillus Harinowo
Independent Commissioner	Raden Pardede
Independent Commissioner	Sigit Pramono

Profiles of the members of BCA's Board of Commissioners are presented in the **Corporate Data** section, page 506 - 507 of this Annual Report.

7. Diversity in the Composition of Members of the Board of Commissioners

The composition of the Board of Commissioners of BCA reflects the diversity of its members, in terms of education, working experience, age and expertise, and each holds a high degree competence in favor of increasing the performance of the Company.

8. Nomination of Members of the Board of Commissioners

The Remuneration and Nomination Committee (KRN) recommends candidates for members of the Board of Commissioners to the Board of Commissioners. Furthermore, with regard to the recommendation of the KRN, the Board of Commissioners proposes the appointment of candidates for members of the Board of Commissioners to be submitted in the GMS. The GMS appoints candidates for the Board of Commissioners to be members of the Board of Commissioners, with regards to the recommendation of the Board of Commissioners.

9. Information concerning Independent Commissioner

a. Criteria of Independent Commissioner

- Does not have financial, management, share ownership, and/or family relationship with other members of the Board of Commissioners, Board of Directors, and/or Controlling Shareholders.
- Does not have any relationship with BCA that may affect his ability to act independently.

b. Statement of Independence of the Board of Commissioners

All members of the Board of Commissioners of BCA have no family connection to the second degree or financial relationships with fellow members of the Board of Commissioners, members of the Board of Directors and/or Controlling Shareholders, or a relationship with BCA that may affect their ability to act independently.

All Independent Commissioners do not have financial, management, stock ownership or family relationships with fellow members of the Board of Commissioners, members of the Board of Directors and/or Controlling Shareholders or a relationship with BCA which may affect their ability to act independently.

Name	Position	Family Relations With						Financial Relations With

Tonny Kusnadi	Commissioner	-	President Commissioner of PT Sarana Menara Nusantara	Telecommunications Tower Operator
Cyrillus Harinowo	Independent Commissioner	-	Independent Commissioner of PT Unilever Indonesia	Consumer Goods
Raden Pardede	Independent Commissioner	-	Independent Commissioner of PT Adaro Indonesia	Coal Mining
Sigit Pramono	Independent Commissioner	-	-	-

12. The Board of Commissioners Meetings, Joint Meetings and the Attendance of Members of the Board of Commissioners

The Board of Commissioners meeting schedule is set at the beginning of the year. Throughout 2014, the Board of Commissioners held 50 (fifty) meetings. BCA is in compliance with Bank Indonesia regulations regarding minimum mandatory Board meetings of 4 (four) times a year, with physical attendance of at least 2 (two) times a year.

Decision-making is conducted through consensus agreement. In the event consensus agreement does not occur, decision-making is carried out based on majority vote.

All decisions taken in the meeting of the Board of Commissioners shall be binding. Differences of opinion (dissenting opinions) that occur in the Board of Commissioners meetings shall be clearly stated in the minutes of the meeting along with the reasons for dissent.

Frequency and Attendance of the Board of Commissioners for 2014 are detailed in the following:

Name	Total Meetings	Attendance	Percentage
Djohan Emir Setijoso	50	46	92 %
Tonny Kusnadi	50	46	92 %
Cyrillus Harinowo	50	39	78 %
Raden Pardede	50	42	84 %
Sigit Pramono	50	48	96 %

The frequency of Joint Meetings between the Board of Commissioners and the Board of Directors and Attendance of Members of the Board of Commissioners during these joint meetings in 2014 is detailed in the following:

Name	Total Meetings	Attendance	Percentage
Djohan Emir Setijoso	15	14	93 %
Tonny Kusnadi	15	15	100 %
Cyrillus Harinowo	15	12	80 %
Raden Pardede	15	13	87 %
Sigit Pramono	15	13	87 %

13. Implementation of Duties of the Board of Commissioners

One of the duties and responsibilities of the Board of Commissioners is to provide advice to the Board of Directors for the benefit of the Company in accordance with the purposes and objectives of the Company.

In 2014, the advice and recommendations provided by the Board of Commissioners to the Board of Directors included:

1. Relating to Business Management in general:

- a. In consideration of the rapid development of BCA's business and the increase in the number of BCA's subsidiaries, it is necessary to develop a consolidated integrated risk control that is both effective and efficient while being in line with the prevailing rules and regulations.

- b. Given the economic development at home and abroad that is not very conducive, the implementation of the program/business objectives carried in the Bank's Business Plan and Annual Budget Plan shall consider the prudential banking and compliance aspects, and socialize this to all branches and business units.
- c. Capitalization will increasingly become a challenge in the coming years so good capital planning is required.

2. Relating to Risk Management:

a. Credit Risk

- A risk of high concentration of one group/specific industry in lending should be avoided.
- In relation with the fluctuating Rupiah exchange rate, foreign currency loans must be monitored and reviewed if necessary.

b. Market Risk

In relation with the exchange rate fluctuations associated with the weakening of the Rupiah against the USD, Treasury shall manage the risk of the exchange rate and maintain the Net Open Position (NOP) of BCA at a solid position.

c. Liquidity Risk

Taking into account the tightening liquidity conditions, competition in getting the third party funds, as well as the high demand for credit, BCA's secondary reserves has to be adequate and LDR must be maintained at a predetermined range.

d. Operational Risk

In terms of operational risk, the security of information technology requires special attention in order to maintain BCA's excellence in transactional banking.

e. Reputation Risk

In the increasing light of interactive communication by the public through social media and BCA's role as a transaction bank, the monitoring and provision of a timely response is a must.

f. Strategic Risk

- It is necessary to develop a lean organization concept and planning for the availability of competent human resources in accordance with the requirements of BCA.
- Anticipating the decline in the net interest margin of banks in the future, a fee-based income strategy should be prepared.

3. Relating to Audit and Compliance:

- a. A risk based approach becomes important to Internal Audit when conducting an assessment/audit function so that the Internal Audit is able to be more focused on high-risk problems or business units.
- b. Regulatory compliance needs to get special attention from all functions and levels, not only in terms of internal control and internal audit, but in order to mitigate starting from the front line.

14. The Board of Commissioners Performance Assessment

Board of Commissioners performance assessment is carried out once every year, by using performance appraisal indicators outlined below:

1. Contribution and support of the Board of Commissioners to implement the vision and mission of BCA in the current year's work program, by continuously adhering to the values of BCA.
2. Monitoring for the implementation of Good Corporate Governance.

The annual performance assessment of members of the Board of Commissioners is carried out by the Controlling Shareholders.

15. Procedure of Determining the Remuneration for the Board of Commissioners

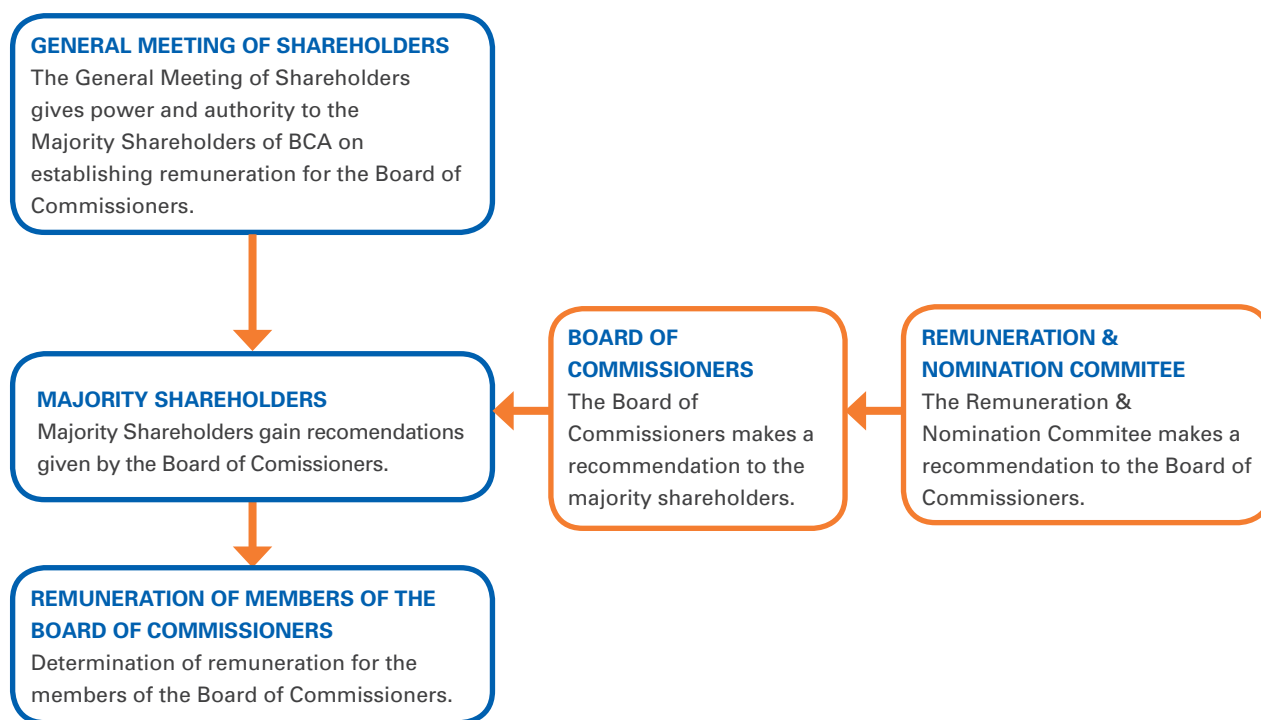

Based on the decision of the 2014 Annual GMS, the GMS has granted power and authority to the Controlling Shareholders to:

- (i) determine the amount of honorarium and other benefits to the members of the Board of Commissioners;

- (ii) determine the distribution of tantiem among the members of the Boards of Commissioners and Directors of BCA;

In exercising the power and authority, the Controlling Shareholders would take into consideration the recommendations of the Board of Commissioners, in which the Board of Commissioners will take into account the recommendation of the Remuneration and Nomination Committee.

Determination Procedure Scheme of Remuneration of Board of Commissioners

16. The Remuneration Structure of the Board of Commissioners

The Remuneration Structure that shows the components of remuneration and the nominal amount per component for all members of the Board of Commissioners for 2014 is as follows:

Type of Remuneration and Other Facilities	Amount Received in 1 Year	
	BOARD OF COMMISSIONERS	
	Persons	In Million Rupiah
1. Remuneration (salary, bonus, routine allowance, tantiem and other non-natura facilities)	5	71,694
2. Other natura facilities:		
a. Business Travel Allowance	3	78
b. Health Benefits	5	544
c. Health & Golf Club Memberships	2	89
d. Option of purchasing service vehicles at the end of Leasing period	5	5,596
3. Benefit retirement (owned at the end of term)	5	USD 825,000
Total		78,001 + USD 825,000

The amount of remuneration received in cash during 2014 for each member of the Board of Commissioners for 1 (one) year is in excess of Rp 2 billion.

17. Orientation Programs for New Members of the Board of Commissioners

An orientation program is organized for new members of the Board of Commissioners, in order to assure that the new members are prepared as thoroughly as possible to carry out their relevant duties and responsibilities as a member of the Board of Commissioners.

The orientation program includes:

1. Information regarding BCA such as the vision, mission, strategy and medium and long term plans, performance, as well as finances of BCA.
2. Details of the duties and responsibilities as a member of the Board of Commissioners such as limits of authority, working time, the relationship with the Board of Directors, rules and regulations, and others.

Members of the Board of Commissioners who are participating in the orientation can:

- a. Request presentations to obtain explanation of various aspects deemed necessary, involving the management under it.
- b. Organize meetings with the Board of Directors to discuss issues in BCA or other information deemed necessary.
- c. Conduct visits to various business locations of BCA with members of the Board of Directors/ Management.

18. Training Programs to Improve the Competence of Members of the Board of Commissioners

Training programs attended by members of the Board of Commissioners in 2014 are as follows:

THE BOARD OF DIRECTORS

The Board of Directors is tasked with carrying out the management of the Company in the interests and objectives of the Company in accordance with the purposes and objectives of the Company under the provisions of the Articles of Association and prevailing legislation.

1. Legal Reference

In reference to Law Number 40 Year 2007 regarding Limited Liability Companies, the Board of Directors means the organ of the Company that has the authority and full responsibility to manage the Company for the interest of the Company, in accordance with the purposes and objectives of the Company as well as to represent the Company, either in or out the court in accordance with the provisions of the Articles of Association.

2. Charter of the Board of Directors

The Board of Directors has a Board of Directors Charter that governs among others the following:

- Composition, Criteria, and Independency of the Board of Directors;
- Terms of office of the Board of Directors;
- Dual positions of the Board of Directors;
- Obligation, Duties, Responsibilities, and Authorities of the Board of Directors;
- Transparency and Prohibition for the Board of Directors;
- Orientation and Training for the Board of Directors;
- Ethics and Working Hours of the Board of Directors;
- Meetings of the Board of Directors.

The Guidelines and Code of Conduct of the Board of Directors is covered in the GCG Manual of BCA and can be viewed at BCA website (www.bca.co.id) under Good Corporate Governance section.

3. Duties and Responsibilities of the Board of Directors

Duties and responsibilities of the Board of Directors among others are:

- a. To lead and manage BCA in accordance with BCA's aims and objectives.
- b. To control, maintain and manage BCA's assets for BCA's benefits.
- c. To create an internal control structure, to ensure implementation of the internal audit function at each management level and follow-up on Internal Audit findings in accordance with the policies or directives given by the Board of Commissioners.
- d. To submit the Annual Work Plan including the Annual Budget to the Board of Commissioners for approval of the Board of Commissioners prior to the commencement of the forthcoming fiscal year, taking into account prevailing laws and regulations.
- e. To implement the principles of good corporate governance in each of BCA's business activities at all organizational levels of BCA.
- f. To prepare and maintain the Register of Shareholders, Special Register, Minutes of the General Meetings of Shareholders and Minutes of the Board of Directors' meetings.
- g. To prepare the Annual Report and other financial documents of the Company as set forth in the prevailing legislations.
- h. To follow-up on audit findings and recommendations of External Auditors and the results of monitoring activities by the Financial Services Authority, Bank Indonesia and/or other authorities, including but not limited to the Indonesia Stock Exchange.
- i. To be accountable for the performance of its duties and responsibilities to the shareholders through the General Meeting of Shareholders.

4. Authorities of the Board of Directors

Authorities of the Board of Directors, among others are:

- a. To act for and on behalf of BCA in and out of court on all matters and in any event, binding BCA with other parties and other parties with BCA, as well as carrying out all actions, both for management and ownership, with restrictions as listed in the Articles of Association of BCA.
- b. For certain acts, the Board of Directors is entitled to appoint one or more persons with the authority and conditions determined by the Board of Directors in a special power of attorney.
- c. To set policy in leading and managing BCA.
- d. To set the rules of employment of BCA, including the determination of salary, pension or retirement benefits and other income for the employees of BCA, based on the prevailing legislation and/or decision of the General Meeting of Shareholders.
- e. Appoint and dismiss employees of BCA under BCA's employment rules and regulations.
- f. Arrange the handover of authority of the Board of Directors to represent BCA within and outside the Court to one or several members of the Board of Directors specifically appointed for that matter or to one or several employees of BCA, either alone or together with other persons or entities.
- g. Execute other actions, both on management and ownership, in accordance with the provisions stipulated by the Board of Commissioners with regard to prevailing legislative provisions.

In carrying out its duties, responsibilities and authority, the Board of Directors shall take into account the Articles of Association of BCA and the Board of Directors Charter, as well as the prevailing laws and regulations.

5. Segregation of Duties and Responsibilities of the Board of Directors

Segregation of Duties and Responsibilities of the Board of Directors is as follows:

Notes:

- Alternate Directors report to the respective (functional) Director all actions/decisions made during the period of acting in place of the Director.
- The management of Subsidiary Companies is undertaken to:
 - Perform the overall monitoring and strategic alignment of the management of Subsidiary Companies.
 - Perform risk monitoring of Subsidiary Companies in line with consolidated risk management.
 - Monitor the business progress of the Subsidiary Companies.
 Implementation of the above functions shall always consider the principles in Limited Liability Companies, wherein the Subsidiary Company is an independent/ separated legal entity.
 The Board of Directors and/or Commissioners of Subsidiary Companies are responsible to the GMS of the Subsidiary Company.
 The Parent Company as shareholder carries out its authorities and functions through the GMS held by the Subsidiary Company.
- Daily implementation, development, and monitoring of regional and branch operations are carried out by the Regional and Branch Support Director.
 - The Head of each Regional Office is responsible to the Board of Directors.

6. Number, Composition, and Criteria of Members of the Board of Directors

As of 31 December 2014, there were 10 (ten) members of the Board of Directors of BCA, comprising of 1 (one) President Director, 1 (one) Deputy President Director, concurrently 1 (one) Director of Compliance, and 7 (seven) Directors. The President Director is an independent party to the controlling shareholders.

All members of BCA's Board of Directors have passed the Fit and Proper Test and have acquired

Approval Letters of Bank Indonesia/Indonesia Financial Services Authority. All members of the Board of Directors reside in Indonesia.

The term of office of members of the Board of Directors is 5 (five) years. The current period will expire at the conclusion of the 2016 BCA Annual GMS, without prejudice to the authority of the General Meeting of Shareholders to dismiss one or more members of the Board of Directors at any time before the term ends.

The general criteria in the selection of members of the Board of Directors are, among others, to:

1. Possess the expertise or experience in the field of his/ her responsibility;
2. Possess good leadership;
3. Possess good reputation in performing his/ her previous assignments;
4. Possess a good character and morals;
5. Be able to conduct legal actions;
6. Have not been declared bankrupt or become a member of the Board of Commissioners/ Directors who was found guilty of causing a company to go bankrupt within 5 (five) years prior to appointment;
7. Have not been convicted of committing a crime in the financial sector within 5 (five) years prior to the appointment.

7. Composition of Members of the Board of Directors of BCA as of 31 December 2014

Based on the Deed of Minutes of the Annual General Meeting of Shareholders of PT Bank Central Asia Tbk No. 80 dated 14 August 2014, composition of members of the Board of Directors of BCA is as follows:

Position	Name
President Director	Jahja Setiaatmadja
Deputy President Director	Eugene Keith Galbraith
Director	Dhalia Mansor Ariotedjo
Director	Anthony Brent Elam
Director	Suwignyo Budiman
Director (concurrently as Compliance Director)	Tan Ho Hien/Subur or Subur Tan
Director	Henry Koenafi
Director	Armand Wahyudi Hartono
Independent Director	Erwan Yuris Ang
Director	Rudy Susanto

Profiles of members of the Board of Directors of BCA are presented at the **Corporate Data** section, page 508 - 511 of this Annual Report.

8. Diversity in the Composition of Members of the Board of Directors

The composition of the Board of Directors of BCA reflects the diversity of its members, in terms of education, working experience, age and expertise, and each holds a high degree competence in favor of increasing the performance of the Company.

9. Nomination of Members of the Board of Directors

The Remuneration and Nomination Committee (KRN) recommends candidates for members of the Board of Directors to the Board of Commissioners. After considering this recommendation, the Board of Commissioners proposes the Director candidate(s) for appointment at the GMS. The GMS appoints the candidate(s) as member(s) of the Board of Directors by considering the recommendation from the Board of Commissioners.

10. The Board of Directors Statement of Independence

The majority of members of the Board of Directors of BCA have no financial, management, stock ownership and family relationships with members of the Board of Commissioners, fellow members of the Board of Directors and/or Controlling Shareholders or relationship with BCA that may affect their ability to act independently.

Name	Position	Family Relationship with:						Financial Relationship with:					
		Board of Commissioners		Board of Directors		Controlling Shareholders		Board of Commissioners		Board of Directors		Controlling Shareholders

13. The Board of Directors Meetings, Joint Meetings, and Attendance of Members of the Board of Directors

The Board of Directors meeting schedule is set at the beginning of the year. During 2014, the Board of Directors held 45 (forty five) meetings.

Decision-making is conducted through consensus agreement. In the event consensus agreement does not occur, decision-making is carried out based on majority vote.

All decisions taken in the meeting of the Board of Directors shall be binding. Differences of opinion (dissenting opinion) that occur in Board of Directors meetings shall be clearly stated in the minutes of the meeting along with the reasons for dissent.

The Board of Directors Meeting frequency and level of attendance in 2014 are as follows:

Name	Number of Meetings	Attendance	Percentage
Jahja Setiaatmadja	45	42	93 %
Eugene Keith Galbraith	45	36	80 %
Dhalia M. Ariotedjo	45	35	78 %
Anthony Brent Elam	45	36	80 %
Suwignyo Budiman	45	38	84 %
Subur Tan	45	39	87 %
Renaldo Hector Barros*	24	9	37.5%
Henry Koenafi	45	37	82 %
Armand W. Hartono	45	35	78 %
Erwan Yuris Ang	45	35	78 %
Rudy Susanto**	17	14	82 %

* Mr. Renaldo Hector Barros resigned as Director of BCA effectively starting 1 June 2014

** Mr. Rudy Susanto effectively has become a Director of BCA starting 21 July 2014

The Board of Commissioners and Board of Directors Joint Meeting frequency and level of attendance of members of the Board of Directors at the Joint Meetings throughout 2014 are as follows:

Name	Number of Meetings	Attendance	Percentage
Jahja Setiaatmadja	15	11	73 %
Eugene Keith Galbraith	15	12	80 %
Dhalia M. Ariotedjo	15	10	67 %
Anthony Brent Elam	15	12	80 %
Suwignyo Budiman	15	11	73 %
Subur Tan	15	13	87 %
Renaldo Hector Barros*	8	2	25 %
Henry Koenafi	15	14	93 %
Armand W. Hartono	15	10	67 %
Erwan Yuris Ang	15	11	73 %
Rudy Susanto**	7	5	71 %

* Mr. Renaldo Hector Barros resigned as Director of BCA effectively starting 1 June 2014

** Mr. Rudy Susanto effectively has become a Director of BCA starting 21 July 2014

14. The Board of Directors Performance Assessment

The Board of Directors performance assessment is carried out once every year. Performance appraisal of members of the Board of Directors is performed by carrying out self-assessment and reviewed by the President Commissioner/ Board of Commissioners.

In general, the basis of assessment of the members of the Board of Directors is as follows:

1. The performance of the Board of Directors in implementing the vision and mission of BCA in the work program of the current year, by adhering to the values of BCA.
2. The Good Corporate Governance implementation.

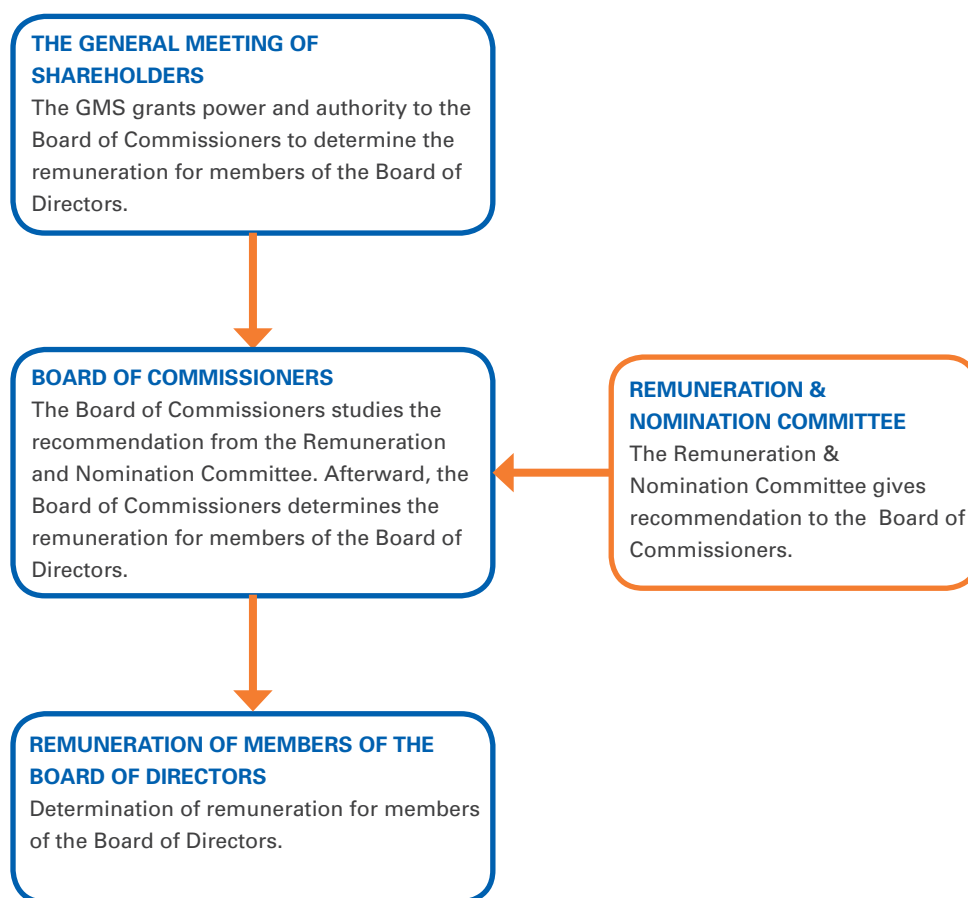

15. Procedure of Determining the Remuneration of the Board of Directors

Based on the decision of the 2014 Annual GMS, the GMS has granted the power and authority to:

- i. The Board of Commissioners to determine the amount of salary and other benefits to members of the Board of Directors;
- ii. The controlling shareholders to determine the distribution of tantiem among the members of the Boards of Commissioners and Directors of BCA.

In exercising its power and authority, the Board of Commissioners will consider the recommendation of the Remuneration and Nomination Committee.

Determination Procedure Scheme of Remuneration of the Board of Directors

16. Remuneration Structure of the Board of Directors

The Remuneration Structure showing the remuneration components and nominal value for each component for all members of the Board of Directors in 2014 is as follows:

Type of Remuneration and Other Facilities	Type of Remuneration and Other Facilities	
	BOARD OF DIRECTORS	
	Person	In million Rupiah
1. Remuneration (salary, bonus, routine allowances, tantiem, and other non-natura facilities)	10	254,915
2. Other natura facilities:		
a. Business Travel Allowance	10	560
b. Health Benefits	10	1,374
c. Health Club Membership	7	257
d. Option to buy service vehicle at the end of leasing period	10	15,809
3. Benefit retirement (owned at the end of the duty)	10	USD 2,190,000
Total		272,915 + USD 2,190,000

The amount of remuneration for each member of the Board of Directors in 1 (one) year is above Rp 2 billion, received in cash throughout 2014.

Indicators for Implementing the Remuneration of the Board of Directors

The indicators for implementing the remuneration of the Board of Directors are as follows:

- a. Individual performance of each member of the Board of Directors.
- b. Financial performance and fulfillment of reserve fund as stated at the Limited Liability Company Law.
- c. Fairness with peer group. Equality of position within BCA organization and with other similar banks in terms of assets and characteristics.
- d. Consideration of BCA's long-term goals and strategies.

17. Orientation Program for New Members of the Board of Directors

An orientation program is organized for new Directors in order to help them in carrying out the relevant duties and responsibilities as a Director as well as possible.

The orientation program includes:

1. Information regarding BCA such as the vision, mission, medium and long term strategy and plans, performance, as well as financial aspects of BCA.
2. Understanding the duties and responsibilities as a member of the Board of Directors, limits of authority, working time, relationship with the Board of Commissioners, rules and regulations, etc.

Members of the Board of Directors who are participating in the orientation may do the following:

- a. Request presentations to obtain explanation of various aspects deemed necessary, by involving the management under it.
- b. Organize meetings with fellow members of the Board of Directors and the Board of Commissioners to discuss various issues in BCA or other information deemed necessary.
- c. Conduct visits to several business locations/branches of BCA with fellow members of the Board of Directors/ Management.

18. Training Programs to Enhance of Members of the Board of Directors

** Mr. Rudy Susanto effectively has become a Director of BCA starting 21 July 2014

COMMITTEES UNDER THE BOARD OF COMMISSIONERS

THE AUDIT COMMITTEE

1. Main Duties

The Audit Committee was formed by, and is responsible to, the Board of Commissioners with the purpose of assisting the Board of Commissioners to support the effective implementation of the oversight/supervision duties and functions on matters related to financial reporting, internal control systems, the implementation of internal and external audits, implementation of good corporate governance (GCG), and compliance with applicable laws and regulations.

- Structure and Membership;
- Membership requirements;
- Term of Office;
- Work Mechanism;
- Meetings;
- Mechanism of Decision Making in Meetings;
- Minutes of Meetings;
- Reporting;
- The handling of complaints/reports regarding claims about infractions in financial reports.

2. Legal Reference

The formation of Audit Committee is referring to:

- The Decision of Chairman of Bapepam-LK No.Kep-643/BL/2012 dated 7 December 2012 and Regulation Attachment No. IX.1.5 concerning Establishment and Work Guidelines of Audit Committee.
- Bank Indonesia Regulation No. 8/14/PBI/2006 dated October 5, 2006 as a substitute of Bank Indonesia Regulation No. 8/4/PBI/2006 concerning Good Corporate Governance Implementation in Commercial Bank.
- Bank Indonesia Circular Letter No.15/15/DPNP dated April 29, 2013 concerning Good Corporate Governance Implementation in Commercial Bank.
- Articles of Association of PT. Bank Central Asia, Tbk No. 19 dated January 15, 2009 concerning Duties and Authorities of the Board of Commissioners.

3. Charter of the Audit Committee

BCA's Audit Committee Charter and the Code of Conduct have been adapted to adhere with the Bapepam-LK Regulation No.IX.1.5 on Establishment and Work Guidelines of Audit Committee mentioned above. The matters listed below fall under the scope of the Guidelines and Code of Conduct of the Audit Committee:

- Duties and Responsibilities;
- Authorities;

The Audit Committee Charter and Code of Conduct have been uploaded to the BCA website (www.bca.co.id) under Good Corporate Governance.

4. Duties and Responsibilities of the Audit Committee

In carrying out its functions, the Audit Committee has the following duties and responsibilities:

1. Monitoring and evaluating the planning and implementation of audits as well as monitoring the follow-up actions of audit findings in order to assess the adequacy of internal controls, including the adequacy of the financial reporting process.
2. In order to carry out the above-stated duties and to provide recommendations to the Board of Commissioners, the Audit Committee conducts monitoring and evaluation on:
 - a. The implementation of tasks by the Internal Audit Division (DAI).
 - b. The compliance of audit implementation by the Public Accountant Office to the prevailing auditing standards.
 - c. The compliance of Financial Statements with the prevailing accounting standards.
 - d. Provide independent opinion in the event of disagreements between the management and the Public Accounting Office for services rendered.

- e. The follow-up implementation by the Board of Directors on the findings of DAI, Public Accountants and Financial Service Authority supervision results.
3. Reviewing other financial information that will be issued by BCA to the public and/or to the Regulator documents such as projections, and other reports relating to the financial information of BCA.
4. Reviewing the compliance of BCA with laws and regulations in the field of banking, Capital Markets, and other legislation and provisions relating to the business activities of BCA.
5. Providing recommendations to the Board of Commissioners on the appointment of a Public Accounting Office, based on the independency, scope of the assignment, and fee to be submitted to the General Meeting of Shareholders.
6. Reviewing and reporting to the Board of Commissioners regarding complaints in relation to accounting and financial reporting processes of BCA.
7. Reviewing and providing advice to the Board of Commissioners in relation to potential conflict of interest at BCA.
8. Reviewing and monitoring of the implementation of effective and sustainable GCG.
9. Performing other tasks relevant to the functions of the Audit Committee at the request of the Board of Commissioners.

5. Authority

In performing its duties, the Audit Committee has the authority to carry out the following actions:

- a. To access documents, data, and information regarding employees, funds, assets, and BCA's resources;
- b. To communicate with employees, management and parties executing internal audit functions, risk management, and Public Accountants regarding the duties and responsibilities of the Audit Committee;
- c. If needed, to involve independent parties outside the members of the Audit Committee whose services are required in order to assist the Committee in carrying out its duties;
- d. Other actions with authority granted by the Board of Commissioners.

6. Membership of the Audit Committee

The Audit Committee of BCA comprises 3 (three) members, consisting of a Chairman who is also an Independent Commissioner and 2 (two) Committee members who are Independent Parties.

One independent party is an expert in finance/accounting and the other independent party is an expert in the field of banking.

7. Membership Composition of the Audit Committee as of 31 December 2014

Name	Position
Sigit Pramono	Chairman (concurrently as Independent Commissioner)
Inawaty Handoyo	Member (Independent Party)
Ilham Ikhsan	Member (Independent Party)

Appointment of members of the Audit Committee is conducted by the Board of Directors through the Decision No. 103/SK/DIR/2011 dated 27 July 2011 based on the Board of Commissioners Meeting Decision No. 030/RR/KOM/2011 dated 23 June 2011.

Profiles of education, positions, and work experience of members of the Audit Committee can be viewed on the **Corporate Data** section, page 512 - 513 of this Annual Report.

8. Term of Office of the Audit Committee Members

The term of office of the Audit Committee members shall expire at the end of the term of the Audit Committee Chairman, who is also an Independent Commissioner. The Audit Committee term of office for this period will end at the close of the 2016 Annual GMS.

9. Independence and Requirements of the Audit Committee Members

All members of the Audit Committee are independent parties, not having financial, management, share ownership and/or family relationships with members of the Board of Commissioners, members of the Board of Directors and/or Controlling Shareholders or business relationships with BCA that may affect the ability to act independently.

Membership requirements that must be met by Audit Committee members are as follows:

1. Have good integrity, character, and morals;
2. Possess the ability, knowledge, and experience in accordance to his/her field of duties, as well as being able to communicate well;
3. Understand financial statements, the business of BCA as particularly related to services or business activities of BCA, audit processes, and legislation in the field of the capital markets as well as other relevant laws and legislation;
4. Willing to comply with BCA's Code of Ethics and the Audit Committee's Code of Conduct established by BCA;
5. Willing to continuously improve competence through education and training;
6. Have at least one member whose educational background and expertise is in accounting and/or finance;
7. Did not work in a Public Accountant Firm, Law Firm, Public Appraisal Service Office or other parties that provided assurance services, non-assurance services, appraisal services and/ or other advisory services to the Bank within the last 6 (six) months;
8. Had not worked or had the authority and responsibility for planning, directing, controlling, or supervising the activities of

BCA in the prior 6 (six) months unless as an Independent Commissioner;

9. Not a member of a Board of Directors of other banks;
10. Does not have direct or indirect shareholdings in BCA;
11. In the case of members of the Audit Committee of BCA acquires shares either directly or indirectly as a result of a legal event, the shares shall be transferred to other parties within a maximum period of 6 (six) months after the shares were acquired;
12. Have no affiliation with fellow members of the Board of Commissioners, the Board of Directors or Controlling Shareholders of BCA;
13. Have no business relationship that is either directly or indirectly related to the business activities of BCA;
14. The Chairman of the Audit Committee may hold office as a Committee Chairman of only 1 (one) other committee in BCA;
15. Audit Committee members who are Independent Parties may hold more than one position as an Independent Party at other Committees in BCA, other banks, and/ or other companies, as long as he/she:
 - a. meets all the required competencies;
 - b. meets the independency criteria;
 - c. is able to keep BCA matters confidential;
 - d. observes the applicable Code of Conduct; and
 - e. does not neglect implementation of duties and responsibilities as a member of the Committee.

10. Meetings of the Audit Committee

The Audit Committee holds at least 4 (four) meetings in one year as stipulated in the Audit Committee Charter and Code of Conduct. During 2014, the Audit Committee held 26 (twenty six) meetings.

Minutes of meetings are prepared for each Audit Committee Meeting, describing the date of meeting, attendance of the Audit Committee members, meeting agenda, and meeting materials.

Attendance of the members of the Audit Committee at the Audit Committee meetings during the year 2014 is as follows:

Name	Number of Meetings	Attendance	Percentage
Sigit Pramono	26	26	100 %
Inawaty Handoyo	26	26	100 %
Ilham Ikhsan	26	26	100 %

11. Reports on the Implementation of the Audit Committee Work Program in 2014

During 2014, BCA's Audit Committee accomplished the following:

1. Conducted meetings with the KAP Siddharta & Widjaja (now Siddharta Widjaja & Rekan), a member firm of KPMG International, to discuss the final audit results of BCA's Financial Statement for the 2013 fiscal year and its Management Letter.
2. Evaluated and approved the proposal for extending the contract with KAP Siddharta & Widjaja (now Siddharta Widjaja & Rekan), a member firm of KPMG International, which is affiliated with KPMG International in a Business Review Business Support Brief Letter to Shareholders and recommended it to the Board of Commissioners to perform the audit the BCA Financial Statements for financial year 2014.
3. Conducted meetings with KAP Siddharta & Widjaja (now Siddharta Widjaja & Rekan), a member firm of KPMG International, to discuss the plan and scope of the audit of BCA's Financial Statements for the 2014 fiscal year.
4. Conducted meetings with the Division of Finance and Planning to review the Financial Statements of BCA which will be published every quarter.
5. Assessed the analysis of financial realization against budget.
6. Conducted 8 (eight) meetings with the Internal Audit Division to:
 - a) Evaluate the annual planning.
 - b) Evaluate the implementation of internal audit each semester.
 - c) Conduct discussions on audit results deemed significant.
7. Conducted 6 (six) visits to the Branch Office and Subsidiaries to attend internal audit exit meetings.
8. Reviewed reports of internal audit results (over 187 reports) and monitored follow-ups.
9. Assessed BCA compliance with prevailing legislation provisions in the field of banking through a review of the reports of compliance to the prudent banking principles as reported every quarter.
10. Assessed credit portfolio reports issued every semester.
11. Monitored the risk management implementation through quarterly reports of BCA's Risk Profile and monthly reports of the Operation Risk Management Information System (ORMIS).
12. Conducted discussions with related units to evaluate operational risk and internal control activities in strategic work units: Funding and Service Development, Wealth Management, Finance and Corporate Planning, and Credit Services in order to provide an opinion to the Board of Commissioners regarding the adequacy of mitigation efforts for the various existing risks.
13. Conducted studies on:
 - a. Results of the inspection conducted by the Financial Services Authority and follow-up actions.
 - b. The Management Letter from KAP Siddharta & Widjaja (now Siddharta Widjaja & Rekan), a member firm of KPMG International, and its follow-ups.
14. Reported the results of reviews and routine evaluations to the Board of Commissioners on aspects such as governance, risk management, compliance and internal control on a quarterly basis.
15. Attended the GMS, Analyst Meetings, and BCA National Work Meetings in order to monitor the implementation of GCG.

THE RISK OVERSIGHT COMMITTEE

1. Main Duties

The Risk Oversight Committee was formed to ensure that the enterprise wide risk management framework provides adequate protection against all risks faced by the Bank.

2. Legal Reference

The Risk Oversight Committee was established through a Decision Letter issued by the Board of Commissioners No.033/SK/KOM/2007 dated 22 February 2007 on the Structure of the Risk Oversight Committee.

3. Guidelines and Code of Conduct of the Risk Oversight Committee

The Risk Oversight Committee adheres to the Risk Oversight Committee Charter and the Corporate Code of Conduct prepared to comply the Corporate with Bank Indonesia Regulation on the Implementation of Good Corporate Governance for Commercial Banks. The Risk Oversight Committee

Charter and Code of Conduct are contained in the BCA GCG Manual and posted on the BCA website (www.bca.co.id).

The Risk Oversight Committee Charter and Code of Conduct covers:

- Structure and Membership;
- Duties and Responsibilities;
- Working Mechanism;
- Ethics and Work Hours;
- Committee Meetings.

4. Membership of the Risk Oversight Committee

BCA's Risk Oversight Committee comprises 3 (three) persons, consisting of a Chairman who is also an Independent Commissioner and 2 (two) independent parties.

An Independent Party who has an expertise in financial risk management and another one who has an expertise in financial and information technology risk.

5. Membership Composition of the Risk Oversight Committee as of 31 December 2014

Name	Position
Cyrillus Harinowo	Chairman (concurrently as Independent Commissioner)
Endang Swasthika Wibowo	Member (Independent Party)
Andreas E. Susetyo*	Member (Independent Party)

* Mr. Andreas E. Susetyo resigned as member of Risk Oversight Committee effectively starting 1 January 2015
Mr. Wimpie Rianto effectively has become a member of Risk Oversight Committee starting 1 February 2015

Appointment of members of the Risk Oversight Committee was formalized by the Board of Directors through Decision No.131A/SK/DIR/2012 dated 1 August 2012 and by the Board of Commissioners Decision No. 37A/RR/KOM/2012 dated 19 July 2012.

The educational and work experience profiles of the members of the Risk Oversight Committee can be viewed on the **Corporate Data section**, page 514 of this Annual Report.

6. Term of Duty of the Risk Oversight Committee Members

The term of office of the Risk Oversight Committee members will expire at the expiration of the term of office of Risk Oversight Committee Chairman, who is also an Independent Commissioner. The Risk Oversight Committee term of office for this period will be end at the close of the 2016 Annual GMS.

7. Independence and Requirements of the Risk Oversight Committee Members

All members of the Risk Oversight Committee are independent parties who do not have any financial, management, ownership of shares and/or family relationships with members of the Board of Commissioners, the Board of Directors and/or the Controlling Shareholders or business relationships with BCA that may affect their ability to act independently.

Requirements to be met by members of the Risk Oversight Committee of BCA are, among others, as follows:

1. High integrity, ability, knowledge, experience in accordance with their field of work, and the ability to communicate excellently;
2. At least one independent party has an educational background and expertise in finance;
3. At least one independent party has an educational background and expertise in risk management;
4. Has no affiliation with the Board of Commissioners, the Board of Directors, or the Controlling Shareholders of the Bank;
5. Has no business relationship, either directly or indirectly, related to the business activities of the Bank;
6. Not a member of a Risk Oversight Committee at any other company (issuers or public companies) during the same period.

8. Duties and Responsibilities of the Risk Oversight Committee

Duties and responsibilities of the Risk Oversight Committee, among others, are:

1. Assisting and making recommendations to the Board of Commissioners in order to improve oversight in implementation of tasks and responsibilities in risk management and to ensure that risk management policies are properly implemented.
2. In regard with the process to provide recommendation, the Risk Oversight Committee should:
 - a. Evaluate the consistency between risk management policies and implementation.
 - b. Monitor and evaluate the Risk Management Committee and the Risk Management Unit.

9. Meetings of the Risk Oversight Committee

Risk Oversight Committee meetings are held at least 4 (four) times a year as stipulated in the Risk Oversight Committee Charter and the Corporate Code of Conduct. In 2014, the Risk Oversight Committee held 9 (nine) meetings.

Minutes of meetings are prepared for each Risk Oversight meeting, describing the date of meeting, attendance of the Risk Oversight Committee members, meeting agenda, and main discussion.

Attendance of the members of the Risk Oversight Committee at the Risk Oversight Committee meetings during the year 2014 was as follows:

Name	Number of Meetings	Attendance	Percentage
Cyrellus Harinowo	9	9	100 %
Endang Swasthika Wibowo	9	9	100 %
Andreas E. Susetyo	9	7	78 %

10. Report of the Implementation of the Risk Oversight Committee Work Program in 2014

In 2014, the Risk Oversight Committee's work program was as follows:

1. Conducted:
 - a. Monitoring of risk by reviewing and evaluating risk reports prepared by the risk control units. The Risk Oversight Committee gives opinions and recommendation in writing and can request further clarification or explanations through special meetings to discuss the topic.
 - b. Reviewing the Quarterly Stress Test results.
 - c. Monitoring of risks profile by a risk dashboard report to comply with the regulation.
 - d. Reporting the progress of monitoring duties to the Board of Commissioners quarterly.
2. Conducted special monitoring on:
 - a. Operational risks, particularly the risk of Information Technology (IT) to ensure that operational risks are under control implementation of Business Continuity Plan (BCP) and Crisis Management Protocol.
 - b. Analysis the stress test specifically on the aspects of:
 - Liquidity risk based on various macro indicators scenarios and testing the resistance of liquidity reserves;
 - Credit risk including consumer credit, SME and Corporate credit;
 - Capital allocation and reserves to support economic conditions.
3. Evaluated the implementation of good corporate governance by reviewing the risk management documents of SKMR and the Risk Management Committee.
4. Provided recommendation to the Board of Commissioners on the implementation and development of the risk management process regarding:
 - a. Business Continuity Planning and Crisis Management Protocol.
 - b. Consumer Credit Risk on a national level.
 - c. The targets of the SME credit program, by regulator corresponding with economic conditions and potential.
 - d. The Implementation of integrated risk management and assessment mechanisms.
5. Ensured that BCA has an excellent infrastructure for controlling risk, therefore the evaluation are conducted by:
 - a. Reviewing the rules and guidelines for risk management.
 - b. Evaluating the risk methods, indicators and measurement.
6. Ensuring implementation of GCG by attending the General Meeting of Shareholders, Analyst Meetings and the Annual National Work Meeting.

THE REMUNERATION AND NOMINATION COMMITTEE

1. Main Duties

The Remuneration and Nomination Committee was formed to enhance the quality of top management through prescribed remuneration and nomination policies.

2. Legal Reference

The Remuneration and Nomination Committee was established by the Board of Commissioner Decision No. 118/SK/KOM/2007 dated May 30, 2007 regarding the structure of the Remuneration and Nomination Committee.

3. Guidelines and Code of Conduct of the Remuneration and Nomination Committee

The Remuneration and Nomination Committee has a Charter and Code of Conduct, prepared in accordance with regulations from the Bank of Indonesia and Circular Letters from Bank Indonesia regarding the Implementation of Good Corporate Governance for Banks. The Remuneration and Nomination Committee Charter and Code of Conduct were published in the BCA GCG Manual and on the BCA website (www.bca.co.id) under Good Corporate Governance.

The scope of the Remuneration and Nomination Charter and Code of Conduct covers the following:

- Structure and Membership;
- Duties and Responsibilities;

- Work Mechanisms;
- Ethics and Work Hours;
- Committee Meetings.

4. Membership of the Remuneration and Nomination Committee

BCA's Remuneration and Nomination Committee has 3 (three) members, comprising a Chairman who is also an Independent Commissioner and 2 (two) members, i.e. the President Commissioner and an Executive Officer in charge of the Human Capital Management (Human Resources) Division.

The Remuneration and Nomination Committee members have the knowledge of remuneration systems and/or nominations as well as of succession planning.

5. Membership Composition of the Remuneration and Nomination Committee as of 31 December 2014

Name	Position
Raden Pardede	Chairman (concurrently as Independent Commissioner)
Djohan Emir Setijoso	Member (concurrently as President Commissioner)
Lianawaty Suwono	Member (concurrently as the Head of Human Capital Management)

The appointment of members of the Remuneration and Nomination Committee is undertaken by the Board of Directors through Decision No. 123/SK/DIR/2011 dated 19 September 2011 and by decision of the Board of Commissioners No. 027A/RR/KOM/2011 dated 30 May 2011.

The education and work experience profiles of the members of the Remuneration and Nomination Committee can be viewed on the **Corporate Data** section, page 515 of this Annual Report.

6. Term of Office of the Remuneration and Nomination Committee Members

The term of office of the members of the Remuneration and Nomination Committee will expire at the expiration of the term of office of the Chairman of the Remuneration and Nomination Committee, who is also an Independent Commissioner. The term of office of the members of the Remuneration and Nomination Committee during this period will expire at the close of the Annual General Meeting 2016.

7. Independence and Requirements of the Remuneration and Nomination Committee Members

All members of the Remuneration and Nomination Committee are independent parties who do not have financial, management, share ownership and/or family relationships with any members of the Board of Commissioners, the Board of Directors and/or Controlling Shareholders or business relationships with the Bank that may affect their ability to act independently.

Requirements to be met as a member of the BCA Remuneration and Nomination Committee are, among others as follows:

1. Have high integrity, ability, knowledge, experience in accordance with their field of work and the ability to communicate well;
2. Have knowledge of remuneration and/or nomination systems;
3. Have no affiliation with members of the Board of Commissioners, the Board of Directors, or the Controlling Shareholder of the Bank;
4. Have no business relationship, either directly or indirectly, related to the business activities of the Bank.

8. Duties and Responsibilities of the Remuneration and Nomination Committee

Duties and Responsibilities of the Remuneration and Nomination Committee, among others, are:

1. To evaluate the remuneration and nomination policies of BCA.
2. To give recommendations to the Board of Commissioners on:
 - a. Remuneration policy for the Board of Commissioners and Board of Directors to be submitted to the General Meeting of Shareholders of BCA.
 - b. Remuneration policy for all Executive Officers and employees to be delivered by the Board of Commissioners to the Board of Directors.

3. To develop and recommend election systems and procedures and/or replacement of members of the Board of Commissioners and the Board of Directors to the Board of Commissioners, to be further submitted to the AGM.
4. To ensure that the remuneration policies of BCA are in compliance with the prevailing legislation.
5. To advise the Board of Commissioners regarding prospective members of the Board of Commissioners and /or prospective members of the Board of Directors to be submitted to the AGM.
6. To recommend independent parties as prospective members of the Audit Committee and the Risk Oversight Committee to the Board of Commissioners.
7. To assess the feasibility of the facilities policy provided to the Board of Commissioners and Board of Directors.
8. To carry out other duties assigned by the Board of Commissioners regarding remuneration and nomination in accordance with the applicable regulations.
9. To report the results of assessments and recommendations with respect to the duties of the Remuneration and Nomination Committee to the Board of Commissioners when required.

9. The Remuneration and Nomination Committee Meetings

The Remuneration and Nomination Committee holds meetings in accordance with BCA requirements, at least 1 (one) time a year as stipulated in the Guidelines and Code of Conduct of the Remuneration and Nomination Committee. During 2014, the Remuneration and Nomination Committee held 7 (seven) meetings.

Minutes of meetings are prepared for each Remuneration and Nomination Committee meeting, describing the date of meetings,

attendance of the Remuneration and Nomination Committee members, meeting agenda, and meeting materials.

10. Policy concerning the Succession of the Board of Directors

1. Develop and provide recommendations on system and procedure of selection and/or replacement of members of the Board of Commissioners and Board of Directors to the Board of Commissioners to be submitted to the GMS.
2. Provide recommendations on prospective members of the Board of Commissioners and/or Board of Directors to the Board of Commissioners to be submitted to the GMS.
3. In order to prepare the executives of BCA to gain a whole knowledge and experience as an official at the head or branch office, every executive will be rotated.

Attendance of the members of the Remuneration and Nomination Committee at the Remuneration and Nomination Committee meetings during the year 2014 was as follows:

Name	Number of meetings	Attendance	Percentage
Raden Pardede	7	7	100 %
D.E. Setijoso	7	7	100 %
Lianawaty Handoyo	7	7	100 %

11. Report on the Implementation of the Remuneration and Nomination Committee Work Program in 2014

During 2014 the Remuneration and Nomination Committee accomplished the following:

1. In order to prepare the executives of BCA to gain a complete knowledge and experience as officials at the Head Office or Branch Office(s), plans for several knowledge-enriching and cross-function placements have been run. The rotation of officials from the Head to Branch Offices and vice versa has been implemented at several levels. The Committee emphasizes the importance of supervising the execution of enrichment programs for more specialized work functions in Head Office with the aim of equipping Head Office officials with knowledge of actual conditions at Branch Offices so that when they return to their original posts they will have a better understanding of the needs of Branch Offices. Officials are then expected to make decisions, design systems and products, and carry out other duties that fulfill the needs of Branch Offices and customers more effectively.
2. Recommended to the Board of Commissioners the distribution of the tantiem of financial year 2013 to all members of the Board of Commissioners and management who held office during the 2013 financial year so that it may be delivered by the Board of Commissioners during the Annual General Meeting of Shareholders on 07 April 2014 for approval.
3. Recommended to the Board of Commissioners the nomination of a new member to the Board of Directors, Mr. Rudy Susanto, to be delivered during the Annual General Meeting of Shareholders on 07 April 2014 for approval.
4. Recommended to the Board of Commissioners a remuneration package for the Boards of Commissioners and Directors for the term of office of 2 (two) years, from 2014 to 2016, in accordance with decisions reached during the Annual General Meeting of

Shareholders PT Bank Central Asia on 12 May 2011 regarding the appointment of Boards of Commissioners and Directors members for the 2011-2014 period and the GMS and Extraordinary GMS decisions on 16 May 2012 regarding the change in term of office for members of the Boards of Commissioners and Directors from 3 (three) years to 5 (five) years, from 2011 to 2016.

5. Recommended to the Board of Commissioners the granting of a remuneration package to Mr. Renaldo Hector Barros for the term of office from January 2014 to May 2014 in accordance to GMS Decision on 07 April 2014 which approved the resignation of Mr. Renaldo Hector Barros, effective on 1 June 2014.
6. The Talent Mapping process as a part of the Talent Management process must always be consistent with the Company's business strategy. This must be reflected in the manpower planning process, which is the basis for recruitment and employee development strategies that are appropriate for business needs. The Talent Mapping process observes and records the work and potential of individuals in order to provide employees with placements and developments that suit their skills while still prioritizing the business needs of the Company. The aim of talent mapping is to place "the right talent in the right place at the right time" in order to produce optimal results for the Company's progress. The Committee recommended that the Board of Commissioners carries out the Board of Directors Panel consistently each year, keeping in mind that one of the sources of nominations for members of the Boards of Directors and Commissioners are from the internal officials of the Company.

7. In relation to Mr. Andreas Eddy Susetyo's resignation as a member of the Risk Oversight Committee as of 1 January 2015, the Remuneration and Nomination Committee recommended Mr. Wimpie Rianto as a Risk Oversight Committee member, replacing Mr. Andreas Eddy Susetyo.
8. Reviewed budget policies on salary raises in 2015 and budget allocated for bonuses in 2014 for BCA employees.

THE EXECUTIVE COMMITTEE OF THE BOARD OF DIRECTORS

The Board of Directors is assisted by 6 (six) Executive Committees, which are in charge of providing an objective opinion to the Board of Directors and helping to systematically improve the effectiveness of the Board of Directors in performing their duties.

Executive Committee members are appointed by the Board of Directors. The Committees provide input based on their scope of duties and responsibilities.

Following are the 6 (six) Executive Committees under the Board of Directors:

1. Asset & Liability Committee (ALCO)
2. Risk Management Committee (KMR)
3. Credit Policy Committee (KKP)
4. Credit Committee (KK)
5. Information Technology Steering Committee (KPTI)
6. Personnel Case Advisory Committee (KPKK)

1. Asset & Liability Committee (ALCO)

The Asset & Liability Committee (ALCO) is a permanent committee under the Board of Directors with the mission of achieving an optimum level of profitability for BCA as well as ensuring that liquidity risk, interest rate risk and foreign exchange risk are controlled through the establishment of policies and strategies for Bank asset and liability management.

Main Functions of ALCO

- To establish and evaluate policies and liquidity management strategies to meet the liquidity needs of BCA in accordance with the applicable rules, including unexpected funds requirement, while minimizing idle funds.
- To establish and evaluate policies and strategies related to market risks, including interest rate risk and foreign exchange risk.
- To establish and evaluate pricing policies and strategies for products such as funding, credit, and inter-office accounts.
- To establish and evaluate policies and strategies for managing investment portfolio.
- To establish and evaluate policies and strategies for arranging the balance sheet structure by anticipating changes in interest rates to achieve an optimum net interest margin.

Authorities of ALCO

ALCO has the authority to take strategic decisions in the management of Bank assets and liabilities within parameters set by the Board of Directors and Board of Commissioners, such as:

- To establish deposit rates, savings, and checking account interest rates;
- To establish lending rates;
- To establish funding and investment strategies;
- To establish hedging strategy where necessary;
- To establish limits relating to liquidity risk, interest rate risk, and foreign exchange risk according to the overall risk management policy.

Membership of ALCO and Voting Right Status

Position	Filled By	Voting Right Status
Chairman (concurrently as Member)	President Director	Reserve Voting Rights
Member	<ul style="list-style-type: none"> • Deputy President Director • Corporate Banking Director • Risk Management Director • Director of Branch Banking • Individual Banking Director • Regional & Branch Banking Director • Credit Director • Head of Treasury Division • Head of International Banking Division • Head of Finance and Planning Division • Head of Corporate Banking dan Corporate Finance • Head of Retail and Commercial Banking • Head of Transaction Services Development • Head of Consumer Credit Business Unit • Head of Consumer Card Business Group • Head of Risk Management Unit 	Reserve Voting Rights
Secretary	Senior Adviser at Risk Management Unit (SKMR) which covers the Asset Liability Management (ALM)	No Voting Rights

Duties and Liabilities of ALCO

ALCO, among other tasks, functions to establish the liquidity management policies and strategies to meet the liquidity needs of BCA and minimize idle funds. In addition, ALCO establishes policies and strategies related to market risk, pricing strategy and the structuring of the investment portfolio and balance sheet structuring strategies to anticipate market rate movements and to optimize the net interest margin (net interest margin - NIM). ALCO reports initiatives and activities through regular monthly meetings with special smaller meetings held to discuss specific issues.

Main Duties of ALCO Members

Voting ALCO members have main duties such as:

- To provide input to the ALCO Secretary for the preparation of the agenda and meeting materials.
- To provide input in the form of information and analysis on the ALCO meeting, regarding:
 - Methodology of product pricing and loan funds.
 - Methodology of measuring liquidity risk, interest rate risk and foreign exchange risk.

- Determination of product price and loan funds.
- The competitiveness of interest rates and loan and funding products.
- Strategies of Bank competitors.
- Constraints, if any, in the implementation of ALCO decisions.
- The behavior of customers and market changes.

ALCO Meetings

- ALCO meetings are held as necessary and at least once every month.
- ALCO meetings are legitimate if attended by at least $\frac{1}{2}$ (half) plus one of the members of ALCO including the Chairman or alternate, or attended by 5 (five) Directors, including the Chairman or alternate.

Decision Making

- Decision-making in relation with the use of ALCO authorities will only be taken through legitimate ALCO meeting decisions.
- ALCO meeting decisions are valid and binding if approved by half plus 1 (one) of the members with voting rights present.

Frequency and Attendance of the Board of Directors and Other ALCO Members in the 2014 ALCO Meetings

Name of Director	Number of Meetings	Attendance	Percentage
President Director (Jahja Setiaatmadja) *	12	11	92%
Deputy President Director (Eugene Keith Galbraith)	12	11	92%

*) Chairman

**) Credit Director has become a member of ALCO since July 2014 formerly served as EVP

***) Operations and Information Technology Director is no longer a member of ALCO from August 2014

Notes:

Non-member Directors also attend the ALCO Meeting as resource persons.

In addition, units from Head Office, Regional or Branch Offices, as well as parties outside BCA may be invited as a resource person to provide input related to certain issues.

Accountability/Work Realization Reporting

Realization of the Committee's work is reported through:

- Minutes of regular meetings.
- Minutes of special meetings held to discuss specific issues.
- Data and information related to the areas covered.
- Notes and ALCO's opinion regarding the minutes of meetings and relevant data and information.

ALCO Activity/Work Realization Program in 2014

Throughout 2014, ALCO held 12 (twelve) meetings with the following agenda:

- Report of follow-ups of previous ALCO meeting decisions.
- Economic parameters including inflation rates, Bank Indonesia Term Deposit interest rates, yield curves of Rupiah and USD, Rupiah & USD market liquidity and exchange rate of Rupiah.
- Liquidity reserves comprising of Primary and Secondary Rupiah and Foreign Exchange Reserves, Rupiah and Foreign Exchange Fund Structure, Credit Projection, Liquidity Projection and losses due to liquidity risk.

- Interest rate risks, including Repricing Gap and Sensitivity Analysis, both for Rupiah and Foreign Exchange.
- Foreign Exchange Risk, in regard with development of the Net Open Position (NOP) and the related risks.
- Loan Portfolio, which comprises limit and outstanding loans and type of debtors.
- Yield and Cost of Fund of Rupiah and Foreign Exchange.
- Analysis of Assets/Liabilities Management.
- Development of Bank Funds to Total Banking.
- To discuss and decide on changes in interest rates for Funds and Loans, Prime Lending Rates and limits relating to the Asset Liability Management (ALM).
- To review the results of profit/loss simulation in accordance with the strategy applied by the ALM BCA.

2. Risk Management Committee

The Risk Management Committee (KMR) was established to ensure that the enterprise-wide risk management framework provides adequate protection against all risks faced by BCA.

Main Functions of KMR

- To develop policies, strategies, and guidelines for the implementation of enterprise-wide risk management.
- To improve the implementation of risk management based on the results of evaluations on the implementation process and effective risk management system.
- To determine matters related with business decisions that deviate from normal procedures (irregularities).

Authority of KMR

KMR has the authority to review and make recommendations on matters relating to risk management that need to be decided by the Board of Directors.

Membership of Risk Management Committee and Voting Rights Status

Position	Filled By	Voting Rights Status
Chairman (concurrently as Permanent Member)	Risk Management Director	Reserve Voting Rights
Permanent Members ¹⁾	<ul style="list-style-type: none"> • All members of the Board of Directors • Head of Compliance Unit • Credit Risk Analysis Group Head 	
Non-permanent Members ²⁾	<ul style="list-style-type: none"> • Executive Vice President of Information Technology • All Heads of Division/Unit/Group/Business Unit, outside the Permanent Members 	
Secretary (concurrently permanent member)	Head of the Risk Management Unit/Alternates	

Notes:

¹⁾ If there is any concurrent position, the person only has the right of 1 (one) vote

²⁾ Relevant with the topic discussed

Main Duties of KMR

- To provide input to the Secretary of KMR in form of topics and meeting materials to be discussed in the KMR meetings.
- To provide input in form of information and analysis related to topics to be discussed in the KMR meetings. Topics that can be discussed in the KMR meetings include:
 - Directions and targets of BCA in formulating policies, strategies, and guidelines for risk management, with recommendations for improvement or adjustment when necessary.
 - Assessment of the effectiveness of the implementation of the risk management framework.
 - The development and trend of the total risk exposure of BCA and propose an overall risk tolerance level (risk appetite).
 - Results of the review on total risk exposure faced by BCA and its possible impacts.
 - Assessment of BCA's capital adequacy and impact on capital/profitability of the Bank under different stress test scenarios.
 - Development of risk measurement methods including contingency plans for abnormal conditions (worst case

scenarios) as well as other methods related with risk management.

- Improvements/justifications associated with business decisions that deviate from normal procedures (irregularities).
- Limit of authority, exposure, and the concentration of the loan portfolio as well as other parameters designed to limit risk.

KMR Meetings

Following are some provisions concerning the KMR meetings:

- KMR meetings are held as necessary, with a minimum of once in 3 (three) months or 4 (four) times in 1 (one) year.
- KMR meetings are legitimate if attended by at least 2/3 (two thirds) of the number of permanent members or ½ (half) of total number of permanent members but with the approval of all permanent members.

Decision Making

Following are provisions concerning decision making:

- Decision making related with the use of KMR authority will only be carried out through legitimate KMR meeting decisions.
- KMR meeting decisions are valid and binding if approved by more than half the number of present members.

Frequency and Attendance of the Board of Directors and Other KMR Members in the 2014

Name of Meeting Member	Number of Meetings	Attendance	Percentage
President Director (Jahja Setiaatmadja)	4	4	100%

Accountability/Work Realization Reporting

Accountability and work realization of KMR are reported through the following:

- A written report on a regular basis at least once in 1 (one) year to the Board of Directors, regarding the results of regular KMR meetings.
- A written report to the Board of Directors concerning the results of special meetings held to discuss specific issues.
- Special reports or activity reports (if necessary).

KMR Activity and Work Program in 2014 and its Realization

Throughout 2014, KMR conducted 4 (four) meetings with the realization of KMR work program below:

- To inform about the condition of regions and branches NPL and Early Warning System/ EWS concept as a tool to monitor credit performances in branches.
- To inform about the application of behavior scoring for extending small business loans (KUK).
- To inform about the implementation of Basel III, such as Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR) and Leverage ratio.

- To conduct credit risk stress test and liquidity risk stress test.
- To conduct a review on the limit of USD secondary reserves.
- To inform about the calculation of cost of loanable funds (COLF) and overhead cost for funding.
- To inform about the OJK Regulations that will be applied regarding the Integrated Risk Management for Financial Conglomeration.
- To inform about the information security risk landscape.

3. Credit Policy Committee

The Credit Policy Committee (KKP) was established to direct the provision of loans through the credit policy formulation designed in order to achieve prudent lending targets.

Main Functions of KKP

- To assist the Board of Directors in formulating the credit policies, primarily with regard to the prudent lending principle.
- To monitor and evaluate the implementation of credit policies to be implemented consistently and consequently.
- To perform periodic reviews on BCA's Basic Credit Policy (KDPB).

- To monitor the progress and condition of the credit portfolio.
- To provide advice and steps to improve the results of monitoring and evaluation that have been done.

Authority of KKP

KKP has the authority to provide advice and improvement steps to the Board of Directors associated with the credit policy.

Main Duties of KKP Members

- To provide input to the Secretary of KKP in the preparation of meetings agenda and materials.
- To provide input in form of information and analysis at the KKP meetings in order to make a KKP decision regarding the following:
 - Development of credit policies (corporation, commercial, SME, KUK, consumer, and credit card) in accordance with the Bank's mission and business plan.
 - Compliance to the provisions of law in granting credit.
 - Overall development and quality of credit portfolio.
 - Proper implementation of loan approval authority.
 - Proper process of lending, development, and quality of loan given to related parties and certain large borrowers.
 - Proper implementation of the Legal Lending Limit (LLL).
 - Handling of Non-Performing Loans in accordance with the credit policies.
 - Adequacy on the allowance for Bank loan losses.
 - Results of oversight on the implementation of the Basic Credit Policy (KDPB).

KKP Meetings

Below are the provisions in KKP meetings.

- KKP meetings are held as necessary at a minimum of once within 1 (one) year.
- KKP meetings are valid if attended by at least 2/3 (two-thirds) of the number of members.

Decision Making

Following are the provisions in decision making.

- Decision making in regard with the use of KKP authority can be done through circulars to KKP members or a valid KKP meeting.
- A decision of KKP meeting is valid and binding if approved by more than half the number of present members.

Accountability/Work Realization Reporting

- A written report is submitted to the Board of Directors on a regular basis, with copies to the Board of Commissioners regarding the results of controlling, monitoring, and evaluation of the Basic Bank Credit Policy (KDPB), as well as advice for necessary improvement.
- Other data and information related with the the results of controlling, monitoring, and evaluation of activities.

KKP Work Program and Realization in 2014

1. To recommend some credit policies, namely:
 - Joint Facility (Multi Borrower)
 - Environmental Impact Assessment (AMDAL)
 - Clean Loan, as a follow-up of audit of the Bank of Indonesia.
2. To review the authority of Board of Directors and Board of Commissioners in deciding on loans.
3. To prepare the Accountability and Work Realization Report of the Credit Policy Committee and submit it to the Board of Directors with copies to the Board of Commissioners.

4. Credit Committee

The mission of the Credit Committee (KK) is to assist the Board of Directors in making loan evaluations and/or loan approval decisions within the authorized limits set by the Board of Directors as stipulated in the Company's Articles of Association with regards to BCA's business development without abandoning the prudence principles.

Main Functions of the Credit Committee

- To provide credit guidance and to conduct a more intensive and comprehensive credit analysis when necessary.
- To provide decisions or recommendations on credit approval proposals submitted by the referral/propose associated with:

- Large Loans
 - Specific Industries, and
 - Special requests from the Board of Directors.
- To coordinate with the Asset & Liability Committee (ALCO) on funding and adjustments of interest rates for corporate loans.

Levels of Credit Committee

In the implementation of its activities, the Credit Committee (KK) is arranged by loan category, namely:

1. Corporation Credit Committee.
2. Commercial Credit Committee.

Credit Committee Authority

The authority of the Credit Committee includes making credit decisions or providing recommendations for the draft of credit decisions, by referring to the provision concerning the Authority to Terminate Credit as contained in the Corporate Credit Policy Manual and Commercial Credit Policy Manual.

The following is the scope of authority vested in the Credit Committee:

- In terms of the magnitude of authority:

The Credit Committee has the authority to terminate credit in accordance with the authorized maximum amounts specified for each type of borrower.
- In terms of the object of credit decisions:
 - Giving credit decisions for corporate and commercial categories above a certain value.
 - Providing a decision on proposed credit facilities.
 - Determining the take over/purchase of loans that have or have not been restructured from other financial institutions.

Main Duties of Credit Committee Members

- To provide direction for more comprehensive credit analysis of a specific credit when necessary, should information presented be insufficient for decision-making.
- To give consideration to draft decisions, proposals and recommendations submitted by the provider of recommendation/proposer.
- To decide on credit based on professional skills in an honest, objective, accurate, and thorough fashion.
- To provide input to the Credit Committee Secretary regarding the meeting needs.

Credit Committee Meetings

The following are several provisions on Credit Committee Meetings:

- Credit Committee Meetings are held as necessary with at least 6 (six) meetings per year.
- Meetings can be held and declared as legitimate if attended by at least 3 (three) Permanent Members.
- Meetings can be conducted through teleconference.
- For the Corporate Credit Committee, the Compliance Director or his alternate shall attend every Credit Committee meeting.
- Commercial Credit Committee meetings can be done both at the Head Office and Regional Offices.
- Details of each Credit Committee meeting must be noted in minutes of meetings.

Decision Making

The following are provisions on decision making:

- Decision making on credit can be made via the approval for the draft decision, which is circulated in writing or approval confirmation via email (memo circulation) to the members of the Committee or through Credit Committee meetings. If a circulated draft decision is not approved by one member of the Committee, then the Secretary has to schedule a Credit Committee meeting immediately.
- For Corporation Credit Committee, if the credit decision that was taken at a Credit Committee meeting has not complied with

the authority of the Board of Directors in a loan approval; therefore, the draft decision is circulated to seek credit approval from other Directors and/or Board of Commissioners.

- Monitoring and Resource Persons do not have voting rights in credit decisions.

Accountability of Credit Committee

Accountability of Credit Committee can be delivered through the minutes of Credit Committee meetings, circulated decision memoranda, and periodic Credit Committee reports.

	• Head of Internal Audit Division	No Voting Rights

^{*)} GSIT only has 1 (one) voting right represented by the EVP IT

^{**)} Participation in meetings depends on the meeting topics relevant to the work units concerned

Authority and Responsibility of KPTI

KPTI has the authority and responsibility as follows:

- To provide recommendations to the Board of Directors for the IT strategic plan in line with BCA's business activities and strategic plan.
- To review and make recommendations on the feasibility of IT investments that will contribute to the achievement of BCA's business objectives.
- To review and recommend strategic steps to minimize the risk of BCA's investments in IT sector.
- To review and provide recommendations on major IT policies and procedures.

KPTI Meetings

The following are several provisions on KPTI Meetings:

- KPTI Meetings are conducted as necessary at least 4 (four) times a year.
- KPTI meetings can only be conducted if attended by at least 2/3 (two thirds) of the members with voting rights.

Decision Making

The following are provisions in decision making:

- Decision-making in relation to KPTI authority can only be made from decisions of legitimate KPTI meetings.

- Decisions of KPTI meetings are valid and binding if approved by at least 1/2 (half) plus 1 (one) of the members with voting rights present.

Accountability/Work Realization Reporting

The work realization of KPTI is reported through minutes of KPTI meetings, with the provision as follows:

- Results of KPTI meetings must be written in minutes of meetings and well documented.
- Minutes of meetings are prepared by the Secretary of KPTI and signed by the Chairman of KPTI.

Work Programs in 2014

- To provide recommendations to the Board of Directors regarding the IT strategic plan.
- To monitor the performance of Information Technology and its improvement efforts.
- To evaluate and monitor the application of IT in accordance with the business requirements of BCA.
- To ensure that IT investments deliver optimal investment value.
- To ensure the effectiveness of risk minimization on BCA IT investments.

Realization of Work in 2014

- To evaluate and monitor the implementation of strategic information technology (IT) projects as aligned with BCA business development and strategic corporate objectives.
- To evaluate the implementation of process and technology in IT project development.
- To monitor the use of the IT budget in 2014.
- To evaluate initiatives to support IT Cost Efficiency.
- To monitor and evaluate the IT human resource allocation in contributing to IT project implementation.
- To evaluate and approve the strategies of recruitment and regeneration of IT human resources.
- To assess and monitor the strategic steps to minimize the risk of IT investments.
- To review the methodology to support IT Agility in IT application and system development.

6. Personnel Case Advisory Committee

Personnel Case Advisory Committee (KPKK) was established with the mission to provide recommendations to the Board of Directors regarding the settlement of personnel cases based on the principles of justice and equality by analyzing cases of violations of policy and/or possible illegal activity undertaken by employees.

Main Functions of KPKK

- To review cases of violations and/or crimes committed by employees which require decision by the Board of Directors for follow-up settlement.
- To give consideration to the Board of Directors in determining follow-up settlement of cases of violations and/or crimes, which include the imposition of sanctions, revamping operational procedures and systems and processing legal cases if necessary.
- To periodically review the settlement of violations and/or crimes that were implemented by the Heads of Branch Offices and Regional Offices.
- To provide advice and guidance (if necessary) to branches and regions in handling cases of violations and/or crimes.

KPKK Authority

KPKK has the authority to make suggestions/recommendations to the Board of Directors concerning the settlement of violations and/or crimes committed by employees.

Membership and Voting Right of KPKK

Position	Filled By	Voting Rights Status
Chairman (concurrently as Member)	Head of Human Capital Management	Reserve Voting Rights
Permanent Members	<ul style="list-style-type: none"> • Head of Internal Audit Division • Head of Legal Group • Head of Operation Strategy & Development Division 	
Non Permanent Members	Head of Network Management Unit and Regional Planning	
Secretary	Head of Sub – Division of Audit Branch	No Voting Rights

Main Duties of KPKK

KPKK members have voting rights, with the main tasks of providing analysis and consideration at meetings in order to formulate suggestions/recommendations in regard with:

- Imposition of sanctions;
- Improving systems and operational procedures;
- Processing of legal cases.

KPKK members who are unable to attend the meeting can be represented by other officials (with a level equal to the Deputy Head or Division Head) appointed by the member concerned.

KPKK Meetings

The following are several provisions of KPKK Meetings:

- KPKK meetings are held as necessary.
- Voting rights are held by members.
- KPKK meetings are legitimate if attended by at least 2/3 (two thirds) of the number of members.

Decision Making

The following are several provisions of KPKK meetings and decision making:

- Decision-making in relation to the use of authority of the Committee can only be taken for decisions from legitimate KPKK meetings.
- Decisions of KPKK meetings can be in form of:
 - A recommendation to the Board of Directors agreed upon by all members, or
 - More than one recommendation (if consensus is not reached).

Accountability/Work Realization Reporting

Realization of KPKK work reported through:

- Minutes of KPKK regular meetings.
- Minutes of KPKK special meetings held to discuss specific issues.

Frequency and Attendance of the Board of Directors and Other KPKK Members in the 2014 KPKK Meetings

During 2014, KPKK conducted 4 (four) meetings and meeting attendance rate reached quorum. The Chairman and members of KPKK are Executive Officers under the Board of Directors.

The following is KPKK's member attendance in 2014

Name	Number of Meetings	Attendance	Percentage
Head of Human Capital Management Division *	4	4	100%
Head of Internal Audit Division	4	4	100%
Head of Legal Group	4	4	100%
Head of Operation Strategy & Development Division	4	3	75%
Head of Network Management Unit and Regional Planning	4	2	50%

* = Chairman

Realization of KPKK Work Programs in 2014

Throughout 2014, KPKK held 4 (four) meetings. Realization of the KPKK work program provided input in the form of information, analysis and judgment to make recommendations to the Board of Directors on several offenses committed by

employees that required the Board's decision for follow-up settlement, including the imposition of sanctions and/or improvement of systems and operational procedures and/or processing of legal cases.

CORPORATE SECRETARY

The main responsibilities of the Corporate Secretary are to maintain the image and protect the interests of BCA by building communications and good relationships with the stakeholders, as well as to support the Board of Directors and Board of Commissioners in the management of the Company.

Position and Officer of Corporate Secretary

The Corporate Secretary is appointed by the Board of Directors and is responsible to the President Director. The position of the Corporate Secretary is equal to a Division Head.

Currently, Inge Setiawati occupies the position as Corporate Secretary and has served since August 1, 2011 according to the Decision of the Board of Directors 1289/SK/DHR/A/2011 dated August 1, 2011.

A history of education, occupation and work experience of the Corporate Secretary can be viewed on the **Corporate Data** section, page 516 of this Annual Report.

Duties and Responsibilities of Corporate Secretary

Duties and Responsibilities of the Corporate Secretary, among others, are as follows:

- Represent the Board of Directors in conjunction with both public and private agencies/institutions.
- Monitor compliance of BCA to the provisions of the laws and regulations applicable in the field of Capital Markets and the Stock Exchange.
- Support the implementation and enforcement of Good Corporate Governance in BCA.
- Manage and develop BCA's positive image through the development of internal and external relationships through public relations activities.
- Support adherence by the Board of Directors and Board of Commissioners to the Articles

of Association and other regulations, among others the implementation of corporate actions.

- Monitor the activities of the corporate secretariat and protocol and correspondence relating to the Board of Directors and Board of Commissioners.
- Manage and monitor the implementation of corporate social responsibility (CSR), social awareness programs as well as BCA corporate sponsorship as efforts to provide guidance to stakeholders.
- Establish communication and good working relationships with internal and external parties and business partners.
- Oversee the development of regulations related to capital markets, good corporate governance and banking.
- Organize the GMS, corporate actions and public exposes (along with Investor Relations).
- Coordinate with related internal work units and external parties/agencies in an effort to facilitate corporate activities and increase the effectiveness of work procedures related to the activities of the Board of Directors, the Board of Commissioners, and Board of Commissioners Committees.
- Coordinate/monitor activities related to the receipt and delivery of corporate information as well as the implementation of Board of Directors and Board of Commissioners meetings.
- Provide services to stakeholders for information needed regarding the condition of BCA.
- Liaise between BCA and the Financial Services Authority, Indonesia Stock Exchange, other capital market authorities, and communities.
- Perform activities that support the implementation of transparency, especially regarding the performance of BCA through communication with related parties.

Brief Description of the Duties of Corporate Secretary in 2014

During 2014, the Corporate Secretary conducted the following activities:

1. Organized the Annual General Meeting of Shareholders 2014.
2. Conducted Self Assessments on the GCG Implementation in the First Half and Second Half of 2014.
3. Prepared GCG Implementation Report 2013.
4. Prepared Corporate Governance and Corporate Social Responsibility contained in the 2013 Annual Report.
5. Customized the implementation of corporate governance in accordance with the provisions of the ASEAN Corporate Governance Scorecard.
6. Organized BCA's 57th anniversary celebration in February 2014 involving athletes and employee athletes from various branches of BCA in Jakarta, Bogor, Depok, Tangerang, and Bekasi Region.
7. Carried out Public Expose (along with Investor Relations).
8. Organized quarterly Press Conferences & Analyst Meetings.
9. Organized National Meetings (along with other work units).
10. Developed and implemented the program of corporate social responsibility activities
11. Developed press releases related to BCA's performance and development.
12. Developed BCA corporate communications materials such as publications of BCA financial statements through the mass media, advertising in holidays, and others.
13. Developed and implemented BCA sponsorship activities in line with the policies of BCA.
14. Organized, developed and implemented several internal employee and customer relations events.
15. Developed means of communication and internal events, such as BCA birthday celebrations, BCA retired employees gathering, gatherings in the commemoration of Idul Fitri, Christmas and New Year.

Training Programs to Develop the Competence of Corporate Secretary

The Corporate Secretary attended the following training programs:

- WIKASATRIAN.
- ASEAN Global Leadership Development Program.
- Smart Solution CRS.
- In house Training ASEAN CG Scorecard.
- Overview of Law No. 21 year 2011 on the Financial Services Authority and Corporate Actions.
- Workshop on the Preparation of Annual Reports.
- "2nd The Real Corporate Social Responsibility" Seminar.

INVESTOR RELATIONS FUNCTION

The main task of Investor Relations is representing the Board of Directors in relation with investors, capital markets, and shareholders, including to:

1. Formulate communication strategies specifically to investors, potential investors, analysts, fund-managers, and the capital markets in general.
2. Prepare materials and conduct road shows, analyst meetings, and conference calls.
3. Communicate various aspects related to BCA shares, performance and Financial Statements to parties such as fund-managers, investors, and potential investors.
4. Manage the relationships with the fund-managers, experts, and economists (especially in the stock market).
5. Periodically monitor and report the results of analysis on the performance and stock price of BCA.
6. Coordinate the preparation, publication and distribution of the Annual Report to investors/ analysts.
7. Provide data and financial information about BCA to investors and the capital markets.

 **) Including 4 conferences in Jakarta in 2014 and 5 conferences in 2013

Investors/analysts conducting visits & calls: 457 people, with the composition based on the country of origin:

Note: *) Others come from: Malaysia, Japan, China, India, Thailand, Taiwan, Australia and United Arab Emirates

The Frequency of Monthly Investor Relations Activities in 2014

INTERNAL AUDIT DIVISION

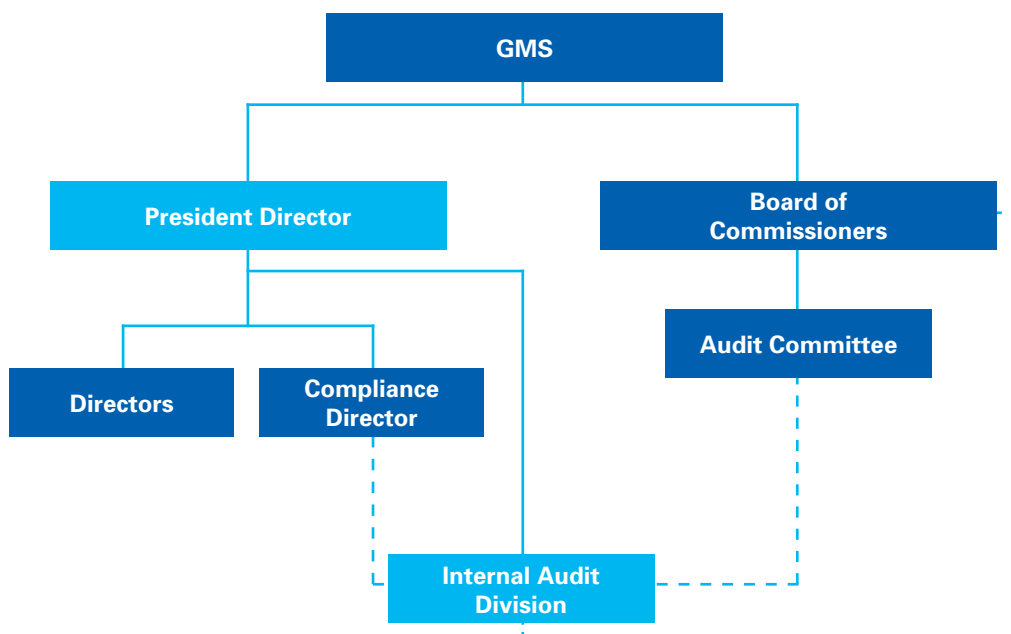

The Internal Audit Division was established to generate value and improve the operations of BCA through independent and objective evaluation of various aspect, of the operation of the Bank and consulting activities.

In performing its function, the Internal Audit Division evaluates the adequacy and effectiveness of risk management, internal control, and governance processes, and provides consulting services to BCA internal parties in need.

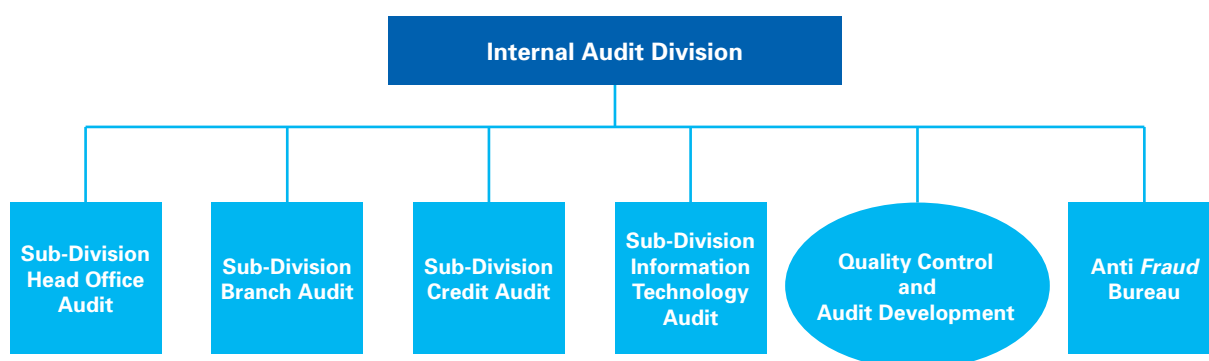

Structure and Position of Internal Audit Division

The Head of the Internal Audit Division is responsible to the President Director. Currently, the position of Internal Audit Division Head is occupied by Jacobus Sindu Adisuwono, as of November 1, 2008 as stated by the Decision of Employee Appointment No. 1390/SK/DHR/A/2008 dated October 24, 2008 signed by the President Director and has been approved by the Board of Commissioners. He has strong experience in the field of internal audit and has obtained certifications in the internal audit profession, namely the Certified Internal Auditor (CIA) and Qualified Internal Auditor (QIA).

The Position of Internal Audit Division in BCA's Organizational Structure

Internal Audit Division Organization Chart

Duties and Responsibilities of the Internal Audit Division

1. Develop and implement a risk-based annual audit plan and report the realization of the plan.
2. Test and evaluate the risk management, internal control, and governance to assess its adequacy and effectiveness.
3. Carry out credit quality assessment.
4. Provide recommendations for improvements and objective information on the activities examined.
5. Carry out special investigations/ examinations upon request of the Board of Commissioners, Audit Committee, Board of Directors, work units or based on specific indications.
6. Monitor, analyze and report the implementation of follow-up by auditors based on the audit result recommendations.
7. Act as a consultant for BCA internal parties, especially concerning the internal audit scope of duties.
8. Compile a program to evaluate the quality of internal audit activities.

Implementation Standards

Activities of the Internal Audit Division are guided by the Internal Audit Division Work Manual and the Internal Audit Charter as set forth in Directors Decision No. 074A/SK/DIR/2012 dated April 30, 2012 which was prepared in accordance with the Standard Implementation of Internal Audit for Banks issued by Bank Indonesia and regulations on the Preparation and Formulation Guidelines of the Internal Audit Charter by Bapepam-LK. As a reference towards global best practices, the Internal Audit Division also uses the standards and the code of ethics issued by the Institute of Internal Auditors (IIA) as well as the Information System Audit & Control Association (ISACA).

The effectiveness of the Internal Audit Division and its compliance with Internal Audit Function Implementation Standards in Banking (SPFAIB) is reviewed by an independent external party at least once every 3 (three) years. The most recent review was undertaken at the end of 2013.

Scope

The scope of internal audit covers all the activities of the Branch Offices, Regional Offices, Divisions, Units and Head Office Business Units, Subsidiaries and BCA activities that are outsourced to third parties.

Independence

Internal Audit is independent from the operational work units. The Internal Audit Division Head reports directly to the President Director and can directly communicate with the Board of Commissioners and the Audit Committee. Internal Audit holds meetings with the President Director and Audit Committee every two months and with the Board of Commissioners every semester.

Appointment, replacement, or dismissal of the Head of Internal Audit Division is conducted by the President Director with the approval of the Board of Commissioners and is reported to the Financial Services Authority.

Number of Auditors in the Internal Audit Division

The Internal Audit Division is supported by 182 auditors (position as of December 31, 2014) with structure, experience, and diverse professional certification, as follows:

Position within the Bank:

• Head of Division	1 person
• Deputy Head of Division	3 persons
• Audit Adviser	18 persons
• Senior Audit Officer	30 persons
• Audit Officer	43 persons
• Associate Audit Officer	70 persons
• Assistant Audit Officer	15 persons
• Senior Staff	2 persons

Experience:

• 0 to < 3 years	50 persons
• 3 to < 9 years	58 persons
• 9 to < 15 years	25 persons
• ≥ 15 years	49 persons

Professional Certification:

1. Certified Internal Auditor	1 person
2. Certified Information System Auditor	4 persons
3. Certified Fraud Examiner	3 persons
4. Qualified Internal Auditor	41 persons
5. Certified Risk Management	74 persons

Reporting

The Internal Audit Division submits reports to:

- Board of Commissioners, the Audit Committee and Board of Directors consisting of:
 - Audit Report
 - Summary Report of the Audit Follow-up
 - Report of Audit Realization
- The Financial Services Authority concerning the implementation of the Internal Audit function which consists of:
 - Report on the Implementation and the Fundamentals of Internal Audit
 - Special reports on any findings of Internal Audit that may impact the business of the Bank.

- c. Reports on external party's reviews, including opinions about the work of the Internal Audit Division and its adherence to the SPFAIB.

Activities of the Internal Audit Division in 2014

Internal Audit Division activities in 2014 focused on the following:

1. Renewed the Strategic Audit Plan 2015-2017 based on the Bank's Business Plan 2015-2017 and the expectations of the Board of Commissioners, Audit Committee and the Board of Directors.
2. Performed audits of the Branch Offices, Regional Offices, Divisions/Working Units at the head office and the subsidiaries based on the results of risk assessments.
3. Performed thematic audits on the implementation of Anti-Money Laundering – Prevention of Terrorism Financing and Corporate Social Responsibility.
4. Performed audits on the implementation of Internal Capital Adequacy Assessment Process (ICAAP), and the application of Card-Based Payment Instrument (APMK), in accordance to Bank Indonesia regulations.
5. Performed audits on outsourced activities, especially activities that support banking transactions, such as the management of ATM and EDC machines.
6. Performed audits on the core application, namely Deposit and Loan System.
7. Improved the effectiveness of methodology through the development and implementation of continuous auditing to support the role of audit as an early warning system.

Audit Plan Focus in 2015

1. The 2015 Audit will focus on:
 - IT Governance, in line with the increasing complexity of information technology applied.
 - Electronic channels, along with the increasing volume of transactions through e-channels.
 - Management of outsourcing, in connection with the increasing number of outsourced activities.

- The process of SME, commercial, and corporate loans, to maintain good credit quality.
2. Carry out audits in Branch Offices, Regional Offices, Head Office Division/Working Units and Subsidiaries determined based on the results of risk assessments.
 3. Develop Audit Management System to improve the efficiency and effectiveness of the internal audit management.
 4. Develop and implement continuous auditing to support the audit's role as an early warning system.

PUBLIC ACCOUNTANT (EXTERNAL AUDIT)

In order to fulfill the implementation of External Audit functions in accordance with Bank Indonesia Regulation No. 14/14/PBI/2012 on Transparency and Publications of Bank Reports and Bank Indonesia Circular Letter No. 3/32/DPNP regarding the Relationship between Banks, the Office of Public Accountant and Bank Indonesia, BCA has implemented the following:

1. BCA Financial Statements have been audited by an independent, competent, professional, and objective Certified Public Accountant, who uses professional skills carefully and thoroughly (due professional care).
2. The Public Accountant appointed by BCA has conducted audits in accordance with professional standards, employment agreements, and the scope of the audit.
3. Based on the decision of the Annual General Meeting, the appointment of Public Accountant and the determination of fee have been conducted by the Board of Commissioners with consideration on the recommendation from the Audit Committee.
4. The appointment of the Public Accountant Firm has been conducted according to the applicable provisions, among others:
 - Is a Public Accountant Firm and Public Accountant (partner-in-charge) registered in the Financial Service Authority/Bank Indonesia. BCA only considers the 4 (four) largest Public

Accountant Firms registered in the Financial Service Authority/ Bank Indonesia.

- The Public Accountant Firm will not provide other services to BCA during the year in order to avoid the possibility of conflict of interest.
- The Public Accountant Firm provides audit services for no more than 5 (five) years in a row.

The Public Accountant Firm Siddharta & Widjaja, affiliated with KPMG International, was appointed as the

auditor of BCA to audit its financial statements for the fiscal year ending December 31, 2014, with an estimated fee of USD 510,000 (excluding VAT).

5. BCA grants power to the Public Accountant Firm to submit audited financial statements (audit report) accompanied by a Management Letter to Bank Indonesia no later than 4 (four) months after the fiscal year.

Public Accountant firms and Certified Public Accountants who have audited the financial statements of BCA

	2014	2013	2012
Public Accountant Firm	Siddharta & Widjaja (now Siddharta Widjaja & Rekan)	Siddharta & Widjaja	Siddharta & Widjaja
Public Accountant	Elisabeth Imelda	Elisabeth Imelda	Elisabeth Imelda

COMPLIANCE FUNCTION

Given that the Bank is in an industry regulated and closely monitored, as well as the increasing complexity of the banking business, major impacts from risk exposure are faced by banks, one of which is compliance risk. To manage and mitigate compliance risk, BCA has appointed one of the members of the Board of Directors as the Director in charge of the compliance function. The Compliance Unit has been formed to assist the Director in charge of the compliance function.

The position of the Compliance Unit is equivalent to Divisions within the Head Office and is directly responsible to the Director in charge of the compliance function. The Compliance Unit is independent and free from the influence of other working units, as well as having direct access to the Director in charge of the compliance function. The Compliance Unit is responsible for the implementation of the compliance function as well as function as well for the implementation

of provisions related to Anti-Money Laundering and Combating the Financing of Terrorism.

In order to ensure the implementation of the compliance function of BCA, the Board of Commissioners and Board of Directors conduct active monitoring of compliance. The active monitoring is conducted in the form of, among others, approval of policies and procedures, periodic reporting, demand of explanations, and meetings.

Compliance Activities during 2014

- Undertook measures to encourage the creation of Compliance Culture, among others:
 - o Conducted socialization of regulations;
 - o Implemented consultative functions related to the implementation of the applicable regulations;
 - o Provided information on OJK and Bank Indonesia regulations, as well as other laws in the BCA portal site that can be accessed by employees;

- o Ensured the adjustment of internal regulations with the applicable regulations.
- Performed gap analysis and the impact of new provisions to the operations of BCA and the adjustment of manual as well as necessary internal policies and procedures.
- Performed compliance risk assessment and prepared quarterly compliance risk profile reports in order to minimize compliance risk.
- Conducted review and provide opinion on new products and activities plan to ensure that the new products and activities that will be produced in accordance with the applicable regulations.
- Approved the draft of internal regulations to be published.
- Assessed the compliance of corporate credit release.
- Tested the compliance of the implementation of the provisions in the branch offices, in cooperation with the Branch Internal Supervisor.
- Followed-up BCA's commitment to the OJK, Bank Indonesia and other regulators.
- Performed coordination in order to assess the Risk-based Bank Health Level.

Activities Related to the Application of Anti-Money Laundering and Prevention of Terrorism Financing (APU and PPT)

- Updated the Manual of Credit Card provisions related AML and PTF.
- Conducted review on the new products and activities plan to ensure compliance to the AML and PTF regulations.
- Monitored suspicious financial transactions using the Suspicious Transaction Identification Model (STIM) application.
- Reported suspicious financial transactions, cash transactions and financial transactions abroad to the Center of Financial Transaction Reports and Analysis Center (PPATK).
- Coordinated the implementation of customer data updating through the formulation of target and monitoring of the realization of the target.
- Completed the system to filter money transfer transactions which is part of the upgrading of the STIM application.
- Renewed OFAC List and UN List as terrorist database to filter customers and transactions.
- Conducted training and socialization of AML and PTF on an ongoing basis.
- Developed e-learning materials on the application of AML and PTF.
- Published a comic book on AML and PTF distributed to all branch offices as part of an effort to socialize.
- Tested the compliance on the application of AML and PTF in the branch offices in cooperation with the Branch Internal Supervisors.

Indicators of Compliance

Compliance indicators in 2014 are reported as:

- Capital Adequacy Ratio (CAR) including credit risk, market risk and operational risk was 16.88%, above the prevailing Bank Indonesia regulation of a minimum CAR of between 9% and less than 10% (CAR based on BCA's risk profile which is ranked as 2).
- NPL ratio (net) of 0.22%, well below the maximum allowed by Bank Indonesia regulation of 5%.
- The Bank did not exceed nor violate the Legal Lending Limit (LLL), either to related parties or to business groups.
- Accounted for Rupiah Account Mandatory Minimum (GWM) primary reserve of 8.36% and Secondary reserves of 20.74%, in conformity with the provisions of the Bank regarding primary Rupiah reserves.
- Foreign Currency Account Mandatory Minimum reserve of (GWM) 8.60%, in conformity with the provisions for a Foreign Exchange Bank for required reserve levels.
- Net Open Position (NOP) at 0.55%, within the Bank Indonesia regulation of 20% of capital.
- All commitments to the Financial Services Authority, Bank Indonesia and other supervising authorities were well fulfilled.

IMPLEMENTATION OF RISK MANAGEMENT

The Board of Commissioners and Board of Directors are responsible for the implementation of risk management and internal control systems in BCA. Application of risk management and internal control systems BCA include:

- Active supervision by the Board of Commissioners and the Board of Directors.
- Adequacy of policies, procedures and limits.
- Adequacy of the process of identification, measurement, monitoring and control of risk and the risk management information system.
- The system of internal controls.

BCA implements risk management and internal control systems which are effectively tailored to the goals and policies of the business, the size and complexity of the business activities of the Bank in accordance to the regulations of Bank Indonesia, the Financial Services Authority and with reference to best practices through the following actions:

1. Identifying and controlling all risks including those arising from new products or activities.
2. Establishing a Risk Oversight Committee tasked to ensure that the risk management framework provides adequate protection against all risks faced by BCA. The Risk Oversight Committee's main duty is to provide advice and professional opinion independently regarding the appropriateness of the policy and the implementation of the risk management policies to the Board of Commissioners, as well as monitor and evaluate the implementation by the Risk Management Committee (KMR) and the Risk Management Unit (SKMR).
3. Establishing the Risk Management Committee (KMR) with the main duty to develop policies, strategies and guidelines for risk management, to enhance the implementation of risk management based on the results of the evaluation of the implementation of effective risk management process and system while implementing on matters related to business decisions that deviate from normal procedures (irregularities).
4. Establishing the Risk Management Unit (SKMR) designed to ensure that the risks faced by BCA can be identified, measured, monitored, controlled, and properly reported through the appropriate application of the risk management framework.
5. Managing risks and ensuring the provision of policies and the establishment of risk limits that are supported by procedures, reports, and information systems to provide accurate and timely information and analysis to management, including the development of measures to deal with changes in market conditions.
6. Ensuring that work systems and procedures have been developed with consideration to operations and business as well as the level of risk that may exist in a respective work unit.
7. Ensuring that an internal control system has been applied properly according to the applicable provisions.
8. Monitoring BCA's conformity with sound banking principles according to the applicable regulations through the Compliance Unit.

9. Preparing quarterly Risk Profile and the Consolidated Risk Profile Reports and submitting these to the Financial Services Authority in a timely manner.

Based on the results of the assessment of BCA's risk profile, the composite risk of BCA is Low to Moderate, the result of the inherent risk assessment is Low to Moderate and quality of risk management is Satisfactory.

Implementation of Risk Management and Internal Control

Based on the results of the assessment of BCA's risk profile, BCA has a risk composite level of Low to Moderate. This result was achieved due to the implementation of a risk management that supports the effectiveness of Bank-wide risk-based supervision framework.

The assessment includes a review of the 8 (eight) major risks faced by BCA: credit risk, market risk, liquidity risk, operational risk, legal risk, reputation risk, strategic risk and compliance risk. BCA also has written policies and procedures to manage the risks inherent in the new products and new activities of BCA.

Risk Management System

In order to control risk, the Bank has implemented an integrated Risk Management Framework set forth in the Basic Policy on Risk Management (KDMR). The framework is used as an instrument for the determination of strategy, organization, policies and guidelines, as well as BCA's infrastructure to ensure that all risks faced by the Bank can be identified, measured, controlled and reported.

In order for the application of risk management to be carried out effectively and optimally, BCA has a Risk Management Committee that works to address issues of risk faced by the Bank as a whole and recommend risk management policies to the Board of Directors.

In addition to the above Committee, BCA has formed several other committees assigned to deal with specific risks, namely the Credit Policy Committee, the Credit Committee and the Asset and Liability Committee (ALCO).

BCA continues to do a thorough risk assessment on the proposed issuance of new products and activities according to the type of risk and as detailed in PBI No. 5/8/PBI/2003 dated May 19, 2003 and its amendments, among others, PBI No. 11/25/PBI/2009 dated July 1, 2009 and the SEBI No. 11/35/DPNP dated December 31, 2009.

The Types of Risk Managed by BCA consist of 8 (eight) as follows:

1. Credit Risk

- Organization of credit continues to be refined based on the application of the "four eyes principle" whereby credit decisions are taken based on the consideration of both the business development and the credit risk analysis.
- BCA has developed a Basic Bank Credit Policy (KDPB) that is continually refined in line with BCA's growth, Bank Indonesia Regulations, OJK Regulations and according to "International Best Practice".

- Refinement of credit risk management procedures and the system is conducted through the development of the “Loan Origination System” on loan processing (from start to finish) to allow an efficient and effective credit process. The development of a debtor risk profile measurement system continues to be improved in order to be applied as a whole, while the development of a credit database continues to be conducted and refined.
- To properly maintain credit quality, credit quality monitoring continues to be conducted on a regular basis, either by credit category (Corporate, Commercial, Small & Medium Enterprise (SME), Consumer and Credit Card) or on an overall loan portfolio basis.
- BCA has developed a credit risk management system by conducting a stress-testing analysis on the credit portfolio and monitoring the result. As a response to changing market conditions and economic volatility, it conducts the testing on a regular basis. Stress testing is beneficial to the Bank as a tool for estimating the impact of risk in “stressful conditions” so that the Bank can make appropriate strategies mitigating these risks as part of the implementation of the “contingency plan”.
- In order to monitor and control credit risk that may occur in subsidiaries, BCA conducts monitoring of subsidiary credit risk on a regular basis, while ensuring that subsidiaries have sound and effective Credit Risk Management policies.

2. Market Risk

- In managing foreign exchange risk, BCA centralizes the management of its net open position through the Treasury Division, which combines daily reports of net open positions from all branches. Each branch is required to cover their total foreign exchange risk at the end of each working day, although there is a maximum net open position limit for each branch depending on the volume of foreign exchange activity in the transacting branch. BCA creates a daily net open position report that combines the net open positions in the consolidated financial position statement and the administrative account (off-balance sheet accounts).
- To measure foreign exchange risk, BCA uses the Value at Risk (VaR) methodology with Historical Simulation approach for internal reporting purposes, while to report BCA's compliance to the Minimum Capital Requirements the Bank uses Bank Indonesia's standard methodology.
- The main components of the Bank's liabilities that are sensitive to the movements of interest rates is customer deposits, while BCA's sensitive assets are government bonds, securities, and loans. ALCO regularly monitors market developments and adjusts interest rates on deposits and loans.
- BCA determines the interest rates on deposits based on market conditions and competition by monitoring the movement of the benchmark interest rate and the interest rates offered by other banks.

3. Liquidity Risk

- BCA attaches great importance on the maintenance of adequate liquidity to meet its commitments to its customers and other parties within the framework of the provision of credit, repayment of customer deposits, and in meeting operational liquidity needs. The function of managing the overall bank liquidity is conducted by ALCO and implemented operationally by the Treasury Division.
- Measurement and control of liquidity risk is conducted by monitoring the liquidity reserves and the Loan to Deposit Ratio (LDR), reviewing maturity profile analysis, preparing cash flow projections, and undertaking periodic stress tests to measure possible impact on the Bank's liquidity in extreme conditions. BCA also has a contingency funding plan to deal with extreme conditions.
- BCA has followed the provisions related to liquidity as stipulated in Bank Indonesia Regulation which requires the Bank to maintain Rupiah liquidity (Statutory Reserves) on a daily basis, which consists of Primary GWM, and LDR GWM in Rupiah deposits at Bank Indonesia as well as secondary reserves consisting of SBI, SDBI, SUN, and excess reserves, and foreign currency reserve in the form of foreign currency current accounts in Bank Indonesia.

4. Operational Risk

- The Basel II Accord requires a Bank to include operational risk as a component in the calculation of capital adequacy of a bank. In connection with this, BCA implemented Risk Control Self-Assessment (RCSA) in all branch/regional offices followed by divisions or work units with high risks in the Head Office. One goal of the implementation of RCSA is to embed risk culture (the culture to manage risk) and increase risk awareness, which is a main requirement in risk management.

- BCA maintains a database of cases/losses related to operational risk occurring in all of the working units known as the Loss Event Database (LED). The LED is one of the means to record operational losses which will be used by the Bank to calculate capital charge and to continuously monitor cases that may lead to operational losses.

The LED is also used by BCA to analyze cases or problems, so that corrective/prevention actions can be taken to minimize/mitigate operational risk losses that may occur in the Bank. BCA has implemented a Key Risk Indicator (KRI) identification system as an application used to provide indicators (early warning signs) on the possibility of an increased operational risk within a working unit.

- BCA has calculated the Bank's minimum capital requirement for operational risk based on the Basic Indicator Approach, in accordance with the regulations of Bank Indonesia in relation to the inclusion of operational risk in the calculation of risk capital adequacy ratio (CAR) in addition to credit risk and market risk.

5. Legal Risk

- Inherent legal risk is assessed based on the potential losses on court cases involving BCA and its subsidiaries, compared to BCA's capital and consolidated capital. The parameters used to calculate the potential losses of the cases in court proceedings are the basis of lawsuit (position case), the value of the case, and legal documentation.
- In order to identify, measure, monitor and control legal risks, the Bank has established a Legal Group at Headquarters and legal units in most of the Regional Offices.

- In order to mitigate legal risks, the Legal Group has taken the following measures to:
 - Establish Legal Risk Management Policy, having internal regulations which govern the organizational structure and the job description of the Legal Group as well as establishing legal document standardization.
 - Organize legal communication forum to improve the competence of the legal staff.
 - Conduct socialization on the impacts of prevailing regulations on the banking activities of BCA and various modus operandi of banking felony as well as the legal handling guidelines for related branch or working unit officers.
 - Conduct legal defense on civil and criminal cases that involve the Bank which are currently in court proceedings, as well as monitoring the progress of the cases.
 - Develop a loan security strategy (in collaboration with other work units, among others the Credit Settlement Bureau) in relation to issues of non-performing loans.
 - Register with the authorized institutions the assets belonging to BCA, among others, intellectual property (HAKI) on banking products and services as well as the rights on BCA's land and buildings.
 - Monitor and conduct legal actions for violations of BCA's assets including violations on BCA's intellectual property (HAKI).
 - Monitor and analyze cases in court proceedings faced by BCA and its Subsidiaries.
 - Conduct an inventory, monitoring, analysis, and calculate loss potentials which may arise related to the occurring legal cases.

6. Reputation Risk

- Assessment of reputation risk is performed using parameters such as frequency of complaints and negative publicity as well as the achievement of complaint resolution. The assessment is compiled in a quarterly report of reputation risk profile.
- To manage and control reputation risk, the Bank is supported by Halo BCA (24-hour telephone hotline service for information, suggestions, and complaints).
- Reputation Risk management is carried out based on:
 - Bank Indonesia Regulation No. 7/7/PBI/2005 dated January 20, 2005 on the Settlement of Customer Complaints as amended by Bank Indonesia Regulation No. 10/10/PBI/2008 dated February 28, 2008.
 - Bank Indonesia Circular Letter No. 7/24/DPNP dated July 18, 2005 concerning Settlement of Customer Complaints as amended by Bank Indonesia Circular Letter No. 10/13/DPNP dated March 6, 2008.
 - Bank Indonesia Regulation No. 8/5/PBI/ 2006 dated January 30, 2006 on Banking Mediation.
 - Bank Indonesia Regulation No. 16/1/PBI/2014 dated January 16, 2014 on Payment System Service Consumer Protection.
 - Regulation of the Financial Services Authority No. 1/POJK.07/ 2013 dated July 26, 2013 on Financial Services Sector Consumer Protection.

7. Strategic Risk

- Assessment of inherent strategic risk is performed using parameters such as the suitability between the strategy and the business environment, low-risk strategy versus high-risk strategy, the position of the Bank's business and the achievement of the Bank's Business Plan.
- Assessment of the quality of strategic risk management is conducted by using parameters such as risk governance, the risk management framework, risk management processes, MIS and human resources, as well as the adequacy of the risk control system.

8. Compliance Risk

- In accordance with the applicable Bank Indonesia provisions, BCA has appointed a member of the Board of Directors as the Director in charge of compliance. In the performance of duties, the Compliance Director is supported by the Compliance Unit which is responsible for managing BCA's compliance risk.
- BCA has developed compliance policies and procedures. These policies address the process of adjusting applicable internal system of rules and regulations and communicating relevant provisions to employees in line with new Bank Indonesia or OJK guidelines. The Bank also has implemented compliance guidelines for the reviews of new products/activities, periodic compliance testing and training of employees and the issuance of monthly compliance reports to the Board of Directors and Board of Commissioners.

- BCA has applied Bank Indonesia and international policies and regulations for Anti-Money Laundering and for Preventing the Financing of Terrorism. BCA has also developed applications to identify suspicious financial transactions in accordance with applicable regulations.

BCA's composite risk in the fourth quarter of 2014 was "Low to moderate", which was the result of an assessment of "Low to Moderate" inherent risk and the assessment of "Satisfactory" quality of risk management.

The composite risks of the 8 (eight) types of risk assessed are as follows:

- Risks with low composite risk are Market Risk, Liquidity Risk and Legal Risk.
- Risks with low to moderate composite risk are Credit Risk, Operational Risk, Reputation Risk, Strategic Risk and Compliance Risk.

BCA implemented effective and efficient risk management of its activities allowing the "low to moderate" composite risk level to be achieved.

The trend of inherent risks in the next quarter is to remain stable, since based on projection results, the Bank predicts that there will be no significant changes in inherent risks. The trend of the quality of risk management remains stable. These trends are attributable to the Bank's continuous improvement on the implementation of risk management in all of its activities so that the Bank is able to identify, measure, monitor, and control any existing risks.

INTERNAL CONTROL SYSTEM

BCA's internal control system includes 5 (five) components:

- Supervision by management and control culture.
- Identification and assessment of risk.
- Control activities and segregation of duties.
- Accounting, information, and communication systems.
- Monitoring and corrective actions against deviations from policy.

In addition, BCA has developed a business continuity plan and disaster recovery plan to speed up the recovery process in the event of a disaster and in order to have a backup system to prevent the failure of a high-risk venture.

All management and employees of BCA have a role and responsibility in improving the quality and implementation of the Bank's internal control system.

The parties involved and responsible for the implementation of the Bank's internal control system include the Board of Commissioners, the Audit Committee, the Board of Directors, the Internal Audit Division, officers and employees of BCA, Branch Internal Control, Regional Internal Control and Internal Control of Specified Work Unit at the Headquarters.

1. Internal control is implemented through:

a. **Financial Control**, where:

- BCA has established a Business Plan that details BCA's overall strategy, including business development direction.
- The development of a strategy has taken into account the impacts on the Bank's capital, including projected capital and the Bank's CAR (Capital Adequacy Ratio).
- Directors actively engage in discussions, providing input and monitoring internal conditions and external factors that directly or indirectly could affect the Bank's business strategy.

- BCA has implemented financial control through the monitoring of efforts on the realization compared with the financial budget in a report that is generated periodically and delivered in time of need for follow-up from the Board of Directors.

b. **Operational Control**, where:

- BCA has completed the standard operating procedures/ work manuals detailing the work procedures of each banking operation transaction conducted in BCA related to new products and new activities, including the mitigation of the related operational risk. The creation of work procedures was performed by Division of Operations and Service Development (DPOL) and has been reviewed by a variety of related work units to ensure that the operational risks that may exist in such activities have been mitigated.
- BCA imposed restrictions on the authority of officers through the establishment of limits in conducting transactions; and restrictions to the officers' access to IT and computer networks through use of user IDs and passwords as well as the installation finger scanners.
- BCA has established a good organizational structure, equipped with monitoring units/control to support the operational control as in:
 - o Separation of functions that can give rise to conflict of interest.

- o Supervisor functions to oversee the daily implementation of internal control at the Branches.
 - o PIC functions to periodically oversee the implementation of internal control at the Branches.
 - o PKIW functions to oversee the implementation of internal control at the regional offices.
 - o Internal control which functions to oversee the implementation of internal control in specific working units at the Head Office.
 - o Risk Management Unit (SKMR), Legal Group, Compliance Unit (SKK).
 - o DAI:
 - Independent from the risk taking unit.
 - Examines and assesses the adequacy/effectiveness of the system of internal control, risk management and corporate governance by performing an annual audit plan.
- c. **Compliance to other laws and regulations, where:**
- BCA has a strong commitment to comply with the prevailing rules and regulations and takes steps to rectify shortcomings, if any.
 - BCA has a Compliance Unit (SKK) that is independent from the operational units in carrying out compliance functions.
 - Monthly compliance monitoring of BCA's Precautionary Provisions submitted to the Board of Commissioners and Board of Directors.
- BCA's risk management strategy has the policy to always comply with the applicable regulations and take proactive preventive action to prevent (ex-ante) in order to minimize the occurrence of violations and curative action (ex-post) in order to repair shortcomings.
2. BCA has implemented an effective internal control system which is adjusted with the goals, business polices, size and complexity of the Bank's business activities and based on the requirements and procedures as set out by Bank Indonesia Regulation as well as with reference to best practice through the following actions:
- Determination of clear reporting lines and separation of functions between the operating units and work units carrying out control functions. Control functions are performed by the Risk Management Unit (SKMR), Law Group (GHK), Compliance Unit (SKK) and the Internal Audit Division (DAI).
 - The Internal Audit Division independently and objectively reviews BCA's procedures and operational activities periodically. The result of the review is presented in Audit Reports and Audit Follow-up Reports to the Board of Directors.
 - Branch Internal Oversight (PIC), Regional Office Internal Oversight (PIKW) and the Audit Division (DAI) have conducted evaluations on the implementation of the systems and procedures in BCA. The results of the evaluation from PIC, PIKW and DAI become the benchmark of compliance level of the working units to the system and procedures that have been established.

PREVENTION OF CORRUPTION

• ANTI FRAUD POLICY AND PROCEDURE

Anti fraud policy reflects BCA's management commitment in preventing fraud by implementing an effective and continuous fraud control system. The fraud control system will guide the Bank in preventing fraud from occurring, as well as detecting and investigating it.

Fraud is defined as any violation or neglect deliberately done to deceive, cheat, or manipulate the Bank, customers, or other parties that occur within the Bank and/or use the Bank facilities, which causes the Bank, customers, or other parties to suffer from loss, and/or the perpetrator of fraud to receive financial benefit either directly or indirectly.

Actions considered as fraud are:

1. Cheating;
2. False representation;
3. Misappropriation of assets;
4. Breach of confidentiality.

Background

Bank Indonesia Circular Letter No. 13/28/DPNP dated 9 December 2011 serves as a legal basis for implementing the anti fraud policy in BCA. The Circular Letter is meant to strengthen the Bank's internal control system and as a further implementation of Bank Indonesia Regulation (PBI) No.5/8/PBI/2003 dated 19 May 2003 concerning the Implementation of Risk Management for Commercial Bank.

According to the Circular Letter, the Bank must have an effective anti fraud strategy and implement it, at least fulfilling the minimum Bank standard. The Bank shall take into account the following matters:

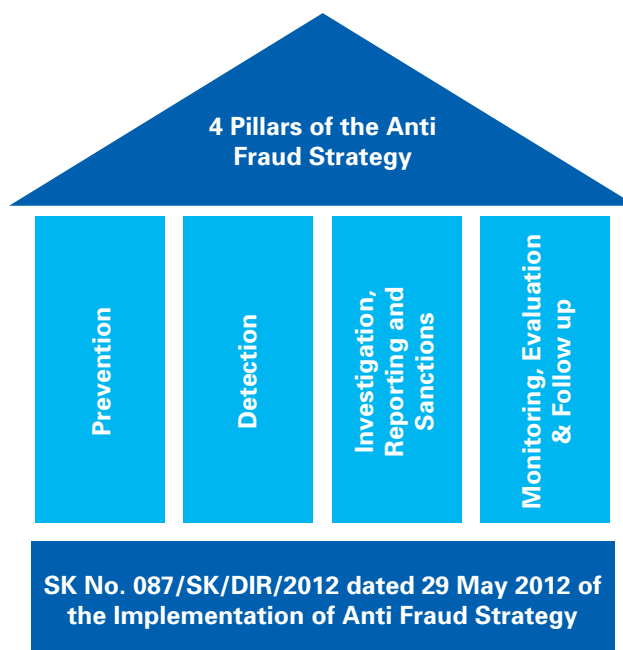

- a. internal and external conditions;
- b. business complexity;
- c. fraud potentiality, types, and risk; and
- d. adequacy of required resources.

Purpose

The purpose of anti fraud policy implementation in BCA is as follows:

- To foster an anti fraud culture at all levels of BCA organization.
- To increase awareness and concern toward fraud risk in the BCA's operations.
- As a reminder for the BCA's operations officers to comply with the prevailing procedures and provisions.

The 4 Pillars of the Anti Fraud Strategy

The anti fraud strategy, which is implemented as a fraud control system, has 4 (four) pillars, as follows:

1. **Prevention:** covers the tools to mitigate the potential fraud risk, which at least includes anti fraud awareness, identification of insecurity, and the know your employee policy.
2. **Detection:** covers the tools to identify and find fraudulent activities in Bank operations, which at least includes whistleblowing policy and mechanism, surprise audits, and surveillance system.
3. **Investigation, Reporting, and Sanctions:** covers the tools to dig up information, reporting system, and imposition of sanctions for fraud occurring in Bank operations, which includes at least an investigation standard, reporting mechanism, and imposition of sanctions.
4. **Monitoring, Evaluation, and Follow-up:** covers the tools to monitor and evaluate fraud occurrence and necessary follow-up based on evaluation, which at least covers monitoring and evaluation of fraud and follow-up mechanism.

Role of Work Units

The work units play a vital role in anti fraud strategy, as described below:

1. **Prevention**
 - a. To foster an anti fraud awareness to prevent fraud from happening.
 - b. To identify risk of fraud attached to each activity that potentially detrimental to the Bank.
 - c. To conduct various controlling efforts from Human Resources by recognizing and monitoring employees' character and behavior.
2. **Detection**
 - a. To conduct examination or check ups, unbeknownst to the examinee.
 - b. To conduct surprise audits to increase employees' awareness in performing their duties.
 - c. To disclose fraud through the whistleblowing facility.
3. **Investigation, Reporting, and Sanctions**
 - a. To collect evidence related to fraud.
 - b. To report fraud to management and Bank Indonesia.
 - c. To impose and implement sanctions to cause deterrent effect to any person considering committing fraud.

4. Monitoring, Evaluation, and Follow-Up
 - a. To monitor follow-up actions in response to fraud.
 - b. To perform evaluation on fraud in order to determine steps for improvement.
 - c. To take necessary actions based on the results of evaluation to prevent the recurrence of similar fraud.

Implementation of Anti Fraud Efforts

Anti fraud efforts are carried out among others through the following:

1. Employee Awareness Program
To increase employee awareness and alertness against the risk of fraud and to foster an anti-fraud culture within the Company through training/socialization at new employee education classes and coordination meetings as well as national or regional forums.
2. Identification of Insecurity
The Bank officials identify insecurity or fraud potentiality in the work unit under their responsibility.
3. Know Your Employee
To improve human resource policies related to the implementation of Know Your Employee starting from recruitment to existing employees in the work units.
4. Improvement of Supervision Effectiveness
Supervision processes are very important in preventing the occurrence of fraud. By having a good supervision, each fraud effort can be recognized and prevented.

• **WHISTLEBLOWING SYSTEM**

In order to improve the effectiveness of the fraud control system and Good Corporate Governance by emphasizing the disclosure of complaints (reporting), formulation of a clear, understandable, and effectively implemented whistleblowing system is needed. Having this will promote encouragement and awareness by BCA's employees and officials to report actions of fraud, or violation of law, Company regulations, code of ethics, or conflict of interest in BCA.

The whistleblowing system (reporting of violations) is a communication facility for internal parties in BCA to report actions/conducts/events that are related with fraudulent actions, violation of law, BCA's Mutual Work Agreement, code of ethics, BCA's other internal policy, and/or conflict of interest carried out by BCA's internal staff.

A complaint shall be based on a good intention and not represent a personal grievance.

Below are the definitions and provisions related to the whistleblowing system.

Fraud

Fraud is any act of deviation or negligence deliberately conducted to trick, deceive, or manipulate BCA, customers, or other parties, which occurs within BCA and/or utilizes BCA's properties that causes BCA, customers, or other parties to suffer losses and/or give the perpetrators of fraud financial benefit either directly or indirectly.

Types of actions that are classified as fraud:

- Cheating;
- Scamming;
- Manipulation of assets;
- Information leakage;
- Banking criminal acts and other related actions.

Conflict of Interest

Conflict of Interest is a condition in which a BCA official in performing his duties and responsibilities has an interest other than official interests, either in relation with personal interest, family, or other parties' interest. This condition may cause the BCA official to lose his objectivity in making a decision and not fulfill policy according to the authority given by BCA.

Purpose of the Whistleblowing System

- As a facility for the Whistleblower to report fraud actions, violation of law, BCA's Mutual Work Agreement, code of ethics, BCA's other internal policy, and/or conflict of interest, without fear or worry because confidentiality is guaranteed.
- To have early detection and prevention of fraud.

Complaint Facilities

Following are the facility and address that can be used by the Whistleblower to submit complaints.

FACILITY	ADDRESS
E-mail	bcabersih@bca.co.id
SMS	0818-0818-1909
Direct Call	021-2358-8008
VSAT – Extension	VSAT 89000 Extension 22888
Letter	PO BOX 1189, JKS 12011

Things to be Completed by the Whistleblower

To facilitate and expedite the follow-up process, following are the things that shall be completed by the Whistleblower in submitting their complaints.

1. To give information regarding the Whistleblower's personal identification to facilitate communication with the Whistleblower, including at least:
 - 1.1. Name of Whistleblower (may be anonymous);
 - 1.2. Phone number/email address that can be contacted.

2. Shall give early indication that can be accounted for (3W & 1H), which covers:
 - 2.1. Issues that are reported (What);
 - 2.2. Parties involved (Who);
 - 2.3. Time of occurrence (When);
 - 2.4. How it occurred (How).
3. The submitted report must be related with:
 - 3.1. Fraud;
 - 3.2. Violation of law;
 - 3.3. Violation of BCA's Mutual Work Agreement;
 - 3.4. Violation of Code of Ethics;
 - 3.5. Violation of BCA's other internal policies;
 - 3.6. Conflict of interest violation;
 - 3.7. Other similar things.

Protection for the Whistleblower

BCA will give protection to the Whistleblower provided that the report is proven true.

Protection for the whistleblower includes:

1. Guarantee of the confidentiality of identity of the Whistleblower and content of the submitted report;
2. Guarantee of protection from actions that may harm the Whistleblower;
3. Guarantee of protection from the possibility of threat, intimidation, punishment or inappropriate actions from the reported party.

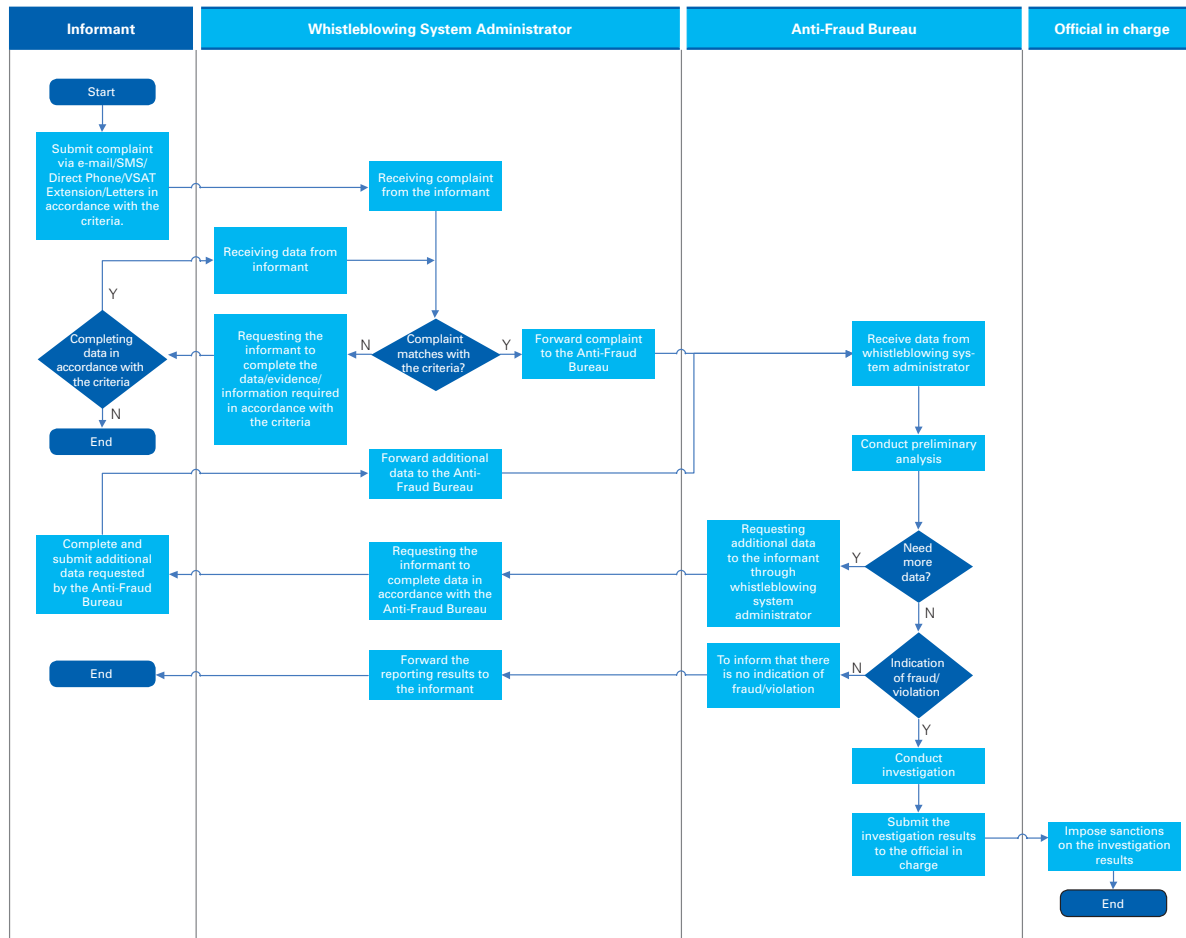

Handling Complaints

The internal team at BCA, which is determined by the management, will conduct follow-up of complaints thoroughly by referring to the provisions applicable in BCA and prevailing rules and regulations in Indonesia.

Provision of Sanctions

If the reported person is proven to have committed fraud/breach of trust, an authorized Bank officer shall impose sanctions in accordance with applicable regulations.

Processing Flow of Report Handling

Reporting Data

Recapitulation of incoming reports through the whistleblowing system is periodically submitted to the Board of Directors. As of December 31, 2014 there were 10 incoming complaints into the whistleblowing system with the following status:

Status	Total	Description
Open (in process)	2	Under investigation process
Closed (completed)	8	<ul style="list-style-type: none"> - Proven (1) - Not Proven (1) - Information/Complaints from Customers (4) - Incomplete data and the Reporter has not/could not provide additional information/data requested (2)

ANTI GRATUITY

The trust of the public and market participants in the Bank is strongly influenced by the ethical behavior of all levels within the BCA: the Board of Commissioners, Board of Directors, the management as well as all employees. This trust is very important to build and maintain business relationships with customers and other third parties associated with the BCA.

In practice, the potential for the occurrence of a more personal relationship is quite significant; thus, the business relationship that occurs becomes mixed with personal relationship, resulting in a potential conflict between the Company's interests and personal interests.

In connection with this, to increase public trust and support the implementation of the principles of good corporate governance, the Board of Directors of BCA deems it necessary to establish provisions regarding conflicts of interest, intended to guide Bank employees as individuals in their dealings with customers, partners, and with fellow workers.

The purpose of this provision is intended to provide guidelines on reasonable, appropriate and reliable behavior for all ranks within the BCA in building relationships with customers, partners and co-workers, and is not intended to interfere in the personal lives of the BCA employees.

The provision stipulates, among others:

- All ranks within the BCA are prohibited from asking or accepting, allowing or agreeing to accept a gift or remuneration from a third party who obtains or attempts to obtain facilities from BCA in the form of credit facilities or other facilities related to the operational activities of BCA.
- All ranks within BCA are prohibited from asking or accepting, allowing or agreeing to accept a gift or remuneration from a third party who obtains or attempts to obtain employment or orders related to the procurement of goods and services from BCA.
- In terms of customers, partners, and other parties, giving gifts at certain times, such as the celebration of Idul Fitri or other celebrations, is prohibited if:
 - Due to the receipt of the gift, a negative impact and influence on BCA decision will occur, or
 - The price of the parcel is beyond a reasonable limit.

Thus BCA employees who receive such a gift must immediately return the gift with polite explanation that all ranks within the Bank are not allowed to accept gifts.

With regard to the above, and BCA's commitment in implementing good corporate governance, it is required:

1. All ranks within the Bank must know, understand and implement the provisions responsibly and without exceptions.
2. To support the implementation of the provisions, the Board of Commissioners, Directors and echelon 1 (S1) to the echelon 5 (S5) are required to make an annual statement containing all circumstances or situations that may lead to a conflict of interest.

Sanctions for Violations:

1. These provisions are binding and must be understood and implemented fully by all employees at all levels of the Bank as part of BCA's Banker's Code of Ethics and in order to support the implementation of the principles of good corporate governance.
2. In the event of violation or non-compliance with this policy, the offender may be subjected to sanctions in accordance with the degree of the offense.

As one of the efforts to prevent the occurrence of gratuities prohibited by the applicable legislation, the Board of Directors of the Bank in 2003 issued a decision that supports anti gratuity at all ranks of the Bank and it has become part of the culture of BCA to not accept gifts or benefits from customers, debtors, vendors, partners, business partners and other third parties for services provided by the employees of BCA in performing their duties.

• INTERNAL FRAUD

Internal fraud is the deviation/fraud committed by management, permanent and temporary employees related to the work processes and operational activities of BCA.

Throughout 2014, there were some internal frauds with nominal above Rp100 million (one hundred million rupiah). 2 (two) internal frauds were committed by permanent employees and 1 (one) by a temporary employee. The three cases have been solved internally in BCA.

Internal Fraud in 1 year	Number of cases conducted by:					
	Management		Permanent Employees		Temporary Employees	
	Prior Year	Current Year	Prior Year	Current Year	Prior Year	Current Year
Total Fraud	-	-	2	2	1	1
Resolved	-	-	2	2	-	1
In the process of internal settlement within BCA	-	-	-	-	-	-
Settlement has not been sought	-	-	-	-	-	-
Followed up through the legal process	-	-	-	-	1	-

TRANSACTIONS OF INTEREST WITH CONFLICT AND AFFILIATED TRANSACTIONS

BCA is committed to handling all transactions with conflict of interest by complying with applicable laws and regulations, among others, the regulations from Bank Indonesia and Bapepam-LK. To support this, BCA has internal policies regarding conflict of interest, among others, published in:

- BOD Decision No. 219/SK/DIR/2003 dated November 10, 2003 on the provisions related to conflict of interest.
- BOD Decision No. 137/SK/DIR/2008 dated September 26, 2008 on the provisions related to transactions with parties affiliated to BCA.
- BOD Decision on the provisions related to the procurement of goods/ services for logistics, and building including those related to Information Technology (IT) applicable at the Head Office, in all Regional Offices and Branch Offices of BCA.
- BCA's Articles of Association.
- BCA's Code of Ethics.
- The Code of Ethics of the Logistic and Building Division.
- Policy/internal memos related to Affiliation Transactions.
- BCA's Manual, among others, GCG Manual, the Manual of the Logistic and Building Division.

In order to prevent conflict of interest in the procurement of goods and/or services, procurement system conducted consists among others:

1. Centralized Procurement
Procurement of logistics goods/services as well as building through the Logistics and Building Division - BCA Head Office;
2. Decentralized Procurement
Procurement of logistics goods/services as well as building without going through the Logistics and Building Division - BCA Head Office, but is conducted by:
 - Head Office Work Unit located at the Branch, or
 - BCA Regional Office (for all main branches and sub-branches below).

BCA has an internal policy that requires all members of the Board of Commissioners, members of the Board of Directors and officials with the rank Echelon 1 (S1) to echelon 5 (S5) to make an annual statement (annual disclosure) that contains all the circumstances or situations that may lead to a conflict of interest, which is updated on a yearly basis.

In 2014, BCA did not have transactions containing conflict of interest.

Affiliated Transactions that occurred during 2014 are as follows:

No.	Type of Transactions	Affiliated Party	Value of Transaction	Reason and Explanation the Affiliated Transaction is Conducted
1	Room rent for the Analyst Meeting Quarter IV year 2013	PT Grand Indonesia	Rp 73,507,500,-	The location is close to the BCA office so as to facilitate the coordination of the event
2	Room rent for the 2014 General Meeting of Shareholders	PT Grand Indonesia	Rp 98,010,000,-	The location is close to the BCA office so as to facilitate the coordination of the event
3	Room rent for the Analyst Meeting Quarter I year 2014	PT Grand Indonesia	Rp 73,507,500,-	The location is close to the BCA office so as to facilitate the coordination of the event
4	Room rent for the Analyst Meeting Quarter IV year 2013	PT Grand Indonesia	Rp 73,507,500,-	The location is close to the BCA office so as to facilitate the coordination of the event
5	Room rent for the Lunch Together event	PT Grand Indonesia	Rp 79,000,000,-	The location is close to the BCA office so as to facilitate the coordination of the event
6	Room rent for the GCG Observation with the Indonesian Institute for Corporate Governance (IICG) and SWA Magazine	PT Grand Indonesia	Rp 12,251,250,-	The location is close to the BCA office so as to facilitate the coordination of the event
7	Room rent for the Analyst Meeting Quarter III year 2014	PT Grand Indonesia	Rp 73,507,500,-	The location is close to the BCA office so as to facilitate the coordination of the event

IMPORTANT CASES AND ADMINISTRATIVE SANCTIONS

The numbers of civil and criminal cases with the value above Rp 100,000,000 (one hundred million Rupiah) which have been resolved (having binding legal force) and which are still in the process of settlement as of December 31, 2014 are as follows:

Legal Cases	Civil Cases	Criminal Cases
Have been resolved (having binding legal force):		
• Rp 101 million – Rp 500 million	4	1
• Above Rp 500 million	1	1
Total	5	2
In the process of settlement:		
• Rp 101 million – Rp 500 million	47	1
• Above Rp 500 million	4	-
Total	51	1
Total Cases	56	3

During 2014, there were no important cases faced by BCA, BCA subsidiary entities, members of the Board of Commissioners and members of the Board of Directors during the period of this annual report, thus providing no effect on the BCA's financial condition.

During 2014 there were no material administrative sanctions, imposed by the authorities (the Financial Services Authority, Bank Indonesia, the Stock Exchange, and other authorities) to BCA, members of the Board of Commissioners, and the members of the Board of Directors.

ACCESS TO INFORMATION AND COMPANY DATA

Access to Information

BCA always facilitates stakeholder access to information and Bank data, among others, the financial condition of the Bank, products, and corporate actions. BCA also produces press releases that are published in print and electronic media.

For more information, please contact the following:

- Customers may contact the Call Center HaloBCA (021) 1500 888.
- Media may contact the Corporate Secretary or Public Relations through humas@bca.co.id
- Investors can contact Investor Relations via investor_relations@bca.co.id

Website and Social Media

Ease of Finding Information at BCA website

The roles of a website to meet the needs for banking information are increasing along with the fast development of digital era. A bank's website is currently required to be able to provide a full and complete information of all services rendered. Therefore, it is very important to have a clear and easy presentation of information for visitors in the website. The BCA website, www.bca.co.id provides easy, speedy and accurate solutions in presenting the banking information by utilizing a unique Platform Search Engine. The platform allows a very accurate display of search results and enables website users to directly feel the ease and speed in finding information. This feature further proves the existence of BCA to be "Always by Your Side!"

A dedicated website for BCA Priority customers

To give added value and facilitate the BCA Priority customers, in December 2014 BCA developed a special website for BCA Priority customers with address <https://prioritas.bca.co.id>. In this website, the customers can enjoy various interesting news, online Priority magazine, and ease of access through several media/gadgets such as PC, notebook, tablet, or smartphone in a display that is flexible and comfortable to read.

Social media

BCA is committed to providing useful information and interacting with its stakeholders using social media. The official social media accounts and activities of BCA can be accessed through www.bca.co.id/socialmedia.

Internal Communication

Internal communication plays a central role in building corporate character and culture as well as strengthening teamwork. Smooth, intensive and effective internal communications in disseminating Company information will accelerate processes and mechanisms in all of the lines of the Company. Therefore, the Company's overall performance is inseparable from the support of a good corporate internal communication.

The content of information and the choice of communication media are key to internal communications success. These complementary aspects merge allowing a flow of information to the employees that is easily digested and understood and then acted upon.

Internal Communication Media at BCA includes:

1. Info BCA

InfoBCA is a monthly internal magazine that serves as a medium for education, socialization, entertainment, and as a means to share knowledge, experiences, and activities about BCA for all employees. InfoBCA magazine contains company information, products, services, networks, programs, awards, technology, activities in various business units and branches throughout Indonesia, subsidiaries entities, partners, management, economy, business and investment, education, health, culinary, book review, movies, music, tourism, learning and motivational modules and other useful information for employees. From time to time, InfoBCA publishes Special Editions containing information and activities related to services. InfoBCA is published in two versions, namely the printed version and the version of the e-magazine (can be downloaded through MyBCA).

2. BCA Update

Leaflets on BCA's Financial Performance are published 4 times a year, or every quarter. The leaflet is delivered to all management, regional offices and branch offices as well as relevant institutions.

3. MyBCA

MyBCA is an internet-based BCA internal communication media. This network is only accessible by internal parties of BCA using the facilities provided by the Company. MyBCA is managed jointly by the Information Technology Grup and Public Relations as well as various other work units at BCA headquarters. Each work unit has a dedicated portal that can be accessed via the main page of MyBCA. This internal website serves as a means to convey Company information and the programs of the related work units, product socialization, services, programs, education and learning facilities, as well as a variety of other important information. Through MyBCA, employees can also download data such as system applications, text, images and videos that are useful to support work activities. Furthermore, the functions of MyBCA has been developed for online human resources information and administration services such as medical expenses, filing leave, overtime, business travel, employee data, compensation, employee appraisals etc.

4. Plasma TV

Plasma TV is an electronic-based internal communication media mounted in strategic places within BCA offices. This audiovisual electronic media broadcasts internal information about the Company, products, services, activities of the work units and other relevant information.

5. Email

BCA also uses email for internal communication. BCA utilizes e-mail blasts to disseminate Company information, products, work programs or events, as well as other information. Another internal communication through email is the management forum.

6. Microsoft Lync

Another internal communication media is the software-based internal communication facility, Microsoft Lync. Through Microsoft Lync, employees can send data or information via a PC and communicate with each other using chat facilities similar to those in modern gadgets. Microsoft Lync is tremendously useful, especially for matters that are urgent because the incoming message instantly appears on the screen along with the incoming message alert. Furthermore, the Microsoft Lync can be used to transmit large data or files.

7. Internal Events

Internal communication is also facilitated through a variety of internal events, such as:

- a. BCA Anniversary;
- b. Analyst Meetings;
- c. Branch Openings;
- d. Lunch Together with Management;
- e. Gatherings: Christmas/New Year, Eid al Fitri, yearly recreation, gathering for Purnabhakti BCA, etc;
- f. National Work Meeting attended by Commissioners, Directors, Regional Heads, Division Heads, Deputy Division Heads, and Branch Managers;
- g. Coordination meetings, such as those in the regional offices, branches, etc
- h. Bakorseni;
- i. Knowledge sharing, such as the COP (community of practice).

8. Corporate Identity Manual

Creating a manual for corporate display standardization with corporate materials such as:

- a. BCA Logo;
- b. Building Signage (Head Office, Regional Offices, and Branch Offices);
- c. Corporate materials: ID Card, name card, corporate advertisement, stationary, etc;
- d. BCA employee uniforms.

9. Facebook Semua Beres

BCA uses Facebook as a means of internal communication with the name Facebook Semua Beres. BCA uses the Facebook social networking service for the means of sharing related to the Bank's performance, particularly with respect to the BCA solution or BCA value. BCA internal circles that have been registered are connected to each other and can exchange information and share experiences.

10. HaloSDM

Call center service for BCA employees, which is a means of communication to bridge the information related to the provisions of HR. This facility is expected to provide an opportunity for each worker to better know, understand and follow the applicable provisions in BCA.

Bakorseni

Bakorseni stands for Coordinating Board of Sports, Arts and Education, as an informal forum set up to nurture and facilitate sports, arts and hobbies of BCA employees.

Bakorseni is based in Jakarta, assisted by the Regional Bakorseni (Bakorwil). The Head Office coordinates sports, arts and hobbies in the Regional Offices/Branches/ Work Units respectively.

The purpose of establishing Bakorseni, in addition to creating unity and intimacy, is also to develop potentials in the fields of arts, sports and hobbies as well as to create a work life balance, so that the lives of the employees are not only busied with work, but balanced by a variety of activities outside of work such as sports, arts or any other hobby; thus, productivity and work spirit of the employees are expected to increase.

The types of activities in Bakorseni include:

1. Sports: football, volleyball, indoor soccer, table tennis, tennis, basketball, badminton, bicycling, bowling, and others.
2. Arts: vocal group, choir, band, dance and puppet lovers.

3. Hobbies: photography, fishing, chess, diving (known as Asia Dive), hiking (known as Asia Hiking), and running (known as Asia Running).

Bakorseni holds a nationwide event once in every 3 (three) years called National Porseni, as well as a regional event in the Jabodetabek area every year. Meanwhile, outside the Jabodetabek area, Regional Porseni may be held once in every 1-2 years.

In practice, Bakorseni also coordinates with various internal work units of BCA and related institutions outside the Bank, either with banking institutions and organizations engaged in the field of sports, arts and those hobbies in the distribution of employees to various games or championships such as the Interbank Sports Week - organized by Bank Indonesia (PORBANK), or sporting events organized by the National Association of Private Banks (PERBANAS), as well as the Regional Banking Consultative Body (BMPD), and others.

Bakorseni activities during 2014:

1. Held the Porseni Jabodetabek for the commemoration of BCA's 57th Anniversary on February 22, 2014 in Soemantri Brodjonegoro Sports Stadium Jakarta, involving 585 athletes and 2,200 employees, from various branches of the Bank's Regional Offices and Jabodetabek Branch Offices.
2. Joined the Bankers Performance Competition 2014 organized jointly by Bank Indonesia, PERBANAS, Indonesian Bankers Association (IBI), ABISINDO and ASBANA.
3. BCA Futsal Team joined the Malindo Futsal Championship 2014 Tournament, and became the first winner in the championship.
4. Held a National Coordination Meeting attended by the management of National Bakorseni for the preparation of the National PORSENI to commemorate BCA's 58th Anniversary in 6-7 November 2014.
5. Conducted routine practices, activities with the community and Regional Porseni in the field of Sports at the Head Office and Regional Offices.
6. In the Field of Art, organized various friendship competitions, joined a variety of events carried out by institutions outside BCA and performed routine practice.
7. As regards to Hobbies, held a variety of seminars, competitions and routine activities.

CODE OF ETHICS

BCA Bankers Code of Ethics

BCA Bankers' Code of Ethics directs to:

1. Comply with and obey the existing laws and regulations.
2. Maintain BCA's reputation and safe keeping of BCA property.
3. Keep customer and BCA data confidential.
4. Have no personal conflict of interest with BCA or customers.
5. Record accurately all transactions in accordance with applicable regulations.
6. Maintain and cultivate a harmonious working environment and fair competition.
7. Not abuse position and authority for personal or family interests.
8. Not commit misconduct which can be detrimental to the profession image and the reputation of BCA in general.
9. Keep away from any form of gambling or speculative actions.
10. Constantly improve knowledge and insights, by following the developments in the banking industry in particular and the business world in general.

Socialization and the Establishment of Code of Ethics

Based on Board of Directors Decision No. 778/SK/DIR/95, the BCA Code of Ethics applies to members of the Board of Commissioners, Board of Directors, and employees of BCA. This Code of Ethics is issued in the form of a pocket book and distributed to all BCA employees. The employees sign a statement stating that they understand and promise to obey and execute the BCA Bankers' Code of Ethics as a guide to good behavior both inside and outside of work. Violations of the BCA Bankers' Code of Ethics may result in penalties in accordance with the prevailing regulations.

BCA Bankers' Code of Ethics is published in BCA's website Good Corporate Governance.

In addition to the Code of Ethics, the Board of Directors of the Bank also issued guidelines for the employees of BCA on how to deal with customers, partners, as well as with fellow employees through the Decision No. 219/SK/DIR/2003 dated November 10, 2003. The decision applies to all employees at all levels in the Bank, including members of the Board of Commissioners, the Board of Directors as well as all employees. The provisions and Code of Ethics are also contained in BCA's GCG Manual.

Efforts to Enforce the Code of Ethics and Sanctions for its Violations

- The Provisions and Code of Ethics are binding and must be understood and implemented in earnest by all employees at all levels in the Bank in order to support the implementation of good corporate governance principles.
- In the event of violation or non-compliance towards the provisions of the policy and code of ethics, the offender may be subjected to sanctions in accordance with the degree of the offense. The decision to be taken by BCA in connection with this case will be adapted to the type and seriousness of the violations and thorough evaluation of the individual who commits an offense.

CORPORATE CULTURE

Corporate Culture consists of the Vision, Mission and Values of BCA

BCA's Vision

To be the Bank of choice and a major pillar of the Indonesian economy.

BCA's Mission

- Build a superior institution in the field of payment settlement and financial solutions for businesses and individual customers.
- To understand diverse customer needs and provide the right financial services to optimize customer satisfaction.

- To enhance BCA's franchise value and stakeholders' value.

BCA's Values

1. Customer Focus

Understanding, exploring and meeting the needs of the customer with the best way.

2. Integrity

Honest, sincere, and straight. The Customer has a Bank that can be trusted. Trust is built through actions which reflect integrity and high business ethics consistently.

3. Team Work

Team is a set of people who have distinctive affinity, commitment, ordinances, and synergy to achieve one goal.

4. Continuous Pursuit of Excellence

Always do the best with the best way and quality.

Vision, Mission and Values of BCA

The Vision and Mission of BCA are established in order to provide a foundation, direction, and guidance to all employees at all levels within the Bank in performing the Company's activities.

The Values of BCA are established to provide a moral guide for all employees of BCA in achieving the Vision and Mission of the Company.

Socialization programs for the dissemination of BCA's Vision, Mission, and Values are conducted through:

1. Head Office, all Work Units (officials from echelon 1 to 3).
2. Coordination Meeting (Rakor)/Quality Meeting (QM) in all of the Regional Offices of BCA.
3. Career development programs (Management Development Program/MDP, Manager Development Program/P2M), specific forums, such as the Account Officer/AO Forum, and Special groups such as the Project Management Office/PMO.

Introduction to the culture of BCA is given at the induction program for all new employees. The introduction program includes the introduction of BCA's Vision, Mission and Values. Learning methods in the form of games is one effective way to introduce the vision, mission and values of the Company to the new employees who are generation Y.

The Vision, Mission, and Values of BCA are also disseminated through:

- Info BCA Bulletin (internal monthly magazine).
- Employees PC's screen saver and mouse pads.
- Internal training.
- Internal Culture Video Clip.
- BCA Handbook.
- Comic Book distributed to all employees.
- Games.
- Other media.

Understanding the Mission of BCA:

1. Build an institution that excels in the field of payment settlement and financial solutions for business and individual customers, means that BCA builds a superior institution for payment in all areas covering all payment activities in the banking business.
2. Understand diverse customer needs and provide the right financial services to optimize customer satisfaction, means that the Bank understands thoroughly the diverse needs of customers in accordance with the needs of customers.
3. Enhance BCA's corporate franchise and stakeholders' value, has a broad sense covering the totality of the value of the company both tangible and intangible values. Meanwhile the value for stakeholders reflects BCA's flexibility in accommodating the interests of various parties.

The vision and mission of BCA shall be reviewed and evaluated once every 5 years. In 2014, the vision and mission of BCA were evaluated by BCA's Board of Commissioners and Board of Directors. The evaluation by the Board of Commissioners and Board of Directors produced a conclusion that the Vision & Mission of BCA is still valid with the current conditions.

STOCK OPTION

In 2014, BCA did not have a Stock Option Program.

PROVISION OF FUNDS TO RELATED PARTIES AND LARGE EXPOSURES

BCA has a policy regarding the provision of funds to related parties and large exposures, as stipulated in the Credit Manual. Evaluation and update of the policies in the Credit Manual are performed regularly. Lending to related parties and large exposures to debtors are always conducted with respect to the precautionary principle, and in compliance with Bank Indonesia Regulations and other prevailing laws and regulations, among others concerning the aspect of Legal Lending Limit (LLL). In addition, lending to related parties should be decided by the Board of Commissioners independently.

Routine reporting of LLL to Bank Indonesia is conducted in a timely manner. Throughout 2014, there was no violation of or exceeding limits of LLL.

Provision of Funds to Related Parties and to Main Individual and Group Debtors (Large Exposures) in BCA during 2014

No.	Provision of Funds	Total	
		Debtor	Nominal (million Rp)
1.	To related parties	199	4,816,082
2.	To main debtors:		
	a. Individual	50	71,506,758
	b. Group	30	94,735,965

STRATEGIC PLAN

In anticipation of the dynamic changes in the external business environment, BCA continues to review its short, medium and long-term strategies in its strategic plan, as covered in the Bank Business Plan and the Annual Budget and Work Plan. The formulation of the Bank Business Plan is undertaken with reference to Bank Indonesia Regulation No. 12/21/PBI/2010 dated 19 October 2010 on Business Plan for Commercial Banks and the provisions on Bank Indonesia Circular Letter No. 12/27/DPNP dated 25 October 2010 on Business Plan for Commercial Banks.

As part of its policy direction and strategic initiatives towards its vision and mission statements, BCA has developed a number of business initiatives that are specifically designed to accommodate the growing and changing customer needs.

BCA Strategic Plan in 2015

Although faced with various challenges, BCA is optimistic that Indonesia will see a smooth transition period. The presidential elections and the transition to the new administration went smoothly with the election of Joko Widodo giving high confidence for businesses and consumers. The Bank believes that the solid base developed by Susilo Bambang Yudhoyono's administration and the new approaches offered by Joko Widodo's administration will open up new opportunities for businesses.

Overall, BCA sees the Indonesian economy and the banking sector on a solid footing to face a period of economic transition and consolidation in 2015. BCA supports the efforts of the Indonesia Financial Services Authority and Bank Indonesia

to maintain national credit growth at sustainable levels and maintain a healthy capital and liquidity of the banking sector.

In the long run, BCA is optimistic about the prospects of the economy and banking in Indonesia. The growth of the middle class in Indonesia and infrastructure development will support domestic economic growth in the future.

Supported by sound capital and solid liquidity position, BCA is committed to continuing investments in 2015 in order to strengthen the Bank's franchise value. Strategic priorities in 2015 will remain directed at deepening customer relationships through enhanced payment settlement services, prudent lending, and new businesses development. Opportunities for lending and development of new businesses will optimize the Bank's preeminence as a transaction bank. Below is a further elaboration of the three major business objectives:

- **Enhancing Payment Settlement Services**
BCA believes that excellence in payment settlement services will strengthen the long-term competitive advantage and will support the growth of the Bank's third party funds particularly in the stable CASA accounts.

As such, BCA continues to improve the capability of payment settlement services, including through innovation and improvement of product features and services. BCA will follow, explore and apply the latest technological developments in line with the level of customer acceptance. On network expansion, the Bank will increase

the number of branches and electronic delivery channels, supported by enhanced capability and capacity of information technology infrastructure. In addition, cash management capabilities will continue to be improved.

BCA will continue to assess the development of the banking sector, in particular liquidity and CASA trends, with consideration to economic growth and business activities. If necessary, BCA can actively raise funds through time deposits products by adjusting interest rates. This is essential to maintaining third party funds and a strong and healthy liquidity position.

- **Lending**

In developing the credit portfolio in the coming years, BCA will continue to implement ongoing policies while taking into account liquidity and capital capacity, as well as monitoring macroeconomic developments accompanied by the implementation of a prudent and effective risk management regime.

In the short term, the Bank will prioritize lending to qualified customers and segments that can contribute to CASA and overall third-party funds growth. For business lending, the Bank will actively explore lending to sectors with broad value chains. For individual customer lending, the Bank believes that mortgages, vehicle loans, and credit card loans have great potential for growth in the long term. Thus, although individual loans are expected to grow slower than loans in the business sector. In short-medium term, BCA is committed to being a leader and maintaining a strategic presence in the market.

BCA sees that the lending activities play an important role in maintaining long-term relationships with customers. To that end, the Bank will continue to enhance lending infrastructure in the various segments both

in branches and at headquarters in support of sustainable credit growth.

- **Business Development Through Subsidiaries**

To meet the increasingly diverse needs of customers, BCA is developing a wide range of comprehensive financial products and services through new lines of businesses together with its subsidiaries in the field of vehicle financing, Sharia banking, securities, remittance, general insurance and life insurance.

In general, the subsidiaries continued to grow and have begun showing positive results in recent years. In late 2014, BCA Life, providing life insurance products, began operations and will complete the Bank's financial products and solutions for customers. BCA Finance, an established subsidiary entity active in the 4-wheeler financing industry, consistently provides a significant contribution to BCA's profitability.

In the coming years, the Bank will continue to support the growth of its subsidiaries and strengthen synergies with the Bank's main business lines in the field of payment settlement services and lending. BCA will provide capital support progressively in line with business growth of respective subsidiaries.

The Bank believes that the strategy and the policy will support BCA in strengthening the Bank's long-term competitive advantages. Consistent strategic moves are believed to be able to build a quality customer base amid rising competition of Indonesian banking industry.

TRANSPARENCY OF BANK FINANCIAL AND NON FINANCIAL CONDITIONS NOT DISCLOSED IN OTHER REPORTS

Information on the financial conditions of BCA has been disclosed in a transparent manner in several reports, among others:

Transparency of Financial Conditions

1. **Annual Report**, which among others covers:
 - a. Financial highlights including stock performance, reports of the Board of Commissioners and Board of Directors, Company profile, management analysis and discussion on business and financial performance, corporate governance, and corporate social responsibility.
 - b. The Annual Financial Statements that have been audited by a Public Accountant and Public Accountant Firm that is registered at Bank Indonesia. The annual Financial Statements cover a period of 1 (one) fiscal year with comparison to the previous fiscal year.
 - c. Statement of responsibilities of the Board of Commissioners and Board of Directors regarding the accuracy of the contents of the Annual Report. The statements are set forth in the statement letter, which is signed by all members of the Board of Commissioners and Board of Directors.
2. **Quarterly Published Financial Reports**
 BCA releases Quarterly Published Financial Reports in accordance with the prevailing regulations. The Published Financial Reports are signed by 2 (two) members of the Board of Directors. The Published Financial Reports are published in 3 (three) major daily newspapers, 2 (two) in Indonesian language and 1 (one) in English, which have a wide circulation in the location of BCA's Head Office.
3. **Monthly Published Financial Reports**
 BCA prepares and submits a monthly financial report in the Commercial Bank Monthly Report format in accordance with Bank Indonesia regulations. This report in turn forms the basis for Bank Indonesia to prepare the monthly financial reports for banks published on its website.

Transparency of Non-Financial Conditions

BCA provides clear, accurate and up-to-date information on its banking products. The information can be easily obtained by customers in the form of leaflets, brochures and other written materials in every BCA branch office in easily accessible locations, and/or in the form of electronic information provided through the hotline service/call center or website.

In addition, BCA also provides information on customer complaints and the settlement of disputes with customers in accordance with Bank Indonesia regulations concerning customer complaints and banking mediation.

In relation to the above, BCA has conducted the following:

1. Transparently published the financial and non-financial conditions to stakeholders, among others in the form of Periodic Financial Reports, and the submission of Routine Legal Lending Limit Reports to Bank Indonesia, Quarterly Published Financial Reports, as well as publishing on BCA's website in accordance with the prevailing regulations.
2. Prepared and presented reports in a manner, type and scope as stipulated in Bank Indonesia regulation on Transparency of Bank Financial Conditions.
3. Disclosed information regarding BCA's products in accordance with Bank Indonesia regulation on Transparency of Information of Banking Products and on Utilization of Customer's Personal Data.
4. Transparently disclosed information on the handling of customer complaints and the settlement of disputes with customers, in accordance with Bank Indonesia regulation on Customer Complaints and Banking Mediation.
5. Submitted Annual Reports to Bank Indonesia, other regulatory bodies, and other institutions as required by the relevant regulations or as deemed necessary.
6. Published the Ownership Structure in the Annual Report and the BCA website.

HIGHEST AND LOWEST SALARY RATIO

What is meant by salary is the employee's right received and expressed in the form of money as a reward from BCA as the employer to the employee which is determined and paid according to the employment contracts, agreements or laws, including benefits for employees and their families, for the tasks and/or services which has been conducted.

The following is the highest and lowest salary ratio in comparison scale

Ratio	Comparison Scale
Highest and lowest employee salary ratio	42.60
Highest and lowest Director salary ratio	2.88
Highest and lowest Commissioner salary ratio	1.63
The ratio of the highest Director salary and the highest employee salary	6.14

Salaries comparable in the salary ratio mentioned above, is the reward received by members of the Board of Commissioners, members of the Board of Directors and employees per month. What is meant by employee is permanent employee of BCA to executive.

SHARES BUY BACK

In 2014, there were no corporate actions of share repurchase (Shares Buy Back).

PROVISION OF FUNDS FOR SOCIAL ACTIVITIES

BCA actively contributes to the improvement of public welfare and environmental causes through various corporate social responsibility activities. Under the 'Bakti BCA' program.

Overall, BCA's social activities programs during 2014 were focused on 3 (three pillars), among others:

- A. Smart Solution Pillar (*Pilar Solusi Cerdas*), which consists of:
1. Non-degree Accounting Education Program (PPA)
 2. Non-degree Information Technology Education (PPTI)
 3. Bakti BCA Internship
 4. Integrated partner schools
 5. Bakti BCA Scholarship

6. Banking education and partnership with other institutions in education, and charity/donation for other education institutions

- B. Sinergy Solution Pillar (*Pilar Solusi Energi*), which consists of:
1. Culture
 2. Health Area:
 - a. Bakti BCA Cataract operations service
 - b. Bakti BCA Blood Donor
 - c. Bakti BCA Public Health Service Partnership
 3. Environmental Conservation area
 4. Bakti BCA Empathy Program in form of donation for natural disaster victims, and sports program
- C. Excellent Business Solution Pillar (*Pilar Solusi Bisnis Unggul*), which consists of:
1. Partnership with communities
 2. Business Development Institution

In addition to the programs mentioned above, BCA also participates in giving charity or donation to other social institutions.

The total funds distributed for BCA's social activities in 2014 is as explained in the chapter on Corporate Social Responsibility in this BCA Annual Report.

A full description of the Company's social responsibility activities throughout 2014 is reported in the chapter on Corporate Social Responsibility in this BCA Annual Report.

PROVISION OF FUNDS FOR POLITICAL ACTIVITIES

Similar to the prior years, during 2014 BCA did not provide funds for political activities.

CORPORATE SOCIAL RESPONSIBILITY

“ BCA has undertaken a variety of CSR activities under Bakti BCA as a means to contribute to the welfare of society ”

BCA is consistently developing corporate social responsibility (CSR) programs to increase its franchise and stakeholder values. Under Bakti BCA, and in line with the Bank's mission, BCA has undertaken various CSR activities in 2014. BCA believes that through these undertakings, the Bank can contribute actively towards the welfare of society.

Bakti BCA is more than a charity program or an act of compliance. This program is developed with the concept of sustainability. BCA is committed to position CSR as an integral part of its business activities. Therefore, BCA's commitment to help promoting community empowerment and welfare is implied in each product and service.

BCA also has a determined commitment towards Occupational Health and Safety, since employees are the most important asset for the Bank. BCA understands that there is a strong correlation between employee performance and the growth of the Bank.

In addition, BCA acknowledges the importance of providing customer protection services. The Bank believes that a sustainable performance growth correlates to customers' trust in the Bank.

A. ENVIRONMENT

A.1. Policy

BCA's commitment to conserve and protect the environment is realized through a variety of environmental conservation activities.

The implementation of BCA policy to support the environmental conservation is realized in a variety of programs, one of which is under Bakti BCA program, Solusi Sinergi BCA. Thus, BCA cooperates with trusted institutions in handling various environmental issues. As an activity funder, the BCA environmental conservation programs are expected to deliver more effective results, higher impact, and sustainable.

A.2. Execution

BCA's environmental policy is evidenced by a number of activities:

1. Menara BCA - Green Building;
2. Earth Hour - participation;
3. Implementation and environmental support - Solusi Sinergi BCA.

A.2.1. Green Building

Menara BCA embodies BCA's commitment to the environment. This building is the first building in Indonesia to receive the Greenship EB Platinum award, the highest rating achievable in Greenship certification. Greenship certification is awarded by the Green Building Council of Indonesia (GBCI), an independent, non-profit institution and member of the World Green Building Council (WGBC) based in Toronto, Canada. Currently, only six buildings in Indonesia have received Greenship certification.

BCA supported the planting of 55,000 mangrove seedlings

BCA voluntarily undertook the process for Greenship certification in 2011 and is able to meet the stringent evaluation standards, with parameters comprising site suitability, energy efficiency and conservation, water conservation, material resources and material cycle, air quality and room comfort, with emphasis on energy efficiency and conservation.

Benchmarked against buildings of a similar size, Menara BCA has reduced electricity consumption by 35%, translating to a reduction in CO2 emissions of 6,360 tons per year. LED lighting also contributes substantially to the overall energy efficiency of the building, reducing luminous related electricity consumption by 70%, and with virtually no heat emitted from LED lights, the building benefits from less need for air conditioning. In addition, insulated window glazing reduces radiant heat without significantly reducing the light intensity. Besides Menara BCA, in 2014 a number of new KCU and KCP buildings have been equipped with LED lights, among others are: KCU Margonda, KCU Asia Medan, KCU Kota, KCP Sentral Cikini, KCP Taman Palem, KCP Kepa Duri, KCP Slompretan, KCP Buah Batu and KCP Padalarang.

In addition, BCA has applied the Printer Pooling Management (PPM) program, replacing all printers, copiers, scanners and faxes into a single device

multi-function printer in order to reduce print costs up to 15%, and paper use up to 11% and thus increase electricity use efficiency.

Power consumption is only one of the many parameters that had Menara BCA named as one of the most environmentally friendly buildings in Indonesia.

Going forward, the newly constructed KCU or KCP buildings will utilize more glass and will be constructed by observing the direction of sunlight in order to reduce the use of lights, and replacing or relocating light switches with sensors, while promoting rooftop gardens.

A.2.2. Earth Hour

Earth Hour, the global event organized by WWF, is held on the last Saturday of March of each year. Participants turn off all non-essential lighting for 1 hour, signaling an awareness of the need to take action to protect the environment and concern about climate change.

As in previous years, BCA participated in this event by turning off logos and non essential lighting for one hour, from 20:30 to 21:30 on March 23, 2014, in Menara BCA, and in all main branch offices and billboards across Indonesia.

A.2.3. Environment

Environmental preservation activities were carried out under “Solusi Sinergi BCA”, which includes:

1. Tree Planting Program: BCA began actively supporting and collaborating with the WWF (World Wildlife Fund) Indonesia in 2010 through the NEWtrees WWF Indonesia program, a reforestation program organized by WWF-Indonesia. This reforestation program is aimed at addressing the issue of global warming and supporting environmental preservation efforts. It is a breakthrough undertaking to help reforest national parks and monitor the trees using geotag, in which each tree is labeled to indicate geographical position and monitor growth.

Continuing its active participation in helping to manage the environment, in September 2014, BCA once again contributed to forest rehabilitation at the turtle conservation center at Pangumbahan, Ujung Genteng, Sukabumi Selatan, West Java, by planting 2,000 trees on 5 ha reserve designated for turtle conservation. The preservation of the forest will optimize and support turtle conservation efforts. The tree planting program is aligned with a larger Government tree planting program which seeks to ameliorate greenhouse gas emissions by 26% by 2020.

BCA participated in the making of biopores at the urban forest of Srengseng, West Jakarta

2. Biopore, a means to preserve the environment:

In order to support the Ministry of Finance program, collaboration with the SBR 001 sales agency, BCA participated in the development of biopores in the urban forest at Srengseng, West Jakarta. The event was officially opened by the Minister of Finance of the Republic of Indonesia on October 2014, at the same time the ORI seri 011 was officially launched, under the environmental theme “Saving Ground Water”.

3. Mangrove Planting:

continuing a program first started in 2004, BCA again supported the mangrove seedling planting program. In November 2014, BCA supported the planting of 55,000 mangrove seedlings in the mangrove forest of Toll Sedyatmo, Pantai Indah Kapuk, Jakarta. Involved in this program were around 1,000 volunteers from many sections of society, the program was initiated by the Faculty of Economy of Unika Atma Jaya, Ministry of Marine & Fisheries of the Republic of Indonesia, the Marine & Fisheries Agency of DKI, and the Provincial Government of DKI Jakarta. Previously, BCA also supported mangrove planting activities on the north coast of Java, related to the sales of ORI 010.

4. Orangutan Release Program:

BCA continued its support of the Orangutan Release Program undertaken by the Borneo Orangutan Survival Foundation (BOSF). This support is intended to support the Government’s efforts to stabilize the orangutan population, which has declined to an alarming level, as outlined in the Orangutan Indonesia Conservation Strategies and Action Plan for 2007-2017. As in past years, in 2014 BCA continued to support the Orangutan reintroduction program by BOSF in Ketje Sewen forest, East Kalimantan.

✓ *BCA Director handed over waste processing machine*

5. **Miscellaneous:** Under Bakti BCA, the Bank also supports the waste management program of Bandung, in the form of a waste processing machine donated to the city government of Bandung, symbolically handed over by a BCA Director in December 2014.

B. EMPLOYEE PROTECTION

B.1. Policy

Human capital is the major driving force behind a solid and profitable company. At BCA, every employee is a valuable asset and therefore Human Resources Management prioritizes comprehensive human capital development. BCA is committed to carrying out sustainable human resources development in order to improve the quality, competence and character, career and well-being of every employee as a means of fostering a sense of comfort and pride amongst employees. Management believes that it takes excellent human resources to deliver excellent outcomes.

For this reason, in addition to continuously developing human resources, BCA also strives to provide maximum protection for all employees to foster a safe and convenient working environment.

BCA has set a number of policies intended to assure the rights of each employee to workplace protection, including:

- a. **Transparency of the Bank's strategic employment policy:** providing access for employees regarding the Bank's employment policies such as recruitment system, promotion system, and the remuneration system. This means that employees have to access the aforementioned policies including Decision and Circular Letters, Collective Labor Agreement (CLA), Website BCA, and intranet BCA (MyBCA).
- b. **Collective Labor Agreement (CLA):** In line with BCA's commitment to nurture positive industrial relations, in April 2014, teams of negotiators from both management and unions formulated and reviewed the Collective Labor Agreement (CLA) of BCA for 2014 – 2016. In 28 May 2014, the BCA CLA 2014 - 2016 became effective. The negotiating team conducted dissemination activities about the content of the BCA CLA 2014 -2016 to all members of BCA, to ensure their understanding on the material contained in the CLA.
- c. **Conducive working climate:** BCA strives to maintain a conducive working climate that supports the achievement of individual targets, unit targets and BCA targets in general. Management believes that achieving the best possible performance can only be realized in a conducive working environment built upon the implementation of a strong corporate culture as well as the vision and mission of the Bank. Such a conducive working climate can be realized by developing a healthy competitive performance culture through transparent and fair individual assessments and through periodic evaluations of unit performance.

- d. Opportunities for actualization of skills, competencies, talents and interests:** BCA provides employees with opportunities for actualization of their skills and competencies in support of meeting performance targets. In addition, they also have opportunities to develop their talents and interests outside their jobs through sports and art activities. BCA coordinates these activities through the Bakorseni (Sports and Arts Coordinating Board). The activities include AsiaBike (for bike enthusiast employee), AsiaLens (for photography enthusiast employee), AsiaWangi (for wayang enthusiast employee), AsiaDive (for diving enthusiast employee), and others.
- e. Disclosure of information to employees:** Information is disclosed as specifically related to the development of the Bank as well as other matters related to employment. To that end, BCA has developed a comprehensive internal communication mechanism with official correspondence in the form of circulars, email blasts, internal magazine (InfoBCA printed version as well as e-magazine), HaloSDM phone service, COP (community of practice), and many more. By the end of 2013, BCA developed a new platform for internal communication, using facebook and entitled "Facebook Group Semua Beres!".
- f. Clear and well-planned career development and training:** Every employee is entitled to a clear and well planned career development and training path, in accordance with an individual employee's and unit performance.
- g. Equal opportunity of employment:** BCA provides equal employment opportunities for all employees regardless of their ethnicity, religion, race, social class, and gender. To that end, the Bank's policy on employee deployment and placement is based on employee merits and competence.
- h. Compensation and benefit program:** providing competitive compensation and benefits.

B.2. Execution

B.2.1. Employee Health Care

As a company that pays attention to its employees' well being, BCA maintains employee compensation and benefits at a competitive level within the banking industry. Comprehensive health care provision, both preventive and curative, include inpatient facilities, outpatient facilities, maternity, eyeglasses, dental care, laboratory tests, medical check-up and pap-smears. With this comprehensive health care policy, BCA undertakes to safeguard the employees' well-being so that positive results will impact on the lives of employees as individuals, their families and as BCA employees.

The President Director of BCA at the closing ceremony of 2014 Porseni

One of the Porseni activities

Volley ball is one of the sports contested in BCA Porseni

In order to support the Government's program regarding public health services, BCA encourages its employees and their families to become participants of "BPJS Kesehatan", through collective enrolment, with a maximum coverage for 5 family members including the employee.

BCA actively disseminates healthy lifestyle and health awareness information as part of "Program Sehat Bersama BCA" launched in 2012. Continuing programs in 2014 include: facilitating employee sport activities under the coordination of Bakorseni BCA. In order to further motivate employees, on February 2014, to celebrate the anniversary of BCA, a number of sporting competitions were held with employee participants coming from head office and branch offices.

BCA organized health seminars for BCA employees. Topics covered in health seminars held in Jabodetabek during 2014 include: typhoid/dengue (January 2014); healthy diet to prevent cardiac diseases and cancer (June 2014); heart attack, sudden cardio death and cancer prevention (June 2014); becoming smart patient and choose drugs wisely (October 2014).

For areas outside Jabodetabek, the theme was hypertension and side complications. In addition, as a continuation of the lactation education program, BCA provides a lactation room at the head office,

equipped with supporting facilities to help BCA female employees conduct exclusive breastfeeding for their children.

B.2.2. Employee Welfare

Improving employee welfare is an embodiment of BCA's commitment towards employees, whether in the form of periodic salary increases, employee or corporate performance bonus. In addition, in order to increase a sense of belonging by employees of the Bank, the Bank also provided an extra bonus. Shares were granted based on an employee's performance during the period January 1 until December 31, 2013, which was given on April 25, 2014 to 18,269 permanent employees for a total of 16,467,214 shares at an average pricing of Rp10,361.56 per share. This extra share bonus was locked up for three years to help build a sense of belonging at the Bank, a commitment by each individual.

B.2.3. Occupational Safety

In order to create a safe working environment at all of its offices, office interiors planning and layout development plans for offices and branches consider amongst other:

- Completeness and appropriateness of the facilities and working environment;
- Cleanliness;
- Harmonious interior layout;
- Proper placement of facilities;

- Completeness and appropriateness of security measures, etc.

B.2.4. Employee Turnover

A company's employee turnover rate reflects the nature of its human resources management. BCA is among a small group of banks in the Indonesian banking industry with a low employee turnover. This is testament to BCA's maintaining a conducive working atmosphere with high employee satisfaction.

In 2014, the number of permanent employees who resigned from BCA was 463, or 2.18% of BCA's total employees.

In general, BCA employees consider that working in BCA is not for the short term. They grow together with BCA. This encourages BCA employees to seek to contribute optimally for the progress of BCA. The details of employee data are as follows.

YEARS OF SERVICE	NUMBER OF EMPLOYEE	%
≤ 1 year	2,033	9.2 %
> 1 - 5 years	2,906	13.1 %
> 5 - 10 years	986	4.5 %
> 10 - 15 years	1,623	7.3 %
> 15 - 20 years	6,188	27.9 %
> 20 years	8,425	38.0 %
TOTAL*	22,161	100.0%

* including contract, probation and trainee

B.2.5. BCA Day Care Program

Launched in 2010, BCA's Day Care program is designed for employees' children of elementary school age. The theme for 2014 was the Environment (Jabodetabek - Greater Jakarta) and the Benefit of Saving (non Jabodetabek - outside Greater Jakarta). The BCA Day Care program also indirectly supports the OJK's financial literacy program. The activities were designed to create a pleasant atmosphere filled with useful material to broaden the perspectives of participants.

In general, the activities were beneficial for employees and their children, as reflected in the number of participants. In 2014, the BCA Day Care program was attended by 448 children, and was held in four (4) locations in Jabodetabek (Greater Jakarta) and two (2) locations in non Jabodetabek (outside Greater Jakarta).

Participants of Day Care BCA.

C. SOCIAL DEVELOPMENT

C.1. Policy

As an integral part of the community, BCA is committed to always supporting the community and working together to increase public welfare. For that purpose, BCA has developed a variety of social programs under the umbrella Bakti BCA.

BCA CSR programs are conducted based on three (3) pillars:

1. BCA Smart Solution
2. BCA Synergy Solution
3. BCA Excellent Business Solution

C.2. Execution

C.2.1. BCA Smart Solution

BCA Smart Solution consists of education related programs under Bakti BCA. A wide variety of programs were developed by BCA as part of BCA's active role in supporting the development of education for the young generation in Indonesia, those who will continue the development of our nation. BCA believes that the quality of a country's people is the final determining factor for the successful development of a country as a highly educated young generation will allow Indonesia to better manage economic potential and abundant natural resources. Through BCA Smart Solution, BCA supports the efforts of improving the

quality and competitive edge of Indonesian people, in particular the young generation, especially as we enter the coming Asean Economic Community (MEA).

BCA Smart Solution programs include:

C.2.1.A. Accounting Education Program (PPA) non Degree

The non-degree Accounting Education Program (PPA) is one of BCA's core education programs. Launched in 1996, the program aims to provide non-degree education, free of charge, to high school graduates or the equivalent who have strong academic credentials but who have financial constraints that hinder their ability to pursue higher education.

Apart from providing education in accounting and its application in the banking world, this education program is also designed to forge participants into individuals of honorable character. Hence, during the program, the participants also learn soft skills, such as leadership, teamwork, character building, grooming, and financial planning. The staff overseeing the program have to go the extra mile to better understand the personality of each student to be able to encourage the students to realize their best potential. The PPA Non-degree program also facilitates the development of students' interests in sports and arts.

PPA programs are supported by a quality teaching staff consisting of professional and experienced lecturers from leading universities in Indonesia. The program lasts for 30 months using a conditional knockout system with rigorous academic requirements. In addition to in-class activities, the students also undertake on the job training programs at BCA. Those who successfully complete this program are truly high-quality candidates, both academically and character-wise.

This program is provided free of charge and the participants receive pocket money and facilities, such as textbooks and medical examinations, in accordance with the Bank's policy. Participants are also given the opportunity to work at BCA, but have no obligation to do so upon completing the PPA program. In addition, PPA graduates may continue their study at a number of universities to obtain a Bachelor's degree in Accounting. Graduates who successfully pass the recruitment tests will be considered equal as S1 graduates.

BCA actively disseminates the PPA non-degree program through various channels such as the corporate website www.bca.co.id. By the end of 2014,

the number of participants of PPA programs was 384 persons, comprising 9 batches (Batch 28-36). 83 participants successfully completed the program and 82 of them have chosen to join BCA as permanent employees in 2014.

C.2.1.B. Information technology Education Program (PPTI) Non-degree

The rapid development of information technology and the increasing role of information technology in the modern banking industry have prompted an increasing need for human resources in the IT field, not only in terms of quantity, but also in terms of quality.

To keep abreast of the increasing human resource demand and inspired by the highly successful BCA PPA program, BCA created the BCA Non-Degree Information Technology Education Program (PPTI BCA) with the first class starting in 2013. This program is equivalent to a Bachelor's Degree provided free of charge for high school (SMA) and Vocational School (SMK) graduates who want to continue their education or develop skills in the field of information technology.

The education program, which lasts for 30 months, is presented by practitioners and lecturers from a number of leading universities in Indonesia. In addition to in-class activities, participants also have the opportunity for internships at Head Office units. The material provided in PPTI BCA Non-Degree is similar to that of a university's, but enriched with self-development material. Participants receive pocket money and facilities such as textbooks and medical examinations in accordance with the Bank's policy. Upon completing the program, participants will be offered an opportunity to join BCA as permanent employees as are required by the Bank.

To ensure the high quality of graduates, the program implements a conditional knockout system with rigorous academic requirements. Participants with less than a 2.75 GPA will be disqualified and dismissed from the program. The program was introduced in 2013 with 59 participants in two batches (Batches 1-2).

✓ PPTI participants

C.2.1.C. Bakti BCA Apprentice Program

Introduced in 2012, the Bakti BCA Apprentice Program is a program for high school or university graduates who want to pursue a career in banking. This training and internship program lasts one year, providing participants with internship experience in banking operations and other knowledge. Participants will be mentored by BCA's senior employees as to where they will be placed.

Bakti BCA Apprentice Program provides interns with an opportunity to gain working experience as a CSO (Customer Service Officer) or Teller. Apprentices will undergo a series of training programs, including counting and sorting money training, product knowledge, identifying the authenticity of Rupiah, teller/CSO skill, mini-bank simulation, bank secrecy, and much more. Apart from skills and knowledge, trainees will also learn soft skills, such as motivation and self-grooming. After completing this program, those who perform well will be offered scholarships to continue their education.

By launching this program, BCA wishes to contribute more to the development of human resources, particularly in the banking and financial industries. The public has shown favourable interest on Bakti BCA Internship program. In 2014, there were 21,523 candidates submitted applications for the program, with 3,429 passing the test to become CSOs and tellers.

C.2.1.D. Integrated Bakti BCA

Integrated Bakti BCA is a CSR program aimed at helping with the development of educational infrastructure for elementary, junior and senior high school which have the potential to grow but lack economic support due to their surrounding conditions.

BCA provides aid in form of books, computer labs, classroom renovation, as well as teacher training. To date, BCA has provided assistance to 17 schools, ranging from elementary schools to senior high schools, in Gunung Kidul, Yogyakarta; Pringsewu, Lampung and Taktakan Serang, Banten.

Integrated Bakti BCA was introduced in 2000 in three districts, namely Ponjong, Semanu, and Karangmojo, in the area of Gunung Kidul, Wonosari, Yogyakarta. Subsequently, in 2003, Integrated Bakti BCA was held in Gadingrejo, Pringsewu, Lampung, and in 2007 in Taktakan, Serang. The program aims to improve access and quality of education in those districts.

BCA in collaboration with the expert on Creative & Innovative Learning, and BCA Learning Service, conducted a training of "Creative & Innovative Learning" for the school principals and teachers. The training was attended by 45 teachers, from 9 Elementary Schools under BCA patronage. BCA also provided other assistance, such as computers, infocus, screen port, and air conditioning, which were symbolically handed over by the heads of BCA branch offices to SDN 3 Semanu, SDN 2 Ponjong Yogyakarta, SDN 7 Pringsewu Lampung and SDN 1 and SDN 2 Taktakan Serang, in December 2014.

As a form of support for the financial literacy program, as well as for BCA to be closer to the younger generation, BCA also actively disseminates introductions to banking to students. The program is designed as an interactive program according to the age of the children. Activities include inviting 1,458 elementary school students and teachers to KidZania Jakarta, where children can learn about the functions and banking services while role-playing.

C.2.1.E. Bakti BCA Scholarship

Since 1999, BCA has sponsored the Bakti BCA Scholarship, a program for undergraduate students with good achievement but difficult financial background. The program is intended to motivate them in pursuing their studies and assisting them in completing their education. Bakti BCA scholarships cover tuition fee and/or pocket money.

BCA collaborates with a number of leading universities in Indonesia, such as UI, ITB, Unpad, IPB, Undip, UGM, Unbraw, ITS, Unair, Udayana, USU, and many more, BCA also collaborates with a number of

foundations such as the Paramadina Foundation, the Perbanas Foundation, Karya Salemba Empat Foundation, and STEKPI to provide educational scholarships to outstanding students.

In 2014, BCA continued the scholarship program for 486 students in the period of 2013 -2014, and 475 students for the period of 2014-2015. In facilitating these scholarships, BCA collaborates with 16 leading state universities in Indonesia.

To broaden the scope of the scholarship program, BCA has increased the funds allocated for Bakti BCA Scholarship, from Rp3.8 billion in 2013-2014 to Rp4.1 billion in 2014-2015. Scholarships were handed over symbolically by the Heads of BCA's Regional Office or Branch Office to the representatives of the scholarship recipient universities.

As illustration, symbolic handover ceremonies were conducted in September. Attending the ceremonies were the Head of Regional Office VIII to the Director of Student Affairs of UI, Depok; from the KPOW II to the Deputy Rector III of the University of Diponegoro, Semarang; from the KOC BCA Main Branch to Vice Rector of Academic & Student Affairs of IPB, Bogor. Symbolic handover ceremonies conducted in October 2014 included; from the Head of Regional Office III BCA to the Director of Student Affairs of Airlangga University and Chairman of LPPM ITS; from the Head of Regional Office VII BCA to the Expert Staff PR 3 of the University of Brawijaya, Malang; from the Head of Regional Office IV to the Deputy Rector III of University of Udayana, Bali; from the Head of Regional Office II BCA to the Director Student Affairs of UGM; from the Head of Regional Office I BCA to the Director of Student Affairs of ITB and to the Secretariat of Student Affairs and Alumni Relations Development Institute of UNPAD; from the Head of BCA Manado Main Branch to the Rector of University of Sam Ratulangi, Manado; from the Head of BCA Makassar Main Branch to the Rector of University of Hasanuddin Makassar; from the Head of BCA

✓ *The Bakti BCA Scholarship*

Palembang Main Branch to the Rector of University of Sriwijaya; from the Head of Regional Office V BCA to the Vice Rector of University of Sumatera Utara.

In order to broaden the perspectives of the scholarship recipients, BCA introduced several soft skill development programs at various universities. In April 2014, BCA held a seminar about "Presentation Techniques and Effective Communications" and in September 2014, BCA held a leadership seminar "Leading Through Action" at ITB, attended by almost 200 students. In Semarang, the same event was held at Undip in September 2014. In May 2014, BCA held a seminar at Student Center Campus C, University of Airlangga, "Preparing for the world of work, presentation techniques and effective communication", attended by students and scholarship recipients from ITS and Airlangga - Surabaya, and University of Brawijaya Malang. In November 2014, BCA invited around 100 scholarship recipients from ITB, IPB, UI and Unpad to get to know better the art of theater, by attending the backstage preparation and the performance Teater Koma, in Jakarta.

Bakti BCA Scholarship – Other Institutions: To support efforts to improve the quality of teachers and lecturers in social science, BCA continues providing scholarships for Master and Doctoral Degree levels, as developed by the Indonesian Scholarship and Research Support Foundation (ISRSF). Scholarship recipients have the opportunity to study at one of the universities in the United States of America. The program is intended to promote the development of science and the advancement of education in Indonesia. Continuing previous programs, in cooperation with the University of Paramadina and the STIE Perbanas, BCA once again provides scholarships to students at both institutions.

C.2.1.F. Educational Partnership

BCA's focus on education is reflected in a number of activities:

- **Banking Laboratory for Advocacy Program, Faculty of Economics and Business of University of Brawijaya, Malang:** after the facility was officially inaugurated in March 2012, BCA's support took form in facilitating those lecturers who had experience in the banking industry.
- **University of Gajah Mada, Yogyakarta:**
 - In June 2014: BCA symbolically handed over a donation to build a BCA Banking Corner at the Faculty of Economics and Business, UGM, Yogyakarta, by Cyrillus Harinowo (Independent Commissioner of BCA) to the Rector of UGM. The donation will help complete the learning facility at FEB UGM.
 - In order to develop UGM students' soft skills, and also complete the facility of the Faculty of Culture, UGM, during that occasion, BCA also symbolically handed over a donation for the room renovation of the music non degree program at Koesnadi Hardjoseomantri Cultural Center.
- **PPM School of Management:** BCA was the main sponsor of The 5th PPM Regional Case Competition (RBCC) initiated by PPM School of Management (June – November 2014). This management competition was attended by more than 73 teams from Indonesia and neighboring countries such as

✓ *BCA Director handed over donation resulting from the sales of SR 006 to support the UNICEF child friendly education*

Malaysia, The Philippines, Singapore, and China, amongst others. The event was another form of support from BCA in the field of education, particularly in management, and is intended to promote the competence of the young generation in Indonesia. The Finalists of RBCC have the opportunity to learn about BCA banking solutions, such as contact center Halo BCA and IT BCA.

- **Faculty of Economics and Business, University of Diponegoro:** as continuing support from BCA, especially in the provision of facilities, in 2014, BCA again supported the provision of the Bloomberg facility. BCA also became the sponsor of "Diponegoro Entrepreneur Festival".
- **Faculty of Economics, University of Indonesia:** Once again, BCA became the sponsor for the 3rd Bachelor Journey (MJM/Master Journey Management), and the 7th Doctoral Journey (DJM/Doctoral Journey Management) 2014. A competition for doctoral and master degree students from various institutions and universities in Indonesia.
- **UNICEF:** BCA continues its support for UNICEF's Child Friendly Education. BCA's donation was symbolically handed over by the President Director of BCA, Mr. Jahja Setiaatmadja to the Head Representative of UNICEF Indonesia, Ms. Angela Kearney, on 17 March 2014. The donation was dedicated for the children of Wamena, Papua.

- **Other Foundations or Institutions:** In order to support the efforts to improve the quality of education in Indonesia, BCA also donated to other institutions. The donation and educational funding for NU programs were used for the tutoring activities for high school graduates with challenging economic backgrounds. BCA also sponsored a number of activities carried out by some educational institutions including SMA Kanisius, SMA Al Azhar Bintaro, and others.

C.2.1.G. Education on Banking Solutions & Financial Literacy

To support the financial literacy program, BCA organizes several activities, among others:

- **Financial Literacy for schoolchildren:** Beginning in 2007, BCA has collaborated with KidZania in developing a means of banking education for children in the form of edutainment. The children can learn more about banking solutions, services and ATM functions, as well as get to know some of the professions in the banking industry.
- In addition, some of financial literacy related activities for school children were implemented through several other programs such as BCA Day Care (page 331), or educational program at schools in Jabodetabek (Greater Jakarta) area.
- BCA participated in educational activities using Si Molek, mobile financial literacy program initiated by OJK (Indonesia Financial Services Authority).

✓ *BCA participated in educational activities using Si Molek, mobile financial literacy program initiated by OJK (Indonesia Financial Services Authority)*

✓ *Education banking services at KidZania Jakarta*

Si Molek was launched in February 2014 in Pasar Tanah Abang, Jakarta. Under BCA coordination, this program was held in 14 cities, including Medan, Pekanbaru, Jakarta, Bandung, Cirebon, Semarang, Yogyakarta, Malang, Surabaya, Denpasar, Samarinda, Banjarmasin, Makassar, Manado. Si Molek roadshow was held from February 3 to 7, 2014.

- BCA also supports the Seminar and Workshop program initiated by OJK (Indonesia Financial Services Authority). These financial literacy education activities were in the form of exhibitions, seminars and other activities. Activities were carried out in several regions, such as: Lombok (March 2014), and Jambi (August 2014). In collaboration with other financial institutions, BCA participated in the launching of Microfinance Services in the fishing village of Karangsong, Indramayu, West Java, and Financial Market Festival lasted for two days, in Jakarta in December 2014.

BCA creates and publishes educational materials on BCA banking solutions through a variety of means, one of which is BCA News Rubric. In 2014, BCA entered into collaboration with other mass media such as Kompas, Pikiran Rakyat (PR), Jawa Pos,

Swa Magazine, Tempo Magazine, Kontan tabloid, Kompas.com, Kontan.co.id, Yahoo.co.id, PR online, detik.com mobile versi, Swa online, Tempo online, and various others.

C.2.2. BCA Synergy Solution

In collaboration with a number of institutions which have proven credibility and competence in the field of culture, health, environment, sports, and empathy, BCA organizes several activities under BCA Synergy Solution. The programs in 2014 are as follows:

1. Bakti BCA for Culture;
2. Bakti BCA for Health Care;
3. Bakti BCA for Environment;
4. Bakti BCA for Sports;
5. Empathy program.

C.2.2.A. Bakti BCA for Culture

Developing and preserving cultural heritage are essential components for the development of national human resources as a whole. BCA takes an active role in efforts to preserve and support the development of national culture, as embodied in the “BCA for Indonesian Shadow-Puppetry”. This program was begun in 2012.

In 2014, BCA again conducted several activities as follows:

1. **WOW – World of Wayang:** BCA once again entered into collaboration with Pepadi and Kompas TV in developing a means to introduce and educate the youth about wayang tradition through television. WOW was aired for the first time in 2012 and was

✓ One of the booths of wayang artisan during “Wayang Masuk Mall”.

broadcast every Sunday afternoon on Kompas TV. In the long term the program is expected to foster pride and to motivate the youth to learn and develop wayang. In 2014, Season IV comprising 13 episodes was aired and part of Season V also comprising 13 episodes up to February 2015. The theme for 2014, among others: documentary of wayang as developed by young generation (Season IV), and Ramayana, the Love Epic (Season V), and many more.

2. **Wayang for Students**, an educational program for students from elementary school until high-school that was held in Ubud, Bali. In collaboration with “Rumah Topeng & Wayang Setia Darma”, on April 2014, BCA held a series of activities including wayang performances, seminars, and interactive activities. Visitors were entertained with sasak wayang, modern Balinese wayang, and electric wayang performed by famous “Dalang”. The activities lasted for 3 days and were attended by 1,500 students and their teachers.
3. **Wayang Goes to Campus**, University of Indonesia: BCA supported the event as part of the efforts to develop a means for Indonesian cultural education aimed at the youth, particularly college students. The activities include an exhibition, seminar, and wayang performance.
4. **Education on the art of theater for the youth**, as part of the efforts to develop the art of theater in Indonesia. The program was conducted by inviting the youth to watch professional theater. During the occasion, the students were also given a chance to discuss with the artists and to observe backstage preparation. BCA invited scholarship recipients from UI, ITB, IPB, and Unpad to watch the play “Republik Cangik” in November 2014, and students from SMAN 3 Tatanan watch the play “Demonstran” in March 2014, both performed by Teater Koma.

5. **Wayang at the Mall:** a continuation of the 2013 program Wayang Goes to School which took place in Semarang, on August 2014 BCA once again held an educational program introducing wayang to the young generation in Semarang. On this occasion, BCA collaborated with the Provincial Government and radio JFM Semarang. This event was held in a mall in Semarang and lasted for 3 days. "Wayang Masuk Mall" involved participation from young artists, among others Woro Mustika Siwi, Jose Amadeus Krisna Fow, and students from a number of schools.
6. In November 2014, BCA supported the development and introduction of art 'brut', art works produced by artists with mental disorders. This even presented the artist Dwi Putro Mulyono, and was held in ITB Art Festival, Bandung.
7. Indonesia Cinema Development: BCA once again sponsored the "The 8th Annual Balinale International Film". This program was intended by the organizer as a means to develop cinema in Indonesia.
8. BCA was also active in supporting a number of institutions and organizations which have dedication and integrity in helping develop our culture. BCA's support may take the form of donation or sponsorship, among others are the publishing of "Bharatayudha" wayang-comic initiated by Unima Indonesia, "Festival Dalang Bocah" organized by Pepadi, the play by Theater Koma "Demonstran and Republik Cangik", "Wayang Kulit and Tari Jawa Klasik", leather art mission in Thailand. Pepadi, cultural mission of

Senawangi in Indonesia Culture, Asean Puppetry Association 2014, "Wayang Orang Bharata", solo recital piano Indonesia, Theater Wayang Indonesia (Senawangi), the publishing of "Wayang Potehi of Java", art program at Salihara Community, and many more.

C.2.2.B. Bakti BCA in Health

Public health is one of the essential factors in the development of a nation. Therefore, BCA actively participates in public health care activities. This CSR Program in the field of health includes the provision of affordable health care services for the underprivileged carried out in collaboration with institutions with proven competence and credibility in the field of health care services.

A number of CSR activities in the field of health in 2014 are as follows:

1. Cataract Surgery

In collaboration with the Cataract Blindness Control unit of the Association of Indonesian Ophthalmologist (SPBK Perdami), BCA organized free cataract surgery for unprivileged people. This program has been implemented since 2001 with the objective of reducing the number of cataract sufferers, an illness that can lead to blindness, and thereby damaging people's productivity.

This activity is aligned with the Government and WHO (World Health Organization) program of Vision 2020, the right to sight, a global initiative to reduce blindness in the world.

In 2014, BCA organized cataract surgery in several regions including Klinik Nur Hikmah, Parung, Bogor; RS Qdar, Tangerang; RSUD H. Damanhuri, Barabai, kabupaten Hulu Sungai Tengah, Kalimantan Barat; RS Awal Bros, Batam, Isles of Riau; RSUD Larantuka, Flores Timur, Nusa Tenggara Timur. As of December 2014, a total of 434 surgeries have been performed in many regions in Indonesia.

BCA Directors inaugurate "Wayang Masuk Mall".

2. Duri Utara Health Care Clinic

Since 2012, BCA collaborates with the management of Duri Utara Clinic in facilitating affordable health care services for the underprivileged. This program is part of BCA's active participation in promoting access to health care services for the underprivileged.

Coinciding with the 57th Anniversary of BCA in February 2014, BCA facilitated free health care services, in the form of pregnancy check-ups (USG) and laboratory access for people who reside in the vicinity of Duri Utara Clinic. In 2014, Duri Utara Clinic provided health care services including general medical consultation and medication, birth control, minor surgery or wound treatment, immunization for children, and vaccinations for adults.

3. Bakti BCA Blood Donation: BCA has collaborated with PMI in organizing blood donation programs since 1991. BCA actively organizes blood donation activities attended by employees and management of BCA. In general, blood donation drives are held 3 to 4 times a year, taking place at BCA head office and branch offices. In 2014, BCA donated 1,962 blood bags to PMI.

4. Donating Equipment for Cataract Surgery: Coinciding with BCA's 57th Anniversary in February 2014, BCA donated equipment for cataract surgery, namely one microscope to the

administrator of SPBK Perdami, symbolically handed over by Jahja Setiaatmadja to Dr. Yeni Dwi Lestari SpM.

5. Health Care Services at Desa Bleberan: health care services took place on February 2014 at Desa Bleberan, Playen, Yogyakarta including for villagers a free health care service and medical check-up. In addition, BCA also facilitates blood donation activities in collaboration with local "karang taruna".

6. Others: BCA also gave donations to Maternity Hospital & Clinic Kudus. As part of its health education program, BCA gave donations or sponsorships to a number of institutions, among others Fun Walk for Eye Donor Awareness (Perkumpulan Penyantun Mata Tunanetra Indonesia (PPMI) and Bank Mata Indonesia), National Milk Day (Student Executive Board of Faculty of Animal and Agricultural Sciences Universitas Diponegoro), Alzheimer Awareness Program (Alzheimer Foundation - ALZI), and TBC Eradication program, amongst others.

C.2.2.C. Bakti BCA in Environment

Environmental preservation is one of the efforts to safeguard the ecosystem and to minimize environmental impacts. To that end, BCA entered into partnership with a number of institutions which have concern and capabilities to undertake a series of environmental activities, as described on page 325 in this report.

✓ Participants of cataract surgery, a program held by BCA

✓ BCA Director handed over apparatus for cataract surgery to SPBK Perdami

C.2.2.D. Bakti BCA in Sport

BCA also shows its concern to the development of sports in Indonesia and supports a number of sporting organizations. In 2014, BCA became the main sponsor for an international badminton competition, initiated by BWF (Badminton World Federation) in partnership with PBSI (Indonesian Badminton Federation), as well as other institutions, under the name of "BCA Indonesia Open (BIO) 2014". A Memorandum of Understanding between BCA and PBSI was signed in May 2014. The tournament lasted for 6 days (17 – 22 June 2014), at Istora Senayan, Jakarta. BIO 2014 was an annual badminton event in Indonesia that received good attention and response from badminton athletes and organizations worldwide. The mascot for this event was designed based on Indonesian culture. During the reception party, a booth was built to introduce the art of wayang during which athletes and officials can try to put on costumes or paint the wayang puppets.

BCA also supported or sponsored the Electro Run 2014 (June 2014), Boat Competition and many more. In addition to supporting national sport development, these programs are also intended as a healthy lifestyle campaign.

✓ For the first time, BCA became the main sponsor for an international level badminton competition

✓ BCA Director handed over donation for the victim of flood to PMI DKI Jakarta

C.2.2.E. Empathy

BCA is active in giving donations for victims of natural disasters. In 2014, Bakti BCA gave donations for natural disaster victims in many regions. Bakti BCA gave donations to victims of flooding in Manado, handed over in January and February 2014.

BCA collaborated with competent institutions in handling disaster relief effort. In January 2014, the Director of BCA symbolically handed over the donation for the victims of flooding in Jakarta, to the Head of PMI DKI Jakarta. In addition, the management and the employees of BCA also collected food, bottled water, and clothes under the coordination of branch offices, to be donated to the victims of floods in Jabodetabek. BCA also gave donations for victims of the flood in Purworejo, Gunung Sinabung in North Sumatra, Gunung Kelud in Central Java and victims of a landslide in Banjarnegara, Purwokerto.

C.2.2.F. Others

BCA gave donations for insitutions and organizations who conduct social activities in the interest of the general public, in line with the pillars of BCA's CSR activities. Donations were given in accordance with the needs of the institutions or organizations. As an illustration, in 2014, BCA gave donations to a number of social activities for children, donations for orphanages and the unprivileged, donation for Yayasan Pepabri, Corps Cacat Veteran RI, LVRI, Purnayuda, and many more.

C.2.3. BCA Excellent Business Solution

Community empowerment aims to create an environment whereby people can grow and progress independently. BCA supports the efforts of community empowerment through BCA Excellent Business Solution. This program was developed in line with BCA's advantage in payment systems.

Programs implemented under BCA Excellent Business Solution include:

1. Business Development Institution (LPB) Mitra Bersama;
2. Partnership with Community.

C.2.3.A. Business Development Institution (LPB) Mitra Bersama

Small and Medium Entrepreneurs (SMEs) play a major role in Indonesia and they have proven themselves resilient during times of crisis. SMEs provide jobs and business opportunities for millions of people and help strengthen the fundamentals of the Indonesian economy.

In 2009, in collaboration with two other prominent companies in Indonesia, PT Astra Internasional Tbk and PT Pertamina (Persero), BCA established the Business Development Institution (LPB) Mitra Bersama, with the objective, among others, of providing facilities for SMEs to develop sustainable and competitive businesses.

To help achieve the objectives of LPB Mitra Bersama, the founding corporations were assisted by Yayasan Dharma Bhakti Astra. To date, LPB Mitra Bersama has been established in several cities, such as Sidoarjo (East Java), Palembang (South Sumatera), Bukit Tinggi (West Sumatera), Yogyakarta and Pontianak.

The advocacy provided by LPB Mitra Bersama is provided through a number of programs including consultation and training (financial management for simple accounting, management, motorcycle workshop, waste management, packaging

management, internet/website training, quality control training), marketing and promotion, introduction to banking and finance (banking products and services socialization), SME finance, network development, for instance SME meetings, bazaars, etc. The managers of LPB Mitra Bersama also collaborate with education institutes and local government to provide better services for SMEs.

To date, member of LPB Mitra Bersama include:

- LPB Mitra Bersama Sidoarjo, East Java: 560 SMEs in the field of handicrafts, repair shop, convection, motor cycle spare parts, other.
- LPB Mitra Bersama Palembang, South Sumatera: 138 SMEs in the field of natural-fibre fabrics, repair shop, other.
- LPB Bukit Tinggi, West Sumatera: 31 SMEs in the field of food products, embroidery, repair shop, other.
- LPB Mitra Bersama Yogyakarta 177 SMEs in the field of handicrafts, repair shop, food products, trading, other.
- LPB Mitra Bersama Pontianak : 114 SMEs in the field of food products, handicrafts, and repair shop.

To further promote the development of SMEs in different regions, LPB Mitra Bersama actively encourages collaboration with a number of educational institutions and related government agencies.

C.2.3.B. Partnership with Community

Forging partnerships with various communities is another of BCA's undertakings to further develop local potentials through which is expected to open new business and employment opportunities for local communities. These undertakings also aim to promote the well-being and independence of the community. Indirectly, it supports national economic development.

In 2014, BCA undertook the following programs:

a. Bejiharjo Tourism Village - Paguyuban Wirawisata Gelaran

Paguyuban Wirawisata Gelaran is a community initiated by Karang Taruna Gelaran II with full support from local community leaders. One of the programs developed by Paguyuban Wirawisata Gelaran is community empowerment, particularly the development of Desa Wisata Wirawisata Gua Pindul, at Bejiharjo Village, Gunung Kidul, Yogyakarta. This program is intended to assist in the development of the village with jobs and business opportunities for the youth and the local community.

BCA assists the efforts conducted by Karang Taruna Gelaran II Desa Bejiharjo since 2012 by installing BCA Electronic Data Capture (EDC) as an alternative payment facility for visitors of Gua Pindul. As continuation of BCA support, in order to develop human resource quality, in 2014, BCA focused its support on the development of soft skills for the administrator of the tourist village, among others, by providing experiential learning/outdoor training, which included development of promotion materials, development of games package and tools, training on the installation of the tools, and more. The training aims at developing and completing the existing facilities for water recreation. In addition, BCA also held training on service quality, knowledge of tourism, and online promotion and communication. The positive outcome resulted from this advocacy activities was evidenced by the increased income, which grew by more than 20 times when compared with income prior to BCA advocacy.

b. Desa Bleberan: Also known as Sri Getuk, this tourist village boasts mesmerizing scenery. To provide better access for visitors, on November 2014, BCA carried out training on the use and management of online promotional and communication tools.

c. Desa Wukirsari

The villagers at Desa Wukirsari in Imogiri, Bantul, were famous for their mastery of batik and wayang tatah sungging. Leveraging on this uniqueness,

Desa Wukirsari has evolved to become a tourist village. Visitors are introduced to the art of wayang, the making of wayang and batik, and they can try to make kaing wayang or batik themselves, all while living in the Indonesian rural atmosphere. BCA assists by organizing a 2-day training event on skills and management of the tourist village, which includes a benchmarking study with other forms of tourism services. The training aims to broaden the perspective and improve the soft skills of the local community, especially in management, so that they can improve their service offerings to tourists visiting Wukirsari. In November 2014, the management of the tourist village was invited to attend training on managing online promotional and communication tools.

d. Desa Penteng Sari

Desa Penteng Sari, also known as Dewi Peri, is situated on the slope of Gunung Merapi, Cangkringan, Sleman, Yogyakarta. It has the potential to be developed as an eco-tourism village as well as cultural and farming tourist village. Tourists can live and experience rural living. BCA provides training for the management team of the village, related to the maintenance and management of facilities and HR. This 2-day training covered various subjects, among others, tourism industry and its management, excellent services, teamwork, and communication. BCA facilitated the trainees to conduct a benchmarking study at the excellent services at a hotel in Yogyakarta.

✓ *Experiential learning/outdoor training for the administrators of village under Bakti BCA patronage*

D. CUSTOMER PROTECTION

D.1. Policy

Playing a central role in collecting and distributing public funds, the banking industry relies heavily on public trust. That is why BCA constantly maintains customer trust by applying the principle of prudence and prioritizing customer safety and service. Optimally protecting customer interests is the key to building customer confidence within the banking system.

Customer protection also serves as embodiment of one of BCA's corporate values, namely customer focus. At BCA, business management is not merely seeking profitability but also seeks to provide banking solutions for customers, partners and the public. The development of banking solutions is oriented to customer needs and by paying attention to customer protection and safety, consistently performed.

D.2. Execution

D.2.1 Customer Education

Conducting customer education is one preventive tool to avoid fraudulent transactions or other forms of fraud. BCA consistently develops various educational programs related to transaction security when using BCA banking products and services, BCA customer education programs are carried out consistently and continuously in cooperation with mass media, both traditional media and online media, in the form of a rubric called "News BCA". The rubric is an educational tool for BCA banking solutions. Halo BCA 1500888 is also printed on the article as a solution center for BCA banking transaction.

The dissemination of Halo BCA numbers and procedures in respect to the safety and comfort of BCA customers, and the public, is done through www.bca.co.id website and twitter account Halo BCA as the main social media accounts.

In addition, BCA develops customer education channels through its official social media accounts:

D.2.2. Customer Complaint Mechanisms

In line with BCA's commitment in protecting its customers, and in accordance with banking regulators and consumer protection institutions, BCA provides various channels of communication for customers to reach BCA. Customer input, either in the form of suggestions or criticisms, is valuable in the Bank's efforts to improve our services. BCA provides a number of communication channels as a means of support for customer protection, including:

- 24-hour Contact Center Halo BCA;
- email to halobca@bca.co.id;
- Face to face with BCA front liners.

BCA always pays attention to, and will follow up on, serious or valuable customer input or complaints. Solutions to problems will be followed through by the related branch, office or unit.

D.2.3. Halo BCA

BCA's 24-hour contact center service, Halo BCA 1500888, is a means for customers to communicate with BCA. Through this service, customers can obtain important information related to BCA products and services. Halo BCA also receives feedback and complaints from customers.

Halo BCA forwards customer complaints to the relevant parties and coordinates with related units or branches in order to provide solutions to the complainants. BCA constantly works to improve the quality of Halo BCA staff by providing and updating product knowledge related to various BCA's banking solutions.

Throughout 2014, Halo BCA received 12,553,891 incoming calls including 696,439 (5,5%) customer complaints, with the rest of the calls (94.5%) about product or service inquiries. In general, complaints were resolved in accordance with BCA service level targets. As an illustration, in December 2014, complaint settlement reached 97.31% of the total complaints in that month.

D.2.4. Letters to the Editor

Letters to the editor in printed mass media are an important alternative source to get feedback from customers. BCA always responds to any input and complaints contained in letters to the editor through the Corporate Secretary's office. In responding and following up complaints from the printed mass media, the Corporate Secretary coordinates with Halo BCA or related unit/branch. In 2014, there were 143 instances of customer input submitted about BCA through letters to the editors in a number of printed media with all of them followed up or settled.

D.2.5. Social Network Media

BCA utilizes social networks to engage communicate with customer through social media platforms, such as Facebook, Twitter, Youtube, Mindtalk, Instagram, Kaskus and Slideshare. During 2014, @HaloBCA gets 60,749 mentions and 58,234 followers. Customer can submit their input through BCA official social media accounts as mentioned at www.bca.co.id/socialmedia and in this report page 345.

D.2.6. Customer Complaint Channels

BCA is active in educating customers on its communication channels through various promotional materials and other written materials (such as saving books, starter packs, etc.) by including information on how to contact BCA through contact center services - Halo BCA 1500888 or the BCA website www.bca.co.id. Many customers also use email to communicate with BCA. In 2014, there were 129,594 emails from customers, including inquiries on products or services, input, as well as issues related to the services provided by BCA.

Feedback on Customer Complaint

BCA always strives to give the best possible feedback to every complaint and input that come through various communication media.

D.2.7. Customer Complaint Handling

As part of its efforts in maintaining customer satisfaction and improving its services, BCA continues to pay attention to each customer's needs and aspirations. By opening channels to accommodate complaints and suggestions through various communication media, BCA strives to respond to incoming complaints and to provide solutions for customers.

Halo BCA has gained appreciation and achieved recognition from several national and international independent parties. Halo BCA received 107 awards in 2014 including ICCA (Indonesia Contact center Association), CCSL (Center for Customer Satisfaction & Loyalty), Perbanas, AFCAL (Asia Pacific Contact Association Leadership), CCW (Contact Center World).

D.2.8. Development of Customer Complaints Handling

BCA strives to provide the best services in order to deliver optimal benefits and added values for all stakeholders. In the future, BCA will continue to develop and improve procedures on handling complaints and suggestions.

D.2.9. Customer Service Improvement Program & Branch Network Development

BCA is committed to always providing the best services for customers. BCA continues to develop its branch network. In 2014, BCA increased the number of branches to 1,111 from 1,062 in 2013. Expansion of the BCA branch network was intended to deepen BCA's reach in various cities in Indonesia.

D.2.10. ATM Network Setup and Synergy

To improve its services, BCA always performs monitoring and analysis on its ATM network development and network synergy. This is done to provide the best services and the best banking solutions for customers and people.

D.2.11. Public Recognition

The implementation of BCA's commitment and excellent services is evidenced by various accolades from various independent institutions, local and abroad. In 2014, BCA received various awards as contained in this Annual Report, page 496-503. These accolades encourage BCA to constantly improve its services and procedures of receiving and responding complaints and inquiries from its customers.

Independent Auditors' Report

No.: L.14 - 2318 - 15/II.16.003

The Shareholders,
The Board of Commissioners and Directors
PT Bank Central Asia Tbk:

We have audited the accompanying consolidated financial statements of PT Bank Central Asia Tbk and its subsidiaries, which comprise the consolidated statement of financial position as of 31 December 2014, the consolidated statements of comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of PT Bank Central Asia Tbk and its subsidiaries as of 31 December 2014, and their consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Other matter

Our audit of the accompanying consolidated financial statements of PT Bank Central Asia Tbk and its subsidiaries as of 31 December 2014, and for the year then ended, were performed for the purpose of forming an opinion on these consolidated financial statements taken as a whole. The accompanying financial information of PT Bank Central Asia Tbk (parent entity), which comprises the statement of financial position as of 31 December 2014, and the statements of comprehensive income, changes in equity, and cash flows for the year then ended (collectively referred to as the "Parent Entity Financial Information"), which is presented as a supplementary information to the accompanying consolidated financial statements, is presented for the purposes of additional analysis and is not a required part of the accompanying consolidated financial statements under Indonesian Financial Accounting Standards. The Parent Entity Financial Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the accompanying consolidated financial statements. The Parent Entity Financial Information has been subjected to the auditing procedures applied in the audit of the accompanying consolidated financial statements in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. In our opinion, the Parent Entity Financial Information is fairly stated, in all material respects, in relation to the accompanying consolidated financial statements taken as a whole.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL

a. Establishment and general information of the Bank

PT Bank Central Asia Tbk (the “Bank”) was established in the Republic of Indonesia based on the Notary Deed No. 38 of Raden Mas Soeprapto dated 10 August 1955 under the name of “N.V. Perseroan Dagang Dan Industrie Semarang Knitting Factory”. This deed of establishment was approved by the Minister of Justice in its decision letter No. J.A.5/89/19 dated 10 October 1955 and was published in Supplement No. 595 to State Gazette of the Republic of Indonesia No. 62 dated 3 August 1956. The name of the Bank has been changed several times with the latest change was PT Bank Central Asia based on the Notary Deed No. 144 of Wargio Suhardjo, S.H., the substitute of notary public Ridwan Suselo, dated 21 May 1974.

The Bank’s Articles of Association have been amended several times, including amendments in relation to the Initial Public Offering of the Bank’s shares in May 2000, which among others, changed its status to a publicly-listed company and its name to PT Bank Central Asia Tbk. These amendments were made based on Notary Deed No. 62 of Hendra Karyadi, S.H., dated 29 December 1999, which was approved by the Minister of Justice in its decision letter No. C-21020 HT.01.04.TH.99 dated 31 December 1999 and published in Supplement No. 1871 to the State Gazette of the Republic of Indonesia No. 30 dated 14 April 2000.

The amendment made in relation to the issuance of new shares under the Management Stock Option Plan (“MSOP”), for which the options were exercised up to 31 December 2006, was made based on Notary Deed No. 1 of Hendra Karyadi, S.H., dated 9 January 2007. This deed was approved by the Minister of Justice and Human Rights under its decision letter No. W7-HT.01.04-797 dated 18 January 2007 and published in Supplement No. 185 to the State Gazette of the Republic of Indonesia No. 15 dated 20 February 2007.

The latest amendment to all articles in the Bank’s Articles of Association was made based on Notary Deed No. 19 of Dr. Irawan Soerodjo, S.H., MSi., dated 15 January 2009. This deed was approved by the Minister of Justice and Human Rights in its decision letter No. AHU-12512.AH.01.02 dated 14 April 2009 and published in Supplement No. 12790 to the State Gazette of the Republic of Indonesia No. 38 dated 12 May 2009.

The Bank started its commercial operations in the banking business since 12 October 1956. According to Article 3 of the Bank’s Articles of Association, the Bank operates as a commercial bank. The Bank is engaged in banking activities and other financial services in accordance with the prevailing regulations in Indonesia. The Bank obtained its license to conduct these activities under the Minister of Finance Decision Letter No. 42855/U.M.II dated 14 March 1957. The Bank obtained its license to engage in foreign exchange activities based on the Directors of Bank Indonesia Decision Letter No. 9/110/Kep/Dir/UD dated 28 March 1977.

The Bank is domiciled in Jakarta with its head office located at Jalan M.H. Thamrin No. 1. As of 31 December 2014 and 2013, the Bank had the following branches and representative offices:

	2014	2013
Domestic branches	968	953
Overseas representative offices	2	2
	<u>970</u>	<u>955</u>

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

a. Establishment and general information of the Bank (continued)

The domestic branches are located in major business centers all over Indonesia. The overseas representative offices are located in Hong Kong and Singapore.

b. Recapitalization of the Bank

Based on the Indonesian Bank Restructuring Agency (“IBRA”) Decision Letter No. 19/BPPN/1998 dated 28 May 1998, the IBRA took over the operations and management of the Bank. Accordingly, the Bank’s status was changed into a Bank Taken Over (“BTO”). The Bank was determined as a participant of the bank recapitalization program under the Minister of Finance and the Governor of Bank Indonesia joint decision No. 117/KMK.017/1999 and No. 31/15/KEP/GBI dated 26 March 1999 regarding the implementation of the bank recapitalization program for Bank Taken Over.

In conjunction with the recapitalization program, on 28 May 1999 the Bank received a payment of Rp 60,877,000 from the Government of the Republic of Indonesia. This amount consisted of (i) the principal amount of loans granted to affiliated companies that were transferred to IBRA (consisting of Rp 47,751,000 transferred effectively on 21 September 1998 and Rp 4,975,000 transferred effectively on 26 April 1999), and (ii) accrued interest on the loans granted to affiliated companies calculated from their respective effective transfer dates up to 30 April 1999, amounted to Rp 8,771,000, minus (iii) the excess of outstanding Liquidity Support from Bank Indonesia (including interest) amounted to Rp 29,100,000 over the recapitalization payment from the government through IBRA of Rp 28,480,000. On the same date, the Bank used such proceeds to purchase newly issued government bonds of Rp 60,877,000 (consisted of fixed-rate government bonds amounted to Rp 2,752,000 and variable-rate government bonds amounted to Rp 58,125,000 through Bank Indonesia).

Pursuant to the Chairman of IBRA Decision Letter No. SK-501/BPPN/0400 dated 25 April 2000, IBRA returned the Bank to Bank Indonesia effective on that date. To fulfill the requirement of Bank Indonesia Regulation (“PBI”) No. 2/11/PBI/2000 dated 31 March 2000, Bank Indonesia announced in its press release Peng. No. 2/4/Bgub dated 28 April 2000, that the recovery program including the restructuring of the Bank had been completed and the Bank had been returned to be under the supervision of Bank Indonesia.

c. Public offering of the Bank’s shares

Based on the Letter of the Chairman of the Capital Market Supervisory Agency No. S-1037/PM/2000 dated 11 May 2000, the Bank through an Initial Public Offering, offered its 662,400,000 shares with a total par value of Rp 331,200 (offering price of Rp 1,400 (full amount) per share), which represents 22% (twenty two percent) of the issued and paid-up share capital, as part of the divestment of shares owned by the Republic of Indonesia as represented by IBRA. This public offering was registered at the Jakarta Stock Exchange and the Surabaya Stock Exchange on 31 May 2000 (both exchanges have been merged and now namely the Indonesia Stock Exchange).

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

c. Public offering of the Bank's shares (continued)

The Bank's shareholders through the Extraordinary General Meeting of Shareholders ("EGMS") held on 12 April 2001 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 25) resolved to conduct a stock split from Rp 500 (full amount) per share to Rp 250 (full amount) per share and to increase the issued shares through the issuance of 147,199,300 shares (or equivalent to 294,398,600 shares after the stock split) under the Management Stock Option Plan ("MSOP"). The stock split was made under the Notary Deed No. 30 of Hendra Karyadi, S.H., dated 12 April 2001, which was approved by the Minister of Justice and Human Rights on 18 April 2001.

Based on the Letter of the Chairman of the Capital Market Supervisory Agency No. S-1611/PM/2001 dated 29 June 2001, the Bank offered additional 588,800,000 shares with a total par value of Rp 147,200 (at an offering price of Rp 900 (full amount) per share), which represents 10% (ten percent) of the issued and paid-up share capital, as part of the divestment of shares owned by the Republic of Indonesia as represented by IBRA. This public offering was registered at the Jakarta Stock Exchange and the Surabaya Stock Exchange on 10 July 2001.

The Bank's shareholders through the Annual General Meeting of Shareholders ("AGMS") held on 6 May 2004 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 16) approved the stock split from Rp 250 (full amount) per share to Rp 125 (full amount) per share. The stock split was made under the Notary Deed No. 40 of Hendra Karyadi, S.H., dated 18 May 2004, which was approved by the Minister of Justice and Human Rights on 26 May 2004.

EGMS held on 26 May 2005 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 42) approved the buy back of the Bank's shares, provided that the buy back of shares has been approved by Bank Indonesia, whereby the number of shares to be bought back should not exceed 5% (five percent) of the Bank's total issued shares as of 31 December 2004, i.e. in total of 615,160,675 shares, and total fund to buy back the shares should not exceed Rp 2,153,060. With Letter No. 7/7/DPwB2/PwB24/Rahasia dated 16 November 2005, Bank Indonesia expressed no objection on the Bank's plan to buy back its shares.

EGMS held on 15 May 2007 (with the minutes prepared by notary public Hendra Karyadi, S.H., in the Deed No. 6) approved the buy back of the Bank's shares stage II, provided that the buy back of shares has been approved by Bank Indonesia and executed from time to time during the period of 18 months after the date of the meeting, whereby the number of shares to be bought back should not exceed 1% (one percent) of the Bank's total issued shares as of 27 April 2007 or in total of 123,275,050 shares and the total fund to buy back the shares should not exceed Rp 678,013. With Letter No. 9/160/DPB 3/TPB 3-2 dated 11 October 2007, the Bank received an approval from Bank Indonesia in relation to buy back of shares stage II.

EGMS held on 28 November 2007 (with the minutes prepared by Notary Public Hendra Karyadi, S.H., in the Deed No. 33), approved to conduct a stock split of the Bank's shares from Rp 125 (full amount) to Rp 62.50 (full amount) per share and therefore decided to amend note 1, note 2 and note 3 of Article 4 of the Bank's Articles of Association. The Amendments of the Bank's Articles of Association by the Deed of Notary Public Hendra Karyadi, S.H., dated 11 December 2007 were received and recorded by the Department of Law and Human Rights of the Republic of Indonesia by the Deed on the Receipt Report on the Amendment of the Articles of Association No. AHU-AH.01.10-0247 dated 3 January 2008.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

c. Public offering of the Bank's shares (continued)

Based on Letter No. 038/IQ-ECM/LTR/HFJ/XI/2008.TRIM dated 26 November 2008, the buy back of shares stage II for the period of 11 February 2008 to 13 November 2008 had been performed with the number shares bought back in total of 397,562 lot or 198,781,000 shares with the average acquisition cost of Rp 3,106.88 (full amount) per share. Therefore, total shares bought back as of 13 November 2008 were 289,767,000 shares with a total amount of Rp 808,585.

On 7 August 2012, the Bank sold 90,986,000 shares of its treasury stocks at Rp 7,700 (full amount) per share, with total net sales amounted to Rp 691,492. The difference between the acquisition costs and selling price of treasury stocks amounted to Rp 500,496 was recorded as "additional paid-in capital from treasury stock transactions", which is part of additional paid-in capital (see Note 21). As of 31 December 2012, total treasury stocks of the Bank were 198,781,000 shares with a total amount of Rp 617,589.

On 7 February 2013, the Bank sold 198,781,000 shares of its treasury stocks at Rp 9,900 (full amount) per share, with total net sales amounted to Rp 1,932,528. The difference between acquisition costs and selling price of treasury stocks amounted to Rp 1,314,939 was recorded as "additional paid-in capital from treasury stock transactions", which is part of additional paid-in capital (see Note 21). As of 31 December 2013, the Bank did not have any treasury stocks.

The majority shareholder of the Bank is FarIndo Investments (Mauritius) Ltd., which owned 47.15% of the Bank's issued and fully paid shares as of 31 December 2014. The ultimate shareholders of the parent entity of the Bank are Mr. Robert Budi Hartono and Mr. Bambang Hartono.

d. The Subsidiaries

The Subsidiaries, directly and indirectly owned by the Bank as of 31 December 2014 and 2013, were as follows:

Name of the Company	Year of Starting the Commercial Operation	Type of Business	Domicile	Percentage of Ownership		Total Assets	
				2014	2013	2014	2013
PT BCA Finance	1981	Consumer financing, finance lease, factoring	Jakarta	100%	100%	6,128,419	5,798,034
BCA Finance Limited	1975	Money lending	Hong Kong	100%	100%	446,534	444,850
PT Bank BCA Syariah	1991	Sharia banking	Jakarta	100%	100%	2,994,449	2,041,419

⁾ Bank had indirect ownership of 25% (twenty five percent).

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

d. The Subsidiaries (continued)

PT BCA Finance

PT BCA Finance, a company domiciled in Indonesia and located at Wisma BCA Pondok Indah, 2nd Floor, Jalan Metro Pondok Indah No. 10, South Jakarta, was established in 1981 under the name of PT Central Sari Metropolitan Leasing Corporation (“CSML”). At its inception, the shareholders of CSML were PT Bank Central Asia and Japan Leasing Corporation.

In 2001, PT Central Sari Metropolitan Leasing Corporation changed its name to PT Central Sari Finance (“CSF”), followed by changing in the composition of its shareholders, where PT Bank Central Asia Tbk became the majority shareholder, and changing of its business focus to motor vehicles financing activities, in particular for four wheels or more vehicles. Further, based on the Decision Letter of Minister of Law and Human Rights of the Republic of Indonesia No.C-08091 HT.01.04.TH.2005 dated 28 March 2005, PT Central Sari Finance’s name was changed to PT BCA Finance.

BCA Finance Limited

BCA Finance Limited, a company domiciled in Hong Kong and located at Room 3211-3215, Jardine House, 1 Connaught Place, Central, Hong Kong, is engaged in money lending and has been operating commercially since 1975.

PT Bank BCA Syariah

PT Bank BCA Syariah (formerly PT Bank UIB), a company domiciled in Indonesia and located at Jalan Jatinegara Timur No. 72, East Jakarta, is engaged in banking activities and has been operating commercially since 1991.

Based on the Acquisition Deed No. 72 dated 12 June 2009 of Notary Public Dr. Irawan Soerodjo, SH., Msi., PT Bank Central Asia Tbk acquired 42,500 shares of PT Bank UIB or equivalent to 100% (one hundred percent) of ownership.

Based on the Deed of Resolutions in lieu of General Meeting of Shareholders of PT Bank UIB No. 49 of Notary Public Ny. Pudji Redjeki Irawati, S.H. dated 16 December 2009, PT Bank UIB changed its business activities to become sharia bank and changed its name to PT Bank BCA Syariah. The deed of amendment was approved by the Minister of Justice of the Republic of Indonesia in its Decision Letter No. AHU-01929.AH.01.02 dated 14 January 2010.

The change in business activities of the Subsidiary from conventional bank into sharia bank was approved by the Governor of Bank Indonesia through its Decision Letter No. 12/13/KEP.GBI/DpG/2010 dated 2 March 2010. Through this approval, on 5 April 2010, PT Bank BCA Syariah officially operated as a sharia bank.

1. GENERAL (Continued)

d. The Subsidiaries (continued)

PT Bank BCA Syariah (continued)

Based on the Deed of Resolution in lieu of General Meeting of Shareholders No. 73 dated 21 October 2010 of Notary Public Ny. Pudji Redjeki Irawati, S.H., to fulfill the requirements of Article 6 of Bank Indonesia Regulation No. 11/15/PBI/2009 regarding conversion of business activities from conventional bank to sharia bank, the Subsidiary presented its first financial statements as a sharia bank by presenting current and prior year income in nil balance. Considering this matter, the shareholders of the Subsidiary approved the utilization all of the Subsidiary's retained earnings as of 2 April 2010 of Rp 53,838 to be allocated as general reserve amounted to Rp 38 and to be converted as 53,800 new shares amounted to Rp 53,800. The deed of amendment was ratified by the Minister of Justice of the Republic of Indonesia in its Decision Letter No. AHU-01.10-30741 dated 1 December 2010. The deed had been reported by the Subsidiary to Bank Indonesia through its Letter No. 294/DIR/2010 dated 28 October 2010 and Letter No. 105/SKHS/2010 dated 9 December 2010. The approval from Bank Indonesia was obtained through its Letter No. 12/2564/DPBs dated 17 December 2010.

Total net assets acquired and goodwill arising from acquisition of the Subsidiary at the date of acquisition were as follows:

	<u>Total</u>
Purchase price	248,256
Deducted by: Fair value of the net assets of acquired Subsidiary	<u>(110,864)</u>
Goodwill	<u>137,392</u>

During 2014, there was an increase in share capital of PT Bank BCA Syariah amounted to Rp 300,000.

PT BCA Sekuritas

PT BCA Sekuritas (formerly PT Dinamika Usaha Jaya), a company domiciled in Indonesia and located at Menara BCA, Grand Indonesia, 41st Floor, Suite 4101, Jalan M.H. Thamrin No. 1, Jakarta, is engaged as securities broker, underwriter and investment manager since 1990.

Based on the Deed of Sale and Purchase Agreement No. 56 dated 15 September 2011, the Bank signed a sale and purchase agreement with the owner of PT Dinamika Usaha Jaya to acquire PT Dinamika Usaha Jaya. The purchase was approved by Bank Indonesia on 19 July 2011. This transaction was a transaction of entities under common control, such that it was recorded in accordance with Statement of Financial Accounting Standard ("PSAK") No. 38 (2012 Revision) under pooling-of-interests method.

On 2 October 2012, based on the Deed of Minutes of Extraordinary General Meeting of Shareholders of PT Dinamika Usaha Jaya No. 5 of Notary Public Dr. Irawan Soerodjo, S.H., Msi., PT Dinamika Usaha Jaya changed its name to PT BCA Sekuritas. This change was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-54329.AH.01.02 dated 22 October 2012.

During 2013, there was an increase in share capital of PT BCA Sekuritas amounted to Rp 110,000.

d. The Subsidiaries (continued)

PT Asuransi Umum BCA

PT Asuransi Umum BCA (formerly PT Central Sejahtera Insurance), a company domiciled in Indonesia and located at WTC Mangga Dua, 3Ard Floor, Block CL 003, Jalan Mangga Dua Raya Kav. 8, North Jakarta, is engaged in insurance activities, in particular in general or loss insurance activities.

PT Asuransi Umum BCA was established in 1988 under the name of PT Asuransi Ganesha Danamas. In 2006, PT Asuransi Ganesha Danamas changed its name to PT Transpacific General Insurance and later in 2011, the Subsidiary's name was changed to PT Central Sejahtera Insurance, following the change in the composition of its shareholders to Dana Pensiun BCA at 75% (seventy five percent) ownership and PT BCA Finance (Bank's Subsidiary) at 25% (twenty five percent) ownership.

Based on the Deed of Sale and Purchase Agreement No. 64 dated 28 June 2013, the Bank signed a sale and purchase agreement with the owner of PT Central Sejahtera Insurance to acquire 75% (seventy five percent) ownership of PT Central Sejahtera Insurance from Dana Pensiun BCA with acquisition cost of Rp 102,000. The purchase was approved by the Financial Services Authority ("OJK") through its Letter No. S-300/D.05/2013 on 23 July 2013 and Bank Indonesia through its Letter No. 15/62/DPB/PB3-7/Rahasia on 17 September 2013. This transaction was a business combination under common control transaction (see Note 2g), such that it was recorded in accordance with PSAK No. 38 (2012 Revision) under pooling-of-interests method.

On 5 December 2013, based on the Deed of Minutes of Extraordinary General Meeting of Shareholders of PT Central Sejahtera Insurance No. 7 of Notary Public Veronica Sandra Irawaty Purnadi, S.H., PT Central Sejahtera Insurance changed its name to PT Asuransi Umum BCA. This change was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its Decision Letter No. AHU-64973.AH.01.02 dated 11 December 2013.

Total net assets acquired and goodwill arising from acquisition of the Subsidiary at the date of acquisition were as follows:

	Total
Purchase price	102,000
Deducted by: Fair value of the net assets of acquired Subsidiary	(76,798)
Goodwill	<u>25,202</u>
	Total
Cash paid on acquisition of Subsidiary, including transaction costs	102,000
Deducted by: Cash and cash equivalents of acquired Subsidiary	(128,574)
Net cash outflow on acquisition of PT Asuransi Umum BCA	<u>(26,574)</u>

PT Central Santosa Finance

PT Central Santosa Finance, a company domiciled in Indonesia and located at Gedung Wisma Antara, 18th Floor, Jalan Medan Merdeka Selatan No. 17, Central Jakarta, is engaged in factoring, consumer financing, finance lease and credit card.

Based on Deed of Sale and Purchase Agreement No. 10 dated 9 January 2014, the Bank signed a sale and a purchase agreement with the owner of PT Central Santosa Finance to acquire 45% (forty five percent) ownership of PT Central Santosa Finance with acquisition cost of Rp 70,110. The purchase was approved by Bank Indonesia through its letter No. 15/90/DPB3/PB 3-7/Rahasia on 27 December 2013.

Total net assets acquired and excess of fair value of net assets over purchase price arising of the subsidiary at the date of acquisition were as follow:

	<u>Total</u>
Purchase price	70,110
Deducted by: Fair value of the net assets of acquired Subsidiary	(75,966)
Excess of fair value of net assets over purchase price	<u>(5,856)</u>
	<u>Total</u>
Cash paid on acquisition of Subsidiary, including transaction costs	70,110
Deducted by: Cash and cash equivalents of acquired Subsidiary	(117,803)
Net cash outflow on acquisition of PT Central Santosa Finance	<u>(47,693)</u>

As of 31 December 2013, the Bank indirectly owned 25% (twenty five percent) ownership of PT Central Santosa Finance through its Subsidiary, PT BCA Finance, such that with this acquisition the Bank has 70% (seventy percent) ownership of PT Central Santosa Finance as of 31 December 2014.

During 2014, there was an increase in share capital of PT Central Santosa Finance amounted to Rp 200,000.

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL (Continued)

f. Audit committee

The Bank's Audit Committee as of 31 December 2014 and 2013 consisted of:

Chairman	Sigit Pramono
Member	Inawaty Suwardi
Member	Ilham Ikhsan

g. Number of employees

As of 31 December 2014 and 2013, the Bank and Subsidiaries had 23,106 and 21,281 permanent employees.

Key management personnel of the Bank consists of members of Board of Commissioners and Board of Directors.

h. Changes of regulatory and supervisory in banking sector

Effective 31 December 2013, the regulatory and supervisory functions, duties and authorities in the banking sector has moved from Bank Indonesia to Otoritas Jasa Keuangan ("OJK").

i. Completion of the consolidated financial statements

The Bank's management is responsible for the preparation of these consolidated financial statements, which were authorized for issue on 16 February 2015.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In its accounting and financial reporting, the Bank and Subsidiaries adopt accounting policies in accordance with the Indonesian Financial Accounting Standard ("SAK"). The significant accounting policies, consistently applied in the preparation of the consolidated financial statements, were as follows:

a. Statement of compliance

The consolidated financial statements are prepared and presented in accordance with Indonesian SAK.

b. Basis for the preparation of the consolidated financial statements

These consolidated financial statements are presented in Rupiah, which is its functional currency. Except as otherwise stated, financial information presented has been rounded to the nearest million of Rupiah.

The consolidated financial statements have been prepared based on the accrual basis using the historical cost concept, unless otherwise specified.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Basis for the preparation of the consolidated financial statements (continued)

The consolidated statements of cash flows presented the changes in cash and cash equivalents from operating, investing and financing activities, and are prepared using the direct method. For the purpose of the presentation of the consolidated statements of cash flows, cash and cash equivalents consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other banks that mature within three months from the date of acquisition, as long as they are not being pledged as collateral for borrowings nor restricted.

c. Use of judgments, estimates and assumptions

The preparation of consolidated financial statements in conformity with Indonesian SAK requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and activities, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

Information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have significant effect on the amount recognized in the consolidated financial statements are described in Note 4.

d. Changes in accounting policies

Standards issued but not yet effective

Certain new accounting standards have been issued but are not yet effective for the year ended 31 December 2014, and have not been applied in preparing these consolidated financial statements.

The following standards became effective starting 1 January 2015 and relevant to the Bank and Subsidiaries:

- a. PSAK No. 1 (2013 Revision), "Presentation of Financial Statements"
- b. PSAK No. 4 (2013 Revision), "Separate Financial Statements"
- c. PSAK No. 24 (2013 Revision), "Employee Benefits"
- d. PSAK No. 46 (2014 Revision), "Income Taxes"
- e. PSAK No. 48 (2014 Revision), "Impairment of Assets"
- f. PSAK No. 50 (2014 Revision), "Financial Instruments: Presentation"
- g. PSAK No. 55 (2014 Revision), "Financial Instruments: Recognition and Measurement"

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Changes in accounting policy (continued)

Standard issued but not yet effective (continued)

- h. PSAK No. 60 (2014 Revision), "Financial Instruments: Disclosures"
- i. ISAK No. 26 (2014 Revision), "Reassessment of Embedded Derivatives"
- j. PSAK No. 65, "Consolidated Financial Statements"
- k. PSAK No. 67, "Disclosure of Interests in Other Entities"
- l. PSAK No. 68, "Fair Value Measurement"

The Bank and Subsidiaries are still analyzing the impact from adopting these standards.

e. Basis of consolidation

The consolidated financial statements consist of financial statements of the Bank and Subsidiaries (PT BCA Finance, BCA Finance Limited, PT Bank BCA Syariah, PT BCA Sekuritas, PT Asuransi Umum BCA and PT Central Santosa Finance) controlled by the Bank. Control is presumed to exist when the Bank owns more than 50% (fifty percent) of the voting power of the Subsidiaries.

Control also exists when the Bank owns half or less of the voting power of the Subsidiaries when there is:

- a. power over more than half of the voting rights by virtue of an agreement with other investors;
- b. power to govern the financial and operating policies of the Subsidiary under a statute or an agreement;
- c. power to appoint or remove the majority of the members of the board of directors or equivalent governing body and control of the Subsidiary is by that board or body; or
- d. power to cast the majority of votes at meetings of the board of directors or equivalent governing body and control of the Subsidiary is by that board or body.

The financial statements of Subsidiaries are included in the consolidated financial statements since the date on which the Bank obtained control until the date such control ceases. The financial statements of Subsidiaries have been prepared using the same accounting policies with those implemented by the Bank for similar transactions and other events in similar circumstances, unless otherwise specified.

When control of an entity is obtained during the year, its results are included in the consolidated statements of comprehensive income from the date on which the control commences. Where control ceases during the year, its results are included in the consolidated financial statements for the part of the year during which control existed.

All significant balances, transactions, income and expenses with and between Subsidiaries are eliminated in preparing the consolidated financial statements such that the consolidated financial statements include only transactions and balances with third parties. Unrealized losses from transactions with and between Subsidiaries are eliminated, unless there is an indication of impairment that requires recognition in the consolidated financial statements.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Basis of consolidation (continued)

Changes affected the Bank's ownership interest and equity of Subsidiary that do not result in a loss of control are accounted for as equity transactions and presented as other equity components within equity in the consolidated statements of financial position.

Non-controlling interests are recognized on the date of business combination and subsequently adjusted to the portion of the changes in equity of Subsidiary.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity attributable to the equity holders of the parent entity, and presented to the portion of Subsidiary's income for the year and equity attributable to the non-controlling interest based on percentage of ownership of the non-controlling interest on the Subsidiary.

If the Bank loses control of a Subsidiary, it:

- derecognizes the assets (including any goodwill) and liabilities of the Subsidiary;
- derecognizes the carrying amount of any non-controlling interests in the former Subsidiary;
- derecognizes the cumulative translation differences recorded in equity, if any;
- recognizes the fair value of the consideration received;
- recognizes any investment retained in the former Subsidiary at its fair value;
- recognizes any differences occurred as gain or loss in the consolidated statement of comprehensive income; and
- reclassifies the Bank's part of component previously recognized as other comprehensive income to the consolidated statement of comprehensive income, or directly transferred to retained earnings.

f. Business combination

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured at the fair value of assets transferred, equity instruments issued, liabilities incurred or obtained and adjustment to the contingent purchase price, if any, at the date of acquisition and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. On the acquisition date, acquisition costs are expensed as incurred and included in the administrative expenses.

When acquiring a business, the Bank and Subsidiaries classified and designated financial assets acquired and financial liabilities obtained in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquirer remeasures its previously held equity interest at its acquisition-date fair value and recognizes the related gain or loss to the profit or loss.

Contingent consideration transferred by the acquirer is recognized at fair value at the acquisition date. Subsequent changes in the fair value of contingent consideration classified as assets or liabilities are recognized as gain or loss, or other comprehensive income in accordance with PSAK No. 55 (2011 Revision). If it is classified as equity, contingent consideration is not remeasured and the next adjustment will be accounted for in equity.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Business combination (continued)

On the acquisition date, goodwill is initially measured at acquisition cost which represents the excess of the aggregate of consideration transferred and the amount of any non-controlling interest over the difference between the amounts of the identifiable assets acquired and the liabilities assumed. If the consideration is lower than the fair value of Subsidiary's net assets acquired, the difference is recognized in the profit or loss. Subsequent to initial recognition, goodwill is measured at its carrying amount less accumulated impairment losses.

g. Business combination of entities under common control

Business combination transactions of entities under common control, such as transfer of business in relation to reorganization of entities within the same business group, is not a change of ownership in terms of economic substance, therefore such transaction cannot generate any gains or losses for the group as a whole as well as the individual entity within the business group.

Business combination of entities under common control transactions, according to PSAK No. 38 (2012 Revision), "Business Combination under Common Control", is recognized at its carrying amount based on a pooling-of-interest method. Entity that receives the business and disposes the business recognizes the difference between the amounts transferred received and carrying amount arising from a business combination under common control transaction as part of equity in the additional paid-in capital account.

In accordance with transition requirement of PSAK No. 38 (2012 Revision), the balance of difference in value from restructuring transaction of entities under common control based on PSAK No. 38 (2004 Revision). "Accounting for Restructuring of Entities under Common Control", at the beginning of the implementation of this standard was disclosed in equity as part of additional paid-in capital account and shall not be recognized as realized profit or loss or reclassified into retained earnings in the future. The Bank and Subsidiary have reclassified the balance of difference in value from restructuring transactions of entities under common control as of 1 January 2013 amounted to Rp 111,193 to additional paid-in capital account.

h. Translation of transactions in foreign currencies

Bank and Subsidiaries domiciled in Indonesia maintained its accounting record in Rupiah. Transactions denominated in foreign currencies are translated into Rupiah at the exchange rates prevailing at the date of the transaction. At the reporting date, year-end balances of monetary assets and liabilities denominated in foreign currencies are translated into Rupiah at the exchange rates prevailing at the date of consolidated statements of financial position.

For consolidation purposes, foreign currency financial statements of the Bank's overseas Subsidiary are translated into Rupiah based on the following basis:

- (1) Assets and liabilities, commitments and contingencies are translated using the Reuters spot rates at 16:00 WIB at the statement of financial position date.
- (2) Income, expenses, gains and losses, represent the accumulated amount from monthly statement of comprehensive income during the year, are translated into Rupiah using the average Reuters middle rate for the respective month.
- (3) Equity accounts are translated using historical rates.
- (4) Statements of cash flows are translated using the Reuters spot rate at 16:00 WIB at the statement of financial position date, except for income statement accounts which are translated using the average middle rates and equity accounts which are translated using historical rates.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Translation of transactions in foreign currencies (continued)

Differences arising from the above translation are presented as "differences from translation of foreign currency financial statements" under the equity section of the consolidated statements of financial position.

Exchange gains and losses arising from transactions in foreign currencies and from the translation of monetary assets and liabilities in foreign currencies are recognized in the consolidated statements of comprehensive income for the year.

The foreign currency gain or loss on monetary assets and liabilities is the difference between amortized cost in Rupiah at the beginning of the year, adjusted for effective interest and payments during the year and the amortized cost in foreign currency translated into Rupiah at the exchange rate at the end of the year.

Summarized below are the major exchange rates as of 31 December 2014 and 2013, using Reuters middle rate at 16:00 WIB (full amount of Rupiah):

	Foreign currency	2014	2013
1	United States Dollar (USD)	12,385	12,170
1	Australian Dollar (AUD)	10,148	10,856
1	Singapore Dollar (SGD)	9,376	9,622
1	Hong Kong Dollar (HKD)	1,597	1,570
1	Great Britain Poundsterling (GBP)	19,288	20,111
100	Japanese Yen (JPY)	10,356	11,575
1	Euro (EUR)	15,053	16,759

i. Financial assets and liabilities

Financial assets of the Bank and Subsidiaries mainly consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other banks, financial assets held for trading, acceptance receivables, bills receivable, securities purchased under agreements to resell, loans receivable, consumer financing receivables, net investment in finance leases and investment securities.

Financial liabilities of the Bank and Subsidiaries mainly consist of deposits from customers, deposits from other banks, financial liabilities held for trading, acceptance payables, debt securities issued and borrowings.

i.1. Classification

The Bank and Subsidiaries classify their financial assets in the following categories at initial recognition:

- i. at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. financial assets designated as such upon initial recognition and financial assets classified as held for trading;
- ii. available-for-sale;
- iii. held-to-maturity; and
- iv. loans and receivables.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

i.1. Classification (continued)

Financial liabilities are classified into the following measurement categories at initial recognition:

- i. at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. those designated as such upon initial recognition and those classified as held for trading; and
- ii. financial liabilities measured at amortized cost.

Held for trading are those financial assets and liabilities that the Bank and Subsidiaries acquire or incur principally for the purpose of selling or repurchasing in the near term, or hold as part of a certain financial instrument portfolio that is managed together for short-term profit or position taking.

Available-for-sale investments are non-derivative financial assets that are designated as available-for-sale or are not classified as another category of financial assets.

Held-to-maturity investments are non-derivative assets with fixed or determinable payments and fixed maturity that the Bank and Subsidiaries have the positive intent and ability to hold to maturity, and which are not designated at fair value through profit or loss or available-for-sale.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the Bank and Subsidiaries do not intend to sell immediately or in the near term.

Financial liabilities measured at amortized cost consist of non-derivative financial liabilities that are not held for trading purpose and not designated at fair value through profit or loss.

i.2. Initial recognition

The Bank and Subsidiaries initially recognize loans receivable and deposits on the date of origination. Regular way purchases and sales of financial assets are recognized on the trade date at which the Bank and Subsidiaries commit to purchase or sell the asset. All other financial assets and liabilities are initially recognized on the trade date at which the Bank and Subsidiaries become a party to the contractual provisions of the instrument.

A financial asset or liability is initially measured at fair value plus (for an item not subsequently measured at fair value through profit and loss) transaction costs that are directly attributable to its acquisition or issue of financial liabilities.

The subsequent measurement of financial assets and liabilities depends on their classifications.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

i.2. Initial Recognition (continued)

Transaction costs include only those costs that are directly attributable to the acquisition of a financial asset or issuance of financial liability and they are incremental costs that would not have been incurred if the instrument had not been acquired or issued. In the case of financial assets, transaction costs are added to the amount recognized initially, while for financial liabilities, transaction costs are deducted from the amount of debt recognized initially. Such transaction costs are amortized over the life of the instruments based on the effective interest rate method and are recorded as part of interest income for transaction costs related to financial assets or interest expenses for transaction costs related to financial liabilities.

i.3. Derecognition

The Bank and Subsidiaries derecognize a financial asset when the contractual rights to the cash flows from the financial asset expire, or when the Bank and Subsidiaries transfer the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Bank and Subsidiaries is recognized as a separate asset or liability.

The Bank and Subsidiaries derecognize a financial liability when its contractual obligations are discharged, cancelled or expire.

In transactions in which the Bank and Subsidiaries neither retain nor transfer substantially all the risks and rewards of ownership of a financial asset, the Bank and Subsidiaries derecognize the asset if they do not retain control over the asset. The rights and obligations retained in the transfer are recognized separately as assets and liabilities as appropriate. In transfers in which control over the asset is retained, the Bank and Subsidiaries continue to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

The Bank and Subsidiaries write-off a financial asset and any related allowance for impairment losses, when the Bank and Subsidiaries determine that the financial asset is uncollectible. This determination is reached after considering information the occurrence of significant changes in the financial position of borrower/financial asset issuer such that the borrower/financial asset issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure.

i.4. Offsetting

Financial assets and liabilities are set-off and the net amount presented in the consolidated statements of financial position when, and only when, the Bank and Subsidiaries have a legal right to offset the recognized amounts and intend either to settle on a net basis or realize the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted by accounting standards.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

i.5. Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount and minus any reduction for impairment.

i.6. Fair value measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction on the measurement date.

When available, the Bank and Subsidiaries measure the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and represent actual and regularly occurring market transactions on an arm's length basis.

If a market for a financial instrument is not active, the Bank and Subsidiaries establish fair value using a valuation technique. Valuation techniques include using recent arm's length transactions between knowledgeable, willing parties and if available, reference to the current fair value of other instruments that are substantially the same, discounted cash flow analysis and option pricing models. The chosen valuation technique makes maximum use of market inputs, relies as little as possible on estimates specific to the Bank and Subsidiaries, incorporates all factors that market participants would consider in setting a price, and is consistent with accepted economic methodologies for pricing financial instruments. Inputs to valuation techniques reasonably represent market expectations and measures of the risk-return factors inherent in the financial instrument. The Bank and Subsidiaries calibrate valuation techniques and test them for validity using prices from observable current market transactions in the same instrument or based on other available observable market data.

The best evidence of the fair value of a financial instrument at initial recognition is the transaction price, i.e., the fair value of the consideration given or received, unless the fair value of that instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e., without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When the transaction price provides the best evidence of fair value at initial recognition, the financial instrument is initially measured at the transaction price and any difference between this price and the value initially obtained from a valuation model is subsequently recognized in the consolidated statements of comprehensive income depending on the individual facts and circumstances of the transaction but not later than when the valuation is supported wholly by observable market data or the transaction is closed out.

Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Bank and Subsidiaries and counterparty where appropriate. Estimated fair value obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that the Bank and Subsidiaries believe a third-party market participation would take them into account in pricing a transaction.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i. Financial assets and liabilities (continued)

i.6. Fair value measurement (continued)

Financial assets and long positions are measured at a bid price; financial liabilities and short positions are measured at an asking price. When the Bank and Subsidiaries have positions with offsetting risks, mid-market prices are used to measure the offsetting risk positions and a bid or asking price adjustment is applied only to the net open position as appropriate.

j. Current accounts with Bank Indonesia and other banks

Current accounts with Bank Indonesia and other banks are initially measured at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets, and subsequently measured at their amortized costs using the effective interest method.

k. Placements with Bank Indonesia and other banks

Placements with Bank Indonesia and other banks are initially measured at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets, and subsequently measured at their amortized costs using the effective interest method.

l. Financial assets and liabilities held for trading

Financial assets and liabilities held for trading are initially and subsequently recognized and measured at fair value in the consolidated statements of financial position, with transaction costs recognized in the current year profit or loss.

Financial assets and liabilities held for trading include all derivative instruments held by the Bank for trading, except for a derivative that is financial guarantee contract or a designated and effective hedging instrument.

All changes in fair value of financial assets and liabilities held for trading are recognized as part of net trading income in consolidated statements of comprehensive income. Gains or losses which are realized when the financial assets and liabilities held for trading are derecognized, are recognized in the current year consolidated statements of comprehensive income.

Financial assets and liabilities held for trading are not reclassified subsequent to their initial recognition, except that non-derivative trading assets, other than those designated at fair value through profit or loss upon initial recognition, may be reclassified out of the fair value through profit or loss (i.e., trading category) if they are no longer held for the purpose of being sold or repurchased in the near term and the following conditions are met:

- the financial asset would have met the definition of loans and receivables (if the financial asset had not been required to be classified as held for trading at initial recognition), then it may be reclassified if the Bank and Subsidiaries have the intention and ability to hold the financial asset for the foreseeable future or until maturity; or
- the financial asset would not have met the definition of loans and receivables, then it may be reclassified out of the trading category only in rare circumstances.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Acceptance receivables and payables

Acceptance receivables and payables are initially measured at fair value plus/minus transaction costs that are directly attributable and incremental to the acquisition/issue of those financial assets/liabilities, and subsequently measured at their amortized costs using the effective interest method. Acceptance receivables are presented net of allowance for impairment losses.

n. Loans receivable

Loans receivable are initially measured at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets, and subsequently measured at their amortized costs using the effective interest method.

Syndicated, joint financing and channeling loans are stated at amortized cost in accordance with the portion of risks borne by the Bank.

The Bank and Subsidiaries account for troubled debt restructuring in accordance with the type of restructuring. In troubled debt restructuring which involves a modification of terms, reduction of portion of loan principal and/or combination of both, the Bank and Subsidiaries account for the effect of the restructuring prospectively and do not change the carrying value of receivables at the time of restructuring, unless the amount exceeds the present value of the total future cash receipts specified in the new terms. If the present value of the total future cash receipts specified in the new terms is lower than the recorded receivables balance prior to restructuring, the Bank and Subsidiaries should reduce the loan balance to the amount equal to the present value of the total future cash receipts. The amount of the reduction is recognized as individual impairment losses in the consolidated statement of comprehensive income for the year.

o. Securities purchased under agreements to resell

Securities purchased under agreements to resell (reverse repo) are presented as receivables and stated at the agreed resell price less the difference between the purchase price and the agreed resale price. The difference between the purchase price and the agreed resale price is amortized using the effective interest method as interest income over the years commencing from the acquisition date to the resell date.

p. Consumer financing receivables

Consumer financing receivables are stated at net of unamortized transaction cost (income), unearned consumer financing income and allowance for impairment losses on consumer financing receivables.

Unearned consumer financing income represents the difference between total installments to be received from the consumer and the principal amount financed, plus or deducted with the unamortized transaction cost (income), which will be recognized as income over the term of the contract using effective interest rate method of the related consumer financing receivable.

Unamortized transaction cost (income), are financing administration income and transaction expense which are incurred at the first time the financing agreement is signed and directly attributable to consumer financing.

Early termination of a contract is treated as a cancellation of an existing contract and the resulting gain is recognized in the current year profit or loss accounts.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p. Consumer financing receivables (continued)

Consumer financing receivables will be written-off when they are overdue for more than 150 days for four-wheeled motor vehicles and 180 days for two-wheeled motor vehicles, and based on management review of individual case.

Subsidiary has sharia financing with *murabahah* agreement.

Joint financing

All joint financing agreements entered by the Subsidiary are joint financing without recourse in which only the Subsidiary's financing portion of the total installments are recorded as consumer financing receivables in the consolidated statements of financial position (net approach). Consumer financing income is presented in the consolidated statements of comprehensive income after deducting the portions belong to other parties participated to these joint financing transactions.

Receivables from collateral vehicles reinforced

Receivables from collateral vehicles reinforced represent receivables derived from motor vehicle collaterals owned by customers for settlement of their consumer financing receivables, which is presented as part of consumer financing receivables.

In case of default, the consumer gives the right to the Subsidiaries to sell the motor vehicle collaterals or take any other actions to settle the outstanding receivables.

Consumers are entitled to the positive differences between the proceeds from sales of foreclosed collaterals and the outstanding consumer financing receivables. If the differences are negative, the resulting losses are charged to the current year profit or loss.

Expenses in relation with the acquisition and maintenance of receivables from collateral vehicles reinforced are charged to the profit or loss accounts when incurred.

q. Accounting for finance leases

Leases are classified as finance leases if such leases transfer substantially all the risks and rewards related to the ownership of the leased assets. Leases are classified as operating leases if the leases do not transfer substantially all the risks and rewards related to ownership of the leased assets.

Assets held under a finance lease are recognized in the consolidated statements of financial position at an amount equal to the net investment in the lease. Receipts from lease receivables are treated as repayments of principal and financing lease income. The recognition of finance lease income is based on a pattern reflecting a constant periodic rate of return on the Subsidiary's net investment as lessor in the finance lease.

r. Sharia transactions

Assets related to sharia transactions consist of *mudharabah* and *musyarakah* financing receivables, *ijarah* assets and receivables, and *murabahah* financing receivables.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

r. Sharia transactions (continued)

Murabahah is a financing agreement to sell or purchase of goods, in which the selling price equals to the cost of goods plus a pre-agreed profit margin and the seller should disclose its cost to the buyer. *Murabahah* financing is stated at balance of receivables less deferred margin and allowance for impairment losses.

Ijarah is a lease agreement for goods and/or services, including the right to use, between the owner of a leased object (lessor) and lessee, to generate income from the leased object. *Ijarah muntahiyah bittamlik* is a lease agreement between lessor and lessee to obtain income from the leased object with an option to transfer the ownership title of leased object through purchase/sale or as a gift (*hibah*) at certain period as agreed in the lease agreement (*akad*). *Ijarah muntahiyah bittamlik* assets are stated at the acquisition costs less accumulated depreciation. *Ijarah* receivable is recognized at maturity date based on unearned lease income and presented at net realizable value, i.e. balance of the receivables less allowance for impairment losses.

Mudharabah is an investment of funds from the owner of fund (*shahibul maal*) to a fund manager (*mudharib*) for a specific business activity, under a profit or revenue sharing agreement between the two parties at a pre-agreed ratio (*nisbah*). *Mudharabah* financing is stated at financing balance less allowance for impairment losses.

Musyarakah is an investment of funds from the owners of funds to combine their funds for a specific business activity, for which the profits are shared based on a pre-agreed *nisbah*, while losses are borne proportionally by the fund owners.

Permanent *musyarakah* is a *musyarakah* for which the amount of funds contributed by each party is fixed until the end of the agreement. Declining *musyarakah* (*musyarakah mutanaqisha*) is *musyarakah* with a condition that the amount contributed by a party will be declining from time to time as it is transferred to another party, such that at the end of the agreement, the other party will fully own the business. *Musyarakah* financing is stated at financing balance less allowance for impairment losses.

The Subsidiary determines the allowance for impairment losses of sharia financing receivables in accordance with the quality of each financing receivable by referring to the requirements of Bank Indonesia, except for *murabahah* financing receivables for which the identification and measurement of impairment losses follows PSAK No. 55 (2011 Revision).

s. Investment securities

Investment securities are initially recognized at fair value plus transaction costs that are directly attributable and incremental to the acquisition of those financial assets, and subsequently measured in accordance with their classifications, either held-to-maturity or available-for-sale.

s.1. Held-to-maturity

Subsequent to initial recognition, held-to-maturity investments are carried at amortized cost using the effective interest method. Any sale or reclassification of a more than insignificant amount of held-to-maturity investments not close to their maturities would result in the reclassification of all held-to-maturity investments as available-for-sale, and prevent the Bank from classifying investment securities as held-to-maturity for the current and the following two financial years.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

s. Investment securities (continued)

s.2. Available-for-sale

After initial recognition, available-for-sale investments are carried at their fair values. Interest income is recognized in the consolidated statements of comprehensive income using the effective interest method. Foreign exchange gains or losses on available-for-sale debt securities investments are recognized in the current year profit or loss.

Other fair value changes are recognized directly in other comprehensive income until the investment is sold or impaired, where the cumulative gains and losses previously recognized in other comprehensive income are recycled to the the current year profit or loss based on a weighted average method.

t. Fixed assets

Fixed assets are initially recognized at cost. Cost includes its expenditures directly attributable to bring the assets for their intended use. Subsequent to initial measurement, fixed assets are measured using cost model, which is carried at cost less accumulated depreciation and accumulated impairment losses.

Costs relating to the acquisition of legal titles on the land rights are recognized as part of acquisition cost of land, while costs of extension or renewal of legal titles on the land rights are charged to the consolidated statement of comprehensive income as incurred because the amount is not significant.

Buildings are depreciated using the straight-line method over their estimated useful lives of 20 (twenty) years. Except for land which is not depreciated, other fixed assets are depreciated over their estimated useful lives ranging from 2 (two) to 8 (eight) years using the double-declining balance method for the Bank and PT BCA Finance, and straight-line method for other Subsidiaries. The effect of such different depreciation method is not material to the consolidated financial statements. For all fixed assets, the Bank and Subsidiaries have determined residual values to be "nil" for the calculation of depreciation.

Normal repair and maintenance expenses are charged to the consolidated statements of comprehensive income; while renovation and betterments, which are significant and prolong the useful life of assets, are capitalized to the respective fixed assets. The carrying amount and the related accumulated depreciation of fixed assets which are not utilized anymore or sold, are removed from the related group of assets, and the gains or losses are recognized as non-operating income or expense in the consolidated statements of comprehensive income.

Buildings under construction are stated at cost. The accumulated costs will be transferred to the buildings account when construction is completed and the buildings are ready for their intended use.

When assets are disposed, their carrying values and the related accumulated depreciation are eliminated from the consolidated statements of financial position, and the resulting gain or loss on the disposal of fixed assets is recognized in the consolidated statements of comprehensive income.

At each reporting date, residual value, useful life and depreciation method are reviewed, and if required, will be adjusted and applied in accordance with the requirement of prevailing PSAK.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

u. Foreclosed assets

Foreclosed assets acquired in conjunction with settlement of loans are initially recorded at the lower of carrying value of the related loans or net realizable value of the repossessed assets. Net realizable value is the fair value of the repossessed assets after deducting the estimated cost of disposal.

Subsequent to initial recognition, foreclosed assets are recorded at carrying amount or at fair value less cost to sell, whichever is lower. The excess between the carrying value and fair value less cost to sell is recognized as impairment losses in the consolidated statements of comprehensive income.

Foreclosed assets are not depreciated and expenses in relation with the acquisition and maintenance of those assets are charged as incurred.

The difference between the carrying value and the proceeds from the sale of foreclosed assets is recognized as gain or loss at the time of sale, and recognized as non-operating income or expense in the consolidated statements of comprehensive income.

Foreclosed assets are presented under "Other assets" in the consolidated statements of financial position.

v. Identification and measurement of impairment losses of assets

v.1. Financial assets

At each reporting date, the Bank and Subsidiaries assess whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. Financial assets are impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows on the asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a borrower, restructuring of a loan by the Bank and Subsidiaries on terms that the Bank and Subsidiaries would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security due to financial difficulties or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group.

The Bank and Subsidiaries consider evidence of impairment for financial assets at both a specific asset and collective level. All individually significant financial assets are assessed for specific impairment.

All individually significant financial assets not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Financial assets that are not individually significant are collectively assessed for impairment by grouping together such financial assets with similar risk characteristics. Financial assets that are individually assessed for impairment and for which an impairment loss is recognized are no longer included in a collective assessment of impairment.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

v. Identification and measurement of impairment losses of assets (continued)

v.1. Financial assets (continued)

In assessing collective impairment, the Bank and Subsidiaries use statistical modeling of historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical modeling. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Impairment losses on financial assets carried at amortized cost are measured as the difference between the carrying amount of the financial assets and the present value of estimated future cash flows discounted at the financial assets' original effective interest rate. The calculation of the present value of the estimated future cash flows of a collateralized financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral. Losses are recognized in the consolidated statements of comprehensive income and reflected in an allowance account against financial assets carried at amortized cost. Interest on the impaired financial asset continues to be recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. When a subsequent event causes the amount of impairment loss to decrease, the impairment loss is reversed through the consolidated statements of comprehensive income.

Impairment losses on available-for-sale marketable securities are recognized by transferring the cumulative loss that has been recognized directly in other comprehensive income to profit or loss as a reclassification adjustment. The cumulative loss that is reclassified from other comprehensive income to profit or loss is the difference between the acquisition cost, net of any principal repayment and amortization, and the current fair value, less any impairment loss previously recognized in the consolidated statements of comprehensive income. Changes in impairment provisions attributable to time value are reflected as a component of interest income.

If, in a subsequent period, the fair value of an impaired available-for-sale debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in the consolidated statements of comprehensive income, the impairment loss is reversed, with the amount of reversal recognized in the consolidated statements of comprehensive income.

If the terms of a loan, receivable or held-to maturity investment are renegotiated or otherwise modified because of financial difficulties of the borrower or issuer, impairment is measured using the original effective interest rate before the modification of terms.

v.2. Non-financial assets

The carrying amounts of the Bank and Subsidiaries' non-financial assets are reassessed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated.

For the purpose of impairment testing, non-financial assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that is largely independent of the cash inflows of other assets or cash generating units ("CGU").

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

v. Identification and measurement of impairment losses of assets (continued)

v.2. Non-financial assets (continued)

The recoverable amount of an asset or CGU is the greater of its fair value and its value in use less costs to sell. Value in use is calculated based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of a non-financial asset or CGU exceeds its recoverable amount.

Impairment losses recognized in prior periods are tested at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

An impairment loss in respect of goodwill is not reversed.

w. Intangible assets

Intangible assets consist of software and goodwill.

Software

Software is stated at cost less accumulated amortization and accumulated impairment losses. Subsequent expenditure, which are significant and increase the future economic benefit of assets, will be capitalized. Other expenditures are expensed as incurred. Amortization is recognized in the consolidated statements of comprehensive income using a double-declining balance method over the estimated useful economic life of 4 (four) years.

Goodwill

Goodwill represents the excess of the acquisition cost over the fair value of the net assets acquired at the date of acquisition of a Subsidiary. Goodwill is tested at each reporting date for impairment and carried at cost less accumulated impairment losses.

x. Deposits from customers and other banks

Deposits from customers and deposits from other banks are initially measured at fair value minus directly attributable transaction costs and subsequently measured at their amortized costs using the effective interest method.

y. Sharia and temporary *syirkah* deposits

Sharia deposits are deposits from third parties in form of *wadiah* demand deposits and *wadiah* savings. *Wadiah* demand deposits can be used as payment instrument, and can be withdrawn using cheque and payment slip. *Wadiah* demand deposits and *wadiah* savings are entitled to receive bonus in accordance with Subsidiary's policy. *Wadiah* demand deposits and *wadiah* savings are stated at the liabilities of the Subsidiary.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

y. Sharia and temporary *syirkah* deposits (continued)

Temporary *syirkah* deposit is an investment with *mudharabah mutlaqah* agreement, where the owner of funds (*shahibul maal*) gives flexibility to fund manager (*mudharib*/Subsidiary) in managing the investment with the purpose that the returns are to be shared based on a pre-agreed basis. Temporary *syirkah* deposits consist of *mudharabah* saving deposit and *mudharabah* time deposits. These funds obtained by sharia entity which has the right to manage and invest fund, according to sharia entity's policy or limitation from fund holders, whereby gains are to be shared based on the agreement. In case that the decrease of temporary *syirkah* deposits was caused by normal losses, and not caused by willful default, negligence or breach of the agreement, the sharia entity (Subsidiary) has no obligation to return or cover the fund losses or deficit.

Mudharabah saving deposits are deposits from third parties which are entitled to receive sharing revenue from Subsidiary for the utilization of the funds with a pre-agreed and approved *nisbah*. *Mudharabah* saving deposits are stated at the liabilities to customers.

Mudharabah time deposits are deposits from third parties which can only be withdrawn at a specific time based on the agreement between holder of *mudharabah* time deposits and the Subsidiary. *Mudharabah* time deposits are stated at nominal amount based on the agreement between holder of *mudharabah* time deposits and the Subsidiary.

The holder of temporary *syirkah* deposits receives sharing profit based on the pre-agreed *nisbah*.

z. Debt securities issued

Debt securities issued by Subsidiary which consists of medium-term notes payable and bonds payable, are classified as other financial liabilities measured at amortized cost. Issuance costs in connection with the issuance of debt securities are recognized as discounts and directly deducted from the proceeds of debt securities issued and amortized over the period of debt securities using the effective interest method.

aa. Provision

A provision is recognized if, as a result of a past event, the Bank and Subsidiaries have a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the estimated future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

ab. Earning per share

Basic earnings per share is computed based on net income for the current year attributable to equity holders of the parent entity divided by the weighted average number of outstanding issued and fully paid-up common shares during the year after considering the treasury stocks.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ab. Earning per share (continued)

As of 31 December 2014 and 2013, there were no instruments which could potentially result in the issuance of ordinary shares. Therefore, diluted earnings per share is equivalent to basic earnings per share.

ac. Treasury stocks

The Bank uses cost method in recording the treasury stocks. Treasury stocks are recorded at reacquisition cost and presented as a deduction of equity in the consolidated statement of financial position.

When treasury stocks are sold, the Bank recorded the difference between reacquisition price and selling price of treasury stocks as additional paid-in capital from treasury stock transaction as part of additional paid-in capital.

ad. Interest and sharia income and expenses

Interest income and expenses are recognized in the consolidated statements of comprehensive income using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or financial liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank and Subsidiaries estimate future cash flows by considering all contractual terms of the financial instrument but not future credit losses.

The calculation of the effective interest rate includes transaction costs (see Note 2i.2) and all fees and points paid or received that are an integral part of the effective interest rate.

Interest income and expenses presented in the consolidated statements of comprehensive income include:

- interest on financial assets and liabilities at amortized cost calculated on an effective interest method; and
- interest on available-for-sale investment securities calculated on an effective interest method.

Interest income on all trading financial assets are considered to be incidental to the Bank's trading operations and are presented as part of interest income.

Interest on the impaired financial asset continues to be recognized using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Sharia income consist of income from *murabahah*, lease income from *ijarah*, sharing income from *mudharabah* and *musyarakah* financing.

Income from *murabahah* and lease income from *ijarah* are recognized during the lease *akad* period using accrual basis. Sharing income of *mudharabah* and *musyarakah* financing are recognized when received or in the period when the rights of sharing income arise in accordance with agreed sharing ratio (*nisbah*).

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ad. Interest and sharia income and expenses (continued)

Sharia expenses consist of *mudharabah* expense and *wadiah* bonus expense. Sharia expenses consist of revenue sharing expense of third party funds with revenue sharing principle in accordance with agreed sharing ratio (*nisbah*) based on *wadiah*, *mudharabah mutlaqah* and *mudharabah muqayyadah* principles.

ae. Fees and commission income and expenses

Significant fees and commission income and expenses that are integral to the effective interest rate on a financial asset or liability are included in the measurement of the effective interest rate.

Other fees and commission income and expenses, including export import related fees, cash management fees, service fees and/or related to a specific period and the amount is significant, are recognized as unearned income/prepaid expenses and amortized based on the straight-line method over the terms of the related transactions; otherwise, they are directly recognized as the related services are performed. When a loan commitment is not expected to result in the draw-down of a loan, loan commitment fees are recognized on a straight-line method over the commitment period.

Other fees and commission expenses which are mainly related to inter-bank transaction fees are expensed as the services are received.

af. Net trading income

Net trading income comprises of net gains or losses related to financial assets and liabilities held for trading, and includes interest income and expenses from all financial instruments held for trading and all realized and unrealized fair value changes and foreign exchange differences.

ag. Obligation for post-employment benefits

The obligation for post-employment benefits is calculated at present value of estimated future benefits that the employees have earned in return for their services in the current and prior periods, deducted by any plan assets. The calculation is performed by an independent actuary using the projected-unit-credit method.

When the plan benefits change, the portion of increased or decreased benefits relating to past service by employees is charged or credited to the consolidated statement of comprehensive income on a straight-line method over the average service period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in the consolidated statements of comprehensive income.

When the cumulative unrecognized actuarial gains or losses at the end of the previous reporting period exceed 10% (ten percent) of the present value of the defined benefits obligation, such gains or losses are recognized in profit or loss, on a straight-line basis over the estimated average remaining vesting period. Otherwise, the actuarial gains or losses are not recognized.

ah. Income taxes

Income tax expense comprises of current and deferred tax. Income tax expense is recognized in the consolidated statements of comprehensive income except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ah. Income taxes (continued)

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted as of the reporting date. This method also requires the recognition of future tax benefits, such as tax loss carry forwards, to the extent that realization of such benefits is probable.

Amendments to tax obligations are recorded when an assessment is received, or if objection and or appeal is applied, when the results of the objection or the appeal are determined.

ai. Operating segment

An operating segment is a component of the entity that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the entity's other components, whose operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items mainly comprise of head office expenses, fixed assets, income tax assets/liabilities and current and deferred taxes.

The Bank and Subsidiaries manage their businesses and identify reporting segment based on geographic region and product. Several regions have similar characteristics, have been aggregated and evaluated regularly by management. Gain/loss from each segment is used to assess the performance of each segment.

aj. Related parties transaction

In these consolidated financial statements, the term related parties is used as defined in PSAK No. 7 (2010 Revision) regarding "Related Party Disclosures".

All significant transactions and balance of accounts with related parties, whether or not transacted at normal terms and conditions similar with those with non-related parties, are disclosed in the notes to the consolidated financial statements.

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT

a. Risk management framework

The Bank recognizes that in operating its business, there are inherent risks in its financial instruments, i.e. credit risk, liquidity risk, market risk which consists of foreign exchange risk and interest rate risk, and operational risk.

In order to control the risks, the Bank implemented an integrated Risk Management Framework which is stated in its Basic Policy of Risk Management. This framework is used as a tool for determining the strategies, organization, policies and guidances as well as the infrastructures of the Bank to ensure that all risks faced by the Bank can be properly identified, measured, controlled and reported.

To implement an effective risk management, the Bank has established a Risk Management Committee which functions are to address overall risk issues faced by the Bank and recommend risk management policies to the Board of Directors.

In addition, the Bank also has other committees which are responsible to handle specific risks, such as: Credit Policy Committee, Credit Committee and Asset and Liability Committee (“ALCO”).

The Bank always conducts a thorough risk assessment on management plan to release new product or activity in accordance with the type of risk regulated by the prevailing Bank Indonesia Regulations (“PBI”), Otoritas Jasa Keuangan Regulation (“POJK”) and other prevailing regulations.

b. Assets and liabilities risk management

ALCO is responsible for evaluating, recommending and establishing the Bank’s funding and investing strategies. Included in the scope of ALCO activities are managing liquidity risk, interest rate risk and foreign exchange risk; minimizing funding cost and, at the same time, maintaining liquidity; and optimizing the Bank’s interest income by allocating the funds to productive assets in a prudent manner.

ALCO is led by the President Director (concurrently as a member of ALCO), with other members consisting of 7 (seven) directors, Head of Treasury Division, Head of Finance and Planning Division, Head of Corporate Banking and Corporate Finance Group, Head of Small and Medium Enterprise Division, Head of Service and Fund Development Division, Head of International Banking Division, Head of Consumer Credit Business Unit, Head of Credit Card Business Unit and Head of Risk Management Unit.

The Bank’s asset and liability management process begins with an assessment of economic parameters affecting the Bank, which primarily consist of inflation rate, market liquidity, yield curve, US Dollar-Rupiah exchange rate, and other macro economic factors. Liquidity risks, foreign currency exchange risks and interest rate risks are reviewed by the Risk Management Unit and reported to ALCO. ALCO then decides the pricing strategy for the interest rates on deposits and loans based on the conditions and competition in the market.

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management

The credit organization is continuously being improved with an emphasis on the four eyes principle, in which the credit decision is determined with the considerations of two functions, i.e. business development function and credit risk analysis function.

The Bank has Basic Policy of Bank's Credit which are continuously being improved, in line with the Bank's development, "PBI", "POJK" and in accordance with International Best Practices.

The improvement on procedures and credit risk management system are conducted through the development of Loan Origination System on credit management process workflows so that an effective and efficient credit process can be achieved. Risk profile measurement system is continuously being developed to determine the risk of debtor completely and correctly. The credit database development process is also continuously being conducted and improved.

The Credit Policy Committee is responsible for formulating credit policies, especially those relating to prudence principles in credit, monitoring and evaluating the implementation of credit policies so that it can be applied consistently and in accordance with credit policy, and give advice and corrective actions to resolve problems in the implementation.

The Credit Committee was established to assist Board of Directors in evaluating and/or providing credit decisions in accordance with their level of authorization through the Credit Committee Meeting or Directors' Circular Letter. The main functions of Credit Committee are as follows:

- providing further guidance if a thorough and comprehensive credit analysis is needed;
- making a decision or giving a recommendation on a credit proposal for big debtors and specific industries; and
- coordinating with ALCO, especially when it relates with sources of funding for credits.

The Bank has developed a debtor's risk rating system, which is known as the Internal Credit Risk Rating/Scoring System. The Internal Credit Risk Rating/Scoring System consists of 11 (eleven) categories of risk rating, from RR1 to RR10, and the worst is Loss. Debtor's risk rating provides an authorized officer with a valuable input for a better and more appropriate credit decision.

To maintain the credit quality, monitoring over credit quality is performed regularly on each credit category (Corporate, Commercial, Small & Medium Enterprise ("SME"), Consumer and Credit Card) as well as to overall credit portfolio.

The Bank developed a credit risk management tools through credit portfolio stress testing analysis and monitoring the results of such stress testing. Stress testing is used by the Bank as a tool to estimate the impact of stressful condition in order to enable the Bank creating appropriate strategies to mitigate the risks as part of its contingency plan implementation.

In order to monitor and control credit risk of the Subsidiaries, the Bank monitors the Subsidiaries' credit risk regularly, to ensure that the Subsidiaries have a good and effective Credit Risk Management Policy.

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management (continued)

i. Maximum exposure to credit risk

For financial assets recognized in the consolidated statements of financial position, the maximum exposure to credit risk generally equals their carrying amount. For guarantees and irrevocable Letters of Credit issued, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the obligations of the guarantees and irrevocable Letters of Credit issued are called upon. For credit commitments, the maximum exposure to credit risk is the full amount of the unused committed loan facilities granted to customers.

The following table presents maximum exposure to credit risk of financial instruments in the consolidated statements of financial position and off-balance sheet accounts, without taking into account of any collateral held or other credit enhancements.

	31 December	
	2014	2013
Consolidated financial position:		
Current accounts with Bank Indonesia	38,875,175	35,269,077
Current accounts with other banks	4,614,271	3,447,290
Placements with Bank Indonesia and other banks	11,502,178	12,254,043

Individually impaired financial assets

Individually impaired financial assets are financial assets that are individually significant and there is objective evidence that impairment loss has incurred after initial recognition of the financial assets.

Based on the Bank's internal policy, loans that are determined to be individually significant are loans to corporate and commercial debtors.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management (continued)

iii. Credit risk analysis (continued)

Financial assets those are not individually significant and assessed for collective impairment

Financial assets that are not individually significant consist of loans and receivables of the Bank and Subsidiaries to retail debtors, i.e. Small & Medium Enterprise (“SME”) debtors, and debtors of consumer financing receivables (including the joint financing), mortgage and its housing renovation loans and credit card receivables.

The Bank and Subsidiaries determined that impairment losses of financial assets that are not individually significant are assessed collectively, by grouping those financial assets based on similar risk characteristics.

The carrying value of financial assets that are not individually significant and have been assessed for collective impairment, which have been past due for more than 90 (ninety) days as of 31 December 2014 and 2013 amounted to Rp 654,407 and Rp 549,457, respectively.

Past due but not impaired financial assets

Past due but not impaired financial assets are financial assets from corporate and commercial segment, for which contractual interest or principal payments are past due, but the Bank and Subsidiaries believes that individual impairment has not occurred on the basis of the level of security/collateral available and/or the stage of collection of amounts owed to the Bank and Subsidiaries.

Neither past due nor impaired financial assets

Included in neither past due nor impaired financial assets are financial assets not impaired individually and have been grouped based on similar risk characteristics for the purpose of assessing its collective impairment for the incurred but not yet reported losses (“IBNR”).

Based on its quality, neither past due nor impaired loans receivable, acceptance receivables, and bills receivable are classified into 3 categories, i.e. high grade, standard grade and low grade, in accordance with the Bank’s internal estimate of each debtor’s probability of default or certain portfolios that have been assessed against a range of qualitative and quantitative factors.

Loans receivable, acceptance receivables and bills receivable with risk rating of RR1 to RR7 are included in high grade category. Included in high grade category are loans to debtors which have strong capacity to repay all of its obligations in a timely manner, supported by strong fundamental factors and are not easily affected by unfavourable economic conditions.

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management (continued)

iii. Credit risk analysis (continued)

Neither past due nor impaired financial assets (continued)

Loans receivable, acceptance receivables and bills receivable with risk rating of RR8 to RR9 are included in standard grade category. Included in standard grade category are loans to debtors which considered to have sufficient capacity to repay its contractual interest and principal, but quite sensitive to unfavourable changes of economic conditions.

Loans receivable, acceptance receivables and bills receivable with risk rating RR10 and Loss are included in low grade category. Included in low grade category are loans to debtors with volatile repayment capacity, have poor fundamental factors and are easily affected by unfavourable economic conditions.

iv. Collateral

Collateral is held to mitigate credit risk exposures and risk mitigation policies determine the eligibility of collateral types that can be accepted by the Bank. The Bank differentiates collateral types based on its liquidity and existence into solid collateral and non-solid collateral. Solid collaterals are collaterals which have relatively high liquidity value and/or the existence is permanent (is not easily moved) i.e., cash collaterals and land/building, and therefore, the collaterals can be repossessed or taken over by the Bank when the loan to debtor/group debtor becomes non-performing. Non-solid collaterals are collaterals which have relatively low liquidity value and/or the existence is temporary (easily moveable) i.e., vehicles, machineries, inventories, receivables, etc. At the end of 2014 and 2013, the Bank held collaterals against loans receivables in the form of cash, properties, motor vehicles, guarantees, machineries, inventories, debt securities, etc.

The Bank's policy in connection with collateral as mitigation of credit risk depends on the credit category or facilities provided. For SME loans, all loans should be supported with collateral (collateral basis) whereby at least 50% (fifty percent) of it are solid collaterals. For corporate and commercial loans, the collateral values are determined based on the individual debtor credit worthiness. The collateral value is determined based on the appraisal value at the time of loan disbursement.

For mortgage facility ("KPR"), the Bank requires that all facilities should be supported by collaterals. The Bank applied the Loan-to-Value ("LTV") regulation gradually, starting from the first mortgage facility and so forth, in accordance with the rules imposed by the regulator. Value of the collateral for KPR is calculated based on the collateral value when credit is granted and renewed every 30 (thirty) months. For auto loan facility ("KKB"), the Bank requires that all facilities should be supported by collateral vehicles. The Bank applied the down payment rule, in accordance with the regulation imposed by the regulator.

Subsidiaries' consumer financing receivables are secured by the related certificates of ownership ("BPKB") of the vehicles being financed.

For foreign exchange transactions, either spot or forward, the Bank requires cash collaterals which is set at a certain percentage of facility provided. If the debtor has other credit facilities in the Bank, the debtor may use the collateral that has been given previously to be crossed with each other. The policy on percentage of the required collateral will be reviewed periodically, in line with the fluctuation and volatility of currency exchange rates.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

c. Credit risk management (continued)

iv. Collateral (continued)

Details of financial and non-financial assets obtained by the Bank during the year by taking possession of collaterals held as security against financial assets as of 31 December 2014 and 2013, presented in other assets at the lower of carrying amount and net realizable value were as follows:

	31 December	
	2014	2013
Land	3,332	1,317
Building	68,618	48,811
Other commercial properties	16,443	16,023
Financial assets and other assets	-	1,550
Fair value	<u>88,393</u>	<u>67,701</u>

The Bank generally does not use non-cash collateral for its own operations. The Bank's policy is to realize collaterals which are repossessed as part of the settlement of credit.

v. Financial assets held for trading

As of 31 December 2014 and 2013, the Bank and Subsidiaries had financial assets held for trading at the fair value amounted to Rp 1,672,222 and Rp 1,238,564, respectively (see Note 9). Information on credit quality of the maximum exposure to credit risk of financial assets held for trading was as follows:

	31 December	
	2014	2013
Government securities:		
Investment grade	1,633,073	1,010,407
Corporate securities:		
Investment grade	1,008	191,000
Derivative assets:		
Government of Indonesia and Bank Indonesia as counterparties	-	3,150
Other banks as counterparties	24,657	6,944
Corporates as counterparties	10,967	15,506
Others	2,517	11,557
Fair value	<u>1,672,222</u>	<u>1,238,564</u>

vi. Investment securities

As of 31 December 2014 and 2013, the Bank and Subsidiaries had investment securities at the carrying value amounted to Rp 72,044,824 and Rp 48,407,338, respectively (see Note 14). Information of credit quality on the maximum exposure to credit risk of investment securities was as follows:

	31 December	
	2014	2013
Government securities:		
Investment grade	60,526,034	39,699,292
Corporate securities:		
Investment grade	4,805,677	5,834,768
Non-investment grade	114,723	469,324
Others	6,598,390	2,403,954
Carrying amount	<u>72,044,824</u>	<u>48,407,338</u>

d. Liquidity risk management

The Bank emphasizes the importance of maintaining adequate liquidity to meet its commitments to its customers and other parties, whether in loans disbursement, repayment of customers' deposits or to meet operational liquidity requirements. The management of overall liquidity needs is overseen by ALCO, and operationally by the Treasury Division.

The Bank monitors its liquidity by maintaining sufficient liquid assets to repay the customers' deposits, and ensuring that total assets mature in each period is sufficient to cover total matured liabilities.

The Bank's liquid assets mainly consist of placements with Bank Indonesia and other banks, including current accounts with Bank Indonesia and other banks, and cash. If the Bank needs liquidity, the Bank can immediately draw down excess reserve funds over its minimum statutory reserve requirements in the current accounts with Bank Indonesia (*Giro Wajib Minimum* or "GWM"), sell the Certificates of Bank Indonesia ("SBI")/State Debentures ("SUN")/other government securities or sell SBI/SUN/other government securities under repurchase agreements, early redemption of BI term deposits or seek for borrowings from interbank money market in Indonesia. The Bank's primary reserve consists of the minimum statutory reserve requirements and cash held at branches.

In order to reduce risk of dependency to single funding, the Subsidiaries have diversified its funding resources. Besides capital and collection from customers, the Subsidiaries generate funding resources from bank loans and capital market, through bonds and medium-term notes issuance.

	<u>(421,073,559)</u>	<u>(555,472,420)</u>	<u>(518,395,127)</u>	<u>(16,636,886)</u>	<u>(16,733,299)</u>	<u>(3,707,108)</u>

The above tables were prepared based on remaining contractual maturities of the financial liabilities and irrevocable Letters of Credit facility, while for issued guarantee contracts and unused committed credit facility were based on the their earliest possible contractual maturity. The Bank's and Subsidiaries' expected cash flows from these instruments vary significantly from the above analysis. For example, current accounts and saving accounts are expected to have a stable or increasing balance, or unused committed credit facility to customers/other banks are not all expected to be drawn down immediately.

The nominal inflow/(outflow) disclosed in the above table represents the contractual undiscounted cash flows relating to the principal and interest on the financial liabilities or commitments. The disclosure for derivatives show a gross inflow and outflow amount for derivatives that have simultaneous gross settlement (e.g., foreign currency forward).

Analysis on the maturity gap profile of financial assets and liabilities based on remaining contractual maturities as of 31 December 2014 and 2013 is disclosed in Note 37.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

e. Market risk management

i. Foreign exchange risk

The Bank has conducted foreign currency trading in accordance with its internal policies and regulations from Bank Indonesia regarding Net Open Position (“NOP”). In managing its foreign exchange risk, the Bank centralizes the management of its NOP at the Treasury Division, which consolidates daily NOP reports from all branches. In general, each branch is required to square its foreign exchange risk at the end of each business day, although there is a NOP tolerance limit set for each branch depending on the volume of its foreign exchange activity. The Bank prepares its daily NOP report which combines the NOP from consolidated statements of financial position and from administrative accounts (off-balance sheet accounts).

The Bank’s revenue from foreign currency trading is mainly obtained from customer-related transactions and sometimes the Bank has NOP in certain amount to fulfill the customer’s needs, in accordance with Bank’s internal guidelines. Trading for profit-taking purposes (proprietary trading) can only be performed for limited foreign currencies with small limits.

The Bank’s foreign currency liabilities mainly consist of deposits and borrowings denominated in US Dollar. To comply with the NOP regulations, the Bank maintains its assets which consist of placement with other banks and loans receivable in USD.

For internal reporting purposes, the Bank measures its foreign exchange risk by using Value at Risk (“VaR”) method which is based on Historical Simulation approach, while for the Minimum Capital Adequacy Ratio purposes, the Bank uses the Bank Indonesia’s standard method.

Information of Bank’s NOP as of 31 December 2014 and 2013 was disclosed in Note 38.

The Subsidiary has borrowings in foreign currency. The Subsidiary entered derivative contracts to manage its foreign exchange risk.

ii. Interest rate risk

The major component of the Bank’s interest-rate-sensitive liabilities is customer deposits, while its interest-rate-sensitive assets are government bonds, investment securities and loans receivable. ALCO regularly monitors any development in the market and adjusts the interest rates of deposits and loans receivable accordingly.

The Bank uses earning approach and economic value approach to measure interest rate risk in the banking book. The earning approach uses accrual method to measure the sensitivity of Bank’s Net Interest Income to changes in market interest rates. The economic value approach uses Duration method to measure the sensitivity of economic value of productive assets and interest bearing liabilities to changes in market interest rates. In the Duration method, the interest rate risk is defined as a decrease in fair value of all productive asset portfolio and interest bearing liabilities in the banking book due to movement in market interest rates.

The banking book consists of all financial assets/other positions that is not included in the trading book.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

e. Market risk management (continued)

ii. Interest rate risk (continued)

The risk measurement is performed on Rupiah and USD and to be reported to ALCO. To measure interest rate risk on the trading book, the Bank uses VaR method with Historical Simulation approach for internal reporting purposes, while for the Minimum Capital Adequacy Ratio purpose, the Bank uses the Bank Indonesia's standard approach.

The Bank determines the interest rates on deposits from customers based on market condition and competitiveness by monitoring the fluctuations of the base rates and interest rates offered by other banks for similar products. The interest rates on a deposit may vary and depend on maturity and size of the deposit. The interest rates for saving and current account are floating in nature and will be reviewed periodically based on market condition, while the interest rate for time deposit is fixed and depends on the maturity period. The interest rate for credit is determined by adding a certain margin on the Bank's cost of funds (including the cost of Minimum Reserve Requirements).

Cash flow interest rate risk is the risk that future cash flow from financial instruments fluctuates due to the movement in market interest rates. Fair value interest rate risk is the risk that the fair value of financial instruments fluctuates due to the movement in market interest rates. Bank has exposure to the volatility in market interest rates both to the fair value risk and cash flows risk. To mitigate this risk, the Board of Directors have set VaR limits for trading book, which are monitored by the Risk Management Unit on a daily basis.

The Subsidiary is exposed to interest rate risk arising from consumer financing receivables, factoring receivables, other receivables, the issuance of fixed rate bonds payable and medium-term notes payable. The Subsidiary manages the interest rate risk by diversifying its financing sources to find the most suitable fixed interest rate to minimize mismatch.

The table below summarizes the Bank and Subsidiaries' non-trading portfolios at carrying amounts, categorized by the earlier of contractual re-pricing or maturity dates:

	31 December 2014						Total

Total	(326,157,541)	-	(79,390,010)	(8,985,666)	(1,887,384)	(4,539,442)	(420,960,043)
Interest rate re-pricing gap	(83,266,272)	23,205,398	(17,036,651)	535,832	93,234,065	23,959,726	40,632,098

Sensitivity analysis

Based on the re-pricing gap report, the Bank analyzes the sensitivity to 1% (one percent) parallel interest rate movement (increase or decrease), with the following assumptions:

- The movement in interest rate for assets is the same with the movement in interest rate for liabilities; and
- The movement is the same for every maturity period in the yield curve (parallel yield curve movement).

This sensitivity analysis is performed regularly at a monthly basis for ALCO purposes. The following table describes the sensitivity of a reasonably possible change in market interest rate, with all other variables held constant, to the net interest income:

	Year ended 31 December	
	2014	2013
Decrease in interest income due to 1% (one percent) parallel increase in interest rate	(809,089)	(762,220)
Increase in interest income due to 1% (one percent) parallel decrease in interest rate	809,089	762,220

Value at Risk (“VaR”) analysis

The Bank uses Historical Simulation approach in calculating VaR. In the Historical Simulation approach, the simulation requires historical and current market data. By considering last year full year market data and observed relationships between different markets and prices, this approach generates a wide range of plausible future scenarios of market price movement. VaR is defined as the worst possibility of losses at 99% (ninety nine percent) confidence level.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

e. Market risk management (continued)

Value at Risk (“VaR”) analysis (continued)

The Bank uses VaR limits to monitor overall market risk and certain foreign exchange and interest rate risks. The VaR limits are subject to review and approval by management. VaR limits are allocated to trading portfolios. VaR is measured at least once a day. Daily reports of utilization of VaR limits are submitted to related business unit and Risk Management Unit, while the summary is submitted to management.

Although VaR is an important tool for measuring market risk, the assumptions on which the model is based give rise to some limitations, including the following:

- A 10 (ten) days holding period assumes that it is possible to hedge or dispose of positions within that period. This may not be the case for certain highly illiquid assets or in situations in which there is severe general market illiquidity.
- A 99% (ninety nine percent) confidence level does not reflect losses that may occur beyond this level. Even within the model used there is a one percent probability that losses could exceed the VaR.
- VaR is calculated on an end-of-day basis and does not reflect exposures that may arise on positions during the trading day.
- The use of historical data as a basis for determining the possible range of future outcomes may not always cover all possible scenarios, especially those of an exceptional nature.
- The VaR measure is dependent upon the Bank’s position and the volatility of market prices. The VaR of an unchanged position reduces if market price volatility declines and vice versa.

The Bank validates the accuracy of VAR model by performing back-testing on the hypothetical profit or loss.

VaR positions during 2014 and 2013 were as follows:

	31 December			
	2014		2013	
	Foreign exchange	Interest rate	Foreign exchange	Interest rate
Average	14,606.05	7,363.59	28,165.30	8,355.18
Maximum	61,383.86	23,895.67	69,952.16	28,894.00
Minimum	1,414.31	1,979.88	350.04	3,785.73
As of 31 December	2,629.21	4,309.19	770.93	4,555.34

The limitations of the VaR methodology are recognized by supplementing VaR limits with other position and sensitivity limit structures, including limits to address potential concentration risks within each trading assets portfolio. In addition, the Bank uses stress testing to model the financial impact of a variety of exceptional market scenarios, such as non-parallel yield curves shifting and interest rates volatility.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

e. Market risk management (continued)

Value at Risk (“VaR”) analysis (continued)

The Bank monitors the sensitivity of fair value of available-for-sale securities to various standard and non-standard market scenarios, which was tested quarterly, covering parallel increase and decrease of 400 (four hundred) basis points (bps) in all yield curves. The table below describes the sensitivity of fair value of available-for-sale securities to these movements as of 31 December 2014 and 2013, and its impact to equity (in billions of Rupiah):

	31 December	
	2014	2013
Increase in fair value from securities due to 400 (four hundred) bps parallel decrease in yield curve	2,707	3,089
Decrease in fair value from securities due to 400 (four hundred) bps parallel increase in yield curve	(2,482)	(2,604)

f. Operational risk management

Risk and Control Self Assessment (“RCSA”)

Basel Accord II requires Bank to include operational risk as one of the components in the calculation of the Bank’s capital adequacy ratio. In accordance with Basel Accord II, in 2002, the Bank has started to implement Risk Self Assessment (“RSA”) to all regional offices and branches, and all divisions in Head Office. One of the objectives of RSA is to disseminate the risk culture and to increase risk awareness which are the main conditions in managing those risks. By improving the risk culture, it is expected that the employees’ risk control culture in their daily activities will increase.

In its implementation, RSA is continuously being improved with an aim to increase risk awareness in all business units. In 2006, the RSA was supplemented with control factors, and therefore its name was changed into RCSA. From 2007 to 2010, RCSA was implemented using sampling method based on certain criteria, especially for working units that are significantly exposed to operational risk.

Starting 2011, RCSA has been implemented in all business units in branches and Head Office that are significantly exposed to operational risk. The scale of impact and probability of event in RCSA have been re-evaluated and re-validated every year to provide the Bank with more appropriate and accurate risk levels for current business activities and risk profile of each working unit and the Bank as a whole. For the year 2014, the validation and review results of the impact and incurred possibility have been approved by management. The implementation of RCSA is on progress in all branches and regional offices and working units in Head Office that have significant operational risks.

Loss Event Database (“LED”)

Bank has a database of cases or losses related to operational risks occurred in every working unit which is called Loss Event Database (“LED”). The objective of LED is to facilitate the Bank in recording and analyzing cases or problems faced by the Bank, thus preventive and corrective actions can be made for similar cases. The main purpose of LED is to minimize the Bank’s potential losses from operational risks.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

f. Operational risk management (continued)

Loss Event Database (“LED”) (continued)

Further, LED is also used as a tool to summarize the loss data related to operational risks, which is used by Bank to allocate capital charge and to continuously monitor events that can give rise to Bank’s operational losses. Currently, LED has been implemented in all regional offices, branches and working units in head office.

Key Risk Indicator (“KRI”)

KRI is a method used to give indications (early warning sign) of the possibility of increasing operational risks in certain business unit. By the end of 2008, almost all branches had implemented the KRI method. In the early 2009, Bank enhanced KRI methodology by adding 7 (seven) new indicators. This enhancement is used to increase the risk awareness. Since mid 2009, all regional offices and branches have implemented the KRI methodology. In 2013, by considering the development of Bank’s operational activities and to monitor the operational transactions effectively, therefore KRI was improved by using 6 (six) indicators in monitoring the operational risks.

Operational Risk Management Information System (“ORMIS”)

ORMIS is a supporting application used in implementing RCSA, LED and KRI. Currently, all working units of the Bank have used the ORMIS in implementing RCSA, LED and KRI.

g. Consolidated risk management

In accordance with Bank Indonesia regulation No. 8/6/PBI/2006 dated 30 January 2006 regarding the Implementation of Consolidated Risk Management for Banks Performing Control of Subsidiaries, so that the Bank is required to implement a consolidated risk management.

Implementation of consolidated risk management in the Bank is performed based on Bank Indonesia regulation mentioned above, including:

- Active supervision of board of commissioners and directors;
- Adequate policies and procedures limits;
- Adequacy of identification, measurement, monitoring and risk control and risk management information system; and
- A comprehensive internal control.

By referring to the concept for implementation of consolidated risk management, the implementation of risk management framework in Subsidiaries has been indirectly monitored and examined by the Bank’s management.

The Subsidiaries have implemented risk management in line with the implementation of risk management in the Bank (parent entity). Implementation of risk management in the Subsidiaries is aimed to increase competitiveness, as this is one of the Bank’s efforts to comply with the international standards.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

3. FINANCIAL RISK MANAGEMENT (Continued)

g. Consolidated risk management (continued)

The Bank has accounting information system and risk management system that can identify, measure and monitor the business risk of the Banks and Subsidiaries, in order to implement consolidated risk management effectively.

4. USE OF ESTIMATES AND JUDGMENT

This disclosure supplements the commentary on financial risk management (see Note 3).

a. Key sources of estimation uncertainty

a.1. Allowance for impairment losses of financial assets

Financial assets accounted for at amortized cost are evaluated for impairment on a basis described in Note 2v.

The specific counterparty component of the total allowances for impairment applies to claims evaluated individually for impairment and is based upon management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgments about the counterparty's financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy, and estimated cash flows considered recoverable are independently approved by the credit risk unit.

Collectively assessed impairment allowances cover credit losses inherent in portfolios of receivables with similar economic characteristics when there is an objective evidence to suggest that they contain impaired receivables, but the individual impaired items cannot yet be identified. In assessing the need for collective allowances, management considers factors such as credit quality, portfolio size, credit concentrations and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modeled and to determine the required input parameters, based on historical experiences and current economic conditions. The accuracy of the allowances depends on how well these estimated future cash flows for specific counterparty allowances and the model assumptions and parameters are used in determining collective allowances.

a.2. Determining fair values

In determining the fair value of financial assets and liabilities for which there is no observable market price, the Bank and Subsidiaries must use the valuation techniques as described in Note 2i.6. For financial instruments that trade infrequently and have little price transparency, fair value is less objective and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

4. USE OF ESTIMATES AND JUDGMENT (Continued)

b. Critical accounting judgments in applying the Bank and Subsidiaries' accounting policy

Critical accounting judgments made in applying the Bank and Subsidiaries' accounting policies include:

b.1. Valuation of financial instruments

The Bank and Subsidiaries' accounting policies on fair value measurements are discussed in Note 2i.6. The Bank and Subsidiaries measure fair values using the following hierarchy of methods:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Valuation techniques based on observable inputs. This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs could have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect difference between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices. For all other financial instruments, the Bank determines fair values using valuation techniques.

Valuation techniques include net present value and discounted cash flow models and comparison to similar instruments for which market observable prices exist. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other variables used in estimating discount rates, bond prices, foreign currency exchange rates and expected price volatilities and correlations.

The objective of these valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date that would have been determined by market participants acting at arm's length.

(Expressed in millions of Rupiah, unless otherwise stated)

4. USE OF ESTIMATES AND JUDGMENT (Continued)

b. Critical accounting judgments in applying the Bank and Subsidiaries' accounting policy (continued)

b.1. Valuation of financial instruments (continued)

The table below analyzes financial instruments measured at fair value by its level in the fair value hierarchy.

	31 December 2014		
	Level 1	Level 2	Total
Financial assets			
Held for trading			
Financial assets held for trading	1,635,590	1,008	1,636,598
Derivative assets	-	35,624	35,624
	<u>1,635,590</u>	<u>36,632</u>	<u>1,672,222</u>
Available-for-sale			
Investment securities	56,785,357	3,645,031	60,430,388
	<u>58,420,947</u>	<u>3,681,663</u>	<u>62,102,610</u>
Financial liabilities			
Held for trading			
Derivative liabilities	-	14,702	14,702
	<u>-</u>	<u>14,702</u>	<u>14,702</u>
	31 December 2013		
	Level 1	Level 2	Total
Financial assets			
Held for trading			
Financial assets held for trading	1,021,964	191,000	1,212,964
Derivative assets	-	25,600	25,600
	<u>1,021,964</u>	<u>216,600</u>	<u>1,238,564</u>
Available-for-sale			
Investment securities	30,364,851	1,960,991	32,325,842
	<u>31,386,815</u>	<u>2,177,591</u>	<u>33,564,406</u>
Financial liabilities			
Held for trading			
Derivative liabilities	-	113,516	113,516
	<u>-</u>	<u>113,516</u>	<u>113,516</u>

As of 31 December 2014 and 2013, available-for-sale investment securities excluded investment in shares amounted to Rp 128,862 and Rp 167,549, respectively, which were valued at cost, since the fair value cannot be measured reliably.

The Bank dan Subsidiaries did not have financial assets and liabilities measured at fair value which the measurements fall under level 3 (three) hierarchy.

b. Critical accounting judgments in applying the Bank and Subsidiaries' accounting policy (continued)

b.2. Financial asset and liability classification

The Bank and Subsidiaries' accounting policies provide scope for assets and liabilities to be designated on inception into different accounting categories in certain circumstances:

- In classifying financial assets and financial liabilities as "trading", the Bank and Subsidiaries have determined that it meets the description of trading assets as set out in Note 2i.1.
- In classifying financial assets as "held to maturity", the Bank and Subsidiaries have determined that the Bank and Subsidiaries have both the positive intention and ability to hold the assets until their maturity date as required (Note 2i.1).

5. CASH

	31 December	
	2014	2013
Rupiah	18,803,034	15,506,347
Foreign currencies	774,537	777,795
	<u>19,577,571</u>	<u>16,284,142</u>

The balance of cash in Rupiah includes cash in ATMs (Automatic Teller Machines) amounted to Rp 10,266,100 and Rp 7,716,103 as of 31 December 2014 and 2013, respectively.

6. CURRENT ACCOUNTS WITH BANK INDONESIA

	31 December	
	2014	2013
Rupiah	34,887,205	31,228,637
Foreign currencies	3,987,970	4,040,440
	<u>38,875,175</u>	<u>35,269,077</u>

Weighted average effective interest rates per annum of current accounts with Bank Indonesia denominated in Rupiah as of 31 December 2014 and 2013 were 1.69% and 1.62%, respectively.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

11. SECURITIES PURCHASED UNDER AGREEMENTS TO RESELL (Continued)

All securities purchased under agreements to resell as of 31 December 2014 and 2013 were government bonds denominated in Rupiah currency with investment grade ratings.

As of 31 December 2014 and 2013, the Bank did not have balances of securities purchased under agreements to resell with related party.

Management believes that the allowance for impairment losses of securities purchased under agreements to resell as of 31 December 2014 and 2013 were not required.

Weighted average effective interest rates per annum of securities purchased under agreements to resell for the years ended 31 December 2014 and 2013 were 6.25% and 5.33%, respectively.

Information with regard to the classification and fair value of securities purchased under agreements to resell is disclosed in Note 32. Information with regard to the maturity of securities purchased under agreements to resell is disclosed in Note 37.

Balance, end of year	<u>(5,032,082)</u>	<u>(236,890)</u>	<u>(5,268,972)</u>	<u>(342,284)</u>	<u>-</u>	<u>(342,284)</u>	<u>(5,611,256)</u>

^{*)} Including the reversal of discounted effect of allowance for impairment losses on financial assets for the years ended 31 December 2014 and 2013 amounted to Rp 4,433 and Rp 1,647, respectively (see Note 23).

Management believes that allowance for impairment losses provided was adequate to cover possible losses on uncollectible loans receivable. As of 31 December 2014 and 2013, allowance for collective impairment losses on loans receivable to related parties amounted to Rp 796 and Rp 147, respectively.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

12. LOANS RECEIVABLE (Continued)

g. Joint financing

The Bank entered into joint financing agreements with several multi-finance companies for financing the purchase of vehicles. All risks from the loss arising from these joint financing facilities will be borne proportionally by both parties based on respective financing participation (without recourse). The Bank's portion of outstanding balance of joint financing receivable facilities as of 31 December 2014 and 2013 were Rp 33,630,725 and Rp 32,809,708, respectively.

h. Other significant information relating to loans receivable

As of 31 December 2014 and 2013, the Bank had no loans receivable which were pledged as collaterals.

Demand deposits, saving deposits and time deposits pledged as collateral for loans receivable amounted to Rp 10,002,728 and Rp 9,786,254, respectively as of 31 December 2014 and 2013 (see Note 16).

As of 31 December 2014 and 2013, the Bank, at individual level and at consolidated level, complied with Legal Lending Limit (LLL) requirements for both related parties and third parties.

Weighted average effective interest rates per annum of loans receivable were as follows:

	Year ended 31 December	
	2014	2013
Rupiah	10.70%	9.57%
Foreign currencies	4.49%	4.62%

Ratio of small business credits to loans receivable as of 31 December 2014 and 2013 was 0.66% and 0.79%, respectively.

The Bank's non-performing loans (classified as sub-standard, doubtful and loss) as of 31 December 2014 and 2013 amounted to Rp 2,067,459 and Rp 1,372,760, respectively.

As of 31 December 2014, the percentage of non-performing loan ("NPL") - gross and NPL - net was 0.60% and 0.22%, respectively, (2013: 0.44% and 0.19%), which was calculated based on prevailing Bank Indonesia Regulations.

Information with regard to the classification and fair value of loans receivable is disclosed in Note 32. Information with regard to the maturity of loan receivables is disclosed in Note 37. Information with regard to the details of loans receivable by geographic region is disclosed in Note 36.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

13. CONSUMER FINANCING RECEIVABLES

The Subsidiaries' consumer financing receivables at amortized cost were as follows:

	31 December	
	2014	2013
Consumer financing receivables		
- Self-financing	5,368,285	4,420,514
- Share in joint financing with related parties without recourse	5,635,111	3,471,083
Unamortized transaction cost - net	(168,773)	(717,200)
Unrecognized consumer financing income	(3,660,333)	(1,865,386)
Consumer financing receivables, before allowance for impairment losses	7,174,290	5,309,011
Less:		
Allowance for impairment losses	(201,062)	(79,673)
Total consumer financing receivables - net	6,973,228	5,229,338

Contractual interest rates per annum for consumer financing during 2014 and 2013 were 7.04% - 38.53% and 7.04% - 24.00%, respectively.

The Subsidiaries extend consumer financing contracts for 4 (four) wheels vehicle with terms ranging from 1 (one) year to 6 (six) years, while consumer financing contracts for 2 (two) wheels vehicle ranging from 1 (one) year to 4 (four) years.

The movement in the allowance for impairment losses on consumer financing receivables were as follows:

	Year ended 31 December	
	2014	2013
Balance, beginning of year	(79,673)	(76,401)
Beginning balance of acquired subsidiary	(64,652)	-
Addition of allowance during the year	(239,989)	(18,848)
Written-off during the year	183,252	15,576
Balance, end of year	(201,062)	(79,673)

The collection of consumer financing receivables previously written-off amounted to Rp 8,015 and Rp 2,803 in 2014 and 2013, respectively.

As of 31 December 2014 and 2013 consumer financing receivables, before deduction of unearned income, amounted to Rp 3,219,018 and Rp 2,303,375, respectively, were pledged as collateral to short-term loans and overdraft, and debt securities issued.

The consumer financing receivables are secured by the related certificates of ownership ("BPKB") of the vehicles being financed by the Subsidiaries.

As of 31 December 2014 and 2013, the Bank did not have investment securities pledged as collateral.

During the years ended 31 December 2014 and 2013, the Bank reclassified certain held to maturity investment securities to available-for-sale amounted to Rp 4,632,795 (fair value of Rp 4,648,498) and Rp 3,374,010 (fair value of Rp 3,452,746), respectively. Such reclassifications were made for investment closed to its maturity date (will be matured in less than six months) and fulfill the requirements of reclassification requirements in PSAK No. 55 (2011 Revision).

Management believes that changes of interest rate will have no significant impact to the fair value of those investment securities. The balance of available-for-sale securities reclassified from held to maturity as of 31 December 2014 and 2013 were Rp 1,602,044 and Rp 826,534, respectively.

(Expressed in millions of Rupiah, unless otherwise stated)

15. FIXED ASSETS (Continued)

Revaluation of fixed assets

In accordance with Decree of Minister of Finance No. 384/KMK/04/1998 dated 14 August 1998, the Bank has revalued certain fixed assets on 31 December 1998. The revaluation of fixed assets was based on the appraisal report from PT Ujatek Baru dated 24 March 1999 which was determined using market data approach and resulted in fixed asset revaluation difference of Rp 1,043,470. Such fixed asset revaluation difference has been approved by the Jakarta Tamansari Tax Office with its letter No. KEP-2111/WPJ.05/KP.09/1999 dated 3 October 1999.

On 31 October 2000, the Bank revalued certain fixed assets amounted to Rp 141,127 in relation to the Bank's quasi-reorganization. The revaluation of fixed assets was based on the appraisal report from PT Ujatek Baru dated 20 December 2000 which was determined using market data approach.

The fixed asset revaluation difference in 2000 amounted to Rp 141,127 was approved by Listed Company Tax Office with its letter No. KEP-04/WPJ.06/KP.0404/2001 dated 15 June 2001. The fixed asset revaluation difference was allocated to additional paid-in capital due to quasi-reorganization amounted to Rp 124,690.

In 2008, the Bank and Subsidiaries chose the cost method as their accounting policy for fixed assets in accordance with PSAK No. 16 (2007 Revision), "Fixed Assets", and reclassified all remaining fixed asset revaluation difference of Rp 1,059,907 which was presented as part of equity in the consolidated statement of financial position to the consolidated retained earnings.

Other informations

As of 31 December 2014 and 2013, the Bank did not have any fixed assets pledged as collateral.

Depreciation charged to general and administrative expenses for the years ended 31 December 2014 and 2013 amounted to Rp 1,091,858 and Rp 993,473, respectively.

Gain on sale of fixed assets recognized as part of non-operating income, for the years ended 31 December 2014 and 2013, amounted to Rp 1,752 and Rp 14,016, respectively.

The Bank has insured its fixed assets (excluding land rights) to cover the possible losses from fire, theft and natural disaster with a total coverage of Rp 6,547,509 and USD 442,390,508 as of 31 December 2014, and Rp 4,525,887 and USD 331,396,788 as of 31 December 2013. Management believes that the insurance coverage is adequate to cover possible losses from such risks.

As of 31 December 2014 and 2013, the cost of fully depreciated fixed assets that are still in used amounted to Rp 2,474,588 and Rp 2,040,468, respectively.

No impairment losses on fixed assets existed during 2014 and 2013.

c. In accordance with Article 2 of Government Regulation No. 77/2013 regarding the Guidelines on the Implementation and Supervision on the Tariff Reduction for Domestic Tax Payers in the form of Public Companies, signed by President of Republic Indonesia on 21 November 2013, tax payers can receive a reduction of 5% (five percent) lower than income tax rate for a domestic tax payer as stipulated by Tax Law, if the company fulfilled the following criteria:

1. The public owned 40% (forty percent) or more of the total paid up shares and those shares are owned by at least 300 (three hundred) parties.
2. Each party can only own less than 5% (five percent) of total paid-up shares.
3. The tax payer should fulfill the above mentioned criteria at least within 6 (six) months (183 (one hundred and eighty three) calendar days) in 1 (one) fiscal year.

The tax payers should attach the declaration letter from Securities Administration Agency (“*Biro Administrasi Efek*”) to the annual income tax return of the tax payers with the form X.H.1-2 as provided in Decision Letter of the Chairman of Capital Market and Financial Institution Supervisory Agency (“*Bapepam-LK*”) No. KEP-669/BL/2012 dated 13 December 2012 for the respective fiscal year.

On 8 January 2015 and 2014, the Bank received a declaration letter from the Securities Administration Agency for the fulfillment of the above criteria for fiscal year 2014 and 2013, respectively.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

17. INCOME TAX (Continued)

Included in total deferred tax asset and liability of the Bank and Subsidiaries was deferred tax asset and liability arising from unrealized (loss) gain from change in fair value of available-for-sale investment securities (see Note 14) amounted to Rp 19,899 and Rp 4,958 as of 31 December 2014, and Rp 154,730 and Rp 4,813 as of 31 December 2013.

Management believes that total deferred tax assets arising from temporary differences are probable to be realized in the future years.

- h. Under the taxation laws of Indonesia, the Bank and its Subsidiaries in Indonesia calculate and submit/pay individual company tax return (submission of consolidated income tax computation is not allowed) on the basis of self-assessment. The tax authorities may assess or amend taxes within the statute of limitations, under prevailing regulations.
- i. The Bank's 2008 taxes have been audited by tax authorities which resulted in tax underpayment of Rp 136,949. The Bank has paid the tax underpayment and filed an objection letter for certain part of tax audit result with an amount of Rp 120,170. On 9 and 10 September 2013, Directorate General of Tax ("DGT") approved parts of the objection for Value Added Tax ("VAT") and corporate income tax amounted to Rp 15,482, and has been transferred to the Bank on 24 October 2013. In relation with the objection result, the Bank submitted an appeal for the remaining amount of Rp 104,033 to the tax court.

(Expressed in millions of Rupiah, unless otherwise stated)

18. DEBT SECURITIES ISSUED (Continued)

a. Bonds payable (continued)

All bonds, except Subordinated Bonds I, issued by the Subsidiary are collateralized by the fiduciary transfer of consumer financing receivables amounted to Rp 1,000,263 and Rp 1,387,211 as of 31 December 2014 and 2013. During the year that the bond principals are still outstanding, the Subsidiary is not allowed to, among others, transfer, pledge and/or mortgage any of the present or future assets of the Subsidiary, merge and/or consolidate business, take over business, make changes in the Articles of Association regarding the changes of the purpose and objective of the business and grant any credits to or make investments in other parties other than in the ordinary courses of the business.

Total principal and interest of bonds have been paid in accordance with the respective bonds' maturity date.

As of 31 December 2014, the Subsidiary was in compliance with covenants in relation to the bonds payable agreements and complied with all the requirements mentioned in Trusteeship Agreement.

b. Medium-Term Notes ("MTN")

As of 31 December 2014, the outstanding balance of MTN issued by PT BCA Finance, Subsidiary, was as follows:

	31 December 2014
Nominal value:	
Medium-Term Notes III	300,000
Medium-Term Notes IV	120,000
Less:	
Unamortized MTN issuance cost	(6,558)
Total - net	413,442

Medium-Term Notes III BCA Finance ("MTN III") Year 2013

In December 2013, the Subsidiary issued "MTN III Year 2013 with Fixed Interest Rates" with a nominal value of Rp 300,000, interest rate per annum at 8.20% and the maturity date on 4 December 2016. Interest will be paid on a semi-annual basis based on interest payment due date. The first interest payment was made on 4 June 2014 and the final payment along with the repayment of the principal of MTN III.

The Subsidiary assigned PT Nikko Securities Indonesia as monitoring, custodian and payment agent for the MTN III, as stated in the Notarial Deed No. 2 and 3, dated 2 December 2013 of Satria Amiputra A., S.E., Ak., S.H., M.Ak., M.H., M.Kn. The notarial deed provides several negative covenants to the Subsidiary, among other, collateral with fiduciary transfer of consumer financing receivables amounted to Rp 150,067 and Rp 150,075 as of 31 December 2014 and 2013, respectively.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

21. ADDITIONAL PAID-IN CAPITAL

Additional paid-in capital as of 31 December 2014 and 2013 consist of:

	31 December	
	2014	2013
Additional paid-in capital from share capital payments	29,453,007	29,453,007
Elimination of accumulated loss through quasi-reorganization on 31 October 2000 ^{*)}	(25,853,162)	(25,853,162)
Additional paid-in capital from the exercise of stock options	296,088	296,088
Additional paid-in capital from treasury stock transactions (Note 1c)	1,815,435	1,815,435
Difference in values from business combination transaction of entities under common control (Note 2g)	(146,816)	(146,816)
	<u>5,564,552</u>	<u>5,564,552</u>

^{*)} On 31 October 2000, the Bank adopted PSAK No. 51, "Accounting for Quasi-Reorganization" to achieve a "fresh start" reporting. Fresh start reporting requires the revaluation of all its assets and liabilities recorded by using the fair value and elimination of its accumulated deficit. Pursuant to the implementation of quasi-reorganization, the Bank's accumulated losses as of 31 October 2000 amounted to Rp 25,853,162 has been eliminated against the additional paid-in capital. The implementation of quasi-reorganization has been approved by Bank Indonesia through its Letter No. 3/165/DPwB2/IDWB2 dated 21 February 2001 and by the shareholders in their Extraordinary General Meeting of Shareholders on 12 April 2001 (the minutes of meeting prepared by Notary Hendra Karyadi, S.H., in Notary Deed No. 25).

(Expressed in millions of Rupiah, unless otherwise stated)

31. APPROPRIATION OF NET INCOME

The Bank's Annual General Meeting of Shareholders on 7 April 2014 (the minutes was prepared by Notary Dr. Irawan Soerodjo, S.H., MSi., with Notary Deed No. 4) resolved the appropriation of 2013 net income, as follows:

- a. Allocate 1% (one percent) of 2013 net income for general reserve amounted to Rp 142,539.
- b. Distribute cash dividends amounted to Rp 2,958,601 (Rp 120 (full amount) per share) to shareholders who have the right to receive cash dividends. The actual cash dividends paid was Rp 1,849,126 (interim dividend for the year 2013 had been paid on 17 December 2013 amounted to Rp 1,109,475).
- c. Determine tantiem for members of Board of Commissioners and Board of Directors on duty in the year 2013 with maximum amount of Rp 213,807 from the net income for the year 2013. The actual amount of tantiem paid was Rp 213,762.
- d. Determine the remaining 2013 net income after dividends as unappropriated retained earnings.

The Bank's Annual General Meeting of Shareholders on 7 April 2014 also resolved the granting of power and authority to the Bank's Directors to pay interim dividend for the year 2014, where possible, by considering the financial condition of the Bank.

In accordance with the Board of Directors' Decision Letter dated 13 November 2014 No. 135/SK/DIR/2014 regarding the Distribution of Interim Dividend for the year 2014, the Board of Directors resolved that the Bank will pay interim dividends to shareholders from net income for the year 2014 amounted to Rp 50 (full amount) per share. The actual interim dividends paid amounted to Rp 1,232,750.

The Bank's Annual General Meeting of Shareholders on 6 May 2013 (the minutes was prepared by Notary Dr. Irawan Soerodjo, S.H., MSi., with Notary Deed No. 61) resolved the appropriation of 2012 net income, as follows:

- a. Allocate 1% (one percent) of 2012 net income for general reserve amounted to Rp 117,217.
- b. Distribute cash dividends amounted to Rp 2,814,352 (Rp 114.5 (full amount) per share), with estimated shares issued by the Bank (excluding treasury stocks) of 24,456,229,000 shares; the actual cash dividends paid was Rp 1,750,506 (interim dividend for the year 2012 had been paid on 20 December 2012 amounted to Rp 1,063,846).
- c. Determine tantiem for members of Board of Commissioners and the Board of Directors on duty in the year 2012 with maximum amount of Rp 175,826 from the net income for the year 2012. The actual amount of tantiem paid was Rp 175,815.
- d. Determine the remaining 2012 net income after dividends as unappropriated retained earnings.

The Bank's Annual General Meeting of Shareholders on 6 May 2013 also resolved the granting of power and authority to the Bank's Directors to pay interim dividend for the year 2013, where possible, by considering the financial condition of the Bank.

In accordance with of the Board of Directors' Decision Letter dated 7 November 2013 No. 149/SK/DIR/2013 regarding the Distribution of Interim Dividend for the year 2013, the Board of Directors resolved that the Bank will pay interim dividends to shareholders from net income for the year 2013 amounted to Rp 45 (full amount) per share. The actual interim dividends paid amounted to Rp 1,109,475.

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise stated)

32. FINANCIAL ASSETS AND LIABILITIES

Presented below is the comparison of the carrying amounts, as reported in the consolidated statements of financial position, and the fair value of all financial assets and liabilities.

In the following table, financial instruments have been allocated based on their classifications. The significant accounting policies in Note 2i.2 describe how the categories of the financial assets and liabilities are measured and how income and expenses, including fair value gains and losses (changes in fair value of financial instruments), are recognized.

Financial assets have been classified into trading, held to maturity, loans and receivables and available-for-sale financial assets. Financial liabilities have been classified into trading and other financial liabilities measured at amortized cost.

The fair values are based on relevant information available as of the consolidated statement of financial position date and have not been updated to reflect the changes in market condition after the date of consolidated statement of financial position.

The table below sets out the carrying amounts and fair values of the Bank and Subsidiaries' financial assets and liabilities as of 31 December 2014 and 2013:

	31 December 2014						Fair value
	Held for trading	Held to maturity	Loans and receivables	Available-for-sale	Other amortized cost	Total carrying amount

The fair value of securities classified as held for trading was based on quoted market prices.

The fair value of investment securities was determined based on quoted market price or broker/dealer quoted price. If the information is not available, the fair value is estimated using quoted market price for securities which have similar credit characteristics, maturity and yield.

The fair value of investment in unquoted equity shares was assessed based on acquisition cost since the fair value was not available, while investment in quoted shares was valued based on quoted market price.

The fair value of loans receivable, consumer financing receivables, finance leases, fund borrowings and debt securities issued was determined by using discounted cash flows at current market interest rate.

The fair value of financial assets and liabilities other than mentioned above approximates its carrying amount because significant amount of financial assets and liabilities are short-term in nature, and/or repriced frequently.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise specified)

33. POST-EMPLOYMENT BENEFITS

In accordance with Law of the Republic of Indonesia No. 13/2003 relating to labor regulations, the Bank is required to provide post-employment benefits to its employees when their employments are terminated or when they retire. These benefits are primarily based on years of services and the employees' compensation at termination or retirement.

The Bank also had a defined contribution pension plan that covers all permanent employees who fulfilled the criteria determined by the Bank. This defined contribution pension plan is managed and administered by Dana Pensiun BCA which was established by the Bank to manage the assets, generate investment income and pay the post-employment benefits to the employees. The establishment of Dana Pensiun BCA had been ratified by the Minister of Finance of Republic of Indonesia in its Decision Letter No. KEP-020/KM.17/1995 dated 25 January 1995. The contribution to the pension plan is computed based on certain percentage of employees' basic salary, and the contribution from employees and the Bank are 3% (three percent) and 5% (five percent), respectively. Three percent of accumulated contribution from the Bank to the pension fund is used as a deduction of obligation for post-employment benefits.

During the year ended 31 December 2014, the Bank transferred part of its obligation for post-employment benefits to several insurance companies amounted to Rp 800,000, which was recorded as plan assets.

Employment benefits provided by the Bank consist of pension, post-employment healthcare benefits and other long-term compensations. The obligation for post-employment benefits was calculated by PT Sentra Jasa Aktuaria (Biro Pusat Akturia) as the Bank's independent actuary, using the projected-unit-credit method. The main assumptions used by independent actuary were as follows:

	31 December	
	2014	2013
Economic assumptions:		
Annual discount rate	8%	8.5%
Annual basic salary growth rate	10%	9%
Healthcare cost rate	10%	10%

The Bank's obligation for post-employment benefits for the years ended 31 December 2014 and 2013 was in accordance with the independent actuary reports dated 29 January 2015 and 2014, respectively.

a. Obligation for post-employment benefits

The obligation for post-employment benefits as of 31 December 2014 and 2013 was as follows:

	31 December			
	Defined benefit pension plan and other long-term compensations		Post-employment healthcare benefits	
	2014	2013	2014	2013
Present value of net obligation for post-employment benefits	7,261,955	5,545,079	211,003	138,092
Fair value of plan assets	(805,074)	-	-	-
Unrecognized actuarial losses	(2,613,040)	(1,851,829)	(52,149)	(1,535)
Unrecognized past service cost - non-vested	(249,583)	(311,021)	(11,797)	(14,633)
Net obligation for post employment benefits - Bank	3,549,258	3,382,229	147,057	121,924

38. NET OPEN POSITION

The Bank's net foreign exchange positions (Net Open Position or "NOP") as of 31 December 2014 and 2013 were calculated based on prevailing Bank Indonesia Regulations. Based on those regulations, banks are required to maintain the NOP (including all domestic and overseas branches) at the maximum of 20% (twenty percent) of capital.

The aggregate NOP represents the sum of the absolute values of (i) the net difference between assets and liabilities denominated in each foreign currency and (ii) the net difference of receivables and liabilities of both commitments and contingencies recorded in the administrative account (administrative account transactions) denominated in each foreign currency, which are all stated in Rupiah. The statement of financial position NOP represents the sum of the net differences of assets and liabilities on the statement of financial position for each foreign currency, which are all stated in Rupiah.

39. CAPITAL MANAGEMENT

The primary objective of the Bank's capital management policy is to ensure that the Bank has a strong capital to support the Bank's current business expansion strategy and to sustain future development of the business, to meet regulatory capital adequacy requirements and also to ensure the efficiency of the Bank's capital structure.

The Bank prepares the Capital Plan based on assessment of and review over the capital situation in terms of the legal capital adequacy requirement, combined with current economic outlook assessment and the result of stress testing method. The Bank will continue to link financial goals and capital adequacy to risk appetite through the capital planning process and stress testing and assess the businesses based on Bank's capital and liquidity requirements.

The Bank's capital needs are also planned and discussed on a routine basis, supported by data analysis.

The Capital Plan is prepared by the Board of Directors as part of the Bank's Business Plan and approved by the Board of Commissioners. This plan is expected to ensure an adequate level of capital with an optimum capital structure.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise specified)

39. CAPITAL MANAGEMENT (Continued)

Bank Indonesia Circular Letter No. 11/3/DPNP dated 27 January 2009 requires all banks in Indonesia with certain qualification to take into account operational risk in calculating the Capital Adequacy Ratio ("CAR") and must fulfill the CAR at a minimum of 8% (eight percent) by taking into account operational risk.

Bank Indonesia Regulation No. 8/6/PBI/2006 dated 30 January 2006 and Bank Indonesia Circular Letter No. 8/27/DPNP dated 27 November 2006 requires all banks to meet CAR requirements for the bank on an individual and consolidated basis. The calculation of minimum CAR on consolidated basis is performed by calculating capital and risk-weighted assets based on risks from consolidated financial statements as provided in the prevailing Bank Indonesia Regulations.

The Bank calculates its capital requirements based on prevailing Bank Indonesia Regulations where the regulatory capital is analyzed into two tiers:

- Tier 1 capital, which includes issued and fully paid-up capital, additional paid-in capital, general reserve, specific reserve, retained earnings and current year profit. Investment in shares (50%) and book value of goodwill is deducted from tier 1 capital.
- Tier 2 capital, which includes the revaluation of fixed assets and allowable general reserve for financial assets. Investment in shares (50%) is deducted from tier 2 capital.

The CARs as of 31 December 2014 and 2013 calculated in accordance with the prevailing Bank Indonesia Regulations with credit risk, market risk and operational risk were as follows:

Consolidated CAR

	31 December	
	2014	2013

Rental Agreement with PT Grand Indonesia

On 11 April 2006, the Bank signed a rental agreement with PT Grand Indonesia (a related party), in which the Bank agreed to lease, on a long-term basis, the office space from PT Grand Indonesia with a total area of 28,166.88 sqm at an amount of USD 35,631,103.20, including Value Added Tax ("VAT"), with an option to lease for long-term additional space of 3,264.80 sqm at an amount of USD 4,129,972, including VAT. This rental transaction had been approved by the Board of Directors and Shareholders in the Bank's Extraordinary General Meeting of Shareholders on 25 November 2005 (the minutes of meeting was prepared by Notary Hendra Karyadi, S.H., with Deed No. 11). This rental agreement started on 1 July 2007 and will end on 30 June 2035.

The Bank was required to pay an advance on 5 December 2005 amounted to USD 3,244,092.50, including VAT and ten installments of USD 3,238,701.07, including VAT, for a period of 15 April 2006 to 31 December 2006.

As of 31 December 2006, the Bank had paid USD 32,392,402.13, including VAT and it was recorded as other assets. On 2 January 2007, the Bank settled the payments (paid the tenth installment) amounted to USD 3,238,701.07, including VAT.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise specified)

41. TRANSACTIONS AND BALANCES WITH RELATED PARTIES (Continued)

Rental Agreement with PT Grand Indonesia (continued)

On 29 June 2007, the Bank paid the lease for additional space in the 28th and 29th floors of 3,264.80 sqm amounted to USD 4,129,972, including VAT.

This agreement was notarized by Notary Hendra Karyadi, S.H., under Deed No. 14 dated 11 April 2006.

Starting May 2008, the Bank has calculated the amortization for those prepaid rental expenses. As of 31 December 2014 and 2013, amortization of prepaid rental expenses was Rp 86,765 and Rp 73,750, respectively, such that the remaining prepaid rental payment to PT Grand Indonesia as of 31 December 2014 and 2013 was Rp 277,649 and Rp 290,664, respectively, which was recorded as other assets.

On 24 October 2008, the Bank paid security deposits for additional space on the 30th and 31st floors of 3,854.92 sqm amounted to USD 208,165.68. This agreement was notarized in Deed No. 110 dated 22 May 2008 of Notary Dr. Irawan Soerodjo, S.H., MSi.

Rental payment for the 30th and 31st floors started on 1 August 2009, for which in accordance with the agreement between the Bank and PT Grand Indonesia, starting from the first rental payment date (1 August 2009), the Bank will make the rental payments on a quarterly basis until the lease expires.

42. RECLASSIFICATION OF ACCOUNTS

Certain accounts in the consolidated financial statements for the year ended 31 December 2013 have been reclassified to conform with the consolidated financial statements for the year ended 31 December 2014.

	Before reclassifications	Reclassifications	After reclassifications
CONSOLIDATED STATEMENT OF COMPREHENSIVE INCOME			
Net trading income	519,864	646,407	1,166,271
Non-operating income - net	736,939	(646,407)	90,532

43. GOVERNMENT GUARANTEE SCHEME ON THE OBLIGATIONS OF DOMESTIC BANKS

Based on the Law No. 24 regarding Indonesia Deposit Insurance Corporation (*Lembaga Penjaminan Simpanan* or "LPS") dated 22 September 2004, effective 22 September 2005, the LPS was established to provide guarantee on certain obligations of commercial banks based on the prevailing guarantee schemes, in which the guarantee amount could be changed if certain prevailing criteria are met. The law was changed with the Government Regulation as the Replacement of Law No. 3 Year 2008, which was then changed to a law since 13 January 2009 i.e. the Republic of Indonesia Law No. 7 Year 2009.

Based on Government of Republic of Indonesia Regulation No. 66/2008 dated 13 October 2008 regarding the deposit amount guaranteed by LPS, on 31 December 2014 and 2013, the deposit amount guaranteed by LPS for every customer in a bank is at a maximum of Rp 2,000.

As of 31 December 2014 and 2013, the Bank was the participant of this guarantee scheme.

44. NEW REGULATIONS ISSUED

A new regulation have been issued in 2014 and 2013 which can bring significant impact to the Bank's business operations starting from 2014 to 2019:

- PBI No. 15/12/PBI/2013 dated 12 December 2013 regarding the CAR for Commercial Banks.

Bank Indonesia requires banks to meet the CAR with the required minimum percentage in stages, as follows:

2014

- Common equity Tier 1 ratio at minimum of 4.50% from Risk Weighted Assets ("RWA"), both individually and at consolidated level.
- Core capital ratio at minimum of 6.00% from RWA, both individually and at consolidated level.
- The minimum requirement for common equity Tier 1 and core capital ratios are still using components as stated in Bank Indonesia Regulation No. 14/18/PBI/2012 regarding the CAR for Commercial Banks.

2015

- Common equity Tier 1 ratio at minimum of 4.50% from RWA, both individually and at consolidated level.
- Core capital ratio at minimum of 6.00% from RWA, both individually and at consolidated level.
- The minimum requirement for common equity Tier 1 and core capital ratios are using components as stated in Bank Indonesia Regulation No. 15/12/PBI/2013 regarding the CAR for Commercial Banks.

2016

- Common equity Tier 1 ratio at minimum of 4.50% from RWA, both individually and at consolidated level.
- Core capital ratio at minimum of 6.00% from RWA, both individually and at consolidated level.
- Capital Conservation Buffer ratio of 0.625% from RWA.
- Countercyclical Buffer ratio determined by Bank Indonesia in the range of 0% - 2.50% from RWA^{*)}.
- Capital Surcharge ratio for Domestic Systematically Important Bank (D-SIB) determined by authorized authority in the range of 1% - 2.50% from RWA for banks which are determined as having systemic impacts^{**)}.

*) Based on the development of Indonesia macroeconomic condition and Bank Indonesia assessment on this condition, Bank Indonesia could set:

1. different range of Countercyclical Buffer percentage from 0% - 2.50%;
2. implementation of Countercyclical Buffer which is earlier from the specified timeline.

***) The Authority could set the percentage of Capital Surcharge percentage for Domestic Systematically Important Bank (D-SIB) in the higher range of 1% - 2.50%.

44. NEW REGULATIONS ISSUED (Continued)

- PBI No. 15/12/PBI/2013 dated 12 December 2013 regarding the CAR for Commercial Banks (continued).

2017

- Common equity Tier 1 ratio at minimum of 4.50% from RWA, both individually and at consolidated level.
- Core capital ratio at minimum of 6.00% from RWA, both individually and at consolidated level.
- Capital Conservation Buffer ratio of 1.25% from RWA.
- Countercyclical Buffer ratio determined by Bank Indonesia in the range of 0% - 2.50% from RWA^{*)}.
- Capital Surcharge ratio for Domestic Systematically Important Bank (D-SIB) determined by authorized authority in the range of 1% - 2.50% from RWA for banks which are determined as having systemic impacts^{**)}.

2018

- Common equity Tier 1 ratio at minimum of 4.50% from RWA, both individually and at consolidated level.
- Core capital ratio at minimum of 6.00% from RWA, both individually and at consolidated level.
- Capital Conservation Buffer ratio of 1.875% from RWA.
- Countercyclical Buffer ratio determined by Bank Indonesia in the range of 0% - 2.50% from RWA^{*)}.
- Capital Surcharge ratio for Domestic Systematically Important Bank (D-SIB) determined by authorized authority in the range of 1% - 2.50% from RWA for banks which are determined as having systemic impacts^{**)}.

2019

- Common equity Tier 1 ratio at minimum of 4.50% from RWA, both individually and at consolidated level.
- Core capital ratio at minimum of 6.00% from RWA, both individually and at consolidated level.
- Capital Conservation Buffer ratio of 2.50% from RWA.
- Countercyclical Buffer ratio determined by Bank Indonesia in the range of 0% - 2.50% from RWA^{*)}.
- Capital Surcharge ratio for Domestic Systematically Important Bank (D-SIB) determined by authorized authority in the range of 1% - 2.50% from RWA for banks which are determined as having systemic impacts^{**)}.

*) Based on the development of Indonesia macroeconomic condition and Bank Indonesia assessment on this condition, Bank Indonesia could set:
1. different range of Countercyclical Buffer percentage from 0% - 2.50%;

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise specified)

44. NEW REGULATIONS ISSUED (Continued)

- PBI No. 15/12/PBI/2013 dated 12 December 2013 regarding the CAR for Commercial Banks (continued).

The above CAR is in accordance with risk profile, which is determined as minimum as follows:

- 8% of RWA for banks with risk profile rating of 1 (one).
 - 9% to less than 10% of RWA for banks with risk profile rating of 2 (two).
 - 10% to less than 11% of RWA for banks with risk profile rating of 3 (three).
 - 11% - 14% of RWA for banks with risk profile rating of 4 (four) or 5 (five).
- POJK No. 16/POJK.03/2014 dated 18 November 2014 regarding The Assessment of Asset Quality of Sharia Commercial Bank and Sharia Business Unit.
 - The bank is required to calculate and establish allowances (“PPA”) for productive and non-productive assets. PPA is in the form of general and specific reserves for productive assets and specific reserve for non-productive assets. Collaterals can be used as deduction in PPA calculation. At least, the collateral used as the deduction of PPA has to be assessed by an independent appraisal or bank internal appraisal. The collateral value shall not exceed the collateral binding value.
 - The bank is required to calculate and establish allowance for impairment losses (“CKPN”) based on applicable financial accounting standards.
 - The bank is required to consider PPA for productive assets and allowance for impairment losses booked for the calculation of CAR. If the result of required PPA calculation for productive assets is higher than the allowance for impairment losses amount, the bank is required to calculate the difference between PPA calculation and the allowance for impairment losses as the deduction of capital in the CAR calculation. If the result of required PPA calculation for productive assets is equal or lower than the allowance for impairment losses amount, the Bank is not required to consider the exceed of PPA calculation in the CAR calculation.
 - The bank is required to implement the accounting treatment for restructuring of financing in accordance with the applicable financial accounting standards.
 - This POJK became effective on 1 January 2015.
 - POJK No. 17/POJK.03/2014 dated 18 November 2014 regarding Implementation of Integrated Risk Management of Financial Conglomeration.
 - A Financial Conglomeration, which comprised of Financial Service Institutions (“LJK”) that are managed under one group or conglomeration because of their relationships due to ownership and/or control, is required to implement a comprehensive and effective Integrated Risk Management. In implementing the Integrated Risk Management, Financial Conglomeration has a structure of a Principal Entity and subsidiaries, and/or affiliated entities as well as their subsidiaries.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise specified)

44. NEW REGULATIONS ISSUED (Continued)

- POJK No. 17/POJK.03/2014 dated 18 November 2014 regarding Implementation of Integrated Risk Management of Financial Conglomeration (continued).
 - The implementation of Integrated Risk Management shall include at least:
 - a. Monitoring by Directors and Board of Commissioners of the Principal Entity;
 - b. Adequacy of policies, procedures and limit determination of Integrated Risk Management;
 - c. Adequacy of integrated process on the identification, measurement, monitoring and control the risks, as well as Integrated Risk Management information systems; and
 - d. Comprehensive internal control systems on the implementation of Integrated Risk Management.
 - The Principal Entity is required to establish an Integrated Risk Management Committee and Risk Management Working Unit and to prepare an integrated risk profile report on a semi-annual basis i.e., every end of June and December. The report is to be submitted to OJK at the latest by the 15th (fifteenth) of the second month after the end of the abovementioned month end.
 - The requirement to submit risk profile report will start for the first time for the reports as of the following position:
 - a. June 2015, for Principal Entity that is a bank catagorized as BUKU 4;
 - b. December 2015, for Principal Entity that are banks other than BUKU 4 and non-banks.
- POJK No. 18/POJK.03/2014 dated 19 November 2014 regarding Implementation of Integrated Governance of Financial Conglomeration.
 - The Principal Entity is required to implement an Integrated Governance. Such implementation at the minimum includes the requirements of Directors and Board of Commissioners of the Principal Entity, role and responsibility of Integrated Governance Committee, role and responsibility of integrated compliance working unit, role and responsibility of integrated internal audit working unit, implementation of integrated risk management, and the preparation and implementation of the Guidance of Integrated Governance. The Directors of the Principal Entities is required to ensure the implementation of the Integrated Governance in the Financial Conglomeration.
 - Principal Entity is required to submit the report on LJK that becomes the Principal Entity and LJK that becomes members of a Financial Conglomeration to OJK. The report is required to be submitted at the latest by the 20th (twentieth) working days after the formation of a new Financial Conglomeration, and includes the selection of the Principal Entity, changes to the Principal Entity, changes to members of Financial Conglomeration and/or the discharge of a Financial Conglomeration.
 - Reports regarding LJK that become Principal Entity and LJK that become members of a Financial Conglomeration should be submitted for the first time at the latest by 31 March 2015.

PT BANK CENTRAL ASIA Tbk AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED 31 DECEMBER 2014 AND 2013

(Expressed in millions of Rupiah, unless otherwise specified)

44. NEW REGULATIONS ISSUED (Continued)

- POJK No. 21/POJK.03/2014 dated 18 November 2014 regarding the CAR for Sharia Commercial Banks.
 - The bank is required to provide a minimum capital in accordance with its risk profile and calculated using the CAR. The required minimum CAR is determined as follows:
 - a. 8% of RWA for banks with risk profile rating of 1 (one).
 - b. 9% to less than 10% of RWA for banks with risk profile rating of 2 (two).
 - c. 10% to less than 11% of RWA for banks with risk profile rating of 3 (three).
 - d. 11% - 14% of RWA for banks with risk profile rating of 4 (four) or 5 (five).
 - OJK is authorized to determine the greater minimum capital than the abovementioned minimum capital when OJK assesses that the Bank is facing potential losses which requiring a greater capital. The calculation of CAR according to the risk profile is due for the first time using risk profile rating on December 2014.
 - This POJK became effective on 1 January 2015.
- POJK No. 30/POJK.03/2014 dated 19 November 2014 regarding Good Governance for Financing Company.
 - The financing company should follow the basic concepts of good corporate governance, including transparency, accountability, responsibility, independency and fairness. A guidance and standard operating procedures should be prepared to perform these principles. Besides, the main parties of financing company, i.e., controlling shareholder, directors, commissioners, expatriates and sharia supervisory board (if any) are required to complete the fit and proper test conducted by OJK before occupying the position.
 - A financing company with assets of more than Rp 200 billion should have at least 3 (three) directors, 2 (two) commissioners, 1 (one) Independent Commissioner, an Audit Committee, and a function that assists the Commissioner to monitor and ensure the effectiveness of internal control system and the implementation of internal and external auditors' duties. A financing company with assets of less than Rp 200 billion should have at least 2 (two) directors.
 - This POJK became effective on 1 January 2015.

The Bank and Subsidiaries are still in the process of analyzing the impact from adopting these regulations.

Organization Structure

As of 31 December 2014

Board of Commissioners Profile

Djohan Emir Setijoso
President Commissioner

Djohan Emir Setijoso (aged 73) has been the President Commissioner of BCA since August 25, 2011. Previously, he served as President Director of BCA from 1999 to 2011, with the latest responsibility for General Coordination, Internal Audit Division, Financial Control and Corporate Affairs. Prior to joining the Bank, he held various positions at Bank Rakyat Indonesia from 1965 to 1998 with the last position as Managing Director; and President Commissioner of Inter Pacific Bank from 1993 to 1998. Aside from serving as the President Commissioner of BCA, he is actively involved in various organizations, among others as a Member of the Daily Board of the Indonesian Employers Association (APINDO) and Honorary Board of the Indonesian Issuers Association (AEI) since 2011, and Member of the Advisory Board of the Indonesian Banks Association (Perbanas) since 2009. 6) discussion on material commitments for capital expenditures, including the explanation on the purpose of such ties, source of funds expected to fulfill the said commitment, currency of denomination, and steps taken by the company to protect the position of a related foreign currency against risks;	202
7) information and material facts that occurred after the date of the accountant's report (subsequent events);	202
8) information on company prospects in connection with industry, economy in general, accompanied with supporting quantitative data if there is a reliable data source;	31, 42-43, 210-211
9) comparison between target/projection at beginning of year and result (realization), concerning revenue, profit, capital structure, or others that deemed necessary for the company;	40, 197
10) target/projection at most for the next one year, concerning income, profit, capital structure, dividend policy, or others that deemed necessary for the company;	31, 42-43, 210-211
11) marketing aspects of the company's products and services, among others marketing strategy and market share;	206
12) Description regarding the dividend policy and the date and amount of cash dividend per share and amount of dividend per year as announced or paid during the past two (2) years;	24, 198
13) Use of proceeds from public offerings:	n.a
a. during the year under review, on which the Issuer has the obligation to report the realization of the use of proceeds, then the realization of the cumulative use of proceeds until the year end should be disclosed; and	n.a
b. in the event that there were changes in the use of proceeds as stipulated in Rule No. X.K.4, then Issuer should explain the said changes;	n.a
14) Material information, among others concerning investment, expansion, divestment, acquisition, debt / capital restructuring, transactions with related parties and transactions with conflict of interest that occurred during the year under review, among others include:	199
a. transaction date, value, and object;	√
b. names of transacting parties;	√
c. nature of related parties (if any);	√
d. description of the fairness of the transaction;	√
e. compliance with related rules and regulations;	√

FORM AND CONTENT OF THE ANNUAL REPORT	Page
15) changes in regulation which have a significant effect on the company and impacts on the company (if any);	200
16) changes in the accounting policy, rationale and impact on the financial statements (if any).	200
G. Corporate Governance	212-323
Corporate Governance contains short descriptions of at least the following items	
1) Board of Commissioners, including:	234-243
a. description of the responsibility of the Board of Commissioners;	234-236
b. disclosure of the procedure and basis determining remuneration, and amount of remuneration for members of the Board of Commissioners;	241-242
c. disclosure of the company's policy and its implementation, frequency of Board of Commissioners meetings including joint meetings with the Directors, and attendance of the members of Board of Commissioners in the meetings;	239
2) Directors, including:	244-254
a. scope of duties and responsibilities of each member of the Directors;	244-251
b. disclosure of the procedure and basis determining remuneration, and amount of remuneration for members of the Board of Directors, and the relation between remuneration and performance of the company;	250-252
c. disclosure of the company's policy and its implementation, frequency of Board of Directors meetings including joint meetings with the Board of Commissioners, and attendance of the members of Board of Directors in the meetings;	249-250
d. resolutions from the GMS of the previous fiscal year and its realization in the year under review, and explanation for the unrealized resolution; and	223-232
e. disclosure of company policy concerning assessment on the performance of the member of the Directors (if any);	250
3) Audit Committee, includes among others:	255-258, 514-515
a. name;	255-258, 514-515
b. history of position title, work experience and legal basis for appointment;	256, 512-513
c. history of education;	512-513
d. tenure of members of Audit Committee;	257
e. disclosure of independence of the members of the Audit Committee;	257-258
f. disclosure of the company's policy and its implementation, frequency of Audit Committee meetings, and attendance of the members of Audit Committee in the meetings;	258-259
g. brief report on the activities carried out by the Audit Committee during the year under review in accordance with the charter of the Audit Committee;	259
4) other committees owned by Issuer or Public Company supporting the functions and duties of the Board Directors and/or the Board of Commissioners, such as nomination and remuneration, including:	260-281
a. name;	259, 261, 514-515
b. history of position title, work experience and legal basis for appointment;	259, 261, 514-515
c. history of education;	514-515
d. tenure of members of the committee;	259, 263
e. disclosure of the company's policy concerning the independence of the committee;	259, 264
f. description of duties and responsibilities;	260-281
g. disclosure of the company's policy and its implementation, frequency of committee meetings, and attendance of the members of committee in the meetings;	260-281
h. brief report on the committee activities carried out during the year under review;	261, 264
5) description of tasks and function of the Corporate Secretary:	282-283, 516
a. name;	282, 516
b. history of position title, work experience and legal basis for appointment;	282, 516
c. history of education;	516
d. tenure of the corporate secretary;	282
e. brief report on Corporate Secretary activities carried out during the year under review;	283
6) description of the company's internal audit unit:	284-286
a. name;	284
b. history of position title, work experience and legal basis for appointment;	284
c. qualification/certification of internal audit professionals (if any);	284
d. structure or position of the internal audit unit;	285
e. duties and responsibilities of the internal audit unit according to the internal audit unit charter; and	284-285
f. brief report on the committee activities carried out during the year under review;	285
7) description of the company's internal control, at least contains:	296-297
a. financial and operational control, and compliance to the other prevailing rules;	296-297
b. review the effectiveness of internal control systems;	297

Cross Reference of Financial Services Authority-OJK
